Fatigue Before Victory

Harold Wilson, leader of Britain's Labor party, appears exhausted in the above picture, taken at the end of a brief but tough, campaign. Today, however, he had reason to smile, for though he may not have won a clear-cut victory at the polls, he has confounded the experts and toppled Prime Minister Heath.

Polls Prove Snare

Election Gamble by Heath Ends in Disaster Say Papers

LONDON (AP) — Prime Minister Edward Heath's gamble on national elections to decide "who runs Britain" has ended in disaster, British newspapers say today.

Instead of gaining a reinforced Conservative majority to stand firm against striking coal miners and other unions, Heath opened the door to 10 Downing Street for Labor rival Harold Wilson, the papers say.

The Times and other papers criticize the opinion polls which throughout the three weeks of campaigning had plumped for a Conservative win.

"As in 1970," says The Times, "the message of the opinion polls, which with scarcely an exception had shown the Conservatives fairly comfortably in the lead throughout the campaign, proved to be a snare and a delusion."

The Conservative Daily Telegraph admits "dismay" over the swing to Labor.

"All that can be hoped is that if there is a Labor government, the Liberals will prevent the wilder excesses promised by Labor's left-dominated policies," it says editorially.

Political editor Walter Terry, writing in the pro-Conservative Daily Express, says Heath's decision to call the election 16 months before his term ended was an historic miscalculation."

The Weather

Synopsis: A brief return to colder weather will be followed by milder air again on the weekend in southern Ontario. Northwest winds and temperatures around freezing combined to usher in March today. Skies will cloud over again Saturday as temperatures rise into the upper 30s. Little precipitation is expected over the south in the next two days.

Bread Price Increase May Be Pared a Cent

OTTAWA (CP) — The baking industry faces possible government opposition to its plans to raise bread prices four cents a loaf.

The food prices review board issued a report Thursday recommending a maximum increase of two cents a loaf immediately and an additional cent "at some future date."

Questioned in the Commons before the report was released, Consumer Affairs Minister Herb Gray said the government would be "prepared to exercise our responsibility" after studying the document.

The review board said in its 26-page report that some bakeries had cost increases ranging from one cent to 1 ½cents for a 24-ounce loaf of white bread between last September and early February.

Thus, a retail price increase of "not more than two cents a loaf" was indicated. An additional cent increase later might be justified later, but only when increased costs for sugar, milk products and labor "are actually incurred by the individual firm."

Estimates Are Presented

OTTAWA (CP) — Highlights of the federal government's $22 billion spending proposals for the 1974-75 fiscal year beginning April 1:

—Total $2.4 billion, or 11 percent, greater than the $19.5 billion spending forecast for the current fiscal year ending March 31.

—Major increase, more than half, for higher health and welfare payments which the government says are designed to blunt rising living costs.

—Family allowance payments nearly double last year's figure at $1.8 billion.

—Total $100 million in new projects to develop nuclear, coal, oil and gas resources to avoid threatened energy shortages.

—New spending of $1.5 million is provided for new food storage facilities aimed at encouraging increased agricultural production.

—More than half total spending—$11.5 billion—required by law, including $6.4 billion for health and welfare and $2.9 billion on the public debt.

For Detailed Stories On Estimates See Page 5

Four Western Canada Premiers Unite to Plan Industrial Development of Their Provinces

SASKATOON (CP) — The premiers of the four western provinces united their backs on the federal government Thursday and vowed to formulate their own industrial development strategy.

Premier Dave Barrett of British Columbia said Western Canada should be developed on a rational basis to end cutthroat competition between the provinces.

The premiers said at a news conference following a two-day closed meeting that they are forced to look after their own industrial development because Ottawa has proven unreliable and unresponsive.

They said Ottawa still treats the West as a "supplier of raw materials for the rest of Canada."

A disproportionate amount of money is flowing from their agencies to Central Canada," said Premier Ed Schreyer of Manitoba.

In this past, development" strategy for a region has been handled by the federal government in go-operation with the provinces, while each provincial government looked to progress within its own borders.

"The four of us have to do the best possible job for our own jurisdictions but we are in agreement with the concept of balanced growth, not growth for growth's sake;" said Premier Barrett.

The four government would not refuse federal help but they wanted to do the planning themselves.

"We all gain by this sort of intelligent working together, avoiding duplication," said Premier Peter Lougheed of Alberta.

Per example, if there was only room in the West for one auto assembly plant, the industry ministers from all four jurisdictions but we are in agreement with the concept of balanced growth, not growth for growth's sake;" said Premier Barrett.

As a first step, the premiers agreed to locate an institute to test farm machinery in Humboldt, Sask., financed jointly by the three Prairie provinces.

The premiers plan to devote more attention to the strategy for industrial development at their next meeting to be held in early eight months in British Columbia.

Their meeting was held primarily to assess action on Ottawa's promises at the Western Economic Opportunities Conference in Calgary last summer.

The premiers said Prime Minister Trudeau has not followed through on his promises to help eliminate transportation barriers; the 18-month freeze on freight - rate increases promised at the Calgary conference is gradually being eroded by the railways; there were not enough boxcars in the West; and the Canadian Transport Commission, after four years, still was sitting on a test case involving freight rates for rapeseed.

Their communique said the West is not getting its fair share of federal purchasing contracts, despite Ottawa's promises.

They sought a guarantee that Ottawa buy at least a fixed minimum proportion of its supplies each year from western companies.

They also sought better use of the Export Credit Corp. in Western Canada through a restructuring that would allow financing on export sales of less than $1 million.

Minority Rule Certain

Labor Lead Small So Heath May Stay

LONDON (CP) — Harold Wilson's Labor party inched toward a knife-edge margin in the British Commons today but with no certainty that he would take over the government from Conservative Prime Minister Edward Heath.

As the count from Thursday's general election hit the final stages, the difference between the two major parties was so thin that power appeared to hinge on which could obtain backing from the Liberals and a handful of miscellaneous independents.

With only a smattering of seats left to be counted, the possibility of a majority government had been mathematically eliminated as electors repudiated Heath's call for a strengthened mandate to deal with industrial and economic crises.

As only 13 ridings remained to be declared, former prime minister Wilson headed a group of 300 and Heath was five seats behind in results. Britain's first minority situation since the 1929 general election.

Jeremy Thorpe's Liberal party had 11 seats at this point—the same number that this key group had when Heath dissolved the parliament in the midst of a general coal strike that crippled the country.

Heath, who gave up a 16-seat over-all majority to try for a bigger one, gave no indication of trying to make a deal with the Liberals or any other party to stay as head of government.

Ner did Wilson, and there were suggestions from Labor headquarters that the party would try to go it alone as a minority government if called on by the Queen.

Thorpe, with the Liberals in a power seat for the first time since before the Second World War, said he would make no commitment until he met his MP colleagues Monday.

While crowds built up around 10 Downing Street as they awaited Heath's decision on his next move, there was no clue as to which of a number of options he might pursue.

Constitutionally, he can carry on until defeated in Parliament. He could try to continue with Liberal support, either by tacit agreement or by coalition.

He could resign and let Wilson—who governed between 1964 and 1970—form a minority or coalition administration.

Wilson consulted members of his shadow cabinet at Labor party headquarters a few hundred yards from 10 Downing Street and later told reporters:

"It is imperative a government must be quickly formed to deal with the most pressing problems. A minority government may not be the long-term answer but there might be no alternative."

From his North Devon constituency, Thorpe said there was no question "no fair" of trading terms with other parties for Liberal support.

Heath's troubles, partly due to the miners' strike, were compounded in the final stages of the count today as returns from Northern Ireland showed his power base there crumbling in a tide of sectarian and hard-line anti-Roman Catholic candidates.

Some predictions gave these "Protestant loyalists," who oppose the British government's moves to give Catholics a more equal electorally, as many as eight of Ulster's 12 seats in the Commons.

Loyalist leader Ian Paisley, who was re-elected, said he and his followers will not give automatic support to the Conservatives as they have often done in the past.

Other question marks involved Scottish and Welsh Nationalists, who made inroads into the Conservative ranks by electing at least seven seats—one of them defeating Heath's secretary for Scotland, Gordon Campbell.

Ironically, the Conservatives were up by a higher share of the popular vote than Labor—39 against 38 per cent. The Liberals had more than doubled their share to 19 per cent, though this was reflected only fractionally in their numbers elected.

When Heath called a snap election to strengthen his hand in dealing with industrial and economic crises, his party had 323 of the Commons' 630 seats of the last Parliament with Labor holding 287, Liberals 11 and other groups nine.

Meanwhile, the London stock market plunged and the pound dropped in apparent anticipation of a Labor government. Wilson is faced with demands from within his party for nationalization of major industries and has promised to try to renegotiate Britain's newly-established Common Market membership.

Faulty Beacon Said Cause Of Arctic Crash

TORONTO (CP) — Lloyd Nichol, 39, pilot of the executive jet that crashed near Frobisher Bay Wednesday night killing five people, was "shut down the garden path" by a faulty beacon, Harry Kelly, a veteran Arctic pilot, said Thursday.

Search and rescue officials said the beacon, near Frobisher Bay, was switched on 25 minutes at the time of the crash.

The twin-engine jet, owned by Brethour Realty Services Ltd. of Toronto, was lost and found when a CP Air trans-Atlantic flight monitored a distress signal. The wreckage was found by an RCMP search plane Thursday at Newton Fiord, 46 miles east of Frobisher Bay in the Eastern Arctic.

The Sabreliner, on a flight from Stuttgart, West Germany, to Toronto disintegrated on impact with a rocky hillside, RCMP reported. The passengers were returning from a winter vacation in Spain.

Nixon's Aides Indicted

WASHINGTON (AP) — Former presidential aides H. R. Haldeman and John Ehrlichman were indicted today by a federal grand jury on charges they tried to block the investigation of the 1972 break-in at Democratic party headquarters in the Watergate building here.

Also indicted were former Attorney-General John Mitchell; former White House special counsel Charles Colson; former assistant Attorney-General Robert Mardian; former presidential aide Gordon Strachan, and Kenneth Parkinson, a lawyer for President Nixon's re-election finance committee.

In addition the grand jury handed a sealed report to U.S. District Judge John Sirica, along with two black suitcases containing evidence.

Sirica instructed the grand jury that it is not dismissed and might be called to resume hearings in two weeks.

The charges:

—Ehrlichman, one count of conspiracy to obstruct justice, one count of lying to FBI agents and two counts of lying to the grand jury or the court.

—Haldeman, one count of conspiracy to obstruct justice and three counts of perjury.

—Mitchell, one count of conspiracy to obstruct justice, two counts of lying to a grand jury or court, one count of perjury and one count of lying to FBI agents.

—Strachan, Mardian and Parkinson, one count each of conspiracy to obstruct justice.

—Strachan, one count of conspiracy to obstruct justice and one count of lying to a grand jury or court.

Each charge carries a maximum penalty of five years in prison and fines ranging from $2,000 for perjury to $10,000 for lying to a grand jury or court.

Edward Heath
— his gamble failed

News Briefs

McKeough Blames Arabs

WATERLOO, Ont. (CP) — Ontario Energy Minister Darcy McKeough said Thursday he blames Arab countries, not the oil companies, for steep North American oil prices. He said in an interview that oil companies have added "maybe a penny or something" unnecessarily to gasoline prices since the crisis began six months ago. However, the real cause of the shortage and price increase is production cuts by Arab countries since the last Arab - Israel war.

Import Curbs Urged

CHICAGO (Reuter) — Leonard Woodcock, president of the United Automobile Workers' union, called on Congress Thursday to impose temporary restrictions on the number of foreign cars imported into the United States to protect the jobs of U.S. auto workers.

Transit Scheme Doubted

TORONTO (CP) — There have been unexplained delays in the construction of a test track for the government's proposed multi-million dollar Toronto transportation system, Opposition Leader Robert Nixon said in a statement Thursday. He urged Premier William Davis to abandon the $17-million experiment. He said the magnetic levitation system proposed by the German firm of Krauss-Maffei, "has been seriously discredited" as a solution to Ontario's urban transportation problems.

Lalonde to See Bassett

TORONTO (CP) — Health Minister Marc Lalonde will meet businessman John Bassett Jr., probably Monday, to discuss the latter's proposal to start a World Football Team in Toronto, Mr. Lalonde mentioned the meeting to reporters outside the Commons and said he will use federal legislation, if necessary, to keep the United States league out of Canada.

Costly System

TORONTO (CP) — The Ontario government's Dial-a-Bus system is costing taxpayers $2.79 for every passenger who rides it, Reuben Baetz, chairman of the Toronto Transit Commission (TTC), said Thursday. Mr. Maltese revealed that when Dial-a-Bus first started in the borough of North York last fall, it was costing $3.17 in subsidies for every ride. But recently, however, more figures indicate the system has attracted more passengers and the subsidy now is down, to about $2.79 per ride.

Arbitration Favored

TORONTO (CP) — Labor Minister John Munro suggested Thursday that voluntary arbitration of unresolved issues might solve problems when the railways and unions begin a new round of bargaining later this year. Mr. Munro, who spoke to the Canadian Pacific employees' luncheon club, said his department is arranging to meet officers of the Canadian Railway Labor Association to explore the possibilities of change in bargaining procedures.

Word Still Awaited

SAN FRANCISCO (AP) — Randolph Hearst still is waiting for word from his daughter's kidnappers, although about 45,000 persons now have received food in response to an initial demand of the terrorist Symbionese Liberation Army (SLA). About 30,000 persons received the food, mostly containing frozen chicken, fresh fruit, vegetables and other items at 10 San Francisco Bay area distribution centres.

DEATHS

BROWN, Clayton A. (Brownie) — Peacefully at the Belleville General Hospital, on the Canadian Forces Memorial Hospital on Thursday, Feb. 28, 1974, in his 88th year. Mr. Brown was the late Mr. and Mrs. Hiram W. Brown, and was born in Tweed, Ont. He was a member of Christ Church, Tweed, both of Belleville, and (Dessie) Mrs. Nancy Ruth Orlando, Fla. He is also survived by several nieces and nephews. Two brothers, Barton and Charles predeceased him. The funeral will be held Saturday, March 2 from the Thompson Funeral Chapel to the Standard Church for service at 1.30 p.m. conducted by Rev. Barney Wood.

ALBERT T. SHIRLEY — Albert T. Shirley died Feb. 28, 1974 at Deloreo Villa, Belleville. He was in his 82nd year.

Born in Berkhamsted, Hertfordshire, England, he lived in Belleville for the last 18 years and before that in Montreal. Mr. Shirley was a member of St. Thomas Church and a former member of Royal Canadian Legion Branch 99.

Predeceased by his wife, the former Florence Edith Lewis in January, 1971, he is survived by two nephews, Bernard Sweeney of New York City and Terence of California.

The funeral will be held in the Thompson Funeral Chapel March 2nd at 2.30 p.m. with Rev. Peter Tett officiating. Interment will be in Belleville Cemetery.

MALCOLM G. WOOD — Filston

The funeral of Malcolm G. Wood of Filston was held from the Rush Funeral Home to St. Paul's Anglican Church, where service was conducted by Rev. Canon Ralph Neal. Interment was in St. Peter's Cemetery, Filston.

The bearers were Floyd Lucas, Arthur Freeburn, Alex Mercer, Ralph Neal, Gordon Neal McLuckie and John Hushion.

Mr. Wood died Feb. 18 in Belleville General Hospital following a two-month illness. He was 63.

Son of Mr. and Mrs. Charles Wood, he was a lifetime resident of the Filston area. He was a retired farmer and was a member of St. Paul's Anglican Church.

Aside from his wife, the former Irene Reinhold, he is survived by the following children: Mrs. Larry (Marion) Thompson, of Newcastle, Gordon Wood, of Brampton and Mrs. Ron (Muriel) Rosenplot, of Kingston.

The following brothers also survive: Hugh Wood, of Belleville and Lloyd Wood of Peterborough - - he was predeceased by brothers and sisters: Ross, Stuart, Eva and Hazel.

MRS. PERCY DOWN — Trenton

Rev. Keith Sprackett of Bethel Temple Church in Trenton conducted the funeral Feb. 25 for Mrs. Percy Down, 25 Bondhead St., Trenton, who died Friday in Trenton Memorial Hospital.

The funeral was held from the Weaver Funeral Home to Bethel Temple for the service with interment in Mount Evergreen Cemetery.

The bearers were grandsons Gary Down, James Johnson, Barry Down, Brian Thompson, Paul Oxford and David Down.

Born in Sidney township 79 years ago, Mrs. Down was the daughter of the late Mr. and Mrs. William Nicholson and was a lifetime resident of the Trenton area. She had been in failing health for the past two months.

She was a member of Bethel Temple.

Aside from her husband, Percy I. Down, she is survived by sons Gerald Fraser, Carrying Place, Garnet Fraser, Elwood and George Down, all of Trenton, and daughters Mrs. Howard (Theresa "Jean") Johnson, Mrs. Cecil (Geraldine) Claudette both of Trenton, Mrs. Jack (Beulah) Probert of Campbellford, and Mrs. Oscar (Marlene) Ibert of Edmonton, Alta.

There are 23 grandchildren and 25 great-grandchildren, and a niece, Mrs. Gordon (Verla) Thompson of Armstrong B.C.

A sister, Mrs. Ethel Juby predeceased her.

MRS. WILLIAM ARCHER — Marmora

Funeral service was held on February 22 for Mrs. Mary Bella Archer, who died on February 20 at Belleville General Hospital She was 73.

Mrs. Archer, of 20 Victoria Street in Marmora, was born in Seymour Township. Her husband, William, predeceased her on February 13 of this year.

She had lived in this area for 46 years and was ill for the past year.

She is survived by four children Mrs. Cliff (Eleanor) Wannamaker of Marmora; Mrs. Orville (Jessie) McGarvey of Dunnville; Mrs. Gerald (Phillis) Blake of Marmora Township; Mrs. Otis (Lois) Fluke and Mrs. Jack (Enid) Fluke of Marmora). Mrs. Ralph (Mona) Gillman of Alderdale and Alex Archer of Peterborough.

Also surviving are 27 grandchildren and 29 great-grandchildren. A son and daughter predeceased her.

Mrs. Archer also is survived by a sister, Mrs. Blanche Keller of Madoc and Harry Nicholas of Campbellford.

She attended St. Andrew's United Church in Marmora and was a member of the Happy Gang Unit there. She also belonged to the Senior Citizens' Association.

Funeral was held at the Howden Funeral Home in Marmora with Reverend James Peters and Reverend James Stevenson officiating.

Entombment was in Marmora Protestant Cemetery Vault.

Bearers were Edward Warren Wilson, Lee Meehan, Ralph Neal, Earl Lucas, Gordon Jones and Cecil Neal.

JOHN McGUIRE

The funeral of John McGuire was held Tuesday afternoon from the Grant Funeral Home with service conducted by Rev. J.A. Dolop. Interment was in Belleville Cemetery.

Monday evening members of the AOHF Unit 301 held a memorial service at the funeral home with President Henry Ford and Pedro Bravo Humphreys officiating.

The bearers were Reg. Featherstone, John Foran, W.J. Ford and J.D. Wilson.

WILLIAM LEONARD ERVINE — Tweed

The funeral for William L. Ervine was held from the Canada Funeral Home, Tweed to St. Carthagh's Church Feb. 23, 1974 at 10 a.m. Rev. C. C. Baker officiated and entombment was in St. Carthagh's Cemetery vault, with interment in St. Edmund's Cemetery, Stoco, in the spring.

Bearers were Clarence Ervine Sr., Joseph Ervine, Ray Ervine, Frank Ervine, Stafford Levack and Ray Bethune.

Mr. Ervine died suddenly at his Tweed residence on Feb. 21, 1974, in his 67th year. Born in Tweed, he was the son of the late Sarah Cassidy and Mr. Elvin Ervine who married the former Mary Treanor in 1942 and retired from farming to move to Tweed in 1971.

Mr. Ervine is survived by one sister, Mrs. Leonard Peterborough, Harold of Bewmanville and Ronald of Oshawa; two grandchildren, Kim Cole (Theresa) Gebicki of Edmonton and Mrs. Grant (Agnes) Mumby of Belleville, four grandchildren, Mark, Andrea, Sharon and Jeffrey and a brother, Percy of Belleville. He was predeceased by two brothers, Murney and John and a sister, Lily Jones.

MRS. CHARLES HIGGINS — RR 1 Treston

A resident of Murray township Frederick Stanley Roach for more than 80 years and one of the oldest residents of the Trenton area, Mrs. Mary Higgins died Feb. 19 at the Green Acres Nursing Home in Bayside. She was 97, and'been in the nursing home for seven years.

The funeral was held Feb. 21 from the Weaver Funeral Home where service was conducted by Rev. M. Caswell of St. George's Church. Interment was in Mount Evergreen Cemetery.

The bearers were James Hancarrow, Gordon Flynn, John McCormick, Walter Young, Len Helyer and Frank Helyer.

Born in England, Mrs. Higgins was the daughter of the late Mr. and Mrs. J. Martin.

She and her husband the late Charles Higgin, were former fruit farmers and apple growers on the family farm on Telephone Road for many years. She was a member of St. George's Church.

She is survived by a daughter, Mrs. Helen Young of San Clemente, California, grandchildren, Mrs. Robert (Betty) Greenleaf and Jack Young of California, six great-grandchildren and two great-great-grandchildren.

A son Fred Higgins predeceased her.

CARL TAYLOR — Trenton

The funeral for Carl Taylor was held at the Weaver Funeral Home, Trenton, Feb. 22 at 1:30 p.m. with Rev. M. Caswell officiating. Interment was in St. George's Cemetery and bearers were Art Bovenzelee, Norm Papi, Norm Baker, Bill Holloway, Jack Chenard and George MacDonald.

Mr. Taylor died suddenly at his residence, 4 Bondhead Place Rd. Feb. 23 in his 69th year.

Born in Coe Hill, he was the son of the late Mr. and Mrs. George Taylor and had lived most of his life in Trenton. He was a retired civil servant a member of St. George's Church, Royal Canadian Legion Branch 110 and of the IOOF Lodge 113, Trenton.

Mr. Taylor is survived by his wife, the former Margaret (Peg) Holway, two daughters Mrs. Barbara (Barry) Hagerman of Trenton and Mrs. Douglas (Margaret) Jagger of Barrie, six grandchildren, two sisters, Mrs. Gwen McAlpine of RR 1 Maynooth, and Everett Barrons, RR 1 Marmora district of Trenton and a brother, Ivan of Toronto last weekend. David Foley, RR 1, Madoc, out in what appeared to be a calculated gamble for new power to deal with industrial unrest and economic difficulties.

(Continued From Page 1)

lished position in the European Common Market.

Other supporters cheered Wilson at a Liverpool Labor Party rally. Wilson, the prime minister, prime minister" while the pipe-smoking leader gave a thumbs-up sign. But he declined to claim victory.

Heath heading back to 10 Downing Street from his Sidcup constituency, said he would not "rush to conclusions" until the situation cleared up today. But his supporters at the national headquarters were clearly gloomy.

The victory stalemate was a stinging rebuff to Heath, who called the election only two months before his mandate ran

Two Charged

Belleville city police have charged two youths on three counts of mischief committed in wilful damage following three incidents Thursday involving vandalism to cars and garbage buildings.

Arrested and charged are Vincent Michael Lynch, 16, of 14 Bleecy St. and Randy Stanley Nolan, 18 of 189 Wellington St.

Police said today three sets of windows were broken out at the Roma Beauty Salon estimated at $150, two at the Victoria Ave. Baptist Church, and the third at the Bata Canada Shoes Elementary School. Police estimate damage done in the latter two cases at $30.

Stolen Drugs Dangerous

Police have issued a warning to the thief or thieves who broke into a doctor's office this week and escaped with a quantity of drugs.

Several vials of adrenalin and cortisone, which can be fatal if injected, were taken from the office of Dr. William Bates. Also taken from his office was a case of boots and a large bottle containing phenaphos pil, which are a strong painkiller.

The break-in occurred on the night of February 27 and Chief Douglas Crosbie said he believed entry was gained through a basement window.

No money was taken, although a pair of boots was missing. Police are continuing their investigation into the matter.

Five Slide Into Ditch

Five drivers escaped personal injury when their cars slid off highways in south Hastings County after the heavy snowfall Wednesday night and Thursday morning.

Belleville provincial police said damage to the vehicles was minor.

Hastings Delegates

Who Will Rule Uncertain

The voting trend appeared to indicate that Britons generally were unwilling to put up with the confusion of an economic crisis that may force new austerity on the country.

The last time Britain had a minority government was in 1929 under Labor Prime Minister Ramsay MacDonald. It lasted two years and was succeeded by a Conservative-dominated national coalition.

Pilot Dinner's Guest Speaker

Retired air force pilot H.J. Rowe was guest speaker at the Centennial father and son banquet of the 11th Belleville cubs and scouts.

Mr. Rowe spends his time from May until fall freeswap flying water bombers in British Columbia for a commercial air line with a contract for fighting forest fires.

Cubs at the banquet held in Bridge Street United Church on Feb. 19, were the past president of district council, Bill Williams, Leo Fortin, Bob Cruikshank, area secretaries Carl Woods, Reverend George Rowe and cubmaster Alan Barrow.

Involvement Said Good Club's Need

Acting as an advisory panel, ten past presidents of the Belleville 418 Wing RCAF Association, with Jack Lundberg, member of the National Veterans' Council, agreed that the Air Force Association should retain the "Air" identity and continue to expand both with larger quarters and a three year membership, stressing the importance of younger members.

Chairman of the panel, Tom Riley, chose the topic, Where Is the Veteran Going Today, at the annual past presidents' night held Tuesday evening at the 418 Wing headquarters, Sidney Township.

Replying to a query regarding integration of the three veterans' organizations Jack Lundberg stated that the identities should never be abandoned, each has a pride and a past history. However, representation on the National Veterans' Council gives the strength and voice to approach the government, with satisfactory pension increases and assistance of living reviews, as a result of this unity and also a first excellent care for the disabled.

A past Dominion president, ANAF, Mr. Lundberg had been presented with a honorary membership to 418 Wing, earlier in the evening by King Lake, wing president.

Involvement was recommended as the answer to private members, by Jim O'Bryan Quite regional vice-president and a past president. He suggested getting a project first i.e. Cheshire Home and have five to 10 members per committee. Referring to the Quinte Regional Conference hosted by the 418 Wing at CFB, Trenton, on Sunday, Dick Henry, past pres., was impressed with the exceptionally large turn out and felt the Wing had a good membership healthy.

Questioning the status of the associate member, Ted Webber was answered by Tom Riley, who said the Club is "all or one, and one for all." with a resolution being presented by 418 to Ontario Group requesting active membership two years good standing be considered the same as active membership.

Other past presidents outlined the history of the wing, all of whom concluded a club could be a tremendous community interest.

Jack Mc Gaughey, who had been president when the Trenton wing folded, confirmed the need of working together: the one-time 120 membership declined to 30 as their project has been completed.

Past presidents attending the meeting included: John Godwin, 1959-61; Peter Burnett, 63-64; Jim O'Bryan, 64-66; Al Smith, 66-68; George Warbee, 68-69; Lorne Paley, 69-62; Tom Riley, 62-64; Bill Shaw, 66-68; Jim Lynch, 69-70; Ed Karkhock, 70-72; and Len McGaughey president Trenton Wing, 71-72. The first meeting of 418 Wing was held in the Belleville Armory, September 1949 with Les Digby elected president. Liaison officer to CFB, Trenton, Captain Gil Beer, extended an open invitation to all association members to participate in the 50th RCAF anniversary celebrations at the base, March 29 and 30.

IN LIKE A LAMB OUT LIKE A LION

If this seems twisted around to you we intended it to be, For in this phrasing it illustrates how most people react to going to their doctor for a physical check-up. It would not be natural if you did not have some worries and fears as you preached your entrance into his office a little weekly.

But, when it is all over and the doctor has pronounced you fit and well it makes you want to rear out of there like a lion. The air smells a little sweeter and there is a spring in your step you didn't notice before. That's going!

Two Held in Stoco Damage, Break-ins

TWEED (Special) — Two Marlbank youths have been charged with break and enter and wilful damage in connection with incidents in the Marlbank and Stoco Lake area between Feb. 19 and 24.

Charged by provincial police from Madoc are Alvin Gary Denbaas, 17, and Carl Ralph Avery, 18. They were arrested following break-ins at 14 cottages in the Stoco Lake area, wilful damage to Marlbank Hotel and damage to insulators on hydro poles in Marlbank village. The pair were retained in the Napanee Regional Detention Centre for bail hearing Friday afternoon in Belleville.

Injured As Tractor, Car Collide

MASSASAGA — Larry Bowerman, 25, of Picton, suffered a broken cheek and face cut when his tractor he was driving Thursday collided with a car driven by James Blaind, 20 of Belleville at the junction of Highway 14 and the Massasaga Rd.

Mr. Bowerman was treated at Prince Edward Memorial Hospital. Damage to each vehicle was estimated at $600.

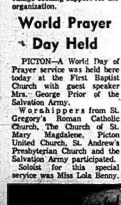
Funds From The Sidewalk

TRENTON — The Chamber of Commerce here has been granted permission for a sidewalk sale, to be held in conjunction with a minor hockey tournament March 21-23.

Town councillors believed the sale would further promote Trenton as a tourist spot by catering to parents travelling with the hockey teams. Teams are expected from across the province.

Canvass For CNIB

BLOOMFIELD — Volunteers for the Canadian National Institute for the Blind Saturday night will canvass residents of Bloomfield for funds.



Members of the Bloomfield United Church Youth Group will go door-to-door in the village seeking support for the organization.

World Prayer Day Held

PICTON—A World Day of Prayer service will be held today at the First Baptist Church with guest speaker Mrs. Gordon Prior of the Salvation Army.

Worshippers from St. Gregory's Roman Catholic Church, The Church of St. Mary Magdalene, Picton United Church, St. Andrew's Presbyterian Church and the Salvation Army participated.

Soloist for this special service was Miss Lola Benny.

Big Donation

Wellington Arena building fund received its largest single donation this week — $1,250 from Picton Rotary. Cheque was presented to Delbert Boyle (right) by Rotarian Gary Campbell. Donations to arena fund, started after recent fire, already total $10,000.

Down to Rubble

Firemen damp down smoking rubble near Milford Thursday. It's all that remains of barn, destroyed with heavy livestock loss. Cause of fire was not immediately known.

Heavy Loss in Rural Fire

MILFORD — —An Athol township farmer suffered heavy livestock loss Thursday morning when fire reduced his barn to rubble.

Scene of the blaze was the farm of Arnold Lafay, RR 1 Milford, near Point Petre.

Lost in the blaze were 16 head of cattle 11 pigs, 4,000 bales of hay, a hay elevator, plows, manure spreader, and wagon.

A sow and its litter of seven piglets were rescued from the blaze.

The blaze was first discovered when the farmer's wife got out of bed to answer the phone By that time the barn was burning with intensity and the blaze was out of control when firefighters arrived from Picton.

The blaze also spread to an adjacent loolshed which was destroyed with its contents.

Firemen stayed on the scene throughout the day, after the barn had been reduced to a smoking rubble, to ensure the safety of the nearby farmhouse.

Cause of the fire was not known. The building was insured, but not its contents and an estimate of loss was not immediately available.

1861 Plight

A Teacher Had to Beg - - Once Upon a Time

By MARGARET HAYLOCK
Staff Reporter

PICTON — Superannuated school teacher William Campbell discovered in 1861 that his meagre retirement pension did not allow him to make ends meet.

In desperation he wrote of his plight to William Anderson, school trustee for Ameliasburgh.

His urgent message requesting financial assistance today is under scrutiny by another Ameliasburgh board member, Gerald Anderson.

Mr. Anderson says he believes Mr. Campbell's letter was addressed to his grandfather He recently obtained it from a Prince Edward County woman.

The letter states "I am a superannuated teacher who has taught the youth of this county for 30 years. I applied to the board of education, Toronto, and they put my name on the superannuated list, but all I got for years past was five and a half cents a day, not near sufficient to maintain one."

"My address to you is at present that you would condescend and be kind to speak and solicit the favor of the council of Hallowell in my favor to aid me from the funds so that I may get stopping with one family, the one where I want to stop, who is called Samuel Trumpour.

old scholar of mine or Joseph Trumpour or John Trumpour, all old scholars."

The improvevrished teacher added "I have taught through every township of the county of Prince Edward. The last council that sat in Bloomfield said if I would reside all the time in Hallowell township I should get aid from them. I have to wander through this county having no home or permanent place to stop. A dollar a week would procure me a steady home."

"If in your kindness and mercy you shall do anything for me, I pray thee send me a few lines to Wellington care of Samuel Trumpour, Hallowell and William Campbell shall ever pray for your prosperity and uprightness.

Mr. Campbell's letter is dated July 11, 1861.

Students Meet Writers

BLOOMFIELD —Ten students of Canadian Literature at Prince Edward Collegiate Institute have received permission from the county school board to attend Canada Day, March 8, at Port Colborne high school.

Trustees approved the trip during a meeting this week.

At Port Colborne PECI pupils will meet Canadian writers, students and teachers from across Canada, to discuss and gain insight into Canadian literature.

The students will learn Picton on March 7, with English teachers George Elsen and Nigel Steel.

Pork Board Members Resign

TORONTO (CP) — Nearly half of the members of the Ontario Pork Producers Marketing Board have resigned, in a dispute over the role of the board's executive secretary, James Boynton.

At a directors' meeting earlier this week, seven members had voted for a motion calling for Mr. Boynton's resignation and resigned themselves after the resolution failed when board chairman Keith Weeden voted against it twice on the same ballot.

Carl Clayton, a Napanee-area farmer who was vice-president of the board and a participant at the meeting, said, seven of the 14 directors at the meeting voted for the resolution calling for Mr. Boynton's resignation and six against. At that time, Mr. Weeden left the chair to vote, as director, against the resolution, thereby creating a tie—then voted, as chairman, to break the tie.

One member of the board was absent. The seven resignations followed Mr. Weeden's move.

In an interview, Mr. Clayton said the action was the latest step in what has been' continuous frustration for the last two or three years on part of a number of board members over the role of the executive secretary.

The dispute is expected to come to a head at the board's annual meeting here in three weeks.

Re-instated: $12,000 Pay Due

Constable Back with All Benefits

By COLIN BRUCE
Staff Reporter

TRENTON — Trenton police constable Herman Schwager goes back to wrk Monday with the same benefits as if he had never left.

A release today from the Trenton Police Commission said Schwager will retain all his seniority rights, benefits and retroactive pay since his dismissal nearly 12 months ago.

Roger Dingman, president of the local police association which supported Schwager in his action against the commission, said the re-instated constable has about $12,000 coming to him in back pay.

A year ago Constable Schwager was dismissed from the force on the advice of the police commission. The commission felt a knee problem was affecting Schwager's capabilities as a police officer.

The issue was first tried before a provincial arbitrator, later went to the Ontario Supreme Court and then to Direction Court.

The problem was resolved out-of-court Wednesday.

In a telephone interview this morning, Schwager was delighted that 'word had finally come from the police commission, which has declined any comment, when word first came Wednesday.

"We've been left right out in the cold concerning the case," said Dingman. "The first we heard of the case was in the press."

For Schwager it means coming back to work "as a regular, first class constable."

Police Chief David Saunders said the officer would do the regular duties of a police constable and not the court duties to which he had been assigned before his dismissal.

Waste Disposal System Shown by Township

SOPHIASBURGH — Prince Edward County Council on Thursday was invited to a demonstration of Sophiasburgh township's new waste disposal system introduced last December.

Derek J. Cathcart, sales engineer for Seaway Disposal Systems, Kingston, explained the system to Sophiasburgh reeve George Foster, Athol reeve Keith Perry, North Marysburg reeve Jack Wells and South Marysburgh reeve Clifford Walker.

Sophiasburgh resident now are depositing garbage in 14 bins placed throughout the township. A truck with a 40-cubic-yard capacity collects the waste.

In winter, trash is collected once a week. In summer weather two weekly pick-ups will be made. The township pays $6,100 a year for 78 collections. Garbage collected in Sophiasburgh is taken to a dump site inSalyerdale.

Sophiasburgh's dump is one of several in Prince Edward scheduled to close because of difficulty in complying with governing regulations. County council now is studying county-wide disposal.

Thrash Stasher

Sophiasburgh township has thrash stashing system at its waste disposal, which demonstrated Thursday. Garbage is deposited in big bins (right) throughout municipality and later collected by special truck.

Northern Lake Ice Still Safe

TWEED — Ice on lakes north of Highway 7 will still support snowmobiles and some will support light cars, the Tweed office of the ministry of natural resources said today.

Snowmobiling is good and skiing and snowshoeing i s good to excellent.

South of Highway 7 skiing is good, snowshoeing fair and snowmobiling fair to poor.

Snow depths in the 'bush are: Tweed, 13 inches, Bon Echo, 17, Frontenac, 15, Jaarbot and White Lakes 12.

Fish huts and debris must be removed from the ice no later than March 31, says the ministry.

For the Whole Man

Participation in school sports activities should not be a compulsory thing, but neither should it be discouraged, let alone eliminated altogether as some would have it.

An unnecessary frill? Hardly. A well-rounded sports program — and it may be a proper balance in schools here has yet to be achieved — is a necessary adjunct to academic progress.

If ever the "All-work-and-no-play-makes Jack-a-dull-boy" syndrome were more applicable it is in the concept of a school system where the emphasis is entirely on books and learning.

Football is not everyone's bag, but it has long been a sport in the tradition of masculine development, here and in its variations abroad. There is a rugged element in it as well as physical expression in the game of football that for long has been espoused by students and young adults alike. We have to conclude that the combination of tough action and strategy of movement involved in the game has a beneficial effect on the whole man, promoting both physical and mental vigor. Premier Barrett of British Columbia is one who plays rugby British-style, as many do on the west coast.

The girls meanwhile — and we have made this point before — need something better to occupy themselves than as cheerleader, in which activity they are little more than appendages of the male collective doing their thing on the field.

They have seen some pretty good performances though by the girls in gym presentations at BCI's Kampus Kapers, and if they can do this, then there is surely scope for a broadening of the girls' sports curriculum program, from skating to table tennis to field hockey.

Swimming is a strong point on the national scene, as witness Canada's success in the recent Commonwealth Games. Have we any potential champions locally? But then the city does not even boast a municipal indoor swimming pool to encourage such expertise.

In any event, sport for too long has been recognized as a part of the development of the whole man to entertain any notion of eliminating it — unless we want to see even greater disorientation and lack of motivation on the part of the young than is frequently the case in these restless times.

New Zealand Kibbutz

The New Zealand Ministry of Lands reportedly is making available 36,000 acres for lease to incorporated societies formed by communal groups. These, in the words of an Auckland Star editorial, "will be left to themselves with no official inspection."

The editorial ponders whether State-backed communes (Israeli-style) will fit New Zealand circumstances and counters a cautionary note in what Israel has done . . . No doubt there is merit in turning land to productive use when it might otherwise have remained idle, and perhaps there is some possibility that in enabling a number of people to lead such a life. But it is also as well to remind ourselves that plenty of people on the land have gone bankrupt and struggle to support themselves as successful without help from the State. . .

"No one could be against happy people, but it sounds a distinctly new criterion for State aid. And a many eyebrows may be lifted at the proposition that people on Crown land with rebated rents will be free from official inspection. . ."

True enough, but there might be something in this concept for Canada where the cry increasingly is that productive rural land is being lost to industrialization. Furthermore, amid all the flurry of Government aid and make-work programs there has been little if anything advanced for the progress of agriculture — no recruiting of young people for a healthy life on the farm, no setting aside of land, as is done in part in New Zealand, to increase agricultural output. Few are going hungry, but there is the threat of a world shortage of food (notice for instance that recent warning about fertilizer shortage due to the fuel crisis). And it is becoming expensive. Here then is an idea (and it would not necessarily have to be a communal-style set-up) for putting more people down on the farm and increasing the food supply.

'Disaster Course,' Says O'Sullivan

Freshman MP Concerned About Drift Into Socialism

By RICHARD JACKSON

OTTAWA — Sean O'Sullivan, freshman MP for Hamilton-Wentworth, and the youngest-ever politician elected to the Commons, is not crusading, in speeches in ridings across Southern Ontario, to make, as he puts it, "the Progressive Conservative party more conservative."

He spells conservative with the lowercase "c".

He has the face of an English chalk boy and the spirit of John Diefenbaker.

And so he should.

The face of untrodden youth because when he was elected he was only 20 — now 22 — and a mind strongly influenced by Dief in the years he was serving his parliamentary apprenticeship as the Chief's executive assistant both in Ottawa and back in the home constituency of Prince Albert.

"Too many Canadians," he says, was dissatisfied as they are with the Trudeau Government's clinging to power under the tyranny of the small social-NDP fringe, fail to find in the Conservatives an approach to convince them things would be better and better under a Tory Government.

"We owe it to the voters and the nation's future to present the Conservatives as the one sharp and clear-cut alternative to Trudeau socialism."

Sean O'Sullivan says he's in Ottawa to stay. "As long as I feel I'm doing useful work and getting things accomplished."

Like what?

"Like doing what I can to bring the state welfare wagon under control before it runs over and crushes the initiative out of us all," he has said.

"For if we can't halt it soon, it will halt us."

I subscribe to the proposition that all a government really owes a man is to give him the opportunity to make it, and then to get to him.

"I hold it to be a self-evident truth that a guy should get what he works for, and work for what he gets."

Such was his thinking when first elected, and he hasn't changed his mind over the past two years.

The good parliamentary life has not softened him up, for just the other night, in a speech at Arthur, Ontario, and again in his own Hamilton riding, he said:

"The free-ride Welfare State hasn't worked, and before it bankrupts us all, the economically false something-for-nothing thrust of the Ottawa Establishment must be reversed."

Now does that sound like a 22-year-old political idealist, a reformer, a dreamer and a believer, as are so many other young Tory politicians?

Not much: because as Sean O'Sullivan puts it, "some of the Old Chief rubbed off on me when I was working for him."

How come a 79-year-old former Prime Minister could transform a 22-year-old into an individual-initiative, private-enterprise, small "c" conservative?

"Well," Sean O'Sullivan explains it, "The Chief happens to give a damn about the ordinary guy, but he expects him to hustle a little and help himself and not look to the taxpayers for everything.

"The Chief is convinced, and so am I, that if we have core work ethic, we lose our society, our productivity, self-reporting way of life, and ultimately we lose our country."

Sean O'Sullivan, looking at the last election when the Trudeau Liberals regained five seats in Quebec, and almost totally unrepresentative of the West, barely escaped defeat, is convinced Canadians are fed up with the present socialistic drift.

He concedes his thinking may be influenced by Chief's media editorial writers, some political theorists and with some liberal Conservatives.

But he is committed to the proposition that "we've got to get tough, tough with ourselves and tough with the socialist drift to disaster."

Farmers in Economic Bind

Reduced Milk Production Hits Output of Butter and Cheese

Brockville Recorder and Times

Many Brockville and area people can recall the familiar sight of the "milk barge" towing boatloads of raw milk to the United States from Leeds county dairy farms. They can recall the old Rideau canal, Lawrence of "cheese boats", small ships loaded with cheese for the export trade, much of it coming from the 100-odd cheese factories in Leeds county. It's a day that is long gone. Now we're faced with the problem of having to import milk to meet our needs. Certainly Canada will have to import butter because of the reduction in production. And what about cheese?

Canada's cheddar cheese is acclaimed as the best in the world and is much sought after. But there isn't that much to export any more. Although the United States has raised its cheese import quota to allow up to 100 million pounds in this year. Said to mind, here too, reduced milk production has taken its toll.

What's to be done to increase milk production? Will more money to the farmer do it? Certainly higher prices for farm produce would make the life of a dairy farmer more attractive. Something is drastically wrong from the land and the trend will have to be stopped. The number of farms in Ontario has dropped 18 per cent since 1966 and the total area of farm land is down 15 per cent. The cause of the flight from the farm is no mystery. The financial rewards aren't there for the long hours that goes into the job. The rewards a dairy farmer receives for his milk are incredibly low in this day of high industrial and trade union wages. Some plumbers and electricians find it easy to earn $18,000 a year or even $20,000 a year. Yet a special committee in 1969 found nearly half of Ontario's farmers were earning less than the minimum basic need income of $4,000 for a family with two children. It found the average farmer earned less than $1 an hour for his labor and a return on farm capital was commonly below three per cent of the whole community. A socialist view could well be one such condition.

Seatbelts may not be the be-all and end-all of the safety safeguards. Should other safeguards such as automatic impact-inflating air cushions be proved effective, the law should require that they, too, should also deal with their serviceability. The same way existing laws require brakes and lighting to meet set standards — and a ban on those nagging buzzers and lights to end 2000 the unlocked.

No law is perfect, but for the 700 a year who will not be in the 25,000 who will not be in pain in an emergency ward, it will be near enough.

Seat Belt Use May Be Mandatory

Ottawa Journal

The recent and most serious endorsement of the principle of laws to make the use of approved seat belts in automobiles mandatory came, not at a meeting of highways ministers, but at a meeting of health ministers.

The balance of evidence from more than a decade of government, industry, and independent studies of the effectiveness of seatbelts. The laws' effectiveness is a determinant. The idea that a seatbelt law would be a denial of individual rights ignores the right of an estimated saving of 700 lives and 2,500 injuries a year. It also presupposes the right to drive a car, which does not exist. To drive is a privilege under conditions prescribed by law for the safety and benefit of Canadians to belt up on the road. Common sense dictates that is not always a reliable guide to human behavior. Thus, it seems, the need for a law.

Arguments that such a law would be unenforceable and unfair are unconvincing. There are many useful laws equally difficult to enforce as the seatbelts. The laws' effectiveness is a determinant. The idea that a seatbelt law would be a denial of individual rights ignores the right of an estimated saving of 700 lives and 2,500 injuries a year. It also presupposes the right to drive a car, which does not exist. To drive is a privilege under conditions prescribed by law for the safety and benefit

Arabs May Throw Vast Oil Funds Into International Banking Scene

By JOHN D. HARBRON
Foreign Affairs Analyst
Thompson News Service

The largest pool of liquid funds in modern economic history, an amount which could reach $150 billion, is in the hands of the oil-producing nations to be used at their discretion.

Already we are witnessing the substantial savvy of the Arab bankers in placing hundreds of billions of oil dollars back into Western and North American economies.

Arab banking skill was always there. We had been so severely propagandized that Islam was just a bunch of Bedouins in the desert and of rich sheikhs squandering their royalties on harems and sports cars, that the subtleties of Arab commercial life escaped us.

No more. Not only Arab interlocutors with their vast royalties from oil but those of related oil-producing states, Iran and Libya and an Arab nation per se, Nigeria, Indonesia and especially Venezuela are being made clear.

There now is an indication that they might join resources in a major assault on our banking and investment institutions. Here is one they cannot resist because of the constant needs of these corporate customers, real estate developers, industry and government for cash.

The Venezuelans have said they are prepared to give guidance to this kind of trend bearing in mind the constant need to keep their funds as liquid as possible in the many backward economies of Latin America.

The Shah of Iran who believes the international oil companies are sustaining the world energy crisis for their own private interests, has proposed a new development fund for the poor countries and has already pledged $1 billion for his huge new oil earnings to start it.

Emirate Premier Amir Abbas Hoveyde outlined how the large sum would be utilized by purchase of World Bank bonds and as a loan to a new lending outfit, the International Monetary Fund to steer short-term balance of payments.

Iran alone will earn between $15 and $20 billions from its oil exports in the West and Japan during 1974. . . .

The Iranians will bring their idea to the next meeting of OPEC (Organization of Oil Exporting Countries) with the suggestion that if each of the major oil-producing states contributed equal amounts to such a fund it would cost each country $150 million annually.

With the kind of money being talked about the above amount would be very small indeed and easily contributed.

All this means the oil-producing nations, and especially the Arab ones who want to cut off Israel, will make a showing in the financial institutions of the West about as powerful to our economic way of life as their hikes in the price of oil has in recent embargo.

The most publicized ability of the Israelis to raise funds from the Jews around the world is already small potatoes compared to the funds available to the Arab world.

Undoubtedly these could be used to severely cripple those institutions which had raised money for Israel in the past from doing so now by buying up their major accounts or making large investment contributions to their competitors.

So far Arab investment in Europe has been couched behind investment fronts and established banking names. Any kind of exact tally of where Arab money has gone to date is difficult because the big Arab banking institutions chiefly in Beirut want it this way.

But from now for no indefinite future period the world's financial institutions will become major recipients of Arab money.

Snowmobile Toll Causes Concern

Peterborough Examiner

This winter's death toll from snowmobile accidents is following its usual pattern. It is time to get concerned.

Snowmobilers have, in fact, found many new and interesting ways of commuting motorized hari-kari. They have run into trees backed parked cars, run under parked trailers, gone through barbed wire fences and played with the wheels of moving machinery.

At least 34 of the province's snowmobilers will be in this point of the winter, taken on the bigger four-wheeled machines and left on highways.

It would probably be too much to ask of them to demand that the annual winter slaughter be halted completely. Snowmobiles are an institution upon the intelligence of the operator as are cars or guns or machines of any type. No one has yet found the formula for legislating against intensity either on the roads or on the snow.

But there are some steps that could and should be taken to make snowmobiling safer — the majority of people who just want to get out for a cross-country ride and enjoy themselves.

Looking Backward

GLEANINGS FROM OUR FILES OF BYGONE YEARS

20 YEARS AGO

March 1, 1954

The 1954 objective for the Red Cross campaign is $19,000., the same figure raised in last year's campaign. The announcement of the newly-appointed campaign chairman, W. J. Morrison, was made by Judge J. C. Anderson.

Mr. Robert A. Pringle, Q. C. has been appointed by the Lord Bishop of the Anglican Diocese of Ontario, the Rt. Rev. Kenneth C. Evans, to the office of Chancellor of the Diocese, succeeding Dr. Francis King, Q.C. of Kingston who has retired.

30 YEARS AGO

March 1, 1944

Since their organization Belleville Kinsmen have been carrying on a magnificent work in Belleville and especially since the beginning of the war. They have raised large amounts of money for patriotic and philanthropic work. Back in peace time days they launched the eye clinic.

40 YEARS AGO

March 1, 1934

During the month of February three building permits were issued by Mr. Fowler, the city engineer at an estimated cost of $2,000. The permits covered repairs and alterations to stores and houses.

Miss Maude Campbell is attending the spring millinery shows in Toronto and in New York City.

Mrs. George S. Kerr of Bensonhurst, N.Y. is spending a few days with relatives in Rochester, N.Y.

Mr. Bruce Laidlaw was home from the College of Pharmacy, Toronto, to spend the weekend.

50 YEARS AGO

March 1, 1924

In a bowling match last evening the Hardware team defeated the Wanderers, the score being 2942 to 2714. The following composed the teams: Hardware — Stratton, Harris, Topham, Whalen, Anderson. Wanderers — Hill, Lane, Phillips, Wales, Verex.

Prof. Maines of Albert College addressed the Rotary Club.

Immigration and Subversion Threat

Editor,
The Intelligencer.

Canada has enjoyed a good reputation as a land of the free, minus internal strife, but it takes constant vigilance to keep it so.

Immigration is very important, and subversives should not be a part of a free country. The church leaders universally appear to support such actions, when they have plenty of opportunity for missionary work where it will do good, not harm. A small number of such people can destroy from within what a large number cannot do from without.

Perhaps the answer to why the public are unconcerned is probably the standard of living and freedom enjoyed by each one to even work. People elect their members to parliament, and preparation of this celebration.

The co-operation of the public would be assured if the affair was in the hands of the citizens rather than the representatives of business. With the Chamber at the helm we can look for a few flowerpots on street corners and a concerted effort to spend our money for the benefit of downtown.

Let's appoint a representative committee and all citizens under their own banner. This thing is too important to be used to glorify any particular organization.

CLARENCE E. YOUNG

Centennial Committee Representation

Editor,
The Intelligencer.

I see we are now in the hands of the Chamber of Commerce centennial committee. How did that ever happen?

I am unable to understand why the Centennial Committee was not formed to include this important function. It seems to me that whenever something like this comes along we go out of our way to place it in the hands of organizations that have dismal records of achievement. One can hardly be blamed for being pessimistic about the Chambers ability to handle such a project.

Apart from anything else, it is insulting to the people at large not to be involved as a total community in the planning then lose interest, while the government seems more intent on finding new ways of spending money than on the good of the country. The past generations had to see to their own welfare, and it bred a proud and independent people, and when discussing the national anthem they meant it. We should wake up before it is too late.

A CONCERNED CITIZEN.

Today in History

BY THE CANADIAN PRESS

March 1, 1974 — The United States expelled its first Chinese diplomats since the Pacific Ocean.

1956—Klaus Fuchs, Communist scientist, was sentenced to 14 years imprisonment in London for betraying British and American atomic secrets to the U.S.S.R.

Cost of Government Rises

Federal Estimates Presented For Spending of $22 Billion

OTTAWA (CP) — Federal government spending of at least $22 billion was outlined to the House of Commons Thursday in an annual presentation of the program for the new fiscal year beginning April 1.

Steps designed to cushion the impact of inflation mirrored the tone of Wednesday's throne speech outlining the minority Liberal government format for blunting the impact of living costs which rose last year at a rate of 9.1 per cent.

There was no direct Commons comment on the government's figures, except for complaints from all opposition parties that they had no advance opportunity—as has been possible in the past—to study the estimates.

But outside Parliament, representatives of such organizations as the Canadian Chamber of Commerce, the Canadian Manufacturers' Association and the Canadian Federation of Independent Business all deplored what they called the rapid expansion of government spending.

The 11 major categories of estimated spending for 1974-75 were:

Health and welfare—$6.8 billion, up $1.1 billion from the current fiscal year's forecast total.

Interest on the public debt—$2.9 billion, up $285 million.

Economic development and support—$2.7 billion, roughly unchanged.

Defence—$2.4 billion, up $137 million.

Transfer payments to provinces—$1.6 billion, approximately unchanged.

Transportation and communications—$1.6 billion, up $168 million.

General government services—$1.1 billion, up $136 million.

Internal overhead expenses—$1 million, up $338 million.

Education assistance—$520 million, a decrease of $19 million.

Culture and recreation—$330 million, up $75 million.

Foreign affairs—$307 million, up $61 million.

The estimates are $2.4 billion or 12 per cent greater than total forecast federal spending in the fiscal year that will end March 31.

More than half the increase will be for health and welfare payments in more than eight million children and pensioners.

Family allowance payments will total $1.8 billion, nearly double the 1973-74 figure, the government said.

All told, the estimates work out to federal spending of $1,000 for each resident. Later supplementary additions will boost the total higher.

New programs outlined in the throne speech to increase food production include $50 million to provide milk subsidies introduced in October to keep consumer prices down and $1.5 million for new agricultural storage facilities designed to encourage more food production in hopes of slowing sharply rising grocery prices.

Last year's living cost increase, steepest in 22 years, largely fuelled from food price increases of 17 per cent for the year.

The estimates also included $100 million worth of programs to develop new nuclear, coal, oil and gas production to forestall energy shortages.

More than half of the total budget is devoted to programs fixed by law, totalling $11.5 billion and including $6.8 billion for health and welfare, $2.9 billion in interest on the public debt and $1.6 billion for federal equalization payments that go to all provinces except Ontario, Alberta and British Columbia.

Rising wage, salary and benefits costs of the 500,000 federal employees and armed services personnel added another $500 million to the taxpayers' estimated $19.5 bill. The person-net cost will total an expected $4.5 billion.

Other new spending will include $43 million for new railroad and highway development that grows out of federal promises last summer to help develop more economic development in the West.

More Aid to Young and Old To Push Up Cost of Welfare

OTTAWA (CP) — Increased family allowances and Canada Assistance Plan payments are expected to push health and welfare costs to 31 per cent of estimated government spending in 1974-75, the government disclosed Thursday.

In the year ending March 31, the proportion spent by the government on health and welfare functions, including housing assistance and help to Indians and veterans, was about 29 per cent.

But a family allowance increase in January to an average of $20 a child each month from the average of $7.21 at this time last year is to spearhead higher spending in the welfare area.

Total health and welfare costs forecast by the government Thursday for 1974-75 stand at nearly $6.9 billion out of main estimates of $22 billion. The current fiscal year cost has been estimated at $5.5 billion.

Of the predicted costs for 1974-75, more than $1.8 billion will be spent on family allowances. But the allowances were made taxable in January also and the government expects to collect back $250 million in tax revenues.

In the current fiscal year the government expects to spend just over $1 billion in family and youth allowances and family assistance costs.

Another plan which shows a large expected cost increase is the Canada Assistance Plan (CAP), federal-provincial program providing aid to the needy.

The expected federal share of the program is set at $632 million in 1974-75, up about $70 million from the current year.

Higher payment levels and a larger number of people covered by the plan are cited by federal officials as major reasons for increased costs in C.A.P.

Health costs will jump to a tal of $2.1 billion in 1974-75, the government estimates, up from $1.9 billion in the current year. Increased expenditures in medical care services of about $62 million will bring the total cost in that area to $762 million.

Hospital care costs will jump to $1.2 billion from this year's $1.1 billion, the government estimates.

The government contributions into the unemployment insurance account covering costs of the program for the calendar year 1973 will rise to $933 million from this year's $890 million.

Energy Production Expenditure to Rise

OTTAWA (CP) — The energy department plans to shift more funds into energy policy making and to triple loans to develop nuclear power in the next fiscal year.

Federal spending estimates tabled in the Commons Thursday show next year's cost of energy development in the department up $753,000, to $4.8 million.

Loans through Atomic Energy of Canada Ltd. will soar from $24.5 million this year to $115 million to help finance a second nuclear power station in Quebec, plus a heavy water plant there.

A treasury board official said that more plant will be coming for a nuclear plant in New Brunswick.

Another $11 million is provided for new investment in Panarctic Oils Ltd. to promote exploration in the eastern Arctic, the government says.

The government owns about 45 per cent of Panarctic; the rest is owned by private companies.

A further $8 million is allotted for construction of a coal preparation plant in Cape Breton, N.S., to improve marketability of coal from the new Lingan mine.

Total budget for the energy department, including funds that will be recovered in future, is estimated at $90 million for the next year. That is $3.4 million more than the current year ending March 31.

Government's Employees Increase

OTTAWA (CP) — Salary and wage costs totalling over $4 billion for the fiscal year 1974-75 are forecast by the federal government in main spending estimates released Thursday.

The estimated total is more than 10 per cent above the $3.6 billion that officials expect will be paid in salary and wages for the fiscal year ending March 31.

Part of the higher pay bill is due to the continuing rise in the number of employees of departments, agencies and corporations financed by Parliament.

The government forecasts 304,295 continuing employees on staff by March 31, 1975, up from the predicted total of 288,500 next March 31.

On March 31, 1973, the government had 279,904 permanent employees while at the end of September last year there were 272,005.

Airport Construction To Cost $134 Million

OTTAWA (CP) — The transport department expects to spend more than $134 million on major airport construction in the Toronto and Montreal areas during the coming fiscal year.

Included in estimates tabled in the Commons Thursday is $36.7 million for land compensation and various facilities for the new Mirabel airport at Ste. Scholastique, Que. The airport, to serve Montreal, is expected to cost $685 million or more.

Also included is $21.8 million for improvements to Toronto International Airport at Malton and $24.4 million for more work on the second Toronto International Airport at Pickering, Ont.

There also is $22 million earmarked for Calgary International.

Spending on these projects makes up a large part of the $203.4 million the transport department expects to spend on major capital projects during the new fiscal year starting April 1.

Outside of air transportation, the department expects to spend $23.2 million on developing port facilities in Vancouver and another $3 million on the Prince Rupert, B.C. harbor.

An estimated $21.8 million is to be spent developing the Rodger Terminal at Saint John, N.B., $7.3 million on agency buildings and channel dredging at Quebec City, $6 million at Montreal Harbor, $4.1 million for the Transport Training Institute at Cornwall, Ont., and $3.3 million at the port of Churchill, Man.

Veterans' benefits costs are forecast at $597 million in 1974-75, up from $543 million in the year ending March 31. Higher pensions will account for much of the increase.

There is an estimated $40 million increase in costs of services to Indians and Eskimos to a total of $428 million in 1974-75.

Housing and urban renewal, largely through the Central Mortgage and Housing Corp., a federal agency, will cost $181 million, up from an expected $129 million in 1973-74.

The new fiscal year will be the first full year of operation of a new housing and land assembly program approved by Parliament last year. The program is designed to help low-income families, non-profit charities and co-operatives to obtain housing.

Defence Spending Will Rise

OTTAWA (CP) — The government plans to increase defence spending in the coming financial year by $136.5 million to $2.365 million.

The estimates tabled in the Commons Thursday show that defence will consume 10.7 cents of every dollar spent by the government in the year starting April 1.That is little more than half the 20.1 cents spent for example, on defence in 1965-66.

The defence department itself will consume an estimated $2,-361 million, or $145 million more than in 1973-74. That's an increase of about seven per cent.

The treasury board says capital spending—building, property and equipment—will rise to $290 million.

The department plans to have 114,208 civilian and military personnel on staff March 31, 1975, compared with 113,493 this March.

Elegant Eclectic

At Home With....

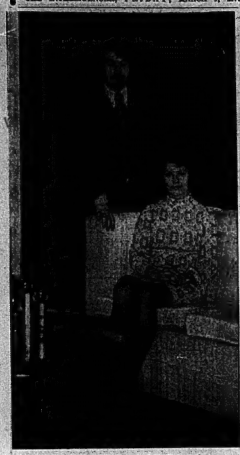
There's saying that the cobbler's children go barefoot. Interior designer Paul Bernard claims that old saw holds true for his profession, too and that his own home is the last place he works. It's not.

In a gracious apartment above his own and other offices in an 1880 Campbell Street home — now divided into four apartments and three offices—Paul and Gail Bernard and two-year-old Camille make their home.

It's a home furnished in what Mr. Bernard calls a "true eclectic" style, a well put together mixture of many eras.

Some of their favorite pieces, for example, are antiques collected in the early days of their marriage when they haunted auctions in and around Toronto where Paul Bernard attended the Ontario College of Art.

Now back in their native Quinte—both Paul and Gail grew up in the Trenton area —their early acquisitions are focal points in several rooms.



In the living room, a cut-down oak dining table makes a coffee table, a foil for the two cream-colored tuxedo love seats Paul designed himself. The grouping sits by a flush fireplace.

Highlight of the huge living room, which features 12'6" ceilings as do the other rooms, is a Queen Anne couch, rescued from the front porch of the Belleville Lawn Bowling Club. Refinished, recased and upholstered in plush green stripes, the once dilapidated piece is an important focal point in the room.

The eclectic approach of the Bernard home is typified by the modern steel and glass tables that, with two traditional arm chairs, complete a well defined room

A caned and upholstered Queen Anne couch is the focal point of the living room of the home of Paul and Gail Bernard. Paul Bernard, an interior designer, rescued the couch and had it restored to become an integral part of the eclectic furnishings of the high-ceilinged room.

At Home, Paul and Gail Bernard

Second Glance

CAREERS THAT INTEREST WOMEN

"Architecture . . . may truly be called the efflorescence of civilized life." — Herbert Spencer (1820 - 1903).

* * *

"University education," said Dr. L. H. Cragg, in part, in a 1973 convocation address at McMaster University, " . . . if it really is university education and not vocational training — is not intended or designed as a preparation on specific jobs or for work of a specific nature. It is rather a preparation to meet the challenge of an unknown and fast-changing future. It makes you ready — and I hope eager — for anything."

But would not the above apply, say,—to an architect?

It does, according to Mrs. D.W. (Adele) Dibben of Dufferin Ave., who has a degree in architecture from McGill University of Montreal. Such a course not only provides a specific training, but gives the student a wide, general, basic background in history, sociology, history of art, — fairly broad in scope, which constantly ushers in new horizons, to explore and discover, she feels.

"What decided you to become an architect?" we ask Mrs. Dibben who is a housewife, a mother of three teenage children and who looks like a teenager herself.

"I don't know-exactly. I was an only child, and my father, who was an engineer, was disappointed, perhaps, that he had no son. He used to spread out his blue-prints of his various engineering plans and explain them to me as we looked at them together. I grew to love it.

"While in High School, much of my time seemed to be spent in doodling — designing house-plans. Being urged to blue-prints, it just seemed the natural thing to do, to be and architect."

"During the years I was at university, being a girl was no problem. I was the only girl in a class of about twenty boys in my year. However, there were several girls in classes, a couple of years ahead of me.

"How long was your course? How many years did it take to obtain your degree?"

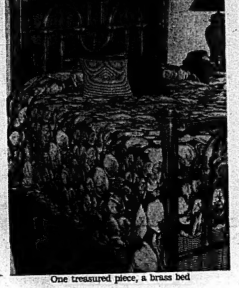
"In my day, at McGill, it took six years."

Our conversation turned to the subject of house-plans.

"House-plans, today, do not make any great demand on architects, for the reason that contractors usually choose from designs already prepared for them.

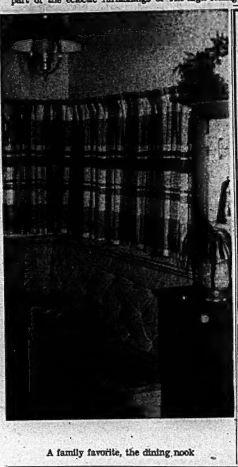
"However," says Mrs. Dibben, "architects are needed for so called luxury houses. They are needed in group planning for new school, high-rise apartments, hospitals, factories and office buildings.

"Such buildings require the knowledge and skill of electrical, mechanical and structural engineers. Many people are involved. The effort is not individual, though the basic idea conceived by the architect is considered."



While a student, Mrs. Dibben was employed by the Dominion Bridge Company, where she worked in the drafting office of the structural department, for several summers, in Toronto.

Shortly after graduating, marriage, and later a family, replaced plans to follow an architect's carrer. This year, however, with more time to do so, Mrs. Dibben is employed by the Paul M. Wiegand Architect firm, 219 Front Street. Modestly Mrs. Dibben declares:



"I am about on the same level as when I first graduated."

In thanking Mrs. Dibben for this interesting interview our thoughts turn to the words of William Hickling Prescott (1796 - 1859):

"The surest test of the civilization of a people - at least, as sure as any....is to be found in their architecture, which presents to noble a field for the display of the grand and the beautiful and which, at the same time, is so intimately connected with the essential comforts of life."

One treasured piece, a brass bed

A family favorite, the dining nook

MAGIC LADY

By Cosmic

On brushing your hair:

If you have any dry tresses and want them saved from further fire or damaged hair brushing may put the finish on you. Fragile hair breaks easily and if you have a tendency toward dry hair, a lot of brushing is the worst medicine for you. Do it to 100 hairs of natural bristle per day. Brushing will clean hair of dust and dirt which otherwise diffuses the natural oils. Brushing also keeps blood and air circulation adding sheen and lustre to the hair.

If you are an anti-brusher through fear of pulling out hair, a few light, up ends, massage will do. Place hands with fingers at ease and fingers as crown. Massage scalp with balls of finger tips (never nails) using a circular motion. Gradually move your fingers from nape up to crown entire head. Spread your fingers and pull them through your hair working the skin of the head. Do this for about 5 minutes per day as if for you.

Our sheriff Elora pitched above is a special request. Pre, 24.97 cm. Use for 1128 CHIP WEEK. Get 'em by the bushel and sell 'em! Magic Lady.

The World Day of Prayer service will be held in Marmora Pentecostal Church on Friday, March 1 starting at 2 p.m. The theme this year is "Make Us Builders of Peace".

The speaker will be Mrs. H.L. O'Dell of Trenton who, with her husband, was a missionary in India for a number of years.

Soloist will be Mrs. Jackie Beatty, and the service will be taken by representatives from the five Marmora churches.

The collection will be forwarded to the Women's Inter-Church Council of Canada who will use it to further the gospel with special emphasis given to educational projects and Christian literature.

A children's World-Day of Prayer service was held in Marmora Ezra Methodist Church on Tuesday, Feb. 26 at 4 p.m. under the direction of Mrs. Helen Hardy.

Mrs. Joe Hart of Benjamin Street is a patient in the Belleville General Hospital.

How to Avoid Junk Mail

By DORIS CLARK

Dear junk mail bother you? If you have credit cards, belong to a book or record club, or have your name on the voters' list or in the telephone directory, you probably receive quite a bit of junk mail.

It is disappointing and frustrating to find your mail box bulging, but not with news from or letters from your loved ones. After all, that junk mail is just so much mope pollution.

You do not have to put up with it. Save up the pieces you object to, and send them with a letter, to the Canadian Direct Mail Association, P.O. Box 3100, Station A, Toronto, Canada, M5W 1N4. Ask that your name be removed from the mailing lists of the companies which send out the advertising you object to.

You may still receive some unsolicited advertising from companies you deal with regularly, such as oil companies or department stores. Your efforts, however, will have done a great deal to reduce the flow of unwanted advertising between mail box and waste basket.

Dorothy Turcotte.

Dear Doris: I could not help but react to the letter from "Life is Meaningless". I lost my dear wife after 40 years. She was a wonderful person. My whole life was her family.

Our children mean well but they have their lives to live too, so I am writing a biography of my dear wife and myself. We lived thru the depression and market crash of 1929 on. Things are travelling at so great a pace our children will not remember nor have the time to pass on to their children many things of the past. I do not want my wife to ever be forgotten in the years ahead.

But to love deeply is to suffer - more deeply than some. My faith has gone and I hope by some chance I may be able to find it again, but you may think I am a weakling because I have shed a tear every morning since she went to rest.

Is There Hope In The Future?

Dear Hope: Of course there's hope. You are left on this earth for an important reason; perhaps for that biography you are writing. Putting things down for others to read is sharing our experiences - and thus helping.

I do not believe that you have really lost your faith. Right now you are going through a period of shock. You would not be human if you did not feel it when the props were knocked out from under you.

The way will open itself, if you make yourself available. Don't draw into your shell; keep looking outwards and be ready for whatever comes.

Dear Doris: I believe this is the verse your reader requested. I found it several years ago when my daughter was small. It is signed simply:

Mother of Five

"Oh give me patience when wee hands
Tug at me with their small demands
And give me gentle and smiling eyes,
Keep my lips from hasty replies.
And let not weariness, confusion or noise
Obscure my vision of life's fleeting joys
So when in years to come my house is still - -
No bitter memories its rooms may fill.

Isabelle.

Dear Isabelle: Thank you. These lines will tug at other mothering hearts, so I am requesting them here. Also, our gratitude to Mrs. K.S., Marie S., and Mrs. R.A.M. as well as all others who are copying out the poem and sending it in.

(Has Doris helped you? Write-and tell her so!)

Allowances Paid

OTTAWA (CP) — By December 1971, family allowances in Canada were being paid to almost five million children at more than three million family addresses during the 1970-71 fiscal year amounted to $558 million.

Mrs. Ronald Hamilton, right, of RR 5 Trenton, new first vice-president of the women's section of the Ontario Association of Agricultural Societies discusses the handicrafts display with Mrs. Milton Cornish of Indian River near Peterborough, retiring convenor The three days conference ended Thursday afternoon.

Refused Baptism

LA SPEZIA Italy (AP) — A Roman Catholic priest refused to baptize an infant because the designated godfather was an activist in the local Communist party. The parents went to a neighboring community where Francesco Maenza's activities were not known, and he stood godfather as planned.

Recipes Win Money

PHOENIX, Ariz. (AP) — Savory crescent chicken squares and chocolate cherry bars were their creators a $25,000 prize in the $2th Bake-off sponsored by the Pillsbury Co. The grand prize winners were Frances Jerzak, and Doris Castle. Mrs. Jerzak's four-ingredient bar topped with toasted coconut in grocery dessert category, while Mrs. Castle's main dish sandwich earned the refrigerated foods grand award.

Volunteers Eat Cereal, Dog Food They Can't Tell the Difference

LOS ANGELES (AP) — "We want to make a noise . . . we want to do for these women what was done for Solzhenitsyn," said Lee Grant, who is joining with other top actresses in a campaign to free three women writers on trial in Portugal.

The censorship case of the Three Marias, feminist authors of New Portuguese Letters, a book banned in their native land, has aroused concern among members of the film industry who face their own censorship problems.

Miss Grant together with singer Helen Reddy, actress Susan Strasberg and Exorcist star Ellen Burstyn appeared before a private audience last week. They read about the writings Portuguese authorities have called "an outrage to public morals and good taste."

"We think the act of our reading from this banned work and the publicity attached to it will help itself a participation against the censor," Miss Grant told 125 actors, writers, directors and even a few politicians who crowded into the Actors' Studio of Actors Studio founder Lee Strasberg.

Songwriter Dory Previn, producer Roger Corman, and comedienne Fanny Flagg were among the listeners.

Solemnly, dramatically, the four women read from the book not yet published in North America. Mostly the excerpts were stories of oppressed women—the tale of death by abortion, an erotically graphic description of rape and a woman's thoughts before murdering her husband in bed.

Starting? Miss Burstyn described the works as "maybe as daring as Henry Miller."

Given away free each week during contest. These tickets will be mailed to your home.

One Hour "SNOOKER" at CUE & CUSHION
Aimed Kilborn at Lady and Gentleman. Given away free each week during contest.

One Case of HAWKINS CHEEZIES
One of the nation's favorite food snacks. Given away free each month during contest.

Ann Landers

Eager Hosts Push Booze

Dear Ann Landers: In recent column which contained "A Recipe for Tragedy" prompts this letter. You said, "It should be framed and hung over every bar in the country."

As a bartender I agree with you in principle, but do you know that 75 per cent of all alcoholic beverages are purchased for home consumption that "recipe" should be framed and hung over the private bars in people's homes or wherever the drinks are served. And it should be read regularly by hosts who think they are being generous when they load drinks and serve doubles, whether their guests want them or not.

I have seen hosts and hostesses pushing drinks at parties and I take no stand. They are, of course, trying to be hospitable, but they aren't doing anybody any favors. Please print this letter in the interest of fairness.-Ed D. Lansing, Michigan.

Dear Ed: Here it is along with my thanks. And, incidentally, the phrase "recipe for tragedy" surfaced in California a few weeks ago and I'm ashamed to admit I have misiaid his letter. If he will write to me again I'll give him credit due him.

Dear Ann Landers: Will you please tell women who admire a dress and offer an compliment to refrain from saying, "Where did you get it." A man would never be so tactless.

My husband and I are not impoverished, -but we enjoy browsing at Goodwill, Salvation Army and Hadastah Resale shops. I sew well and can transform a garment that costs $2 into something that looks like an expensive original.

My husband says I shouldn't be ashamed to give an honest answer, but somehow I just can't bring my self to do it. I've considered saying, "I made it myself," but altering a dress is not the same as making it, so I would be lying.

I need a smart Ann Landers response. How about H-Crafty Gal.

Dear Gal: I don't agree that you need a "smart Ann Landers response." In fact you don't need any response to a question you don't choose to answer. Simply say, "Thank you," or "I'm not telling," and change the subject.

Dear Ann Landers; My wife and I have been stuck so many times on phony mail-order merchandise that we've just about decided 90 per cent of the people in this country are crooks.

The last time we were suckered it was for $35 plus postage for a set of books on beer, complete with cards and pictures. I want to make it clear that this was not yours, it was high class literature and we've given up on this one after five unanswered letters and two telegrams, but what we'd like to know is whether there's any way to check an outfit and find out if its legit before we send our money. Thanks for any help you can give us.-Egg On Our Faces.

Dear Eggs: Write to the Direct Mail Advertising Association, 230 Park Avenue, New York, New York 10017. Your local Better Business Bureau may also be able to help you. If there is not a Better Business Bureau in your city, write to the Council of Better Business Bureaus, 1150 17th Slcoeet, N.W., Washington D.C. 20036. If you get a bad report on any mail-order outfit, please do your fellow citizens a favor and report your findings to the magazine that carried the ad.

All Ears Turn to Listen

A small group of those who attended the YMCA's annual dinner meeting Thursday was all ears and attention when Lloyd Percival, (far right), answered questions after his talk. The author, consultant, and Fitness Institute president spoke to some 135 people last night. During his lengthy and humorous speech, he claimed physical fitness is Canada's greatest undeveloped natural resource.

Jury Acquits Trenton Woman

By PETER GOODSPEED
Staff Reporter

After three hours and 20 minutes of deliberation Thursday evening, a jury of six men and six women found Barbara Bernice Smith, 28, of Trenton, not guilty of a charge of non-capital murder in the July 15 stabbing death of Cpl. James Robinson, of Trenton.

Mrs. Smith was charged with having killed Cpl. Robinson by stabbing him in the lower abdomen with a kitchen knife in her Trenton apartment.

During the four-day Supreme Court of Ontario trial, presided by Mr. Justice Campbell Grant, the jury heard the evidence of 27 witnesses including that of Mrs. Smith.

Testifying Wednesday, Mrs. Smith told the court that on the night of Robinson's death she and Robinson had got into an argument and a fight after he had started a slap her.

At one point in the scuffle, the two of them had been fighting on a couch in the living room, she said. She managed to knock Robinson to the floor and threw an ashtray at his head as he left to enter the bedroom.

After throwing the ashtray, Mrs. Smith said she ran to the kitchen and took a six-inch knife out of a cutlery drawer.

As Robinson approached her with a pillow she marched toward him carrying the knife. The two met in the middle of the living room and Robinson staggered back and fell into the bedroom where he was later found lying in a small pool of blood at the foot of the bed.

Mrs. Smith said she fled from the apartment when she saw Robinson stagger backwards.

When asked why she took the knife into the kitchen Mrs. Smith said; "I was wanting him to leave me alone." That's all. I just wanted to scare him. I didn't mean to hurt him."

"I don't remember even the knife going into him," she continued. "We were just going somewhere in the front room. He staggered and I ran. I didn't know I hurt him. I ran."

A Toronto pathologist, Dr. A. C. Noble, testified Monday that Robinson had died of a single stab wound in the lower left side of the abdomen.

An autopsy had shown that the knife wound had caused a half-inch tear in one of the major arteries that branches off from the aorta, he said.

During his opening address to the jury, defence counsel, Joseph Dewhurst, of Kingston, said that the defence and the Crown were in agreement that Robinson had died of a stab wound inflicted by a knife held by Mrs. Smith. However, the defence contended that Robinson had contributed to his own death which was accidental and that Mrs. Smith had been acting out of self-defence.

The defence also maintained that Mrs. Smith had been provoked to considerable amount to drink before the 1 a.m. stabbing incident.

A blood sample taken at 4:10 a.m. on the morning of the death revealed that Mrs. Smith had 90 milligrams of alcohol per 100 millilitres of blood in her body.

The autopsy on Robinson showed that he had 180 milligrams of alcohol per 100 millilitres of blood in his body.

Crown Attorney Glenn Delaire maintained that the evidence seemed to indicate that Mrs. Smith had chased Robinson into the bedroom and stabbed him while he tried to protect himself with the pillow.

In making his charge to the jury, Mr. Justice Grant told them they could return a verdict of guilty of murder, not guilty of murder but guilty of manslaughter or not guilty of either murder or manslaughter.

The jury began its deliberation at 4:40 p.m. and returned to the courtroom only once, at 5:15 p.m., to seek instruction as to the identification of one of the exhibits.

The jury filed into the courtroom to give its final verdict at 8 p.m., Mrs. Smith sat trembling in the prisoner's dock with her hands clasped in her lap.

As the jury foreman announced the not guilty verdict, Mrs. Smith lowered her head and sat sobbing while shielding her eyes with her left hand. She was helped out of the court room by a female constable and sat in the lobby crying immediately after the trial was over.

Judge Anderson Y Life Member

For the first time in the YMCA's 80 year history in Belleville, a lifetime membership has been awarded a board member for services rendered to the local association.

Judge J. C. Anderson, retired County Court Judge and honorary secretary to the Y's advisory board, was presented with the unique gift during the association's annual dinner meeting Thursday.

The special presentation, made by Louis Maraskas, also included a plaque. Mr. Maraskas thanked the judge for his voluntary active participation in the Y's work and money spent.

Eight silver Y members were awarded Leaders' Fellowship Awards during the meeting.

President, Dr. S. D. Horne, who himself received the award, said the awards are presented to demonstrate the Y's appreciation of the time and effort volunteered by members for a period of at least two years.

The women who received awards were Mrs. Nancy Hayles' Keep Fit instructor, Carol Stam, Kinder Swim instructor, Donna Bonisteel, co-ordinator and originator of the new Aquafun course, and Nell Lockyer, a board and Leadership Training member for the past six years.

Among the men, Ray Kraemer, swim instructor, Cyril Birch, instructor, received an award, along with Allan Bann, instructor of the men's evening Keep Fit classes, and Fred Dracup, judo instructor.

Ottawa Announces Loan for Housing

Central Mortgage and Housing Corporation will loan Ontario Housing Corporation $208,672 so the provincial agency can assemble 4.65 acre of land on Bridge Street East, for high density housing, Urban Affairs Minister Ron Basford announced Wednesday.

The land is one of eight totalling $2,818,233 for assembly of raw land to eight urban municipalities in Ontario. Each loan covers 90 per cent of appraised land value and is for a 25-year term.

Ontario Housing proposes construction of an 81-unit senior citizens' complex on the East Bridge Street property and 40 units of multiple housing facing on Kingston Drive, a new street which runs between Bridge and Dundas Street just east of the Unemployment Insurance Commission building.

Plans for the 40-unit multiple housing have been completed by local architect Paul Wiegand, who says construction is waiting for rezoning before commencing the project.

The multiple housing units will be for sale or rent.

Construction has now commenced on a senior citizen's apartment complex on Bridge Street West across from the fairgrounds and immediately west of the present senior citizens' apartment building.

Sewers have been laid and work is progressing on the new apartment building foundations.

Lloyd Percival:
Fitness an Asset Canadians Ignore

Personal physical fitness is the greatest undeveloped Canadian natural resource, Lloyd Percival, Fitness Institute president, told the annual dinner meeting of the YMCA Thursday.

"The problem rests in overnutrition, over-tension, and under-activity. If we can solve the last problem, we'll be well on our way to solving the first two," said Mr. Percival during his talk before some 135 people.

Mr. Percival, who considers himself primarily a coach, said Canadians rank 20th in the world as far as a citizen's fitness status is concerned. Canada's record in international amateur athletic competition is at about the same level.

Attributing credit for our bad shape, he said society has become "sedentary", and it is difficult to find an occupation that requires great physical exertion. "Few jobs demand much physical activity.

Further, although governments have recognized the need to promote fitness in the form of programs available to do so. Only one in 50 Canadian adults and three in 10 children are involved in regular, well-organized athletic programs, he claimed.

If Canadians don't act soon to improve their fitness, he warned that the country will be getting very low on people energy - the ability to sustain health and withstand tension and stress.

Mr. Percival suggested several solutions to what he considers to be the physical disease of Canadian bodies.

"We must issue high-pressure, professional, convincing salesmanship to sell fitness. We must create a social pressure."

In Sweden, to be fit gives Swedes social status, he said. Not to be fit is to lose that status. It's almost the opposite here in Canada.

Stress has become the greatest modern disease. We're not doing enough. Efforts to expand public awareness are not co-ordinated.

It's not "tough" to get fit, he said, providing tips for gradual improvement in a regular exercise program for all ages.

"Regular exercise is protection for yourself, and from yourself, from stress that we live with all the time." Put another way, he said, a fit individual will possess that extra reserve energy to indulge his or her vices.

In concluding, Mr. Percival chose to paraphrase Hippocrates, an ancient Greek philosopher: "If you don't use it, you're going to lose it."

Chocolate Rabbits Suspected

Public health inspectors are fanning out through Hastings and Prince Edward counties checking all outlets which may have stocked a brand of chocolate now being called off the market.

Health officials began the task Thursday after informative was received from provincial health authorities on Regent Chocolate products.

The recall was announced Tuesday in Canada and the U.S., after federal health authorities claimed positive identification of salmonella eastbourne contaminant in chocolate rabbits made for the Easter markets by the Quebec manufacturer.

Thursday, Lloyd Ellenton, chief inspector of Hastings-Prince Edward county's health unit, said all five inspectors on his staff had been assigned specific areas, leading down any outlets stocking the chocolate.

He estimated about 300 premises in both counties restaurants as well as stores — would have to be visited.

Wholesalers in the region also were being checked.

Mr. Ellenton estimated the amount — which takes all health inspectors from other tasks if it's to be completed as quickly as possible. — might take about five days.

The inspectors' task is to advise all businesses stocking Regent brand chocolate to remove it from sale. Location and amounts in stock are later relayed to the provincial health ministry in Toronto.

She's the Very Last

Marsha Jerred, VON nurse, was the last applicant to receive car licence renewal in Belleville before Thursday's deadline. Licence issuer George Olsen who did the honors personally, estimated a fifteen-week surge brought sales since December to 15,000.

Most Motorists Made Deadline

Most made, it believed Gorge Olsen.

But not all.

The phone was still ringing in his motor vehicle licence bureau in Belleville last night as closing time neared. And they were still hopefully tapping on the window after the office closed for the night at 5 p.m.

Those who missed the office deadline were unlicensed to drive an automobile in Ontario after midnight.

However, Mr. Olsen estimated not too many city and district drivers would have to leave their cars at home today. A last-minute surge of licence renewals this week jolted lagged sales out of the doldrums.

The rush started—Monday when more than 1,200 licences were renewed. Up to then, the bureau had been working at a steady, if unpressured pace, coping with about 400 drivers daily.

It was a daily volume running well behind 1973 sales. One reason for such tardiness, Mr. Olsen assumed, was that renewals this year are signified by small tabs in a corner of last year's licence plates.

The new method replaced the need of issuing complete sets of plates each year. But, the result was no new licences were easily discernible and drivers had less to remind them of approaching deadlines.

By 5 p.m. Thursday Mr. Olsen estimated he and his staff had issued more than 4,200 renewals tabs this week—for a total of about 15,000 since Dec. 1.

But his job is not totally complete. Besides licencee car owners, licence renewals now involve commercial vehicles— trucks and trailers for which the deadline is March 31.

Directors Appointed

Eleven Belleville citizens were accepted as directors of the east end YMCA during the association's annual meeting Thursday.

Robert Wood, chairman of the nominating committee, offered the names of the following people for three-year board membership: James Campbell, Frank Heinz, Dr. S. D. Horne, current president; James O'Brien, Will Roberts, Rev. Ken Slitt, George Smith and Bill Yeates. All were accepted by the 135-person gathering. Accepted for a two-year term was Bruce Swan and for a one-year term were Kim Hawley and Dorothy McKibbon.

Big Winner From Trenton

March came in with sudden generosity for a Trenton woman. Gail Crouch won the $1,000 first prize in the Yardmen Benefit Fund prize of $10,000 plus an additional $1,000 for selling the ticket, in the draw held Thursday evening at the Food Store Yardmen Centre.

Other lucky winners tickets pulled by J.A. Newman, CN employee relation officer, aided by Yardmen Chairman Ernie Belanger, included: Wray Lane, Belleville, $5,000; Hugh Hicks, Picton, $3,500; Alvin Dunphy, Kingston, $2,000; Jean Valiquette, Ste. Therese, Que., $1,000.

Those selling lucky tickets netted $1,000 each with the exception of the fifth place seller who received $500, making a grand total of $27,500 in prize money.

Ticket sales have been increased to an even $28,000, with the extra money added to the fifth prize, which will be $2,000 and the seller to receive $700.

Alarm Box

Belleville firefighters responded to one false following call for assistance Thursday: 4:01 p.m. ...11 Pepper Ave, easterly end. Minor loss or damage to one-storey house.

Baker Reviews Speech
No-fault Insurance Said Impractical

Herb Baker, general manager of the Ontario Insurance Agents and Brokers Association, told Belleville independent insurance agents Thursday that implementation of a no-fault insurance program in Ontario could mean the introduction of "socialism justice."

During a speech to some 35 Belleville Independent Insurance Agents Association members last night, Mr. Baker said the anger of an victim of a rear-end collision would be quick to boil if that victim had to pay the $100 or $250 for repairs out of his own pocket.

"Believe me," he said, "when the offending driver is definitely at fault, by law this can bring on the tire (cont.)

Since the public is not overly familiar with insurance, Mr. Baker said his association will play the "devil's advocate" on the consumer's behalf. It will act as an intermediary between insurance companies and the government.

In an interview prior to last night's meeting, Mr. Baker stated the OIAA's firm opposition to the no-fault scheme the Insurance Bureau of Canada presented to seven provincial governments in February.

The insurance companies' proposals have virtually eliminated the right to sue for injury pain and suffering, or loss of income, Mr. Baker said only three exceptions are permitted. In case of death, in case of total and permanent disability exceeding a period of six months, and in case of serious bodily injury or disability.

The general manager claimed Ontario already has a "wonderful scheme" whereby we get claim payments paid quickly. We've got to get immediate benefits to help—to people involved in automobile accidents."

"We're in favor of limited no-fault insurance on the basis of what we have now in the province — maybe with a slight enhancement to maximum benefit payments."

At present, he said the insurance companies pay mandatory disability income benefits up to the bodily injury section of policies. In Ontario, a man is an eligible recipient of a maximum of $70 weekly for life. A "housewife" is eligible for a maximum of $35 for 12 weeks.

However, should this not be enough. An individual can sue for more money to cover his accident disability.

Under the proposed scheme, this would not be possible. An injured individual would collect according to a scale of benefits similar to Workmen's Compensation Board payments, said Mr. Baker.

Although not in favor of no-fault personal injury insurance, the Toronto-based association is in favor of some form of no-fault property damage insurance.

This would get automobiles repaired quickly, said Mr. Baker. At present, 70 per cent of all accidents in Canada involve damage to automobiles.

Funding Still in Doubt

Quinte Emergency executive still is marking time on its 1974 budget—as deadlines draw closer for presenting its estimates to member municipalities.

The committee met once more this week and found replies were still pending from senior governments on a financial frustration.

It's a problem common to most other civil emergency groups in Ontario and if not resolved soon could affect the viability of local peacetime disaster planning, says QEMO co-ordinator Angus Duffy.

It stems from federal shelving of allocations for emergency measures spending. Ottawa grants fund local EMO budgets 75 per cent, the province spends 25 per cent and municipalities 10 per cent.

However, the provincial government will decide soon whether it can help the 47 Emergency Measures Organizations across Ontario, N. W. Timmerman, director of Ontario emergency measures in the solicitor-general's ministry, said Thursday.

Under an agreement, Ottawa, the provinces and the municipalities contribute funds to the EMO. Ontario's contribution has been slightly more than $400,000.

Mr. Timmerman said the problem for the province is whether it will make up the difference caused by the Ottawa cutback.

He added there is some possibility that Ottawa will forego the 25 per cent because of pressure from all the provinces.

With a projected $21,800 1974 "cost-to-Ontario" budget, the loss of $7,500 in federal funds poses serious problems for local groups like QEMO.

Letters and telegrams have repeatedly been sent the senior governments — without result, said Mr. Duffy.

The QEMO committee now has discussed the possibility of having to go by the municipalities to possibly pick up the slack, said Mr. Duffy.

Urgency is imparted the situation since the municipalities are now drafting their 1974 budgets and don't know how much QEMO actually needs.

The committee has asked that Ottawa either rescind its decision or the province make up the financial difference — so far without supporting replies.

Without senior government funds, the 30 municipalities in Hastings, Prince Edward and Lennox counties would have to at least triple their contributions to keep QEMO operating on more than a "limited, hang-on basis," says Mr. Duffy.

"I suppose the amounts involved may appear to be significant but the problem doesn't seem urgent to senior governments. But it could make the difference between programs continuing or being dropped — not only here but in other parts of the province," said the co-ordinator.

One reason for the situation could be the variance in budgeting dates between governments. Senior governments operate on a fiscal year, municipalities on a calendar year. Thus, grants which might be available, but which have no date for local budgeting, be said.

Judge Honored

After presenting former County Court Judge J. C. Anderson with a plaque acknowledging his service to the east end YMCA, Louis Maraskas (left) was ready for another presentation. Thursday the Y advisory board directors gave Mrs. Anderson a pink rose during the Y's annual dinner meeting at the Sun Valley Motor Inn. Judge Anderson was also presented with a lifetime membership at the meeting attended by some 135 people.

36 Year Old Rookie Ties Goalie Record

By THE CANADIAN PRESS

Toronto Maple Leafs have abandoned their plans of rookie ing their three goaltenders, but Boston Bruins likely will continue to use Ross Brooks in the net occasionally to give regular Gilles Gilbert a rest.

Brooks tied the National Hockey League record for the most consecutive victories Thursday night as the Bruins thumped Detroit Red Wings 8-1.

He shared the night's honors with teammate Phil Esposito, who reached another milestone with his 450th and 451st career goals.

The Leafs' new policy, announced earlier in the week by coach Red Kelly, paid off as they defeated New York Islanders 6-4 with Doug Favell in goal.

Kelly said Wednesday he was going to use Favell until he loses. The Leafs have Ed Johnston and Dune Wilson to fill in when Favell falters.

In other games Thursday, Montreal Canadiens blasted Pittsburgh Penguins 7-1, Chicago Black Hawks were held to a 2-2 tie by Buffalo Sabres, Minnesota North Stars tied Philadelphia Flyers 2-2 and Los Angeles Kings lost to within one point of a playoff position in the West Division by defeating in fourth-place Atlanta Flames 3-1.

Brooks, 36, of Toronto, who gamed almost all his junior hockey for Barrie Flyers of the Ontario Hockey Association Ma- jor A series, is an NHL rookie. He had 38 saves as he registered his 14th consecutive victory, equaling the record set by Boston goalie Tiny Thompson in the 1929-30 season.

The Bruins have not been beaten with Brooks starting in goal since Oct. 21, when they lost 3-2 to St. Louis Blues.

Esposito became the ninth player in NHL history to reach the 450-goal mark when he scored his 32nd of the season in the second period. He got his second goal of the game in the third.

Ken Hodge, who added one goal for the Bruins, has 41 goals for the season and needs only two more to hit the 250 plateau.

Toronto 5 NY Islanders 4

Paul Henderson scored three times in the third period to rally the Leafs. Darryl Sittler, Tim Ecclestone and Borje Salming were the other marksmen for the winners. Brian Spencer, Ed Westfall, Denis Potvin and Billy Harris shared the Islanders' goals.

Montreal 7 at Pittsburgh 1

Veteran Claude Larose, who had been demoted to Montreal's Atlanta, had the first four-goal game of his NHL career to spark the Canadiens.

The right winger said he had a four-goal game in the Central Hockey League a few years ago.

"But I never thought it would happen in the NHL."

Chicago 2 at Buffalo 2

Craig Ramsay's goal with less than four minutes remaining in the third period salvaged the tie for the Sabres, who dropped eight points behind the Eastern Division's fourth-place Leafs. Buffalo has two games in hand over Toronto, the tie for Chicago ended its road-winning streak at four games.

Minnesota 2 at Philadelphia 2

J. P. Parise's 13th goal of the season enabled Minnesota to tie the Flyers, who share the lead in the West with the Black Hawks. But the North Stars still are four points off the pace of the fourth-place Atlanta club.

Los Angeles 3 at Atlanta 1

Butch Goring scored two goals to lead the Kings to victory, with Dave Maloney providing the winner. Los Angeles now is only one point out of a playoff position.

Three Share The Lead

SARNIA, Ont. (CP) — Rinks shipped by Brian Seddon of Oshawa, Dave Van Dine of Ottawa and George Morrisey of Welland share the lead in the Ontario Curling Association mixed championship after opening rounds Thursday.

Seddon opened with an 11-2 win over Bob Denning of Stroud and then went on to defeat Mel Morrison's Kingston rink in an extra end.

Van Dine defeated the Kingston foursome 12-3 and then knocked off the Stroud entry by a 10-6 score.

Morrisey defeated Paul Stone of Galt 8-4 and then defeated Lorne Mannine of Toronto 11-9.

Mannine's Toronto rink and Stone's Galt rink share second place with 1-1 records and the Morrisey, Kingston, Ont., rink is the London rink are winless after two games.

The competition ends Saturday and the champion will advance to the Canadian final in Winnipeg, starting March 24.

Sport Briefs

WANTS AARON HOMERS

CINCINNATI (AP) — There's at least one Cincinnati fan who hasn't given up hope that Atlanta Braves' slugger Henry Aaron will play in baseball's season opener here against the Reds. Ron Jurgen is offering $2,000 for Aaron's 714th homer and $3,000 for No. 715. And it doesn't matter to Jurgen if both the homers are hit. He and his father purchased one of Aaron's home run balls hit at Riverfront Stadium last year. They paid $1,000 for it.

NAMED PR DIRECTOR

OTTAWA (CP) — Bobby Simpson will become a full-time public relations director of Ottawa Rough Riders of the Canadian Football League, the club announced Thursday. Simpson, an outstanding end with Riders in the 1950s, worked on a part-time basis last season.

Brooks – 14th Straight Win

Ullman, T	19	43	62

Marlies Down Wings

TORONTO (CP) — Toronto Marlboros defeated Hamilton Red Wings 7-3 in the only Ontario Hockey Association Major Junior A game Thursday.

Mark Napier, John Tonelli, Kevin Devine, John Anderson, Bruce Boudreau, John Smrke and Jim Clarke shared the Toronto scoring.

Kevin Strang, Greg Hickey and Ron Roscoe replied for the Red Wings, outshot 41-33.

Rick Szabo started in goal for Hamilton and allowed the first five goals before being replaced midway through the second period by Greg Redquist.

Toronto took eight of 13 penalties called.

Mark and Gordie Productive Team

By THE CANADIAN PRESS

Houston Aeros and the Howe family continue to dominate the Western Division of the World Hockey Association.

A three-goal performance by rookie Mark Howe, with assistance assistance from his father Gordie, helped the Aeros win 9-4 over Indiana Racers Wednesday night.

Veteran Frank Hughes also scored three goals for Houston.

Gordie Howe's four assists moved him four points ahead of Minnesota Fighting Saints' Mike Walton in the league scoring race. Gordie set up all of Mark's goals.

Toronto Toros shut out Winnipeg Jets 3-0, Quebec Nordiques defeated Vancouver Blazers 9-4, New England Whalers tied 3-3 with New Jersey Knights and both Cleveland Crusaders and Minnesota tied 6-6.

Winnipeg 0 Toronto 3

Toros' game played in Ottawa was only 32 seconds old when Wayne Carleton beat Jets' goalie Joe Daley on a setup from defenceman Carl Brewer. Guy Trottier's 22nd goal of the campaign raised Toros' lead to 2-0 before the period ended.

New Jersey 3 at New England 3

Whalers goalie Al Smith kicked the puck into his own net to give the Knights a 2-0 lead after Craig Reichmuth had opened the scoring moments earlier.

New Jersey fell behind 3-0 when Andre Lacroix scored his 25th goal of the season, but the Whalers bounced back for the tie.

Vancouver 4 at Quebec 9

Johnny McKenzie's 16th goal of the season broke Quebec goalie Richard Brodeur's bid for a shutout midway through the second period. The Nordiques added two more to score their first win over the Blazers replied with three more goals.

Cleveland 6 at Minnesota 6

A goal by Steve Carlson at 16:34 of the third period tied the score for the sixth time and prevented the Fighting Saints a split in points with the Crusaders.

Gorman and Pilic Move to Semi-final

MIAMI (AP) — Tom Gorman breezed past Mike Pilic and Cliff Drysdale stopped Patrick Proisy in straight sets Thursday night, advancing to the semifinals of a World Championship Tennis tournament.

The result was a quick, 43-minute verdict for Gorman over his Yugoslavian rival, 6-1, 6-2. Pilic lost his first three serves to Gorman, of Seattle, as he fell behind 5-0 in the first set.

Drysdale, who was unseeded, conquered France's Proisy 6-3, 6-3 in a match that started almost simultaneously with Gorman's bat ran about a half hour longer.

BARCELONA, Spain (AP) — Sweden's teen-age Bjorn Borg stunned Australian veteran Rod Laver 6-1, 6-1 Thursday and advanced to the quarter-finals of a World Championship Tennis tournament.

Borg will face Italy's Adriano Panatta, who proved stingy with a 6-1, 6-1 over Jun Kanekwanuni of Japan.

In other matches, Vladimir Zednik of Czechoslovakia defeated Tom Edlefsen of Los Angeles 6-3, 6-4 and Jan Tiriac outlasted Spain's Juan Gisbert 6-2, 4-6, 6-4. Zednik will face Tiriac in the quarter-finals.

The other quarter-finals pit Arthur Ashe of Miami against Britain's Roger Taylor and Eddie Dibbs of Miami against Tom Leonard of Carlsbad, Calif.

Keech Leads Windsor

By THE CANADIAN PRESS

Chatham Maroons won their third consecutive game Thursday in Southern Ontario Junior Hockey League playoff action, moving to within one point of capturing their eight-point quarter-final series with Guelph Biltmores.

Doug Simpson scored three goals as the Maroons defeated the Biltmores 5-1, increasing their total points in the series to six. The fourth game will be played today in Guelph and a fifth if necessary, in Chatham Sunday.

In the other playoff game Thursday, Windsor Spitfires blanked Detroit Junior Red Wings 6-0. The Spitfires won the first game in that eight-point quarter-final series. Third game is scheduled for Sunday in Windsor.

At Chatham, Mike Houston and Colin Thompson got the other Maroons goals. Dave Wilson replied for Guelph on a power play in the second period.

Jim Brown stopped 38 shots in Guelph's net while Rick Hine blocked 29 for Chatham. The Maroons took eight of 15 minor penalties.

At Detroit, Steve Keech scored twice while Mark Smith, Mike Sovie, John Tavella, Mike Reade, Randy Kozar and Bill McCreary added single goals.

Windsor outshot Detroit 31-20 and took 16 of 28 penalties. Three separate fights in the third period resulted in six majors—three to each team—being called.

East Can't Match West

By THE CANADIAN PRESS

Quebec Remparts atop the Quebec Major Junior Hockey League's East Division standings some time ago, but they meet their match Thursday night as the Cornwall Royals whitewash them 10-0 in the first game of the best from the West.

Cornwall Royals shot down the High-Flying Hawks 6-3 to stay 16 points ahead of the West Division's second-place Montreal Juniors, who won their only other game of the night 7-4 over Drummondville Rangers.

The Royals now have 41 wins, 16 losses and two ties for 84 points, while Montreal is giving chase with a 23-23-3 mark for 69 points.

Scott's Serge Gamelin opened the scoring at Cornwall at 7:20 of the first period, but the Royals' Bob Ferguson tied it at 1-1 before the period was over.

Cornwall's depth came to the fore in the second session, when Kevin Treacy, Doug Chase, Jim Chase, John Nazar and Allan Wagar all fired single goals that gave the Royals a 6-2 lead after 40 minutes. Jacques Cossette's Black Hawks outscored Royals by 4-1 in the third period, but the Royals withstood a 19-9 Sorel edge in final-period shots on broke Beavers' play host to the goal and took the decision. Rangers and Sorel entertains Cornwall had an over-all 41-30 Trois-Rivieres Draveurs.

Michel Bergeron fired the first goal of the game 41 seconds into the third period, but the Royals' Shawinigan Dynamos. Shermeister Sagueenays board Quebec Legion Nationals are at

Fitness Expert Calls the Shots

By MIKE BRADSHAW, Sports Staff

"If there was a great turnoff by women until all men got back into shape," said Lloyd Percival, Thursday, "it would be the best thing that ever happened to this country."

Percival, 61, was commenting at a press conference at Sir Valley Motor Inn on the physical fitness of the average Canadian male.

A member of the Board of Governors of Participaction, Lloyd and his group were the ones who compiled the data which place the physical fitness of the average 30-year-old Canadian male on the same level as that of a 60-year-old Swede.

"If we don't change our instrumental values of fitness we're going to be a very substandard nation, physically," said Lloyd. At present, Canada ranks about 25th in the world on a fitness scale.

One surprising fact Percival stressed is that more and more women, especially between the ages of 18-35, are becoming interested in physical fitness and health.

To this, Brian Bentley, the physical fitness director of the local YMCA, added, "according to Centres from the YMCA and the Belleville Recreation Centre the male segment of physically active Bellevillians was dropping while the female was on the upswing."

"Unfortunately," added Lloyd, "there aren't enough recreational facilities keyed to women and their particular activities."

"Personally," Lloyd said, "If I had the choice between an amateur athlete, coach and an amateur male runner I would take the female. Pound for pound the female would be faster and in better condition."

One of the bigger resons for the low level of Canadian fitness is "the high degree of professionalism we place on participation in sports," stated Percival, there aren't enough people playing for the sake of playing."

Percival makes no claims as to being an authorized expert in his field, but his credentials speak for themselves.

He is the President of Fitness Institute and P.I. Fitness Institute, and P.I. Productions. Director of Sports College of Canada, Program Consultant to the Canadian Olympic Association, Founder and Consultant of the Coaching Association of Canada and Consultant to the Detroit Red Wings Hockey Organization, Davis Cup Tennis Team, National Women's Gymnastic Team, National Alpine Ski Team, etc.

He is also a Member of the International Society of Physical Education and many other international fitness and sports associations and author and director of many books and films on sport and fitness. These just name a few of his involvements which speak for his expertise on the subject of fitness.

One complaint Percival made was "the lack of time and money that physical education is alloted in our educational system. In Sweden six hours of the school week is spent inside on physical education and four outside more hours outside. In Canada the time allotment is much less. Our government and provincial governments aren't yet convinced of the importance of fitness, but in the past few years their assessment of the subject has grown a great deal."

YMCA director, Bentley, said, "Lloyd was asked to come to Belleville to aid us in increasing the fitness of the average Bellevillian. We don't care if they work out through the Recreation Centre, our organization or anywhere else as long as they become aware of their poor fitness status and begin to improve it."

Centre Hastings Secondary School's Carolyn Latchford (right) and teammate send the ball on its way during Thursday's Bay of Quinte girls' volleyball playoff at Ontario School for the Deaf. Centre Hastings won the senior division honors.

Volleyball Titles Decided

Undefeated is the way true champions win their matches. And that's what the Moira Junior and Centre Hastings Senior Girls' Volleyball teams did yesterday at the Bay of Quinte Volleyball finals, held at OSD. Each team won its three matches of the day to take the titles in the double elimination tournaments.

The Moira girls took Napanee in their first contest, Centre Hastings in their second and Quinte Secondary in the final match.

Quinte took the first game of the final set, 15-7, but Moira came back with a 15-3 win in the second game. Moira took a slim 15-13 win in the final game of the best of three match to the junior championship.

Quinte had won two games and lost one before meeting Moira in the final, losing to Centre Hastings in the first match, while defeating Centre and Centre Hastings to get back into the final.

In the senior division, Centre Hastings took Napanee in the opener, Centennial in the second game, and Quinte in the exciting final match, to take the title.

Centre Hastings took a 13-9 lead in the first game of the final match, but Quinte came back to take a 17-15 win. The eventual champions, came back to take the final two games, the rounds 15-9 and 15-7.

Quinte took their route to the final on two wins and a loss.

Trenton High School's Lee Kelly appears to be wearing the ball as Belleville Collegiate Institute player passes off during COSSA basketball eliminations Thursday, at Loyalist College. BCI got by Trenton 46-37, in the senior division.

Cousins, Amey Out

The Belleville Bobcats will be trying to extend their unbeaten playoff record tonight when they travel to Pickering to play the Panthers in their first game of the Metro Junior B semi-finals.

Belleville will have their hands full with the Panthers however, as they are also coming off four consecutive victories in their quarter-final series against St. Mike's.

"We've got to win a game up there," says coach Moe Hunter, "and it's always nice to win the first one rather than the last."

The Cats will be travelling without the services of Brian Cousins, who has been absent from their lineup since the last game of the regular season due to a shoulder injury. Cousins is expected back for Sunday night's home game, though his talents will be used in a limited capacity until he fully recuperates.

Also missing from tonight's lineup will be defenceman Vern Amey. Work commitments have sidelined Vern, but he too will be back Sunday.

As for a game plan, Hunter says, "the big factor in the series will be goaltending. We're going to start with Bruce (Clark). He's been playing very well for us lately."

Clark has allowed nine goals in the three playoff games which he tended the Cats' goal for a 3.00 goals against average.

Hunter is going to shuffle some lines fo tonight's period opener.

Grant Goegan, the fast skating Biggin Juvenile who has been playing as an extra man for the Cats will be playing on a regular line with Norm Jones and Jim Richardson.

"What I hope the move will do," stated Hunter, "is get our #1 goal scorer (Richardson) scoring goals again."

The Hunters, Mike Watt, Mark Coates and John Serafini, who produced over half of the Bobcats points during their quarter-final against Peterborough will stay together for the semi-finals.

All games in Pickering will be played in the Don Beer Arena with 7:30 p.m. starting times, while home game times are slated for 8:30 p.m.

Lorna Bennett Wins

Lorna Bennett skipped her rink to first place in the Past Presidents Women's Quinte Curling Club Bonspiel yesterday.

The Bonspiel, sponsored by Bill and Kay Page owners of Page's Auto Parts, was run on a two game, total point basis.

At the end of the day long event, Lorna's foursome with a score of 37, had placed ahead of 19 other rinks.

The Bennett rink picked up five points for each end they won in the first game plus five bonus points for winning the game. In their second match they got seven points for winning seven ends and 10 bonus points for taking the match.

Members of the winning rink are, Bennett, skip, Marian Allaire, vice, Marjorie Frueter, second, and Shirley Lee, lead.

There were 16 different awards on hand.

BCI, THS and Moira Earn COSSA Berths

BCI Seniors, Trenton Juniors and Moira Midgets are COSSA bound. They won the right to go to the final of Central Ontario last night, taking victories in the Bay of Quinte COSSA eliminations played at Loyalist Gym.

In the midget game, Kent Manning hopped 27 points to lead his Midget Trojans to a 59-43 win over BCI.

Rob Chase added 12 points to the losing cause, while Steve Whyte had eight.

John Gilmore had 13 points for BCI midgets, who were down 14 points at the end of the first half, 31-17. Brent Walmsley added eight in a losing cause, while Ron Beim scored five.

Trenton Juniors outscored the Bayside by 11 points, 12-1, in their third period to wrap up a 37-25 victory over the Red Devils. Blaine Hillberg's 12 points led the way for the winners, while Rob Thompson scored nine, and Dave Lewis 7.

Larry Wilson and Russ Simonds each contributed 18 points to the BCI Seniors win over Trenton. Included in Wilson's total were 10 points he scored from the foul line in the 14 attempts he was given. Dave Van Vliet added nine points, with Steve Kirby bagging seven.

Don Armstrong and Steve Mills shared the top scoring honors for the losing Trenton team, each with 10 points, while Rick Galloway added eight.

Basketball Finals At Bayside, Saturday

Bay of Quinte high school basketball playoffs are scheduled at Bayside Secondary School, Saturday with the action getting under way at 8.30 a.m. Midget, junior and senior titles will be decided.

Belleville Collegiate Institute senior coach Ken Smith is doubling in brass for the event. Not only will his squad be playing in undefeated record on the line, Ken is convener for the playoff.

First round midget play sees Centennial Secondary School host Moira Secondary School booking up at 8.30 while Nicholson Catholic College and Centre Hastings Secondary School clash at 10 o'clock.

Junior competition begins at 11.30 with Belleville Collegiate Institute attempting to knock Quinte Secondary School pins the ranks of the undefeated. At 1 p.m., Trenton High School meets Moira.

It's Quinte and Moira in the first senior match-up at 2.30 while BCI goes against Trenton at 4 o'clock.

Midget, junior and senior finals are set for 5.30, 7 o'clock and 8.30.

Admission for the playoff tournament is 50 cents.

Five from Loyalist In Badminton Finals

Loyalist College placed five excellent showing in the regional meet, leading the way as a team and placing seven players in the finals.

Representing Algonquin will be Bill Yeo and Budi Hoo, second in men's doubles; Pauline Hilder and Elinor Cameron, first in women's doubles; Garth Rogers and Barb Foltier, first in mixed doubles, and C-L Chew, tops in men's singles.

Rounding out the eastern division's list of qualifiers for the finals are St. Lawrence of Cornwall players Cheng Sin Hong and Kon Yun Lee, who teamed up to take first place honors in men's doubles, and Gho Chai Leong, second in men's singles.

Oakland A's Players Big Money Winners

MESA, Ariz. (AP) — Oakland Athletics, in the money league, are second-class world champions of baseball no more.

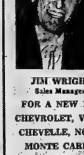
Pitcher Jim (Catfish) Hunter made history when he received the first $100,000 contract awarded by Oakland owner Charles O. Finley. Third baseman Sal Bando got $100,000 and right fielder Reggie Jackson $135,000 by winning over Finley at the arbitration table.

But the five players who won their cases in arbitration, taking an $85,000 cut out of Finley's millions, apparently all made points by comparing their salary requests with the pay of rival players.

"We've been underpaid too long," was the rallying cry, sounded by Jackson, one of those who went to arbitration.

Jackson's business partner, Gary Walker, represented him in the arbitration hearings in San Francisco and brought in a chart showing the size of raises awarded other recent American League most-valuable-player award winners.

Chicago White Sox' Richie Allen, for instance, went to $225,000 from $100,000 after winning the award. Jackson, the 1972 winner, asked for a comparatively modest increase from $75,000.



"We had access to figures on all other players' salaries. Some of them were really surprising," said Darold Knowles, who went to arbitration although he and Finley were only $4,000 apart.

Knowles discovered he was sixth highest-paid relief pitcher in the majors and was convinced he should be paid as much as at least two betters—Dave Giusti of Pittsburgh Pirates and Clay Carroll of Cincinnati Reds.

GETS NEW CONTRACT

LOS ANGELES (AP) — Chuck Knox, who coached Los Angeles Rams into the National Football League playoffs in his rookie season as a head coach, has been rewarded with a five-year contract, owner Carroll Rosenbloom announced Thursday. Contract terms were not disclosed. Knox, 42, who came to the Rams from Detroit Lions where he was an assistant coach, earned coach of the year honors after Los Angeles won the Western Division champion-ship of the NFL's National Conference with a 12-2 record. The new contract replaces the three-year pact Knox signed a year ago.

Lorna Bennett, left, skipped her rink to a pair of consecutive victories and totalled 27 points to take first place in the Fast Freeze Women's Curling Club Bonspiel yesterday. Bill Page, centre, sponsor of the Bonspiel, presents trays to each member of the rink. Members are, from left to right, Bennett, skip, Marion Alkins, vice, Marjorie Prosser, second, and Shirley Coe, lead.

Palmer Bounces Back

ORLANDO, Fla. (AP) — Arnold Palmer had to reach back 18 years in his memory to find the spur that kept him going after a triple bogey eight on the first hole of the first round of the $150,000 Citrus Open golf tournament.

"I decided I was either gonna play like hell or get up and get out," said Palmer, who quickly got eight more on his card. Undaunted a four-under-par 68 and pulled to within one shot of the lead Thursday.

The lead was shared by Jack Ewing, who had one of the three holes-in-one recorded, Jerry Heard and Richard Crawford. They matched Tim Ferguson for the 6,292-yard course.

Australian Bruce Crampton had a 69 while Lee Trevino, defending champion Buddy Allin matched Ft.

Ben Kern of London, Ont., had a 69, three under par, only two strokes off the pace. Wilf Homenuik of Winnipeg, only other Canadian entered, shot a 72, with 35-37.

"I remembered the Eastern Open in Baltimore some years ago (1956)," Palmer said. "I hit the first ball off the first tee out of bounds and I was ready to quit.

"I was playing with Doug Ford. He said, 'Don't pick it up. You can spot 'em two strokes.'

"At one point in the fourth round I led by 12 strokes. I won the tournament."

With that in mind Thursday, he made a scrambling par on the second hole, played the next 13 holes eight under par and took a share of the lead, then bogeyed the 16th when he missed the green.

He needed only 26 putts and dropped two from about 25 feet.

On the first hole, a 562-yard, straight-away par five, he pulled his drive into the woods, then hit a tree limb trying to come out. He hit a tree on the next shot, with the ball bouncing back into a muddy, watery ditch.

He tried to play it out but only succeeded in burying the ball in the side of the ditch. Next he took a drop, pitched on his six and two-putted.

Ewing's ace came with a six-iron shot on the 165 yard 13th hole and was the first of his ca-l also scored aces.

Saskatchewan Champions Planning On Long Reign

VICTORIA (CP) — Emily Farnham has some bad news for anyone hoping to dethrone her Saskatchewan foursome from the Canadian women's curling title—her rink plans to stay together "a long, long time."

Miss Farnham, with lead Donna Collins, second Patricia McIlrath and third Linda Saskiw, swept through the other nine rinks at the five-day Canadian Women's Curling Championship which wound up Thursday without losing a game.

"My front three really played well," said the Saskatoon skip after bringing her province the Macdonald Lassie trophy for the sixth straight year.

"The girls really played tremendously and we really had everything going well."

And the four plan to stay together at least until next year's championship at Moncton, N.B., providing Miss Farnham can make it past the tough Saskatchewan playoffs.

"We're going to be together a long, long time," Miss Farnham said with a broad grin, "unless something unforseen happens, like one of the girls deciding to raise a family."

The Saskatchewan quartet wound up their marathon run Thursday by defeating Ottawa's Dawn Ventura, the Ontario champion, 9-7 in the final round.

They had clinched the championship earlier with an 11-3 win over British Columbia's Marion Radcliffe of Kelowna that combined with a victory by Ontario over Marie Thiele's Prince Edward Island rink to make the final round meaningless in deciding the title.

The surprising Charlottetown foursome had gone into the second-last round with a chance to catch Saskatchewan, but collapsed under the pressure of a strong game from Ontario, which managed a 10-7 victory.

"We've been going after this for 12 years,"...said the gleeful Miss Farnham.

"Alberta, New Brunswick and Nova Scotia gave us a tough fight, but we managed to come through okay."

What pleased the championship organizers was the large turnout at the Victoria Memorial Arena for the championships.

ONTARIO HOUSING CORPORATION
requires an
ASSISTANT MAINTENANCE SUPERVISOR
Salary Range : $9,588 - $10,279

As Assistance Maintenance Supervisor, you will assist the Maintenance Manager by ensuring that your portfolio of Ontario Housing units within the Belleville area are properly maintained and kept in a good state of repair. Under the guidance of the Maintenance Manager, you will assist in increasing responsibility for the preparation and implementation of programs of preventative and remedial maintenance, involving the preparation of budgets, work schedules, work undertaken by contractors and supervision of on-site staff.

QUALIFICATIONS :
Successful completion of at least two years of a Secondary School course of study in Science, Technology and Trade, or Journeyman, Standing in a trade related to the Maintenance function and/or an acceptable combination of training and experience. Considerable knowledge of maintenance trades, with a demonstrated ability to perform all minor repairs and renovations. This position is open to both men and women. Use of a car is essential. Detailed resumes and applications should be sent to the attention of Mr. William James, P. O. Box 682, Belleville, Ontario by March 30, 1974.
M1-3t

ONTARIO HOUSING CORPORATION
requires a
COMMUNITY/TENANT RELATIONS OFFICER
Salary Range : $8,434 - $9,883

As a Community/Tenant Relations Officer, you will assist the Manager of Ontario Housing units within the Belleville Area in all matters pertaining to relations between the Corporation, Applicants and Tenants. Under the guidance of the Manager, you will assume responsibility for coordinating social and recreational activities of tenants, assist families in settling into the environment, upkeep of the dwelling and referral to community organizations and social agencies. Interpretation of Corporation policy, visiting and interviewing tenants and association for mutual benefits, and such other duties as may be required.

QUALIFICATIONS :
Graduate from an accredited University with a major in one of the Behavioral Sciences, or from a Community College in a related field and be able to demonstrate, by two years practical experience in community organizations and/or social work. Consideration will be given to individuals with secondary school graduation with many years work or related experience. A strong measure of self-motivation and the ability to work with all age groups in social, economic and recreational fields is also required. This position is open to both men and women. Use of a car is essential. Detailed resumes and applications should be sent to the attention of Mr. William James, P. O. Box 682, Belleville, Ontario by March 30, 1974.

World's Biggest Tides May Yet Yield Energy

HALIFAX (CP) — The world's mightiest tides sweep 166 miles up the Bay of Fundy, an energy source that has dazzled engineers for half a century.

They have proposed countless schemes for converting the power of the 53-foot tides into electricity, but only recently have they seen even a glimmer of hope.

The problem is not how to harness the tides—the basic principle for that has been in use since the 12th century—but how to do it cheaply enough to compete with other forms of energy.

Ironically, it is the energy crisis that makes Fundy seem within grasp and yet the same crisis is the major stumbling block.

A review committee set up by the federal government and New Brunswick and Nova Scotia, the two provinces bordering the bay, is reconsidering a 1969 study that said the project was technically feasible but could not compete with electricity from oil-fired thermal plants.

Both Premier Gerald Regan and L. F. Kirkpatrick, president of the Nova Scotia Power Corp, and a member of the committee, say there is no doubt the rapidly-rising price of oil has made Fundy competitive.

But they say the committee review has not been completed because its federal members are preoccupied with the petroleum crisis.

The delay is frustrating to Premier Regan since the federal government is reluctant to take any action until it gets the report and the province needs federal money for more research.

The study the province is anxious to start is on the effect a dam would have on the tidal range. The 1969 study said a dam would reduce the height of tides 10 to 15 per cent but, since the magnitude of the tides determines the amount of power produced, the province wants more exact information.

Federal assistance is also needed for construction of a high-capacity power grid to Ontario and Quebec, providing access to markets for surplus power.

The 1969 report by the Atlantic tidal power programming board recommended sites for dams across the entrances to Cobequid, Cumberland and Shepody Bays. They would cost about $2 billion and have an annual generating capacity of 13,360 million kilowatt-hours.

It said the most promising site was Cobequid Bay, at the foot of Minas Basin.

Mr. Kirkpatrick said if the project gets under way construction time may be spread over 20 years. The pattimos of the dams recommended in the report are at the bottom of the bays because they made the most sense economically, but that may be changed.

You can get sites with many, many times the potential output of the sites we decided to go for down the bay," said Mr. Kirkpatrick who was a member of both the original study and the review committee. "It may be that with the cost of fuel where it is that some of the sites considered uneconomic before may be re-examined."

Perhaps the easiest way to understand the principle is to examine one of the earliest tidal developments, a grain mill used 800 years ago.

A basin was constructed with flap-gates that opened when the tide came in and closed at high. When the tide began to recede, it forced the gates shut leaving a basin full of water. The water could then be directed through a sluice to run a waterwheel, which in turn powered the grinding stones in the mill.

The basics remain the same, although engineers have refined the methods and now plan on a scale that compares with the original in the way the Grand Coulee American project compares with a backyard dam.

One tidal plant is already in use, built at a cost of $20 million on the Rance River Estuary in France. It is on a smaller scale than the Bay of Fundy project and has an annual output of 540 million kilowatt-hours.

Power at Rance is generated on both the flood and ebb tides, but Mr. Kirkpatrick said the system favored for Fundy would generate on the ebb tide only. The 1969 study said it was the least complex method and therefore would involve the lowest cost.

That means power would be produced only when tidal conditions are right, at times in the middle of the night when the need for electricity is low. That was one criticism that Federal Energy Minister Donald Macdonald had of Fundy power.

However, Mr. Kirkpatrick said power from Fundy can be retained for available when most needed, either through a tie-in with a large hydro plant or by using a new concept of storing compressed air.

With a tie-in, if Fundy power was not needed immediately, it would be used to pump water into the storage basin of a hydro system, increasing the output of such a plant by 10 to 20 per cent during peak periods.

The other method would use Fundy power to compress air and store it underground in abandoned mines or salt caverns and then combine the compressed air with natural gas or light oil to run gas turbines when power is required.

By compressing the air outside a turbine, the output of such a generator is tripled, Mr. Kirkpatrick said.

But even if compressed air storage was used, a grid would still be needed.

"A grid system of major portions is needed if the electrical energy generated by tidal power is to be distributed," Premier Regan says. "There's just too much power to be absorbed by the Maritimes right away."

One huge market for surplus power is the northeastern United States, an area perennially short of power and also one of the areas hit hardest by the rapidly-increasing price of oil.

Economics scuttled schemes to harness Fundy that go back to 1919 when Wallace Turnbull, a little-known Canadian mining engineer, began studying the tides and pushing for some sort of development.

The first came during the First World War, as professors at Acadia University in Wolfville, N.S., investigated the "generation of power by using an 11-mile-an-hour tidal rip through a 600-foot wide channel between Cape Split and Squaw Cap Rock in Minas Basin.

Later studies showed that project to be uneconomical, Mr. Kirkpatrick said.

Planning for the next attempt started in the 1920s when Dexter Cooper, an American engineer, met Canadian while visiting the Campobello Island, N.B., summer home of his friend, Franklin D. Roosevelt.

It was Cooper's project that came the closest to development. In 1935, part of a make-work project during Roosevelt's first term as president, the United States government provided $2.5 million to build a tidal power station in Passamaquoddy Bay, an offshoot of Fundy.

A construction camp was built for 5,000 workers, but funds were cut off two years later.

Further investigations were undertaken in 1944, 1956 and 1966 but each time the answer was the investment could not compete with oil.

Now, with world prices skyrocketing, provincial officials are hopeful that they may finally fulfill the dreams of power planns on the Bay of Fundy.

Don't Siphon Gas -

OTTAWA (CP) — Consumers' Association of Canada reports that motorists risk serious injury and possible death if they use their mouth to siphon gasoline from one car gas tank to another. If a mouthful of gas is swallowed, nausea and vomiting may result. Serious lung damage can be caused by sucking gas into the lungs. If siphoning is necessary, use a hand pump.

IT PAYS TO MANAGE YOUR MONEY!

Are you getting the things you really want out of life? How much money should you be saving now for your family's housing needs . . . your children's college education . . . or a vacation home in the country? March Reader's Digest shows why it pays to plan now for your financial future! Here's helpful, common-sense advice on how to set your financial objectives . . . see if you are getting ahead financially with a yearly statement of your net worth . . . how to think about personal borrowing; inflation, financial emergencies and job security. High and Dry

A Newfoundland freighter is left sitting on the bottom during low tide at Windsor, N.S., on the Avon River, 18 miles inland from the Minas Basin. The basin, at the eastern end of the Bay of Fundy, is the site of the world's highest tides. Once the flood tide enters the river, the freighter rides high above the dock. (CP Photo)

Power from Fundy Tides Has Long Been Proposed

HALIFAX (CP) — Expectations of power from the Bay of Fundy have risen almost with the regularity of the great tides themselves, only to fall again with the same precise timing.

But now both oil prices rising dramatically, Nova Scotia officials hope that at last the tides will be harnessed: fulfilling a dream that began early this century the project was first proposed.

A committee with representatives from the federal, New Brunswick and Nova Scotia governments is the end of a review of the 1969 study by the same governments that said the project was technically possible but not economically wise.

"We don't need the review committee report to tell us it now is economically possible," said Premier Gerald Regan of Nova Scotia. "The increases in the world price of oil have already done that."

However, federal government assistance is needed and Ottawa is dragging its feet on any action until it sees the committee's report.

The delay in producing the report has drawn fire from Premier Regan, who complains of "shocking procrastination" by the committee's federal members.

L. F. Kirkpatrick, president of the Nova Scotia Power Corp. and a member of both the original study team and the review committee, is a little kinder:

"They're totally preoccupied with the petroleum situation and other energy matters in Canada. They simply give Fundy tidal power a low priority-and they've said so."

But it is because of the energy crisis that Mr. Kirkpatrick said studies should be accelerated rather than held back.

Increases in the price of oil have boosted the cost of power generated by fossil fuels to such an extent that no one can seriously argue Fundy's economic feasibility, he said.

The 1969 study said it would cost 3.6 mills to produce a kilowatt hour of electricity at one of three sites selected in the bay. Oil-generated electricity at the time cost only 3.3 mills.

However, since then the cost for oil-generated electricity has increased to 15 mills. While the price for a development on Fundy has also gone up, it would not be on nearly as great a scale, the power corporation president said.

One study Premier Regan and Mr. Kirkpatrick want made is the effect a dam will have on the tides. The original study said it would reduce the range 10-15 per cent, but since the amounts of power generated depends on the height of the water the province wants a definitive examination.

"There is a considerable amount of money that needs to be spent until we arrive at the point where you can start digging holes and going to work with the project," says Mr. Kirkpatrick.

But even more important than the money for research is a high-capacity grid which would connect Fundy to the power grids of Ontario and Quebec, taking surplus power to market and providing a means of selling Fundy's production.

Since Fundy could only produce power when tidal conditions are right, not always when power is most needed, it has to have some method of storing the power for use at re-timing would be to connect the tidal plant with a conventional hydro plant, using Fundy power to pump additional water into the hydro plant's storage basin. Since the amount of power produced depends on the level of water in the basin, that would increase the hydro plant's output during peak periods.

Preliminary talks have been held with Quebec and the government of that province seems willing to continue discussions of a tie-in with one of its power developments, Premier Regan said.

"The key to the thing is the power grid," the premier said. "If the federal government would give us the grid we could determine our own destiny on this thing."

Atlantic provinces pressed for the construction of a national power grid during the federal-provincial energy conference last month and talks on the matter continue.

The 1969 study said the three most promising sites—Shepody, Cumberland and Shepody Bays—would produce 14,300 million kilowatt-hours of electricity annually.

But those sites, all near the top of Bay of Fundy, were chosen because they made the most sense economically at the time, Mr. Kirkpatrick said. With the change in the price of oil, other larger developments further down the bay might be feasible.

Large power developments are needed because of the rapid growth in use of electricity. Consumption of power is doubling every 10 years and by 1990 the Maritimes alone will need an additional 40 billion kilowatt hours.

Energy developments to meet such needs will require enormous capital expenditures, an estimated $60 billion in the next 20 years on projects such as the Gaspe Bay hydro development in Quebec, the Mackenzie valley pipeline and the oil sands in Alberta.

Federal officials are worried about the affect this influx of capital will have on the Canadian economy, Mr. Kirkpatrick said.

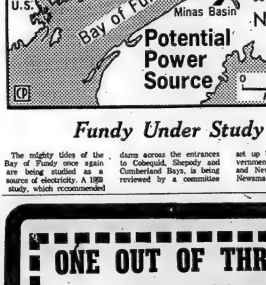
"They seem to think that this should be limited in some way and that by lopping off things like Bay of Fundy you shave a couple of billion off, which isn't a hell of a lot on $60 billion but it seems to be in their eyes."

Baron Edmond de Rotshcild, head of the famed British banking house, shows a keen interest in the project and visited here for talks last fall. He returned for another look in February.

Rothschild put together the consortium of companies that built the Churchill Falls power development in central Labrador at a cost of more than $900 million.

"He got all those people together and made the thing sell," said Mr. Kirkpatrick. "He's that kind of a fellow and he may well turn out to do the same thing for Fundy tidal."

New Brunswick, which would share in tidal power since it also borders on the bay, is interested in such a development but has been giving most of its attention recently to construction of a nuclear power station.



"Now that they seem to have it in hand, I think they will probably give a little more attention to tidal power and fuel cost," Mr. Kirkpatrick said.

Premier Richard Hatfield of New Brunswick renewed his support during the energy conference, pointing out that it could lessen the dependence of Eastern Canada, on oil for electrical generation.

The tidal power project is one of the few issues raised in the Maritimes that attracts no opposition.

How much longer it will take before a decision is made seems in the hands of the federal government, a fact that displeases Mr. Regan.

"The feds have had their head in the sand too long over this . . . I hope now they're shaking the sand out of their ears."

Fundy Under Study

The mighty tides of the Bay of Fundy once again are being studied as a source of electricity. A 1969 study, which recommended dams across the entrances to Cobequid, Shepody and Cumberland Bays, is being reviewed by a committee set up by the federal government and Nova Scotia and New Brunswick. BTO Second Record Duplicates Success

TORONTO (CP) — In the fickle world of entertainment, quick success is often followed by even quicker failure. Especially true in the ever-developing music industry, a performer's fame can easily fade once his recordings leave the radio charts.

Bachman-Turner Overdrive (BTO), a one group whose first album and lately hit single Blue Collar, released less than a year ago, brought immediate acclaim. But the group will not risk losing its audience by taking time to plot over past success.

A second album recently released showed the music world that BTO's previous achievement was no accident. A current tour in the United States and several Ontario locallies is proving that BTO need not worry about joining the bright-flash-and-fade club of less talented acts.

BTO's success is the culmination of more than two years of struggle—under a different name—for acceptance among a near-indifferent audience.

When BTO's founder, Randy Bachman, left Guess Who during 'his apex in 1970, he formed Brave Belt, which recorded three albums mixing country and rock sounds.

"We played on stage and one sound would get an obvious good reaction, the other one was just blase," he said in an interview prior to a Toronto appearance.

"We just took the rock 'n' rail direction."

When Brave Belt decided to call it quits, it changed its name, recorded itself and location. Other members of the group — Randy Rampy, brothers Tim and Robin and a close friend, C. F. (Fred) Turner—moved with him to Vancouver from Winnipeg to embark on a new career as Bachman-Turner Overdrive.

Bachman-Turner Overdrive today is a powerful group with a style which, described by Randy as a "simple type of beat rock 'n' roll," is, in effect, an electrifying sound heavy enough to match any contemporary loud band, but modified enough to appeal to even the confirmed "easy listeners."

The band readily admits to being influenced in their music by such groups as the Rolling Stones and Creedance Clearwater Revival, but maintains that such influence is not at the expense of BTO's own characteristic sound.

They say that any musician learns from those influences him, and varies existing sounds to create a new style.

"People can find the difference because they hear us for the first time until they can hear the tones and they hear the type of patterns that we do . . . they pick up on it," said Turner.

Turner, a big, affable, red-headed bass player, exploits the other influences to the fullest. A major contributor to BTO's composition—as well as lead singer on most—he said he used the Rolling Stones' Let It Bleed album "fingers period as a springboard for much of his music.

On the high-voltage numbers, which many of them are, only the sharpest ear can differentiate between Turner's vocals and those associated with John Fogerty, lead singer of Creedance.

"It's very funny, but my voice tonal patterns are very close to Fogarty's. I can't help it."

Both Robbie and Tim Bachman became professional musicians when they joined Brave Belt. Prior to that time their experience had been limited to performing with groups in high school and at parties and dances in Winnipeg.

Although their decision to become professionals was influenced to some degree by their older brother, they both speak of love for music and a desire to perform even as youngsters. Both are self-taught.

Tim, on rhythm guitar and vocals, adds a fine contrast to the group's sound with several featured tunes on BTO's albums.

Rob, on percussion, delivers a solid, steady beat to every number. During free moments he carries his talent to the limit, often high-lighting the fine work of the others.

Randy's lead guitar gives a powerful flavor to the group's sound. On recordings, his talent is evident in featured solo.

While he does some vocals, Randy seems content to leave much of the lyrics to Fred's booming delivery.

The group now records with Mercury Records and is distributed in Canada by Polydor.

Film Last Tango in Paris Too Chaste for Director

LOS ANGELES (AP) — Last Tango in Paris has caused a furore over its explicit sex and language, but Bernardo Bertolucci says it was too chaste.

And he wonders why so much fuss was raised over the picture.

Bertolucci, who directed the movie, believes if Tango had not starred such a well-known star as Marlon Brando, it would have passed through the world's movie theatres with little to-do.

Perhaps.

But Last Tango in Paris has been a cause celebre since its release last February, and is no doubt still continue to be. Voters of the Motion Picture Academy now are faced with the dilemma whether to reward the film's artistic merits or to punish it because of its notoriety.

Bertolucci, an Italian, was here for a publicity round to further the prospects of Tango. At 32, he has the round face of a radicalized silar boy, and he speaks with a certain exuberance. His English is improving, but he requires the help of an interpreter.

"When I was making Tango, I thought about what I was doing," he said. "Not regretfully upset, but terribly involved in the many problems between myself and the picture. I never thought later that it would arouse so much controversy. I thought, in fact, that the sex scenes were too chaste and could have been more explicit."

The trouble began in his native land, where Tango was cited on obscenity charges in Bologna. Bertolucci, Brando, co-star Maria Schneider, producer Alberto Grimaldi and the distributor were all charged with criminal offence.

"It was my first time in a courtroom and I felt like a criminal," Bertolucci said. "Of course, we are all criminals. In that we feel a sense of guilt. So when you appear in a court, all your guilt comes out.

"But I felt it was important to make a stand in the interest of the Italian cinema. I feel the attack on Tango was entirely political. There are a lot of really pornographic films that play in Italy without interference. The politicians hit Tango because of its vision of life, its vision of the family."

The case against Tango lost in the Bologna court, but was reversed by a higher court. An appeal is being made and in the meantime the film is banned in Italy.

But Bertolucci reported happily that crowds of Italians are still special trains to France to they can see the film.

"Tango has been banned in all the fascist countries—Spain, Greece, Chile, Brazil etc," said Bertolucci, whose previous films reflected his radical views. "In England, I took out 15 feet of film at the request of the censor.

"I also made three cuts for the Italian censor before it was released. I was told to make my own cuts, and I did—but not in the places they were said to be objectionable. I made the cuts I wanted for commercial reasons."

Bertolucci admitted he made Last Tango in Paris in order to progress from films with an elite audience, such as The Conformist, to films with international appeal. He succeeded.

Now he is planning a bigger film. He calls it 1900.

It will depict changes in a small Italian town from 1900 to 1999, particularly in the liver of a herd owner and a peasant. The two male leads haven't been chosen, but he plans to use actresses he has worked with before—Dominique Sanda, Alida Valli, Maria Schneider.

Bertolucci said he wasn't seeking Brando for a new film. In fact, he hasn't heard from Brando since they made Tango. But then, who has?

Bubblegum Radio Days Said Dead

TORONTO (CP) — Toronto's three rock stations say the days of bubblegummer radio is dead and the audience they're after this year is the young adult, 18 to 1-dot-30 years bracket.

Spokesmen for CHUM, CFTR and CFRB say no one is interested in appealing to the teens because, as Michael Byford of CKFH put it:

"Teens are a very fickle audience. They're just after their favorite songs, not the whole sound of the station."

The "whole sound" is what they're selling. The program directors of all three stations say they want to be sure it's instantly recognizable when you tune in and pleasant enough to have wide acceptance—in fact that sells advertising.

CHUM has been the No. 1 pop station in Toronto—and No. 1 among all Toronto stations behind middle-of-the-road CFRB. CFTR follows with CKFH trailing.

The basic difference in the sound of CHUM and CFTR is in the proportion of "golden oldies" to current hits. CHUM's percentage of oldies varies from one-third to one-half of the music played while CFTR's is straight mix of 50-50.

But if you want to hear Lipai On Your Collar by Connie Francis, No. 33 on the top 50 chart for 1959, tune in CKFH.

"We play 80 per cent gold," Byford says. "It's the 20-per-cent non-gold we play the hottest new records available and Canadian material."

All three program directors say the era of the time-and-temperature disc jockey is over. The next phase will be personality.

As Byford puts it:

"Most of the jocks can give you the time and temperature but they can't SAY anything. In fact, if you went over to Yonge Street and put a gun to someone's head and told him to name three disc jockeys at CHUM or CFTR, he'd have to put to get past Jay Nelson (CHUM's morning man). He's a real character."

Feature Times

AT THE PARK — Is Color — Don't miss these two very exciting and entertaining movies. They are "Cisco Pike" starring Kris Kristofferson and "Dirty Little Billy" starring Michael J. Pollard. Show times 7:30, 9:30 and complete program can be had at 5:55. Everybody is invited. 18 years of age and over.

Cinema Canada Has Money Woes

TORONTO (CP) — For two years George Csaba Koller and Ari Ibranyi-Reis have been struggling to publish Cinema Canada, a lively magazine on Canada's frail movie industry.

Frail is also the word for the magazine, published six times a year. It had $137 in the bank and a debt of $7,000 in mid-February and may soon fold unless financial help arrives from provincial and federal sources.

Mr. Koller, 27, is editor, publisher and business manager. His wife Agi, 23, is managing editor and circulation manager. Their only full-time colleague is 23-year-old Gloria Kirabenbaum, advertising manager. All three work 12 hours a day for $75 a week each.

George and Ari live in a small one-room apartment and subsist mainly on rice and vegetables.

During the two years, the magazine has received $17,500 in government grants—$10,000 as a Local Initiatives Program, $3,000 from the Ontario Arts Council and $2,500 as the first half of a promised $5,000 from the Canada Council.

The remaining $2,500 will arrive after the next issue is published March 29, but it has been promised to the bank which helped them earlier.

After Issue No. 13 appears, the debt to printers will increase by $3,500 from $5,000.

"What it boils down to is this," said Mr. Koller. "We need a bare minimum of $10,000 now just to keep publishing, and a minimum of $20,000 or $25,000 for the year 1974. Farther ahead than that we are not even daring to imagine."

Since Mr. Koller and associates took over Cinema Canada in 1972 the circulation has grown to 8,000 from 3,000 and its size has doubled to 84 pages.

About 70 per cent of the magazine's current revenue comes from subscribing and 30 per cent from circulation, but the total never even begins to cover operating expenses.

Mr. Koller is grateful for the help he has received but he has no hesitation in pointing to other periodicals that have been getting more.

The current issue is filled with on-the-spot news and interviews concerning Canadian film-makers in many parts of the world. There are book and movie reviews, photos, classified ads, editorials and a comprehensive report on last year's Stratford International Film Festival.

Your Horoscope

By BERNICE BEDE OSOL

Saturday, March 2

Aries—(March 21-April 19) Solutions that escaped you yesterday will be found with ease today. You're back on the ball in the thinking department.

Taurus (April 20-May 20) You have a much firmer grip on money matters than you have had for some time. A surplus is even likely.

Gemini (May 21-June 20) You'll be lucky today through friends and contacts so don't be a stay-at-home. You may get an unexpected invitation.

Cancer (June 21-July 22) This is a good day for you to bring to a conclusion a matter of importance. Don't settle for less than you've hoped for.

Leo (July 23-Aug. 22) You mix with large groups exceptionally well today. An unusual benefit will be gained through someone you'll meet.

Virgo (Aug. 23-Sept. 22) This is a fortunate time for you where advancement is concerned. Conditions contributing to your status look very promising.

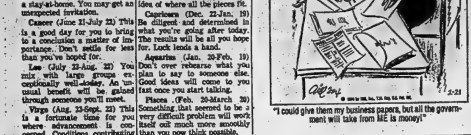
Libra (Sept. 23-Oct. 23) Much can be gained today from companions with whom you can exchange points of view. One has a valuable idea for you.

Scorpio (Oct. 24-Nov. 22) There will be a noticeable improvement in conditions affecting home and family. Gain is likely through shared holdings.

Sagittarius (Nov. 23-Dec. 21) You're much better equipped to form judgments today. You now have a more comprehensive idea of where all the pieces fit.

Capricorn (Dec. 22-Jan. 19) Be diligent and determined in what you're going after today. The results will be all you hope for. Luck lends a hand.

Aquarius (Jan. 20-Feb. 19) Don't over rehearse what you plan to say to someone else. Good ideas will come to you fast once you start talking.



Pisces (Feb. 20-March 20) Something that seemed to be a very difficult problem will work itself out much more smoothly than you now think possible.

SIDE GLANCES

Croup Is Form Of Laryngitis

Dear Dr. Thosteson: My little boy is two years old and keeps having attacks of croup. He was in the hospital twice with it last winter and now he has been in again. The doctor says he likely will have it until he is about six.

How does croup start? Is it because his lungs are not strong enough? If so, could he be helped by a doctor when she was carrying the baby? I have never been sick and can't understand how my son is having this trouble. Mrs. G.T.

Croup isn't a sign of weakness of the lungs and it hasn't anything to do with anything that happened to you while carrying him.

Now what is it: Croup is obstruction of the larynx or a form of laryngitis. While laryngitis may result from hoarseness in an adult, with a small child the air passages are so small to begin with that it doesn't take much to shut off the air supply.

Diphtheria used to be a common cause of croup; widespread immunization against that horrible infection has made diphtheritic croup rare. Heaven be praised.

Today a form of flu virus or a head cold is the usual likely cause. Muscular spasm results in narrowing the breathing passages, plus whatever interference there may be from the swelling and mucus.

Why some children are "croup babies" and others are not is something we can't answer, any more than we can explain why attacks of croup tend to come on at night.

Win at Bridge

Hasty play saves contract

and promptly played his 10 of clubs. West had to make a split second decision. He couldn't afford to hesitate and then duck so he ducked quickly.

Now South had one club trick in. He played dummy's three trumps; entered his hand with a diamond; drew the last trump and cashed the rest of the diamonds.

If West had gone right up with the ace of clubs he could have beaten the contract by promptly leading a fourth heart.

No matter which hand South trumped in, West would eventually collect ♠ trump trick, provided he handled his subsequent plays perfectly.

CARD Sense

The bidding has been:

West	North	East	South
			1♣
1♦	1♥	Pass	2♠
Pass	Pass	Pass	?

You, South, hold:

♠AK76 ♥AK76432 ♦K103 ♣

What do you do now?

A—Just bid five hearts. You can't take care of the first two diamond leads and it looks as if your partner can't either.

TODAY'S QUESTION

Instead of bidding five clubs, your partner has bid five diamonds over your four hearts. What do you do now?

MDs' Fee Boost Called 'Immoral'

TORONTO (CP) — Stephen Lewis, leader of the Ontario New Democratic Party, Thursday called an increase in fees granted to the province's doctors "positively immoral" while hospital workers "experience outright poverty".

Mr. Lewis was referring to an increase announced earlier in the day by Premier William Davis which will raise fees 11½ per cent over the next two years.

Premier Davis said there will be no increase in OHIP premiums.

He said health insurance in Ontario is being systematically undermined by the amount paid to doctors.

"I don't begrudge doctors legitimate income but it has reached a point of usury," Mr. Lewis said in a statement.

He said government figures show that the 7% per cent increase next May will give a gross income of nearly $80,000 for specialists. An additional four-per-cent increase will be granted May 1, 1975.

However, he said these figures are "absurdly misleading" because they include part-time practitioners. In reality, the increase will give full-time specialists somewhere between $70,000 and $75,000 which "is totally unacceptable," he added.

Liberal Leader Robert Nixon said no increase should have been granted until the facts were considered by a standing committee of the legislature.

Forgery Got Out of Hand

KINGSTON, Ont. (CP) — It took a provincial court judge one hour to read the charges against William Christie, 36, when he appeared in court Thursday.

Christie was sentenced to six years, nine months in prison after he pleaded guilty to 85 charges including passing forged cheques, forgery, fraud, break, enter and theft, false pretences, obstructing police and using a drivers licence while his own was suspended.

Christie's defence lawyer told the court Christie found passing forged cheques too easy. "It got too easy," the lawyer said. "It got out of control."

The majority of Christie's sentences are to be served concurrently. If they were consecutively, he would face a total of 254 years behind bars.

Say Your Prayers

MBABANE, Swaziland (AP) — Sishayi Nxumalo, the minister of industry, mines and tourism, urged the Swazi people to say their prayers in the local SiSwati language. Nxumalo said it was surprising that some Swazis preferred to say their prayers in other languages "as if God does not understand SiSwati."

Stanfield Moves Non-confidence

OTTAWA (CP) — Commons battle lines were drawn early for the new session of Parliament, with the parties condemning both government and inflation policies and one other.

Conservative Leader Robert Stanfield opened the eight-day throne speech debate by moving a non-confidence motion in the minority Liberal government and attacking it for what he called a deplorable lack of leadership.

Mr. Stanfield accused the government of not confronting the basic causes of domestic inflation, failing to deal with the effects of inflation and failing "to maintain order and justice in our economy."

New Democrat Leader David Lewis, who spiked Conservative plans Wednesday with a pledge of support for the government on the anticipated non-confidence motion, criticized both the Liberals and the Conservatives.

He said Mr. Stanfield had complained about the government's failure to comprehend the current economic situation.

"I agree with him in that, but . . . in the competition of 'failure to understand,' I am not at all sure that the Conservative party does not win by a mile.

"In fact, in spite of all his speeches and statements, the leader of the Opposition . . . has not yet brought forward any such understanding or any program based on it."

Reach Accord

OSHAWA, Ont. (CP) — General Motors of Canada Ltd. and Local 796, International Union of Operating Engineers, announced Thursday a tentative agreement to end an 11-day strike at two GM power houses in Oshawa.

Voluntary Saving No Help

TORONTO (CP) — Douglas Gordon, general manager of Ontario Hydro, told the Ontario Energy Board Thursday that voluntary energy conservation plans have little value.

Oil Freeze Won't Be Extended

OTTAWA (CP) — The current national freeze on petroleum products will not be extended past March 31, Prime Minister Trudeau said Thursday.

"The answer is no," he told Opposition Leader Robert Stanfield who raised the subject in the Commons. A published report earlier, in the day said that the freeze might be extended to June 30.

Mr. Trudeau said the freeze will end as scheduled but the country will still benefit from "a freeze in the sense that" Canadian prices will be held below world levels.

Since the freeze took effect last September, crude oil produced and used in Canada has been fixed at about $4 a barrel. International prices have risen in the meantime to more than $10 a barrel.

Heath Calls Thorpe

Splinter Groups Hold Key to British Rule

LONDON (CP) — Prime Minister Heath, beaten in Britain's general election, is to meet with Liberal Leader Jeremy Thorpe today in an apparent bid for some form of alliance which will allow the Conservatives to retain office.

Thorpe immediately left his Barnstaple home in southwest England for the London trip amid indications that the barnstorming at 10 Downing Street will centre on the question of establishing a minority or coalition government.

Heath suffered a final election blow today with the announcement that the Conservative Scottish seat at Argyll fell to the Scottish Nationalists who will have a record seven members in Parliament.

Heath, who had 323 members at the time of dissolution of the last 630-seat Parliament, will enter the 636-seat Parliament March 12 with 296. Harold Wilson's Labor party will be strengthened with 301 members, up from 297 at dissolution, while the Liberals will have 14, up from 11.

Other groups, including the Scottish Nationalists, will have a total of 24. They also include two Welsh Nationalists and 11 hard-line Ulster Unionists and an Ulster Catholic Social Democrat.

In bygone years, the Unionists supported the Conservatives at Westminster and wartime leader Sir Winston Churchill depended on them for solid backing. But with Heath pushing for a more balanced political structure in Northern Ireland that would give Catholics more authority, the Protestant Unionists have tended to split with Westminster Tories.

Nevertheless, it appeared that Heath, faced with a deepening economic crisis threatening the future of Britain, may seek to govern with Britain's first coalition administration in 45 years, hoping for support not only from the Liberals but from many of the Nationalists and Unionists.

Heath had an audience with the Queen Friday after it became evident that neither the Tories nor Labor would obtain a clear election majority. There were reports that Heath intended to resign although advised by his ministers to try to continue in office.

Although reports still persist that Heath's personal inclination is to step down, a Buckingham Palace official said Heath made clear to the Queen that he will try to carry on. If Heath cannot marshal sufficient support, he can advise the Queen to call on Labor Leader Wilson to try to form a government or he can seek a vote of confidence when the House opens March 12.

There also is some speculation that Heath may withdraw from the Conservative leadership if he fails to obtain parliamentary support as prime minister.

After conferring with two of his closest advisers today, Lord Carrington and James Prior, Heath was to hold discussions later with Employment Secretary William Whitelaw, reported as a possible party leader if Heath should step down.

Mitchell Indicted

Former U.S. Attorney General John N. Mitchell presented this study as he arrived at the U.S. Courthouse in New York's borough of Manhattan Friday. He is on trial on charges stemming from a contribution to President Nixon's 1972 reelection effort from financier Robert Vesco. Mitchell also was indicted Friday by the grand jury that investigated the Watergate break-in and cover-up. (AP Photo)

News Briefs

Old Need High Pressure

TORONTO (CP) — A conference dealing with nursing-home care was told Friday that an important factor to watch in elderly persons is a drop in their blood pressures. Dr. Virginia Sinne, professor of nursing at Duke University School of Nursing in Durham, N.C., said: "Older people need to maintain a higher pressure because it takes a higher blood pressure to pump the blood."

Premier Resigns

ROME (CP) — Premier Mariano Rumor and his centre-left government agreed today to resign, a cabinet minister announced. The decision may deliver another body blow to a country already staggering from a grave economic crisis and a corruption scandal involving several cabinet ministers.

Plaque Missing

GRAVENHURST, Ont. (CP) — Provincial police reported today that a plaque marking the birthplace of Dr. Norman Bethune, a Canadian doctor revered as a hero in China for his work there during the civil war, was missing. The monumentative plaque was erected by the Ontario government in 1972.

FBI Puzzled

SAN FRANCISCO (AP) — The FBI says it is at a loss to explain why there has been no word from the kidnapped newspaper heiress Patricia Hearst. It would give no estimate on how long it will wait before acting.

Mistrial Possible

NEW YORK (AP) — The United States government's criminal conspiracy case against former attorney-general John Mitchell and former commerce secretary Maurice Stans may have crashed on takeoff. Judge Lee Gagliardi of U.S. District Court cited "unwarranted excesses" in the opening statement of Assistant U.S. Attorney James Rayhill and directed Rayhill to document any legal excuse he can find in case law for his remarks — that the trial jurors should place themselves in the shoes of the grand jurors who indicted Mitchell and Stans.

The Weather

Synopsis: Warm air forced over southwestern Ontario early today created thunderstorm activity while light snow is being reported elsewhere over southern Ontario. The snow was expected to change to rain later today as mild air settles in over the lower lakes. Considerable sunshine Sunday will allow temperatures to climb into the 50s. The mild weather will persist into next week with 30-degree weather prevailing over all of southern Ontario Monday.

Rebels Keep Order In Capital

ADDIS ABABA (AP) — Addis Ababa was controlled by rebellious troops today seeking to maintain order on the fifth day of a military revolt.

One student was reported killed Friday and 30 wounded by shotgun fire when troops and police dispersed several thousand anti-government demonstrators. But by evening, the capital was quiet under an army-enforced curfew.

The new premier, Endalkachew Makonnen, conferred with military leaders but declined to say how long it will take him to form a new cabinet. He said he believes "the armed forces are prepared to give me chances" as premier.

The soldiers, who say they remain loyal to Emperor Haile Selassie, have won part of the pay increases they demanded when the revolt began. They also seek an end to supposed corruption and inefficiency in the government.

The demonstrators added demands for land reform, political parties, press freedom and price controls in the country, ridden by inflation and hard hit by drought.

Today's Chuckle

Sign over a canary's cage in a pet shop window: "Mother's Whistler."

Canadian Trade Facing Scrutiny

WASHINGTON (CP) — The grinding United States problems with oil prices and supplies — coupled with an approaching rendezvous with the American voter — will form the background next week for a new study of President Nixon's trade-reform legislation in Congress.

The result could be some uncomfortable moments for Canada, which has sharply boosted its oil-export tax at a time when U.S. figures allege that the Canadian surplus of trade with the U.S. has grown.

One foundational aide said he wouldn't be surprised to see the downcast issue of the Canada-U.S. automotive agreement raised again, although others disagreed.

The scene next week will be the Senate finance committee, which begins public hearings Monday on the Trade Reform Act passed Dec. 11 by the House of Representatives.

In four days of sittings, the committee will hear from Treasury Secretary George Shultz, Secretary of State Henry Kissinger and other senior representatives of the Nixon administration.

The witnesses will press the committee to act quickly on legislation that gives Nixon and his negotiators the power to conclude far-reaching agreements with American trading partners for liberalization of world trade.

Whether the committee will agree on speed is another question. Nine of the 17 committee members face re-election campaigns next fall, including Chairman Russell Long, the 16-year-old Louisiana Democrat.

After the public hearings, the committee goes into executive session to start legislation for approval by the full Senate. Then the Senate bill has to be reconciled in joint committee with the House version, to be passed by both houses of Congress and signed by the president.

Administration officials hope the process can be completed before Congress takes its long summer recess in July.

If not, the trade-reform issue is likely to die for at least a year—and, with it, the hopes of Canada and other trading partners for a world-wide attack on barriers to international commerce.

Wilson Waves

A happy wave comes from Harold Wilson on the threshold of his London residence, No. 5, Lord North Street, Westminster, after returning from his constituency, Huyton, where he had a majority of, 15,305 in the election. (AP Photo)

Britons Go European In Political Style

LONDON (CP) — The current political crisis in Britain has prompted millions of voters as well as pundits to peer back into this country's rich political past for precedents to illuminate the present confused situation.

For most contemporary Britons, an election which leaves no single party with an overall majority and which confronts the country with the necessity of a minority government is a wholly novel state of affairs.

Thus they're beginning to take close note of political conditions in other European countries as well as in remoter lands such as Canada, in an uncharacteristic effort to view their domestic problems against a background of international experience.

BBC television, in an apparent attempt to show that minority government isn't a fearsome experience, transmitted part of an interview recorded last year with Prime Minister Trudeau by reporter Robin Day.

Displaying remarkable prescience, Day suggested that Britain might soon have a minority government and asked the Canadian leader how this works in Ottawa.

One answer Day elicited was a concession by Trudeau that the whole experience has a "knife-edge" quality and that "we sometimes tailor our tactics to suit" the New Democratic Party.

Apart from considerations of Canada, the British have suddenly realized after their cliffhanger election that they had been the only country in the nine-nation European Common Market without either a coalition government or a minority administration.

The wits are saying that in this respect the British at last have become European.

Final Standings

LONDON (CP) — Here is a detailed breakdown by parties of seats won in the British general election with standings at dissolution in brackets:

Labor	301 (297)
Conservatives	296 (315)
Liberals	14 (11)
Ulster Unionists	10 (8)
Scottish Nationalists	7 (2)
Welsh Nationalists	2 (0)
Independent Labor	2 (1)
Ulster Dem. Unionist	1 (1)
Irish Republican Labor	0 (1)
Alliance	1 (1)
Social and Dem. Labor	1 (1)
Speaker (non-voting)	1 (1)
Vacancies	0 (1)
Totals	635 (630)

In the last Parliament Ulster Unionists voted with Conservatives. In the new Parliament they will vote independently.

Curbs Urged

HAMILTON (CP) — Ontario should discourage the "unconscionable profiteering" of land speculators by instituting a steep rate of taxation for their windfall gains, Opposition Leader Robert Nixon said Friday.

Scene in Addis Ababa

Anti-government Ethiopians march through Addis Abeba Friday carrying signs calling for the ouster of newly-appointed Prime Minister Endalkachew Makonnen, freedom of the press, formation of political parties and land for the poor. (AP Photo)

Watergate Grand Jury Keeps One Secret -- What About Nixon?

WASHINGTON (AP) — The Watergate grand jury kept one tantalizing secret as it indicted seven associates of President Nixon: it t[illegible]gs about the president himself.

Those conclusions were contained in a large envelope handed to the judge as the grand jury indicted H. R. Haldeman, John Ehrlichman, John Mitchell and four others for conspiring to obstruct the Watergate investigations.

U.S. District Judge John Sirica glanced at the report, ordered it sealed and kept in the court's custody "until further determination."

Aides said the judge has not decided whether to turn the report over to the House of Representatives judiciary committee which is studying possible impeachment of the president.

A briefcase bulging with grand jury evidence also was given to Sirica and there were reports the jurors have asked that it go to the impeachment committee.

Sirica banned any statements by prosecutors, defendants and their lawyers and grand jurors. The jury, which had been hearing evidence for 25 months, was not discharged and said its presence may be needed in court in two weeks.

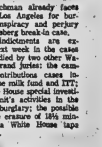
The grand jury charged a total of 24 felony violations against the seven men. Each carries a maximum penalty of five years in prison and fines ranging from $2,000 to $10,000.

All seven were charged with conspiring to obstruct justice from June 17, 1972—the day of the break-in at Democratic party headquarters—to the present. The charge said they tried to impede the Watergate investigations by lying, "craft, trickery and dishonest means."

The grand jury charged "the conspirators would at various times remove, conceal, alter and destroy . . . documents, papers, records and objects."

It said they planned and gave false testimony, raised money for the break-in defendants, offered them executive clemency and leniency, and tried to get inside information from the FBI about the progress of the investigation."

Nixon said in a statement issued by the White House he hopes that trials will move "swiftly to a just conclusion," and that people should recognize "those indicted are presumed innocent unless proof of guilt is established in the courts."



In one of his last case assignments before he steps down as chief judge March 19, Sirica took the case himself since he will continue as an active judge. The trial is expected to last four to five months.

The defendants will be arraigned March 5, a Saturday. It will be an all-day in the current trial of Mitchell and former commerce secretary Maurice Stans in New York.

The indictments brought the list of individuals charged in Watergate and related cases to 36. Ehrlichman already faces trial in Los Angeles for burglary, conspiracy and perjury in the Ellsberg break-in case.

More indictments are expected next week in the cases being conducted by two other Watergate grand juries: the campaign contributions cases including the milk fund and ITT; the White House special investigations unit's activities in the Ellsberg burglary; the possible deliberate erasure of 18½ minutes in a White House tape recording.

Picton Bureau

Pop in Schools Up to Trustees

By MARGARET HAYLOCK

PICTON — The installation of soft-drink vending machines in Prince Edward schools has drawn criticism from several parents protesting the nutritional value of pop.

First matter to object to the dispensers was Brenda Townsend, of Carrying Place, who wrote to trustees in January to complain that a poor example in nutrition was being set.

Mrs. Townsend added that, hopefully, the board would reconsider its decision and "take responsibility for the health of our children more seriously."

When her letter was read at a board meeting, business administrator Ernest Short reported that a special committee had thoroughly investigated the matter and parents were consulted about the vending machines. He said that the beverages offered at the school dispensers are readily available from other sources.

Mrs. Townsend was informed by letter that the board is not encouraging the consumption of soft drinks. The individual must make his own decision.

Further protest of the machines came to board notice this week when a Picton parent wrote stating that soup and milk would be better choices than pop and hot chocolate.

She observed that she had not been polled, although the business administrator for the board had stated that the question was thoroughly surveyed.

The issue ballooned further with a letter to trustees from a Madoc mother who felt that soft drinks were expensive and not as nutritional as milk. She suggested that dispensers should be barred from the schools.

Trustees this week agreed to re-activate the original investigating committee to deal with opposition to the vending machines.

The handful of parents who voiced objections to the board should be commended for their stand. The ready availability of other soft-drink outlets does not justify the installation of pop machines in the schools.

The installation of the vending machines cannot be construed as a supportive stand on the part of trustees. If the board does not intend to encourage the consumption of soft drinks and hot chocolate, then why would it condone vending machines in the schools?

The very presence of the pop dispensers is tacit approval of soft drinks for children.

Nor can trustees wiggle off the hook by suggesting that the decision lies with the youngsters. Because children are children it is highly unlikely that they stop to analyze the nutritional content of a can of soda pop. For them it is enough that it tastes good. The decision lies with trustees.

If trustees agree that water fountains are not adequate sources of liquid refreshment for thirsty scholars, then there are more suitable alternatives than soda pop.

As one parent suggested, there is soup or milk. Fruit juices, cold, at many stores in small pasteboard cartons, also might be considered. Any of these beverages seem more likely for school children than soft drinks.

Also, the need for vending machines in the schools does not seem to have been clarified. Children surely can survive the school day without pop to quench their thirst. Classes are not like the movies. There is no need to punctuate them with soft drinks. Why not let parents decide on suitable after-school snacks prepared in the home?

There may be no evidence that the consumption of soda pop is at all harmful to a child's nutrition or health, but what proof exists that it is a desirable practice to be encouraged?

When the board of education's special committee examines the vending machine question, hopefully it will rule that soda pop dispensers belong in stores and waiting rooms, not elementary schools.

Nurses Settle

Public health nurses with the Hasting and Prince Edward counties health unit have won an 11.89 per cent boost in salary increase.

The conciliation agreement was accepted by the health board Wednesday. It will cost the board about $2,000 more in salaries in 1974 than in 1973.

The agreement covers the period from Jan. 1, 1974 to March 1, 1975.

Starting salary for a senior nurse is now $9,164; for a public health nurse, $8,512; for a registered nurse, $7,840 and for a registered nursing assistant, $5,992. Provision is made for five annual increments of $235 each. The board will now pay 80 per cent of OHIP and group life insurance instead of 66 two third per cent. The unit employs about 34 full-time nurses.

Salaries are still to be negotiated for the medical officer of health, the nursing director, inspectors and clerical staff.

QUINTE COUNTRY

Rural Politics were Partisan But Personable

Staff Reporter
Start sperry

BOGART — Even as a lifetime political partisan, Harold Varty is his gently generous, good-humored self about party politics and politicians.

His politics are also community-based.

And politics are inseparably woven into community life.

In Quinte country, where the communities have been closely-knit, the overall pattern of the weave is obvious: It's Conservative.

But there are pockets of exception.

Here, for instance, in this Hungerford township spot-on-the-map northeast of Tweed.

Here, Harold Varty recalls, he and his family once were the only Tory votes in a poll where all their neighbors were staunchly Liberal. Gets.

But, even if they'd wanted to, the Varty likely couldn't have changed. For they done so, they'd probably have won nothing but scorn — from their Grit neighbors.

What Mr. Varty talks about reaches back to early times when party loyalty emerged as more than a political convention. It was a social responsibility in a Quinte community where power entrenchment had yet to become a heritage. A man's integrity could be measured by his willingness to stand by his party.

"That might sound ridiculous today. But that was one way standards were drawn in those days," he says.

"I remember my father saying once about a man, 'You can't put much dependence on him. You don't know how he's going to vote.'"

Now in his 74th year — most of them as farmer and Tory worker — what Mr. Varty chuckles about seems to soften the image of oldtime country politics as a ritual often degenerating into an exercise in falsehood.

More basic human values seemed to prevail after all, was said and done among neighbors in a time when even local governments were elected along party lines.

Mr. Varty remembers that too. He served his township in public office — at the urging of both Grits and Tories — eventually becoming warden of Hastings County.

The Varty family moved here early in the century — at a time when Tory dominance had become ensconced throughout Hastings County. But not reliably in Hungerford. Certainly not in the Bogart poll.

"There were five votes in our house — and we were the only Tories in our poll," Mr. Varty recalled.

Even so, a sense of personal integrity prevailed. Even opponents insisted a man should do his duty by his party — even if it was a lost cause.

"One election I had a lot to do and I told my dad I couldn't go down to the poll. Later, the Liberal returning officer phoned up and said I had to come down to maintain the element of fairness."

Not that such reasonableness was absolute. There was also the tradition that whoever won the election distributed the patronage.

"Political lines were very tightly drawn in the earlier days," recalls Mr. Varty. "And it had some peculiar results when local elections were called every year."

For instance: If the Tories won, the Liberals spent the interim reorganizing, working harder, capitalizing on mistakes — and winning the next year. The triumph was matched by slaughter on the payrolls.

"All the employees, appointed by the last council, were fired — the road foreman, the treasurer. But this was ridiculous. There were fairminded men on both sides that saw the folly of this and realized a job should depend on a man's abilities not his party," said Mr. Varty.

But party loyalty wasn't always a reliable factor in human makeup.

As a local Tory organizer, Mr. Varty recalls various examples, and one that still makes him chuckle: "There was one widow who got sore on the Conservatives. She told me: 'Mr. Varty if my husband knew I was going to vote against the Tories, he'd turn over in his grave.' But I might be impossible — but he's going to have to do it!"

Then there was the dedicated Tory who gleefully recounded how at every election he had "crossed off" the Liberal candidate on the ballot — "by marking an X against the Liberal's name — voting for him every time," laughs Mr. Varty.

The image of partisan strife hung on municipal nomination meetings and other campaigns has to be tempered with realization that "these also were social occasions when neighbors got together."

Within his township community broadmindedness secured a prevailing hallmark as years went on. Grits and Tories got together and decided what representation they might share on councils — eliminating elections.

In 1953, when Mr. Varty finally decided he might stand for council, he was stricken with pneumonia — unable to attend the mandatory nomination meeting.

A deputation from both parties came to his bedside and insisted he put up his name — with a doctor's certificate that qualified his absence.

In all, he stayed in office ten years, becoming reeve and finally, county warden in 1963 — the same year he was elected president of the Ontario Association of Rural Municipalities.

He never had to fight an election and "I don't know whether this is a good thing or not. I certainly led a charmed existence." But acclamation winnows out partisanship and gives a broad working base for a municipal politician, he says.

Not that there was much wrong with party partisanship in the old days. Political contention — by marking an X against the Liberal's name — voting for him every time," laughs Mr. Varty.

The image of partisan strife hung on municipal nomination meetings and other campaigns has to be tempered with realization that "these also were social occasions when neighbors got together."

Within his township community broadmindedness secured a prevailing hallmark as years went on. Grits and Tories got together and decided what representation they might share on councils — eliminating elections.

In 1953, when Mr. Varty finally decided he might stand for council, he was stricken with pneumonia — unable to attend the mandatory nomination meeting.

A deputation from both parties came to his bedside and insisted he put up his name — with a doctor's certificate that qualified his absence.

He never had to fight an election and "I don't know whether this is a good thing or not. I certainly led a charmed existence." But acclamation winnows out partisanship and gives a broad working base for a municipal politician, he says.

Not that there was much wrong with party partisanship in the old days. Political contention — by marking an X against involvement in public affairs.

Today, there are new attitudes — just as sound, if different, he believes.

Politics now are dispassionately dispensed as a matter of education.

"I think the younger people are taking politics — and public affairs — seriously, just with a different approach."

"Political parties are, after all, groups of men. And it's the calibre of those men that determine their efficiency and effectiveness. People are going to study that more than just voting the way their grandidad did."

The politician that made the most impression: Arthur Meighen. Mr. Varty remembers hearing the Conservative leader's first policy speech as prime minister in the early 1920s — at a picnic in Shirling.

Another: "I never had the privilege of meeting (Liberal prime minister) Louis St. Laurent. But I was a great admirer of the character of that man."

He admits Liberal spokesmen into his philosophical recollections.

There was the galvanic Mitchell Hepburn, who shredded Ontario Toryism in the 1930s.

"I never forgot one remark Mitch Hepburn made. He said there's a constant realignment of support going on quietly in the minds of the people. How true. If it weren't, then governments would rarely be replaced."

Finally, it all comes back to community. He quotes Hemingan Rush, township farmer for decades, a friend who resigned as undisputed Liberal boss of Hungerford: "I remember one statement Hemingan made at a nomination meeting — and I agree with it 100 per cent. He said: 'Just remember, gents, that the thing that binds us together is a lot more important than that which separates us now.'"

"I never forgot that."

Music Festival

It seems the Rotary Club's annual music festival is headed in the right direction when the three days of competition are over.

Yet the good that it does, and has done since it got its start under Ken Wormald's presidency seems years ago to many.

It endures because music is perhaps the greatest of the arts in its capacity to touch the inner being, the emotions; and as it were, to soothe even the savage breast. A music festival moreover has a lasting quality, beyond the swiftly-passing popularity of contemporary expression, because the young people who participate are in it not so much to gain awards, although that is important too, but for the learning experience and for the love of music itself. If some fine young performer or composer should emerge from this, so much the better, but again this is not necessarily the objective. Rather it is the inculcation of a love of music generally as a medium that serves to make life a richer experience.

For the three days of the festival, the preparatory work has taken many more under Festival Chairman Ken Wormald, with the help of club members and behind-the-scenes assistants such as Mrs. Margaret Charles of the staff of Belleville Collegiate.

If the festival proper is over for this year, as ever, a welcome bonus in the Festival of Stars at Centennial secondary school on Sunday afternoon, this being the occasion when the winners show their paces.

Once again Belleville has been enriched by its music festival and it is to be hoped it will continue to go from strength to strength.

Community of Being

Speaking of sport and its place in the scheme of things, and specifically its value in the development of the individual and in helping foster a sense of identity, at both the personal and national level, consider what hockey meant to Tim Horton and to those who watched him.

The tributes to Horton since his untimely death indicate a man of sterling character admired by many, as well as a fine sportsman.

"He had a tremendous sense of giving," said a minister friend, and there was this from a 15-year-old bantam player: "What I liked about Horton was the way he shook with his head up so high."

Remember too the emotional impact of the Commonwealth Games as many fine young people from so many countries around the world, in friendly competition. There is a heroic character to what athletes do out there on the track, as there is in any undertaking involving his total being, which in turn stirs those who watch. For what they see, is not just lithe speeding figures, in victory or defeat, they see also themselves, a state closer perhaps to communion with his fellows than man can ever achieve otherwise.

Job Well Done

Tinker . . . tailor . . . soldier . . . runs the old rhyme and it sums up the fantasy world of the very young; whatever it is in turn in ruminating about the future and about a job.

At one time many of us thought we would like to be a train driver or a fireman. Today it might be an astronaut, or an airline pilot at the very least. Yet we still need the train drivers and the firemen and it has been necessary to note late and sure of little that surrounds our local firefighters, to cite one category in particular, and which has brought official notice from the Ontario Fire Marshal's office in recent days.

The department has been commended for the excellence of its fire prevention-programs and these have been outlined in our news paper.

Nothing is more important than vigilance against disaster and loss of life by fire and Belleville is getting a good example.

Skylab Over Quinte

The caption of a recently published aerial picture in this early days of the U.S. Skylab mission read as follows: "Lake Ontario and a tip of Lake Erie are shown in picture taken by astronauts from Skylab. Toronto is at the upper right and Simcoe, Scugog and Rice Lake near Peterborough. Niagara Falls and Niagara River can be seen along with Buffalo and nearby Grand Island and the Welland canal. Not mentioned is the fact that also visible is the Belleville and Trenton area and all of Prince Edward County — everything etched out as on a map and contrasting with one of the pictorial wonders of the world that now are taken so much for granted.

Hirohito and Haile Selassie

The Durable Emperor Symbols Of Japan And Ethiopia

By JOHN D. HARRION
Foreign Affairs Analyst
Thomson News Service

In a world of mainly republican presidents and military rulers the two oldest emperors, Japan and Ethiopia, are still ruled by emperors who are in turn the world's longest-lasting rulers.

They are Hirohito of Japan who has reigned over an unbroken period since his accession in 1924 and Haile Selassie of Ethiopia who was forced from his throne between 1936 and 1941 by the Italian occupation of those years.

Emperor Hirohito's turn has come much brightly as he aged and as Japan emerged from the wreckage of World War Two as a genuine social democracy. During World War Two, Allied propaganda blackened him as a prime of the leading war criminals to be dealt with properly when Japan was humbled.

The opposite happened when the late Gen. Douglas MacArthur virtually pre-empting would make psychological recovery of Japan very difficult.

Today Hirohito's father-image is one of a benign ruler more concerned with his family and his lifelong hobby of marine biology than with politics or even Japan's incredible boom.

The postwar era has been less kind to Haile Selassie. He still rules his Ethiopian empire with a feudal hand, completely out of context with the vast social changes under way in most of the rest of Africa.

Ethiopia unlike Japan came out of the war as a country favored by the Allies. And in time it absorbed the once-large Italian Red Sea colony of Eritrea to give the empire a major sea coast area.

Ethiopia was part of Italian East Africa not because she wanted to be but because of Mussolini's conquest in 1935-36. Japan on the other hand was one of the major Axis powers in alliance with Hitler and Mussolini.

Currently Haile Selassie's still woefully-backward empire is plagued by the worst famine of this century and an army revolt for more pay. There have been famines before but not publicized because of their remote nature and Ethiopian press censorship.

And the army has been restive before as well apparently ready to support the crown prince a few years ago in overthrowing the increasingly conservative and even reactionary emperor.

In all this it is curious that Addis Ababa has become the capital of the Organization of African Unity in which the demands of recently-emerged African nations to oust Portugal from Africa and end colonialism are constantly made.

Many of these countries consider Ethiopia to be a lingering vestige of an earlier era long gone when African monarchs could dominate their people, deny them education, perform from a central palace

its a benevolent monarchy.

If so many of the newly-arrived and more outspoken African rulers cannot criticize Haile Selassie where some of Hirohito's and father-figure approach is also airy wiped away by many African leaders.

Nevertheless the indifference about the spreading famine now covering a fourth of Ethiopia's provinces and military officers in the Army who want the winds of change to blow in their country and themselves in the forefront of a modernized nation, are the most serious threats to Haile Selassie since the Italian Fascists forced him from his throne almost 40 years ago.

Solar Energy: From Science Fiction To Realm Of Reality

In the current energy crisis, new sources long thought of as belonging to the realm of science-fiction have suddenly come to the forefront. One of these most frequently mentioned is solar energy. Is it now economically viable? Which of its applications could be exploited most immediately? And how are we to organize the research and inform [illegible] capital needed to make production a paying industrial proposition?

Pierrette Pasquault, editor of Unesco Features, put these questions to Professor Félix Trombe, head of research at CNRS — the French National Centre of Scientific Research — and one of the world's leading experts on solar energy. Professor Trombe, who built the famous furnaces at Mont Louis and Perpignan, is chairman of an expert committee which met last summer, prior to the big world congress on "The Sun in the Service of Man", to define Unesco as a program of international co-operation on solar energy.

* * *

(First of three parts)

QUESTION: In view of the fact that reserves of fossil fuels are gradually being used up, what is the likely future of solar energy between now and the year 2000, as compared with other possible sources of power, such as nuclear energy? Could it ever be anything more than a substitute?

TROMBE: In fact, at this moment, there is a surplus of fuels like coal, and it will be some time before fossil fuels are exhausted. But there are two basic factors: in the first place, fossil fuels are growing increasingly expensive; and, at least as far as liquid fuels are concerned, there may be a shortage before now and the year 2000. Secondly, non-pollutant nuclear energy, once bought to be had around the corner, may not materialize for some time. So there may be a gap to be tided over between fossil fuels and nuclear power, and the role of fillers this gap may fall to solar energy, which, together with hydro energy from winds, tides and waterfalls, will be there to disappear from the earth. The problem is made more complex by anxiety about increasing pollution of the environment in most of the world.

So solar energy, instead of being a sort of "fiction-energy" has become something we shall soon have real need of. But we must not deceive ourselves as things are at present: solar energy is five or six, seven or eight, or even ten times as expensive as the traditional forms of energy.

Even while the price of the latter constantly increases, that of solar energy, which is a prototype price, will constantly decrease, and the time will certainly come when the curves intersect. This will happen all the sooner as the alarm has already been sounded; conventional forms of energy will become less and less available — people may have to use coal to heat their homes, as they did Q. Since we are talking about the economic aspect, what part at present the most profitable applications of solar energy?

TROMBE: The field in which I work, such as solar furnaces and solar houses. I built furnaces before concerning myself with the production of electricity, because they have an efficiency rate of about 60 to 70 per cent, whereas for heat conversion, many examples of which were quoted during the conference, efficiency is only from five to 25 per cent — at the most, 30 per cent. So the efficiency of solar furnaces is three or four times as great as that of other solar machines. This is because there is no conversion of energy involved. Energy is derived from a very hot ray — about 6,000 degrees centigrade; the rays are focused by means of a mirror, and the energy resulting from this optical system emerges in the form of heat. So after building the furnace at Mont-Louis (50kw) we built Odeillo (1,000 kw), and are now planning more simplified systems for various high-temperature applications. But the idea behind all of this is to become competitive with traditional forms of energy, including electricity as used domestically.

Q. The two solar furnaces you built, situated at Mont-Louis and Odeillo, at the Mediterranean end of the Pyrenees, are the most striking prototypes for the industrial future of solar energy. What is unusual about their applications?

TROMBE: Solar furnaces concentrate light energy in such a way as to raise substances to very high temperatures. The apparatus itself which produces the concentration remains cold: electricity is produced in a comparatively small area measuring a square metre. The production of energy can be both begun and interrupted very rapidly, and it takes place without the use of materials and without chemical reactions.

Other features open up a whole range of applications of solar energy that are not possible with traditional means of energy production And as solar furnaces have no competitors, it is not possible to properly price their products.

The big furnace at Odeillo works largely under French and foreign contracts, and partly also on fundamental research, among its many applications, some are industrial, such as crucible and metal testing; some strategic; and some have to do with space research, such as the testing of components for resistance to the great flows of energy resulting from the impact of the atmosphere. As you see, the field of activity is very broad.

Odeillo is in one of the sunniest parts of France, where there are about 1,200 hours of clear sky per year. But if the installation were transferred to an even sunnier region such as north Chile, its output would be much higher, since it could function for 2,500 instead of 1,200 hours a year.

Moreover, the Odeillo furnace performs a very diversified operations and operating costs are correspondingly low, whereas a similar furnace in Chile could specialize in kinds of production which are not currently called for in France, and price per solar hour could thus be much lower. Anything can be in competition with classical forms of energy producing high temperatures. Solar furnaces might in this way replace highly specialized systems such as high-frequency electric furnaces, plasma furnaces and microwave ovens.

Looking Backward

GLEANINGS FROM OUR FILES OF BYGONE YEARS

20 YEARS AGO

March 2, 1944

City public works department received both a compliment and an objection on its garbage collection and disposal program. Former parks board member, Cleo B. Colling, congratulated the city on its sanitary land fill method of garbage disposal at Point Anne Island. At the same time Mr. Colling said he was forced by conditions created by the garbage collection to permitting garbage collection to commence in the city at the unreasonable hour of 4 in the morning.

With more customers, more shareholders and more employees than ever before in its history, CIL telephoned its annual meeting in Belleville during 1822, according to Harold Hopkins, Company of Canada's 74th annual report.

30 YEARS AGO

March 2, 1944.

Acting administrator at the Belleville General Hospital since May, 1941, when he was elevated to that position following the departure of Squadron Leader Gordon Friesen, Mr. Gordon Barclay has been appointed administrator. Squadron Leader Friesen has left the Belleville Hospital for service with the RCAF.

40 YEARS AGO

March 2, 1934.

Lieut.-Col. David Barrgar has left for New Orleans where he will spend several weeks with his relatives, Ireland.

Mr. George Holgate has returned to the city from Ziconton Alta., where he spent several months.

Miss Ruth Bell, Reg. N., of this city has returned home after visiting for three days in Cornwall and her brothers in Waterdown and Kingston.

Mrs. Marion Poste and Miss Marie Bernard of the Woodley fur and hat shop returned from Toronto where they attended the spring millinery showings.

50 YEARS AGO

March 2, 1924

In a bowling match in the Junior league last evening the Belle Stores defeated the Artocrats, the score being 2508 to 2111. The following composed the teams: Belle Motors, Drew, Macklem, Barrett, Lloyd, McMullin. Aristocrats, Hall, Lent, Barley Savage, Edgecombe.

Dr. H. M. E. Ward is spending some time in Peterborough.

Readers' Viewpoint

Editor
The Intelligencer

Accolades in the direction of Messrs. Young, Hockley and Gerling for the outstanding articles in the press. They really tell it like it is.

With false teeth, Contaminated water, and rip offs this makes interesting reading.

It says here that I for one do not turn to the Editorial page in trepidation to see if I am the next one under fire.

Keep up the good work gentlemen.

W. E. BOYD

Bible Digest

by R. S. DEAN

"Surely he hath borne our griefs, and carried our sorrows: yet we did esteem him stricken, smitten of God, and afflicted But he was wounded for our transgressions, He was bruised for our iniquities; the chastisement of our peace was upon him, and with his stripes we are healed." Isaiah 53:4,5

Long before He came, the Bible described how He would be received, how He would die and why His sacrifice not only took into consideration our sins but our sicknesses in either case it is a matter of believing and receiving.

Today In History

By THE CANADIAN PRESS

March 2, 1974

The former Spanish island of Puerto Rico became a United States territory 57 years ago today—in 1917—when the Jones Act reformed organic law under which the U.S. had ruled since the Spanish-American War. Poverty and lack of autonomy chafed the island. Reforms brought the following years until the island ranked as one governor in 1948. Nationalist extremists in his world headlines with an assassination attempts in 1950 and 1954. The United Nations ruled that the island was completely self-governing and set a referendum territory in 1953.

1836—James Rivard escaped from jail in Montreal pending his extradition to the United States on drug charges.

1862—An army group in Burma overthrew Premier U Nu.

1956—Morocco achieved independence.

1972—Brantford, Ont., was incorporated.

1968—Vasco da Gama discovered Mozambique.

Taxicab Services

Brockville Recorder and Times

Brockville is not alone in the problems that are experienced in connection with taxi service. Many communities are hearing complaints and attempting solutions. As a result of public reaction to the recent rate increases announced here, the police commission has been studying the situation and the result has been a report prepared by Commissioner Bruce Kerr. His report focuses attention on the situation and problems and invites public participation in arriving at solutions.

A major problem is the current pricing system based on zones. Another is the lack of service after midnight. Poor service in the early morning hours has been discussed by municipal councils in centres where complaints centred on taxi licences. Here such licences are a police commission responsibility.

In Pembroke, the council has approached the problem of service after midnight by approving a new rate. Taxi companies in Pembroke, just as in Brockville, have been complaining that it is uneconomic to operate during the early-morning hours and as a result the rate increase of 1½ times the regular fare was approved for the hours between 1.30 and 6 a.m. Taxi operators agreed to operate on a 24-hour basis at the new rate which is $2.50 for the first quarter-mile and ten cents for each additional quarter mile.

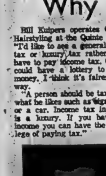
Pembroke is not a similar arrangement would produce the same improvement in the late afternoonlight operations here economical is questionable on most nights of the week. Regardless of this fact, however, some arrangement should be made among local taxi operators to assure that service is available in Brockville on all nights of the week. Provision of such service is a condition for granting a licence. The fact that only half of the taxis should operate 24 hours a day, seven nights of the week, is not satisfactory. It must be made among the taxi operators themselves to share the duty so the city is covered after midnight. No arrangement patterned after that in operation at the drug stores would seem possible but some plan of this sort be required to take a turn at providing service. If the Police Commission feels two, three or four taxis should provide all night service, then that number would be a little more frequent. It is apparent that 'all-night' should be done, however.

The matter of taxi fares is something that is also causing problems in other centres. Kingston has gone to the zone system and fares there have been increased since last year. We commented on this page that the Limestone City had, perhaps, the best system of fares and taxi service in the province.

We would agree with Mr. Kerr's report, however, that the zone system of meters is a more equitable system of charging fares than the zone system. Metered service at a mileage basis is by far the most fair and as Mr. Kerr points out, the cost of meters could be considered along with other operating costs when fares are set. Control of taxi service is important to the community and such service should be operated to the mutual satisfaction of passengers and operators. Mr. Kerr's recommendations, we believe should be the starting point towards accomplishing the ideal.

Notice To Readers

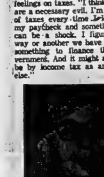
The Intelligencer welcomes readers' viewpoints. Letters should be as brief as possible and 500 words. While for preferably no more than publication purposes a nom de pseudonym may be used, they must be signed and the author's handwritten signature and address must appear. Letters are subject to editing.



BILL KUIPERS

Why

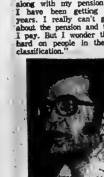
Bill Kuipers operates Quinte Hairstyling at the Quinte Hotel. "I'd like to see a general sales tax or luxury tax rather than have to pay income tax. Or we could have a lottery to raise money. I think it's fairer that way."



"A person should be taxed on what he likes such as cigarettes or a car. Income tax is itself is a luxury. If you have an income you can have the privileges of paying tax."

ALLAN B. POOLEY

Do We



Allan B. Pooley works for a radio station and has definite feelings on taxes. "I think taxes are a necessary evil. I'm aware of taxes every time I look at my paycheck and sometimes it can be a shock. I figure one way or another we have to pay something to finance the government. And it might as well be by income tax as anything else."

FRED CARSCALLEN

Hate

Fred Carscallen is retired and receives a pension as well as a small personal income. "I've paid income tax as long as anybody. I have a small income along with my pension which I have been getting for 11 years. I really can't grumble about the pension and the tax I pay. But I wonder that it's hard on people in the lower classification."

N. MARKANASTASAKIS

To Pay

Nick Markanastasakis owns a barber shop on Front Street. "I find income tax very confusing. Everybody seems to pay too much. They (the government) give you something for the taxes you pay but they take a lot out."

ROSS McDOUGALL

Taxes?

Ross McDougall is an insurance agent so when it comes to money he's very familiar ground "I haven't looked at my income tax for this year yet."

Don't Blame Junk Mail On Mailmen!

By MAURICE SWITZER
Managing Editor

One man's junk mail is another man's journal.

"Even WE used to call it junk mail," confides Belleville postmaster Roy Wainwright, hastening that was in the days before "householder mailing" became respectable.

The third-class printed matter — catalogues, flyers, and general advertising throwaways — that often end up in kitchen wastebaskets before being opened, are not regarded as the same nuisance by postal authorities as by housewives.

"This is subsidizing the first class rate," reminds Mr. Wainwright explaining that the mounds of householder mailing — at three cents for the first two ounces — also produces mountains of revenue.

In other words, if it weren't for the approximately 20 tons of third-class ad mail Belleville's 29 letter carriers toted last year, you wouldn't be sending sealed letters to Aunt Molly in Vancouver for a paltry eight-pence.

So the post office is happy to be making money. And they have fewer sorting worries with the handouts, which come in bundles.

The advertiser is happy — he gets guaranteed delivery to the household. (The post office will even provide him with the number of stops and walks it serves.)

And the mailmen are relatively happy. They get three days to deliver a batch of flyers — five if they're of the huskier catalogue variety.

But the winner of a free sewing machine — if he buys a new home — is the receiving end of the mail isn't always so tickled.

"Sure we get complaints," chuckles postmaster Wain-right, "but we're bound to deliver this mail. It's paid for and just as important as if it were first class.

"We don't care what happens to it once it gets delivered."

So don't sick Fang on your mailman. He's just doing his job and saving you money by delivering "householder" mail.

And if you think you've got problems, take a glimpse at just a few pieces of what one Belleville newspaper editor considers junk mail.

Bear in mind that these are the cream of the crop.

A telex-like announcement from something called "Unipress" in Germany stating that Christ appeared in Belleville in 1967, and did not die on the cross, as previously rumored.

A "press release" from "The Church of Scientology" beginning: "Canada is one of the safest countries in the world. . ."

A bulletin from a Windsor mobile home firm heralding the production of a travel trailer with a mansard roof.

Last, but not least, a calorie-counters' guide from Miracle Mart revealing, for the first time, that a bottle of your favorite ale is no more fattening than a mug of root beer.

A and W has lost one of its best customers.

They Said It

"The media are too important to be left in the hands of the professionals." — television personality Roy Boulsted to Belleville's annual Brotherhood Week banquet.

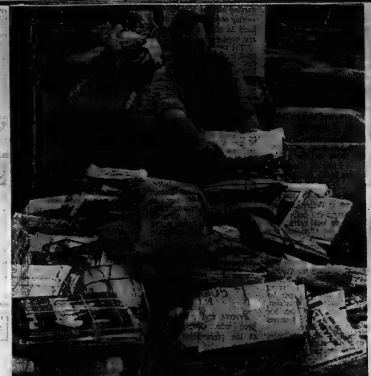
* * *

"Let them get professional development the way the rest of us do—on our own time."

— separate school trustee Bert Garrett in a bid to reduce the number of "study" days for Hastings-Prince Edward teachers. Mr. Garrett, a lawyer, is the son of former longtime Trenton High school principal John Garrett.

* * *

"I've never heard a successful carpenter being a guest speaker at a high school."



Belleville and District Employment Committee member Jim Stavely on the lack of skilled tradesmen.

* * *

"When schools close, the world continues to turn." — Ontario Liberal leader Robert Nixon addressing a district dinner meeting of the Ontario Secondary School Teachers' Federation.

* * *

"The larger amount that we can raise by giving voluntarily, the less we have to be taxed. Either we do it voluntarily, or we get taxed to cover the expense of research." — Gwendolyn Brain, local Heart Fund campaign chairman.

Third Subsidizes First

More than 20 per cent of the million pieces of mail that pass through the Belleville post office each week are classified third class mail and according to Postmaster Roy Wainwright, this third class mail helps control the cost to the customer for first class delivery. O. B. MacMullen sorts his way through six car loads of third class material.

Counterpoint

Pew Gets Too Comfortable

By JIM HURST

Before stating whether or not the purposes of organized religion are being achieved, I would question the real functions of such organizations.

We are over-exposed to religion via the media: too long and too often we suffer the chastisements of Oral Roberts, Billy Graham, and Garner Ted Armstrong, and yet their empires continue to expand.

We read, daily, newspaper articles on how to change our lives, implementing the principles of some religion. We are pleaded with to support our well-established churches, mosques, and synagogues.

Certainly a large segment of our society is completely untouched by religion, no matter what the faith might be. Some pray to Allah, some to Christ, some to God.

But most in our society kneel to Mammon, the idol we have established to be god-like figures: cars, yachts, alcohol, cosmetics, drugs, and television — the list is endless.

Somehow, our organized religions seem to condone such worship. Too often have I seen the upper echelon of our society relaxing on Sunday morning in comfortable pew, knowing full well they have "tithed" and that the air conditioning is the Cadillac is working well.

We speak of brotherhood. We hear preachers of all faiths saying us to practise in our lives what we believe in our hearts.

Still we discard such principles in our daily lives. Brothers are fine, we agree, as long as we have very little to do with them. If we do, we feel our efforts must be paid.

Stone walls make neither prisons nor churches.

The African lesson is quickly being learned — it is impossible to change man's nature with books and highly ideological propaganda.

Too often we read of riots there, even the murder of missionaries, and we wonder why.

Yet we read and hear daily of enormous amounts of money being poured into so-called undeveloped nations, always with OUR ethical standards and impositions.

It is time to discard the garb, the instruments, the buildings — the "toys" of organized religions.

They are no more than calling cards in support of the idea that one who has helped himself should feed a few other mouths.

The very essence of organized religion which flounders should be regained, namely, to accept, to tolerate, and to share with everyone. AND to obliterate the preconceived notions of class, race, intelligence, nationality, position in society, wealth, creed, or family situation.

Unfortunately, organized religion, as we now know it, fails to fulfill such purposes.

Bravos and Boos

A patriotic BRAVO to Belleville Alderman John Stock for suggesting a flag selling drive to celebrate the city's 1978 centennial. Unfortunately, Dr. Stock did not specify which flag.

* * *

Behind-closed-door BOOS to Trenton town council for opening committee of the whole sessions to the press, with Mayor Bob Patrick's rider: "Leave your paper and pencil at home"

JIM HURST

Germans Have Energy To Burn

The energy crisis is easing in West Germany. The ban on Sunday driving has been lifted and lighting has returned —is normal.

That's the word from Michael Neville, one of the Belleville students now attending school in Lahr.

The speed limits are still in effect, but are not being observed by the Germans, he says.

"It seems to be the Canadians who stick to the speed limits because of the conservation programs," says Mr. Neville.

Phys. Ed. Rebuttal

Pursuit of Excellence Name of the Game

By DICK PAYNE

Seriously, Mrs. Williamson. You can — you DO — think better than that!

I refer, of course, to Lenny Williamson's grumblings upon this page last Saturday about physical education in our schools.

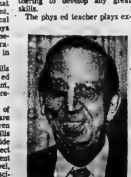
You were, in my opinion, 83½ per cent right, which is far above par for the course, for any writer pontificating upon any subject, and a standard which I should be not only delighted but surprised to reach in this article.

Why, then, am I biffing you in the bumper?

Because, wandering amidst the mists and myths of what was, in my day, P.T. and is now known as phys ed, you miraculously discovered something of some importance, and then promptly drew a totally unwarranted conclusion from obviously misinterpreted facts.

Before we go into that, however, let us determine on what we can agree.

You will, I suppose, grant that the development of physical skills is just as important, for the individual, the community and mankind, as the development of mental skills. You cannot have any high degree of one without at least some semblance of the other. Any purposeful movement demands some modicum of thought. The greatest philosopher needs to take notes.



The case against P.T., or phys ed, if not, therefore that physical skills are unimportant, but that the important physical skills are not taught in phys ed classes, but are learned elsewhere, in factory and laboratory, at work and at play, in cars and in bed.

Furthermore, if the skills supposedly taught in phys ed courses were really important, we probably should have to revise our system.

There are so many kinds of physical skills as there are kinds of mental skills. Even if we only limit physical skills to athletics, there is still a wide variety. You wouldn't expect one person to be a competent teacher at the high school level, of such widely diverse disciplines as algebra, history, biology, French, Latin, chemistry and physics, would you? Why, then, expect one man, or one woman, to be deeply versed in the special skills required to play a dozen different games?

But teaching skills of this kind are not required to enable phys ed courses to play their only useful role — the introduction of the student to an activity which may interest him and which he can pursue further, under qualified tutors, or which he can enjoy without even bothering to develop any great skills.

The phys ed teacher plays exactly the same role as his colleague, the chess buff, who starts some of his pupils playing the game as an extracurricular activity.

DICK PAYNE

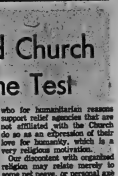
You are right, Lenny, the expenditure involved in the phys ed system of introducing students to athletic pursuits hardly looks productive. As a chap who, like yourself, has had an insatiable appetite for any competitive physical activity except gymnastics, I should hate to see high school football disappear, but there is a good section to gratify which the expenditure of other people's taxes is hardly justified.

Going along with you thus far, why did I start out waffling?

Because you quoted an unnamed phys ed teacher as saying that the phys ed program is the only one geared to superior students and then implied that this is "the worst indictment of phys ed." Every other department in the school caters to the student who is of average calibre, or below, you observed, with apparent approval.

In the name of all that is reasonable, what is the matter with catering to the superior student? From the point of view of the mind, that is what schools ought to do, once the student reaches the age of reason, which comes at least no later than puberty.

Why is it considered essential to worry about the welfare of congenital idiots, while the needs of those with superior talents can be ignored without a twinge of conscience?



The real tragedies in life lie not in the inability of the inferior to overcome their inferiority, but in the failure of the superior to capitalize on their superior talents. In this regard we can afford it, and I am convinced we can afford to cater to the needs of the weak. But if every retarded child were ignored, the world would not be a better place. Einstein, while if the needs of the superior students are ignored, mankind's achievements will inevitably be less than possible.

If phys ed courses are really the only place we have aimed at catering to the superior student, they would better retain them (even if they cater only to superiority in certain limited physical skills), until such a time as at least one or two other courses in our schools are able to serve the needs of superior students in their disciplines.

The pursuit of excellence — that should be the name of the game.

Point

Organized Church Stands Time Test

REV. D. HIMMELMAN

REV. DONALD HIMMELMAN
President of the Belleville Ministerial Association

Organized religion is under a great deal of fire today.

Organizations are made up of people and any organization that has been around for almost 2,000 years has been around long enough to display both it strengths and its weaknesses.

The Church in her long prohibitory to the world has opened herself up to wonderful achievements and glaring failures.

Yet no organization, political, economic, cultural, or military, has withstood the test of time as long as the Church, or for that matter any of the living religions that have striven to meet the spiritual needs and yearnings of humanity.

I am convinced that the reason why the Church will stand the test of time in today's fragmented society, as it did in times past, is because God does not shun human organization in His plan to save humanity.

Our Lord chose his own form of organization when he appointed 12 apostles and then in turn chose seven deacons to assist them.

St. Paul organized a multitude of congregations all around the Mediterranean and these appointed presbyters, elders, pastors, evangelists, teachers, etc. Had these practical elements not been an integral part of sharing the Church's faith in Christ Jesus, it would have been no Church no New Testament no Bible as we know it.

Religion does not recommend for action to fulfill its work in the world is little more than a pious sentiment. Even those who for humanitarian reasons support relief agencies that are not affiliated with the Church do so as an expression of their love for humanity, which is a very religious motivation.

Our discontent with organized religion may relate merely to some pet peeve, or personal axe to grind or we may sincerely believe the whole structure of the Church needs transforma-

tion. This is the story of the Church throughout its long history.

All the reform movements within the Church have had their own form of organization. For example, the monastic orders of the Middle Ages, the Protestant churches of the Reformation, and the religious orders of the Counter-Reformation. The Jesus movement and the charismatic groups of today have appeared as spontaneous movements for the celebration of religious faith. But with remarkable speed these unorganized groups have found their own forms of organization.

Those who have attacked the Church from outside its structures have themselves represented some of the world's most tight-knit organizations, viz. Nero, Napoleon, Stalin, Hitler. In fact the average person who attacks organized religion today finds himself committed to some sort of organization, whether that be business, industry, education, etc., and hence employed by the public or private sectors of society.

The truth is that all organizations are capable of great good or evil, whether it be big government, big industry, big business, big unions or big church. Organizations provide the means, or the stumbling block to attaining a desired goal.

They are not infallible. But nothing can be achieved without them. A person without organization or program would be as ineffective as a school without a curriculum, a hockey team without a healing team, or a party without a platform.

Some churches have placed more emphasis on organization than others, stressing both "faith and order" as equally important. Others say that "faith alone" as vital to salvation. Type of church organization is optional, whether that be congregational or episcopal, so long as good order is maintained in the Church.

Personally I'm grateful for the Church. It's the greatest resource in the world for nurturing our faith and building our character. We should love it, care for it, protect it, support it, attend it.

Stage Designer Nancy Brown Hopes to Start Belleville Costume Workshop

Nancy Brown of Lonsdale takes a moment from her busy routine to reflect on some aspects of her professional career as a stage designer for theatres in Toronto and Ottawa.

"You have to keep yourself open to new ideas all the time if you're designing. You have to avoid just making the stage pretty. Your design should make the essence of the play visible."

"You see, I think the stage should be a magic place, where anything can happen. The stage isn't a good medium for reality anyway. It isn't the right place to do a documentary, for example."

"What sets and costumes should do is to pull the audience into the play. I like using interesting textures on stage that are appealing to the senses. Tactile responses can bypass the mental process, and the audience can just 'feel' what the play's about."

After two years' commuting between here and Toronto, one of Ontario's busiest stage designers hopes to complete her move to the Quinte area and bring big-city business to Belleville.

"We moved from the city to Lonsdale with the intention of becoming self-supporting in this area," says Nancy Brown, wife of Marien Lewis, curator of Glenmore House museum.

"But I've been commuting madly back and forth. Now at last I see an opportunity of doing much of my work here."

Nancy hopes to start a workshop in Belleville where the costumes she designs can be made by local seamstresses. Since she often has two or three projects on the go at once, the amount of work could be considerable.

Until last year, Nancy was resident designer for Toronto Workshop Productions, a position she held for 12 years while she also did work for other theatres and television. She resigned when her husband, and two teen-age children moved here.

"I thought the commitment to do five or six shows a year would be too much for me," she says.

"As it turns out, I've been busier than ever."

Besides continuing her affiliation with TWP, she has recently designed sets and costumes for "Winnie the Pooh" at the St. Lawrence Centre and "Noah in the Sun" at the Ontario Science Centre.

As resident designer, Nancy had a share in decisions regarding choices of plays and casting of characters, working hand in hand with directors and producers.

"The sets and the costumes must be the product of a unified approach to a play," Nancy says.

"As a designer, I must add something to the total view, and must bring another dimension to the production or else I'm redundant."

"I usually have an instinctive reaction to a play as soon as I read it," she explains. "I get a 'feeling' for what color the play should be and I've learned to trust these instincts."

Unlike some stage designers who have an instantly recognizable style, Nancy Brown has no special "signature" to her work. Her approach varies with each play, although she is consistent in her desire to create sets that invite the audience in.

"I don't like 'peep-show' theatre sets ordinarily," she says, "because they separate the play from the audience."

Her three-dimensional approach is a result, she believes, of her early training and apprenticeship in sculpture.

The magic of stage illusion for this designer lies not in making false props look "real", but in escaping reality.

"One of my favorite sets for children's theatre featured huge blue polyurethane mushrooms," she recalls. "I loved seeing the children come up after the play to touch the mushrooms."

In the belief that textures in fabrics and materials can leave a strong impression, Nancy pays special attention to this aspect of designing.

"But the setting must never overpower the play itself," she stresses. "It should simply offer another connection to the audience."

Her love of theatre does not extend to any desire to act or direct herself.

"A director must have the ability to handle people on a one-to-one basis to be really successful. My talent lies more in getting the script, costumes and setting to all hang together."

Her current project is designing costumes and transportable sets for the Canadian Opera Company's new enterprise, a spring tour of schools throughout the province. Four or five opera singers will present suitable excerpts for young children.

"My approach to this job is absolutely fresh," Nancy admits, "since I know almost nothing about opera."

"Still, it's great fun and I'm learning a lot."

At this point, the costumes she's designing will be made in Toronto. But by the summer she hopes to have lined up next year's plays, and be ready to settle into costume-making here.

"I can't see any reason it shouldn't work out," she says. "And it will be so nice to be able to stay home more."

Story And Photos
by
Isabel Huggan

Parents and guests gathered with Company One at the presentation of the highest award in Guiding, The Canada Cord to Laurie Collyer.

Mrs. Collyer presented the cord to Laurie and Cathy Russell presented her with her Canada Pin on behalf of the Company.

Badges were also presented to several girls, and Brenda Wilson was enrolled into the sisterhood of Guides.

To complete the program a short Thinking Day service was held. Capt. Kirkman explained what this day represented and what the friendship fund is used for. Then Guides lit candles symbolizing the five races of mankind.

Guests were entertained with skits and songs followed by refreshments for all served by hostesses. Program was ended with tap.

The Consumer Sharon Airhart

More Than An Ad Man

The following article, by Toronto adman and author Merry Good, first appeared in the February issue, Canadian Consumer, the publication of the Consumers' Association of Canada.

By JERRY GOODIS

What does the marketing era have to its credit?

— A deodorant that works for more than just a day.

— A toothpaste that cleans your breath as it cleans your teeth.

— The "dirty" look.

— Suddenly shapelier cross your heart bras.

— The Edsel, the Corvair and ultimately the ugly named Pinto.

Is this the outcome of consulting the customer and producing what he or she wants? Is the consumer responsible for the fact that we... have five liquid preparations that stop coughing in the middle of the night, 18...floor waxes, 11 brands of aspirin, etc? Is it the woman shopper's fault that packages within packages add to the cost of food, whereas one cellophane sack would adequately serve the purpose?

Of course not.

And that's what is increasingly alienating consumers all over the country.

I'm referring to advertising that is still being extolled with an insensitivity that verges on stupidity...when it hasn't already crossed that border...concepts that are juvenile, if not infantile...merchandising that is thoughtless and inept... presentations lacking even a shred of the artistry we expect in a novel or play.

"They rob us to our dignity a hundred times a day on television", say the women, "and they rob us twice a week in the supermarket". And those who inflict this marketing ripoff on the housewife have been trying to escape her fury by assuming the pre-natal position and turning their corporate beating blankets up to "9" hoping that when they awaken, 'consumerism' will go away. It won't.

Why are advertisers still doing things like this? Why are they spending twenty or thirty thousand dollars on television commercials that portray the consumer as a fool, with the intellect of a Rhesus monkey?

That is what's infuriating consumers all across this country. Insulting, degrading depictions of the consumer as a fool, of housewives as borderline defectives or Dad as a milksop puppet, of kids as whining tyrants, that is what's alienating anyone with an IQ of over 60 against advertising. That, and the fact that we see them over and over again. Even the best ones, the Alka-Seltzers, the Volkswagen spots, with all their charm and entertainment, the reward is wrung out of them after so many appearances, and the consumers beg for relief.

Is it naive to think such a system can be stopped? I don't think so, in fact I think it's naive to believe that we can go on the way we are for very much longer. A great deal of today's marketing activity can justly be called a waste of energy. And before very long there won't be a more serious charge, a more damning indictment than "It's a waste of energy".

Let me explain why I say that. In the March 1973 Maclean's, an article by J. Tuzo Wilson caught my eye.

J. Tuzo Wilson is a man with more degrees than I know the initials for. He is universally regarded as one of the world's foremost geophysicists. He has impeccable credentials as a critic of energy policy and northern development. Professor Wilson has studied the existing oil and gas reserves in the Canadian Arctic and the rest of the world. And this is what he had to say in the Maclean's article:

"The most immediate challenge facing North Americans today is not starvation, or pollution, or social unrest, it is that our demands for energy have been doubling every ten years".

Most of us don't realize what "doubling" means. How quickly something grows—or depletes — when it's doubling.

After a survey of all the oil and gas reserves in the world, and after consideration of other forms of energy, Tuzo Wilson comes to this chilling conclusion:

"Experts disagree on just how long it will take for the crisis facing our industrial civilization to become desperately serious, but it really doesn't make much difference, the pessimists say 10 years, but double or multiple that estimate and the crisis is still less than a lifetime away."

Tuzo Wilson is worried. He says his chief concern is that today many intelligent men still believe in even greater growth and exploitation which amounts to a belief that resources are limitless, that replacements will always be found, that new technologies will be developed in time.

When a man like J. Tuzo Wilson is worried, I'm worried. And maybe we all should be. Why aren't we?

We aren't worried because we've got nothing tangible to worry about. Our cars are in the same place in the parking lot every day. Our homes are on the same streets. The thermostat sets the furnace on when it's cold, and the light switch works in the wine cellar.

We aren't worried because we can't see anything that scares us. We aren't worried because everyday we are being bombarded with messages encouraging us to buy more, to have more, to want more, to use more. More and more of everything.

When you put all these individual messages for all the individual products together, they say that we can go on just the way we have been going. Pretty well forever. That we can go on without having to make any radical changes in our lives.

But we can't go on growing like an intense and obscene Topsy. It's unrealistic to think we can.

It means we're going to have to give some things up. We're going to have to give up a line extension... the 16th flavour when we've already got 15... we're going to have to give up bullish exuberance. 20 cent packaging for 10 cents worth of ingredients... three commercials in two hours for the same product.. and lots of other things, too.

Because if we don't, you know what's going to happen?

Sometime around 1995, we're going to be sitting around with our curly-fries grandchildren, surrounded by all our wonderful products. Surrounded by our Quiet-Ride Fords... or Better-Sevens-Ways snowmobiles... or disposable Maytags. Our hair still believe in even greater growth and exploitation which amounts to a belief that resources are limitless, that replacements will always be found, that new technologies will be developed in time.

When a man like J. Tuzo Wilson is worried, I'm worried. And maybe we all should be. Why aren't we?

We aren't worried because we've got nothing tangible to worry about. Our cars are in the same place in the parking lot every day. Our homes are on the same streets. The thermostat sets the furnace on when it's cold, and the light switch works in the wine cellar.

We aren't worried because we can't see anything that scares us. We aren't worried because everyday we are being bombarded with messages encouraging us to buy more, to have more, to want more, to use more. More and more of everything.

When you put all these individual messages for all the individual products together, they say that we can go on just the way we have been going. Pretty well forever. That we can go on without having to make any radical changes in our lives.

But we can't go on growing like an intense and obscene Topsy. It's unrealistic to think we can.

We're going to have to give up a line extension... the 16th flavour when we've already got 15... we're going to have to give up bullish exuberance. 20 cent packaging for 10 cents worth of ingredients... three commercials in two hours for the same product.. and lots of other things, too.

Because if we don't, you know what's going to happen?

Sometime around 1995, we're going to be sitting around with our curly-fries grandchildren, surrounded by all our wonderful products. Surrounded by our Quiet-Ride Fords... or Better-Sevens-Ways snowmobiles... or disposable Maytags. Our hair won't have the frizzies, we'll only need deodorant every other day... we'll have tried it, and liked it... we'll have found out what we've been missing ... we'll have taken 5 for 50 ... and margarine will taste just like butter.

But Mother Nature won't have been fooled. We'll have wonderful products. - But there's going to be no gas to run them. No hydro to heat them. No fuel to start them. No juice for the microwave ovens. No energy to run the turbines to turn the generators to make any more power.

She Monitors the Soaps— for Pay!

MOUNTAIN VIEW, Calif. (AP) — Bryna Laub watches 14 soap operas a day and usually keeps at least one of her six television sets on until the night-time signoffs.

"I just love television," says the 25-year-old Boston University graduate.

Once warned by friends that her brain was going to rot from so much television exposure, Mrs. Laub has turned her hobby into a business.

Her "Daytime Serial Newsletter" summarizes soap operas' plots for viewers who must miss a few instalments of their favorites.

"The mind that was starting to get a sudden brilliant, was chuckled during an interview.

For $7.50 a year, the monthly newsletter provides facts readers need to keep abreast of developments, such as this As the World Turns excerpt:

"Since learning from Bob's ramblings under anesthesia following his emergency surgery that during their separation he spent one night with her sister Kim which resulted in Kim's pregnancy, Jennifer Hughes is devastated."

Mrs. Laub says subscriptions are coming in at a rate of 20 a day, but "I won't mention total figures until it tops 10,000."

The publication began its debut last December in Newton, Mass., where the Laubs lived until her engineer husband Bernard got a job in California.

It was Laub who hatched his wife's career, she said, by remarking "Too bad you can't get paid for watching TV." Then he provided investment capital for extra televisions, tape recorders, a burglar alarm system and a portable video voice that receives only the sound of television broadcasts.

The voice lets her listen to the soaps when it's her turn in the neighborhood car pool. Mrs. Laub can recognize every character by voice alone, but she says those rare occasions when she must be entirely out of hearing shot of business fills in.

At home, Mrs. Laub doesn't feel plant herself in front of the four sets in her living room all day. A big color set dominates one corner; a small back-up black and white sits on the floor beside it in case one of the others breaks down.

The other two, on a desk and the kitchen bar, can be turned to where Mrs. Laub can keep an eye on them while cooking, cleaning or answering her mail.

She has two hours upstairs.

Mrs. Laub can monitor three shows simultaneously. She takes notes on one but stays alert to the other two and their companion tape recorders.

Armed service and diplomatic corps wives overseas are among her audience, as are women recently returned to work. She estimates about 15 per cent of her customers are men, although "some subscribe under their secretary's name."

Mrs. Laub, who got hooked on radio serials as a toddler, says they're different these days.

"Now the characters are three - dimensional. You no longer have a Miss Hercules, snow white, and a Madame Vile... real, black."

Long before women's lib, she said, "mothers worked on soap operas—they're doctors, lawyers, anything."

The best thing about daytime TV," she said, "is that it doesn't give people that weird sense of unreality you get from night-time TV.

"On Marcus Welby or Medical Centre, the hero (preferably a man) develops as a skilled, superhuman person who makes every effort to be all things to all people and often succeeds," but "the person cured or found innocent is only a shadow."

"On daytime TV," she said, "people who get ill or have accidents can and do die."

Successful Living

Elderly Patient Tells of Cruelty

Dear Doris: I want to thank you for the many hours of pleasure derived from your column.

About the letter from a lady living, like myself, in a home for old people. She was right, of course, but like young children one does not care to much about physical assets of life — takes them for granted. It is the mental cruelty that prevails in our institutions, I think, that is so heartbreaking.

As an example I am telling you of mine. The saddest Christmas I have lived through during my 82 years. A friend phoned the head nurse that my old neighbors were coming to visit me on Christmas day, and could she send somebody to help me dress, as I cannot do this properly, wheeling around half dressed all the time.

Well, someone laid a pair of pants before me which I still contemplated when my visitors arrived. What a pretty picture I must have looked on Christmas day! But what really hurt me deeply, making me cry for the rest of the day, was the head nurse's refusal to let me see my beloved dog for even a minute. She is a 13-year-old Labrador, the only real friend I had in my life. I am living alone in my suite, and the dog would not have met any other guest, coming in the back door which is only a few feet away.

The management was asked for permission but the two head nurses run the patients, and make sure that their unlimited authority is forced on us. There was no practical reason for this behavior, except utter disregard for our feelings. They know we cannot fight back.

Outside of my room I heard patients cry for attention all day long, or someone gets stuck in a wheelchair, unable to reach the toilet in time, staying wet all day and having the skin rot. Or others it is written into a black book that they are drunk when they did not even have the necessary material. Just in order to protect the operator on duty in case of an expected complaint.

At night I am too stiff and groggy to help myself yet still able to ring for help, only nobody appears in time. The other day I met an agitated lady, who was scared out of her wits, because she overheard the nurses talking about "those crazy people in", telling me that she is not crazy yet but will surely lose her mind, staying for any length of time, wishing to be dead ...

This sort of life seems so hopeless, when every little pleasure is systematically killed, when one does not have any more to look forward to than food (which is very good) and the fight against the body's weakness. After all, this is supposed to be my home. It is us who pay those nurses their salary and comfort. Why aren't we entitled to some compensation.

A little pleasure and a small joy to look forward to, once in a while?

Above All it seems to me that too much unrestricted power in one hand is a very dangerous thing for us. But who can fight against a nurse who is hard to replace, if not impossible? — Would Dearly Love Help.

Dear Dearly: I'm sorry. Not all nursing homes are so tragically impersonal.

We can excuse some of this by understanding that nurses and their helpers get tired, get shorthanded and are only human. If they would only give the elderly patients credit for being human too! Would any of our concerned nurses care to comment on "Dearly's" letter?

(Doris welcomes your comments and ideas. Write to her, care of this newspaper, enclosing a stamped, self-addressed envelope for private reply.)

Blocked Exit

BAKERSFIELD, Calif. (AP)

Mary Jerome told police officers she returned home to find a car in her driveway loaded with her stereo and television set. She blocked the car, confronted the burglar and ordered him to return the goods. He complied, meekly waiting while she moved her car so he could leave.

LADIES'
ELECTROLYSIS

Avoid shaving, tweezing or use of depilatories. Have eyebrows styled and unwanted hair removed permanently by latest electrolysis techniques. Reasonable rates, our work. For free consultation and information call collect.

History Seen as Story Of Unfolding Altruism

By DR. GORDON C. SMYTH

Charles Darwin's study of our origins resulted in what he called, "The Descent of Man". However, man's descent has been the ascent of man. History has been a story of unfolding altruism, from dim beginnings in the self-multiplying cell, through the dawn of parental self-sacrifice, up to the courage of Alexander Solzhenitsyn, writer and Christian, recently expelled from the Soviet Union.

As evolution's slow degrees has given to man an erect posture, transformed his forelimbs into arms, and turned his eyes upward, so evolution has lifted man into moral erectness. To the struggle for life has been added the struggle for the life of others.

Is this the whole story? Should not the next stage be downward in actions of compassion, sympathy and love? The next move in the evolution of the spirit should be the descent of man. The highest trait in character is the capacity to stoop on behalf of the needy and lowly.

I once talked with a friend about a person who had achieved considerable distinction while missing the affection of his fellow men. My friend remarked, "He is content with that man is that he cannot bend." He had won renown but had not developed the supreme attribute of character.

Here is the difference between professionalism and humanitarianism: that you can note most any day. The aim of the first is "greatness" whereas the goal of the second is service. The first cultivates the ability of an individual to attract attention as he makes hospital rounds like a certain kind of doctor, enters a classroom like a certain type professor, goes visiting like a clergyman, attends a fiftieth wedding anniversary like a politician, or, in time of crisis, rushes over like a neighbor. The second cultivates anybody's capacity for loving.

How beautifully the supremacy of humanitarianism over professionalism is revealed as the truths of this Easter Season are recalled! For instance, Jesus was about to leave his apostles. His mission was practically accomplished. What would be the crowning act of his spiritual leadership? (It was spontaneous yet premeditated). He rose from supper and performed the task of a servant.

The legacy that he left was his example. To rise from a table of abundance and humble yourself in deeds of devotion is that is the greatest of strides in evolution. It illustrates what the New Testament calls "the grace of the Lord Jesus".

Therefore, it is encouraging that more and more people are being heard on behalf of curing this planet's ills of poverty, disease, ignorance, violence and tyranny. The future depends upon this moral posture. The ascent of man, the animal, must be supplemented by the descent of man, the brother.

Power and Scholarship In Lutheran Conflict

NEW YORK (AP) — The azz fell in an academic cesspool of Lutheranism last month, and the structure verged on coming apart.

The tremors came from a classic conflict—between power and scholarship. For the time being, power prevailed, but the scholarship stalled.

Most professors at the nation's largest Lutheran seminary, Concordia in St. Louis, chaffed under the disciplinary pressure, with some of them already forced out, including the seminary's president, Rev. Dr. John H. Tietjen.

Classes languished, especially with students unwilling to attend under the circumstances. Several standard courses were cancelled. Scholars at other institutions voiced dismay and concern.

Pitting denominational officials on against leading teachers, the conflict was intensified by two men—Dr. Tietjen considered a "moderate," and Rev. Dr. J. A. O. Preus, the avowed "conservative" president of the Lutheran Church-Missouri Synod.

The struggle between them, and the contrasting positions they represent in the 2.8-million-member denomination, has been smouldering for several years, somewhat like the fundamentalist-modernist controversy of a half century ago in most of the rest of Protestantism.

It reached a breaking point when the seminary's board of control, on which supporters of Dr. Preus recently gained a majority, suspended Dr. Tietjen from his post.

"Advocacy of false doctrine," the board cited as grounds for its action.

A "mass proceedings," said Dr. Tietjen.

His suspension set off a storm. With the faculty generally also accused of false teachings, students voted a moratorium on further classes, declaring their education "disrupted and jeopardized." The student body numbers about 600.

Either the faculty is guilty and unfit to teach or innocent and unjustly guided, the students said in a resolution. Either they were forgiving classes until told just who were considered "false teachers" and why.

Three professors over 65 were ordered retired simultaneously with Dr. Tietjen's suspension, paving the way for removal of another. Others pondered their courses.

Of the 50-member faculty, 45 have backed Dr. Tietjen, rejecting as contrary to Lutheranism the elaborated requirements on Bible interpretation laid down by Dr. Preus and approved by a 3-2 majority of the church's convention last year.

He has insisted on the literalistic "factuality" of various Bible passages which many scholars see as conveying truth through allegory, such as accounts of a six-day creation, and of conscience pursuing Jonah even inside a big fish.

The conflict has polarized the denomination, with "moderates" forming a functioning wing within the bloc Dr. Preus calls "rebels." It also has closed relationships among the three major branches of Lutheranism, hamstringing nine million.

The accreditation of Concordia, subjected to a drawn-out investigation at Dr. Preus' behest, has been put on probation by the American Association of Theological Schools because of resulting disruptions.

The faculty of a sister institution, Luther Seminary in St. Paul, voiced concern and support for our embattled colleagues."

Dr. Tietjen says the charges against him were mere "tools" used for his removal, adding that agents of Dr. Preus sought to "arrange a deal" to camouflage it, offering him pastorates he would step down voluntarily.

"If there were any substance at all to the charge that I am a teacher of false doctrine, then it is immoral to arrange a call for me and to inflict me on a Christian congregation," he said. "The proposed deal makes a mockery of God's truth and of the church's obligation to safeguard it."

He said members of the denomination "must become aware of the basic philosophy of the action of its present leadership.

Hindu Pope's Job Complex

BOMBAY (CP) — A top Hindu religious leader has taken on what one newspaper has described as "a most challenging and complex job."

The leader is Swarup Anand Saraswati and the job is to modernize Hinduism and attract young people to its fold.

Saraswati, recently took over as the head of the monastic order of Badrikasharam, a religious settlement 10,000 feet high in the Himalayan mountains bordering China. The vacancy arose following the death of the previous Shankaracharya or pope of Hinduism.

Hinduism has five papal orders of which Badrikasharam is considered the most ancient. It is said to be at least 2,500 years old.

As head of the Badrikasharam monastery, Saraswati has a following of nearly 50 million Hindus from all over India. The order has many adherents in the United States, Canada, the West Indies and South Africa.

Soon after his installation in Near Delhi, a gathering of ceremony attended by cabinet ministers and religious scholars from a dozen countries, the monk announced that it is his aim that the ancient religion of Hinduism should become "a live, dynamic force in tune with modern times."

He did not elaborate but his close disciples say Saraswati is planning a drive to recruit young educated Indians as monks in his holy order.

"The Guru (teacher) wants to infuse young blood in the religious order," Swami Kamalananda, a 28-year-old monk, said.

Kamalananda is a graduate of Calcutta University and worked as a chemical engineer for five years before joining the priesthood.

Sources close to the head of Badrikasharam monastery say he is "increasingly worried" about the activities of foreign Christian missions in India, particularly in interior tribal areas like those in the central and northeastern provinces.

It is said that Saraswati wants to stop the conversion of tribesmen to Christianity and instead win them over to Hinduism.

Paper Pickup Volume Doubles

After four months of dogged effort, Belleville's waste paper recycling project is right back where it started.

And Jean smith couldn't be happier.

The city councillor discovered Friday that wastepaper collection in the city during February—doubled to 30 tons from the previous two months.

This was exactly the total in November — the month Alderman Smith first organized and launched the street-to-street collection and hoped householders would respond.

The first month netted 30 tons, but collections dropped to 15 tons in december and January.

For a time it seemed initial enthusiasm among Belleville-ians — who must sort and bundle the paper separately from their garbage — had dissipated.

Now, after confessing to dispondency in recent weeks, Ald. Smith says the results of February collections left her buoyant.

The tonnage was a signal that householders may at last be settling down to full-time participation in the project.

"It takes time, but I think this points up the fact the idea is growing to grow," she said.

"It's fantastic the way it's come back so strong the past month."

Participation is mainly a matter of habit — getting into a sorting routine, she says.

"Once people get into the habit I don't think they'll be satisfied to put paper back in their garbage."

The paper is collected on the first four Thursdays of each month in different zones.

It's sold to a city scrap dealer and shipped to a pulp mill at Strathcona, northeast of Napanee.

The money says expenses of the project — the pickup service and use of city equipment for stockpiling the paper in the scrapyard.

Ald. Smith says she plans now to have printed reminders inserted with public utilities bills as the means of getting her message to every city household.

However, she's already had some indication that the spread had stimulated scattered, but widespread, civic willingness to participate.

She says she has had numerous phone calls in her apartment building the janitor has undertaken to collect wastepaper from his tenants and haul it to the street.

But her best advertisement is example, she feels.

"If people see others on the same street doing it they may be prompted to follow suit."

Her has it worked on Ald. Smith's street?

Until recently, participation was not "100 per cent" on Eastwood Park Dr., she says.

"But this month every house on my street had put out to be picked up."

Alarm Box

Belleville firefighters responded to the following call for assistance overnight:

7.35 a.m. — 25 Everett St., mattress on fire, damage only to mattress

Checking Names

Yvonne Boomhower sits in the kitchen of her Cannifton Road home Friday counting signatures Hillcrest residents have placed on her petition protesting the state of night soil pickup in one of the city's less affluent areas. As of yesterday, 57 people have signed, but Mrs. Boomhower expects to have over 100 names when she presents it to city council Monday.

Hillcrest Night Soil Accumulates in Pails

By AL ZABAS
Staff Reporter

Irregular collection and the resultant build-up of pails of human excrement in some Hillcrest area homes has reached such critical proportions that it has moved one Cannifton Rd. women to raise a petition to request assistance from Belleville city council Monday.

Yvonne Boomhower, a wife new with three children, claims the night soil at the home she rents has not been picked up in five weeks. Only once since before Christmas has the man, under contract with the city, been to the Cannifton Rd. home.

The night soil collection is under a reported $600 monthly contract with the city to serve areas in Hillcrest that are without immediately available sewer lines. He is one of a limited few who still provides the service.

Though only 2½ pails of excrement are currently stored at her dwelling, Mrs. Boomhower says several homes in the Hillcrest area have accumulations of six to seven pails.

This, she said, she discovered while knocking on doors to gather names in support of her contention that the existing situation is "intolerable". It will pose serious health problems with those homes coming of warmer weather.

As of late yesterday, 57 people had signed the petition, endorsed by People Against a Contaminated Environment (PACE).

It will be submitted to council by Mrs. Boomhower, who is continuing to gather supporting signatures this weekend. Along with the petition, a brief, prepared by PACE representative Clarence Young, will be presented on Monday.

But she's been lucky, she said. Otherwise the size of her collection would be much larger than it is.

"My boys are able to use a nearby gas station toilet."

The problem, says Mrs. Boomhower, has arisen not only for herself but for other Hillcrest residents since the city stopped collection of night soil at those properties that front upon recently completed sewer lines.

Although her home fronts on the Cannifton Rd. sewer, her landlady cannot afford the installation costs of a hook-up from the street line to the house, she says. Since the house is without a septic tank, Mrs. Boomhower must depend upon the independent contractor.

Hillcrest lots without immediate potential for sewer servicing are being looked after by the city "on a contract basis" — either a weekly or an as-needed basis.

City engineer Wilbur Purcell said Friday those homes bordering on lines are not being provided with a removal service. Pick-up was discontinued by the city Dec. 31, 1973.

However, he said Hillcrest residents were twice made aware the city would withdraw service — once in late August and again in December.

The initial notice told residents of newly serviceable lots that in order to allow time for completion of their sewer hook-ups, the city's collection service would continue to Dec. 31. The second, December notice, advised homeowners that if their hook-up was not complete by that date, they should make their own arrangements for removal with either a private contractor or the city engineer.

Mr. Purcell said the city has been encouraged to contact homeowners with the possibility in mind that he would receive additional business.

However, Mrs. Boomhower claims she has made repeated efforts to provide for her own night soil pickup, with few results.

"I told him to name his price," she said, "I'd pay him anything to get it away. He says he'll come, but doesn't show up."

Ken Brooks, Hillcrest Ratepayers Association president, has also made such attempts, but says repeated requests to city officials have produced no results in the last two weeks. Mr. Brooks, who lives on College St. East, has no sewer frontage and cannot install a septic tank. He waits with seven pail pails.

He said Friday complaints from other Hillcrest residents have come to his attention. But they, like himself, have had difficulty getting pails removed.

Mr. Purcell said yesterday, it was equally difficult for his office to contact the contractor.

"It's almost impossible to find him," he said.

Mayor Robin Jeffrey has assured Mrs. Boomhower concerning Mrs. Boomhower's plight. She specialized yesterday that it might be necessary to change the contract.

"We have a responsibility to these people who have sewers," she said. "We're looking into possible solutions, but it takes time. It's very difficult to solve the problem."

Marble Industry Comes to Picton

PICTON — A new industry, The Marble Veneer Company of Canada Limited, will locate this spring at Loch Sloy Industrial park in Prince Edward County.

The company will receive an Ontario development corporation loan of $275,000 toward cost of setting up manufacturing operations.

Announcement of the coming industry was made here Friday by James Taylor, MPP Prince Edward-Lennox, William Duggan, director of economic development for Prince Edward and W. E. Hodges, president of the new company.

The company has developed a new method of producing marble veneer for interior wall applications and for luxury furniture and bathroom fixtures. There is a wide Canadian market for this product and the company hopes to export to Chicago and elsewhere in the United States.

Marble Veneer is expected to employ 21 workers in its first year. An additional 30 jobs will be provided within five years. As many employees as possible will be hired from this area.

Mr. Hodges said he expects several women will be hired by the company. Hiring will take place as the operation develops.

Mr. Taylor said the ODC performance loan to Marble Veneer is one of the last of its kind to be authorized by the Ontario government. Performance loans are interest-free and may be forgiven over six years if the company performs to ODC agreements.

"The province is certainly happy to participate in a meaningful way," commented Mr. Taylor referring to the ODC loan.

"The company established by Mr. Hodges is exciting indeed. He is most inventive," said Mr. Taylor.

It will be the company's main plant in Canada. Head office will be in Toronto.

Also at the announcement conference were Prince Edward warden Keith MacDonald, George Foster, Sophiasburgh reeve and economic development committee chairman; Harvey J. McFarland jr., Loch Sloy industrial park, and Earl Morrison, of Napanee.

Warden MacDonald stressed the need for industry in the county.

He said Loch Sloy industrial park offers sites to interested prospects and plays an important role in community development.

Reeve Foster said as Prince Edward develops industrially thought should be given to planning of a subdivision for new residents.

Mr. Hodges said his company is a clean industry and will in no way contaminate the environment. Primarily, electric energy will be used and adequate power is available at the industrial park.

The new industry is the fifth to locate at Loch Sloy park in the past 18 months.

Stephens-Adamson Gets Big Contract

A $2-million contract for the engineering, supply, installation and commissioning of an automated material handling system to load rail-cars with coal from the Langan mine near Sydney, N.S., has awarded to Stephens Adamson Division of Allis-Chalmers Canada Limited by Dosco Overseas Ltd. for the project are Montreal Engineering Company Limited.

The system will include a scalping house where rock will be separated from the coal, and a 3,000-ton capacity storage silo with four vibrating feeders. A seven-storey high screening and crushing building and a train loading station with a conveying plant will complete the system.

Coal will be carried through the system at up to 1,800 tons per hour. Stephens Adamson belt conveyors varying from 42 to 54 inches in width. An estimated 1.5 million tons of coal will be produced annually. Most of the coal will be supplied to the nearby Sydney Steel mills.

Engineering and manufacture of components for the new conveyor system will start immediately at Stephens — Adamson's Belleville plant.

A substantial portion of the contract will have a Maritime content. Stephens-Adamson has awarded the structural steel sub-contract to a prominent Maritime fabricator.

Erection of the system is due to start in July. Commissioning is scheduled for mid-November.

Commission Will Check Payments

The Belleville Utilities Commission will under-take a survey to discover procedures followed at city banks and trust companies in handling bills paid by utility customers.

PUC manager Neil Britton said Tuesday, the survey is intended to provide commissioners with information upon which to base a decision whether utility customers as a whole are going to subsidize those paying bills at banks and trust companies.

During yesterday's commission meeting, Mr. Britton said, "The commission has to decide whether or not we're going to pay the collection charge."

At present, utility customers can settle their bills other than at the commission's Front St. offices. Mr. Britton said approximately 70 per cent of the comission's 12,000 accounts are paid at its offices.

"We're going to find out what the existing situation is," he said.

The results of the survey will be presented to the commission at its March meeting.

Math Contests Held

The annual Junior Mathematics Contest sponsored by the University of Waterloo were held March 1, with students from most schools in this area competing.

Among the 50 entries from BCI this year will be about a dozen elementary school students, top scorers in the BCI this year were about BCI math contest held early in February. The elementary students competed with students up to the grade 11 level.

In 1972, the new 67 contest was won by Loyalist College in Kingston, with Moira and Bayside the runners up. Centre Hastings came fourth and BCI sixth. Some 67 comprises 19 schools from Bancroft to Picton and from Trenton to Kingston. About 20,000 students from 1,000 schools across Canada entered the contest last year, with the over-all championship being won by a Winnipeg school.

The senior math contest will be held March 12, sponsored by the Society of Actuaries, the Mathematical Association of America and Mu Alpha Theta. Last year BCI was the top school in Hastings county.

Students Tune In

Students tuned into the keyboard sounds of Rotary Music Festival adjudicator Christopher Elton at Belleville Collegiate Institute during one in a series of three workshops held in the city Friday. With hand on the piano, Trenton's Cindy Blisdell listens attentively as Mr. Elton demonstrates a point with the touch of fingers to ivory keys.

Trenton Bureau

Trenton House Taxed More

By COLIN BRUCE

It seems council's capital budget slashing session was more for the benefit of the press than the public.

Seven of nine city council discussed a proposed capital budget that could spell an 11 mill increase to Trenton taxpayers.

Councillors started crying after the story hit the public and began trying to overturn to break the press' pencil points.

We're going to cut it, they shrieked. And indeed, in an air of righteous indignation, we could never burden the taxpayer in such a fashion.

When the great news finally came, the mere 11-mill increase was slashed to 9.547 mills and as it stands the average Trenton homeowner is still receive more taxes than his Belleville counterpart.

Over the next five years, Trenton's capital budget is going to force the mill rate up 50 mills.

In terms of dollars and cents for Trenton's average house (through assessment) taxes will top $650 annually. At present taxes on the home is assessed at $3,500 are $497.

In Belleville, the average homeowner assessed at $10,000 — is paying $451 annually.

During the clipping session that cut $200,000 from the town's $1½-million capital project dream, the scissors were used sparingly and clumsily.

Rather than trimming everyone's budget slightly, the city fathers simply whacked it to parks and recreation projects, leaving the budget in half. Council, still desperate, completely slashed the library and hospital from the budget.

Still not good enough, but with no ally left in room, council rather than cutting any more, just transferred $40,000 from capital to current.

Now you see it, but now you don't. You will in the spring when two mills are stuck into current budget to cover it.

According to the town treasurer, council is hoping for a current budget surplus that will — at the end of the year — cushion the capital budget hike.

Capital budget is going up and surpluses aren't expected.

That's how it stands. Higher taxes are what you're left with.

Crash Injures Five People

SHANNONVILLE — A 2-year-old Belleville girl remains in Kingston General Hospital today in serious condition with a fractured leg, head and possible internal injuries following a two-car, head-on collision on Highway 2, two and a half miles east of here Friday.

Three members of her family and a Belleville man remain in Belleville hospital in fair condition.

A hospital spokesman said today the condition of Annette McQuaid, 2, of 59 Prince of Wales Dr., Belleville, is unstable. She was rushed to Kingston from Belleville where she was listed in serious condition.

The girl's father, Francis McQuaid, 33, was admitted to hospital with a fracture of the right leg and lacerations. His wife, Mary, 31, also remains in fair condition with lacerations, mostly to her face.

Another child, Yvonne, 7, remains in hospital today with head injuries. Jerome, 8, and Michelle, 4, were treated and released from Belleville hospital last night.

Driver of the second car, Steven Soldier, 25, of 298 George St. is listed in fair condition in the intensive care unit with head injuries and a fractured leg.

Truck Damaged

GILMOUR — Franklin Scaife 25 RR 1 Gilmour escaped injury when his state truck sustained $500 damage in a mishap on Tudor township's 18th concession two miles east of Highway 62 Friday.

Ageless Words

At 92 one of the oldest dwellers in Hastings Manor, Edward Hogle reads ageless words to his fellow residents Friday. He gave them at the World Day of Prayer service held at the county home for the elderly in Belleville.

Education Beat

Schools Drag On Economy

Are we educating ourselves into inflation?

Evidence is piling up that education is one of the factors responsible for spiraling inflation and the subsequent drop in the standard of living.

Take Britain for example.

It's an over-simplification to blame the sorry state of that country's economy on the growth of post-secondary institutions. But it is a factor, say economists. A larger number of people than ever before in the history are enrolled in Britain's post-secondary institutions, thus removing them from the productive work force. Britain no longer has sufficient skilled labor to meet its backlog of factory orders.

Germany took a different course after the war. While Macklavellian cunning it refused to build more universities, to limit the demand of an increased population. As a result, a lower percentage of high school graduates than ever before get into universities. And don't even try to go the high school route. They switch on an educational stream that leads them into skilled trades. The German economy is buoyant, the envy of Western Europe. It was tough on the individual. A 95 per cent average is required, and the entrance exam to a West German medical school.

The German philosophy made its government's policy palatable to its people. Germans are conditioned to put the state's interests (they call it "society"), first, that of the individual second.

The British philosophy puts more emphasis on the welfare of the individual, hence the proliferation of university institutions. But in an effort to give every deserving student an opportunity for the best education available, it is also could absorb.

North Americans are even more oriented to the rights and welfare of the individual. Macklavellian cunning it refused to build more universities, to limit the demand of an increased population. As a result, a lower percentage of high school graduates than ever before get into universities. And don't even try to go the high school route. They switch on an educational stream that leads them into skilled trades. The German economy is buoyant, the envy

Transports Hit

TRENTON — Two transports were involved in a rear-end collision at 4:45 a.m. Friday morning on Highway 401 near here.

An estimated $40,000 damage was done to the two tractor-trailers owned by Durham Transport of Colbourne and Day and Ross.

One of the drivers was treated at Colbourne Hospital for minor cuts and bruises.

The accident occurred east of Percy Street at Colbourne.

Outlay of $3.49 Got Ross Brooks His Big Chance

BOSTON (AP) — Just three years ago Ross Brooks, out of a job at 23, and his wife, invested $3.49 and did some letter writing rather than seek unemployment benefits.

Today they're reaping dividends while he serves as a part-time, backup goalie with Boston Bruins of the National Hockey League.

Brooks' rags-to-riches saga reached a new high Thursday night when he emailed an old NHL record for the most consecutive victories by a goalie as the Bruins beat Detroit Red Wings 8-1.

Brooks had 28 saves as he posted his 14th consecutive victory to goal, tying the record set by all-time Boston great and Hall of Famer Tiny Thompson in the 1928-30 season.

No one ever expects Brooks to join Thompson in the Hall of Fame. He's still No. 2 with the Bruins, used mainly to give Gil Gilbert, 12 years his junior, an occasional rest. However Brooks does have a shot at the Calder Trophy as NHL rookie of the year-at age 26.

Brooks came out of Canada's junior ranks in 1968, but nobody really was interested in him. He played only five pro games while bouncing around until joining the Rhode Island Reds of the American League in the 1994-95 season.

He spent most of the time on the bench for six seasons with the Reds, then was given his release. He vividly recalls that day, and the decision he and his wife made to write to clubs.

"We spent $3 on stamps and 49 cents on paper," he said. "A friend fixed me up with the letters and we mailed them out. One letter went to Murray Davison at Oklahoma City. He called that afternoon. I heard from eight clubs in all but by then I was long gone."

Oklahoma City was Boston's affiliate in the Central League. The Bruins decided to move Brooks the next season to the Boston Braves in the American League.

"I coached him with the Braves in 1970-71," Bruins' Coach Bep Guidolin recalled. "We needed a guy to tutor young Butch (Dan) Bouchard, now with the Atlanta Flames.

"I played Brookie in a few games and he looked like another Johnny Bower. So I just kept playing him."

With the departure of goalie Gerry Cheevers to Cleveland in the World Hockey Association, Brooks was given a chance with the Bruins last season, however, he was plagued by injuries and played only 18 games, compiling an 11-1-2 record as a starter. He's 14-1 this season.

"The record is great for Brookie," Guidolin said. "He loved the game and stayed with it. I'm happy for the guy. He's been a long way. He played in the minors for a long time for practically nothing."

Brooks says he got a big break when Cheevers left, but maybe the biggest break of all was that investment of $3.49 for stamps and stationery.

Guidolin said that Brooks played "a helluva game" against Montreal. But he didn't say whether he would send him back into the nets again for the day's return contest with the Wings. In another afternoon game today, Buffalo Sabres are at Philadelphia against the Flyers.

In tonight's schedule, California Golden Seals meet the Canadiens in Montreal, New York Islanders visit Toronto Maple Leafs, New York Rangers go to Minnesota to meet the North Stars, Vancouver Canucks face Pittsburgh Penguins and the St. Louis Blues play the Kings in Los Angeles.

Sunday afternoon the Red Wings oppose Chicago Black Hawks. In night games, Montreal is at Philadelphia, Toronto at Boston, California at New York Rangers, the Islanders at Buffalo and Vancouver at Atlanta.

Welland Rink Leads

SARNIA, Ont. (CP) — George Morrissey's Welland rink leads in the Ontario Curling Association mixed championship after five rounds of action in the three-day, seven-round event.

Morrissey posted three wins Friday and has a 5-0 record. The Oshawa entry, skipped by Brian Saddlard, also had three wins. Oshawa is in second place with a 4-1 record.

Dave Van Dine's Ottawa rink remained in first on three games and fell to third place at 3-2.

Tied at 2-3 are the rinks of Paul Stone of Cambridge, Ron Turnbull of Toronto-Lambton, Bob Benney of Stroud, and Mel Morrison of Kingston-Garrison.

In last place is Ken Buchan's London entry with a 1-4 record.

The Ball's the Thing

Guiseppe Wilson of Italy goes through some highflying acrobatics as he defends against West Germany's Paul Breitner in an exhibition soccer match at Olympic Stadium in Rome. The teams played to a scoreless tie in the game, described as a test between two top favorites for the World Cup in Germany next June. (AP Photo).

Americans Increase Margin at the Top

By THE CANADIAN PRESS.

Rochester Americans have secured a little breathing room in the North Division of the American Hockey League.

The Americans outshot New Haven Nighthawks 43-28 in taking a 6-4 victory Friday night which gave them a six-point lead atop the division over Providence Reds.

The Reds have 74 points, two more than the Nighthawks and six ahead of Nova Scotia Voyageurs.

In other games, Springfield Kings upset Baltimore Clippers 4-1 and Cincinnati Swords tied Richmond Robins 2-2.

Americans 6 Nighthawks 4

The Americans took a 4-1 first-period lead before 7,202 home town fans, then added two more goals in the second for their 33th win in 61 games.

Larry McKillop paced the winners with two goals while Rick Pagnutti and Ross Bigler, Ron Dunsmore, Murray Kilmin added the others.

Jerry Byers had two goals for New Haven and Blaie Dunlop and Al Langlais not one each.

Kings 4 Clippers 1

The Kings scored three goals in the third period to defeat the Clippers before 2,453 fans in Springfield.

The defeat left the Clippers tied for second place with Hershey Bears, both with 74 points, in the South Division. Cincinnati leads with 78.

Pete Kinch, Gordie Smith and Bryon Baltimore scored in the third period to give Springfield its second straight win. The fifth-place Kngs, however, have little apparent chance to take a playoff berth in the North as they trail Hershey by 12 points.

Pete Harasym got Springfield's other goal and Dave Gilmour, the 26th, scored for Baltimore.

Swords 2 Robins 2

A goal by Billy Inglis at 12:46 of the third period gave Cincinnati the tie.

Jim Nichols put Cincinnati ahead in the first period but Serge Lajeunesse tied it at 12:31 of the second and Larry Keenan of Richmond a 2-1 lead at 19:26 of the period.

Attendance was 2,233 in Cincinnati.

HOCKEY TIPS

By BOBBY ORR
Copyright 1974, Toronto Sun Syndicate

WINNING FACE-OFFS MEANS WINNING GAMES

For such a harmless looking play, winning the face-off is one of hockey's most important skills.

Many times in crucial situations, a lost face-off in your own zone quite often results in a winning goal for the opposing side.

Bobby Clarke

Look back for a moment, and you'll recall how inevitable Bobby Clarke's success at winning face-offs against players from the Soviet Union meant to Team Canada.

And when it comes to winning face-offs, Clarke, Philadelphia Flyers' fine centre, is one of the best in professional hockey. He's a specialist.

The key to winning face-offs is concentration: watch the puck in the hand of the official. Follow it when it is dropped then you must have the determination to beat your opponent to the puck.

Others to watch in face-offs are Derek Sanderson, Walter Tkaczuk, Lou Nanne and Dave Keon. These players not only have a knack for winning the face-off but are also capable of covering up if by chance they have difficulties beating their men cleanly.

In such cases, Sanderson and Tkaczuk especially have a habit of brushing the puck to the boards, in effect they spoil the face-off.

Work at face-offs constantly. Practise taking shots on goal from face-offs both with your forehand and your back hand. Practise drawing the puck to your wingers and to your point men.

Face-offs aren't fun to practise but you won't lose many games if you beat the other team to the draw throughout the season.

Anderson and Carlin Proving Their Worth

By THE CANADIAN PRESS

Two players not considered regulars at helping Edmonton Oilers earlier this season demonstrated in a 5-2 victory over Houston Aeros Friday night that they have a future in pro hockey.

Ron Anderson and Brian Carlin, who played all last season with the Oilers and were subsequently this season to Winston-Salem Polar Kings of the Southern Hockey League, where they earned berths on the SHL second all-star team, came back to Oilers when injuries racked the parent club.

Anderson earned assists on the second-period goals and Carlin scored his first goal on a penalty shot with 18 seconds remaining as Edmonton snapped within one point of the third-place Winnipeg Jets in the Western Division.

The Jets took a 4-0 whipping from Minnesota Fighting Saints and Chicago Cougars thumped Cleveland Crusaders 7-4 in the only other games.

EDMONTON 5 HOUSTON 2

Carlin's success was the first in nine penalty-shot attempts in the WHA season. Ron Climie, Al Hamilton, Ross Perkins and Len Lunde also scored for the Oilers, who were sadly outshot 40-26 but received solid netminding from Jack Norris.

Rookies Andre Hinse and Jim Sherratt tallied for the Aeros runaway leaders in the Western Division.

Edmonton has four games in hand on the Jets.

MINNESOTA 4 WINNIPEG 0

Goaltender Mike Curran blocked 41 shots as Minnesota posted Winnipeg its second shutout goal was fired by Wayne Connelly, his 12th of the season, after less than two minutes of the first period.

Mike Walton, Jim Johnson and Gord Gallant also scored for the Saints, the hottest club in the Western Division. It was the second shutout defeat in a row for the Jets.

CHICAGO 7 CLEVELAND 4

Bob Liddington of the Cougars broke a 4-4 tie late in the third period and his mates scored two additional goals before time ran out.

Rosaire Paiement led the winners with two goals. Bob Sicinski, Ralph Backstrom, Duke Harris and Don Gordon fired the others against Cleveland reminder Gerry Cheevers.

Cleveland's marksmen were Doug Brindley, Gary Jarrett, Bob Heaslip and Rick Dudley.

It's Valiquette Night At Sault Ste. Marie

By THE CANADIAN PRESS

It was Jack Valiquette Night at Sault Ste. Marie Friday, and the star of the Soo Hockey association Major Junior A contest between Sault Ste. Marie Greyhounds and Oshawa Generals turned out to be none other than Jack Valiquette.

Valiquette, the circuit's leading scorer, scored once in each period to lead Sault Ste. Marie to a 7-4 victory over the Generals before 3,285 fans.

He received various gifts from local merchants at the end of the first period.

Valiquette now has 58 goals for 128 points in 61 league games.

Cary Farelli added two goals for the winners, with Lorne Jarrett and Charlie Simmer adding the other Sault goals.

Bud Stefanski scored twice for the Generals.

Bill Lochead and Addy Whitby got the other Oshawa goals.

Sault Ste. Marie outshot Oshawa 43-32.

In other league action Friday, Ottawa 67s and Kitchener Rangers played to a 7-7 tie, Kingston Canadiens beat Hamilton Red Wings 5-3, and Sudbury Wolves defeated London Knights 8-2.

Ottawa 7 Rangers 7

Paul Evans scored three goals for Kitchener in the game played at Ottawa.

Tony White, Peter Sturgeon, Ron Sedlbauer and Jerry Bauduck scored the other Kitchener goals.

Jim Roberts and Tim Young each scored two goals for Ottawa, with Peter Lee, Dave Baker and Kevin Kemp scoring the others.

Ottawa outshot Kitchener 42-26 before 5,337 fans.

Canadiens 5 Red Wings 3

Brad Rhiness scored two goals to lead Kingston to victory over last-place Hamilton.

Larry Murphy, Roger Dorey and Mike O'Connell scored the other Kingston goals.

Ron Rogers, Greg Hickey and Brian Jones scored for Hamilton.

The game was played at Hamilton.

In today's only league game, St. Catharines plays the Marlboros at Toronto.

Sunday, Kitchener plays in Toronto, Ottawa travels to St. Catharines, London plays in Sault Ste. Marie and Oshawa takes on the Wolves in Sudbury.

Top Drubs Bottom In QMJHL Contests

By THE CANADIAN PRESS

Sorel Black Hawks and Quebec Remparts, the top two teams in the Quebec Major Junior Hockey League's Dilon Division met the bottom two teams in their division Friday night and won.

Sorel hammered fifth place Trois-Rivieres Draveurs 8-4 while Quebec took a 13-4 verdict from four-place Chicoutimi, Saguenay.

In other games, Montreal Bleu Blanc Rouge fell Provincial 6-4, Sherbrooke Beavers defeated Drummondville Rangers 10-2 and Laval Nationals scored a 12-3 win over Shawinigan Cataractes.

Marcel Dumais scored three times and Fernand Leblanc added a pair as Sherbrooke drubbed Drummonville in a game saw 196 minutes in penalties assessed.

Denis Martel, Sidney Veysey, Richard Dubreuil, Michel Brisebois and Dwayne Byers got the other Sherbrooke goals.

Dennis Francoeur and Jacques Chiasson scored for the Rangers.

Sunday, Quebec plays host to Sorel, Drummonville visits Montreal, Trois-Rivieres goes to Hull, Shawinigan goes to Chicoutimi and Sherbrooke plays host to Cornwall.

QHL Games Wednesday

Quinte Hockey League semi-final playoffs will resume at Memorial Arena Wednesday night next week.

As was the case last week, the QHL teams will move out of their regular Thursday night slot to make way for the Metro Junior B Hockey League semi-final playoff game between Pickering Panthers and Belleville Bobcats.

Belvedere Hotel and Reid's Dairy will hook up in the 8.15 p.m. game Wednesday while Cornerstone Engineering and Stinson Construction meet in the second half of the twin bill.

Umpires To Meet

Persons interested in calling the shots during ball games in the district this year are invited to attend a March 17 meeting at the Recreation Centre on Pinnacle St.

The Belleville and District Umpires' Association has a St. Patrick's Day meeting scheduled and according to association president Al Kelsey, some new faces would be welcome.

Naturally, interest alone doesn't make an umpire. But the place to start is at the pre-season sessions held by game officials.

The meeting is scheduled for 7 p.m.

Tim Yohn Belleville Bobcats' stalwart defenceman wards off Jim Wells of the Pickering Panthers in last night's opening game of the Pickering - Belleville semi-final series. Both Yohn and Wells scored once for their respective teams as the Bobcats went down to a 6-1 defeat.

Algonquin, St. Lawrence To Championship Final

St. Lawrence College, Kingston, and Algonquin, Ottawa, will meet this afternoon to battle for the Eastern Ontario College Athletic Association men's basketball championship.

Kingston earned the right to advance to the championship game by way of their 102-58 victory over Sir Sandford Fleming, Lindsay in the semi-finals played Friday at Loyalist.

Algonquin defeated the host team of the EOCAA championships, Loyalist College, 91-71 in their semi-final match-up.

Mike Dowling was top shooter for the Kingston squad with 31 points. Teammate Dave Dundon wasn't far behind him hooping 20 points. Dave and Kim MacKenzie were next with 13 each.

Keith Ebbs got 18 points for Sir Sandford Fleming while Rick Blackwell and John Wilson each had 10.

The Loyalist College squad lost their contest in the first half.

Loyalist was outscored by Algonquin 45-27 in opening two quarters.

In the second half, however, the local college team was outscored by a mere two point margin, 46-44.

Jim Norris led the Ottawa attack with 18 points with Mike Zorro and Larry Trenholm adding 14 each.

For Loyalist, Harvey Sharpe was tops, scoring 25. Dave Chaney had 15 points, Jim Sutton 13 and Bill Kyle 12.

The winner of this afternoon's Ottawa-Kingston game at 4.30 will have earned the right to advance to the provincial finals in Windsor.

Also included in this afternoon's events is a consolation contest at 2.30 between the two semi-finalists Loyalist and Sir Sandford Fleming.

Rick May Heads Softball Loop

Rick May was elected president of the Belleville Industrial Softball League at a Thursday night meeting.

Other officers elected for the 1974 season are Larry Silverthorne, vice-president; Norm Tetlock, secretary; Larry Mason, treasurer, and Bob Cooney, registrar.

It is expected a meeting will be called in the near future to ideal with team entries, rules, constitution and ball diamonds.

Northern Electric Keeps Share of First

In Belleville Broomball League play Friday night, at Dick Ellis Rink, Northern Electric retained it's first place tie with the Rovers by defeating Union Carbide 4-0.

Northern had been in sole possession of first place until their 2-0 loss to Brooke Bond Thursday. The Rovers combined Northern's loss with a 2-1 win of their own Thursday to pull into a tie for first.

Friday, the Rovers won again defeating Brooke Bond 4-0.

Larry Lapointe, Manuel Mostez, Gary Koss and Neil Brown did the scoring for Northern in their victory last night.

For the Rovers, John Paul and Eric Johnston tallied two apiece in their team's 4-0 win.

Friday night at Dick Ellis Rink at 8 the Rovers and Northern will battle it out for first place as the season comes to a close. The second game of the evening states Union Carbide against Brooke Bond.

John Sm[illegible] of Picton finds the going rough as he t[illegible] the visiting Algonquin forward Robert W[illegible] team's the only Loyalist shooter who wasn't successful in [illegible] shots as Algonquin defeated the local squad in the Loyalist gym Friday 91-71.

Panthers Prove Opportunists, Capture Series Opener 6-1

By MIKE BRADSHAW
Sports Staff

Pickering Panthers soundly defeated the Belleville Bobcats, last night, 6-1 in the first game of their Metro Junior B semi-final series.

The score indicated a sound defeat, but neither of the teams' coaches agreed with the indication.

Stan Hunter, the Pickering coach, said, "it was a much closer game than our five goal margin suggested. We're sure the same type of teams in the style we have adopted for playing. What really hurt Belleville were the late period goals we scored. It forced them to come out and gamble, giving us more opportunities."

Moe Hunter, the Bobcats coach, believes his team "will beat the Panthers when they meet in the Memorial Arena Sunday night. Pickering is a good hockey club and they're very well conditioned. We skated with them and matched them for about 55 of the 60 minutes we played."

Hunter added, "They scored five of their goals in five different one minute time spans when we had stopped checking them. We've got to stay on top of them for the entire 60 minutes the way they did with us. Then we'll be on the top half of the score."

The Bobcats and the Panthers battled their way through a fascinating first period of hockey. The hard checking, and end to end play, that both teams incorporated, captivated the crowd throughout the entire 60 minutes. Respective chants of GO TEAM GO reared through the Don Beer Arena.

Belleville's goalie, Bruce Clark, was phenomenal during the contest. Twice during the opening minutes of the first period Bruce stopped Pickering attackers on breakaways.

There's one thing I'm sure of," said the Panthers coach, "that kid in the Belleville net is one hell of a goaltender."

The first period was the easiest for Clark. In it he only had to stop eight Pickering shots — four of which were labelled goals.

In the second period, Clark was called upon 19 times and in the third the Panthers fired 18 shots at him.

Pickering outshot the Cats 47-36.

The Panthers took a 1-0 lead at the end of the first. As a matter of fact Pickering scored their goal with just 13 seconds remaining in the period.

Hank Bothfeld scored the opening goals of the game on a beautiful individual effort.

Just 37 seconds into the second period Kevin Owen made it 2-0 Pickering.

The two teams battled fruitlessly for much of the remaining time and only short checking lapses on the part of the Bobcats allowed the Panthers to score in the final estimate of the period.

At 19:51 Bernie Saunders combined with Gary Murphy and Jim Snetsinger to put the home team ahead 3-0.

Within a 22 second span in the third period the Panthers had jumped the score to five. Owen and Jim Wells were the Pickering marksmen on those two.

A few minutes later, Tim Yohn slapped in a rebound on a Belleville power play for the first and only Bobcat goal.

Ron Davidson rounded out the game's scoring at 6-1 on a Pickering power play.

"It was a game where all the breaks counted," said Hunter, "we played just as well as they did, but they capitalized on all of their chances and we didn't."

The Panthers took seven of the game's 11 penalties.

Sunday, Pickering is in Belleville for the second game of the series. Game time is 8.30 p.m. at the Memorial Arena.

Second Game — Sunday, 8.30 p.m., Memorial Arena, at Belleville.

Trenton Meets Bay Ridges Or Lindsay

TRENTON — Blet's Handy Stand Juveniles, defending Ontario Minor Hockey Association AA champions, are awaiting the winner of a playoff series between Lindsay and Bay Ridges, before continuing the hunt for the 1973-74 title.

Second round play is scheduled to open this Trenton Tuesday night with either Bay Ridges or Lindsay supplying the opposition. Game time is 9 p.m.

The Lindsay-Bay Ridges best of three-set, tied 1-1, will wind up in Lindsay, Sunday night. The Trenton team put Kiwanian Township on the sidelines in four straight games in its first playoff test.

As a tuneup for the important Tuesday game, Blet's has an exhibition contest scheduled for the Community Gardens here Sunday night at 9 o'clock with Whitby-Brooklin the visitor.

Playing ahead is Blet's Sunday, will be Dale Ice Products Midgets who will meet Kingston Township in OMHA first round playoff competition at 7 o'clock. Kingston leads the best of five series 2-1.

Best Since Turpin?

A triumphant Larry Paul raises his hands in victory after beating Bobby Arthur last May to win the British light - middleweight championship. Paul, considered by some to be the best Britishborn boxer since Randy Turpin, now has his sights

Paul Confounds the 'Experts'

LONDON (CP) — Larry Paul's opponents have come to rest the day he was passed up by the selectors for Britain's 1972 Olympic boxing team.

Deprived of his trip to Munich, the British amateur lightmiddleweight champion turned professional and has won all his bouts since, most of them by knockout.

He won the British professional title last May, knocking out Bobby Arthur in the 10th round, and has been named top contender for the Commonwealth crown, held by Charley Hanson of Australia.

Paul's manager, Alex Griffiths, has also issued a challenge to Jacques Kechlican, the European titleholder, and is attempting to line up a bout in Paris.

Paul has come a long way from 1972, when he was not even invited to take part in a trial bout for the Olympic team, even though he held the amateur title.

Alan Minter, the man who was chosen, won a bronze medal at Munich.

"But who can say I could not have done better?" Paul said. "After all, I've boxed Alan twice and we had won one bout each. I still think I was badly treated but perhaps it has happened for the best."

As an amateur, Paul had his best year in 1967 when he defeated Sam Nesmith, the United States Golden Gloves winner, and scored a second-round technical knockout over Manfred Wolke of East Germany shortly after Wolke had won the Olympic gold medal at Mexico City.

It took him eight bouts in eight months to win the British title after he turned professional.

His first opponent, seasoned Welshman Les Aroh, lasted less than a round. Three of his next six victims failed to go the distance and Arthur, who had taken Paul on as a sparring partner less than a year earlier, was dropped by a right to the chin in the 10th round.

"I always knew I could lick Bobby," Paul said. "But I had nothing to chance. I really worked for that one."

Assault on Records Expected at Meet

VANCOUVER (CP) — A birthday girl and her playmates from a country ranked somewhere between Albania and Yugoslavia as a sporting power has just a few years ago are the stellar attraction this weekend at the 11th annual Dolphin Invitational Swim Meet.

Gudrun Wegner, who turned 19 Thursday, and her three East German team-mates are the reason most observers are expecting a bundle of records to fall at the meet, which begins today and winds up Sunday.

East Germany is ranked just behind the United States in world swimming rankings, with Australia third and Canada a fast-risking fourth, which gives rise to some worried speculation about the competition at this meet.

Miss Wegner is the world record-holder in the 400-metre individual medley, while 17-year-old Ulrike Richter is the former record-holder in the metre backstroke and Angela Franke, 18, is second in the world at the 400 individual medley. Rosemarie Kother, 18, is ranked first in the world in the 100-metre butterfly.

Probably the most exciting events will be the individual medley and the backstroke.

Wendy Cook of Vancouver is the new record holder in the 100-metre backstroke, settled her mark at the Commonwealth Games, and before against Miss Richter is expected to produce a fast time.

In the individual medley the competition should also be fierce, with Miss Wegner ranked first, meeting Miss Franke, slated second, and Leslie Cliff of Vancouver, third.

Also key ingredients in the heady mixture assembled for the girls' events in the competition are the members of the Santa Clara, Calif. swim club.

Miss Cook, whose poor performance at the recent Commonwealth Games that helped Miss Clark and the East Germans to send their swimmers on a one-way trip to North America.

Wolfgang Richter, the 37-year-old coach of the East German team, admitted it was Canada's proud boast, plus the system of rewards for national team swimmers, brought about the visit of the five girls.

"We try to give all our national team girls an international trip of some kind," Richter said. "At the 1970 Commonwealth Games we knew we had to send our best."

The East Germans will also be competing for their national championships, which are scheduled to begin in two weeks.

Almost lost in the excitement over the girl swimmers is strong competition in the men's events, with freshwater swimmers including 100-metre butterfly world record holder Bruce Robertson of Vancouver and backstroke specialist Stephen Pickell of Vancouver, who set a Commonwealth record in the 100-metre event.

Competitors will be swimming in 28 events over the 25-yard shortcourse at the Canada Games Pool in neighboring New Westminster.

Top Acquisition for Expos

Willie Davis Getting Anxious

DAYTONA BEACH, Fla. (AP) — After their best record in history, Montreal Expos are swinging for "More in '74."

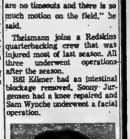
They might counted-of the "oldtimers" come through as expected and the youngsters come around as hoped.

The most celebrated addition to the Expos, of course, is Willie Davis—a longtime National League baseball star who will give the expansion Expos their first bona fide centre fielder in history.

Davis' acquisition was expensive for the Expos. They had to give Los Angeles Dodgers their best pitcher, relief star Mike Marshall.

Marshall was by far the Expos' most valuable player in 1973 and accounted largely for their high finish in the rugged National League East race.

The team was in the race until the last 24 hours and finished with a 79-83 record for fourth place, just 3½ games behind the winning New York Mets.



Expos are hoping to tighten up their defence down the middle, when they came up in the league," said Allen. "The three years Joe spent in Canada were profitable because he played and did not sit on the bench."

Theismann told reporters that he did not think it would be difficult to make the transition from Canadian to U.S. football.

"It's easier to go from the Canadian League to the NFL for three reasons: In Canada, you only get three downs; there are no timeouts and there is so much motion on the field," he said.

Theismann joins a Redskins quarterbacking crew that was injured most of last season. All three underwent operations after the season.

Bill Kilmer had an intestinal blockage removed, Sonny Jurgensen had a knee repaired and Sam Wyche underwent a facial operation.

JOE THEISMANN

Theismann Signs Three-year Deal

WASHINGTON (AP) — Quarterback Joe Theismann, who played for Toronto Argonauts in the Canadian Football League the last three seasons, has signed a three-year contract with Washington Redskins, it was announced Friday.

No money terms were announced but there was speculation that the 24-year-old Theismann would earn about $160,000 a year with the National Football League team.

"He's hungry to succeed," said George Allen, general manager and coach who gave Miami Dolphins the Redskins' first round draft choice in exchange for the rights to negotiate with the young quarterback. "I looked at nine films of Joe and I was impressed with every one of them."

"Joe reminded me a lot of Bob Griese and Fran Tarkenton

Worosz Blanks Flyers

BRANTFORD, Ont. (CP) — Jim Reid's goal with 31 seconds remaining in a 59-minute overtime period gave Brantford Foresters a 1-0 victory over Barrie Flyers in Ontario Hockey Association Senior A action before 324 spectators Friday. It was the only scheduled game.

The victory broke an eight-game losing streak for Brantford.

Stan Worosz stopped 27 shots to earn the shutout. Barrie's Ernie Miller faced 36 shots.

Jerry Heard Goes With What He's Got

ORLANDO, Fla. (AP) — Jerry Heard has abandoned a year-long search for perfection in professional golf and has made a decision to "go with what I've got."

And that was good enough to give the youngster from Visalia, Calif., a one-stroke lead over Jim Colbert, Jr., after the two rounds of the $150,000 Citrus Open.

Heard had a second-round 68 and his 135 total was nine-under-par.

Colbert, a former Kansas State football player, also had a 68, his second consecutive round at that score, and a 136 total.

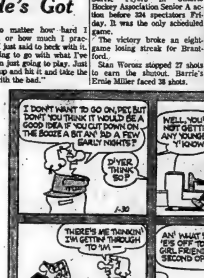
Arnold Palmer, however, experienced trouble with his putting and dropped back, He hit only seven of 18 fairways, bogeyed the last hole for a 73 and went from one stroke off the pace to six behind at 141.

Leonard Thompson, a winner last week at Fort Lauderdale, and Lanny Wadkins were one stroke behind Colbert at 137, Thompson got to within one stroke of the lead at one time before he made a bogey on the last hole for 69, while Wadkins charged into contention with a 67.

The group at 138 included Charles Coody, Bob Murphy, Richard Crawford and Terry Small.

Ben Kern of London, Ont., shot a 76 for a two-round 143 total. Will Hennessik of Winnipeg withdrew after shooting a 72 Thursday.

Lee Trevino took a 73 and just survived the cut for the last two rounds at 144. Jack Nicklaus, Tom Weiskopf and Johnny Miller are not competing.



Heard won one title and $112,000 in 1971, then stamped himself as one of the game's brightest young stars the following year. He won this tournament, the Colonial National Invitational and $137,000.

But last season he did not collect a title and his winnings dipped to $84,000.

"It was a frustrating season," he said. "I was experimenting with my swing. I wanted to be a good player, a really good one—the best. And I figured there were some things, I had to get out of my swing. I wasn't playing good at all.

"Finally I got fed up. I decided I wasn't going to be per-

BARRY FINED

NEW YORK (AP) — Rick Barry of Golden State Warriors has been fined $1,000 for bumping a referee, commissioner Walter Kennedy of the National Basketball Association announced Friday. The fine resulted from an incident in a game between Golden State and Cleveland last Feb. 9 in which Barry bumped referee Mark Winkelman during a dispute. Barry was assessed two technical fouls and ejected from the game.

LIONS LOSE TEMPER

OBERSTDORF, West Germany (Reuter) — A free-for-all on the ice Friday night forced the abandonment of an ice hockey match between Sweden Lions and a West German team midway through the second period.

The West Germans were leading 6-1 when the referee stopped the game in the 36th minute. West German news agency DPA, citing the all-professional Lions, consisting of Canadian, United States and Swedish players based in London, as a warmup to help the Germans prepare for the forthcoming world championships.

BIRTHS

WICKLUND and Tracey Lee are proud to announce the arrival of their sister, Barbara Louise, 8 lbs., 14 ozs., at Kingston General on Wednesday, February 27, 1974. The happy parents are residents of Hanson Pondre, 750 Highgate Park Road, Collins Bay, Ontario.

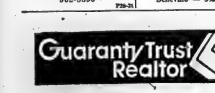
FORD — Mr. and Mrs. Lorne (nee Lavender) wish to announce the safe arrival of their son, Jason Lorne, on Thursday, Feb. 21, 1974, at the Belleville General Hospital. Weight 10 lbs., 6½ oz. Four grandchild for Gordon Lavender and great-grandchild for Mrs. Doris Fraser.

IN MEMORIAM

TEATERS — In loving memory of a dear husband and father, Steven Trayes who passed away March 2, 1973.
Many times we nearly miss him,
Sadly do we feel his loss,
Lonely is our home without him,
Next, on, Lord, to bear his cross.
—Always remembered by Wife, Jean, sisters and brother-in-law.

ARCHER — In loving memory of a dear friend, Mrs. Archer, who passed away March 2, 1973.
Not dead to us who loved him,
Not lost, but gone before.
Just gone a little space ahead,
And well meet once more.
—Always remembered by George and Monica Chabassol.

CARDS OF THANKS



We wish to express our sincere thanks to Dr. McVicar, the nurses and staff of the Extended Care Unit, Belleville General, for their many acts of kindness and care during the illness and passing of Elizabeth who will be laid at rest on Sunday, 3 School, Wednesday, March 6, 8 p.m. room 115. Mr. Gregg Wilson will speak on the subject "Communication" and will be serving tea and answering any questions. —Mar2-1t

ONTARIO HOUSING CORPORATION
requires an
ASSISTANT MAINTENANCE SUPERVISOR
Salary Range : $9,588 - $10,279

As Assistance Maintenance Supervisor, you will assist the Maintenance Manager by ensuring that your portfolio of Ontario Housing units within the Belleville area are properly maintained and kept in a good state of repair. Under the guidance of the Maintenance Manager, you will assume increasing responsibility for the preparation and implementation of programs of preventative and remedial maintenance, involving the preparation of scopes of work, certification of work undertaken by contractors and supervision of on-site staff.

QUALIFICATIONS :
Successful completion of at least two years of a Secondary School course of study in Building Technology and Trade, or Journeyman standing in a trade related to the Maintenance function and/or an acceptable combination of training and experience. General knowledge of maintenance trades, with a demonstrated ability to perform all minor repairs and renovations. This position is open to persons of either sex. Use of a car is essential. Detailed resumes and applications should be sent to the attention of Mr. William James, P. O. Box 82, Belleville, Ontario by March 20, 1974.

M-1-28

ONTARIO HOUSING CORPORATION
requires a
COMMUNITY/TENANT RELATIONS OFFICER
Salary Range : $8,434 - $9,883

As a Community/Tenant Relations Officer, you will assist the Manager of Ontario Housing units within the Belleville Area in all matters pertaining to relations between the Corporation, Applicants and Tenants. Under the guidance of the Manager, you will assume responsibility for coordinating social and recreational activities of tenants, assist families in settling into the environment of their dwelling and referral to community organizations and social agencies, interpretation of Corporation policy, leading and interviewing tenants and associations on mutual benefits, and such other duties as may be required.

QUALIFICATIONS :
Graduate from an accredited University with a major in one of the Behavioural Sciences, or a Community College in a related field and in addition to either of these, three years practical experience in community organizations and/or social work. Consideration will be given to individuals with secondary school graduation with many years work or related experience. A strong measure of self-motivation and the ability to work with all age groups in social, economic and recreational fields is also required. This position is open to both men and women. Use of a car is essential. Detailed resumes and applications should be sent to the attention of Mr. William James, P. O. Box 82, Belleville, Ontario by March 20, 1974.

Win at Bridge

Shark Sims acts by instinct

Both vulnerable

North	East	South	West
		2♦ (see article)	Pass
2♠	Pass	3♦	Pass
3♠	Pass	Pass	Pass

Opening lead—4♥

By Oswald and James Jacoby

Dorothy Sims, wife of Hal Sims and one of the great players, divided experts into two classes. The top ones were sharks. The lesser ones fresh-water sharks, who were never dangerous to the real tough ones like her husband.

Here we see Hal at work in a master-point game. His opening bid was a Sims three bid which asked for scrs. North's response showed the missing ace.

Hal was now able to count 12 top tricks and he felt certain that the Lord would provide the 13th so he went right to the maximum seven notrump contract.

Dummy was disappointing. The only way to get the 13th trick unless the king of hearts would be singleton was to locate the queen of spades, but this was duck soup to Hal who was playing against mere fresh-water sharks.

Hal knew that they would try to misdirect him. He won the club lead: cashed the second club and ace of hearts and then ran off diamonds. This made it easy for both opponents to see that they had to protect spades to the best of their ability.

The shark stalling West saw that he would have to concede down to the king of hearts and just two spades so he threw two spades very early in his discarding. Thus, he tried to look like a man who did not have a high spade. Hal promptly played him for her ladyship and made the grand slam.

The CARD Sense

The bidding has been:

West	North	East	South
			1♠
1♦	1♥	Pass	4♥
Pass	5♦	Pass	7♠

You, South, hold:
♠ A K 7 4 ♥ A 4 3 2 ♦ K 10 2 ♣ K 10 2

What do you do now?

— Bid five spades. You are going to a slam in any event. Maybe your partner will want to bid seven.

TODAY'S QUESTION

Instead of bidding one heart your partner has passed over the diamond overcall. East passes also. What do you do?

Answer Monday

Concept Won't Happen

EDMONTON (CP) — A University of Calgary professor says the concept of 1984 as envisaged by George Orwell in his book of that title won't happen in Western Canada. Dr. John Friesen told a teachers' convention that westerners have shown they will not accept a bureaucratic society unresponsive to society's needs.

THE UNEXPLAINED

by Allen Spraggett

By ALLEN SPRAGGETT

Monster pictures tend to be a dime a dozen and most are palpable fakes. But somebody has taken an underwater photograph of the famous Loch Ness monster that has the experts frankly shaking their heads.

They consider the picture the best evidence yet for what a growing number of investigators have come to suspect -- that there really is something huge, alive, and presently unclassifiable prowling the murky depths of Scotland's biggest lake.

Last year a Boston-based team of investigators who call themselves the Academy of Applied Science spent the summer camped on the shores of Loch Ness, determined to get to the bottom of "Nessie" (as the monster is called) then at least tangible evidence of her existence.

They got the next best thing to the monster herself -- a photograph of part of her anatomy.

Monster-watching at Loch Ness is a tedious business because though there have been hundreds of sightings, Nessie is shy and her sudden appearances tend to be brief and furtive. Therefore, the 12-man investigating team decided to invade her watery domain with an eye that never sleeps.

Using a special strobe camera developed by Prof. Harold Edgerton of Massachusetts Institute of Technology, they set a photographic trap for the monster under a large school of salmon.

On August 8, between 1:40 and 2:10 a.m., something slithered through the trap. A sonar record (made by bouncing sound waves off the target) showed what appeared to be two undulating objects, each about 30 feet long, with many smaller objects, assumed to be fish, scurrying away.

At the same time the strobe camera caught an amorphous shape that seemingly was rough-textured and greenish-brown in color.

One of the photographic images looked like the huge fin of some giant fish.

Scientists who've studied the photographs and the sonar record admit to being impressed.

"The sequence appears to show the passage of a large object ... that has the genuine underwater photographs," allowed J.G. Sheales of the British Museum of Natural History.

"The animal or animals in the photograph have a dimensional critera of approximately 30 feet," judged oceanographer Paul Skitt.

"The creature has several segments or projections, such as humps," commented underwater sonar expert Martin Klein of Salem, N.H.

The president of the monster-hunting Academy of Applied Science, Boston attorney Robert Rines, says he's convinced Nessie exists -- probably more than one for breeding purposes. There have, after all, been reports of the monster for at least 1,500 years and it's unlikely any creature could be that long-live.

What could the monsters (assuming they exists) possibly be?

The most likely guess is some sort of aquatic creature from the paleozoic age whose great-great grandparents got into Loch Ness millions of years ago before it was cut off from the ocean. The lake, 25 miles long and teeming with fish, is quite capable of providing sanctuary for a respectable family of monsters.

The notion of prehistoric sea serpents surviving into the 20th century is made more plausible by the startling discovery a few years ago of a fish coelacanth -- a fish thought to have been extinct for 30 million years. Since then, several specimens of this "living fossil" have been caught.)

However there are people who don't think the Loch Ness monster is really a monster at all.

There have been suggestions, apparently serious, that it's an underwater UFO lurking in the lake for mysterious purposes of its own.

An even more exotic theory comes from British writer F.W. Holiday who says the monster may be something more like a demon.

In June, Mr. Holiday took a Church of England vicar, the Rev. Dr. D. Orsnard, to Loch Ness to perform a rite of exorcism.

There are no reports of Nessie having been seen since.

Feature Times

Your Horoscope

By BERNICE SEDE OSOL
Sunday, March 3

Aries (March 21-April 19) If a disagreement should arise between you and a member of your family, settle things amicably before retiring.

Taurus (April 20-May 20) Responsibility will have to be handled early in the day before you'll feel free to relax and enjoy yourself.

Gemini (M ay 21-June 20) Youngsters will be very demanding of you today. It would be unwise to try pacify them with material "bribes."

Cancer (June 21-July 22) Early in the day your household will not be running as smoothly as you'd like. Show the trouble-maker outside awhile.

Leo (July 23-Aug. 22) Your temper has a short fuse today. Be careful not to over react if someone touches a tender spot. Bite your tongue.

Virgo (Aug. 23-Sept. 22) Some club or group you're involved with has an eye on you for a contribution larger than you intended to give.

Libra (Sept. 23-Oct. 22) You're likely to be a little too insistent on getting your way today. When you don't it will anger you and those with whom you're dealing.

Scorpio (Oct. 24-Nov. 22) A nagging issue that's caused you some pain may suddenly surface again today. Don't be the one to dig it up.

Sagittarius (Nov. 23-Dec. 21) You won't win any gold cups, but you can achieve with friends above something your family has in mind for you today.

Capricorn (Dec. 22-Jan. 19) Lay your ambitions aside for today. Direct your attention to unrelated subjects. Do something just for fun.

Aquarius (Jan. 20-Feb. 19) You're looking for an answer too far down the road. Examine more closely what's at hand. That's where your real value now lies.

Pisces (Feb. 20-March 20) You'll have two choices for visits today. Reject the one where a person you've had an unsatisfactory involvement with will be.

By BERNICE BEDE OSOL

Monday, March 4

Aries (March 21-April 19) It's a good time to get things in order in your private domain while there are no outside influences disturbing you.

Taurus (April 20-May 20) Give most of your attention today to the one you feel needs your protective eye to look out for her interests.

Gemini (May 21-June 20) You're likely to be a little more emotional than usual over material matters because of feelings of insecurity.

Cancer (June 21-July 22) You'll be a bit restless today if you limit yourself to normal routine. Even a slight change can prove stimulating.

Leo (July 23-Aug. 22) Don't spend too much time alone—it could make you feel somewhat depressed. Meet with a friend whose company you enjoy.

Virgo (Aug. 23-Sept. 22) Avoid overactive or rowdy-type companions today. You won't have the patience to cope with them.

Libra (Sept. 23-Oct. 22) If you're not too obvious about your aims you can operate quite efficiently at this time. Keep some secrets to yourself.

Scorpio (Oct. 24-Nov. 22) Your ideas will be heavy with emotional content today. You're likely to let your feelings dominate your logic.

Sagittarius (Nov. 23-Dec. 21) Make personal interests accordant with your route. It needs the attention of both at this time.

Capricorn (Dec. 22-Jan. 19) Your partnership matters bang in a delicate balance today. Be treated tactfully, all will go well. Don't rock the boat.

Aquarius (Jan 20-Feb. 19) You won't exactly be a self starter. This could lead to neglect of your work. Use that old drive to your advantage.

Pisces (Feb. 20-March 20) Keeping an eye out for loved ones is the proper thing to do but don't be overly protective and inhibit their actions.

Flushed After Fight

MUNICH, West Germany (AP) — After the Muhammad Ali-Joe Frazier fight was broadcast here Sunday, the water consumption leaped by 700 gallons a minute, the water department reported. A spokesman said the demand came from fight fans flushing toilets before returning to bed.

To Your Good Health

Phenobarbs Stop Heart Tremors

By G. G. THORTESON, MD.

Dear Dr. Thosteson: You wrote that accelerated heart beat needn't cause worry. I am 86 years old and had palpitation for many years and doctors told me the same thing.

One day I got tired of that advice and asked my doctor if he thought that would help me fight these spells, and if so I wanted it. He gave me a prescription for half-grain phenobarbital tablets, a bottle of 100.

That was three years ago and I haven't taken them all. I never have palpitation any more, I put them by my bed every night, and when I feel palpitations about it. If I had not asked for help I'd still be having spells. — Mrs. C.P.S.

Good for your doctor. He hit the right answer for you.

Palpitation, nervous worries so many people so much, is the vast majority of cases comes from two causes. The first is nervous tension, which includes the secret tension of worrying about the spells. The other is overstimulation from too much smoking, coffee or other forms of caffeine, or drug stimulants.

Well, you never managed to convince yourself that your nerves were your enemy, but your doctor gave you a mild sedative - and that did the trick. A tranquilizer probably would have done as well but the phenobarb was simpler.

Frankly, there are some patients to whom I would not give it, and I refer to the pill-poppers who lean so heavily on medication that they don't know when to stop. Some of them would take the phenobarb every night, and indeed some would start gradually taking two, or maybe more until they got themselves into a barbiturate habit, or even barbiturate poisoning. It's a safe drug when used according to instructions, and as you have used it, but overuse is a possibility of which we must always remain aware.

Dear Dr. Thosteson: At the onset of menses each month a lesion about the size of a silver dollar appears at the base of my spine, or sometimes on the left hip. Its itching and burning lasts four or five days. Is there any particular cause. - Mrs. W.T.

It is pretty much impossible to diagnose skin eruption or lesions without seeing them, so I would suggest having a dermatologist examine you when this occurs.

All I can give you is a guess: since it appears in pretty much the same place and the same time each month, I would suspect that it is a form of herpes simplex - kin to the cold sores that periodically bother some folks. I have seen lesions on thigh and buttocks that I guess would resemble yours.

Dear Dr. Thosteson: What is a tubal pregnancy. A friend of mine had one and she died her sister. Is it hereditary? — Ms. J.

For a pregnancy to occur, an ovum (egg) is released from the ovary, and travels down one of the Fliapian tubes. If it encounters and unites with a male sperm, then pregnancy has begun.

Ordinarily the ovum continues down to the uterus, or womb, before meeting a sperm, and everything is fine. But it lodges in the tube, that is a tubal pregnancy. As the fetus begins to grow, there's no room in the tube to permit fetal growth. The tube ruptures, so the tube containing the fetus has to be removed surgically to save the mother's life.

It is not hereditary.

Dear Dr. Thosteson: My husband had a vasectomy several years ago and after the final test, we were assured that pregnancy was impossible from then on.

I am in menopause now and find myself quite upset over articles stating that vasectomy is not 100 per cent safe as far as pregnancy goes. Are my fears unfounded or is there a chance of pregnancy? — Mrs. J.E.

Principal cause of a vasectomy "not working" is that it's hard to persuade some people that vasectomy doesn't become effective instantly. It takes time to get rid of residual sperm. The protection is having semen tests until they show no sperm remaining. In your case, I see no cause for worry, but since you do worry, why not have your husband go for another semen test? That should reassure you and forever question. Because if no sperm can get through, pregnancy is impossible. Obviously the operation was a success since no pregnancy has occurred for several years.

Dear Dr. Thosteson: What is the cause of ringworm and what kind of treatment is given for ringworm on various parts of the body? — E.L.

Ringworm is caused by a fungus, and can involve various areas - scalp, groin, nails, exposed skin.

Treatment is with an antifungal agent taken by mouth (griseofulvin) as well as with locally applied ointments. It should be treated promptly as it is quite contagious.

Note to Mrs. J.C.L.: No, you are misinformed on that. Ritalin is not an amphetamine drug.

Note to Mrs. E. L.: Contact lenses are in such wide use after cataract operations that I can only assume that the man who said he "didn't believe in them" was not very well informed.

Unless properly treated, both glaucoma and cataracts can lead to blindness.

Fenced In

GABORONE, Botswana (AP)

Botswana has announced plans to build a 1,600-mile stretch of it border to prevent cows from straying into Rhodesia. The project will be completed within five years.

NDP Aids Liberals Win Vote

OTTAWA (CP) — The minority Liberal government, with fraternal support from the New Democratic Party, swept aside Friday the first confidence challenge of the new session of Parliament.

By a 135-to-85 vote, the Commons defeated a Social Credit amendment to a non-confidence motion presented Thursday by Conservative Leader Robert Stanfield.

The amendment, supported by the Conservatives, accused the government of not halting the rising cost of living and its effects on low-and medium-income families.

Nine Dead

YELLOWKNIFE, N.W.T. (CP) — All nine persons aboard a Toronto-bound executive jet that crashed Wednesday night into a rocky hillside 48 miles east of Frobisher Bay were found dead Friday when search and rescue personnel reached the crash site.

Bread to Rise

TORONTO (CP) — The price of bread at Dominion Stores Ltd. will rise Tuesday, March 12, by three cents a loaf, a company spokesman said Friday.

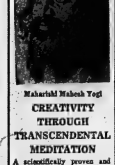
The spokesman said Dominion's major supplier, General Bakeries Ltd., has notified the company that it will increase the wholesale price of a 24-ounce loaf by eight to 10 per cent on Monday, March 11.

Devlin Loses

LONDON (CP) — The fall of Bernadette Devlin, now Mrs. McAliskey, in Britain's tense photo-finish general election, provided a poignant backdrop to a series of upset results for the 143 competing women candidates.

"The end of a comet" was how one veteran commentator described the result as Bernadette's Mid-Ulster seat toppled under the onslaught of a far-right Vanguard Unionist, a follower of hard-liner William Craig. With the Roman Catholic vote split, Bernadette was pushed into third place, a Social Democratic and Labor party candidate ahead of her.

Gets 15 Years



COBOURG, Ont. (CP) — Frederick Covey, 27, was sentenced Friday to 15 years in prison for the rape of a 13-year-old Cobourg girl Nov. 8, only 28 days after he was released on parole. A pre-sentence report in the Ontario Supreme Court revealed that Covey was released from prison Oct. 4 after serving just over two years of a three-year sentence for indecent assault of a 19-year-old Kingston woman.

War Games

OTTAWA (CP) — Eleven Canadian ships plus some aircraft will join craft from four other countries in a large war game to be held in the Atlantic later this month, the defence department announced Friday.

Steel Price Up

BETHLEHEM, Pa. (AP) — Bethlehem Steel Corp. announced Friday price increases ranging from five to 11 per cent on a wide variety of steel products.

Some Pensions Overpaid

TORONTO (CP) — The Globe and Mail says the pensions of 3,400 persons who have been overpaid by the Canada Pension Plan (CPP) will be cut for the next few months.

The newspaper says in an Ottawa story that the cuts will be $4 a month or 15 per cent of the monthly cheque, whichever is greater, unless the pensioner makes other arrangements soon at the local CPP office.

It quotes CPP officials as saying the overpayments range from 24 cents to $500.

They are quoted as saying the overpayments resulted from incorrect information given by beneficiaries or their employers.

Oil Nationalization Policy Is Possible

OTTAWA (CP) — The national petroleum corporation planned by the government eventually may nationalize existing oil companies, Energy Minister Donald Macdonald said Friday.

The government is particularly interested in well-established exploration companies and is not anxious to move directly into retail marketing of petroleum products, he said in an interview. But it might in the future want to take over one of the large multinational oil corporations.

"It's possible. . . . The company would have the scope to do this."

He emphasized, however, there are no immediate nationalization plans.

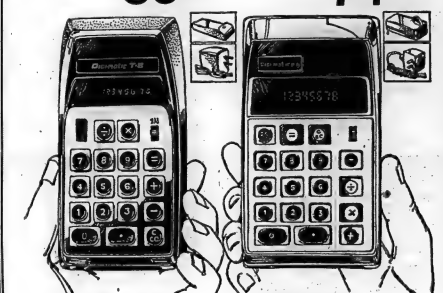
"I'm talking about what could take place at some time or another," his comments appeared to differ with remarks by Prime Minister Trudeau who has said several times that there are no plans to take over existing companies.

In announcing plans for the Crown corporation on Dec. 6, Mr. Trudeau said: "It is not intended in any way to displace the private sector."

Legislation to create the corporation is scheduled for the current session of Parliament.

Mr. Macdonald spoke in the interview after giving the Commons the most detailed sketch yet of government plans for the corporation.

He said in the House that it initially will focus heavily on exploration and will have a budget of several hundred million dollars "over the early years of its operation."



A $40 million initial outlay, mentioned by Mr. Trudeau in September, has created some confusion, Mr. Macdonald said. This amount will be used solely for research and development of the Alberta oil sands.

ONTARIO'S NEW TAX CREDIT SYSTEM:

2 out of 3 Ontario residents who file income tax returns this year will share $300 million in tax credits.

(Even if they don't pay income tax!)

Families, pensioners, roomers, boarders, the handicapped and others will benefit. Ontario's new Tax Credit System provides for three separate credits, and here's how they work:

1. People who own or rent (including roomers and boarders) may share in the Property Tax Credit.
2. People who fill out a Federal income tax return may share in the Sales Tax Credit.
3. People over 65 may share in the Pensioner Tax Credit.

You must fill out a Federal income tax return.

The new purple Ontario Tax Credit Form comes attached inside it. So even if you don't pay income tax, you should still file a Federal income tax return with the Ontario Tax Credit Form this year.

We want you to get your fair share of Ontario's tax credits.

Ontario's fair share

British Liberals Call For Grand Coalition

LONDON (CP) — The Liberals today rejected Conservative Prime Minister Heath's plea for help to keep him in power and called instead for a temporary grand coalition to lead Britain out of economic crisis. . .

The decision, taken in a two-hour caucus by the 14 elected Liberals, virtually eliminated Heath's chances of continuing in office. It now appeared likely that the Queen would soon call on Labor Leader Harold Wilson to try to form a government.

The Liberals said in a statement that a Conservative-Liberal alliance, as proposed by Heath, would "not be in the National interest."

Heath, who had called the Feb. 28 general election in a bid to increase his slim majority, ended up with only 296 members against 301 for Labor. Both are short of a majority in the 635-seat House of Commons, though Wilson has stated he is ready to form a minority government.

The Liberals said that in view of the election stalemate, policies for Britain can be carried out only by "a government of national unity consisting of members of all parties." This would be similar to a national wartime government with party policies submerged to meet a national emergency.

Wilson has already stated he would not join any coalition. Heath also is likely to refuse. He immediately called in his cabinet after receiving the Liberals' response.

"The gravity of the country's economic plight is such that the party conflict must be subordinated to the country's need," the Liberals said. "It now is the duty of the other parties to enter into immediate discussion with a view to achieving this."

Earlier the Queen postponed her return to Australia because of the British political crisis. Twice during the weekend Heath conferred with Liberal leader Jeremy Thorpe and was reported to have offered the Liberals one or more cabinet posts in some form of coalition or alliance.

Senior Conservative sources were reported predicting that Heath may be forced to resign soon. The pound continued to decline today in the wake of the political crisis and there were fears among industrialists of further economic erosion unless some form of stable government can be organized quickly.

Meanwhile Labor Leader Harold Wilson, who had spent the weekend at his country home near London, returned to the capital, apparently waiting for a summons from the Queen if Heath fails to win sufficient support to stay in office.

The fact the Queen postponed her return to Australia suggested there may be no quick change, though all political leaders have expressed the urgent need for a speedy decision.

346 Die in Worst Air Mishap

French Think Explosion May Have Caused Crash

PARIS (CP) — A French official speculated today that an explosion just after takeoff may have caused history's worst air disaster, the crash of a Turkish airliner that killed all 346 persons reported aboard.

The American-built airliner crashed in the Ermenonville forest,23 miles north of Paris, five minutes after it took off from Orly Airport Sunday on a flight from Istanbul to London. Turkish Airlines said the plane was loaded to capacity with 334 passengers and 12 crew members.

There is no indication when the casualty list will be made public. But the airline's European manager said the names of 200 to 250 of the passengers and crew were British or American, and about 40 Japanese were aboard.

The weather was sunny, and no hint of trouble came from the plane. But "the fact that debris and bodies were found in a village more than 10 kilometres (six miles) from the accident tends to prove that an explosion occurred in flight," said Aymar Achille-Fould, a top official of the French transport ministry.

Persons in the area of the crash said they heard an explosion, but they cannot agree whether it occurred before or after the plane hit the ground.

Turkey's communications minister, Ferda Guley, said "considering the world situation," he did not rule out sabotage.

However, a spokesman for Turkish Airlines said it is not true that it suspected that five passengers aboard the airline were Palestinian guerrillas.

Part of the plane's flight recorder was found before dark Sunday, and searchers were looking for the rest in hopes that it will give some clue to what happened in the minutes between takeoff and crash.

The Paris airport controller said he had an open radio link with ill-fated DC-10 seconds before the crash.

He said he heard cries of horror rising above jangling alarm bells as the doomed airliner fell out of the sky.

A fireman said all the bodies he found were naked. "Passengers must have been sucked out of their clothes by the explosion," he said.

Officials stressed that there was no proof of sabotage, although some reports mentioned parts of the plane "exploding" on the inside, as though by a bomb blast.

Rescuers reported carnage at Ermenonville—a nightmarish scene of mangled bodies, clothes and personal belongings scattered over the ground and hanging from the tall trees.

Golda Meir Persuaded Not to Quit as Premier

JERUSALEM (AP) — Senior Labor party sources said today Premier Golda Meir has reluctantly agreed to stay on as leader of Israel's next government, cancelling her announced resignation.

No official confirmation was available that Mrs. Meir has changed her mind, but executives of her Labor party said colleagues who pleaded with her throughout the day persuaded her to remain in power.

Mrs. Meir had telephoned President Ephraim Katsir earlier and told him she would call on him to return her mandate to form a new Israeli government because of criticism of the new minority cabinet she had lined up.

Mrs. Meir announced her resignation at a meeting of Labor party executives Sunday night after some of her party's members in parliament criticized the new minority government she planned to present Tuesday.

Party leaders flocked to Mrs. Meir's Jerusalem home and pleaded until past midnight Sunday night with her to continue at the head of the government. But Deputy Premier Yigal Allon reported she was firm in her decision.

Mrs. Meir has led the Israeli government since 1969, and her decision to bow out plunged the country deeper into the political uncertainty that has beset it since Mrs. Meir's Labor Alignment lost ground in the Dec. 31 elections.

Subsequently, Defence Minister Moshe Dayan refused to join the new cabinet, and the National Religious Party refused to join the Labor Alignment in a new coalition, making it impossible for Mrs. Meir to form a majority in the Knesset, Israel's parliament.

In the shock of Mrs. Meir's announced retirement, the other Labor leaders concentrated on trying to get her to reconsider and did nothing about picking someone else to try to form a government. Finance Minister Pinhas Sapir, Allon and Foreign Minister Abba Eban are considered the most likely to be tapped.

Meanwhile, Mrs. Meir and the cabinet with which she fought the October war and the Dec. 31 election remain in office as a caretaker regime.

Marketing Board For Oil Forecast

TORONTO (CP) — The federal government may have to create a national petroleum marketing board to buy all oil traded interprovincially, Donald Macdonald, federal energy minister, said during the weekend.

Speaking to about 200 persons at a meeting Saturday sponsored by the Scarborough Liberal Association, Mr. Macdonald said establishment of the board might be particularly essential if Alberta and Saskatchewan do not accept voluntary pricing restraint.

He said the board's approach would be "one possible solution" if agreement cannot be reached by the end of this month when current voluntary price controls expire.

Under the plan, all oil being sold interprovincially or internationally "would be delivered to the board at a defined price," he said.

"The producers would then have the choice either to deliver at that price or not to deliver. But I'm sure there won't be that kind of confrontation," he added. "They are reasonable men."

Mr. Macdonald predicted that separate talks this week in Ottawa between Prime Minister Trudeau, Alberta Premier Peter Lougheed and Premier Allan Blakeney of Saskatchewan will iron out differences.

The minister said if an agreement cannot be reached, the federal government takes the position that it has sole jurisdiction over international trade and legislation will be imposed.

"We seek to arrive at a basic agreement on what the single price should be for all Canadians," he said, adding that it should be "at reasonable prices—below world prices."

The domestic price of oil would probably be allowed to rise to about $6 abarrel from the $4 at which it has been held since September, Mr. Macdonald said.

This would bring consumer prices in Western Canada in line with those that have prevailed in the East, he said.

News Briefs

Price Boost Delayed

OTTAWA (CP) — The Bakery Council of Canada has agreed to hold back one cent a loaf on bread price increases during March but consumers can expect to pay two or three more cents a loaf during the month. The commitment to partially hold back on bread price increases was announced in the Commons today by Consumer Affairs Minister Herb Gray.

Sirica Studies Report

WASHINGTON (AP) — U.S. District Judge John Sirica is studying a sealed grand jury report on the Watergate cover-up and preparing to decide whether to give it to the House of Representatives impeachment inquiry staff or keep it under wraps. He may decide today. Meanwhile, two other Watergate grand juries were moving toward completion of their investigations. Sources said indictments in the White House plumbers case may be returned by the middle of the week.

Liberals Choose Leader

EDMONTON (CP) — Alberta Liberals turned to an outspoken Calgary oilman during the weekend to lead them. Nick Taylor, 46, president of Lochiel Exploration Ltd., defeated Dr. John Borger 266 to 233 Saturday to become the sixth provincial Liberal leader since the mid-1960s.

Motion Denied

NEW YORK (AP) — U.S. District Judge Leo Gagliardi today denied a defence motion for a mistrial in the criminal conspiracy case of former attorney-general John Mitchell and former commerce secretary Maurice Stans.

Help!

Robby Sams, 17 months, has an apprehensive look on his face as members of the Des Moines Fire Rescue Squad work to free him from an automatic washer. Robby's mother Mrs. Robert Sams of Des Moines, said her son likes to get into the spin dryer and spin around. But when Robby tried it Friday, he got his leg stuck. Firemen arrived away part of the dryer drum to free Robby.

Egyptian Troops Are Told War Not Over Yet

CAIRO (Reuter) — Egyptian troops stood along the entire length of both banks of the Suez canal today for the first time in seven years. Their commander warned them to be ready for another war.

As the last stage of disengagement of the Egyptian and Israeli armies which fought last October was completed, Chief of Staff Lt.-Gen. Mohammed el Gamasi said: "The war is not over yet.

Hijacked Jet Burns In Liquor

AMSTERDAM (CP) — Two young Arabs who hijacked a British airliner and surrendered say their group plans to attack other British and United States planes because the countries supported Israel in the October war.

The Arabs surrendered peacefully to Dutch police Sunday after releasing the 82 passengers and 10 crew members of the hijacked British VC-10, drenching the inside of the $8.9-million jet with the plane's liquor supply and then setting it afire on a runway at Schiphol Airport.

Two persons received minor injuries sliding out of the plane, Dutch authorities reported. The aircraft was destroyed.

A Dutch civil aviation official said the hijackers made no demands when they surrendered but said in broken English they had to "take action."

The Palestine Liberation Organization, which unites the major Palestine guerrilla groups, disclaimed any connection with the hijacking and denounced such operations.

People Keep on Knocking at the Door

Mark Brett

Confrontation

Bruce Clark made many spectacular saves in Sunday night's Belleville Bobcat 3-2 victory over the Pickering Panthers. In picture number one, Clark kicks out a shot from close range by Pickering attacker Jim Wells. Bruce wasn't quite as fortunate when Panthers' Kevin Owen came calling at the Cats' goal in picture number two.

Another Caller

Owen scored the first goal for Pickering, slamming the puck under Bruce. A few minutes later, Clark was carried out of the game after being knocked unconscious on another Panther surge. Bobby Moore replaced Clark in the Belleville net and is seen in picture number three making a sensational save off the stick of Pickring's Jim Snetsinger (8). Moore got help on the play in picture four, when

Thunder on the Left

Belleville defenceman Vern Amey (10) knocked the puck away from the stick of Panthers' Bernie Saunders just as he was about to shoot. The Cats won the game after one and a half periods of overtime to even their semi-final series with Pickering at 1-1. For story, see first page second section.

Meetings

This week's public meetings
The Intelligencer has been notified of are:

MONDAY

Belleville City council meets from 4 p.m. at city hall on Front St.

Picton town council meets from 7:30 p.m. at Shire Hall on Main St., Picton.

Sidney township council meets from 1:30 p.m. at municipal offices at Wallbridge-Loyalist Rd. and concession road four.

District Council of Boy Scouts meets 7:30 p.m. at St. Thomas Church Hall on Bridge St. East.

THURSDAY

Quinte Palsy/ed Board meets 8 p.m. at Sidney township offices at Wallbridge-Loyalist Rd. and concession road four.

District Council of Boy Scouts meets 7:30 p.m. at St. Thomas Church Hall on Bridge St. East.

Corby Employee Serves 40 Years

The staff of Corby's distilleries honored retiring traffic manager Ralph Plumpton Thursday night as he completed 40 years of employment with the company.

George C. MacDonald, vice-president and manager and Fridel Bellefeuil, assistant manager, made presentations.

Mr. Plumpton was honored last month in Winnipeg with a commendation from the Canadian Industrial Traffic League. He was a member and chairman of the former Belleville and Suburban Planning Board and of the Thurlow committee of adjustment and is a director of the Belleville Shrine Club.

Mr. and Mrs. Pumpton plan a retirement trip to Florida and Vancouver.

Newsmakers

At Course

Health officer for Hastings and Prince Edward counties, Dr. C. E. Lesh, this week attended the 17th annual refresher course for public health officers at the University of Toronto School of Hygiene.

Groundhog Spotted

A groundhog was observed at Thomasburg Monday by Mrs. Charles Bowers, who's been pondering if it's a little early in the year to see one above ground.

Company Guests

Top sales people from the offices of W. Frank Real Estate Ltd. in Oshawa, Pickering, Port Perry, Claremont, Lindsay, Port Hope, Belleville and Picton spent a week in Freeport Grand Bahamas as guest of the company, Mr. and Mrs. Peter Deyenish of Belleville were among the 26 couples who made the trip.

Selected

Second vice-president of the Belleville Chamber of Commerce is Bob Brain. This completes the list of Chamber directors chosen during a meeting earlier this year.

Realtors at Seminar

About 90 members of the sales staff of W. Frank Real Estate Ltd. attended a learning seminar Feb. 5 at Hockey Inn, Oshawa. Guest speakers were J. Douglas Edwards, sales and marketing consultant from Scottsdale, Arizona and Dave Barrell, president of Oshawa Chamber of Commerce.

Low, Low Note

Don Driver, sousaphone player with Quinte Secondary School band, runs test on instrument's big bass notes for instructor Douglas Aseltine at Festival of Stars Sunday. Event was wrap-up program at Centennial Secondary School to annual Rotary music festival.

Music Extravaganza Winds Up Festival

A musical capsule was shared by 500 Bellevillians Sunday as the city Rotary Club presented its annual Festival of Stars.

The program has become the traditional wind-down spectacle of the club's yearly music festival which drew hundreds of young participants from around the Quinte area.

Performers for the Sunday-afternoon festival finale are drawn from this lists of contestants who have competed for musical marks earlier in the week.

Adjudicators choose the performers during evaluations of competitions.

This year the judges came up with 29 entries to fill the afternoon program at Centennial Secondary School — with sounds of music ranging from a solo flute to full-blown brass bands.

Master of ceremonies was Linton Reid.

Car Hits Plaza Standard

A young Trenton boy was admitted to Belleville General hospital, while his mother and two sisters were treated for cuts and bruises and released following a single car crash at the Belleville Plaza Sunday.

Belleville police report that a car driven by Susan Carroll, of 67 Shuter St., Trenton, slammed into a light standard on the shopping plaza's parking lot about 11:05 a.m. Sunday.

Mrs. Carroll's car was reported to be westbound on the lot when the accident occured.

It's Finished

Last concrete has been poured atop Toronto's $21 million CN Tower -- at the 1,464 foot level -- after nine months of work. Scheduled to be open to public in 1975 it will be the world's tallest free-standing structure -- 1,805 feet high -- after steel communication mast, communications facilities and restaurant are finished. (CP Wirephoto)

District Obituaries and Funerals

ANDREW B. FRITZ
Trenton

The funeral of Andrew B. Fritz, 17 Baptiste St., Trenton, was held Feb. 26 from the Weaver Funeral Home where service was conducted by Rev. M. Caswell of St. Andrew's Church. Interment was in Mount Evergreen Cemetery.

The bearers were G. Brown, R. Cook, J. Gibson, E.D. White, T. Edwards and J. Zawada.

Mr. Fritz, a resident of Trenton for more than 20 years, died Feb. 17 in Trenton Memorial Hospital after being in failing health for the past five months. He was 71.

Born in Prince Edward County, he was the son of the late Mr. and Mrs. Wilbur Fritz and had worked as a machinist for the Canadian National Railways at Capreol and Hornepayne for 15 years and also for the Penn Central Railway at St. Thomas. He was a member of the International Association of Machinists and had also belonged to the Masonic Lodge AF and AM at Capreol.

He is survived by his wife, the former Hilda Newton a son Andrew Fritz, Jr. of Fort Erie and a daughter, Mrs. Gordon (Evelyn) Brown of Trenton, and four grandchildren.

A brother Almon Fritz lives in Toronto.

JOHN C. LATCHFORD
Niagara, N.Y.

Funeral service for John C. Latchford, 77, a native of Belleville and more recently a resident of the town of Niagara, N.Y., was held this afternoon.

Mr. Latchford died in Memorial Medical Center, Niagara, N.Y., Friday.

Alarm Box

Belleville firefighters responded to the following call for assistance during the weekend:

Saturday, March 2, mistress on fire outside home at 32 Everett St., minor damage, 7:20 a.m.

Mr. Latchford died in Memorial Medical Center, Niagara, N.Y., was held this afternoon.

He was born in Prince Edward County, he was the son of the late Mr. and Mrs. Wilbur Fritz and had worked as a machinist for the Canadian National Railways at Capreol and Hornepayne for 15 years and also for the Penn Central Railway at St. Thomas. He was a member of the International Association of Machinists and had also belonged to the Masonic Lodge AF and AM at Capreol.

He is survived by his wife, the former Hilda Newton a son Andrew Fritz, Jr. of Fort Erie and a daughter, Mrs. Gordon (Evelyn) Brown of Trenton, and four grandchildren.

A brother Almon Fritz lives in Toronto.

FRANCIS EDWARD BALDWIN

Funeral service for Francis Edward Baldwin was held Thursday at the John R. Bush Funeral Home.

Service was directed by Salvation Army Major R. A. Nelson and interment was in Belleville cemetery.

Bearers were William McKeens, Dale Green, Ernie Jackson, Merle McKeown, Daniel, Hap Chartrey, Jack Pitman.

EVERETT VANCE
Stirling

Funeral service of Everett Vance was held Monday afternoon from the John R. Bush Funeral Home where service was conducted by Rev. Roy Veney. Interment was in Belleville Cemetery.

The bearers were George Secker, Elmer Helm, Jack Helm, Ken Helm, Ken Thornton Porti and Bill Forgey.

MRS. ANDREW WILLIAMSON
RR 3 Belleville

The funeral of Mrs. Andrew Williamson of RR 3 Belleville was held Monday evening from the Pinkston and Luscombe Funeral Chapel, Picton, conducted of St. Andrew's Presbyterian Church, officiated in the service with cremation to follow in Toronto.

MAURICE G. DENNISON
Marlbank

The funeral of Maurice George Dennison, RR Marlbank, was held Feb. 22 from the Bush Funeral Home at Tweed. Service was also conducted by Captain Diana Hay of the Tweed Salvation Army. Interment was in Kimmett's Cemetery, Marlbank.

The bearers were Joel Allen, Vernon Davis, Vince Dennison, Dale Quinn, Valley Wadell and Ernie Whiteman.

Mr. Dennison, died at his residence on Feb. 20 following a brief illness. He was 62.

Born in Marlbank, he was the son of Mrs. Edna Dennison and the late George Dennison and had lived all his life in the area.

Aside from his mother and wife, the former Madelaine Johnston, he is survived by children Roger, Elain, Doug-las and Gary, all of Marlbank.

Also surviving are the following brothers and sisters, Frederick of Montreal, Mrs. Ellwood (Dorothy) Baker of Ottawa, Mrs. Bernard (Hela) Jackson of Roblin, Ted of Napanee, Mrs. George (Ruth) Andrews of Napanee, Dan of Tweed and James of Kingsville, One brother, Dan predeceased him.

MRS. KELSEY E. VARRETTE
KINGSTON—Mrs. Catherine Mary Varrette, 80 of Kingston who died recently at Hotel Dieu Hospital following a five-year illness, was buried in Belleville Cemetery.

She was born at Queensboro, a daughter of the late Felix Genereaux and his wife, Emilie, and was a resident of Kingston for 35 years.

Surviving are four daughters, Mrs. Arnold (Dorothy) MacLeod of Montreal, Mrs. Grant (Catherine) McCaw, of Kingston, Mrs. Phyllis Skene, Kingston Mrs. Ronald (Jean) Helm, of Kingston; two sons, Jack of Hay Bay; and Albert of ottawa.

Also survived by 22 grandchildren and eight great-grandchildren, she was predeceased by her husband, Kelsey E. Varrette and by a son Wilfred.

Bearers were Terry, Jack, Edward, James and Steve Varrette, and Donald Dawson.

MRS. ERIC H. ROLFE

A native of Montreal but living in Belleville for the past 28 years, Mrs. Dilnora Rolfe, 250 Sidney Street, died suddenly on Saturday in the Belleville General Hospital.

She was in her 60th year.

Mrs. Rolfe had worked at the Four Seasons Hotel for the past year and was also a member of Christ Church.

Predeceased by her husband, Eric Hubert Rolfe who died in 1967, Mrs. Rolfe is survived by three sons, Eric and Robb of Belleville, and Leonard of Ottawa, and two daughters, Mrs. Joseph (Gwen) Gibson and Mrs. Tom (Linda) Rowson, both of Belleville.

There are three sisters, Mrs. Charles (Evelyn) Meech and Mrs. Florence McGarland, both of Montreal and Mrs. Irvan (Mina) Armstrong of Belleville; and 12 grandchildren.

The funeral will be held Wednesday from the John R. Bush Funeral Home with

Petition Popular

Most Hillcrest residents were anxious to sign a petition Tuesday for free assistance to alleviate the problem caused by irregular night soil pickup in Belleville's northeastern sector, Yvonne Bowerman said today.

During the weekend, the Canniffon Rd. woman gathered 151 signatures she will present to council today.

"And I didn't even cover half the area," she said. "Only four or five people refused to sign it. Most were anxious to sign it."

"One poor old soul said that she hadn't had a collection for almost a year."

Mrs. Boomhower began circulating the petition Friday after receiving assistance with its wording from William Hockley, a worker with the Trenton-based Citizens Forum.

Collection of pails of human excrement have been irregular in Hillcrest. Some area residents have been forced to store an accumulation of up to eight pails in or around their homes.

Thrane Works on Painting for Upcoming Show

Painter Takes the Plunge

By AL ZABAS
Staff Reporter

ACTINOLITE — A clapboard house sits on an acre and just outside Highway 7.

While, its paint is beginning to peel, but, it's sturdy, comfortable. The wood burning stove gurgles in the kitchen. Audrey Thrane bakes bread here.

Upstairs, in a room converted into a studio, her husband, Poul, has sat painting through the winter months. Painting and waiting for the summer when the art exhibitions begin in earnest, and he can sell his works.

That painting and waiting is more important now. More important than it was when he lived, and worked, in Toronto. It's no longer a part-time obsession — it's full time.

He worries, though. Come summer, he'll be busier than now — planting corn, potatoes, tending the vegetable garden. And on the weekends, he'll be going to art shows with his work — mostly watercolors, oils, a few pen and ink drawings.

He won't have as much time to paint.

"I paint in the winter months," he says, "I have to build up the number of paintings to show in the summer in the galleries."

His part-time job at the Tweed News brings in a little money. Painting, and selling that work, is now his major source of income.

Prior to moving to Hastings County in July, the Denmarkborn painter was comfortably off — owning his home. He had worked for the Toronto Transit Commission for 14 years, but he wasn't happy "driving up and down," so he left and took a different job. He still wasn't satisfied.

"I was very unhappy because I always wanted to paint. Just driving up and down was frustrating me a little." He and his wife then decided to take the plunge, sell their house, move to Hastings, start all over again.

The 45-year-old painter speculates it will take three to five years to establish himself here. Toward that end, he will exhibit his work in a one-man show at the Corby Public Library starting March 11. It continues for two weeks.

But he likes people to come to his country home. They get a better opportunity to choose work, some of which hasn't been shown yet, he says.

During an interview this weekend, he talked about his work.

"I guess I paint for a certain type of people," he said, brushing his hair back behind his ears. "Its appeal is limited to those who appreciate realistic paintings."

He is disturbed with modern art calling it, not art, but decoration. Fit for modern offices, but not for older homes. When Rembrandt painted, his work was intended to be hung in homes, to be appreciated in homes.

"Through history, things have had to prove themselves before they went into museums." He says, "A lot of modern art seems to be just for the museums. It's too big for a house."

But then, he acknowledges a difference between Andy Warhol's pop art and his own.

Modestly, he says he paints strictly for people that look at the world through the same kind of eyes he does.

"I believe 100 people could pass my paintings and not bother with a second look. But the 101st would stop and stand looking. He would get the same feeling I got when I painted the scene.

"I think I paint for a generation mostly around my own age."

Those his own age appear to appreciate his work. He's done well at the two galleries — one in Toronto another in Port Credit — where he regularly exhibits. Several Bay St. law offices hang his landscapes. The Chinese Minister of Trade has a watercolor of the Greenwhorn home of Dr. Norman Bethune, presented to him by the federal government.

But his blue eyes still show a touch of apprehension.

City Girl Finalist

Winner of the zone 9 finals in the Hydro-trustees' association public speaking contest held in Napanee was Allison Jeffrey, a pupil at Queen Elizabeth School. She will compete in the provincial finals in Toronto March 18.

Mortgages Hold Line

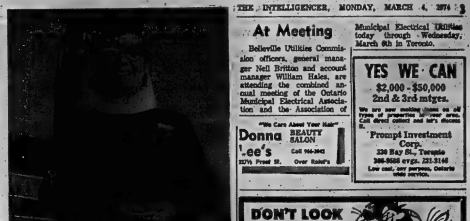
A mid-February mortgage market survey of the Quinte area indicates a good supply of mortgage funds for the home buyer exists with interest rates for prime properties generally at 10 per cent, a report prepared by A.E. LePage Realtor Ltd. reveals.

The report comments that a steady demand for mortgage funds was revealed.

An increasing demand for builders' loans was noted, but the report states it has not yet affected the interest rate of a month ago. In Mid-January, interest rates ranged 9½ to 10¾ per cent.

Availability of commercial mortgage monies is said to be fair to adequate, with interest rates ranging from 3¾ to 10 ½ per cent.

Industrial mortgage funds are poor to adequate with the same range of interest rates.



Troop Marks Anniversary

In the hectic activities of the city's recent scout week a major event was the 70th anniversary-celebration of the 2nd Belleville troop of cubs and scouts.

This took place in Christ Church to honor the longest continuing troop in the city.

Canon R. B. D. Wright spoke on the theme "Hats off to the past, coats off to the future." The event was marked by a parade of 140 cubs and scouts, guides and brownies to the church, marched in by Pipe Major Doug Burns.

Special visitors were welcomed from 1st Avondale Guides and Brownies who also visited Christ Church for the occasion.

Belleville's Sister Anna

Community Basis Of New Movement

Sister Anna Moran has switched from teaching to travelling these days — all in a spiritual cause.

Belleville's travelling nun is a member of a small pioneer team spreading the word for the first time in Canada about Movement for a Better World.

It's a small beginning ... but we will branch out to all of Canada — so we're on the road most of the time right now," says Sister Anna, native of Maynooth in north Hastings County and six years a history-English teacher at Nicholson College.

Members of church congregations in the city area have an opportunity to participate in the exercise of MBW objectives — for which she's doing so much travelling — beginning next Saturday.

That's when the five-member team of priests and nuns holds a weekend retreat at Nicholson and St. Michael's church.

The movement stresses a basic principle in Christianity — community.

MBW hopes to heighten the sense of community among Christians, and, by emphasizing their need of each other, intensify spiritual satisfaction in responsiveness.

The retreat differs from the tradition of silent, reflective exercises.

Participants — both laity and clergy — are drawn together to dialogue as well as pray and meditate.

"The retreat does not simply preach the idea of Christian unity. It demonstrates it," explains Sister Anna. "For a brief time, a group of strangers come together and form a community, guided by the retreat team. They don't just talk about it. They live it."

MBW was the creation of an Italian Jesuit in the early 1950s spreading to the United States 10 years later.

Late last year Sister Anna was released from teaching duties by the Kingston diocese and sent with other team members to apprentice to an MBW program in the U.S. They arrived home at Christmas. Headquarters for the five introducing the movement to Canada is Westport, near Kingston.

Responses she's observed so far convince, he nun there's a need for such an undertaking.

"It seems as if people are waking for this type of spiritual renewal," she says.

Retreat times are 7:30 p.m. 10:30 p.m. Saturday; 2 p.m. — 10 p.m Sunday; 7:30 p.m. — 10:30 pm March 11-15

At Meeting

Belleville Utilities Commission officers, general manager Neil Britton and accounts manager William Hales, are attending the combined annual meeting of the Ontario Municipal Electrical Association and the Association of Municipal Electrical Utilities today through Wednesday, March 6th in Toronto.

Three Break-ins On Weekend

Belleville police are investigating a series of break-ins that occurred in the city during the weekend.

One theif picked up his groceries at a home at 20 Westmount Dr. Sunday after he broke into the house by smashing a basement window.

Police Chief Crosbie said that the thief stole $8 in cash, a quart of milk, some chocolate drink powder, and two part bottles of wine and sherry.

The break-in was discovered at 8:27 p.m. yesterday.

Other thieves netted $95 in cash from Belleville Toyota, on North Front Street, early Sunday morning after they entered the building by breaking a window.

The RP service station at Trudeau motors, on Station St. reported the loss of $30 at 7:38 a.m. today after it was discovered that thieves broke into the station sometime after 1:05 a.m.

Entry was gained by smashing a window valued at $7.

UK Election

The British election has left the country in a minority government situation similar to Canada's. It does not make for the kind of strong mandate necessary to pull the country out of its present economic morass, but it could, conceivably, in the short-term at least, make for a much-more balanced approach to the very pressing difficulties of the moment.

Where previously there had been a polarization of the right and left wings, and all the familia- symptoms of class warfare (probably few members of the so-called "working class" in Britain is aware that Prime Minister Heath himself is of relatively humble background) there now is almost equal representation of Conservatives and Labor members, with Labor holding a slight edge and with the balance of power in the hands of the Liberals and a handful of other parties.

The result is a sobering one not only for the Heath government but for the country. Something must be done — and quickly — to get te economy of the country moving, and especially to end the coal miners' strike.

There can be no prospect either for Labor to indulge in any of its more fanciful schemes, such as one we read in The Christian Science Monitor that would have a Labor administration move to abolish the public school system. Called "private" schools in Canada, and essentially that is what the fee-paying establishments are, many familiar in Britain such legendary educational institutions as Eton and Harrow. These the Labor party sees as places which perpetuate the class system and exercise a malign influence on governmental and professional life.

However the award of scholarships now makes these schools more available to boys of varying background and doubtless will be the case more and more in the future. To eliminate them would be an act of socialistic irresponsibility, an attempt to force everyone into the same mold and destroy an essential element of Britain's character.

What is needed in Britain now is what Lester Pearson called unity in diversity, a desire by everyone to work for the interests of the whole country. But it will be a case of first things first — and that entails satisfying the miners and a return to full production.

Under Control

It is gratifying to learn that the venereal disease rate in Hastings and Prince Edward counties is a mere one-third that of the rest of the province.

From this we may deduce that control of the disease does not pose any serious problem for existing medical facilities.

In other words, ther; seems to be no need for a special clinic in Belleville. At the same time the contention of C. G. D. Roper that a clinic would not be feasible raises a question. True, the low number of cases may not justify one but it Brockville, for example, can have one, then why not Belleville, in the midst of a higher case load occurring at some time in the future.

This is hypothetical of course but if as Dr. Roper claims, it would be difficult in a small city to preserve the anonymity of clinic patients, how come Brockville, with only half the population, has one? Significantly, it is located at the city's general hospital.

Matter of Location

The jungle of hydro wires that weaves its way throughout the downtown scene and heaps has a certain raw artistry, especially at sundown. But if it were ever to be erased and the wiring placed underground, how much cleaner-looking an environment it would be.

We recall a newly- arrived immigrant telling us of the slide show he gave in a Canadian home nearly two decades ago. There was this picture of an attractive suburban avenue in Britain, bright with pink cherry blossoms — it was a springtime scene — and one of his new friends said, where are the hydro wires? They were underground of course.

Belleville could be seeing such a development, for Mayor Ronin Jeffrey reportedly has requested the Utilities Commission for cost figures involved in placing existing above-ground electrical services underground along Bridge Street.

It could be a step in the direction of a more attractive Belleville.

Government Employees On Carpet

"Borrowed" Equipment Results In Disciplinary Action

By RICHARD JACKSON.

OTTAWA — It could happen only in Ottawa, among government employees, with federal properties.

But the principle seems to have been established that taking things without the owner's consent is mere "borrowing" — something of a naughty no-no but definitely no crime.

Not, that is, where the government is concerned.

Other people than the forgiving feds, might, mind you, consider it a form of theft.

As did the RCMP a couple of months ago when they raided the Ottawa homes of government employees and hauled away $3,000 worth of typewriters, desks, tables, chairs, slide projectors and tape recorders belonging to the Consumer and Corporate Affairs Department.

The equipment, revealed the RCMP, was being used by the employees to help furnish their homes.

"Help" was scarcely the word for some, though. For after one RCMP raid, revealed an officer, the government department apartment was left almost as bare as Mother Hubbard's cupboard.

Having made the raids and seized the equipment the RCMP turned over the case to the Crown Attorney for appropriate legal action.

And then the case dropped from sight.

Nearly two months later it resurfaced.

The Crown Attorney said the case was being dropped because it could not be proved that the employees had intended actually "to steal" the stuff.

They had merely "signed out" the furniture from the department.

And being employees of Consumer and Corporate Affairs they were not questioned by others in the department when they "signed it out," as senior government officials so delicately phrased it.

A bit odd?

Not at all.

What the heck, it was only government property, and who except perhaps the taxpayers would care? And who in the government ever bothered asking the taxpayers how they felt about anything, except, of course, at election time?

No, there was nothing strange about it, came the official explanation — for while there was "no regulation prohibiting the 'signing out' of government property, neither was there a regulation forbidding it."

And anyway, the RCMP was quick to add, it no longer was a case involving police and the Crown Attorney, but rather "an internal matter for the government department concerned."

Then another touch was given the affair, this time by the department's director of personnel and security.

It was a matter of the staff being "borrowed," he said, and since there was no regulation governing such borrowing — well, why make anything out of it, and what could be done about it anyway?

A "breach of trust" was as far as he would go, while adding that it was not something he would do.

But, obviously, it hardly could be left hanging there with a question mark.

So, sternly, the Consumer and Corporate Affairs Department took "disciplinary action," supposedly part of the employees' periods ranging between two days and a week without pay.

Meanwhile, some of the stuff they had "borrowed" from the government was returned because it could not be established beyond any shadow of doubt just who owned it.

Departmental officers have declined to identify the "borrowers" on the grounds that the affair was not a "public matter, and the department has never released names of disciplined employees.

Public servants, it was explained, would have a very real grievance if they were identified when reprimanded.

Involved were mostly clerks and warehousemen, drawing salaries of up to a maximum annual $11,000.

Hoping to close the case for good the department says that suspension — even for two days — is considered "a very stiff penalty."

Consumer and Corporate Affairs Deputy Minister Michael Pitfield, who was catapulted to his $50,000 post from Prime Minister Trudeau's office, it is be known that, while the affair had been nothing more than "borrowing" government property, it was, in his view, "a serious matter."

But so, too, was the loss of two days' wages.

"God, what a nightmare — I dreamt that I was re-elected."

Risk Capital Hit By Economic Uncertainty

By VINCENT EGAN
Business and Consumer Affairs Analyst
Thomson News Service

Risk-taking is the first characteristic of business. The entrepreneur must constantly weigh the opportunity for profit against the possibility of loss.

If he makes a wrong choice often enough—perhaps only once—the game is over.

A newly published economic study suggests that too many Canadian businessmen are giving in to the understandable temptation to postpone the investment of risk capital because of their puzzlement over Canada's future policy on trade, investment and government assistance to industry.

"Investors can adjust to virtually any sensible set of rules that Canada wishes to lay down in the area of international trade and investment," according to the analysis by Judith Maxwell and Carl E. Beigie, Policy Review and Outlook—1974 is the first in a series of annual publications assessing the questions of Canadian economic policy.

Risks are inevitably greater at a time of uncertainty. For business, 1974 is indeed an uncertain time—with the vacuum created by the disappearance of many of the ground-rules that today's executives used to operate under, and the apparent lethargy of government to make up policy on the basis of short-term political strategy.

But, says the study, "the costs of waiting, in terms both of losing profitable opportunities and of extending the period of shortages of industrial materials, could be substantial for the business sector and for the economy as a whole."

How, then, does responsible management decide whether to take its capital in new ventures today?

One suggestion put forward in the study is to "weight the sophisticated, demand-oriented techniques of economic management developed during the 1960s, and instead to adopt an approach that emphasizes the impact of questions of supply, such as these:

—Widespread shortages of fuel and other commodities.

—Scarcity of skilled labor especially in key industries.

—A fundamental change in the behavior of the labor force.

—Deep-seated economic problems in financial markets.

Today's shortages—including the shortage of workable economic policies—make one wonder about the influence of the economists who were so confidently leading us in the 1960s.

Federal and provincial departments of finance, as well as the Bank of Canada, the Economic Council and many others, all had—and have—their brilliant economists.

They did not claim omniscience, but rather did they try to disabuse politicians and the public of notion that they could lead us along the narrow path between inflation and unemployment, into the broad uplands of price stability, nearly full employment, and good times for everybody except perhaps the foreign owners of investment here.

Instead, we have steadily worsening inflation, high unemployment and failing confidence in the economy.

What is needed now (especially with a new session of Parliament just under way) is a clear, positive message from Ottawa that will encourage the business sector to resume investing its risk capital in industrial capacity—with less emphasis on the "nationality" of the capital and more on the need to fight inflation and create jobs.

Role Of The Lieutenant-Governor

By DON O'HEARN
Queen's Park Bureau
Thomson News Service

TORONTO — Next week will mark the last time that Lieutenant-Governor W. Ross Macdonald will preside at the opening of a legislature here and deliver the annual speech from the throne.

Many fine things will be said about Mr. Macdonald at the occasion itself and in the time interveiling.

There are some people, probably a good many of them, who would do away with the office of Lieutenant-Governor.

To them it represents unnecessary pomp and a hang-over from the old days we don't need any more.

But no matter how they may feel about the office itself there would be few who would argue against the way in which Mr. Macdonald has honored it.

He has handled it with an easy dignity that has been a credit to the province itself.

What has been perhaps most amazing of all about Mr. Macdonald, of course, has been his energy.

Now 82 he has conducted his position with the vitality of a young man.

His schedule has been horrendible, and even at its most arduous points he has shown no evidence of tiredness or slowing down.

His long, distinguished figure with its mod haircut has invariably been the most prominent at the many functions he has attended and he has led the festivities long after much younger people have abandoned them.

Perhaps the prime job of being Lieutenant-Governor is to be official host for the province and nobody certainly has ever excelled Mr. Macdonald in this function.

The lieutenant-governorship, of course, has only capped what already was a distinguished public career for this Branford lawyer.

He had a long and exceptional political life; Speaker of the House of Commons, leader of both sides in the Senate and other high offices.

And it has been a life in which he has gained great respect.

Looking Backward

GLEANINGS FROM OUR FILES OF BYGONE YEARS

20 YEARS AGO

March 4, 1954

Thirty-five students of Albert College under the supervision of Mr. J. MacKenzie of the faculty staff, were taken on an educational tour of the Coca Cola Company's Sidney St. plant. The students were greeted by branch manager Aubrey Coe prior to the conducted tour.

Four senior editors of the Varsity, University of Toronto student newspaper, resigned Monday. They were Fred Rose of Aldershot, Elinor Bernstan of Belleville, Aubrey Golden of Toronto and Fraser McIntosh of Hamilton.

30 YEARS AGO

March 4, 1944

"Just leave your bulbs alone and nature will take care of any vagaries"of the weather." Such is the advice given by one of Belleville's foremost horticulturists, Mr. A. R. Symons of Sinclair Street, to the many local flower growers who are worried about their bulbs as the result of the unusual weather experienced this season. "Some days I get as many as ten to a dozen telephone calls from anxious flower lovers asking what to do to protect their bulbs from possible frost danger," stated Mr. Symons. "My only advice is to leave them alone; nature will see that they go unharmed. It is when people go digging around their shrubs and plants during time of frost danger that the damage is done."

40 YEARS AGO

March 4, 1934

There has been less influenza in this city this winter, despite its severity, with a consecutive absence of even slight colds, according to Miss Germain Dupuis of the local branch of the VON.

50 YEARS AGO

March 4, 1924

Under the auspices of Camp Rob Roy, Sons of Scotland, No. 61, an at home was held in the Oddfellows' Temple on Friday evening. After playing cards for some time, dancing was enjoyed and refreshments were served.

The Rev. E. Farnsworth and Mrs. Farnsworth of Carnation are in Toronto viewing the Japanese Pageant.

Bible Digest

by H. S. DEAN

"Howbeit Jesus suffered him not but saith unto him, Go home to thy friends, and tell them how great things the Lord hath done for thee, and hath had compassion on thee." Mark 5:19

The preaching and example of personal experience is hard to beat. Have you told anyone lately, or ever, what the Lord means to you? Jesus said, "If ye confess me before men, I will confess you before my Father and the holy angels."

New Faces In The Cabinet

By DON O'HEARN
Queen's Park Bureau
Thomson News Service

TORONTO — When a ball team or football team changes lineups at the start of a season, there can be little firm speculation on just how the changes will work out.

There are no absolute answers.

The recent cabinet shuffle in the Davis government can be looked on much in the sense of a team starting a new season.

And as with any team, there aren't any absolutes as to how the new make-up will work out.

To take those men who are retiring, or are being retired, former transportation minister Gordon Carton would seem to be the biggest loss. And also the most unexpected one.

Still only 50, Mr. Carton had been regarded as one of the most vigorous, and one of the best, ministers in the Davis front row.

There are many rumors about his particular retirement but the most accurate one probably is that he was finding political work too heavy a load—he was dedicated to his riding of Armourdale—and decided to get out, enjoy himself a bit and make some money while he still had time.

Former provincial secretary for natural resources A. R. E. (Bert) Lawrence had one of the best minds and most fervent political dedication in the government.

But he couldn't stand his behind-the-scenes role, and apparently no other was offered.

Retirement of Attorney-General Dalton Bales is somewhat of a surprise.

At one time he was known as the government to Premier Davis.

There is some talk that the relationship may have cooled. Certainly the absence of rumor is that Mr. Bales didn't want to go.

But he was a man who was available to make room for younger men and younger talent.

Former Solicitor-General John Yaremko, of course, was logical.

He was not only the veteran of the cabinet (appointed in 1959 he had been in a land controversy recently.

As with an outfielder past his time, his release was no surprise.

The other man to leave was Correctional Services Minister Syl Apps.

Support For School Sports

Editor,
The Intelligencer.

I am a student (female) at Centennial Secondary School and am writing in response to the Page 2 article regarding the cutting out of school sports in the high schools.

I feel that physical education is very essential for a number of reasons. A point was brought up that boys between 20 are as physically fit as 60 year-old grandfathers. This is one very good reason why phys ed should be banned. I am more people would get off their rear ends and do a little bit of exercising. There would be a lot more people living longer and far less heart attacks.

Another point was mentioned that kids are taught to study and leaving the gyms to the athletic supervisors who is certainly wrong. If the writer of that article had checked it out. He would have made a school that you don't have to be a genius to make the school team. There are several school teams available where everyone makes the team regardless of how good or bad he or she is. Cross-country, soccer, ice hockey, wrestling, judo, etc. are all individual sports where everyone makes the team. You could be really terrible, but this doesn't matter in an individual sport. I feel that teams such as basketball or football where the team is picked, which is only fair, because after all, they are the ones who practise hard and regularly.

One more point about leaving the gyms to the superstars is that it is not fair to the person who is in good shape and who has been working quite hard twice as hard as a fat kid. A lot of people do not agree with this but it comes from a teacher who used to teach phys ed. He said that a student is marked according to his or her ability. A very athletic person might run a 4-minute mile in a real good time while a fat kid might run the same time in a lot slower time, yet still come out with a higher mark. How can he hard to work twice as hard as the athletic person.

One final point. I would like to say is that phys ed might be quite costly, but it will pay out in the end. I myself would rather be in good physical condition than would personally from having some ailments and live longer and be healthy as well, than some super smart person who has a body like an elephant and has heart attacks and other ailments.

JUDI MEEKES.

"Hello Dolly" At Centennial

Editor
The Intelligencer

From Wednesday to Saturday last week Centennial people from Belleville and area attended a performance of "Hello Dolly", at Centennial Secondary School which was put on by the students of that school. The production was very well done and I am sure it was thoroughly enjoyed by everyone who attended.

I am, though appalled by the lack of coverage given by your newspaper. One article was printed on February 9 (two weeks before it started), one picture was printed on 22nd (night). As I stated earlier, ten hundred people came from and attended which is as many and most times more than the city's hockey Teams(s) get for only yet after every game there is a write up four or five columns in your paper. Surely a musical that takes more than three months to prepare and costs over $4,000 to present deserves at least one review after opening night.

KEVIN KIRBY

Today in History

By THE CANADIAN PRESS

Today is March 4, 1974.

Brother Marc Constant died at St. Thomas de Montmagny 125 years ago today—in 1849—and his death marked the end of the Canadian branch of the Recollet Order of Roman Catholic men's communities. The Recollets first brought Christianity to Canada when they accompanied both explorers and soldiers as chaplains.

1864—An arms ship, exploded in Havana harbor, killing 100 people.

1917—The Canadian Red Cross was established in England.

1930—Mackenzie King introduced a bill, later passed, prohibiting the export of liquor to the United States.

1961—The city of St. Thomas, Ont., was inaugurated.

1877—Chicago was incorporated.

Canada Cords

Top Award for Guides

DEMORESTVILLE — Two Sophiasburg township girl guides Sunday received their

Lakes Not So Safe

TWEED — Mild, wet weather over the weekend has drastically changed the safety factor on lakes and waterways in the northern Quinte townships.

The Ministry of Natural Resources district office reported here Monday morning that surface water was increasing on all lakes and streams. Airholes and currents were prevalent.

Mazinaw Lake, one of the biggest in the district has been declared safe only for pedestrians.

Small lakes may still carry a snowmobile, but thawing conditions are marked by increased surface water. Creek and inlets are unsafe for any kind of use.

Ground conditions for sports of all kinds also are uncertain.

A mild winter has sharply reduced the amount of snow in the bush. In the Tweed area it is only 10 inches deep, compared to about 27 inches at the same time last year.

At Eagle Echo provincial park snow is only 12 inches deep.

Fire in Car

TRENTON — Fire Sunday broke out in the engine compartment of a 1963 car owned by Mrs. Verna Hamilton.

The fire occurred at the corner of West and Creelman streets in Trenton, causing extensive damage under the hood of the vehicle. No cause for the blaze was determined.

Canada Cords during a Thinking Day service at Friendship United Church, Demorestville. Vera Allison and Mary Mowbrey were presented with the awards by district commissioner Dorothea Keech.

An All-Round cord was awarded girl guide Lynn O'Brien.

Religious and Life emblems also were presented by Reverend W. James Cullen to several Guides and Brownies during the service.

The Thinking Day service was attended by brownies, girl guides, cubs and boy scouts, each group paraded into the church with its separate flag bearer and guards.

Girl guide and brownie flags were received by Heather Ruggles while Dennis Lyons accepted flags for the cubs and scouts.

Guide laws were read by Glenda Waddington and scripture readings were given by Mary Mowbrey, Cindy Shortt and Dennis Lyon.

Barn Smoulders

MILFORD — Firefighters were recalled Sunday when rubble of a barn near here — destroyed by fire Thursday — began smouldering.

Timbers beneath the barn's concrete floor began smoking at the farm of Arnold Lafay, RR. 1, Milford, near Point Petre.

Picton fire chief Leonard Tripp today estimated loss in the fire — which destroyed 16 cows, 11 pigs and 4,000 bales of hay— at $16,000.

Quinte Cuisine

David Smith, co-ordinator of community education for the Hastings County Board of Education, says he cooks because it's a "good relaxing thing to do" though he says he's not really a regular meal preparer. He and his wife Marian, a technologist at Belleville General Hospital, live in a Confederation house on Victoria Avenue with their son and daughter. A second daughter is married and another is currently attending university. Mr. Smith suggests serving Chicken Cacciatore with a small salad, garlic bread and a medium dry Canadian wine.

Chicken Cacciatore

2 small chickens, quartered
or
6 large chicken breasts
4 tbsp. olive oil
one large onion finely minced
one stalk celery finely
½ green pepper, cut up
one clove garlic (optional)
¼ tsp. sugar
pinch cinnamon
¼ cup red wine
one 28 oz. tin tomatoes
or
3 large peeled tomatoes
1½ lbs. spaghetti noodles

Shake chicken pieces with flour, salt and pepper in a paper bag. Brown chicken lightly in olive oil. Remove chicken and add onion, celery, green pepper, garlic (optional). Cook until onions are yellow. Add cinnamon, sugar, wine and chicken. Cook and stir for five minutes. Remove garlic clove. Add tomatoes. Cover and cook slowly for one hour. Adjust seasonings to taste.

Cook spaghetti in boiling water.

Serve chicken and spaghetti in sauce. For six persons.

MR. AND MRS. HENRY KAFKA

Mr. and Mrs. Henry Kafka, who were recently married at the Church of St. Michael, the Archangel, Belleville. They are living at 569 Princess Street, Kingston, attending Queen's University.

Engagement

Mr. and Mrs. Donald Myers, Stirling, are pleased to announce the engagement of their eldest daughter Lucinda Elizabeth to Robert Allan Millert, eldest son of Mr. and Mrs. Junior Miller of Belleville. The marriage will take place Friday, March 8 at 7 p.m. at the bride's home.

Engagement

Mr. and Mrs. Leslie Taylor of Belleville are pleased to announce the engagement of their daughter Marianne Leslie to John Charles Brenner, son of Mr. and Mrs. Ralph Brenner of Shawnee Mission, Kansas. The wedding will take place March 30 at 4 p.m. in Bridge Street United Church.

* * *

Mr. and Mrs. Donald Hall of Frankford are pleased to announce the engagement of their eldest daughter Elizabeth Ann to Ronald Orval Towns, the son of Mrs. Phyllis Donaldson of Fort Saskatchewan, Alberta, and Ron Towns of Smith Falls, BC. The wedding will take place April 13, at 1 p.m. in Holloway Street United Church.

Soybeans Economical

OTTAWA (CP) — Consumers' Association of Canada reminds shoppers that soybeans are an economical and nutritious source of protein vitamins and minerals. Soybeans increase their size three times when soaked and cooked.

MR. AND MRS. FREDERIC BEDARD

Bedard — Runacres

The February 2 wedding of Wendy Lee Runacres and Frederick George Bedard took place at the bride's parents' home in a service conducted by Rev. Morris McLeod.

The bride is the daughter of Mr. and Mrs. George Bedard of Frankford.

Given in marriage by her father, the bride wore a gown of white nuit de soie with keg pointed sleeves, and a train which rounded at the back. Her bilelie cap of seed pearls held a four-tiered veil and her bouquet was white roses, daisies, stephanotis and baby's breath, accented with white ribbon.

Vera Burge of Cobourg served as maid of honor in a royal blue floral print knit gown. She carried white daisies, carnations and baby's breath accented with blue ribbon.

Robert Bailey was the groom's best man. After a reception held in the bride's parents' home, the newly married couple left for a honeymoon in Hawaii.

Mr. and Mrs. Bedard now live in Belleville.

Thomson — Bennett

The winter wedding of Susan Marie Bennett and Ian Christopher Evans Thomson took place in the United Church of Otterburn Park in St. Hilaire, Quebec, in a service performed by Rev. Jack Hobbs.

The bride is the daughter of Mr. and Mrs. Herman Bennett of Brighton, and the groom is the son of Mr. and Mrs. Graeme Rugge Thomson of Mont St. Hilaire, Quebec.

Given by her father in marriage, the bride wore an heirloom gold watch and chain over a gown of ivory satin with a train. An elbow length veil was held in place by an heirloom pearl and gold sunburst pin. She carried a cascade bouquet of orange shasta daisies, cream-colored roses and baby's breath.

Matron of honor was Lyn Rorand, in a blue wool gown with bell sleeves. She carried a cascade bouquet of yellow and deep purple shasta daisies.

Nicholas Thomson, the groom's brother, was best man. The ushers were Anthony Thomson and Peter Forand.

The reception was held at the groom's parents' home.

The newly-married couple now reside at 28 Richelieu Rd., Otterburn Park, Quebec, and will be leaving in September for a two-year stay in Nigeria.

MR. AND MRS. IAN THOMSON

Parents Barred From Kids' Restaurant

TORONTO (CP) — Absolutely no parents are allowed when kids have a party at a restaurant dreamed up a year ago by a university dropout.

Nick Green, its manager, said: "They can climb on the tables, stuff their mouths and make their own ice cream sundaes with as many cherries as the dish will hold."

The Mad Hatter's Tea Party is the second restaurant opened by 23-year-old Harry Gold-berg. The first caters to a family trade.

But Mr. Green said: "Even in a family-type restaurant, parents, grandparents, uncles and aunts are always telling the kids to behave, sit up, act like little ladies and gentlemen."

The Mad Hatter has an Alice in Wonderland decor, with a throne for the host or hostess, table boards on the floor, a birthday cake room, music and sing-room and an ice cream parlor where you make your own sundae exactly as you like it.

Staff dress in Wonderland costumes.

Grown-ups drop the kids off and pick them up. Coveralls and blue jeans are provided if the party-goers decide to paint. The atmosphere is strictly free-form with no holds barred except for physical violence or mistreating the furniture.

Mr. Green said: "You can get up on the table if you want to and we do cakes to fulfil the dreams of would-be ballet dancers, firemen, pilots, astronauts.

"We did have a problem with a seven-year-old who wanted a flying saucer and Martians for his birthday. We had a flying saucer cake, but when it was cut and no Martians appeared, he ran out yowling. I had to manufacture a logical explanation like the Martians being at a birthday party of their own in Martian land."

Sardines Threatened

NEW YORK (AP) — The sardine sandwich may become a thing of the past says Audubon magazine if overfishing of sardines persists. Britain's east coast sardine fishery has already been depleted while schools of the fish off Maine California and coastal provinces of Canada are dwindling.

Women Recruited by OPP

TORONTO (CP) — By summer, the provincial police officer you see in that black and white cruiser might be a woman.

After 45 years of totally male membership, the force is recruiting the fairer sex.

"Ontario provincial police-women will perform the same type of function as their male counterparts," said OPP commissioner H. H. Graham. "They will have the same authority."

Officials said the program will begin in May when the first 15 policewomen join the class of 45 trainees at the OPP college in downtown Toronto.

From there they will move into a detachment for on-the-spot training before taking the first six weeks of a 12-week course at the Ontario Police College at Aylmer, Ont. Then they will go back to a detachment for practical work until taking the final six weeks at Aylmer.

"We expect to recruit 45 policewomen this year and no set limit has been established yet," said Chief Inspector Fred Blicher.

To join the OPP, both women and men applicants must be between 21 and 35 years of age, Canadian citizens or British subjects in good health, of good character and with at least a Grade 12 education.

Women must be at least five feet, four inches tall and weigh 110 pounds.

Pay for men and women will be the same, from $9,805 a year for probationary constables to $12,250 a year for a first-class constable in 3½ years.

Unlike women on some police forces, the OPP policewomen will carry regular service revolvers, batons and handcuffs, officials said.

Consumer Complaint Bureau Still in Upheaval

By CHERYL HAWKES

OTTAWA (CP) — Things are changing at Box 99, the federal - government's consumer complaint bureau, but views differ on the benefits.

A major reorganization, begun a year ago—the bureau handled 19,000 queries by mail, phone and letter—has replaced the old guard of civil servants and businessmen with a new batch of complaint officers, mostly women and described as relatively inexperienced.

"We were told our work was not up to scratch," said one of the men who was replaced.

"We were told that when the place was reorganized, we had no hope of staying at the same job levels, let alone of promotions."

Former staff say the changes cleaned out four senior men including the bureau's three bilingual speaking officers and has tightened bureaucratic control over replies to questions and complaints.

Jane Heintzman, one of the new consumer complaint officers, suggested, however, that the people who quit just could not cope with the new rules and procedures.

"This is a highly structured organization ... with a fairly well-defined hierarchy. Everyone reports to some sort of supervisor . . . and that may get the goal of some men."

Box 99 is now part of a consumer services division within the consumer and corporate affairs department but its importance ranks above its size. The government heralded, it as Ottawa's direct link with the buying public when it set up the service in 1966.

The reorganization was undertaken to strengthen that link, said Gladys Dunn, the consumer services chief. "Each complaint officer will be working exclusively in a specialized area such as food, clothing, home furnishings, real estate or travel.

Job responsibilities will also increase, she said.

Instead of just problem-solving, the new consumer services officers will also work on information, new consumer service programs and the development of consumer legislation and policy.

The face-lifting, however, has inspired almost all the old consumer complaint officers to resign. Many experienced people who took their places say they also quit out of frustration.

Late in 1972, Box 99 was staffed by about a dozen people, including former businessmen, social workers, home economists and food scientists. Most had extensive experience either in the civil service or outside in consumer-related areas.

Only two of that group remain. One is Maureen Wadsworth, Miss Dunn's assistant.

Both were promoted to their posts early in 1973, just as the reorganization was initialed.

The atmosphere became acutely strained with the switch, recalled Linda Stewart, a former social worker who quit last April.

"When the reorganization was announced . . . it was like a total clampdown. . . . Everyone was told they would have to enter a competition for the new jobs. From then on, you were charted on the number of files, or cases, you could get rid of each month."

"So many political considerations," complained Mrs. Stewart.

"The worst thing that could happen was if the minister got an angry letter from General Motors. . . . We just seemed to be there to placate consumers."

Before, "you did what you thought was best to settle a dispute. . . . Things were pretty free-wheeling."

Former staff said Miss Dunn and Mrs. Wadsworth seemed threatened by the qualifications of many of their subordinates.

Four senior men, they said, were deliberately singled out. Reno Sauve was a former army colonel with 35 years' experience in the food industry; Gordon Charles, a former government cartographer; Jean-Paul Decoux, a former pharmaceutical salesman with medical school training from the federal health department and Jean-Jacques Marleau, a lab technician with the health department's food and drug directorate.

Mr. Sauve, Mr. Daoust and Mr. Marleau were the only French-Canadians working then at Box 99. Eight per cent of 1972 queries were in French, the department reports.

They were given "special assignments"—a thesis on the Box 99 operation. They then appeared before a board consisting of Miss Dunn and two other department officials which gave them no bright hopes for a future at Box 99. They said they were told they would have to compete for even lower-paying positions.

The former employees said Mrs. Wadsworth began directing most French-language complaints away from the three French-speaking officials.

"Most of those complaints went to English-speaking officers," said Mrs. Stewart. "They were really upset because their French was not good enough to phone up these people and talk over their problems.

She said most French complaints had to be handled by mail, with the help of the department's translation services.

"It was bureaucracy in the worst form. . . . One silly letter would take days."

The public service commission is sifting through about 1,000 applications for positions to a competition advertised during November and December for at least a dozen new consumer services officers.

The new positions pay between $11,000 and $17,000 a year.

Mrs. Heintzman, who joined Box 99 last summer, said she enjoys it.

"I have a certain amount of discretion, within limits. You could run into trouble though, if you chose to be too independent.

"That may make it difficult for a lot of men . . . to take direction from women, particularly if they had jobs before which allowed them to make a lot of independent decisions.

"We have a relatively young group . . . It's the first major job for most people here."

There are about 36 complaint officers, casual and permanent, she said. Four are men.

Letters sent by complaint officers to complaining consumers or businessmen are said to be carefully screened for legal slips or possible violations of government policy.

"There's a question of policy in almost everything," said Mrs. Heintzman.

The former officers said they view the new job competition as fulfilling the department's wish to staff Box 99 with inexperienced, less independent consumer-complaint handlers—people less willing to buck the bureaucracy.

Leaving the first applicants to be rejected was Pamela MacRae of Ottawa, for three years editor of the Canadian Consumer, monthly magazine of the Consumers' Association of Canada.

British-born Mrs. MacRae was rejected on the grounds that she is not a Canadian citizen. She came to Canada in 1946.

Commented Mr. Sauve: "It makes you wonder what kind of people they are looking for when they turn down someone like that."

Ann Landers

Reformed Gun Laws Would Save Lives

Dear Ann Landers: I've wanted to write this letter for months, but I just couldn't bring myself to do it. Now I must try. It's about your efforts to get some decent gun laws passed in this country.

My father bought a handgun when Mom filed for divorce. I was hanging her pack to leave when my father walked in and shot her in the face. She died instantly. He then turned the gun on himself and blew his head off.

Two years ago, a dear friend of mine became depressed because she was afraid she might lose her job. She was a darling girl and no one who knew her suspected she was in such a state of depression. She bought a gun, drove to a wooded area and killed herself.

Now, the final blow. My husband became involved with a teenage girl. He thought he had ended it out of it, but last week she came to our home, pulled a gun out of her coat and went to kill him and then herself. He recovered the gun by lying, saying he really did love her and he'd find a way to marry her. The gun is now locked in the glove compartment of our car until we decide what to do with it.

The people who are fighting gun laws don't realize that most bullet murders are performed by "friends" and relatives. If they didn't have guns they'd use their fists or a ball bat. Even a knife is a lot less dangerous than a gun.

Please, Ann, don't give up the fight.—N.N.

Dear N.N.: Don't worry, I won't. The problem is, what are we going to do about the estimated 30 million guns that are home now? I suggest the government pay a hefty bounty for every handgun turned in. Expensive? Of course, but well worth it. Think of the agony and grief that could be spared if we could get rid of 30 million guns out of circulation.

Dear Ann Landers: Recently you printed a letter from a man whose brother-in-law blugged about faking a back injury after a traffic collision. I saw in my husband's medical journal a cartoon showing "the perfect malingerer's alibi." It was such a malady. It depicted a patient sighing with relief, smiling happily, when a large bundle of ten-dollar bills was applied to the "painful" area. The caption of the cartoon was The Magic of Green Poultice.

What a great many people don't know is that those fakers are responsible for the skyrocketing insurance rates, another example of how honest people get penalized for the dirty work of the liars and cheats.—M.D.'s wife And Daily Reader

Dear Daily: Right you are, and unfortunately it will be ever thus. But you'll be pleased to know that the insurance companies are a lot smarter than they used to be. It's becoming increasingly difficult to fake an injury. And when they catch a phoney they fix him so he has a very hard time getting re-hired—by anybody.

Successful Living

More on Kindness Club

By DORIS CLARK

Dear Doris: Thank you for the column on Kindness Clubs. The helpless ones need all the help they can get, and it is too bad that we don't have these clubs in all the schools.

It is also too bad that the churches do not promote kindness and reverence for all life.

Animal Lover.

Dear Lover: If animals could talk it might help!

Then we could get some ideas about what they are thinking. Maybe we'd also give them nearly enough credit for intelligence. People who study animals and birds open up a whole new concept of life. They have taught me to create homes and make lives for themselves.

When we read about them, it helps us to see them as living beings, with feelings and thoughts worthy of some consideration, much more consideration than is given to them in many situations.

The Kindness Clubs are worthy great, leaders in helping children to understand animals as friends; to see them as they are, to love them and depend on them for fair dealings.

Dear Doris: I am troubled with whiteheads. I have read that they are little pockets beneath the skin which are made up of fat and waste.

When you squeeze my skin between two fingers, it causes it to ripple and look like an orange peel. I am only 21 years old and I am not overweight, in fact I am underweight. The skin on my thighs has this wrinkled look too.

Is there any way I can get rid of this, perhaps through exercise? I sit at a desk all day.

Whiteheads and Wrinkles.

Dear W. and W.: Whiteheads happen with acne, and I would suggest that for their removal and for acne treatment you see a skin specialist.

Sometimes wrinkled skin in a young person is the result of poor nutrition. The skin shows it if we aren't getting an adequate amount of vitamins, minerals and all the other things we get into a good diet. I'm sending you a copy of "Canada's Food Rules" and would suggest that you review your whole diet, day by day, to see if you can improve.

If you are sitting a good part of the day you need some exercise. A ball-bed would get you feeling better and would help tone up your whole system, including your skin.

Dear Doris: I was one of those pregnant brides. I'm still disgusted about it.

Now my daughter is coming 14 years old; how could I tell her about why we were married in January and her being born in June? How could I tell and explain to her so she wouldn't follow in my footsteps?

If she already knows about it, which she probably does, she has never said anything. How could I tell her to be good when she could tell me, "Look who's talking!"

Disgusted.

Dear Disgusted: Handled right, your experience is something which can help your daughter to avoid following in your footsteps.

Most of all she needs honesty from you. She needs to know the circumstances, how you felt about it, and the disadvantage your pregnancy gave you in entering into marriage without enough preparation. This may well give her the courage to hold out for a man she cares about, and marry him, before yielding her whole self to him.

She will honor you for being honest, and if you will open up to her she is more likely to come through to you when she has questions that puzzle her or feels guilty of something.

People and Events

"I think that colors are as important in our lives as words are; and words cannot be said as satisfactorily for color. The language of color can express the whole gamut of human emotions in quite a different way from words."

This is the philosophy of Bernai Klein, whose mill in Galashiels, Scotland, was visited by Nancy Miller, program chairman for the most recent meeting of the Women's Study Guild held at the home of Jean Miller.

Mrs. Miller discussed the rise of Bernat Klein from young textile designer to prominent and successful mill owner after years of struggle.

Mr. Klein now employs 600 persons in the production of yarns used in the weaving of fabrics for which he is noted.

Mrs. Miller exhibited his book Bernat Klein and read from it several extracts and displayed his eye-color chart of 64 shades of coloring which he says should be followed in choosing clothing.

"Many people may consider clothes and color unimportant and trivial. As part of a full life, which to me means a life composed of many simple small pleasures, clothes and color are at least as important as food or drink," he said.

Fabrics from Klein's were displayed during the social hour which followed the meeting.

* * *

After the recent wedding of Patricia Alice Wright and William Leonard Sweet, a reception was held at the home of the bride's parents, Mr. and Mrs. Ken Wright, Belleville.

* * *

The February meeting of St. John's Anglican Church Women was held at the home of Mary Barton. Kay thompson opened the meeting with prayer.

A letter was read from Thelma Isabel Judge, asking for help and support in the aid of a lady missionary in Nigeria.

Guest for the evening was Robert Aylesworth. He was introduced by Luella Philips.

Mr. Aylesworth gave a talk on Jerusalem and the surrounding area.

The next meeting will be held on March 12, at 8 p.m., in the Parish Hall. Lemoine West will be the guest that evening.

The meeting closed with prayer and a time of fellowship followed.

Members of the Women's University Club took a "trip" through the history of Greece from 1200 BC to 1974 AD. With the guidance of John Zikopoulos, members and friends explored the glory of the civilisations that rose and fell over the centuries. A series of slides revealed the evolution of philosophies unveiled through the art, architecture, and religion of the ages. Greece has been acquired many times over the centuries, but no foreigner has ever quite captured the Greek spirit, he said.

The sequence of the slides shown by Mr. Zikopoulos disclosed the gentle, joyous life of 1200 B.C. as a matriarchal society which lasted for a long time. The modern world has unashamedly imitated the Greek political philosophies, art, and architecture.

The president, Mrs. A.H. McFarlane, reminded members to collect books for the Book Fair to be held this spring in order to raise funds for annual scholarships.

Your day is longer, harder, more demanding than your children's.

Yet you think they need milk's nourishment... and you don't?

The fact is that nobody ever outgrows the need for milk. As a single all-round source of nutrients essential to health...and the vitality and stamina that go with it...milk is unequalled.

What made you think that milk was just for children?

You probably never did really THINK about it. If you had, you'd never have dropped the habit of drinking milk.

But, as you grew into your teens, you probably drifted away from milk-drinking and into soft-drink sipping. So did most of your friends.

So, in fact, do most Canadian teenage girls: ask any high-school health teacher or dietitian.

Whatever cultural factors are responsible for this, it is a great pity. And our bodies are the poorer for it.

Read on, and see how much milk can contribute to your adult health and well-being.

7 essential nutrients. Milk provides them all!

These seven nutrients are so important to your body's functioning that, without them, there can be no lasting good health or feeling of vitality.

It is comforting to know that every glass of milk you drink delivers significant amounts of all seven.

Here they are:

Calcium. Needed in adult bone and tooth maintenance. Milk is an *excellent* source of it.

Protein. Milk is an *excellent*—and relatively cheap—source of high quality protein.

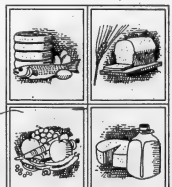
Riboflavin. Milk scores another *"excellent"* in providing this health factor.

Vitamin A. If you drink whole milk, you're drinking an *excellent* source of this vitamin.

Phosphorus. Also needed for maintenance of adult bones and teeth; and another *"excellent"* for milk.

Thiamin. Milk is rated as a *good* source of this health factor.

Vitamin D. In Ontario, this vitamin is almost always added to milk. (The carton will say so.)



In addition to the seven above, milk contains amounts of almost all other factors known to have a role in human nutrition. No other single food can rival it!

That's why milk is one of the fundamental foods in any meal-plan offering proper nutrition. For adults as well as children.

A basic guide to good eating.

Good eating means "good taste": a variety of interesting foods on your plate each day. It also means "good nutrition." Here, variety is the key as well.

Follow these four food groups, each day,

when you choose the foods you will eat. Be sure that each of them is represented ...and you'll have the best of both worlds: good taste AND good nutrition!

Meat & its alternatives. 2 servings daily of meat, fish, poultry, eggs. Nuts, peanut butter, dried beans or peas are excellent alternatives to meat.

Cereals, Bread, Pastas. 3 a day. Examples: bread, the morning cereal, macaroni.

Fruit & Vegetables. Choose these with an eye to colour, making sure to include one that is a source of Vitamin C. 3 selections each day.

Milk & Milk Products. At least once or twice a day. Milk, cheese, yoghurt, ice cream all give you milk nourishment.

If you would like this guide in fuller detail and in handy sheet form (attractive enough to post up on the kitchen wall) write to the Nutrition Communications Division of the Ontario Milk Marketing Board, 50 Maitland Street, Toronto, M4Y 1C7. We'll be glad to send you one, free.

Fat content of milk— It's lower than you think.

Most people, asked to guess the butterfat content of milk, guess much too high.

The actual fat content of whole (homo) milk is surprisingly low: about 3½%. In this fat component is contained enough Vitamin A to make whole milk an excellent dietary source of it.

2% gets its name (and its correspondingly lower calorie count) from its lower percentage of fat content.

Skim milk has virtually no fat and is the lowest in calories of all milk. Because of this, it is not a dietary source of Vitamin A. So, if you choose skim, take care to get adequate Vitamin A from the other foods you eat.

The kind of milk you drink is up to you. The important thing is to DRINK it. Every day!

How milk can help increase your staying-power.

First of all, milk is so easy to take. You don't have to peel it, cook it or sit down to eat it; you just pour and drink a glassful.

But that glassful, don't forget, contains more of the nutrition you need than any other drink that Nature can supply.

The result is more than just a temporary "lift" (the kind you might get from a cup of coffee). Every glass of milk you drink makes a real contribution to your general health and ability to keep going throughout your busy day.

Nature's most nearly perfect food: it's milk.

Here are three things for you to remember about milk:

1. Of all foods, it is the most complete. No other single food contains so many nutrients essential to human health.

2. You never outgrow the need for it. NEVER. Milk is not just a necessity for children: adults need it, too.

3. The habit of drinking milk daily can give you a big boost along the road towards real health...and the glow of vitality that makes all of life seem a lot more fun.

Now. Anyone for a glass of milk?

Grant Goegan Fires Winner

Bobcats Square Series

By MIKE BRADSHAW
Sports Staff

— The Belleville Bobcats evened their semi-final series with the Pickering Panthers at 1-1 Sun day night when Grant Goegan scored in the second overtime period to give the Cats a 3-2, sudden death victory.

"That was a nice one to get," said Goegan, "that's my first important goal for this team since I've started playing. It felt great to score it in sudden death."

The teams completed the regular 60 minutes with the score tied at 3-2. After 10 minutes of overtime, the score remained deadlocked.

The game then went into the second 10 minute, overtime period. This one was sudden death, meaning the first team to score would win.

At 6:06, on a Bobcat power play, Goegan took a pass at centre ice from Tim Stone and skated over the Pickering blueline. There, he was spun around by a Panther defence man, but regained control of the puck and, as he came out of the spin, fired a low backhand to the wide side of the goal behind a surprised Dave Hulme, the visitors' goalie.

"Now I know how Toller Cranston feels when he goes into one of his spins," added Goegan jokingly.

Sherry Bassin, Panthers coach, commented, "It was a tough one to lose. Both teams played exceptional games of hockey and it could quite easily have been either way. We both had enough chances."

Belleville coach Moe Horner, who had predicted the victory after the loss in the series opener, said, "That was a good game whereas the neither team should have lost. It's just too bad for one team where I think we beat them was in the first period. We had a 2-0 lead and a chance in the opening period to throw them by the wayside."

The Cats played a completely different type of first period than they had in Pickering, Friday night.

"We didn't get a single opportunity to set up a good scoring play as Belleville suppressed any Panther attacks with excellent defensive coverage.

Each time the Panthers attempted to start a rush, the Bobcat forecheckers were on the spot to foil the play.

When the Panthers did manage to set up any first period rushes, the Cats' defencemen, Tim Yohn, Dave Taylor, Dave Fleck and Vern Amey broke up the plays at the Belleville blueline.

"I still haven't figured whether or not we were off in the first period," said the Panthers coach, "or whether they played exceptionally well. I'm inclined to think it was the latter."

The Cats played intelligent hockey throughout most of the game, particularly in the opening 20 minutes.

They took no chances with ill passes and refused to opportunities to go on the offensive. While playing defence the Cats always had at least one of their forwards back in their own end to backcheck.

Belleville's blueline corps, Yohn, Fleish, Amey, and Taylor, were the difference, many occasions, between winning and losing.

"They played very well," said coach Hunter, "they've been coming along since the playoffs started and to night they just didn't make any mistakes."

The Cats' defensive foursome not only covered the Panthers in front of the net, but consistently took Pickering attackers out of plays, fell in front of Panther shots and started many of the Belleville rushes.

Belleville tallied the only goal of the opening period.

Dave Hulme, Panther goalie fighting in the second period and scored with 2:23 remaining in the game. The goal, however, was knocked in with a high stick by centre ice official. That particular judgement seemed to anger some of the wind out of the visitors' billowing sails and handed the Cats morale.

Belleville then took command for most of the period and with the presence of Hulme and a little good fortune for Pickering kept the Bobcats off the scoreboard. The locals outshot the Panthers in the second period 12-6.

Pickering came out in the final period playing with open hockey and the Cats came out somewhat slower than their pace in the previous 40 minutes.

The Cats did, however, score the first third period goal, but the Panthers took advantage the chances Belleville offered them and scored two quick goals themselves.

On the visitors' second tally, the one which tied the game, Belleville goalie Bruce Clark was knocked unconscious and had to be carried off the ice. Clark appeared to be healthy after the game, but he will be out of the lineup until his health is clarified by a doctor.

Belleville 20; Pickering 24.

Pros and Cons Presented

Off Track Betting Question

An Ontario Task Force on off-track betting (OTB) states: "The interests of small tracks, horse owners and breeders as the grass roots of the industry — need to be protected if these are to survive in parallel with an off-track betting operation."

A release from the Ontario Jockey Club states the president of the organization John J. Mooney points out that in representations to Ontario Government officials, it had been recommended that a "special fund" be created, out of which payments would be made to "B" racetrays, to ensure that they share in the profits from betting generated by OTB.

Mr. Mooney observed that if one per cent of the off-track wagering were paid-into such a "special fund" to provide additional revenues for "B" racetrays, according to conservative projections, this would produce an amount equal to 128 per cent of their existing combined revenues (mutuels and admissions).

According to the Ontario Jockey Club, OTB has the overwhelmingly support of horsemen in Ontario. However, the jockey' club recognizes that there has been opposition to OTB by "B" racetrays.

In this connection, Mr. Mooney says that specific safeguards for "B" racetrays had been recommended to the Government of Ontario, in addition to the provision for a "special fund".

It has been recommended that the "B" racetrays be represented on the board operating OTB. It has also been recommended that, where the board determines it to be in a track's best interests, OTB shops located in the same town or region should be closed while a program of racing is in progress.

The Harness Tracks of Ontario Association has some interesting comments to make on the subject of OTB.

Remarks by the association president Gerry Martin follow:

"The interesting question in the whole discussion re: OTB is, who wants it and why?

"The Ontario Jockey Club of Toronto, Mr. Taylor's nonprofit organization, is the only racing organization in Canada which desires OTB. Of the other 18 tracks in the province, representing 50 per cent of the total wagering on harness races, all are unanimously opposed to OTB in Ontario, except Windsor.

(Because of differences of opinion of its members, the board of directors of Windsor Raceway is expected to have formed a committee to study OTB and its possible effects on racing attendance and handle, at Windsor.)

"Since the introduction of OTB at Rooseveli Raceway, New York, has resulted in a reduction in harness racing attendance and handle of 20 per cent and 11.9 per cent respectively. At the same time, in Buffalo, New York, where there is no OTB but where the tracks are threatened by it, there was an up 18 per cent and handle up 28.1 per cent.

"With record increases in handle and attendance at Ontario tracks over the last three years, both thoroughbred and harness, and corresponding increase in the tax revenue of the Ontario Government, it is apparent the same period, why does Mr. Taylor's Ontario Jockey Club wish to introduce OTB into the Ontario racing scene?

"If OTB is introduced and bets are taken on horses racing at any track, as was given evening, the majority of bets would be placed, via OTB shops, on horses racing in Toronto, since the Ontario Jockey Club has the best known horses and drivers and more formula wagering possibilities and greater purses. The wagering on the small "B" tracks would then drop off.

"The Ontario Jockey Club states that its plan would compensate these small tracks for any losses. But how would it compensate for the potential loss of growth in these tracks in the future?

"The strongest supporters of OTB of course, are the thoroughbred interests, whose gains from racing in the last three years have been less than those of harness interests.

"But from an economic point of view, which is of more importance, the 700 thoroughbred owners in Ontario who train and race most of their stock outside Ontario, or the more than 7,000 harness horsemen in the province who breed, train and race on Ontario tracks and create employment in rural communities?"

Algonquin Squad Upsets St. Lawrence

Algonquin College Cats, of Ottawa, came up with a surprise 72-51 victory over St. Lawrence College, Kingston, on Saturday to capture the Eastern Ontario College Athletic Association (EOAAA) men's basketball championship at Loyalist College.

The Cats had finished in second place in the regular season standings with losses, both of which came to St. Lawrence, who finished in first.

Loyalist College, the host of the EOCAA championships, were beaten out in the semi-final round by Algonquin on Friday.

Loyalist met Sir Sandford Fleming, Lindsay, in the consolation championship also held Saturday, and defeated the Lindsay squad.

Algonquin was down 28-25 at the half, but came up with an excellent defensive stand in the second half to outscore the Kingston crew 32-23.

St. Lawrence ran into foul trouble in the second half of the contest, as two of their top scorers; Dave MacKenzie and Mike Dufour, found themselves out of the game with five infractions each.

The 6'5" Dowling had accred 31 points against Sir Sandford in the semi-final Friday, and Dave MacKenzie had 13 in that game.

The Cats came through with an all around team effort in the scoring department with only two players reaching double figures and the remainder of the points scattered throughout the team.

Jim Norris was top shooter for the Cats firing 14 points and Dennis Nehers was next with 12.

Kingston got 19 points from Milo MacKenzie, the league's top scorer during the regular season. The remainder of their point getters scored in single figures. The St. Lawrence team was rated the favorite to win the championship since they had the top offensive record, with 1316 points for, and the top defensive record, with only 728 points against, in their 15 regular season games.

In the Consolation Championship in Bill Ryke was top scorer for the Lancers with 28 points, while Dave Culmer fired 21. Jim Sutton added 14 to the Loyalist scoring attack. Harvey Sharpe, Loyalist's top scorer through the regular season and high scorer in the semi-final match Friday, was held to just six points by the Lindsay defence.

Sharpe, Kyle, Culmer and Sutton finished third, fourth, fifth and sixth, respectively,

Bird's Meets Lindsay No Dates Confirmed

TRENTON — The Bird's Handy Stand Juveniles know they'll be playing for second round Ontario Minor Hockey Association playoffs berth. The question is, when?

Lindsay got by Bay Ridges 4-3 at home Sunday night to win that series 3-1 and qualify for the right to advance against Bird's.

Garry Birt, manager of the Trenton team, had hoped to open the second round set at home, Tuesday night. But the word this morning from club publicity director Don Taylor, is that no Trenton-Lindsay dates have been confirmed as yet.

An announcement concerning the playoff dates is expected later today.

Meanwhile, Trenton's Quinte Ice Products Midgets have forced a fifth and deciding game in their OMHA series with Kingston Township. The teams will hook up in Kingston tonight with the winner advancing to second round play. A bus has been laid on for the Kingston trip and will leave the Community Centre at 6 p.m.

The Trenton Midgets forced the fifth game with a 5-3 home ice win Sunday night.

Kingston opened and closed the scoring in the game but in between, Trenton got a pair of goals by Tim Nevins and one each from team captain Bob Thompson, Bruce Leedham and Tom Manley.

Scoring for the visitors were Steve Howey and David Darlington.

Bird's Juveniles scored a 7-3 win over Whitby-Brooklin in a Sunday night exhibition contest here. Four unanswered goals in the third period broke up a close match and gave the Trenton skaters the five-goal margin.

Don Armstrong supplied three goals and singles were potted by Gary Gilbert, Ken Klemencic, Bob Campbell and Bill Glover.

Replying for Whitby-Brooklin were Ron McCoy and Harry Forbes.

Saturday night here, Loyalist Coach Lines minor mentors wrapped up their OMHA set with Kingston Township via a 14-0 shutout recorded by Phil Dunkley. The Trenton team took the series 4-2 and will meet either Bay Ridges or Whitby-Brooklin in quarter-final play.

Marko Turcotte scored the only goal the home team needed, connecting early in the second period on a pass from Doug Reid.

Team manager Ken Stafford credited his club's success to "a solid team effort".

Trap and Gun

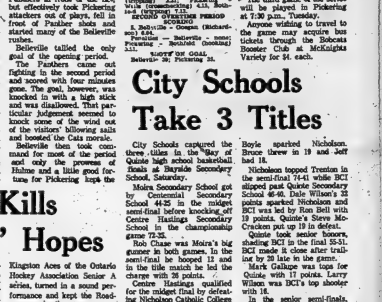
A score of 23 was all the shooting enthusiasts could do Sunday in the regular Quinte Trap and Gun Club meet, with Dick Hayes and Cord Bates both reaching the total.

Bert Burgess was next in line with a 22, while Dave Wagner was in with a 21.

In doubles competition, Ed Thompson fired 72 of a possible 30, while Dick Hayes had a 31.

Lovett Kills Lancers' Hopes

The Loyalist College Lancers hockey team had a tough finish to a rough season Saturday night as they lost the chance to compete for a berth in the Ontario College Athletic Association Championships by virtue of a 5-3 defeat at the hands of the Centre Roadrunners in Cornwall.



Loyalist had risen from the crest of a wave of misfortune throughout the regular season, losing several key players by close scores and finally on the last Saturday night of the season, dropping from second place to third spot in the league standings.

The Lancers outshot the Roadrunners 39-24 in the game but it hadn't been for Mike Lovett in their nets we would have seen a rout, coach Bruce Cameron.

Lovett, a former goalie with

FIFTH RACE — Kingsway (2, Mutuels: 2-1, $4.60; 3-1, $3.20; 7-2, $3.00) Own (14) Driving: Lloyd Bailey (M. Blooma) 5.80, 4.60, 3.20; Fortune (3) Lloyd Bailey (M. Blooma) 6.20; Royal Pedro (12, Wassy) 3.00. Scratched — Bonnie Bay, Lady Ann.
SIXTH RACE — Kingsway (2, Mutuels: 2-1, $4.60; 3-1, $3.20; 7-2, $3.00) Own (14) Driving: Lloyd Bailey (M. Blooma) 5.80, 4.60, 3.20; Fortune (3) Lloyd Bailey (M. Blooma) 6.20; Royal Pedro (12, Wassy) 3.00. Scratched — Bonnie Bay, Lady Ann.
SEVENTH RACE — Kingsway (2, Mutuels: 2-1, $4.60; 3-1, $3.20; 7-2, $3.00) Own (14) Driving: Lloyd Bailey (M. Blooma) 5.80, 4.60, 3.20; Fortune (3) Lloyd Bailey (M. Blooma) 6.20; Royal Pedro (12, Wassy) 3.00. Scratched — Bonnie Bay, Lady Ann.
EIGHTH RACE — Kingsway (2, Mutuels: 2-1, $4.60; 3-1, $3.20; 7-2, $3.00) Own (14) Driving: Lloyd Bailey (M. Blooma) 5.80, 4.60, 3.20; Fortune (3) Lloyd Bailey (M. Blooma) 6.20; Royal Pedro (12, Wassy) 3.00. Scratched — Bonnie Bay, Lady Ann.
NINTH RACE — Kingsway (2, Mutuels: 2-1, $4.60; 3-1, $3.20; 7-2, $3.00) Own (14) Driving: Lloyd Bailey (M. Blooma) 5.80, 4.60, 3.20; Fortune (3) Lloyd Bailey (M. Blooma) 6.20; Royal Pedro (12, Wassy) 3.00. Scratched — Bonnie Bay, Lady Ann.

Bruce Clarke, Belleville's starting goalie in the second game of the semi-final series against the Pickering Panthers, makes a great save on Pickering's Hank Bothfield (18) from point blank range. Clarke made many key saves in the Cats' 3-2 overtime victory before being knocked unconscious early in the third period. The Bobcats evened their Metro Junior B series at 1-1 with the win.

City Schools Take 3 Titles

City Schools captured three titles Friday night in the Quinte high school basketball finals at Bayside Secondary School, Shannonville.

Moira Secondary School got the Centennial Secondary School 46-42 in the midget semi-final before knocking off Centre Hastings Secondary School in the championship game 72-38.

Rob Chase was Moira's big gunner in both games. In the semi-final he hooped 12 points in the title match he led the scoring with 20 points.

Centre Hastings qualified for the midget final by defeating Nicholson Catholic College 37-36. Dale Ray led Centre Hastings with 15 points.

In the junior final, Nicholson Catholic College's Andrew McBryde Collegiate Institute 43-38. Bruce Collins and Jeff Boyle sparked Nicholson. Collins threw in 19 and Jeff had 18.

Nicholson topped Trenton in the semi-final 47-41 while BCI slipped past Quinte Secondary School 46-40. Dale Williams' 23 points sparked Nicholson and BCI was led by Ron Bell with 19 points. Quinte's Steve McCracken put up 19 in defeat.

Chase took senior honors, shading BCI in the final 55-51. BCI missed a chance to tie Chase in the last minute by 20 late in the game.

Mark Gallupe was tops for the champs with 20 points. Larry Wilson was BCI's top shooter with 16.

In the senior semi-finals, Quinte beat Moira 62-43 with Chase leading the way with 18 points. Moira got 16 from Dan Stewart.

BCI sidelined Trenton 52-44 as Dave VanVliet scored 11

Sports Calendar

MONDAY
FR. D PLAYOFFS
TUESDAY — Trenton at Picton, Centre Hastings, 7:30, Bird Handy Stand at Lindsay, 7:30.
WEDNESDAY — Pickering Panthers at Bobcats, Memorial Arena, 8:00, Trenton at Picton, Centre Hastings, 7:30.
THURSDAY — Bobcats at Pickering Panthers, 8:00, Picton Gardens at Trenton semi-finals.
FRIDAY — Bobcats at Pickering, 8:00.
WEDNESDAY — Meeting at Memorial Arena, 7:30 p.m.
THURSDAY — Basketball at Centennial Secondary School, 7:30 p.m.
TUESDAY — Basketball at Centennial Secondary School, 7:30 p.m.
WEDNESDAY — Basketball at Centennial Secondary School

Big Weekend for Leafs Canadiens Slipping

By LLOYD JOHNSTON

The future looks brighter for Toronto Maple Leafs, but the fortunes of Montreal Canadiens hit their lowest ebb of the season as a result of weekend games in the National Hockey League.

The Leafs strengthened their grip on fourth place in the East Division by upsetting league-leading Boston Bruins 6-4 Saturday, but the Canadiens saw their second-place margin shrink to two points over the Rangers, losing 6-0 to Philadelphia Flyers as New York Rangers blanked California Golden Seals 8-2.

In other Sunday games, Buffalo Sabres edged New York Islanders 4-3, Chicago Black Hawks tied Detroit Red Wings 4-4 and Atlanta Flames topped Vancouver Canucks 5-3.

The Flyers beat the Sabres, 4-2, Saturday, Boston and Detroit tied 4-4, the Leafs beat New York Islanders 7-3, Pittsburgh Penguins whipped the Canucks 6-1, California Golden Seals stunned the Canadiens 4-3, the Rangers beat Minnesota North Stars 3-1 and Los Angeles Kings defeated St. Louis Blues 4-2.

Toronto 4 at Boston 6

Back-to-back victories raised the Leafs edge over the fifth-place Sabres to 10 points although Buffalo has two games in hand.

If the Leafs win half of their remaining games, the Sabres will have to win 11 of their last 16 games to keep pace.

It was Toronto's first victory at Boston Garden since March 31, 1968.

Darryl Sittler scored his 34th goal of the season and assisted on two others to spark the Leafs.

Montreal 8 at Philadelphia 6

The Flyers scrapped with a three-point lead over the Black Hawks in the West Division as Bernie Parent blanked Canadiens for his 11th shutout of the season. He turned aside 24 shots and brought an end to Claude Larose's scoring streak which produced nine goals in three previous games. Bill Flett led the winners with two goals.

California 2 NY Rangers 8

Brad Park scored two goals to lead Rangers to their seventh consecutive victory and New York coach Emile Bert Francis won his first NHL goal on his first shot against the former club.

Vancouver 3 at Atlanta 5

Atlanta's Keith McCreary tallied the winning goal, his second of the game.

The victory put the Flames into third place in the West Division ahead of Los Angeles and St. Louis.

NY Islanders 3 at Buffalo 4

The Sabres, losers Saturday, gained their revenge behind Sunday to overcome the Islanders on power-play goals by Rick Martin and Gil Perreault in the third period. Martin's goal was his second of the game and 49th of the season. Billy Harris produced three goals for New York.

Chicago 6 at Detroit 6

The six-goal Detroit performance equalled the most against Chicago goalie Tony Esposito this season and made a dent in his 1.98 goals-a-game average. Red Berenson led the Wings with a pair of goals. Dale Tallon had two markers for the Black Hawks, who needed a goal by defenceman Keith Magnuson with six minutes remaining to salvage their tie.

Walton, Hull Shine in WHA

By THE CANADIAN PRESS

Mike Walton and Bobby Hull, defectors from the National Hockey League, dominated the scoring in World Hockey Association games Sunday.

Walton scored three goals and added an assist to spark Minnesota Fighting Saints to a 5-3 decision over Los Angeles Sharks, while Hull punched home three goals as his Winnipeg Jets defeated Quebec Nordiques 8-6.

In other games, New England Whalers defeated Houston Aeros 6-3, Toronto Toros conquered Chicago Cougars 8-4 and Edmonton Oilers tied Cleveland Crusaders 3-3.

New England thumped Vancouver Blazers 7-1 Saturday and New Jersey Knights clipped the Sharks 8-7.

Los Angeles 3 Minnesota 5

Walton's efforts shot him into the league scoring lead, one point ahead of Aeros' Gordie Howe and helped the Saints extend their unbeaten streak to nine games.

Walton now has 40 goals and 51 assists for 91 points. The three goals marked the fourth time this season he has established the feat, but the Saints remained nine points behind the division-leading Aeros.

Quebec 6 at Winnipeg 8

Hull's third goal was the 700th of his hockey career. It was a power-play goal in the third period that was the eventual winner. Alain Caron scored his 28th and 29th goals for the Nordiques three minutes apart.

The win enabled the Jets to claim third place in the West, two points ahead of the Oilers.

New England 6 at Houston 3

The Whalers moved three points ahead of Toronto Toros in the race for first place in the East as they were paced to victory by Tommy Williams and Al Karlander, who each scored two. Gordie Howe had a goal for Houston.

Toronto 5 at Chicago 4

Two goals by Guy Trottier lifted the Toros to victory and nullified the Cougars' bid to improve their fifth-place position in the East. First-period goals by Rick Morris and Rosaire Paiement had given Chicago a temporary 2-1 lead.

Cleveland 3 at Edmonton 3

Bob Woytowich, Grant Erickson and Jim Wiste each scored once in a span of less than seven minutes to give Crusaders a split in the points, as neither team was able to produce a goal in the overtime period.

Gerry Cheevers, Crusaders' No. 1 goalie, was honored by the Oilers between the first and second periods for his contribution to the WHA and his starring role in Western Canada Hockey League all-stars during the junior team's victory over the touring Moscow Selects earlier in the season.

3-3 Tie Enough For the Swords

By THE CANADIAN PRESS

Cincinnati Swords only tied Richmond Robins 3-3 Sunday night, but it was enough to keep them in first place in the tight South Division of the American Hockey League.

The Swords, who have 14 wins and four losses in 18 games against the Robins, now have 77 points, one more than Baltimore Clippers and Hershey Bears.

In other games, Rochester Americans whipped Jacksonville Rockets 10-3, Baltimore Clippers walloped Boston Braves 10-2, Providence Reds defeated New Haven Nighthawks 8-3, and Springfield Kings edged Nova Scotia Voyageurs 3-2.

Saturday it was: Boston 5, Nova Scotia 3, Hershey 11, Rochester 1; Jacksonville 5, Springfield 4, and Virginia 5, Richmond 4.

Swords 3 Robins 3

Alan Maxfield gave Richmond the tie when he scored on a 12-foot backhander one minute and 41 seconds into the third period.

Larry Wright and Larry Goodenough got the other Richmond goals, while Joe Rotteau, Jim Pappin and Larry Landry scored for Cincinnati.

Americans 4 Rockets 3

Murray Kuntz paced the Americans with three goals, giving him 34 on the season, two short of the club record held by Dick Gamble.

The Americans, who outshot the Barons 51-25, also got two goals each from Art Stratton and Brian Bowles. Barry Merrell, Bob Eliett and Ron Dussiaume added the other Rochester goals.

Doug Keeler, Dick Sartrazin and Kevin Ahearn scored for the Barons.

Clippers 10 Braves 2

The Clippers, who held period leads of 2-1 and 6-2, stretched their home unbeaten string to 13 games.

Marc Dufour and Bob Rivard each scored two goals for the Clippers with Steve Bezaire, Dave Gilmour, Randy Sokoll, Larry Jean and Brian Mahoney and Bill Mikkelson getting the others.

Doug Gibson and Bob Gryp scored for the Braves.

Reds 8 Nighthawks 3

Rick Middleton and Gerry Teeple each scored two goals as the Reds demanded the Nighthawks' winless streak to 10 games—eight defeats and two ties.

The Reds are second in the North Division with 76 points, six behind the Americans and four ahead of the Nighthawks. The Voyageurs are fourth with 68 points.

Pierre Lagnaiere, Wayne Chernecki, Andre Peladly and Doug Horbul shared the other Providence goals. Dave Lec, Don Thompson and Blake Dunlop scored for New Haven.

Kings 3 Voyageurs 2

Phil Roche scored with 13 seconds remaining to give the Kings their win.

The Kings, on goals by Reg Kinch and Norm Dube, were ahead 2-0 after the first period. Ed Gilbert narrowed the deficit in the second and Peter Sullivan tied the score with a goal at 8:07 of the third.

Henley's Team Takes it All

Gryphons Upset Huskies

WATERLOO, Ont. (CP) — Undaunted by a fourth-place finish during the regular season, Guelph Gryphons eagerly accepted an invitation to compete in the Canadian Intercollegiate Athletic Union basketball championship and swept to the championship by upsetting St. Mary's Huskies, defending champion, before 5,000 fans.

Victory in the final game wasn't easy, however, as the Gryphons needed a basket by Jeff Smith of Stayner, Ont., with two seconds remaining to win the game 76-72.

"I told the boys you never know how far you can go," said coach Garney Henley, Hamilton Tiger-Cat football star.

The Gryphons, who lost a sud-den-death playoff game to Waterloo, decided to enter the championship "round robin" after Mickfisher declined.

"We had some injuries during the season that hurt us, but I knew we had a good club, said Henley, as the Gryphons justified their selection committee's decision to extend them an invitation.

"We didn't have anything to prove," said Bob Sharpe, a six Guelph native who paced his team with 30 points. "We were cool all the time we were here."

Sharpe was selected the most valuable player in the tournament. He scored nine field goals each Garney Henley, Hamilton and was good on 12 of 14 shots from the foul line in the final game.

The Gryphons defeated Atlantic champion Acadia Axemen 71-70 in their first game and then beat Quebec champion Sir George Williams 104-94 to advance to the final.

Sharpe waged an individual battle with Huskies' All-Canadian Mickey Fox, who scored 28 points before fouling out with 2:55 remaining in the game.

"The guys depended on him (Fox) too much," said St. Mary's coach Bryan Heaney. "When he left we lost out poise offensively."

Al Grunyo added 12 points for Guelph who led 37-34 at the half. Phil Smith and Jets Smith each had nine. Centre Les Thomas pitched in 22 points for the losers, while Greg Reading added 10.

St. Catharines Streak Grows

By THE CANADIAN PRESS

St. Catharines Black Hawks stretched their unbeaten home streak to 8 games and strengthened their hold on second place in the Ontario Hockey Series Sunday with a 7-1 win over Oshawa, Wednesday.

The Hawks have not lost at home since Nov. 4 and have compiled 6 wins and three ties in the process.

St. Catharines led 1-0 after the first period, then added four more in the second before one long two goals in the third.

Tim Young scored the Oshawa goal on a breakaway with less than 11 minutes left in the game. He beat St. Catharines rookie goaltender John Pomiville.

Terry Casey scored twice for the Hawks wingers, with Gary McAdam, Jim Vannie, Rick Hampton, Dave Salvian and Rick Adduono getting the others.

In other games Sunday, Sault Ste. Marie Greyhounds edged London Knights 2-1, Oshawa downed Kitchener 6-3 in 8-3 win over Sudbury Wolves and Kitchener Rangers downed Toronto Marlboros 3-2.

Saturday, the Black Hawks defeated the Marlies 5-2.

Greyhounds 2 Knights 1

Charlie Skinner's blueline slapper at 7:36 of the second period turned out to be the-winner in the game played before 2,346 fans at Sault Ste. Marie.

The goal was Simmer's 41st of the season.

The Greyhounds took a 1-0 lead in the first period when defenceman Mike Boland tapped in Jack Valiquette's pass.

London tied the game early in the second period when Max Carter scored off Rick McIntyre's rebound.

Each team took six penalties in the game.

Generals 3 Wolves 2

Andy Whitby scored three goals to lead the Generals to victory before 2,300 Sudbury fans.

Mike McKee, Rod Stefanski and Bill Lochead each added two goals for the winners, Bob Blanchard and Bob Russell replied for the Wolves.

Oshawa led 4-3 after the first period and 5-4 going into the final period.

Rangers 3 Marlboros 2

Rick Bourbonnais scored the only goal of the third period to give first-place Kitchener the win.

Toronto opened the scoring with goals by John Smrke and Bill Wells in the first period.

But goals by Bob Lalaicivic and Mike McKegney tied the score for the Rangers going into the second frame.

Kitchener outshot the Marlboros 36-26 before 5,200 fans.

Black Hawks 5 Marlboros 2

Adduono scored two goals to lead the Black Hawks to victory before 2,000 Toronto spectators.

Terry Casey, McAdam and Barry Rock scored the other St. Catharines goals.

Smrke and Wells scored for Toronto.

In games Tuesday, Hamilton Mays the Generals a 5-4 win, Kitchener travels to Kingston, and Ottawa plays at Peterborough.

Curling Championships

Armstrong, Sparkes Return For Another Try at Title

LONDON, Ont. (CP) — Jim Armstrong is back in the Canadian men's curling championship despite a bad wrist that has forced him into a less-active role.

Last year he was second on Jack Tuberry, British Columbia rink that finished 5-5 at Edmonton, but his left wrist put him out of the gruelling 11-round event.

Tucker had to continue with three men plus a sweeper from the host club.

Armstrong, his wrist in a cast, returned home to skip a mixed club in the Canadian championship, and placed third.

Doctors operated on the damaged tendons and the 11-round championship, and placed third.

Doctors operated on the damaged tendons and the 11-round championship, and placed third.

Bob Armstrong and Peckham later got together, with Armstrong switching to skip, to reduce the strain on his wrist, and Peckham to second stone. They got Sparkes interested again and he recruited lead Clark Wjmerton, 19, who pitches baseball for St. Louis Cardinals' organization in the summer months.

Skipping in the next best thing to retirement, Armstrong has a strong said Sunday of his return to curling.

The rink has curled just 11 games since they formed their foursome for the British Columbia playoffs.

The Richmond, B.C., rink plays in today's first draw, at 2 p.m. EST, against Don Barr's Glenboro foursome from Manitoba. Another first-round matchup brings together Bec Gervais of St. Albert, Alta., the 1961 Canadian and world champion making his third appearance, and the Larry McGrath crew from Kitchener, Ont.

Gervais' third, Ron Anton, was with him in 1961 and their strong front end of Warren Dawson and Darrel Sutton make the Albertans top threats to capture the title won last year by Saskatchewan's Harvey Maniuke.

McGrath and the St. John Brothers—Ron, Wayne and Kinder—are together for the first time but have a combined total of 76 years of curling experience to draw on.

McGrath, 33, and Rod St. John, 34, each have 13 years while Ron, 36, has been curling for seven years and Wayne, 33, started at 12.

Other first round games have Chucker Ross' Northern Ontario entry from Sudbury against Fred Wight's four from St. John's, Nfld.; John Clark of Fredericton against Nova Scotia's Barry Shearer from Halifax; and Toronto's Paul Savage, representing Ontario for the second straight year, meeting the Charlottetown foursome skipped by Bob Dillon, who, like Sparkes, is appearing in his seventh Canadian men's championship.

Lee Trevino matched par 72 in the last round for 284 and Arnold Palmer went to 74-278.

Heard Heeds Advice From Critical Wife

ORLANDO, Fla. (AP) — Jerry Heard, one of pro golf's brightest young stars until he began a search for perfection, says he has straightened out his act with some advice from his wife.

"She's watching me hit those big hooks in the woods and she says, 'What the hell are you doing? Why don't you go back to the way you played before?'" Heard said.

He did, and the result was a three-stroke victory Sunday over Homero Blancas and Jim Jamieson in the $150,000 Citrus Open.

Heard had a three-under-par 69 in the final round and won with a 273 total, 15 under par on the 6,929-yard course. Blancas with a 70 and Jamieson with a 67 tied at 276.

South African Bobby Cole, 69, and Bob Murphy, 71, tied at 277.

Ben Kern of London, Ont., shot 71 Sunday for a 284 total, good for $909 in prize money.

The group at 278 included Lee Elder, 69, Chi Chi Rodriguez, 71, Bruce Crampton of Australia, 69, and Leonard Thompson, 72.

Sabres, Maroons Advance

By THE CANADIAN PRESS

Welland Sabres and Chatham Maroons won their respective eight-point, quarter-final series Sunday in Southern Ontario Junior Hockey League playoff action.

At Chatham, the Maroons shut out Guelph Biltmores 4-0 to take their series in five games, winning four and tying one.

Welland downed Niagara Falls Tigers 5-3 before 3,500 home-town fans to take its series in five games.

Welland and Chatham now meet in the semi-finals.

In a semi-final game Sunday, Windsor Spitfires defeated Detroit Junior Red Wings 9-3 to take a 6-0 points lead in their series.

The winner of the Windsor-Detroit series will receive a bye into the finals.

At Windsor, Spitfires scored four unanswered goals in the second period to clinch the win.

Bill McCreary, Dan McCourt, Scott Miller, Randy Kozar, Gary Armstrong, Mark Smith, Frank Rathe Ken Campbell and Mark McNulty scored the Windsor goals. Jude Cummings and Terry Sawchuk replied for the Red Wings.

The victory was the third straight for the Spitfires, who have outscored their opponents 25-3 in the games.

In the Maroons-Biltmores contest in Chatham, Dave Easton, Barry McCourt, Bert Fournier and Scott McKenzie scored for the winners.

Tony Tyrell stopped 34 shots in the Chatham goal for the shutout.

Doug Mason, with three goals, led the Sabres to victory before 2,000 home-town fans.

Randy Montgomery and Ken McKenzie scored the other Welland goal.

Joe DeVirgilio and John Flynn scored for Niagara Falls.

The opening game of the Chatham-Welland semi-final series was under way in Welland Tuesday, with the teams returning to Chatham Wednesday.

Windsor plays in Detroit Wednesday in the fourth game of its semi-final series.

Sorel Squeezes Past Remparts

By THE CANADIAN PRESS

Sorel Black Hawks handled Quebec Remparts for 42 minutes Sunday night—the first 40 and the last two barely enough for a 7-6 victory in Quebec Major Junior A Hockey League play.

In other action, Chicoutimi Sagueneens downed Shawinigan Dynamos 6-3, Montreal Juniors bounced Drummondville Rangers 8-2, Sherbrooke Beavers defeated Cornwall Royals 5-1 and Hull Festivals and Trois-Rivieres Draveurs battled to a 3-3 tie.

The visiting Hawks leading 6-1 on two goals by Pierre Larouche and Michel Bergeron and single goals by Jacques Cossette and Michel Deziel, the Remparts came to life at the beginning of the third period.

Jacques Locas scored three third-period goals for Quebec, Guy Chouinard scored his second of the game, and Richard Nantais tallied once. But Cossette salvaged the win for Sorel with his second goal of the game at 18:06.

Yvon Verreault scored three goals for the Sagueneens, who got two from Daniel Lecours and one from Jean-Guy Dufour.

Richard Poisson, Jean Latendresse and Jean-Guy Thibodeau, on a penalty shot, scored for the Dynamos.

Richard Moore led Montreal with three goals, while Allan Pike, Normand Dupont, Ilenis Daigle, Derek Emerson and Robert Sirois fired one each. Jacques Chiasson and Serge Julien paced the Rangers.

The Beavers upset Cornwall on four third-period goals. Regis Valliere, Sid Veysey, Floyd Lahache, Fernand Lemaire and Bob Gingras scored for the winners, while Doug Bruce scored for the Royals.

A 16-minute overtime period failed to break the deadlock in Hull as both goaltended the first tie for both the Festivals and Draveurs in 61 games this season.

Scott Hunter scored two goals and Louis Lortie provided the other for Hull, with Marie Levesque, Daniel Horne and Jean Beaulieu scoring for Trois-Rivieres.

Terriers In Tie For Lead

By THE CANADIAN PRESS

Hank Monteith scored two goals Sunday to lead Orillia Terriers to a 5-1 win over Barrie Flyers and into a tie for first place in the Ontario Hockey Association Senior A series.

In the only Saturday game, Cambridge Hornets defeated Brantford Foresters 4-1.

At Barrie, Gord Davies, Mike Draper and Danny Lutes scored the other Terriers goals.

Corby Adams scored for Barrie.

The game was played before 1,100 fans.

Orillia outshot Barrie 40-30.

Mike Zettel scored two goals to lead Cambridge to victory Saturday.

Ron Hergott and Pete Pagalaiko scored the other Cambridge goals.

Rob Cunningham scored for Brantford.

CP News Roundup

Murder Is Charged After Fire

LONDON, Ont. (CP) — Gordon Gerald Johnston, 26, of London has been charged with non-capital murder and arson in connection with a Saturday fire which took the life of Anne McLachlan, a retired nurse.

Miss McLachlan, 62, died of asphyxiation in her second-floor bedroom, fire officials said.

Police said Johnston was to appear in provincial court today.

Still Active

BELFAST (AP) — Bernadette McAliskey, once the youngest woman ever elected to the British Parliament, said Sunday she will continue in politics despite being defeated in Thursday's general election.

"I will fight on for a Socialist Ireland; you can say I will carry on as before," she said.

Arrest Made

SAN DIEGO, Calif. (AP) — A 36-year-old man was arrested Saturday and booked for investigation of trying to extort $40,000 from newspaper executive Randolph Hearst for release of his daughter Patricia, the FBI said.

However, agents said the man apparently was trying to exploit the Hearst family's plight and is not connected with the Symbionese Liberation Army, which claims it kidnapped the 20-year-old college sophomore Feb. 4.

The FBI said Samuel Lee McGraw was arrested at a hotel after a telephone caller tipped them to the case Friday.

Nine Charged

TORONTO (CP) — Nine local persons, including three Roman Catholic priests and four theology students, were arrested Saturday and charged with violation of the Petty Trespass Act following demonstrations at two Dominion Stores Ltd. outlets.

Rev. Paul Lannon and Rev. William Bowan, both of the Catholic Information Centre, theology students Stanley Sadler, Robert Harper and Peter Wesley, housewife Nancy Tyrrell and community worker Noreen Dunphy were charged following a protest urging removal from the store of California grapes and lettuce.

Meeting Sought

CAIRO (Reuter) — Egypt has asked for an Arab oil ministers' conference to be convened in Tripoli, Libya, March 16, Petroleum Minister Ezzeddin Hilal announced Sunday. The conference will discuss, among other things, the question of lifting the oil embargo on the United States.

Plant Burns

HAMILTON (CP) — Fire destroyed part of the Flaherty Manufacturing Co. Ltd. metal fabricating plant Saturday in a blaze that raged out of control for more than four hours.

Firemen kept the blaze from destroying heavy machinery on the ground floor, but second-floor shops were a total loss at the plant that employs about 32 persons.

Recover Plaque

TORONTO (CP) — Three Toronto men were arrested Saturday after a plaque marking the birthplace of Dr. Norman Bethune was stolen from a Gravenhurst, Ont., home.

Charged with theft are Geza Matrai, Gerald James Doyle and William Keeping.

Police recovered the plaque in a truck in a Toronto park.

ALVIN HAMILTON

No Oil Crisis Says Hamilton

BRESLAU, Ont. (CP) — There is no energy crisis in Canada, Alvin Hamilton, Progressive Conservative energy critic, said Sunday.

Mr. Hamilton, member of the Commons for Qu'Appelle-Moose Mountain and former agriculture minister in the Diefenbaker cabinet, was speaking at an energy seminar sponsored by the party's Waterloo-Cambridge association in this Kitchener-area community.

He said Quebec and the Atlantic provinces are "going to end up this winter with from five million to seven million barrels more than they need down there."

Mr. Hamilton criticized the federal government for "its "phoney political stance" during the so-called crisis.

He said he does not foresee the price of Arab oil returning to the level that existed before last September.

"This concept that the Arabs were silly and foolish people blackmailing us poor innocent Christians is ridiculous," he said. "We have stolen this oil from the Arabs and Venezuelans for 50 years."

Suspect IRA

LONDON (AP) — Scotland Yard said Sunday it is making inquiries into a claim that Jan Vermeer's masterpiece The Guitar Player was stolen by Irish Republican Army (IRA) guerrillas.

The claim was made by a man with an Irish accent who telephoned the secretary of the deputy leader of the Greater London Council, which owns the painting.

The man said the painting, said to be worth $4.6 million, would be returned if eight IRA guerrillas jailed in England are transferred to jails in Northern Ireland.

PM Criticized

QUEBEC (CP) — Robert Stanfield, leader of the Progressive Conservative party, took another swipe at Prime Minister Trudeau's Liberal government Saturday night during a fund-raising dinner attended by about 800 persons.

Mr. Stanfield, during his second visit here in two weeks, said the Trudeau government was powerless when faced with unemployment and the energy crisis.

Referring to the throne speech last week, the Conservative leader said it ignored social justice, which he said is linked to inflation, "synonymous with injustice and the growing disparities for Canadians."

Death Sentence Said Better Than Imprisonment for Life

OTTAWA (CP) — A man serving a life sentence said Sunday it is better to kill people than put them behind bars for 10 years.

Pat Devlin, in prison at Joyceville, Ont., for narcotic trafficking, added that prison is a brutalizing experience that is difficult to describe to persons who have not been there.

"You can't reform people by locking them up in dungeons," he said at a news conference.

"It is impossible to really understand what it is to be in a cage unless you have been locked up in a cage."

He also warned that prisons are so overcrowded today the least spark could set off a riot.

Devlin, who said he comes from the Windsor, Ont., area, made his statements at the end of a unique meeting held during the weekend under the sponsorship of Jean Vanier, son of the late governor-general.

His statements, supported by convicts, ex-convicts and others present, represented a plea for public understanding that prisons are no answer to anything and that rehabilitation and reformation of the convict must occur in the community.

The meeting brought together a broad section of persons—convicts, penitentiary and government officials and a variety of concerned citizens.

Meeting as individuals, at times behind bars at a jail that some of the 150 participants could realize the atmosphere, they came out with open general idea:

Society must accept that prisons do not help the large proportion of convicts. The public and the media, must realize that reformation and rehabilitation can come only outside.

"We all have to learn forgiveness—learn to forgive ourselves and learn to forgive others," said Mr. Vanier, who has gained fame for his work to help the retarded.

Mr. Vanier said society brutalizes the handicapped, and many of those in prison are handicapped.

Commenting on what one penitentiary official called a "no-risk" policy in prisons, he said a situation exists where one element wants to escape and the other element wants to prevent escape.

"We should create a spirit of harmony and peace to get together in a therapeutic situation," he said.

A statement distributed at the end of "The three-day closed meeting said Mr. Vanier was responding to concerns about the suffering of both staff and prisoners in involving himself in the corrections area.

Police Want Cost Of Moving Covered

TORONTO (CP) — Ontario's bid for postage.

4,000-member provincial police force is asking the government to pay the cost of relocation when transfers are made, says the executive manager of the force's association.

Fred MacDonald said Sunday the proposal asks that the provincial government buy the homes "at the going rate" agreed upon by two settlers—one chosen by force management and the association.

The association also is seeking a 15-per-cent wage increase, $13,400 plus $300 for shift differ- and that officers be allowed to

Mr. MacDonald said the wage increase, which would raise a first-class constable's salary to more than $14,000 from $13,220, is "justified."

"The cost of living has just spiralled," he said, noting that the proposal asks that the pro- two days after the association signed its last contract the sala- last was raised two per cent.

The highest paid police forces in the province are in London, Ottawa and Peel region where a first-class constable receives confidential.

Labor Chief Attacks PC Stand

HAMILTON (CP) — David Archer, president of the Ontario Federation of Labor, criticized Progressive Conservative Leader Robert Stanfield Saturday for his attacks on the Unemployment Insurance Commission (UIC).

He told the Ontario council of the Canadian Food and Allied Workers Union that Stanfield has said the UIC is too liberal and has become a welfare measure instead of an insurance scheme.

"Let us remind Mr. Stanfield that the trend started under the Conservative government of Mr. (John) Diefenbaker when he added fishermen and other seasonally employed persons as beneficiaries," Mr. Archer said.

"We are not quarrelling with these additions but they shouldn't be used as a convenient political ploy by the leader of the party which introduced them."

He told trade unionists to reject the arguments of those who blame the ills of our country on the unemployed and the working poor.

Unemployed Canadians are being used as scapegoats to divert attention from the failure of government and industry to control profiteering.

"Corporate profits are rising," he said. "An oil scarcity is manipulated to the advantage of the large international oil cartels."

Ottawa has taken no action to control "corporate rip-offs."

Hospitals Are Asked To Segregate Smokers

TORONTO (CP) — The Scarborough board of health took action this weekend to have two borough hospitals segregate non-smoking patients from smokers.

Janet Clark, chairman of the borough's health board said it is illogical that cigarettes should be available in hospitals.

Pipeline Route Already Exists

BARRIE (CP) — A major advantage of a Sarnia-Montreal pipeline is that there is an existing route, which will make unnecessary any large-scale expropriation of land, Ontario Energy Minister Darcy McKeough said Saturday.

Mr. McKeough said Interprovincial Pipelines Ltd. and Ontario Hydro own right of ways along most of the proposed route, particularly from Sarnia to Belleville through areas of the province's richest farmland.

Most of this land is being farmed under a token lease arrangement with the two corporations.

Mr. McKeough was one of five government leaders, including Premier William Davis, who appeared before 200 people at a Progressive Conservative policy conference here, last in a series of eight across the province.

As in the other conferences, open to the public but attended mostly by party supporters, the audience was given one hour to question the leaders, who made no speeches.

Health Minister Frank Miller, Natural Resources Minister Leo Bernier and Attorney-General Robert Welch, who spoke on housing, his portfolio until last Wednesday's cabinet shuffle, were with the premier and Mr. McKeough.

Mr. Welch said the government will shortly be announcing new housing policies dealing with land-lease, no-profit co-operative housing, mobile homes and the role of greenbelt areas in the fight against a critical housing shortage.

Mr. Davis in a later interview said the housing program will be a major theme in the throne speech when the new session of the legislature opens Tuesday.

The premier spent most of the hour answering questions on Bill 274, the proposed legislation to deal with teachers' strikes through compulsory arbitration.

He said the government has become unhappy and disillusioned with the impasses reached in the strike by high school teachers in York County, north of Toronto. Some York teachers and parents attended the conference.

Mr. Davis said there is no immediate plan to intervene in the York dispute but hinted at some action when he said, "We start sitting on Tuesday, and well . . ."

One father, who said he had two children attending high school in York, got a quick reply when he charged that nobody was looking after the interest of the children.

Mr. Davis said that without Bill 274, introduced in the last session to forestall mass resignations of teachers on Jan. 1, "there would have been far more York's in this province."

Mr. McKeough said there are major disadvantages of cost and delay in putting a pipeline through Northern Ontario, although he and the government had not yet taken the position on which route they favor.

Estimates are that a Sarnia-Montreal route would cost $175 million, the northern route $100 million more.

Mr. McKeough said builders in the north would have to work in difficult, terrain, and there would be long delays in getting permission to run part of the line through the United States.

"But from a cold, calculating, economic, hard-nosed point of view, I don't know that it would even be proper to build a pipeline at this time."

He said western oil production is beginning to level off as reserves are used up. It was likely that oil from Canada's East Coast would be available before the Alberta tar sands can be fully developed.

Girl Slain

STRATHROY, Ont. (CP) — Judy Barkley, 19, of Strathroy, was found Sunday stabbed to death near the Canadian National Railways station in this community 20 miles west of London.

Police said the girl had been attacked with a sharp object but no weapon was found. A tracking dog was brought into the search.

Workshop Is Attended By Parents of Deaf

TORONTO (CP) — About 100 parents of children with hearing difficulties from across the province participated during the weekend in a workshop sponsored by the Metropolitan Association for Hearing Handicapped Children.

Ann Dudka, a teacher of deaf children, told the workshop that profoundly deaf children seem to be well learning French, possibly because of the experience they have had learning English.

For a deaf child mastering English is much like learning a foreign language and the experience produces better results in the study of French, Mrs. Griffith said.

Dorothy Scott, another speaker at the workshop, concentrated on the problems of deaf teen-agers. She urged parents to break the habit of always being on hand to interpret events for the deaf child.

"Parents also should stop talking to the deaf child in nice simple language, she said.

"You're squashing his mind if you keep this up," she said.

Suspend Man

KITCHENER (CP) — Burt Henderson, chairman of the communications and design division of Conestoga College of Applied Arts and Technology, has been suspended, John Gerrard, the college's acting president, said Saturday.

He said the action was taken on the request of Alec Brown, dean of the college's Doon campus, and had no direct connection with a report on the college requested by the province and conducted by Arthur Porter of the University of Toronto.

The report recomended that Mr. Henderson be reprimanded by the college board, along with Gary Parkhill, television studies co-ordinator, for his part in a student boycott of classes last fall.

Liberals Exuding Confidence

OTTAWA (CP) — Prime Minister Trudeau's apparently firm grip on power amid stormy inflation and energy debate may surprise some, but the Liberals are far from setting a precedent for minority survival.

Beginning their second session as a minority government, the Liberals last week exuded a new air of relaxed confidence, knowing that others have held power much longer, without Commons majority.

A promise of New Democrat support on an impending confidence vote lets support for Mr. Trudeau's previous statements that he does not expect a general election this year.

Even if the Liberals stay in office for the rest of 1974, they still will be almost two years short of the record minority term of Mackenzie King's government in the early 1920s.

Mr. King's minority Liberal administration held power from Dec. 6, 1921, to Oct. 29, 1925. Another lengthy minority stint was Lester Pearson's second, 1963-68.

Hairdo Costly

TORONTO (CP) — A hairdo cost a Kingston woman her $3,000 mink coat Saturday. Geraldine Tepper told police she left the coat on a rack at a beauty parlor Saturday and it was gone when she prepared to leave.

Watch out for unethical home food plan operators

Two months ago I clipped and mailed a coupon indicating I wanted more information on a home food plan. The ad said that the groceries received would be cheaper than the same goods at the three leading chain stores. With the escalating food costs I figured I could beat the price increases by getting in bulk. Yesterday morning, a salesman called. To make a long story short, I signed a six-month food plan contract for $994. This included a $694 handling and overhead charge plus meat and groceries worth $300 at a cost of $165.66 a month. The contract didn't include fresh foods - eggs, milk, butter and vegetables.

Being the mother of three teenage boys and on a small salary, I decided I couldn't afford this amount, so I extended the payment time and signed an eight-month contract in my home yesterday afternoon, at $124.24 a month for the same goods.

What I didn't realize is that this only gives me $9 worth of groceries a week. The rest of the cost is the handling charge. The food delivered isn't nearly enough to feed my family. I realize I've been taken, but is there anything I can do to get my money back?

You're in luck. Under Ontario's Consumer Protection Act, you have a two-day "cooling off" period in which you can cancel the contract if you feel you're not getting a good deal or you can't afford the goods.

To break the contract, you must do so by registered mail or by letter personally delivered within two working days after the contract has been signed. A telephone call is no good. This "cooling off" period applies only when the contract involves more than $50 and has been negotiated and signed at a place other than the seller's regular place of business.

The food plan company has every right to charge whatever it wants for the goods. It is your job to shop around before signing any document to ensure you're getting the best possible price.

Legitimate Food Plans

Food plans can be both good and bad. As food costs increase more unethical food plan dealers appear, giving the entire industry a bad name. There are legitimate food plan operators who will provide you with an adequate supply of brand name groceries and meat of your choice with a reasonable handling charge. No high-pressure sales techniques are employed.

Make sure you understand exactly what you're getting before signing any food contract. Be sure you know the cuts and grades of meat you are getting, as well as the quality and quantity of groceries, plus the itemized costs. Be suspicious of membership (service and handling charges) which can cost you several hundreds of dollars for a six-month period.

Some food plans operate on the premise of selling you a freezer. This gives the operator even more profit because the cost of the appliance is inflated.

Another Food Gimmick

Don't fall for advertisements offering beef for 69 cents a pound. This is another version of the old "bait-and-switch" gimmick. The dealer has no intention of selling beef at the advertised price. He will point out the defects claiming the beef is inferior because it is very fat or too lean. He will then try and sell you higher cost meat. Unless you know your meat grades and are familiar with an unmarmed carcass you may never know if you are being taken.

Should you buy the higher priced meat, you have no guarantee that the meat you choose will be sold to you or that you will get the full weight contracted for. It is easy for an unethical dealer to switch carcasses.

Before signing a contract it is important to find out if all charges are included in this "bargain" price. Usually the price goes up considerably when cutting, wrapping and other service charges are included. Your best protection is your own awareness.

Consumer Buy-Line is an information service of the Ontario Ministry of Consumer & Commercial Relations.

IN MEMORIAM

CANNONE — In loving memory of our dear mother, Mary Cannone, who passed away March 4, 1970.
Sadly missed by daughter Ann, son-in-law Ralph and grandchildren.
For the days we do not think of you
Are the days we miss you most.
If all the world were ours to give,
And all the years could be,
To see the face of mother dear,
How happy we would be.
—Sadly missed by daughter Ann, son-in-law Ralph and grandchildren.

CANNONE — In loving memory of a dear daughter and sister, Mary, who passed away four years ago, March 4, 1970.
Those we love don't go anywhere,
They stay in our hearts.
You were the best mother,
God only could know why,
He needed you more than we ever realized,
And so He took you home.
What it seemed to leave you.
We miss you every hour,
Each time we see your photo,
Each time we think of you,
Each time we speak your name,
We'll need again never days.
We'll miss you more and more,
And add to that earth but we'll meet you.
—Lovingly remembered by mother, sister-in-law, brothers-in-law and friend.

CANNONE — In loving memory of a dear father, grandfather, Ernest Cannone, who passed away March 4, 1970.
And the hand we cannot touch,
And the voice we cannot hear,
Still the love we loved so much,
Still the heart that beats sincere,
Still the memories we hold dear,
God has him in His keeping,
We have him in our hearts.
—Sadly missed by daughter, son-in-law and grandchildren.

CANNONE — In loving memory of a dear father, Ernest, who passed away 4 years ago, March 4th, 1970.
Those we love don't go anywhere,
They stay in our hearts.
Only God knows why,
The hearts of those He takes,
Would be happy
Could we know you,
So now we know,
Each time we see your photo,
Each time we think of you,
Each time we speak your name,
We'll need again never days,
We'll miss you more and more,
And add to that earth but we'll meet you.
—Lovingly remembered by mother, sister-in-law, brothers-in-law and friend.

CANNONE — In loving memory of a dear father, Ernest, who passed away 4 years ago, March 4th, 1970.
The voices of those we love
Are still the vacant chair,
And the face, the voice and the smile
Of one who was dear
—Never forgotten by husband Bill.

BOYLE — Sadly missed, but not forgotten, dear son, Harold Vincent Boyle, who died on March 4th, 1968 and the one I loved was called away,
God in His infinite graveyard for away,
Where flowers never fade,
Just like the one I loved so dearly,
He will be remembered,
He will never be forgotten,
Never will his memory fade.
—Sadly missed by mother, sister and brother-in-law, Mr. and Mrs. Ernest Boyle.
—Sadly missed by mother, sister and brother-in-law.

WOOD — In loving memory of a dear husband, Harry Wood, who passed away March 4, 1972.
Sleep on dear husband and take your rest,
God has called you home, He knows best.
—Sadly missed by wife, Olive and son-in-law Isaac Smith.

WOOD — In loving memory of a dear father, Harry Wood, who passed away March 4, 1972.
Sleep on dear father and take your rest,
God has called you home, He knows best.
—Sadly missed by son-in-law, Isaac Smith and daughter-in-law, Olive and son-in-law Isaac Smith.

WOOD — In loving memory of a dear father, Harry Wood, who passed away March 4, 1972.
Sleep on dear father and take your rest,
God has called you home, He knows best.
—Sadly missed by son-in-law, Isaac Smith and daughter-in-law, Olive and son-in-law Isaac Smith.

Started by Accident

Rev. W. D. Kennedy-Bell conducts the Saint Martin Singers during a rehearsal in London. The group, which has a world-wide reputation, started by accident during the Second World War when a group of firewatchers passed the night hours singing hymns. (CP Photo)

Women Win Five Major Awards

TORONTO (CP) — Women won five prizes for best acting, variety performance and public affairs broadcasting in the annual Association of Canadian Television and Radio Artists (ACTRA) awards Saturday night.

The third annual ACTRA awards dinner drew a coast-to-coast television audience for the first time, and ACTRA President Donald R. Parrish announced that new award categories will be added next year for behind-the-microphone and behind-the-camera work.

The top TV or film acting prize—the Earle Grey Award—went to Jackie Burroughs of Montreal for her performance in the CBC-TV drama, Vicky. Last year's winner was Gordon Pinsent, and the award is made to the best actor or actress of the year.

Vicky, a story of a broken marriage, also won for its author, Grahame Woods, the best TV or film drama writer award.

Denise Pelletier won the Andrew Allan Award for best radio acting for her performance in the title role of Colette, a CBC Halifax production. She was absent from the awards dinner, filling an acting engagement in Montreal.

Women took both prizes in public affairs broadcasting, for work in television and on radio. Adrienne Clarkson of Toronto won the TV award for her work on the famine in Niger, in the Take 30 series.

Barbara Frum of Toronto won the radio public affairs award for her work on the CBC evening show, As It Happens.

The best variety artist award, for television or radio, went to Diane Stapley of Winnipeg, for her appearances on Inside Canada. She also was absent from the dinner, performing in California.

The winners received small bronze statues of a woman running with gay abandon. They have been nicknamed Nellies by the ACTRA office workers, a name that apparently will join Oscars and Emmies for Canadian artists in broadcasting.

Presentations were made by a list of Canadian personalities including State Secretary Hugh Faulkner, hockey star Ken Dryden, and radio-TV stars Fred Davis, Joe Mallett, O. Mitchell, and Bernard Braden, among others.

The ACTRA award for long-time distinguished service to broadcasting, the John Drainie Award, went to Les Peterson, author of more than 1,200 radio, television and stage scripts in the last 25 years.

Danny Calihan, Montreal play-by-play hockey broadcaster, won the sportscaster award. Howie Meeker, former NHL star, won the Gordon Sinclair Award for outspoken opinion and integrity in broadcasting, for his Hockey Night in Canada game analysis.

Harry Rasky of Toronto won the best TV-film documentary writer award for his CBC-TV biography, Tennessee Williams' South. The parallel award in radio went to Rod Coneybeare, for his Frank Sinatra Special on CBC radio.

Munroe Scott won the ACTRA award for a radio drama writer, for the play, The Devil's Petition.

All the awards were made, except the John Drainie Award for long-term distinguished service, for work done in 1973. Two years ago, ACTRA made only three awards, and last year, seven.

Mr. Parrish said the 12 awards made this year will be expanded next year. The awards are not divided between best actor and best actress, but each one is open to both sexes.

They now are limited to radio and television work, but Mr. Parrish said they will be expanded into theatre films, recordings, and writing for other entertainment media.

Licence Approval Likely

OTTAWA (CP) — The chairman of the Canadian Radio-Television Commission says he doubts "very much" that an application by the CBC to renew its broadcasting licence will be denied.

Pierre Juneau, interviewed on the CTV program Question Period for broadcast Sunday, decided that last week's hearings on the application were "a charade."

"I doubt very much that we will turn down the renewal of the CBC," he said.

"I think that if we didn't renew the licences of the CBC there are a fair number of licences in Canada who would not get their licences renewed later, so you might end up with very little broadcasting."

In rejecting the suggestion that the hearings were a charade since there was little chance of the CBC licence being denied, Mr. Juneau pointed out that the law requires such hearings.

Mr. Juneau said the CRTC constantly turns down requests by people asking the commission to intervene in the programming of the CBC.

"I sign myself at least ten letters a day refusing to intervene. . . Members of Parliament are asking us to intervene. The public are asking us to intervene. We always have to say we're not a czar or board and its becoming more and more difficult not to intervene.

Mr. Juneau, asked whether cable television should be under the control of the provinces, said he could not differentiate between his position and personal opinion.

"My professional opinion is that you cannot administer cable without administering television and you cannot administer television without administering cable. The two are inextricably interwoven."

Television and cable broadcasting systems are under the jurisdiction of the CRTC but some provinces have said they should control the cable systems.

A transcript of the interview was released to the press in advance.

Your Horoscope

By BERNICE BEDE OSOL

Tuesday, March 5

Aries (March 21-April 19) You will be able to manage others very well today. They won't resent it. They'll know instinctively your way is best.

Taurus (April 20-May 20) This is a good time to make those creative changes you've been planning for the house to brighten things a bit.

Gemini (May 21-June 20) Your present ideas can be expanded and put into motion if they're discussed with the one whose approval inspires you.

Cancer—June (21-July 22) Your instincts will help you spot a bargain that others will overlook. Don't spend beyond your means.

Leo (July 23-Aug. 22) An old issue will come to mind today. Take care of it at once while you're in the mood. Later your thoughts will be elsewhere.

Virgo (Aug. 23-Sept. 22) Something you'll be involved in must be treated in confidence. Telling others now will muddle matters.

Libra (Sept. 23-Oct. 23) A new interest that you have looks hopeful. Give it as much attention as you can the next few days.

Scorpio (Oct. 24-Nov. 22) You know at this time what's most rewarding to you personally, even if others don't. Serve your ambitions first.

Sagittarius (Nov. 23-Dec. 21) You're able to look a little further ahead more clearly now. Make your plans in accordance with your new insights.

Capricorn (Dec. 22-Jan. 19) Someone you're involved with cannot see at present what's best for both of you. You can. Mutual benefits will result.

Pisces (Feb. 20-March 20) You're entering a productive cycle the next few days. Make the most of it. Give work and career matters top priority.

Elderly Covered

OTTAWA (CP) — Consumers in Ontario, Saskatchewan and Alberta, who are over 65, receive free hospital insurance coverage, reports Consumers' Association of Canada. Exemptions also apply to persons eligible for provincial welfare assistance.

SIDE GLANCES

by Gill Fox

"They don't go topless any more. With so many Americans taking it up, they felt it was becoming too common!"

To Your Good Health

Sex OK If You Can Climb Stairs

By G. C. THOMPSON, MD

Dear Dr. Thosteson: What is the title or who is the author of any book having to do with sexual relations while exonerating from a heart attack?

My doctor seemed embarrassed when I asked him about sexual relations after my coronary (heart attack). He merely said there were books on the subject. I phoned no less than 19 book stores in search of such a book. Three said there are such books but they could not supply me without the title or name of the author.

Most people I phoned seemed reluctant even to talk about sexual relations. Is this taboo? No, wonder the need arises most of education in schools. Or somewhere.—M.G.

I don't know of any book on that specific topic, but there are books on sex that discuss it. About as good a one (for that purpose as well as others) is Sexual Life After Sixty, by Isadore Rubin, Ph.D., published by Basic Books, Inc., in 1965. Check with a book store and, if you can't find it all it might help.

Both blood pressure and pulse rate rise in the course of sexual relations, but promptly—sometimes within a matter of seconds—return to normal. As you may gather, there has been more scientific exploration of the matter.

Generally speaking (and unless there is some unusual situation involved) there is no reason why a patient cannot resume sexual relations after he has recovered from the acute attack, say in six weeks to three months.

There's this additional warning, though. The nervous tensions and anxieties of extramarital affairs are quite another matter. In such cases the tensions, worry about getting caught, and so on, last much longer, and not just for the limited time of the sexual activity itself. Prolonged agitation can, indeed, be dangerous for such a patient. Under most circumstances, if relations bring on such symptoms as chest pain, shortness of breath or undue fatigue, take it as a warning.

In advance, when wondering whether it's safe to begin, a good rule is that you can if you can climb stairs without heart symptoms of pain, palpitation or shortness of breath.

There is a good bit of unwarranted fear. One patient was recently told to avoid relations "for a month or so" after leaving the hospital. Two years later, another doctor discovered that the man was still afraid. Some experts have reported that such prolonged restraint has come to be the point of causing conjugal spasms.

Dear Dr. Thosteson: My husband and I are both over 80. What are the best pills or medicine we can take to avoid colds?—Mrs. C.J.

In spite of some of the claims being made, I do not know of anything that will ward off colds other than a healthy constitution.

However, an annual flu vaccination will ward off or minimize the various types of influenza, and a good many mild flu cases are mistakenly called "colds."

Dear Dr. Thosteson: Would you explain the difference between gall bladder disease and gallstones?—A.F.

A gall bladder can be diseased by infection without stones being present. But gallstones usually develop in such a gall bladder. And a gall bladder that has stones is a diseased gall bladder, so there really isn't much significant difference in the terms.

Win at Bridge

ARCH triumphs for defense

	NORTH ♠ 4 ♥ 863 ♦ QJ3 ♣ AQJ843	
WEST ♠ J9743 ♥ 42 ♦ 52 ♣ Q1062		EAST ♠ AQ8 ♥ J1095 ♦ K9 ♣ 8763
	SOUTH (D) ♠ K1052 ♥ AK76 ♦ 1075 ♣ AK9	

Both vulnerable

West	North	East	South
Pass	1N.T.	Pass	2N.T.
Pass	3N.T.	Pass	Pass

Opening lead—4 ♦

By Oswald and James Jacoby

Jim: "The code word ARCH: Analyze the lead. Review the bidding. Count your winners and losers. How can I make this contract? Is also very likely to help the defence if they stop to apply it."

Oswald: "That becomes How can I beat this contract? Also they seldom get a chance to count both winners and losers, but they certainly can analyze the lead and review the bidding."

Jim: "One of the first things bridge players learn is the rule of third hand high. Then they learn when to disregard it."

Oswald: "East analyzes the lead as fourth best. He reviews the bidding notes that South opened one notrump. East has 10 high-card points in the dummy. That leaves 20 for West and South and since South's bid has shown 16-18 West can't have much. Furthermore, it looks as if his king of diamonds is the only trick the defence can take outside the spade suit."

Jim: "This review and analysis should be made quickly because if East wants to beat the hand he must play his queen; not the ace. If he plays the ace South will hold back his king until the third spade lead. If he plays the queen, South will be afraid to duck and when East gets in with the king of diamonds the spade suit will run."

ARCH Series 4

The bidding has been:

West	North	East	South
1♦	Pass	Pass	1♠
2♦	Pass	Pass	2♠

You, South, hold: ♠AK76 ♥AK76 ♦93 ♣K10 3

What do you do now?

A—Double. You are too strong to let West steal the contract at the one level. Your double here is for takeout and you are ready for both major suits.

TODAY'S QUESTION

You double and your partner bids one spade. What do you do next?

School Trustees Meet With Wells

TORONTO (CP) — Several York County school trustees met in secret session Sunday with Education Minister Thomas Wells seeking ways to resolve a strike by high school teachers, now in its fifth week.

Doreen Qadri, one of the trustees who attended the meeting, said it took place in Scarborough at the same time that parents of high school students were meeting to demand a solution to the strike.

Mr. Wells was said to have discussed whether the provincial government would place the York board under trusteeship—direct administration by the education ministry.

Another topic mentioned was whether the minister would personally decide the contentious issue of the pupil-teacher ratio, one of the major deadlocks in the dispute.

Meanwhile, 350 parents meeting at Sutton district high school board suggested that students should be bused to schools in Toronto unless the government takes steps to restore classes.

Three other options were drawn up for submission to Mr. Wells:

—Legislation to suspend the York County school board on the grounds that its trustees were no longer performing their elected function.

—A proposal that the school board accept as valid termination of services the mass resignations submitted by teachers.

—A request that government legislation be passed forcing the teachers back to work.

The 567 teachers resigned Jan. 31, leaving about 14,000 students in 15 high schools in York County north of Metropolitan Toronto without regular classes.

Earlier Sunday, the teachers' chief negotiator called on the school board's chief negotiator to meet him face-to-face.

Vincent Matheweon, executive officer for the Ontario Secondary School Teachers Federation, said the negotiators have not met directly since the strike began.

"Over several weeks the public has had an incorrect impression that the two sides have met for several hours a day across a table," he said. "Since Feb. 1 that has not happened."

Greater Authority Proposed for Teachers

TORONTO (CP) — The possibility of establishing a "structured" high school-giving teachers more authority and pupils fewer options is under study by the board of education in the borough of Etobicoke.

Keith Riddell, chairman of the board and a member of the committee conducting the study, said in an interview Saturday that many students cannot handle the freedom offered in most high schools.

He said the committee has been studying other structured high schools in the United States and Canada, particularly successful ones in Saskatchewan north of Toronto, and in London, Ont.

John Tuliou, an Etobicoke school trustee, said the structured school concept has not yet been formally brought before the board of education.

Trustee Riddell likes the concept, he said, but "I'm not sure that pupils will."

Etobicoke now operates 19 standard secondary schools where the 20,000 students are offered many course options. It also runs the School of Experimental Education which permits the 110 students almost total flexibility in selecting courses.

Kingston Man Given Life Term for Murder

KINGSTON (CP) — Tommy J. Blowing, 44, was sentenced Saturday to life imprisonment for the slaying of a Kingston police detective after a 12-member jury found him guilty on a reduced charge of non-capital murder.

The jury's decision indicated it found Blowing was not aware it was a policeman he felled Sept. 17 with one of three bullets fired through a bedroom wall at his residence.

Detective Bruce Draper, 41, died from head wounds 50 days after the shooting. Following his death a bullet was extracted from his brain.

Only once during its four hours of deliberations did the jury return to seek guidance from Mr. Justice Edson Haines of Toronto, who presided over the Ontario Supreme Court trial.

The jury sought the legal definition of capital murder, non-capital murder and manslaughter.

Later, the jury waived its right granted under a new statute effective last Jan. 1 to recommend how long Blowing should serve before he is eligible for parole. It left the decision to the court.

Mr. Justice Haines had advised the jury that under new legislation no parole could be considered until Blowing had served at least 10 years.

The judge told Blowing that had the jury further reduced the original capital murder charge, the sentence still would have been the same.

"I agree with the verdict," he said. "Had it been manslaughter, I would have sentenced you to life imprisonment because it is so important that our police officers receive full support of the law if we are to have a safe society," the judge said.

Girl Who Hanged Self Didn't Understand Plea

TORONTO (CP) — Meredith Coleman, 16, of Elliot Lake, Ont., hanged herself in a Toronto jail two weeks ago without understanding and had pleaded guilty stealing less than $200 worth of Christmas presents, says the woman who coupled the cell next to her.

June Clay said in an interview:

"She just never understood that she had pleaded guilty in court. She was very immature and not at all that bright. Uncommunicative. We needed to talk to her a lot to bring her out."

In the 10 days in jail, Meredith never believed the authorities were really going to keep her there, she said.

After a week in jail, Meredith was taken to court again and returned to jail to await a presentence report ordered by Judge Joseph Addison.

June, 39, said Meredith did not realize the shut-down offers of a place to stay, while the report was being prepared, from the Salvation Army and the Elizabeth Fry Society.

"As far as she knew, nobody asked her to go anywhere. "She was scared stiff, scared right out of her mind. But I'm not sure she ever intended to kill herself.

"She wrote a couple of notes—one addressed to Mom and Family, which we took to mean us because she called me Mom and the other girls her family."

The note read:

"You know I can't stand jail. You know I have to leave you now . . . but I'll see you guys again."

The mother of four said she is not sure Meredith was a regular drug user despite evidence at her trial she was involved with drugs since she was 13.

"They say she took a lot of drugs. But I don't think that's possible. She weighed 150 pounds and I've never seen anyone on drugs who weighed that much. But she did say she was taking medicine from a doctor."

The woman said Meredith deteriorated during her 10 days in jail from a cheerful, rather pretty-blonde girl to a paranoid, terror-stricken person who was sure she had been abandoned by her family and friends.

Cocaine Is Seized At Orono Farmhouse

WHITBY, Ont. (CP) — Combined efforts by Canadian and United States drug squads led to the seizure of 17 ounces of cocaine and the arrest of five persons Saturday.

Narcotics agents of the Toronto RCMP and the Buffalo section of the U.S. drug enforcement administration joined in the raid on a farmhouse at Orono, about 15 miles east of Oshawa, Ont.

Four men and a woman have been charged here with possession of cocaine for trafficking.

They are Isaiah R. Hampton, 36, Denver, Colo.; Brian John Millar, 30, Toronto; Donald Cleveland, 34, Orono; Marlene Dickson, 24, Orono and Peter Madison, 31, of Vancouver.

The five are being held in jail pending a bail hearing Wednesday.

Ethiopians Starving

TORONTO (CP) — The projects director of World Vision of Canada says 1,000 people face starvation each week in Ethiopia during the next three months unless the African country is supplied with more food immediately.

Dr. Bernard Barron, who has just returned from Ethiopia, said in an interview Saturday famine is affecting 14 million of the Ethiopia's 26 million people.

"The crunch comes in the next three months," he said. "They're running out of food and water."

Dr. Barron said he visited last week, 30 per cent of the children were suffering from malnutrition, said Dr. Barron.

He said Canada should help ease the plight of Ethiopians by contributing a further $100,000 in assistance.

World Vision of Canada is a Toronto-based interdenominational group dedicated to assisting underdeveloped countries.

Dr. Barron said he will return to Ethiopia in April to review the situation.

'God Will Touch Their Hearts' Message Mrs. Hearst Sends Kidnapped Daughter

HILLSBOROUGH, Calif. (AP) — "I know that pretty soon God will touch their hearts and they'll send you home again," Mrs. Randolph Hearst said in a quavering voice.

She addressed her comment to her kidnapped daughter Sunday during a plea to the girl's abductors to break their 10-day silence.

Mr. and Mrs. Hearst, appearing haggard from their month-long vigil, asked the kidnapers of their 20-year-old daughter Patricia to allow her to communicate with them.

Mrs. Hearst, her voice breaking and on the verge of tears, addressed her daughter through news reporters:

"Patty, honey, your father is doing everything in his power, and I want you to know that millions of people all over the world are praying for you.

"I know it's a long time, sweetheart, and you keep up your courage," said Mrs. Hearst.

Hearst, editor and president of the San Francisco Examiner, said: "We might add to the people who are holding you that you could be allowed to send us a letter or get in touch with us by tape."

The mysterious Symbionese Liberation Army (SLA) has claimed responsibility for dragging the college student out of her Berkeley apartment Feb. 4. The SLA has said she is being held as a prisoner of war under the international rules of the Geneva Convention.

The SLA has sent four communications to Hearst in the last month, three of them on tape. The last communique was Feb. 22.

The kidnappers had demanded as a good faith gesture on Hearst's part a food giveaway to California's poor, making the program a pre-condition to negotiations for his daughter's release.

A $4-million program financed by Hearst and the Hearst Foundation began last week. The food giveaway is scheduled to resume Tuesday.

In their last message, the kidnappers demanded an additional $4 million for the program or else they would break off communications.

Clothing for action sports in every season

Swimming's No Drag in a Speedeo Swim Suit

Speedeo swim suits eliminate the "drag" you experience in a conventional swim suit. They fit almost like a second skin. They're the choice of Olympic swimmers. And teams can get Speedeo swimsuits in team colors. See them at the Ski-Den, where there's clothing for action sports in every season.

Talks On Oil Price Start

OTTAWA (CP) — Prime Minister Trudeau and Alberta Premier Peter Lougheed talked privately for 2½ hours Monday, neither apparently dealing any new cards in the showdown over future domestic oil prices.

Mr. Lougheed left for home after telling reporters no hard proposals were made by either side.

He sidestepped questions but indicated that no breakthrough is near as the March 31 deadline approaches for an interim or permanent oil pricing solution.

Today the Alberta leader's place at the bargaining table is taken by Saskatchewan Premier Allan Blakeney, scheduled to meet Mr. Trudeau for a similar round of negotiations.

Mr. Lougheed said the primary purpose of his meeting was to exchange general views on energy and economic matters.

"This was a discussion that was really exploratory on both parts . . .

"To that extent I think it was a constructive meeting."

His reference to exploratory talks took some reporters by surprise. No one had been specific Mr. Trudeau might present a new federal offer on price increases.

All provinces agreed late in January to begin two months of intensive negotiations with Ottawa in an effort to work out a long-range pricing policy.

March 31, the last day of the voluntary national price freeze on petroleum products, was set as the deadline for a solution. Oil produced and used domestically has been frozen at about $4 a barrel since September while international prices have climbed to more than $10 a barrel.

The Weather

Synopsis: Rivers and creeks in southern Ontario were near flood stage today after torrential rains pounded the lower lakes regions overnight. Rainfall ranged from one to 1½ inches. No further precipitation was expected today or Wednesday as overcast skies gave way to sunshine. Temperatures will remain in the upper 30s. Cloud from a Prairie disturbance is expected to spread across the south late Wednesday.

Wilson Kicks Off

Above: British Labor Party leader Harold Wilson momentarily kicks aside politics to boot a ball around his garden at Great Missenden Sunday. Wilson's companion is his yellow Labrador, Paddy. Today Wilson kicked off again, starting his chores as Britain's new prime minister.

(AP Photo)

Wilson Takes Over

Moderates Picked For Cabinet Posts

LONDON (CP) — Prime Minister Harold Wilson announced today a Labor cabinet dominated by moderates but with the key labor portfolio going to noted left-winger Michael Foot.

James Callaghan, 61-year-old middle-of-the-road MP for Cardiff in Wales, becomes foreign minister and former defence minister Denis Healey, 56, takes over as chancellor of the exchequer.

Foot's appointment is the sensitive post of employment minister came as a stunning surprise to most pundits who had expected a more moderate figure, such as Reg Prentice, to get the job. Prentice, as Opposition spokesman on labor problems, had taken a firm line against union militancy.

The elevation of Foot, (1 year-old representative for the Welsh mining district of Ebbw Vale, seemed to be an attempt by Wilson to establish cordial relations with the unions immediately and perhaps to promote some sort of voluntary income restraint program.

Foot, who has always shunned cabinet posts in the past, faces the immediate problem of ending a damaging coalminers' strike and averting a threatened rail strike.

Healey, defence minister in the Harold Labor government between 1964 and 1970, has to deal with a large balance-of-payments deficit, dwindling official reserves and the need to borrow huge sums abroad to finance the trade gap.

Healey is expected to bring in a budget soon and may move quickly to secure a big loan from the International Monetary Fund.

The appointments were announced a day after Wilson returned to power at the head of a minority government.

Western States Fight to Keep Canadian Oil

WASHINGTON (CP) — Legislators from six midwestern states, disturbed at the prospect of losing 250,000 barrels a day in imports of crude oil from Canada, Monday put together a loose organization to seek ways of lessening the impact in their area.

Describing the problem as "devastating for our refineries," Representative Bob Bergland (Dem. Minn.) agreed to form a group to "keep the heat on" federal United States officials scheduled to open oil talks with Canada later this month.

Bergland, and others who attended the one-day emergency meeting of midwestern senators, congressmen and energy officials, expressed concern over reports that extension of the Edmonton-to-Sarnia, Ont., oil pipeline to Montreal by late 1975 would cut off northern U.S. states from 250,000 barrels of oil currently imported by this area each day.

"This is going to be an enormous loss if it all comes at our expense," Bergland said.

Plan More Processing Here

Bill Curbs Export Of Raw Materials

OTTAWA (CP) — A bill to promote Canadian processing by restricting export of natural resources products was introduced in the Commons Monday by Industry Minister Alastair Gillespie.

The bill would authorize the cabinet to ensure that further processing of a natural resource "is not rendered ineffective by reason of the unrestricted exportation of that natural resource."

It also would permit restriction of the export of non-agricultural, raw or semi-finished materials produced in Canada "in circumstances of surplus supply and depressed prices."

The government said in last week's throne speech that steps would be taken to ensure further domestic processing of resources.

The bill, amending the Export and Import Permits Act, also would authorize the cabinet to restrict importation of articles similar to those produced or marketed in Canada when production or marketing of such goods here is fixed by the Farm Products Marketing Agencies Act.

Conservatives Back Heath

LONDON (Reuter) — Former prime minister Edward Heath won enthusiastic backing from Conservative party parliamentarians today, indicating his position as party leader is in no immediate danger.

Multinational Firms Are Problem

Canada Appeals for UN Help

UNITED NATIONS (CP) — Canada told the United Nations agency Monday that greater international co-operation and consultation is needed to deal with the problems created by multinational enterprises.

It suggested that laws might be developed to prevent the extension of the laws and regulations of one country into the territory of another through the vehicle of a parent-subsidiary relationship.

The Canadian viewpoint was set out in a reply to a questionnaire from the UN Commission on International Trade Law seeking from UN members opinion on steps to control multinational enterprises.

The Canadian reply said that "co-operative action either through bi-or-multinal legislation of international legal rules or by international laws alone, can play a large part in ensuring that the activities of multinational enterprises are "subject to control by the governments in whose territories they carry on business."

At the same time, it expressed doubt that sufficient agreement exists at the moment among the International community to permit the adoption of uniform laws by an international convention.

If legal rules are to be developed," it said, "it may be that the most that can be attained in the immediate future is the development of model rules which might be employed or adopted in national legislation without the obligation of uniformity.

"Whatever the approaches, there is considerable merit in maintaining a fair degree of flexibility."

The Canadian reply suggested that the commission take steps only in those fields where a significant chance of success exists and that it keep in mind that the effectiveness of solutions sought by legal means will depend primarily on their acceptance by the greatest possible number of countries.

Crown Firm May Buy Locomotives for Cuba

OTTAWA (CP) — Intervention by the Crown-owned Canadian Comercial Corp. is being considered as one way of overcoming United States government opposition to a sale of Canadian locomotives to Cuba, official sources said Monday.

Under one option being studied, the corporation would buy the engines from MLW-Worthington Ltd. of Montreal and resell them to Cuba.

That might get around the U.S. Trading with the Enemy Act, which prohibits direct trade with Cuba by U.S. firms or their subsidiaries in Canada and other countries.

A direct sale to Cuba by MLW has been stymied at least temporarily by the U.S. treasury department so far has withheld permission requested Feb. 11 by Studebaker-Worthington Inc.—MLW's New Jersey parent—for exemption of the $18-million Cuba deal from the Trading with the Enemy Act.

That application, supported by the Canadian government, is expected to be reviewed personally by State Secretary Henry Kissinger, once he returns from the Middle East.

Expect End Of Oil Embargo

WASHINGTON (AP) — Complete removal of the oil embargo against the United States with resumption of pre-October-war levels is the optimistic expectation of authoritative sources in advance of next Sunday's meeting of Arab oil ministers in Libya.

Prices are likely to drop to about $7 a barrel from the current $11.65, it was learned at the State Secretary Henry Kissinger returned from an eight-day trip to the Middle East and Europe.

Meanwhile, the president of Baird Oil and Gas Corp. of Malakoff, Tex., said his firm has a deal for 25 million barrels a year of Saudi Arabian oil. Page Ballard said the oil will be shipped each month for five years to the United States.

Ballard said he contracted for the oil through a bank in Malaysia and had no direct dealings with Saudi Arabia.

Evidence Of Blast Augmented

PARIS (AP) — Additional evidence has come to light indicating an explosion may have caused the crash of the Turkish airliner in which 346 persons died Sunday just north of Paris.

Investigators searching the wooded crash site said they have not ruled out the possibility that a bomb may have gone off aboard the DC-10 jetliner, causing the worst crash in aviation history.

But the experts cautioned that even if there was an explosion, it might have been caused by a mechanical malfunction and not a bomb.

The explosion theory is "one of several" being investigated, officials close to the inquiry said.

'Fair Deal' Asked By U.S. Spokesmen

WASHINGTON (CP) — The problem of United States access to vital foreign supplies of raw materials—dramatized by the Arab oil embargo against the U.S.—dominated discussion Monday as a Senate committee began hearings on major trade-reform legislation.

Both senators and administration witnesses stressed the need for international rules assuring fair play for both producing and consuming countries. Several senators denounced the Arab boycott in unusually strong language.

There was no agreement on what specifically should be done.

Treasury Secretary George Shultz said the world needs "some sense of the proper rules for behavior" and an agreement "to discipline those who don't follow the rules."

But he added that he hasn't made up his mind on specifics.

News Briefs

Arm Reattached

TORONTO (CP) — Gus Palantzas, 42, of Toronto, whose left arm was severed Friday night, had the limb reattached in a five-hour operation early Saturday. Mr. Palantzas was cleaning an industrial machine when his sleeve became entangled in a conveyor belt. Before he could pull free, the arm was severed about three inches above the elbow. He walked about 100 yards before he met fellow worker, Mex Selikos, and an ambulance was called.

16 Held for Theft

WASHINGTON (AP) — The arrest of 16 persons in connection with the theft of more than 7,000 airline tickets valued at more than $2 million was announced today by FBI Director Clarence Kelley.

Leftists Fight Police

CORDOBA (Reuter) — Heavy firing was heard in this Argentine industrial city early today as left wingers battled police and right-wing civilian militia for the fourth successive night.

To Control Mutual Funds

OTTAWA (CP) — The government released today a report proposing a new federal law to regulate the $4.5-billion mutual fund industry.

Monopoly Charged

TORONTO (CP) — Three electric light bulb manufacturing companies went on trial Monday in what special prosecutor Edgar Sexton described as Ontario's first monopoly case. The companies are — Canadian General Electric Co. Ltd. (CGE), Westinghouse Canada Ltd. and GTE Sylvania Ltd.

Miss Teen Named

TORONTO (CP) — Sixteen-year-old Diana Lynn MacDonald, representing Ottawa, was chosen Miss Teen Canada 1974 at the national finals Monday night.

Fraud Losses Double

KINGSTON, Ont. (CP) — Easy bail, early parole and improved technology have resulted in fraud losses almost doubling during the last 10 years, Michael Ballard, senior director for the Canadian Bankers' Association, said Monday.

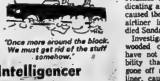
Charges Laid Over Pigs

ORILLIA, Ont. (CP) — Three Winnipeg men have been charged with cruelty to animals following the death of 115 pigs being transported through here from Lloydminster, Sask., provincial police said Monday. Charged are Patrick Racette, 23, Arthur Yvarlet, 19, and Loree Lambert, owner of the vehicle used to transport the swine from Lambert Livestock Farms of Winnipeg.

Everything But Ice

Twelve-year-old Steve Ottman of Toronto heads down his street Sunday afternoon for his weekly ball-hockey game with everything but the ice. Ice is a pretty hard thing to find, in southern Ontario at least, as temperatures climb toward the 60 degree mark.

(CP Photo)



He's Gone Now

A demonstrator wearing a large caricature head of Edward Heath makes a victory sign Saturday as he and others conduct an anti-Heath demonstration outside the Prime Minister's official residence. The victory sign was a little premature, but Heath finally resigned as prime minister on Monday.

Night Soil Pickup Promised

The Belleville public works department will look after night soil collections in the area of the Hillcrest area until a new contractor is hired.

This was the assurance of Mayor Robin Jeffrey at Monday night's council meeting following presentation of a 150-name petition from area residents demanding that something be done to remedy their situation.

Clarence Young, representing PAGE (People Against Contaminated Environment) told council that conditions in Hillcrest were "totally unacceptable" with sewage pickups at some residences having been ignored for up to two months.

He said if it was difficult for the city to obtain a contractor it was the duty of council to make it worthwhile.

In the meantime, he said, stinking pails of human excrement were piling up.

Mrs. Yvonne Boomhour, 239 Cannifton Road, whose rented house is not connected with the sewer running past her home said her landlord could not afford to connect to the sewer.

She asked the same treatment from council as though a council member was the victim.

The Hillcrest problem, which became publicly known late last week resulted when the night soil collector retained by the city at $600 a month disappeared with the result that pickups had not been made.

Council members last night, however, denied having received any complaints until late last week, this despite the charge of residents that they had been given the run-around at city hall.

At the same time council chided the PACE organization for "blowing the incident all out of proportion" which was done they felt for the sake of publicity.

Mayor Jeffrey told council hat the Hillcrest problem had been cleaned up on Monday by city public works department employees and this would continue to be done until a collection contractor was hired — hopefully by today.

About 60 per cent of the city's Hillcrest area is still without sanitary sewers and the policy of the city has been to hire a contractor to make sewage pickups at residences without sewers.

In streets where there are sewers but with houses not connected, the city discontinued collections last December 31st — a date set by the Hillcrest Ratepayers' Association.

Mayor Jeffrey said that contracts for the installation of sanitary sewers in the remaining areas of Hillcrest would be awarded this year with the work expected to be completed in 1975.

Where sewers are installed and houses not connected it was the responsibility of the householder to arrange for his night soil pickup, it was stated.

DEATHS

COTTEN, George Edmund — Of 28 Wallbridge Cres., Belleville at Belleville General Hospital on Monday, March 4, 1974, in his 71st year. Dear son of the late Mr. and Mrs. David Cotten and loved father of Gordon, Marion (Mrs. Arthur Cowling), Belleville, Mrs. (Rev.) Lloyd Wilson, Dundas, Ontario. Dear brother of Mrs. Elmer (Lena) Stapley, Belleville, Mrs. (Ruby) Moore Brockville, Mrs. Roy (Marguerite) Rice, Belleville, Dear father of Mrs. Forrest (Linda) Bowerman, Belleville, also survived by 15 grandchildren and 11 great grandchildren.

Mr. Cotten is a member of the John R. Bush Funeral Home, 80 Highland Ave., Belleville, where friends may call on Sat. and Sun. March 9th at 2.30 p.m. in the Chapel. Service at 3 p.m. Masonic officiating.

Interment Belleville Vault. Those wishing may remember Cemetery Lane in any gifts.

JONES, David Robert — Of R.R. 1, Frankford, at the Belleville General Hospital on Monday, March 4, 1974, in his 19th year. Dear son of Mr. and Mrs. John (Jack) Jones, R.R. 1, Frankford. Dear brother of Mrs. Ronald (Sandra) Bateman, Belleville, Mrs. Roderick (Debbie) Reesink, Belleville, Mrs. Bernard (Bernice) Gerow, Belleville, Mrs. Gary (Cathy) Hamilton, Trenton, Ontario.

Resting at the John R. Bush Funeral Home, 80 Highland Ave., Belleville. Funeral Service in the Chapel on Wed., March 6th, at 2.30 p.m. Interment Chapel R. C. Wright officiating.

Donations, St. James Cremation Fund.

In lieu of flowers, donations to your favourite charity would be appreciated by the family.

FRASER, Mrs. Ethel — Peterborough (Civic Hospital) on Monday, March 4, 1974. Dear wife of the late Walter Neale and dear sister of Miss Lena Fraser, Toronto.

Mrs. Fraser is resting at the Rush Funeral Home, Dundas, Ontario. Service in the Chapel at 2 p.m. on March 6 at 2 p.m. Reverend W. Hamilton officiating.

Interment Pinehurst Cemetery.

ROLFE, Mrs. Kathleen — Of 258 Sidney St., Belleville — At the Belleville General Hospital on Monday, March 4, 1974, in her 74th year. Dear wife of the late Eric Robert Rolfe. Loved mother of Mrs. Ruth (Mrs. Joseph (Cyril) Gibson and Mrs. Joseph (Linda) Sproule, both of Belleville. Dear sister of Mrs. Cheryl Hall, Mrs. Ethel Hall, Mrs. Lillian Hall, Belleville, both of Montreal, Mrs. Hilda (Miss) Armstrong of Belleville. Survived by 3 grandchildren. Mrs. Rolfe is resting at the John R. Bush Funeral Home, 80 Highland Ave., Belleville, where funeral service will be held on Wed., March 6 at 1 p.m. Rev. Charles Daniel of the Full Gospel Tabernacle officiating.

Interment Belleville Cemetery.

YOUNG, Mrs. Helen Leslie — Formerly of Wallington and St. Chairmaker Street, Belleville, at Hastings Manor, Belleville, on Monday, March 4, 1974. Beloved wife of the late Dr. John Young and mother of Mrs. John Chapman, Wife of Mr. Justice Chapman, Toronto. Remembered by several cousins.

Resting at the Rush Funeral Home, Dundas, Ontario. Funeral Thurs., 22 Norwest St., Belleville. Funeral will be held on Tuesday, March 5, 1974 by Reverend Alfred Fenner officiating. Interment Belleville Cemetery, Thurlow Township.

Bridge Street Widening Postponed Indefinitely

Reconstruction and widening of West Bridge Street from Highland Ave. to Yeomlins, strongly opposed by area residents because it has loss of shade trees and faster traffic speeds, is to be delayed.

This was the decision of city council Monday evening at its regular meeting when members gave unanimous approval to a motion from Mayor Robin Jeffrey asking that the reconstruction project be postponed.

The notice of motion tabled at council two weeks ago asked that the project be delayed until there was a clearer indication of the size and timing of development west of the city in Sidney township and remaking road placement and future needs are established.

The motion also calls for heavy truck traffic on West Bridge Street to be prohibited as a temporary measure, and that application be made to the province to have the road subsidy earmarked for Bridge Street to be transferred to the Sidney Street project.

In speaking to her motion, Mayor Jeffrey said she was not arguing that the eventual reconstruction of Bridge Street be two or three lanes, but was asking only that the project be delayed.

The key to any decision on reconstruction would depend on development in Sidney township.

She said there would be only so much development in the Belleville area and some of this would go in the city's east end and also to the south in "hurrow township.

Also to be determined will be the cost of underground hydro service for the street.

Alderman Jack Ireland seconded Mayor Jeffrey's motion for postponement of the Bridge Street reconstruction project but not for entirely the same reasons.

He noted that there had been many development projects for the township area west of the city calling for sewer and water services. So far, however, there has been no clear picture of what was to be done.

Obituaries and Funerals

DAVID ROBERT JONES
RR 1 Carrying Place

Funeral services will be held Wednesday March 6 for David Robert Jones, 19, RR 1 Carrying Place who died Monday in Kingston General Hospital.

The funeral will be conducted by Canon R. B. D. Wright with service at the John R. Bush Funeral Home at 2.30 p.m. followed by cremation in Toronto.

Born in Belleville, he was the son of Mr. and Mrs. John (Jack) Jones and attended Christ Church.

Aside from his parents, he is survived by brothers Gerald and Frederick of Belleville, Douglas of Bexkdale, Donald and Gregory, both at home and sisters Mrs. Gerrard (Barbara) Genereaux, RR 1 Foxboro, and Mrs. Douglas (Beverley) Boomhower of Belleville.

GEORGE EDMUND COTTEN

Former resident of Canadian Forces Base, Trenton, George Edmund Cotten, 28 Wallbridge Cres., died Monday in Belleville General Hospital.

He was in his 71st. year.

Born in Harold, he was the son of Mr. and Mrs. David Cotten and had lived in the area for many years.

He was a veteran of World War 2 with service in the Hastings and Prince Edward Regiment and was a member of the Springbrook Orange Lodge.

He is survived by his wife, the former Lottie Brenson, a son George of Ottawa and two daughters, Mrs. Norma Auger of Belleville and Mrs. Harry (Ruby) Wilson of Dundas.

Also surviving are two brothers, Harry of Edmonton and Elmer of Stirling, and two sisters, Mrs. Ruby Moore of Brockville and Mrs. Roy (Marguerite) Rice of Belleville, and a friend, Mrs. Flossie Dunkley. Sister Mrs. Tillie Lucas predeceased him.

The funeral will be held Wednesday from the John R. Bush Funeral Home with service at 3:30 p.m. conducted by Rev. C.D. Staples. Entombment in Belleville Cemetery vault with spring interment.

Watch Lifted

Belleville police are looking for a female shoplifter who walked out of Wonnacott Jewellers with a $200 wristwatch around noon hour yesterday.

The watch, a Bulova Accutron ladies' watch with a leather strap was reported missing at 12:19 p.m.

Police are looking for a woman who was described as being approximately five feet two inches in height, 120 pounds, with short brown hair. She is believed to be approximately 30 years old.

Schools Topic

PICTON — Guest speaker at today's meeting of the Picton Kiwanis Club was to be Russell Williams, special services co-ordinator for Edward County schools.

Mr. Williams will discuss primary education in Russia.

The Last Lesson?

This bobsleade — sporting (or is likely having the last skating lesson for the season on Belleville harbor. In the wake of mild weather, skaters have been warned off such outdoor rinks as the city's recreation department.

Skaters Warned Off Ice

As a mild winter entered a rainsoaked thaw, the city recreation department has warned Bellevillians away from large natural outdoor rinks.

The warning, specifically involving big skating areas at the city harbor and Zwick's Park cove, comes as the department reviews its programming of outdoor winter sports.

Skating and skiing projects have been dogged by unpredictable weather conditions, said a recreation official.

The department today announced it has closed out the few outdoor rinks it has operated in recent weeks.

Originally 21 skating areas had been planned around the city during the past winter. Mild weather plagued the program throughout much of the season and eventually only four or five rinks were maintained as prolonged warm spells at times bearing rain — hampered upkeep.

Now the department is also worried about the safety of skaters using the harbor and Zwick's.

Ice may still be reasonably thick in the now-abandoned skating roost. But it has been rotting around the shorelines.

Skaters using both areas now do so at their risk, the department warns.

The persistence of unseasonal winter weather has prompted the department's re-examination of both its outdoor skating and skiing programs.

Ski instruction projects, organized by the department at Batawa Ski Club for the past three years, have also been affected by fickle wintry conditions, said Clifford Belch, deputy recreation director.

The department programmed eight instruction sessions for both beginners and advanced skiers in the city.

"To this time I don't think we've completed half of our program this year," said Mr. Belch.

He pondered if a gradual change in climate might be at the root of the problem.

Records at CFB Trenton's weather office indicate little change in average winter temperatures in the past 30 years. -

Chicago, Ill.—A free offer of special interest to those who hear but do not understand words has been announced by Beltone, a copy of the book "The Truth About Nerve Deafness" by a prominent audiologist will be given to anyone answering this advertisement.

The book contains 8 pages of facts about today's most common hearing problem, the early warning signs, and the possibility of medical or surgical help.

This book is free, so we suggest you write for yours now. Again, we repeat, there is no cost, and certainly no obligation. Thousands of copies have already been mailed, so write today to Dept. 2022, Beltone Electronics Corp., 4201 W. Victoria St., Chicago, Ill., 60646.

Shawano Development

$35 Million Plan For Resort Area

By RUBY McCOY
Staff Correspondent

MARMORA — A $35-million development master plan for the Shawano resort area north of here has been outlined for Marmora Village Industrial councils.

If the proposed plan is accepted by council and Hastings County planning authorities, (next step for the developers is a detailed analysis of environmental and economic impact.

The ambitious Shawano (Ski, development of which began some years ago as a recreation resort, already is designated a recreation development area in the county's draft official plan. The designation permits such installations as a hotel, motel, marina, as well as cabins, tent and trailer camping.

The master plan covers 10 years, with this development timetable:

— A village centre scheduled for 1975 to consist of 51-million, providing about 50 jobs.

— A $4-million hotel and recreation centre in 1977 including years 1 and 2 golf, tennis and riding facilities and rustic inn with 30 rooms.

Other shares envision residential development on Lost Lake in 1978, Perch Lake in 1979 and Shawano Lake in 1980. Hi-rise styles, may range from single-family detached units to condominium townhouses. Average sales price at present is estimated at $25,000.

Chalet housing would reduce the amount of municipal road systems.

Shawano is in the northeast corner of Lake township. The big development is in a township that is mostly a lake-and-forest wilderness area. Only access is by the Steenburg Lake Road connecting Coe Hill to Highway 62.

Main industry is lumbering, but even this has not been active in recent years. Most of the surrounding area is undeveloped Crown land.

Shawano is on 1,100 acres in the Dickey Lake area and includes 12 miles of water frontage.

At present 145 lots have been sold and 86 more are available. About 100 vacation cottages have been built or under construction at the site, developed by Charlotte Properties of Tamworth. Charlotte's principlas are Bruce Bond, Donald Bowes of Bowes and Cox realty firm.

Marguerite Hogg and Students

CFB School Produces Young Bilingualists

By STEVE CAMPBELL
Staff Correspondent

CFB TRENTON — Broadview School in Middleton Park here is successfully operating a new system of French in a structure which is producing kindergarten bilingualists.

A national pilot project three years ago by the defence department, it is now a model for later programs introduced on other service bases.

The school features, in addition to regular schooling, a section devoted to completely Francophone studies. In a portable building close to the main school, all the class instruction is done entirely in French.

"It's the only school of its kind in this area," said Praser Rose, the principal of the primary school. The Broadview School was the first school on a Canadian service base to introduce a Francophone program which spanned all public school grades as part of a Department of National Defence experiment.

"When it was set up, it was meant just for Francophone students, Mr. Rose stated, "so that service personnel with French-Canadian background could have an alternative to Anglophone schools."

Although originally meant to serve French-Canadian families in the area, those transferred from other bases, the program was opened to Anglophone children as well.

Since its introduction in 1971, the number of students taking the program has grown from 12 to the present total of 44 ranging from kindergarten to grade 6.

Though Broadwe School allows English-speaking children into the system, "we won't let it become more than 50 per cent Anglophone," said Mr. Rose. This is partly to prevent the English-speaking students from slowing down the Francophones for whom the system was designed, and also to allow individual attention to the students.

Half the kindergarten-grade 1 classes are Anglophone children and some classes are now being allowed to enter the program at about own grade level.

The classes are small and individual attention is the key to the program's success. Most of the students are progressing quickly in their studies; all of them enjoy the program, said Mr. Rose.

Mrs. Marguerite Hogg, one of the teachers in the Francophone program, finds that it is difficult to grade students as a class. She prefers to mark on individual performance, although formal tests are occasionally given to the students.

English is one of the classes in the program, a subject necessary for students of both language backgrounds. It is important for all students to learn English grammar as preparation for high school. Francophone students greatly do as well as Anglophones, said Mr. Rose.

The system itself is a working example of a symbiotic relationship. Students of both languages learn from each other as well as from the well-trained instructors. As a result, all students are becoming completely bilingual. Unlike most students who learn the French language at a later age, they also seem to be little audible trace of English background in the spoken French.

Take 7-year-old Mrs. Hogg feels that the program "helps children to cope with other changes more quickly". With the language barrier broken, students seem to be better prepared to handle other learning experiences using resources of both languages.

The Francophone program, financed by the defence department and the provincial government, is now being set up at other major bases to serve service personnel.

Blame Mice For Fire

Mice have been blamed for a house fire that called out Thurlow township's Corbyville detachment early today.

Around 12:25 a.m. at the home of L. W. Parks, on the township's third concession, fire started in an outside wall but was put out by quick-acting firemen.

Thurlow firefighters arrived at the scene they found the homeowners fighting the fire with a garden hose.

Damage estimates were not available, but fire department spokesmen say the fire was confined to the outside wall and porch roof.

The fire was believed to have started when mice gnawed their way through a 220-volt electrical line leading to the home.

Picton Council Warned

Subdivision Against Official Plan

By MARGARET HAYLOCK
Staff Reporter

PICTON — Representatives of the Prince Edward planning board warned Picton town council Monday night to discourage subdivision developments proposed near Picton.

W. W. Evans, Picton's representative to the board, stated that the county's draft official plan proposes that action to the north in addition to filling in any areas closer in to the borders on undeveloped land. This proposal would include about 375 acres and house approximately 3,000 persons.

Mr. Evans informed council the planning board has been approached with a proposal for a 400 home subdivision west of Picton. The developers propose installation of their own water system and a lagoon type sewerage system.

"This would take up an area which one can estimate the size of Wellington," said Mr. Evans in a letter submitted to council with his presentation.

"This is contrary to our official proposed plan and I personally feel that it should be allowed to proceed we might as well close up shop and start all over again," he added.

Mr. Evans said that Prince Edward's director of economic development, William Duggan, has advised the planning board that serviced lots will soon be in demand as there is more industry coming to the county, and provincial government's health complex at Prince Edward Heights will also expand.

He emphasized that he must know council's intentions immediately about expansion of sewer and water services to accommodate any major subdivisions in the future.

The planning board representative asked that councillors last December asked for time to study the draft official plan. None has replied yet to questionnaires.

Picton deputy-reeve Larry Richardson said he feels there is some assurance that council agrees with the basic principle of the draft plan. The same theme underlying many of its proposals is the location of any large developments near major centres. Isolated developments are not supported through the proposed plan.

Mr. Richardson suggested a subdivision west of Picton would not only be separated but also would have a lagoon sewerage system that would not be "the most appealing."

The deputy-reeve added that he would prefer Edward's government will be represented in the next few months.

He did not agree that council should support a sewerage hook-up for 400 homes "this year."

Councillor Jack Evans, chairman of the planning and development committee said the draft official plan referred to the county of Picton for development. The location for the proposed subdivision west of town has been designated as farm land.

Mr. Evans stressed that the town must be prepared to pay for development. He said the planner's report suggests that a road should be built between Talbot and Johnson streets parallel to the railway tracks to open that area. Picton would pay part of the cost.

"Sewerage and water services also must be provided for the area and in Mr. Evans' opinion, if the town expects the developer to meet these costs, "it is not very practical."

"Will you spend money for this type of development?" he asked.

He told council that if it will not, or cannot, spend the needed funds, the development will move outside of town.

Mayor James Bird said Picton must be certain its sewerage system is adequate to accommodate the extra homes of a subdivision. He said that council should not allow 400 homes "this year" to expand the system to handle this growth. It is now operating at capacity.

"You plan wisely and carefully, you don't just rush in," said deputy-reeve Richardson.

He added that the immediate "yes or no" to expansion requested by Mr. Evans seemed" a little presumptuous."

Deputy-reeve Richardson said that Picton's sewerage plant is undergoing expansion and will double its capacity to about one million gallons per day.

If Prince Edward Heights is serviced by the new system the 250,000-gallon capacity reserve will remain.

Keith MacDonald, Prince Edward warden and reeve of Hallowell attending the meeting with planning board representatives, expressed concern that developers might leave the Picton area if conviction west of town is opposed.

"How would council feel if the subdividers said 'we do it here or move out'," asked Warden MacDonald.

"If one won't do it another will," replied councillor Jack Evans.

Mayor Bird told the planning board delegation that he thought Picton would be very ill to survive a development in Hallowell because of an existing agreement for extension of services.

The proposed subdivision west of Picton would be in Hallowell township.

"We are here now and I think we all love this county very much," he appealed. "I think we could do a lot more damage by letting everyone come in and push us around."

Mayor Bird added that he feels all councillors supported growth of the county if it is in line with the county plan.

Town solicitor Jack Ward told council that it was unlikely if the province's Community Planning Branch would "seriously entertain" the type of developed proposed west of Picton in view of what they know of the draft official plan.

He said the result is aware of the plan's goal to expand on existing areas such as Picton, Bloomfield and Wellington.

In the adoption of a report of the planning and development committee, council recommended that the draft official plan be accepted in principle for the county.

Zoning Controversy: Protests Trickle In

TRENTON — After the torrent of developer objection

Chief Says Assault Claim Not True

PICTON — Picton police department has received any complaint of an assault incident published in an unidentified woman yesterday on a Belleville radio open line. shows.

Picton Police Chief George Pell said the woman claimed a boy brought to his home by two Picton constables was slapped by his father while officers held him.

Chief Pell said that a 16-year-old youth was taken to the station last Friday after Constables Donald Camp and Cecil Partington found him behind a Main St. dime store.

When discovered, police claim the youth was holding a tissue to his nose. A partcan of blood was evident, reported nearby.

Chief Pell said when the constables took the boy to his father, he was disciplined and ordered to his room.

He added that there has been no complaint of assault and contradicted the unidentified woman's statement that the youth was held by police while his father slapped him.

"That is not correct," commented Chief Pell.

He said that the youth can lay a charge against his father if he wishes, but has not done so.

Debris Draws Complaint

PICTON — Town council has decided to take no action on a ratepayer's complaints of debris on the harbor shoreline of Picton Bay.

Picton merchant Colin Carter, a former councillor wrote council that the shore is littered by debris deposited "by the high water level of 1972."

Both from the standpoint of appearance and hazard from floated timber later on in the season, this project I believe deserves the attention of council," he wrote.

Councillor Russell Alexander said the public works committee lacks extra manpower needed to clear the shoreline. He said it would be costly and the wind could bring in the debris anew after a clearance.

"It won't hurt these residents to clean up their own shore line," he added.

The councillor added that owners of property in the harbor should be notified of their shores and questioned this enforcement.

Council filed and acknowledged the letter.

to Trenton's proposed zoning bylaws, only a trickle has been received by the Quinte Planning Board for serious consideration.

About a month ago the town's development and commercial community bombarded local and regional planning staff with questions and comments, nonetheless voicing the town's official plan and zoning bylaws.

Such a wave of complaint deadline. Complaints have to be submitted in written form following the meeting.

Stephen Stokmans, deputy planning director for the board, disclosed Monday that five letters had been received and that all contained "very reasonable requests."

Mr. Stackmans was sure that the complaints could be sorted out.

Upon receipt of written briefs another meeting was to be scheduled but the date is yet available.

Trenton's Suburban Planning Committee must first meet to consider the letters. Mr. Stackmans said he set a meeting date yet, says Mr. Stokmans.

One explanation for the small written response will be available March 15 when the town's developers unveil their own official plan.

Spurred on by a comment by Doug Whitley, some developers took his comments to heart. Mr. Whitley, after viewing the proposed bylaws, said "maybe we'd better go home and calm our own maps."

Okay Asked For Rural Homes

MARMORA — Marmora and Lake townships council has been asked to approve a 97-lot housing development on the Marble Point Road near here.

Marvin and Gordon Lang, Oshawa, will council they represent a group of people who have purchased the Marmora township property.

The site was scheduled for development about two years ago, but the developer went out of business.

The site has the approval of county health and building authorities.

Reeve Graham Bell said council would require time to study the project.

Despite all the talk these days about protecting your dollar, sound, investments and hedges against inflation, the purchase of a home is seldom overlooked as a well-built home in a good neighbourhood is one of the best hedges against inflation your money can buy.
In the current years of inflation, for example, home and land value has more than kept abreast of the general rise in prices. This means your home investment puts you considerably ahead of the inflation game. Combine the pride and pleasure that home ownership can bring you,
There is no reason to believe that this situation will change in the near future. During the 1980's the number of household formations increased over one million per year. During the 1970's households will probably increase at an even greater rate. Look for that home your money can buy and enjoy your inflation hedge.

Ministerial Shift

Ontario's new minister of colleges and universities, James Auld, is a youthful and handsome 53 whose home-town newspaper (Brockville) reveals, has never been to either college or university.

Mr. Auld apparently had planned to go to college and become an engineer but the war intervened and following service with the Queen's Own Rifles he took up a business career.

The new minister nevertheless brings to his new post a lot of experience — the kind a young man used to embark upon as an apprentice, in the days when a university education was more exclusive and to a large extent less of a mandatory experience than it is in this age of specialization.

As one who might be seen as the quiet man of Ontario politics, Mr. Auld has seldom been, in the limelight, but unquestionably he has been very much on the job just the same: as minister of tourism, minister, and minister of the environment — the post which could be termed his most controversial in an eminently non-controversial career in politics, and which he now vacates for his new job in the education sphere.

If the environment portfolio is something of a kiss of death in these days of ecological offenses, and with public-advocacy democracy reaching via this very-much-in-the-"news" medium its most vociferous peak, Mr. Auld (like Dr. Potter in vacating the health spot) could well be experiencing a sense of relief. For this is a job where the demands are pressing and widespread, and where the chances to please are notoriously limited.

This is not to say Mr. Auld did not have his successes. He did, and among them was the extension to the water purification facilities here, and he was here for the opening ceremonies.

Moreover, his ministry put out perhaps more information material on the problems and needs of the environment than perhaps any other, material in which we have referred on occasions in the past, and which reflect well on the awareness of the minister and his staff.

Now Mr. Auld has moved to another sphere; if he does not have a university education there is many a man of his years who is similarly bereft yet whose usefulness to the community is unquestioned. And besides, he says he can get an honorary one — how about that!

One Entity

There is a lot of American change mixed in with the homegrown stuff these days (much of it from purchase of gas at border points). It is commonly a phenomenon that is noticed in the summer, but now there is more of it than ever. The irony of it is that, strictly speaking, U.S. money is not legal tender in this country, but we continue to tolerate it out of convenience and the fact that to ban it would cause such a furore that it would shake Canadian-U.S. relations to the core. There are two nations, but when it comes to money — and much else — this continues to all intents and purposes is one entity.

Worst in History

There have been conflicting reports as to the circumstances of the crash of a Turkish airliner shortly after takeoff from Paris. But sabotage or not — and there is strong evidence that a mid-air explosion took place — it is known that this was the greatest air disaster in history. The plane was a DC-10, one of the latest of the "jumbo" variety of jetliner and all of the more than 300 passengers were killed. Taken along with an attempt by hijackers to burn a British airliner at Amsterdam at the weekend and to view commercial flying these days in an increasingly risky light.

Correction

The president of the Belleville and District branch of Pensioners Concerned (Canada) Inc. is H. Glynne Jones. In a letter published last week Mr. Jones' name was indicated incorrectly as being A. Glynne Jones.

U.S. Bungling Of Energy Crisis a Lesson For Canada

By VINCENT EGAN
Business and Consumer Affairs Analyst
Thomson News Service

Despite all the clichés about the elephant and the mouse, and one catching pneumonia when the American economy sneezes, Canadians have this big advantage: we can learn so much from U.S. mistakes.

Some of the biggest U.S. mistakes have been and are being made in the name of the energy crisis. (President Richard M. Nixon announced at his second news conference that the energy crisis was over although people would still face difficulties in buying gasoline—something like proclaiming that winter is over but that the cold weather would continue.)

Faced with a relatively moderate catching than 10 per cent—in its oil imports because of the Arab oil embargo, the United States has managed to do almost everything wrong.

The so-called energy czar William E. Simon, has haggled with state governors, issued decrees after decrees, authorized a limited price increase which has soon doubled and extended to all gasoline pumps.

The result: mile-long lines of cars at some service stations, closings at other stations by a nit-nated dealers, violent strikes of truckers, and general social disorganization.

The Netherlands (also cut off from Arab oil) and West Germany faced even greater reductions in their gasoline supplies.

But in those countries there has been no attempt to freeze prices at some politically desirable level. Instead, prices were allowed to reflect the supply and demand—and everybody seems to be faring better under the traditional price system.

Granted, there is a danger of profiteering by oil companies, distributors and dealers when supplies are short and prices rise sharply.

But governments have ways of dealing with the problem—such as a high rate of excess-profits tax—without plunging the economy into chaos. Note that the United States is experiencing.

Canadians have been spared the shortages and the turmoil. Thus, prices of petroleum products have risen—and will go again soon—although by much less than in most industrialized countries.

But what of the future? The only providing adequate energy supplies is a continuous task—not one to be turned to and off depending upon the direction of the political winds at any given moment.

And it is an extremely costly task. General Motors Corp., according to Royal Bank of Canada General Manager T. A. Dobson, Canada could need $120 billion in capital for energy and utility projects (both petroleum-based and other).

Examples: Ontario and Quebec will spend almost $1 billion in each of the next 10 years on nuclear facilities. The Arctic Gas and Polar Gas Pipelines could cost $6-billion each.

Even though our federal and provincial governments are far apart on constitutional and tax-sharing questions related to the supply of energy, let's hope—for the sake of Canada's economy 10 years from now—that they will have been able to work together to the end and reshape a different mean, and probably also a different image, before the electors get a chance to express their yea or no.

In any event there certainly will be further changes before the vote.

More of the veterans will be retired or at least announce they are not re-running.

And there still are a few spots in the back benches to fill out the roster.

Another Cabinet Shuffle Possible Before Next Ontario Election

By DON O'HEARN ...
Queen's Park Bureau
Thomson News Service

TORONTO — One well-known observer here in his first comment on the changes in the Davis administration led off his story by saying:

"This is the cabinet that Premier Davis will lead into the next election."

The statement confirmed earlier indications that the portion-jar young man is prone to quick-on-the-trigger thinking.

The present cabinet almost certainly won't be the one with which the premier faces the electorate, probably in the early fall of next year.

Several of its members could form the basis of it.

"But we can expect at least one major rearrangement before the government goes to the polls.

The premier, of course, would be looking to the election when he drafted the new government.

And one would say that the main goal he had in mind, the key idea governing his thinking, was an aggressive young group that would reflect muscle and authority.

That this is the type of government he wants to lead to the polls in 1975.

Indeed, the main theme of this year's change was experiment.

In his place Bill Newman, Frank Miller and John Rhodes in top positions in the government he was testing, and to a lesser gambling.

Each of those can come through on environment, health and education. They can stamp a new characteristic of virility on the government.

All three men are doers, and forceful ones.

They can reflect muscle.

But all three are also, forthright. And one suspects they can also be short-tempered.

The premier has a chance to test them in office for a year.

If they prove out, fine!

But if any or all should boob out then there will still be the opportunity to move them to the side and reshape a different team, and probably also a different image, before the electors get a chance to express their yea or no.

In any event there certainly will be further changes before the vote.

More of the veterans will be retired or at least announce they are not re-running.

And there still are a few spots in the back benches to fill out the roster.

MP Pursues That Place in the Sun

By STEWART MacLEOD
OTTAWA (CP) — Max Saltsman (NDP—Waterloo Cambridge) is not waiting any time in renewing his efforts to get the Canadian flag flying in the Caribbean.

In the dying days of the last session, Mr. Saltsman stirred considerable interest by suggesting that the Turks and Caicos Islands might become part of Canada. Nearly 1,000 letters poured into his office, virtually all supporting the suggestion, and Mr. Saltsman was inundated with invitations to appear on radio and television.

His private member's bill, seeking a parliamentary committee investigation of some sort of Canadian union with the 30 small reef islands, died when the last session ended Wednesday.

But he has a new bill ready, and if it comes up in high position in next Tuesday's draw to decide the debate order of private bills, he will place resolutions before the Commons.

A committee has been formed to encourage MPs to allow the matter to come before the House, Mr. Saltsman says about 100 members already have expressed approval of having the subject debated.

Also, several senators have asked if they can help, raising the possibility of action being initiated in that chamber.

Meanwhile, Mr. Saltsman says there is every indication the vast majority of the 6,000 islanders favor some association with Canada. The islands now are a British dependency.

"The debate there now is not whether they should join Canada but the best way of doing it—that is, whether it should be a territorial status or even a national park status," he says, "I think there are some fears that if we allow the islands to become part of a province, they could be simply swamped with activity."

The governor of the Islands has stated that a majority of the state council members are seeking association with Canada. A spokesman for the British foreign office has said that the islands' future such a move, and the Canadian government agrees, Britain would be prepared to open negotiations.

Roman Catholicism in State of Flux

By JOHN D. HARRON
Foreign Affairs Analyst
Thomson News Service

The removal of Cardinal Mindszenty by Pope Paul VI was only the most publicized indication of the many forces at work inside the Roman Catholic Church throughout the world to involve it more in social change and political liberation.

In Spain once the seat of the most reactionary branch of the church in Europe and in Colombia and Brazil in South America where the church for long resembled the colonial conquerors, priests and bishops are slowly but inevitably bringing the church more into line with modern times.

The fate of Basque priests sharing the intense nationalism of their parishioners and now Spanish prisons for not only assisting the ETA guerrillas but joining them, is a growing phenomenon in modern Spain.

The Workers' Commissions, substitutes for free unions which do not exist in Spain, are often lead or directed by priests instead of the "rojos" or red politicians of the past.

Members of the Spanish episcopacy still appointed by Franco under Concordats signed between Franco and the Vatican which the present pope does not like, have joined lowly priests as spokesmen for quicker change in Spain.

The Brazilian episcopacy is almost split down the centre between those who follow the charismatic Archbishop Don Helder and openly oppose the Brazilian military regime and those who still pastively accept it.

And every liberal or revolutionary throughout Latin America has long known that the martyred Camil Jose Torres the Colombian priest who joined the guerrillas and was executed by the Colombian army. He has become a hero of the left almost as much as the dead Cuban leader, Marxist Che Guevara.

The Catholic Organization for Development and Peace appears frankly leftist in its orientation, joining the Protestant World Council of Churches in supporting the African liberation movement with humanitarian aid to them and opposing continued Portuguese rule in Africa.

Twenty years ago the papacy would have ordered such a movement banned or at least to cease its political activities. Remember what happened to most of the priests in the worker priest movement?

A much more conservative papacy and a worried Pope Pius XII felt the worker priest movement brought the spiritual leaders of the flock dangerously close to foreign and Christian ideas, chiefly Marxist.

This was unreal then and would be impossible today. The concept of the Marxist Christian dialectic is more than tolerated. It appears to be encouraged as Rome attempts to bring closer together church and state in Communist-run countries.

It is a risky game especially where the church no longer supports without question right-wing and blatantly Catholic systems which are turning on the progressive priests as a result with a special backlash.

In the Communist East who knows what the outcome will be of the growing proximity of Marxist and Catholic leaders? Pope Paul VI no liberal in the mold of the late Pope John XXIII, nevertheless wants to see his reign remembered at the end as leading to church support of vast social change in our time.

For those who have monolithic ideas about the church in Marxist states, look at the long friendly relationship in Cuba between Castro, self-styled Marxist Communist, 1961 and the papal nuncio.

The same nuncio who judiciously was moved from Marxist Yugoslavia to Marxist Cuba very early after Castro's victory is still there today, a superb Vatican diplomat in the style which Paul VI now encourages.

Bible Digest

by H. B. DEAN

"Watch yet therefore: for ye know not—when the master of the house cometh, at even, or at midnight, or at the cockcrowing, or in the morning." Mark 13:35

Here are some of the many things we have had to say about His coming. It may be soon... it is certain! Wise Christians read these words as a command to live in the light of His coming.

Looking Backward

GLEANINGS FROM OUR FILES OF BYGONE YEARS

30 YEARS AGO

March 5, 1954

Mayor Jack Both and Edward Folwell, prominent city lawyer, were made honorary members of the newly formed Belle Shaven Club for disabled and handicapped persons.

Members of the Bridge Street United Church Jubilee evening Auxiliary met for their monthly meeting and "St. Patrick's" supper which was served by Mrs. G. Hayfee and her group, the president, Mrs. L. Jones, welcomed members.

30 YEARS AGO

March 5, 1944

Dates of fall fairs in Central Ontario for the coming season set in Belleville on Friday when district fair representatives met at the annual meeting of the Central Fairs' Association. Officers for the current year were elected. Fred Denyes of Lindsay was re-elected president of the organization for the current year, while vice-presidents named were Kenneth Vivian Shannonville, and Lloyd Sudbrook of Belleville. District director is Ben Hooker, past president of Belleville Fair, Secretary Treasurer Miss Margaret Lapp of Brighton.

40 YEARS AGO

March 5, 1934

Bill Farrell was home from Queen's University to spend the weekend.

Members of Miss Bertrim's group, C.G.I.T., in connection with John Street Church, entertained friends at the home of Miss Margaret Miles. Eighteen were present and enjoyed cards, games and dancing.

Miss Gwen Wilkes, Catherine St., entertained members of the Tourquois Club in connection with the Tabernacle last evening.

50 YEARS AGO

March 5, 1924

Citizens used to ride to hounds and hunt foxes here many years ago. Reference to this is made in our file copy of this date in 1924: "Fox hunters have had a good sport recently."

A meeting of the executive committee of the Baptist Young People's Union of Ontario and Quebec was held here yesterday. Members of the committee were entertained at luncheon by the ladies of Victoria Avenue Baptist Church, the Rev. N.S. McKechnie and Mrs. McKechnie.

The Economics of Retirement

Editor,
The Intelligencer,

I cannot understand why some elderly people are complaining. I am married and receiving the old age pension plus supplement. I get a total of $350.64 plus $250 refund on income tax (income tax return) and $50 bonus at Christmas, a total of $4507.64 a year; also free medical and hospital. We go to the doctor about a month, for our medicine and pay nothing. In case of death the estate pays $250 on each of our funerals. In addition we pay no taxes or income tax. We are better off than some one earning $10,-000 a year.

We have a friend on pension who owns his own home and pays $300 taxes and receives back $258 a year. We live in a senior citizen apartment and pay $75 a month which includes stove, refrigerator and heat, no taxes, also repairs, free phone plus a lady to do the work if needed.

We pay the government will keep this up, many have private pensions but I have not and had a phone.

A gentleman has been calling on our senior citizens and telling us he wants each to give $100 a year and he will form a group called Senior Citizens of North Hastings Incorporated. He said look at the big companies' unions. We have been through the wealth and we realize he would be union leader and want very soon after one thousand a year plus a big office and help. I told him we didn't need it, the Government was doing well.

There are many here who have given their whole working lives and $20,000 to put in their name and pay only $27 a month. Some of these people have been over 54,500 and no one checks. Also there is a lady who has received over $2,000 for each of their children. Another lady of 81 has been in the hospital for eight months. Her son, who is well off, has been to see this person each month plus supplement and apartment. He has been she'll never be out again as her apartment is rented. She has never asked checking point as her hospital is free.

MRS. ARLENE SMITH
Trenton.

Problems of the British Economy

Editor,
The Intelligencer.

Apropos the letter by J. M. Parrish, "Capitalist Economist on Coal Strike".

I did read the article in the Globe and Mail to which your correspondent refers. I wondered if he watched the recent Global TV presentation dealing with this situation.

The TV presentation was an objective piece of reporting which left little to the imagination. I cannot suggest that the London Economist is out anything but a biased report.

In the light of the latest revelations on the miners pay claim it would be interesting to read the author's views stand now. It's unlikely they will have one as Mr. Heath's position now stands fully revealed for what it has been all along: the expediency of politics over people.

It is small wonder our youth are not turned on by the antics of our elected representatives. For the most part they demonstrate a distressing propensity toward the wealthy and any cause associated with them.

To plunge a country whose economy has been tottering for years into an election on a question of who is the height of political conspiracy. Mr. Heath elected to go on a platform of "Who runs this country, the government or the trade unions?" There is ample evidence that Mr. Heath and his party have not been able to run it. There is ample evidence that the miners have been grossly underpaid by the standards of the Heath government's own legislation. Who runs the country asks Mr. Heath? I think the answer is obvious. Heath's bunch of political incompetents, which is par for the course in most countries today.

NDP States Price for Support

Tougher Food Prices Board Demanded by Grace MacInnis

OTTAWA (CP) — The New Democratic Party's price tag on their support of the minority Liberal government Monday, confirming what party leader David Lewis has called his cash-and-carry policy.

The cash in this case was a set of proposals by Grace MacInnis, the party's consumer affairs spokesman who outlined anti-inflation measures she said the government should implement.

Mrs. MacInnis (Vancouver Kingsway) told the Commons she NDP wants a tougher food prices review board, bread and milk subsidies and lower domestic prices for some commodities, including shacks.

The New Democrats, who used their 31 seats to keep the 109-seat minority Liberals alive in the last parliamentary session, have said they will continue to do so if the government delivers the goods.

Bread is about as basic as you can get and Mrs. MacInnis used it as the focal point of her argument Monday, criticizing the baking industry for a proposed increase in bread prices and demanding government action.

The food prices review board announced later that it has scheduled a public meeting with Sudbury Council of Canada representatives March 29.

The council said Monday it will hold back one cent a loaf on bread price increases this month but that prices still will rise two to three cents a loaf.

Mrs. MacInnis, meanwhile, accused the government of "taking any action on the proposed bread price increase despite Prime Minister Trudeau's promises to stop companies from making excess profits at consumer expense.

"I seems to me that this government has to explain to the people why the prime minister comes out with such tough talk . . . if he is afraid to keep the price of a loaf of bread down by two cents," she said.

The consumer is not stupid! He may be a little slow to catch on, but he is learning fast and will be quick to notice the discrepancy and will demand that the prime minister do more than talk. . . .

"It is time to fight where it is needed!"

Conservative Tom Cossitt (Leeds) took a more personal approach, ripping into the the prime minister and the government.

"It would be bad enough if we had a government that had tried to deal with the cost of living and had not succeeded," said the former Liberal party executive who joined the Conservatives two years ago.

"But we have something far worse—we have a government that hasn't even remotely tried to stop this country from moving down the road to economic disaster."

Herb Gray Announces Strict Car Seats Rule

OTTAWA (CP) — Consumer Affairs Minister Herb Gray announced Monday he intends to bring in stringent regulations for children's car seats, even tougher than those recommended by a committee that studied the problem for two years.

The committee, sitting immediately on the announcement, called Mr. Gray's proposed regulations overkill from politically motivated to innocently misguided.

The minister said the regulations suggested by the committee of the Canadian Standards Association (CSA) "did not provide for the kind of protection for our children I consider necessary."

"My concern is unpritable," said Joy Moon, chairman of the committee which since April, 1972, has been working with representatives of consumer groups, government and industry on a new set of regulations.

Hees' Work More Use Of Forces Suggested

OTTAWA (CP) — A Conservative position paper calls for greater use of Canadian forces at home and abroad—particularly in the Arctic—in a series of proposals that would mean spending more money for defence.

The first party paper on the armed forces in some years, it says the party believes a dramatic reversal of the Liberal government's defence policies is required.

"A major effort is needed immediately to achieve a more useful role for our defence forces both at home and abroad and to better the morale and working conditions within the forces to encourage new enlistment."

The paper, one of several released recently in advance of the party's annual convention this month, is largely the reflection of the views of George Hees (Prince Edward Hastings), party defence critic, and Michael Forrestal (Dartmouth-Halifax East), his unofficial defence matters for years.

It does not say how much the present 82,000-member forces should be expanded or how much their annual budget—estimated at $2.1 billion for the coming fiscal year—should be increased.

But the paper says a Conservative government would increase the size of the Canadian coastal fleet and airborne surveillance and increase the military presence in the Arctic, where it says Canadian sovereignty is tenuous.

Restraints Will Remain

LONDON, Ont.—(CP) — Spending restraints in the fields of education and health will remain in effect despite pressure to remove them, Ontario Premier William Davis said Monday.

Aboriginal Rights Backed

OTTAWA (CP) — Delegates to the 7th annual meeting of the Progressive Conservative Party here this month will be asked to endorse a policy recognizing aboriginal rights of Indians.

Conservative MPs and a coordinating committee of the party recommended the policy in a paper to be discussed at the March 17-19 meeting.

"Aboriginal rights are the rights of Indian bands or tribes to use and occupy their traditional lands," the paper says.

Housing Expected To Be Top Issue

TORONTO (CP) — Government policy in housing is expected to be spotlighted when the fourth session of the 29th Ontario legislature opens today.

Lt.-Gov. W. Ross Macdonald will open the session by reading the speech from the throne—a statement of government policy—at 3 p.m. EST.

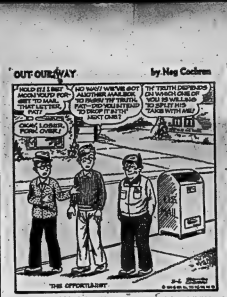
Earlier in the day, Mr. Macdonald is to preside the second session, which was adjourned last December rather than concluded.

New legislation concerning teachers and their rights—including compulsory arbitration—is expected later in the session and may be mentioned in the 20-page throne speech today.

But it is housing that has come in for increasing public attention by Premier Davis and his government in recent weeks.

Both he and Sidney Handelman, the new minister of housing, have said recently that the government may have to forgo some environmental considerations to help solve the critical housing shortage in large urban areas.

The speech can also be expected to touch on inflation; the energy situation, transportation policies and the need for further industrial development in Northern and eastern Ontario.



Hydro Now Is Crown Company

TORONTO (CP) — Legislation was proclaimed Monday to make Ontario Hydro a Crown corporation instead of a commission.

The change was made on the recommendation of a government-appointed Ontario Hydro study group which said that changing the utility to a corporation would make it more responsible to the legislature.

The board of directors, named by the provincial government, met here Monday for the first time under Chairman George Gathercole.

Robert B. Taylor of Hamilton was elected vice-chairman and Douglas J. Gordon of Toronto was named president of the corporation. W.E. Raney of Toronto is secretary.

Television Sets Blamed for Fires

WASHINGTON (AP) — Peter, Paul and Mary Young lost his wife, infant daughter and mother-in-law on New Year's Day last year when their Summit, N.J., home was swept by fire blamed by authorities on a defective television set.

Young, in hospital 45 days, has since seen his personal tragedy duplicated twice in neighboring New Jersey suburbs.

On June 23, Edward McDonough and his three children perished in a similar inferno in Roseland and, on Aug. 25, Wall Street executive Frederick Stock, his wife, their three children and two visiting nieces died of smoke inhalation in North Caldwell.

"Total is 11 dead," Young wired the U.S. Consumer Product Safety Commission in Washington. "There is good chance that certain brand TV sets contain the most lethal consumer hazard in America today."

Young's letters and wire prompted a commission investigation, which resulted Monday in an announcement that mandatory safety standards will be developed for TV sets.

In addition the commission is inviting leading TV manufacturers, consumer groups and individuals to a public hearing April 22-24 in Washington to discuss the issue.

As evidence that more than coincidence was involved in the New Jersey fires, the commission pointed to these findings:

—From consumer complaints, news stories and hospital emergency room cases last year, the commission learned of 36 TV-related accidents resulting in 14 deaths by fire, two deaths by electrical shock and at least 10 injuries requiring medical treatment.

A survey by its field offices of cities with a combined total of 21.2 million persons turned up 91.6 incidents within a one-year period blamed by local fire officials on TV sets. One person was killed, one taken to hospital and three treated for burns or smoke inhalation.

Death of Boy, 3, Proved Surprised

SUDBURY (CP) — The death of a three-year-old Sudbury-area boy last Aug. 5 in Sudbury General Hospital shocked ambulance attendants, a provincial police constable said the boy's father because all felt he would survive a near drowning.

"I thought he was alive when I took him in there(the hospital)," a Nemadji, Ont., ambulance attendant told a coroner's jury investigating the death of Richard Lagrandeur and 22 other patients at the hospital last year.

The boy apparently fell off the end of a dock at a camp near Nonfond Lake and 160 miles southeast of here, and into about four feet of water.

Raymond Lagrandeur, 27, of nearby Nickel Centre, said his son was in Bear Lake for between two and three minutes before he was rescued.

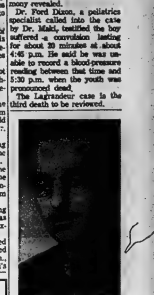
He said the boy was not breathing when he was pulled out and that he was given mouth-to-mouth resuscitation and revived him.

"I feel if I would have gone straight home and treated him myself, possibly the boy would have been alive today," Mr. Lagrandeur testified.

He said the son was "getting better all the time" during the ambulance trip to the hospital.

Constable Gerry Butler of the Nonfond detachment said he examined the boy several minutes after he was pulled from the lake.

"There was quite a strong heartbeat—much the same as you would find in someone exercising," the constable said.



Dr. John Maki, who examined the boy shortly after he arrived at the hospital at 4:30 p.m., said he diagnosed Richard's condition as "cerebral anoxia due to drowning."

"I think that if the boy had survived, he would probably would have been a vegetable," Dr. Maki said, adding he attributed the patient's respiratory deterioration to brain damage.

He said the youth was given medical gas from an oxygen unit outlet immediately upon arrival. He had received oxygen en route to hospital. The same outlet was found to be emitting lethal nitrous oxide six weeks later on Sept. 19, earlier testimony revealed.

Dr. Ford Dixon, a pediatrics specialist called into the case by Dr. Maki, testified the boy suffered a convulsion lasting for about 20 minutes at about 4:45 p.m. He said he was unable to record a blood-pressure reading between that time and 5:30 p.m. when the youth was pronounced dead.

The Lagrandeur case is the third death to be reviewed.

Spring Fashions For Men Focus On Fabrics, Textures and Patterns

By MARGARET NESS

Men's fashions for spring will not be very much changed from fall and winter, but accessories in shirts and ties will provide the new look.

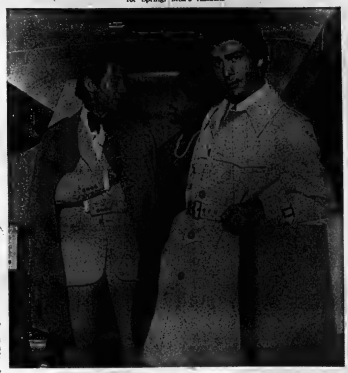
However, if a major purchase of a suit or coat is needed, Bernie Toll of After Six offers the following spring forecast. In tailored clothing there will be a preponderance of soft-constructed suits and sports coats, even in business wear, with an emphasis on two - button stylings. Soft plaids, chambrays and linen-looks are favored in cotton and polyester blends.

In sports coats there is great variety and scope with new textured fabrics, many in year-round weights. The sports types include bush, safari and battle jackets, boldly belted, backed, epaulected and pocketed. Popular colors are light blue, khaki and jade green. Co-ordinates include sport pullovers, gaudy body shirts and the classic turtleneck.

According to After Six, the trend setters for evening wear are the Windsor, a longer jacket with velvet cloverleaf lapels, and the Wyncote, a linen-look notch lapeled styling with velvet framing.

New Elegance in Vested Suits

Dimitri offers this vested suit in Italian cotton with a black windowpane pattern for Spring. Men's fashions this spring will emphasize the soft-constructed two button suits. (CP Photo).



Formal Frills

Those two ruffled shirts in permanent press Polyester-and-cotton blends for formal evening wear by After Six. Shirt at left has ruffled front edged in black crocheted trim and at right, allover shirring is framed by black-edged ruffles. (CP Photo).

Gingham Goes Dancing

Newest formal wear by After Six is this Windsor jacket in grey-and-white gingham check of dacron Polyester. The longer jacket features velvet cloverleaf lapels and has matching tie and vest. (CP Photo).

People and Events

The recent meeting of the Lambda chapter of Alpha Delta Kappa sorority was held at Pearl McCurdy's home.

It was reported that eight silver dollars were donated by the sorority to the Oral Communications Festival.

Plans were made to attend the Windsor convention of the ADK in May.

Voting took place regarding the acceptance of 12 new members, who will be initiated May 27 at Bridge Street United Church.

Speakers for the evening were Mr. and Mrs. Ted Smith who showed slides taken during their stay in Pakistan, as well as many interesting items they had brought from the country.

Marion Cameron and Nancy Scott provided refreshments at the close of the meeting.

The next meeting will be a tour of Prince Edward Heights, and a dinner at the Inn on the Bay.

* * *

The monthly dinner meeting of the Canadian National and Canadian Pacific Railway Pensioners was held at Club Canada last week with 57 pensioners in attendance from Belleville, Toronto, Cobourg, Peterborough, Trenton, Campbellford and Napanee.

Vera Hart of Roslin is a patient in the Belleville General Hospital.

* * *

The World Day of Prayer services in Belleville were held at Holloway Street United Church March 1, attended by 250 women. A separate service was held for residents of Hastings Manor.

Special speaker for the event was Rev. Clare Kellogg, who spoke on—the day's theme, "Make us builders of peace."

He stressed the need for sharing the abundance of the world in order to build peace. Also, people must make their knowledge available to others, and must learn tolerance and understanding toward fellow men, Rev. Kellogg said. Above all, love is the most important means to peace.

The day's service was prepared by the women's committee of the National Christian Council of Japan. Taking part in the program were 11 local churches, represented by readers in the service. Participating were: Clara Dent of the Christian and Missionary Alliance Church; Mary Townsend of the Salvation Army; Shirley Sutton of Centennial Free Methodist; Diane Zegouras of Holy Trinity Greek Church; Ethel Dean of Tabernacle United; Ellen Kugel of Maranatha Christian Reform; Joan Pyke of St. Joseph's Roman Catholic; Lois Clarke of Bridge United; Hazel Wentzell of Holy Trinity Lutheran; Marjorie Richard of Victoria Ave. Baptist and Bridge Street United.

Attended Parks of Holloway Street United Church was leader of the service and Shirley Wiegand of Emmanuel Baptist Church was soloist.

The Roslin joint service for the World Day of Prayer was held in St. Paul's Anglican Church March 1 with 50 women present.

The theme of this year's service was "Make us builders of peace."

Annie Brier of St. Paul's church was the key woman who took the evening services, assisted by Norma Evans of St. Andrew's Presbyterian, Roslin, and Margaret Emmons of Thomasburg United. Evelyn Cormier of St. John's Anglican, Moneymore and Joan Sills of Trinity United, Roslin.

Joan Bates sang "Let there be peace on earth" accompanied by Marjorie Gray playing the organ.

Lois Earle of Tweed introduced the guest speaker Barbara Goode of St. James Anglican Church in Tweed.

Following the service the ladies of St. Paul's served a lunch in the parish hall.

* * *

Wendy Lee Runacres, who recently married Frederick George Bedard, is the daughter of Mr. and Mrs. Eric Runacres of RR 5, Belleville. The groom is the son of Mr. and Mrs. George Bedard, RR 2, Frankford.

* * *

The World Day of Prayer service at Hastings Manor was attended by the residents on March 1.

Music was played on the piano during the meditation period by Claud Copeland.

The president of the Manor Auxiliary, Marguerite Wessels, conducted the service, assisted by Edward Hogle, Edith Latham and Walter Lindenfield. Voices from the congregation assisting with the readings were Bertha Weese, Merle Clark, Flora Carver, Christina Monroe, Helen German and Pearl Weaver, all residents of the Manor.

Maud Ray played the piano for the singing of the hymns.

Speaker for the service was Pearl Holmes, who used as her text the Biblical story of the healing of the lepers.

Collection was taken by Daisy Bongard. Kay Hall, Dorothy Marlsen and Grinven Parry. Receiving at the door were Daisy Bongard and Jean Kilborn.

* * *

The World Day of Prayer service in Stirling was held in Grace Chapel on March 1, with people of all denominations attending. Mrs. George Sutherland presided, and Mrs. Paul Johnson of Avondale Road Methodist Church, Belleville, gave the theme address on building peace. Vocal selections were provided by Mrs. Roy Taylor and Mrs. James Hoard.

Classic Coats Travel Well

These two rosy care Polyester coats are from Malcolm Kenneth Waterproofs.

The coat at left is a black-red and-white glen plaid and the trench coat at right is in basic khaki. (CP Photo).

Burning Rectal Itch Relieved In Minutes

One of the most common afflictions is a condition known as "Itching Piles." It is most embarrassing for the sufferer during the day and especially aggravating at night.

If you want satisfactory relief—here's good news. A renowned research laboratory has found a unique healing substance with the ability to promptly relieve the burning itch and pain, it actually shrinks hemorrhoids. This substance has been shown to produce a most effective rate of healing. In germ-killing properties also help prevent infection.

In one hemorrhoid case after another "very striking improvement" was reported. This improvement was maintained in cases where clinical observations were continued over a period of many months. Furthermore, these tests and observations were made on patients with a wide variety of hemorrhoidal conditions.

All this was accomplished by a healing substance (Bio-Dyne)—developed by a world-renowned research institution. This substance is now obtainable in ointment or suppository form known as Preparation H. Ointment. Preparation H suppositories for convenience. Or Preparation H. Ointment with special applicator. Available at all drug counters. Satisfaction or your money refunded.

Preparation H

Travelling Family Stops For School

AUCKLAND, N.Z. (CP) — A said she wants for nothing. Vancouver family who have "There are few problems," been on the move since 1972 she said. "Dress and lifestyle plan to stay in New Zealand a are relaxed and casual and one year to let their children catch is not continually ruled by the up on their schooling. clock and an imposed routine."

Mr. and Mrs. Greg Duffus left But Mrs. Duffus does concede their home in Vancouver in that from time to time she 1971, longs for fresh meat.

In July last year they left the "Because we have no refrig-United States on their 46-foot erator unit all our meat is cantri-maran for the Pacific. After ned and fresh meat is weleaving in Auckland they de- arriving in Auckland they decided when we can get it," she cided on their year-long stop- said. over.

By coincidence the Duffus tri-"It's time for the children to maran has a Maori name. Aracatch up on some formal moana. But they didn't have schooling," Mrs. Duffus said. New Zealand in mind when they "Our youngest, David, is only named the yacht.

six, and has never been to "We were reading a book school. The next child Jeannie, called Daughters of the Wind who is aged eight, has only had when we came across a chapter a year at school," explained Aramoana. We decided

There are two other children it was an appropriate name for in the family, our vessel," Mrs. Duffus said.

Although Mrs. Duffus has Aramoana means "road to the spent several years at sea she sea."

Victorian Order of Nurses Expands Its Quinte Branch

The annual meeting of the Quinte Branch of the Victorian Order of Nurses was held at the Sun Lounge recently. After the banquet President John Brisco welcomed all those attending, and gave his report on the past year's activities.

Mr. Brisco commented on the expansion of services the VON now provides, which includes Thurlow, Hungerford townships and several hundred more people than in 1972. He noted that donations from individuals and organizations have enabled the VON to continue to give care wherever it is needed.

Mr. Brisco expressed his thanks to the staff and board members who assisted him during his two-year term.

Following the President's report, Dorothy Flack gave the treasurer's report.

As a member of the United Way, the VON receives funds to help with the many expenses that home nursing care incurs. The financial statement shown that expenses have trebled in three years, but that administrative costs are kept to an absolute minimum.

The Quinte Branch's present source of income continues to be in the Kingston Authority, and is also assisted by county and municipal grants.

Valerie Truax, Nurse in Charge of the Quinte Branch, gave a report on the nursing services during the past year.

She gave special thanks to Ruby Gilbert, Regional Supervisor and Catherine Maddaford, Senior Regional Director for Ontario, for their guidance during this period of growth in the Quinte Branch.

Miss Truax enumerated the many ways in which VON staff nurses have been involved in other services to the community throughout Hastings and Prince Edward Counties. For example, she said, VON staff have dealt with many other service organizations, among them the Canadian Cancer Society, the Canadian Diabetic Association, the local Tuberculosis and Respiratory Diseases Association, local church groups and educational programs.

There are now eight and one half full time nurses assisted by ten relief nurses. These nurses made 21,331 visits during the past year...an increase of 27 per cent over 1972.

Miss Truax also gave credit to the clerical staff who have been busy as a result of the VON's growth.

Guest speaker for the evening was Lieutenant William Kerns, who described the community services available on the Canadian Forces Base in Trenton. He outlined the introduction of these services, and gave a report on the organization of the various agencies involved and the programs that have been launched since May 1972.

The evening closed with the installation of the new president and executive for 1974 by Agnes Gell of Belleville. The other officers for the next year are: Rex Hunter of Trenton, first vice-president; Dorothy Flack of Belleville, second vice-president; Eloise Clare of Corbyville, secretary; Marie Thilo of Codrington, secretary, and John Briscoe of Trenton, past president.

The board's directors are George Cunningham, Marlene Dickie, Ruth Gaw, Grant Harrison, Dick McTaggart, Allen Piroth, Olive Root and James Lougheed.

Books

By And About Women

THE OCCUPYING POWER

By Evelyn Anthony

The selling by Evelyn Anthony's latest novel, The Occupying Power, is Occupied France in May, 1944.

The Comte de Bernard and his American wife are enlisted by an Allied agent to help him in his assignment: to destroy a secret nerve gas to be used against the Allies in the anticipated invasion. The success of the D-Day landings depends on the success of his mission.

But what if the price is the lives of innocent children? This is the dilemma of the Comte de Bernard and his family.

The events of this novel are fictitious, but the moral issues of individual responsibility are very real. Evelyn Anthony's skill as a storyteller enters a new dimension as she writes about this wartime situation.

The ingredients which have made the author's earlier novels—such as Portrait of Inheritance and Tamarind Seed — full of suspense and excitement are also provided here in a tale that builds to a climactic war-crimes trial.

This book is available in the Corby Library.

Women Scholars Better Than Men

LONDON (CP) — A study of the first three years' operations at Britain's Open University shows that women students do better than men.

The "second chance" university, which gives degrees for studies by correspondence, television and radio, reported that women appear to have more time available for study than men and are more conscientious in their work.

Women applying for places were likely to have higher qualifications and lower dropout rates and tended to earn higher marks.

The study said it cost about one-third less to teach a student at an open university than at a conventional institution.

Property Rights Denied in Divorce, Farm Wife Turns Crusader

TORONTO (CP) — Circumstances have turned a slender, quiet-spoken farm wife into a crusader for women's rights.

Helen Rathwell said in an interview Monday that she agreed to appear at a panel on property law today and a CBC broadcast Friday to discuss the plight in the hope she can help other women.

"The way I feel about it. If it will help anybody at all, I will do it. I have daughter and I'll probably have granddaughters, and it will affect them."

A court has denied Mrs. Rathwell half interest in the 1,000-acre farm in the Tompkins district of Saskatchewan that she worked on during 36 years of marriage.

Mrs. Rathwell says she supplied the $700 down payment on their half section she and her husband, Lloyd, bought in 1944. From then until 1967, when she left, she says she worked outdoors as well as in the house, contributing to the farm.

She says she has been told the decision might have been different if she had held a job.

"I feel that a woman's job is in the home, with her children. How can you work outside the home when you have small children?"

She says she will appeal the decision, handed down by Mr. Justice Disbery of Queen's Bench Court in Swift Current. Mr. Justice Disbery found no agreement between the Rathwells as to her having "any proprietary interest" in the land purchase.

Mrs. Rathwell says she has borrowed the money to carry the legal fight to a higher court.

"A farm woman can keep a business running. A farmer's wife is really his partner."

Mrs. Rathwell says her husband speaks as if he recognized their partnership.

"The judge says there was no written agreement, no contract."

Mrs. Rathwell now works as a clerk in a hospital in Fort St. John, B.C. Rathwell lives in Kelowna, B.C. Their son is serving the farm, valued by Mrs. Rathwell's statement of claim at between $200,000 and $250,000.

She says she wants half of it, and would work it with her son.

Mrs. Rathwell says from 1968 until February of this year, she got $150 a month support payment from her husband.

"You just try to raise three teen-age daughters on that. I worked. I clerked in a store for $1 an hour."

The payment has been raised to a separate court action to $250 a month. Their divorce is expected to be final in two months.

Mrs. Rathwell says she has had letters of moral support from men, from women and from women's groups from every province. She also has been asked to make other public appearances.

Ann Landers

Mother of Seven Hurt

Dear Ann Landers: I am the mother of seven children. I have tried to keep my self motivated and moving in the right direction. They've all had plenty of discipline and love. I noticed the column signed "Nothing Daughter" tacked on the kitchen bulletin board as I was unloading 17 bags of groceries prior to starting supper for nine.

I am not feeling sorry for myself. I feel sorry for the children who think they are being abused when they are told to make their beds, keep their rooms tidy, and pitch in to keep the house running smoothly.

"Nothing Daughter" complained that her mother made her feel worthless by calling her "selfish, lazy, and incorrigible." Yes, I'm guilty of doing the same, but what mother hasn't used those words during a time of anger and frustration? Most mothers love their children and even though we lose our tempers and yell once in a while, we do it because we want them to understand the need for co-operation and concern for others.

I'm sure plenty of mothers caught hel the day that column appeared. I hope you will print this letter so they can tack it to their kitchen bulletin board. — Pennsylvania Mother

Dear P.M.: Right you are! I received a load of mail saying I had done all mothers everywhere a disservice by printing the sweet letter from "Nothing Daughter."

Some mothers do beat their children into the ground by constant criticism. But when discipline is seasoned with love, a little of it in general work is not diminished and his ego is not bruised. He grows up straight and strong.

Dear Ann Landers: Our next door neighbors are retired. They sleep late in the morning, take afternoon naps and really come to life at night.

We live in Florida and they have company from up north all winter long. Our houses are close together and I swear some nights it sounds as if they are in our bedroom.

These people are not drunk or disorderly, just loud. Twice we've told them they've ruined our night's sleep and to please turn down the racket. They apologized and things were quiet for about a week, then it's the same old story.

We can't move. Our home is ideally located and we just finished paying for it. Any advice?—Red Eyes

Dear Eyes: Call a construction company and find out how much it would cost to soundproof your bedroom. It would be a worthwhile investment. Until then, use earplugs.

Pet Stores Under Fire

TORONTO (CP) — It has all the makings of a crost-country dogfight.

Although there is no fur flying yet, the tackles are raised with pet store operators growling on one side and the Canadian Kennel Club of breeders on the other.

The kennel club wants the federal government to slap tight controls on the importation of pure-bred dogs, a move that might work out pressure said worth millions of dollars.

Hilda Bruce-Gardyne of the kennel club, said in Toronto the influx of dogs is deteriorating the quality of breeds and compounding the pet explosion.

She also said there have been many complaints about unhealthy puppies being sold by pet stores.

Also, it is apparent that dog breeders are not getting much of the lucrative pet boom.

Norman Lewis, president of House of Puppies in Toronto, a firm which deals solely in purebred dogs, said the kennel club proposal would wipe out his $500,000-a-year business which took 10 years to build up.

He claimed the kennel club wants a monopoly on the sale of pure-breds.

The kennel club will be asking for changes in the federal Livestock Act to limit dog imports to six per person per year.

Mr. Lewis said about 1,100 dogs last year from one store.

He said about 40 per cent of the dogs he sells come from either the United States or England.

"If I can't import dogs, I'm out of business," he said.

Another major importer, Peter Sterrit, president of PJ's Pet Centres Ltd., said his firm imports all dogs because the Canadian Kennel Club is not doing its job.

Mr. Merrill complained that the kennel members raise dogs as a hobby and do not make registration papers readily available to the public.

Veterinarians generally are less than enthusiastic about pet store dogs.

One Toronto veterinarian explained that because pet stores get dogs brought in from all over there is little control.

"Any pet store can have a large number of animals together. They're going to have health problems. It's the same as a concourse of hippies when they (the dogs) are in very close proximity they will often transmit diarrhea, fleas . . . distemper," he said.

Successful Living

Rehabilitation Must Restore Dignity

Mending broken' limbs, healing the burns and bruises, or instituting the widespread worker new skills, is but one aspect of physical rehabilitation.

But they also have to be helped to recuperate from the anguish and despair they suffer.

Joseph Morris, an executive of the Canadian Labour Congress and the International Labor Organization says workers who are incapacitated by accident are known to us as the "walking wounded".

"But what about a more severe and subtle kind of wounding in the damage to their dignity and peace of mind during the recovery period and after?" he asks.

And he added: "We are inclined to lose sight of the terrible human suffering that results from the sense of being less—than a whole person even though the physical restoration has been as successful as possible."

What a powerful argument for social work's new search hand-in-hand with the medics, physio-therapists, nurses and all other members of the healing team!

Dear Doris: Could you possibly give me the address where I can get reading eyeglasses? You sometimes speak about a place where they are distributed to needy people in under-developed countries.

Four Eyes.

Dear Four Eyes: The place for your discarded eyeglasses is in India, and they could certainly be used there. Miss Frances Stevenson is the Christian worker at the Christian Compound, 11 Bombay Agra Road, Indore 452001, M.P., India.

Frances has devoted her life to the loving service of fellow humans who possess far too little of this world's goods, and greatly appreciates gifts they can use or make a few cents on. Miss Stevenson is also asking for little trinkets and costume jewellery that Canadians are ready to part with.

Any such parcels should be marked "Used Eyeglasses (or clothing, or trinkets); No Commercial Value".

Dear Doris: Read your article replying to the very disturbed lady who has just recently become aware of her son engaging in homosexual practices.

To think that a woman of your educated stature can do no better than consult a psychiatrist who waters down such a disgraceful practice disturbs me, to say the least.

May I suggest to you Doris, Chapter 1 verses 21 to 28 and see what God's word has to say.

My prayer to God is that you will not be offended but enlightened by this little encounter.

Bob.

Dear Bob: I appreciate your expressing yourself. I do not condone any human error or behavior.

But we are told not to judge, aren't we? So people who work to help other people, try to understand some of the things which make life difficult. Sexual drives of peculiar nature may arise from unhappy circumstances in early life, because the victim wants to be like he is.

There are times when we can help such people. And at all times we are told by Christ to recognize that everyone is human and needs love. We try to encourage and to enlighten.

Use of Sex in Advertising Enrages Swedish Feminists

STOCKHOLM (Reuter) — Buzom, 18-year-old Catarina Johansson did not realize the storm she would cause when she stepped forward in a bikini to demonstrate a new kind of shower.

Swedish women reporters condemned the pretty shower to an all-male audience as an affront to womanhood.

As a result, a wave of women's tih protests about advertising has hit the headlines.

The startled publicity director enraged the women further by saying: "Exploiting her? She was well paid. And besides we don't use anybody—we only hand pick pretty girls."

To say that only pretty girls are worth advertising was adding insult to injury to emancipationists here.

Sweden's leading newspaper, Dagens Nyheter, blasted advertisers in a full-page attack accusing them of using women as "sex objects."

A film of packaging experts who demonstrated their skill at getting much into little by squeezing a shapely blonde into a cayton and photographing the result was given for a special blast. Women writers said if the only way Swedish manufacturers can sell their goods is by coupling their products with half-naked women suggesting sexual "contact" they deserve to go out of business.

Advertising agents are somewhat bewildered at the outburst about "sex in advertising" in newspapers which contain some of the most explicit promotions for pornographic nightclubs in the world.

Women campaigners recently urged a boycott by their sex at the French car manufacturer Peugot for using sales pictures which they considered derogatory to women.

Defenders of women's rights have also been examining Swedish schoolbooks to see whether sex discrimination starts that early.

A committee has been set up by the school board to break down what are felt to be misleading ideas of gently urged a boycott by diren are encouraged to discuss the concept which makes father the breadwinner and mother the one who stays home.

School administrators could give more of a practical lead themselves, said women teachers, by giving more females top jobs. While women constitute 70 per cent of the country's teachers, some 94 per cent of head teachers' posts are occupied by men.

While Swedish women are considered emancipated by most foreign observers, the official view is that there is still a long way to go.

A committee for equality between the sexes was established by the government last year and is due to report shortly on how to increase job opportunities and representation in parliament for women, as well as how to give mothers opportunities to meet people outside the home.

A leading member of the committee was Ameretta Lejon, one of a group of women's activists who are rising rapidly in the Social Democratic administration here.

Roberta Flack Repeat Winner

LOS ANGELES (AP) — Killing Me Softly With His Song, a ballad about the emotional impact of music, was named record of the year Saturday night at the 16th annual Grammy Awards, giving singer Roberta Flack her second such honor in two years.

"I'd like to thank the world," said Miss Flack, accepting her arms wide. She also accepted a golden statuette for best female pop performance, also a repeat award for her. Miss Flack thanked her record company for "having the good sense to sign me."

The most awards of the evening — seven — went to blind singer-songwriter Stevie Wonder, who received a standing ovation as he was led to the stage by his mother.

Accepting the first of his awards, Wonder handed his statuette to his mother, Lodah Hardaway of Detroit, saying, "I would like for you all not to give this to me but to my mother."

Memorable moments: Wonder made another trip to the stage to receive the award for best pop vocal performance for that song. Yes Are the Sunshine of Life. He intended it in memory of the late singer Jim Croce, who was killed in a plane crash last year.

Wonder also was honored in the categories of best rhythm and blues song, Superstition, album of the year, Innervisions, best rhythm and blues vocal, Superstition.

Some 3,000 members of the National Academy of Recording Arts and Sciences voted in the Grammy competition. The awards were presented before a star-studded gathering at the Hollywood Palladium.

The members chose as the best artists of the year flamboyant singer Bette Midler, who bills herself as "The Last of the Truly Tacky Ladies," was nominated in other musical categories, but won no other Grammys.

The award for best rhythm and blues vocal group went to Gladys Knight and the Pips for their recording Midnight Train to Georgia. They also won the Grammy for best pop vocal group for the song Neither One of Us Wants to Be the First to Say Goodbye.

Miss Knight reminded the gathering that her group had been nominated for four years in a row but this was the first time it had won. "I got a speech together the first year and it's been so long I've forgotten it," she said.

Charlie Rich was named best country vocal performer for his song Behind Closed Doors.

The melancholy Killing Me Softly was named in the three top categories—record of the year, song of the year and best female vocal performance. In addition to Miss Flack, Grammys went to the best producer, Norman Gimbel and Charles Fox, and to the record producer, Joel Dorn.

The Grammy for best country instrumental went to the pace for record Dueling Banjos, by Eric Weissberg and Steve Mandell. Singer-composer Neil Diamond, who did not attend the awards, was given a Grammy for the best motion picture score, Jonathan Livingston Seagull.

Composer Henry Mancini announced five new additions to the Grammy Hall of Fame, which honors all-time great songs and their performers.

Those chosen this year were: Body and Soul by Coleman Hawkins, Christmas Song by Nat King Cole, Rhapsody in Blue by Paul Whiteman with George Gershwin, West End Blues by Louis Armstrong and White Christmas by Bing Crosby.

Early winners in the country music field were Kris Kristofferson and Rita Coolidge, the husband-wife team who won Grammys for best country vocal performance by a duo for their record, From the Bottle to the Bottom.

The award for best country vocal performance by a female went to Olivia Newton-John for her song, Let Me Be There.

The golden Grammy statuette for best country song of 1973, a songwriter's award, went to Kenny O'Dell for Behind Closed Doors.

In the classical field, Leontyne Price was awarded the Grammy for best classical vocal soloist performance for her recording of Puccini Heroines.

The instrumental classical solo award was given to Vladimir Horowitz for Horowitz Plays Scriabin.

Canadian Opera Company Signs Hines for Faust

TORONTO — The Canadian Opera Company has announced that Jerome Hines, a star of the Metropolitan Opera for over a quarter century, will make his Canadian opera debut as Mephistopheles in Gounod's Faust, during the Company's 20th season this fall at O'Keefe Centre.

The production, opening Sept. 21, also features four leading Canadian artists: Covent Garden tenor Jean Beaumaine in the title role, soprano Heather Thomson as Marguerite, and baritones Bernard Turgeon and Peter Barcza alternating as Valentin.

The world-famous basso seeks of Jerome Hines has sung out in many of the great opera centres of the world: The Metropolitan, Milan's La Scala, Moscow's Bolshoi, Germany's Bayreuth Festival, and the Teatro Colon in Buenos Aires, to name but a few. His repertoire encompasses all the major basso roles — Boris Godunov, Mephistopheles (Gounod), Mefistofele (Boito), King Philip in Verdi's Don Carlos, Attila, Sarastro in Mozart's Magic Flute, and Gurnemanz in Wagner's Parsifal. On Feb. 17, Hines made his Canadian television debut in a special presenting excerpts from Mefistofele, Attila, Boris Godunov and Massenet's Don Quichotte.

The Faust legend, immortalized by Goethe, dates back at least as far as the 16th century. Interestingly enough, Gounod's opera does not attempt to embrace more than a small but important part of Goethe's monumental work, confining itself to one dramatic episode — an episode not found in any other treatment of the Faust legend. Perhaps that is one reason behind the overwhelming success of the opera. Another, of course, is the passionate exhilaration of the composer's music as it tells of the ancient scholar who forfeits his soul for eternal youth and pleasure. Musically Faust is a ravishing portrayal of love, destiny and the divine spirit, filled with sustained and glowing melody.

Faust will be directed by John Leberg, production manager of the Canadian Opera Company. Leberg also mounts the Canadian premiere of Boris Blacheard's Caside (this season) and a technology grant of the Ontario Department of Education.

Leberg's credits include Mozart's Marriage of Figaro at the National Arts Centre in Ottawa, the Canadian opera premiere of Prokofiev's The Gambler, Britten's Albert Herring, Puccini's La Boheme, currently drawing capacity audiences at Toronto's Dell Tavern theatre.

Sets are by Les Lawrence and costumes by Suzanne Mess.

The opera will be sung in French and conducted by Ernesto Barbini, conductor and musical advisor for the Canadian Opera Company and music director of the University of Toronto Opera Department. Barbini, who has been in Toronto since 1953 (after years with the Metropolitan Opera as a conductor and coach), has conducted many of the major works of the Italian repertoire for the Canadian Opera, including last season's Rigoletto and The Barber of Seville. In 1967 he was made a Knight Commander of the Order of Merit of the Italian Republic.

Faust will run in repertory as O'Keefe Centre with new productions of Ravel's L'Heure espagnole and Tchaikovsky's Blacheard's Castle (a twin bill opening the season on Sept. 6); Wagner's Flying Dutchman (opening Sept. 7); Verdi's La Traviata (opening Sept. 13); Mussorgsky's Boris Godunov (opening Sept. 24), and a revival of Bizet's Carmen opening Sept. 11), casting for which will be announced shortly.

DALLAS (AP) — Jewelry and silver and gold pieces estimated worth more than $100,000 have been stolen from movie star Greer Garson and real estate executive L. Surrey Stemmons in separate robberies in the same apartment building, police said.

Investigators said the breakins apparently occurred between Wednesday and Friday and a key may have been used to gain entry to the apartments. The burglaries were disclosed late Saturday.

Silver and gold pieces worth 25,000 were missing from the penthouse occupied by Miss Garson, wife of oilman E. E. (Buddy) Fogelson. The Fogelsons had been out of town for several days.

Mrs. Stemmons reported the loss of 11 pieces of jewelry, including a 78-carat diamond ring, a diamond pendant, diamond earrings, a pearl and diamond necklace, a diamond bracelet watch, several diamond brooches and several diamond rings.

RENO, Nev. (AP) — Actress Barbara Rush Williams, 42, who was here for an appearance in the film California Split, has been found dead in her, hotel room.

A spokesman said Mrs. Williams, born known for her role in the motion picture Carousel, apparently died of natural causes sometime Saturday night.

Mrs. Williams had completed filming of her part in the film, the spokesman said.

Dentist-Denturist Choice Is Yours

You can get government low cost dentures from a $190 — or, you can get $195 dentures from a denturist.

While the average cost of custom-made dentures in a dentist's office would be much higher, the province orders that the "low cost" denture be available to anyone.

On the one hand, with the dentist, the denture is the striped-down version, or what one Belleville dentist refers to as a "Volkswagen compared to a Cadillac."

Despite this Dr. Jim Stansfield of the Bay of Quinte Dental Association, still says the low cost item is better and safer than the denturist-made one.

Described the plate, he says, "durability — not fit or performance — declines in the less expensive plate."

The Cadillac, complete with vein markings and tartar stains on the teeth, runs to about $300. As the price goes down, the patient settles for non-characterized dentures which look more like plastic than human teeth. Allowance for the dentist and the denturist is a week to 10 days.

Asked if many dentists in the area handled the low-cost denture, Dr. Stansfield said there were only six.

Apparently time is the large factor and there isn't much money to be made in the low cost denture business. For Dr. Stansfield, "unless you're doing them routinely and in quantity you can't make money."

Belleville's denturist, Jerry Gnys, provides a denture and a money-back guarantee that he says would cost more than $ 70 in a dentist's office.

According to him the government "low cost" denture is just a form of pressure to keep the public in the dentist's chair.

"This $180 price is not charged voluntarily by the dentists but is pressure from the dentistry association and the province is doing something to compete with the denturist," says Mr. Gnys.

"Dentists don't like to do this $180 denture," he said. "... it is a very, very bad job and the standard is very low," says Mr. Gnys.

Speaking from his experience as a technician in the Belleville Denture Lab, Mr. Gnys says, "They do nothing special on the low cost denture ... cheap as possible ...fast as possible."

If you compare, it looks like we charge more but, we aren't making a denture similar to the low cost denture, he said.

"The denture we make for $195 would run close to $400 from ad ontist," he said.

Unlike the dentist who needs "a minimum of $30 or $40 an hour to keep the doors open," Mr. Gnys operates on a lower budget, passing the savings to the patient he says.

It's all a matter of money, says Mr. Gnys, explaining why he couldn't work under a dentist.

The prices go too high with a dentist.

"I want to be able to provide good quality dentures and save my patients money."

Jerzy Gnys, Illegal Deturist

Illegal Denturist Stays in Business

In a small, yet modern office at Belleville's Westgate Plaza, Jerry Gnys for the past two years has been illegally making dentures for $195.

In an almost mocking way the store has run regular advertisements for its product all the while under the nose of minister of health Dr. R. T. Potter.

Dr. Potter has since been shuffled from the health to correctional services ministry, but was instrumental in bringing in Bill 246 which spelled the end for Ontario denturists.

The clientele know Mr. Gnys as an illegal practitioner but are quick to point out "you'll be very satisfied with his work."

The province isn't satisfied and the first denturist charges go before the Supreme Court of Ontario.

Dr. Potter has since been shuffled from the health to correctional services ministry, but was instrumental in bringing in Bill 246 which spelled the end for Ontario denturists.

Save Us From Davis slickers are plastered on walls and mirrors and Mr. Gnys' patient motto is "Don't worry."

He says he has written once and send me to court or fine me but don't worry. "I'll be open the next day.

"In five provinces (British Columbia, Alberta, Manitoba, Saskatchewan and Quebec) denturists work legally. Soon we will too."

Very similar of tactly he'll tell you he's breaking the law but "this is something just between the province and the Denturist."

"If they come and close us we'll still have our phone number," he said.

Prominently on the coffee table in the waiting room a clipboard for signatures is displayed.

"We the undersigned are in favor of the denturist dealing directly with the public ... and demand the repeal of this anti-social bill," the petition reads.

According to Gnys' receptionist, more than 120 new names a week go on the list from the Belleville office, an indication of the office's business.

Test Cases Will Decide Future of Denturists

STORIES AND PHOTOS
BY COLIN BRUCE, STAFF REPORTER

Now that Ontario's cabinet shuffle of a week ago is final and onlookers begin breaking in the upholstery of unfamiliar chairs, a Belleville denturist and Quinte MPP Dr. R. T. Potter can both rest easy.

About two years ago, Ontario's health ministry — already under the gun for its handling of public health service delivery — took on the battle of the denturist.

In the early portion of 1970 Ontario denturists became alarmed at unlicensed false teeth mechanics dealing directly with the public because the mechanics — or denturists — were shirking the professional advice and supervision of a dentist. Charges were laid by no clear-cut policy evolved.

The Dentistry Act — the tool used for early prosecutions—came under 15 months of provincial government revision. Such revision became known as "the controversial Bill 246," the Ontario Denturist Act.

Prior to its passing early last summer, Dr. Potter urged dentists to be patient and not to proceed with the moon-to-be-Clodette Dentistry Act.

The charges stopped, with the denturists patiently waiting for the new bill that would specifically deal with false teeth mechanics and their control.

The basics of the new bill centre on the three prevailing public questions: What training under provincial scrutiny is necessary? What effect will

a professional dentist's supervision have on the final price? Is the supervision normally necessary at all?

The province, in Bill 246, stipulates the denturist com-

ply with provincial standards and submit to provincial examination. Following this, the denturist works "under a licensed, practising dentist."

While it seems a paradox on the surface that Dr. Potter would not tidy his own Belleville back yard of illegal practitioners, health ministry spokesmen explain they don't know how far-sighted the new legislation is.

It either Dr. Potter used the same restraint in Belleville that he called for from dentists prosecuting with the Dentistry Act.

Mr. Gnys says that Jerry (George) Gnys has opened an illegal clinic on the city's western limits, he says he has never been molested, though he makes no claims to his customers that he is working within the law.

A health ministry spokesman says about seven charges have been laid under the new act in the province.

Whether or not these charges stand up in court, we don't know.

March 6 will be the proof of the pudding when the Supreme Court of Ontario is scheduled to hear the first of the charges.

Mr. Gnys faces no charges, but his business and the practices of 79 like him across the province will be on the line this week when the province learns how foolproof — the new legislation is.

Minister of Health Waits for Courts

The province of Ontario has found itself in a squeeze play as it wades through the controversy of what to do with the denturist.

Professionals are calling for restrictions and supervision of the false tooth mechanic who provides false teeth at a fraction of the dentist's price.

The public — sympathetic to the denturist — is looking out for their pocketbook and patronizing the illegal denturist in growing numbers.

Frank Miller, the Muskoka MPP it was hoped would take over the ministry of health hot seat, says "I'd be very unwise to discuss the subject publicly."

"There's a need for private discussions."

Whether the public wants the denturist or not, he is illegal, following the government reading of the Dentistry Act.

Since last July any denturist not under the direct supervision of a dentist was labelled illegal.

Asked why the province allows them to continue operation, Mr. Miller said, "we just made the law, we don't enforce it," meaning it is not his ministry's responsibility to hand out charges.

Seven charges have been laid and will appear in Deputy's Supreme Court March 6.

One or two guilty pleas are going into court to see how it stands under pressure," said Mr. Miller.

"There are no loopholes that I know of."

The province spent 15 months developing and modifying Bill 246, making it as potent and pressure-proof as possible.

"You don't make mass changes until you find out how the law works."

Because the test cases are still undecided, a Belleville denturist and some 70 others in Ontario continue their business.

According to Mr. Miller, anyone can lay charges against a denturist but "it is likely any judge will remand the case until a Supreme Court decision is handed down."

No charges have been laid in Belleville against Jerry Gnys in the two years he has operated on the city's western limits.

Patients' Mouths At Stake — Dentist

"I've had several of his patients come to my office... very poor dentures. You have to realize this guy is completely unqualified," said Dr. Stansfield.

- Jerry Gnys of Poland has operated as an independent denturist in Belleville for two years.

According to the province, Mr. Gnys is illegal unless he has passed required examinations and is working directly under a dentist's supervision. Mr.-Gnys freely admits he is illegal.

Mr. Gnys, while in poland, trained for seven years in the dental plate trade and was ranked best in Poland during a national competition.

When he first arrived in Belleville he worked unlicensed in the Belleville Denture Laboratory where area dentists purchase plates.

However, Mr. Gnys is not licensed and in provincial government eyes, is not qualified to practise his trade.

"For about 20 (Orpheus) I've never heard of him working in conjunction with a dentist." said Dr. Stansfield. "If he took the provincial examination he might be hired by one of the dentists in Belleville."

Medical Advice Hard to Obtain

Belleville's denturist, Jerry Gnys sees no need for medical consultation for his clients — a step he was taking to ensure that oral hygiene was maintained.

"I agree what a mouth is supposed to look like," he said. "... I would like something irregular I send the patient to a doctor to have him take a look."

The idea worked well for a short while until the province caught on.

Patients, however, then checking in with a dentist, opted to go to a medical doctor, have their mouths checked and write the visit off on their taxes.

According to Mr. Gnys patients were rarely refused the check by doctors.

"They're just trying to put the pressure on," he said.

Still he realizes he is not a doctor and wants to use the professional medical men on a referral basis.

If there is a problem with a patient's mouth, I'll send him to a doctor immediately," says Mr. Gnys.

He doesn't foresee the problem coming up often and has been in business in his training against poor hygiene.

He has to be sure. Unlike a dentist he doesn't have insurance against malpractice, Mr. Gnys is uninsured.

Last year the Ontario Denturist Society bought a collective insurance package for the province's 79 denturists. Apparently the plan has run out and according to Mr. Gnys there is some grumpiness over price.

"I don't imagine a situation where I wouldn't spot a problem," he said. "If I see something irregular, I do something irregular. I send the patient ... except send him to a doctor."

Lost Business Is Sold Not Dentists' Concern

Bay of Quinte area dentists aren't worried over lost dental plate business, but are concerned about the oral hygiene of the public, "a public that is being ripped off by the denturist," says Jim Stansfield, the Bay of Quinte Dental Association.

Dentists are rebounding from a cosmetic public attack described as dental crying over lost business.

According to Dr. Jim Davis, president of the association, dentures account for about six percent of a dentist's income.

In the dentist's mind, the actual making of the plate is the easy part of the operation. "Anybody could be taught to do it," said one dentist.

But, the dentist who makes the plate is not trained to prepare the patient's mouth and carry out the oral hygiene and delicate filing procedures, say the dentists.

"You have to realize this guy is completely unqualified," said Dr. Stansfield.

"He's not hurting the dental profession at all," said Dr. Stansfield, saying most dentists would prefer to do as little denture work as possible because of the time involved. Time, he said, is the most expensive part of the operation.

The low cost denture, ordered by the province only does for four hours "sitting time" before the $25-an-hour dentist begin losing money, according to Dr. Davis.

Unless you're making standard, low cost dentures routinely, you don't make money on them," says Dr. Stansfield.

The dentists argue a denturist is trained to their teeth and not to take care of a patient's oral health.

Only 850 of the province's 3,000 dentists will make the low cost denture and only a few in the Quinte area handle low cost referrals.

Unlicenced, Linda West Works on Plate

Bayfront Condominium Delays Are Protested

Principals of Lamplighter Realty Ltd., a group of local businessmen planning construction of a $5-million condominium complex on the city's waterfront at the south of Front Street are ill but fed up with delays to their project.

"We are about ready to pack it up, lick our wounds and go our way," company spokesman Jack Sills told city council tonight.

The statement was made during discussion on a list of questions relating to fire safety presented by Fire Chief Leo Culhane. The project has been planned for nearly two years.

The request of the fire chief was that seating of people be provided by the boy's side of the building for possible use by firefighting equipment.

At the meeting Mr. Sills indicated that the new bayside condominium project could be completed within 18 months if the building permit was obtained before the next 30 days.

It is expected that applications for the permit will be made today or some time later this week.

Principals of Lamplighter Realty Ltd., a group of local businessmen planning construction of a $5-million condominium complex on the city's waterfront at the south of Front Street are ill but fed up with delays to their project.

It is expected that applications for the permit will be made today or some time later this week.

Break-in Reported

Belleville police are investigating a break-in that occurred about noon hour yesterday at a home at 11 Alfred Dr.

Police Chief Douglas Crosbie says that his department was called out to investigate the break-in yesterday afternoon and found that someone had entered the building by removing a screen and opening a basement window.

Nothing was reported missing from the home but there was evidence that drawers in his bedroom and kitchen had been searched.

Footprints found outside the basement window led police to believe that a young person was responsible for the break-in.

DR. JIM DAVIS

Society's Request Granted

City council will donate $150 toward the Ontario Chapter of the Canadian Hemophilia Society to assist in defraying expenses for a civic reception at a convention to be held here in May.

Janice I. Walker, secretary - treasurer of the society told the council that the convention was being held in Belleville for two main reason. 1. Because there was a high incidence of hemophilia in the Belleville area and 2. Because the city had a good medical treatment centre for the problem at Belleville General Hospital.

She said that as many as 300 delegates would be attending for part of the two-day program.

Council went along with the request for $150 to assist in defraying costs of a reception and also agreed to a request for proclamation of a special Hemophilia Week.

Date Set

The annual hobby show put on by the city scouts will take place March 14 at Eastminster United Church.

The display starts at 6:30 p.m. and runs until 9:30 p.m.

Dentists Insist On Supervision

Practice makes for less expensive dentures, says Jerry Gnys, a denturist working illegally in Belleville for the past two years.

Using the analogy of the family general practitioner, he says "a dentist just takes a look at the overall picture and if necessary the patient may go to a specialist.

Gnys says in the case of the dentist, he too looks at the general picture and like the dentist, refers the patient to specialists who can work independently.

"If you made dentures for many years, you can do a very good job," he says.

"Low-cost dentures are the goal of the denturist, dentist and the provincial government, but none are in agreement as to how to reach the goal.

The province now demands a denturist pass provincial examinations and work under a dentist. This formula is also acceptable to the dentist who can devote more time to other patients and the much of the plate work to a denturist.

The dentists are not ready to go that far but urges that dentists and doctors be available for "personal and professional" - as a safeguard on the patient's health.

What Mr. Gnys does envision is a school programmed by the Ontario Denturist Association that will train young people in making dentures.

These people, in turn, would work independently but have available the expertise of the medical profession.

The dentist, when asked if the time was here for people to be able to pay less for a little less, answered yes.

"The denturist situation has brought this question to the forefront," said a member of the Bay of Quinte Dental Association.

"But we don't feel the denturist should be left on his own," he said.

The Working Poor Caught in Middle

While the province must stop denturists from practising illegally, Health minister Frank Miller says low cost dentures must be available somewhere.

"We will of can go to a dentist and pay upwards of three and four hundred dollars and those on welfare are taken care of by the province.

"Now how do we handle the working poor," Mr. Miller pondered during a telephone interview only days after taking over the health post from Quinte MPP Dr. R. T. Potter.

For the moment the only way for the province to help will be through welfare and the means test — a government document designed to determine if you're poor enough to deserve welfare benefits.

"I have a tremendous sympathy with the working poor," said Mr. Miller.

"How do you get the teeth for those trying to uphold their pride away?"

Frank Davis, president of the Bay of Quinte Dental Association, agrees with the minister that "we don't have the money, it's the working poor that have the tough times."

Dentistscare, something like Medicare, will only apply in senior citizens once established.

A major concern of the local association is that no provincial subsidies are available to the dental profession.

Bernie Parent Won't Concede

MONTREAL (CP) — While centre Phil Esposito of Boston Bruins appears to have the individual scoring title in the National Hockey League virtually wrapped up today, his brother Tony—goaltender with Chicago Black Hawks—is having a tougher time nailing down the contender's crown.

Bernie Parent of Philadelphia Flyers showed last week he has no intention of conceding the Vezina Trophy—the league's top goaltending award—to Tony, as he narrowed the gap between the Flyers and the Hawks to four goals from the nine-goal span that prevailed one week earlier.

Meanwhile, Phil built up a 10-point lead over team-mate Bobby Orr in the scoring race. Esposito now has the league lead in goals with 54, along with 91 assists for 115 points. He has 56 goals last season.

Orr has 86 points, including the lead in assists with 71, while Ken Hodge, also of the Bruins, scored his 250th career goal last Saturday and maintained third place in the scoring race with 68 points, including 43 goals.

In the goaltending battle, Chicago's Esposito and Mike Veisor have allowed 141 goals in 31 games for a combined 2.33 goals-against average—only 0.07 better than Philadelphia's Parent and Bobby Taylor. The Philadelphia pair have given up 128 goals in 61 games.

Parent received his 11th shutout last Sunday when he blanked Montreal Canadiens 5-0 in Philadelphia, now in first four shy of Esposito's modern-era record of 15 shutouts in 1968-70.

In another fine goaltending display, 36-year-old rookie Ross Brooks of the Bruins registered his 14th career victory and first Thursday as Boston beat Detroit Red Wings 5-1. Brooks' only defeat this season came in his first game of the schedule—a 5-2 loss to Bruins in St. Louis.

The Bruins, current leaders in the East Division race, get an opportunity tonight to stretch their lead over second-place Montreal to 12 points as they visit Atlanta Flames in one of the Flames in one of three scheduled contests.

In the other two games, Pittsburgh Penguins visit New York Islanders and California Golden Seals play against the Kings in Los Angeles.

Meanwhile right winger Cl- Larose of the Canadiens has no information bu- reau searching the records for a precedent for his unique three-game outburst of last week.

Larose began his spree in Atlanta last Tuesday where he scored on each of his three shots at goalie Dan Bouchard of the Flames. His third goal was the game 5-5 for Montreal and gave the 32-year-old native of Mont-Hearst, Que., the second three-goal game of his 11-season NHL career.

Two nights later in Montreal, Larose scored two more times, on only five shots against Pittsburgh rookie Gary Inness while leading the Canadiens to a 7-1 victory. He ended his sixth last Saturday night here, scoring twice against California. The Canadiens lost 4-3.

Joe Malone, also playing with the Canadiens, counted nine goals in three games during the 1917-18 season.

Walton Nearing Personal Record

NEWPORT BEACH, Calif. (CP) — Two more points will give World Hockey Association scoring leader Mike Walton a personal lifetime best record.

Walton, the speedy centre for Minnesota Fighting Saints, has taken the WHA scoring lead with 91 points on 40 goals and 51 assists. Not since his final junior season—1963-64—has he had so many points.

Walton had 41 goals and 51 assists in four junior years and only once since he has scored 40 goals—in 1964-65 when he won rookie-of-the-year honors in the Central Hockey League with Tulsa Oilers.

Walton's best National Hockey League season before he moved to the WHA last year, was 1967-68 when he had 30 goals and 29 assists for Toronto Maple Leafs.

Walton moved into the WHA lead on the weekend but is only one point ahead of veteran Gordie Howe of Houston Aeros.

The leaders:

Ross Upsets Savage And Shares the Lead

MUNICH (CP) — With the opening of the World Figure Skating Championship today there is a feeling that this is Toller Cranston's year.

The Toronto skater is the man to beat for the gold medal although experts say it will be a tough competition.

Cranston placed fifth in the world last year at Bratislava, Czechoslovakia, after taking a fall in the five-minute free-skating routine, a section he was expected to win.

"I want to wash away the Bratislava memories," he said Monday.

The toughest competition is expected from Jan Hoffmann of East Germany who finished third last year. The 1973 champion, Andrej Nepala of Czechoslovakia, has retired and so has the runner-up, Sergei Chetcherukhin of the Soviet Union.

Cranston has been consistent-ly on figures, which count 40 per cent toward a skater's total.

There is another 40 per cent for the free-minute free-skating program and 20 per cent for the two-minute compulsory free-skating. Cranston won the short program last year.

Ron Shaver of Cambridge, Ont., also is given a chance for a medal because of his exceptional free-skating ability. He was weak in figures last year and finished sixth in his first world competition.

Shaver has spent extra hours on figures and said "they're as good now as they've ever been, probably better."

". . . I'd be happy to be in the top five. Of course, if I win a medal I'll be tremendously happy."

Other contenders for the top three spots are John Curry of England, Gerard McKellen of the United States and Sergei Volkov of the Soviet Union.

Robert Rubens of Toronto Intercollegiate Athletic Association is expected to win a medal in the 1971, 1972 and 1973 All-Ontario championships.

Defence Concerns Howell

CHERRY HILL, N.J. (AP) — Harry Howell, in his 23rd season as a defenceman in professional hockey, knows good defence when he sees it. He didn't see a Monday night in a World Hockey Association game.

Brian Mooren backhanded a shot past George Gardner at 5:33 of the overtime period to give Jersey Knights a 7-6 victory over Vancouver Blazers.

Howell, a rookie coach, cleveland Crusaders meet the Sharks in Los Angeles and New England Whalers visit Chicago Cougars.

"The team is showing a lot of offence, but giving up too many goals," said Howell, the Knights' player-coach who stayed behind the bench Monday night because of a pulled groin muscle.

"We have to tighten up our defence," said Howell, who played one year of minor league hockey, 31 years in the National Hockey League and one in the rival WHA season. "We can do it."

In another game, the WHA's leading scorer last season when he played for the Blazers—then the Philadelphia—had a goal and three assists Monday night to climb into third place in the scoring race.

Norm Ferguson opened the scoring for the Knights at 5:05 of the first period and Garry Peters added a 44 minutes later. Danny Lawson's 42nd goal gave Vancouver halved the margin, but Lacroix's 28th of the year sent Jersey off with a 3-1 first-period lead.

In the second period Murray Myers, Jim Watson, Howell and Jim Adair scored for Vancouver while Peterick had two goals for Jersey, tying the game 5-5 after two periods.

Ron Plumb scored from in front of the crease at 3:19 of the third period, giving the Knights its only lead of the game, but Lacroix set up Kevin Morrison's goal at 12:01 to force the overtime.

In the extra period, the Knights, who had 42 shots on goal in the game, scored on their only shot.

Canada's Cranston – The Man to Beat

Could Be Toller's Year For Top Skating Honors

LONDON, Ont. (CP) — Paul Savage found a flaw in the redrock Chucker Ross threw earlier in the day, but the Scottish skip couldn't fault the Sudbury curler's game Monday night.

In Northern Ontario's 7-6 win over Newfoundland in the first round of the Canadian men's curling championship, Ross used red rocks and didn't curl well. But he used white rocks at night to upset Savage's fourstone 7-5.

"I just couldn't believe I was curling that bad in the afternoon." Ross said. "We came back OK tonight, though."

Ross said Savage found a chip in the rock in the second end of their game.

"I use my broom to clean the bottom of my rocks, but Paul uses his hand," Ross explained. "My guys were asking me about my weight all afternoon and I didn't know what was wrong.

"Paul traded with his lead when he discovered the chip."

Ross was joined atop the standings by Hec Gervais' of St. Albert, Alta., a 6-3 winner over Prince Edward Island's Bob Dillon from Charlottetown, and John Clark of Fredericton who defeated Ontario's Bill Tetley of St. John's, Mfld., 11-4 for his second win.

Dan Barr of Glenboro, Man., and Quebec's Jim Ursel of Montreal remained the only undefeated players, were 1-0 with P.E.I. and Jim Armstrong of Richmond, B.C., at 1-1.

Wickess in two starts was the only Saskatchewan curler in the eighth end in an 8-4 loss to Gervais, New Brunswick scored four in the final end to down Nova Scotia 9-7, Manitoba defeated B.C. 8-4 and P.E.I. downed Ontario 6-4.

Dillon couldn't build any sort of a house against the Friendly Giant from St. Albert.

"I don't think you can get a big end against Hec," said the veteran P.E.I. skip, appearing in his seventh national championship.

The only two of the match were scored by Gervais to open the scoring in the second end and five in the eighth as the world champion sat on it throughout.

The B.C. rink had little opposition in its game with Nova Scotia. The second highest score in championship play in which the winning skip scored four or more. It was surprised only by a 11-1 drubbing by Alberta over P.E.I. in the 1967 championship.

"The team that wins this game is the team that can make the routine shots," Armstrong said. "I guess we're really front and really wet."

He said as the game progressed, the temperature (7.000 degrees) seemed to affect the sweeping.

Janet Lynn of the U.S.

The concensus around the 10,000-seat Olympiahalle is that Christine Errath of East Germany will be the new queen. She was third last year and recently won the European championship.

Dianne de Leeuw of the Netherlands, second in Europe, is seen as a good silver medal prospect with Liana Drahova of Russia giving her a tough fight.

In the dance, it would be considered a major upset if Protopopovs Ludmilla Pachomova and Alex Gerachev of the Soviet Union didn't win.

Louise and Barry Soper of West Vancouver were ninth in the world last year, but say they're "definitely aiming for a medal" this time.

Canada's other dance team is Barabara Berezowski of Toronto and David Porter of Port Perry, Ont. They're aiming for the top 10 after finishing 16th the world last year.

In the pairs, Sandra and Val Bezic, a sister-brother team from Toronto, are Canada's best hopes. They were sixth in the world last year.

This is their fifth world championship and they have improved every time out.

Kelley Hutchinson and Jamie McGregor of Cambridge, Ont., are Canada's other entrants in pairs.

Just two years ago they were fourth in Canada at the novice level and the jump to world competition in such a short time will be too much to get into the upper echelon.

Ralph Lewis is also in the Canadian senior championships this year and qualified for the world event when the second-placed pair, Susan Moore and Glenn Murray, retired.

Nationals Win

MONTREAL (CP) — Marie Plasonie and Jean Trottier each scored three goals to lead Laval Nationals to a 13-3 victory over Chicoutimi Sagueneens in Quebec Major Junior A Hockey League action Monday night.

Michel Bossy and Marcel Monnael each scored two goals with single goals added by Yves Vaslaur, Claude Lemieux and Tony Pelusa.

Scoring for Laval were Pierre Page, Yvon Verreault and Daniel Lecours.

Award For Alex Delvecchio

NEW YORK (CP) — Alex Delvecchio, coach of Detroit Red Wings of the National Hockey League, has been awarded Lester Patrick Memorial Trophy for 1974.

The award is for outstanding services to hockey in the United States and is in memory of the late general manager and coach of New York Rangers.

In addition to Delvecchio and former Ragger Murray Murdoch, whose selection was announced Saturday, Lester Patrick memorial awards will be presented posthumously to Weston Adams Sr., long-time president of Boston Bruins, and Charles Crovat, a hockey official in Madison Square Garden for 47 years.

Award Presented

Quick Kick? Bassett Doubts It Will Come

OTTAWA (CP) — John Bassett Jr., president of Toronto Northmen of the World Football League, said Monday the government should kick his team out of Canada.

"I'm not a constitutional expert but our country should—I can't . . . and they (government) say they can't. The province businessman told a news conference Monday he is flying next week to meet with Health Minister Marc Lalonde.

Lalonde, the minister responsible for sport, has threatened to stop WFL expansion into Canada "administratively or legislatively."

Both Bassett and Lalonde told reporters that the two expect to meet next week in Ottawa to try to reach an agreement.

"I'm not interested in a head on fight with the government . . . I just want to play football," said Bassett.

Lalonde described the meeting as a "good and frank exchange of views."

Watkin's World Of Minor Hockey

By AUSTIN WATKIN
Review

"With the playoffs starting in two weeks, the race for first place is still very much in doubt. Belleville Credit Union preserved its one-point lead by shading San Lock Gardens 1-0 with Clint Becker recording his sixth shutout. Eddie Lee kept right on the leaders' heels as Daniel Collins also chalked up his sixth shutout in a 2-0 decision over their power Temporary Services.

Dave Wright fired three goals in lead Sunghan Licence past Uniroyal Tiger Paws 6-3. Andrew Shad scored a hat-trick as Red Shark tripped Warren's Esso Home Heat 6-4. Belleville Jaycees topped Local 1,003, 8-1 as Mike Allen notched three goals. Bewer Lumber edged Warren Whitley Truck Rentals 3-2.

Atom Minor

Maher Shoes were led by Trevor Powell's five goals as the team outscored Firefighters 8-1 to climb back into first place. The Shoemen got help from Eastern Business Equipment who shoved Mulcony Sunoco back into second place as Tony Keazey scored four goals.

Bruce Harper shared first place in the scoring derby with Trevor Powell (18 each) after he collected three counters in Quinte Rent-Alls 3-1 victory over Clayton's TV. Regan McGrath's six goals spurred Red Barn past Hawkins Chips 7-4. Simpson-Sears slipped by Mac's Milk 8-5.

Atom Major

Wm. Belch and Sons, led by Allan Derry's five goals, beat Dairy Queen 8-3. Allan's 87 goals is tops in the league. Steve Gower got his first two goals to help Belleville Yardmen dump Reid's Plumbing and Heating 8-5. Ellis Printing beat A and D Esso 7-2; Uniroyal Winter Patrol nipped Quinte Home Builders 4-3 and Cole's Jewellers turned back Cherney's Furniture World 7-2.

Peewee Minor

Signa Unlimited continued its undefeated season by topping Motorland Chrysler 5-2. John Richards led the way with a hat-trick, giving him a league leading 47 goals.

Scott Hannah supplied shutout goaltending and Craig Munro fired three goals as T and C Construction blanked Ellis Printing 5-0. Tim Horton Donuts got three goals from Ken Kent in a defeat of Dubby's Texaco. Reynolds closed the door on the Kings as Bellewood Lumber won 5-4. Police Association downed the Gems 8-2.

Peewee Major

Belleville Plaza clinched first place by topping Bowes and Cocks 8-1. Mark Anglin fired three goals in Ideal Vendors' 8-5 win over Lou Williams. Davey Hills shutout Bob's Body Shop at Y's Men on to defeat Dairy Queen 11-2 as Donnie Pope connected for five goals. A four-goal display by Mike Urthed and three from the league's top scorer Bobby Speers powered Circle TV to an 8-2 win over Canadian Legion. Mark Davy chalked up a shutout as Elliott Motors "79" downed Belleville Conductors 4-0.

Bantam Minor

Brooks and Rosslit Masonry climbed into a share of first place by topping Kiwanis Club 6-4. Peter Lewis had three goals for the winners. Alan Smith's hat-trick helped mark Blake Kerr Imperials past King Penguins 7-3. Ed's Esso tied Belleville Real Estate Board 4-4 while McInroy-Marsden played to a 2-2 draw with Belleville Youths.

Bantam Major

Avis Car Rentals got the win it needed to wrap up first place when it defeated on Phil Bennett Real Estate 6-3. Mike Burns scored three times for Belle Cleaners but it was in vain as his club lost to ANAF Dukes 12-4. Sidney scored a 7-4 win over Allied Chemical. Canadian Legion turned the tables on Bellville Broadloom 8-1, and Art's Esso stayed in a 1-1 tie with Y's Men.

Midget

Canadian Legion beat Warwick and Weeks 5-1 to wrap up first place in regular season play. Sterling Sheet Metal defeated SACO 6-4; Mead Johnson doubled the score on Bellville Construction 4-2; Rees Royals got by Uptown Billiards 6-4, and Emperor Peepins scored a 5-3 win over Belleville Yardmen.

In the scoring race, Chris Rutledge and Glen Woodley each has 34 points but Mike Kirby leads in goals with 25. Mike's point total is 32.

Juvenile

Albert College chalked up its first win of the season, downing Harvey's Drive-In 6-3. Ron McTaggart's four goals nearbeseded Arthur Sills to a 6-2 win over Lou Williams Wille Ontario School for the Deaf and Pioneer Petroleums tied 3-3.

Two Belleville Teams Get a Win and Loss

Scoring four consecutive goals without a reply by the visitors, Belleville Dixie Lee minor peewee broke up a close exhibition match and downed Brighton 6-2 in Memorial Arena, Sunday.

Louis Crawford was a two-goal shooter for Dixie Lee but the team's top point-getter was Greg Horwood who scored once and drew two assists. Bobby Wolfe, Jamie Forster and Rob Soule had the other Belleville goals.

Replying for Brighton were Brian Roraback and Allan Currie.

Hughie Northey handled the goaltending for Dixie Lee. David Thompson was between the pipes for the Brighton squad.

In a Saturday game at Campbellford, the Belleville youngsters dropped a 7-2 decision. Horwood and Forster connected for the Dixie Lee counters.

The Belleville McInroy Maines Minor Bantams split a pair of exhibition games on the weekend, losing Saturday to Napanee 6-2, but bouncing back to take a 13-3 win from Ottawa West Sunday.

Tim Coates and John Royer scored for Belleville in Saturday's game.

Danny Vance and Gary McInroy each accounted for six points on three goals and three assists in Sunday's game, with Nelson Frederick adding a hat trick as well.

Gary Frederick fired a pair of goals, with Danny Duffy, John Royer, Paul Slaughter, and Mike Bryant each scoring one goal to the cause.

Rollins' Construction Major Peewees were not so fortunate, dropping their only contest 6-1 to Oshawa.

Steve Mofina scored the only Belleville goal. Peter Vandervoet, Kevin Sinclair, Trent Mood, Tom White, Bill Affleck, and Wayne Lyon each scored once for Oshawa.

Clark Sidelined

Belleville Bobcat goaltender Bruce Clarke won't be making any saves like this one tonight. He's out for at least tonight's game with a slight concussion he received in Sunday night's second game of the Bobcats' Pick-

ering Panthers Metro Junior B semi-final series. Cats won Sunday 3-2, in overtime, to square the best of seven series 1-1. Third game of the set goes tonight in Pickering. Game time is 7:30.

Post Comes to Goalie's Aid

The end result of a penalty shot by OSD's Paul Landry in Monday night's Juvenile House League game, comes as the puck rings off the goal post away from Harvey's goaltender Don Thompson. Landry did push one goal past Thompson, but it wasn't enough as Harvey's came up with a 3-1 win.

Gas House Marksmen Are On Target

Things were back to normal in a goal scoring fashion last night in the Gas House Hockey League, with 22 goals netted in the four games played. The league had had a slow night last week, with only 14 goals scored in three games.

The Fraser and Fraser Real Estate and Chuckwagon Foods game provided most of the scoring punch, providing 12 of the 69 goals. Fraser and Fraser defeated SACO 6-4; Mead Johnson doubled the score on Belleville Construction 4-2; Rees Royals got by Uptown Billiards 6-4, and Emperor Peepins scored a 5-3 win over Belleville Yardmen.

In the scoring race, Chris Rutledge and Glen Woodley each has 34 points but Mike Kirby leads in goals with 25. Mike's point total is 32.

Northern Electric Playoffs All Even

Both semi-final series in the Northern Electric Hockey League were tied up Sunday, with the Yankees and Falcons both recording wins. The Yankees came up with a 6-4 decision over the Beavers, while the Falcons, last year's finishers in the regular season, defeated the Rebels 5-3.

Rick Rosebush fired two goals and added a pair of assists for the Yankees, with Marco Mior scoring one goal and two assists. Other goals for the winners went to Ralph Bailey, Tom MacDonald, and Bill Carson.

Larry Lapezette tallied twice in a losing cause for the Bearcats, with Bill Goodfellow and Doug McCrory adding the others.

Mark Acquafredo fired a pair of goals and one assist to help the Falcons tie their series with the Rebels. Butch Doolittle, Don Matthews and Ron McFarlane each scored once for the Falcons.

Bob Bailley and Phil Haywood replied in a losing cause for the Rebels.

No Dates For Birt's

TRENTON —The earliest expect to see their Birt's Handy Stand Juveniles in action in Ontario Minor Hockey Association AA playoffs, on home ice at least, is Sunday night.

Don Traylor, spokesman for Trenton club, said this morning that dates for the Trenton —Lindsay series have still not been confirmed. But he added there is a good chance a game in the playoff set will be scheduled for Sunday night at the Community Gardens here.

High Single: C. Poole 333, M. Desjardins 330, J. Thomas 326, R. Fraser 326, M. Lynch 321, and one assist.

Brian Rosebush and Don Monaghan replied for the Patmen.

Tom Cormier and Ken Little were the only marksmen for Skibbey, they were all they needed as The Intelligencer counted only a goal from Austin Wilson.

Trenton Strong In the Overtime

KINGSTON (Special) — Trenton Quinte Ice Products Midgets came on strong Dave Young, that is) in the overtime here Monday night to score a 4-3 win and take their two minutes apart, to decide the game and the series.

"The goaltending at both ends was great, observed Matheson, giving credit to efforts turned in by the winners' Bill Roberts and Kingston's Rasmott Keogh.

Roberts and Keogh took turns thwarting would-be scorers in the close, exciting contest.

Trenton's Tom Manley opened the scoring in the game, combining with Strong and Bill Fox at 17:48. Then the home team's Dave Latour took over. Dave potted a pair in less than two minutes and the lead stood up until the third frame.

Richard Monsma fired the equalizer for the visitors, nearing the halfway mark of the third period. He finished off a two-way move with Bob Thompson and Leedham.

Now that, it was long time between goals but for Trenton, the wait was worth it.

Leedham and Al Fox were in on Strong's game winner. Manley drew the assist on the insurance goal.

Sports Calendar

Barrage Girls Win Opener

Belleville Mel Barrage Landscaping rallied from behind team took a 1-0 lead in their best of five semi-final series with the Trenton Ladies Sunday, winning 4-1 in the game played at the Jack Ellis Rink.

Nora Flieger scored twice for the winners, with Margie Scanlan and Sue Moore adding the single markers. Sue Pobert drew assists.

Joanne Tidmarsh scored the only Trenton goal.

The next game in the series will be played tonight in Trenton, at the AMDU Rink at CFB, with game time 9 p.m., while the third game will be Sunday at the Dick Ellis Rink, at 12.15 p.m.

Your Horoscope

By BERNICE BEDE OSOL

Wednesday, March 6

Aries (March 21-April 19) Keep to the company of friends who think like you do. Avoid one whose ideas always differ from yours. He's a problem today.

Taurus (April 20-May 20) The advice of an outsider will prove less than satisfactory if followed regarding a matter best handled within the family.

Gemini (May 21-June 20) Be sure to finish what you start today. It's likely you'll leave something important incomplete, trying to jump too far ahead.

Cancer (June 21-July 22) It would be unwise to broadcast your financial state to an intimate friend. If he feels you have a surplus he'll want to borrow.

Leo (July 23-Aug. 22) One you'll run into later today might ask personal questions you'd rather not discuss. Change the subject tactfully.

Virgo (Aug. 23-Sept. 22) The direction you're presently heading appears to be your right course, though some doubts will be induced by a co-worker.

Libra (Sept. 23-Oct. 22) Don't take the word of one you know slightly over the word of a proven friend. Your old pal is on the level, as always.

Scorpio (Oct. 24-Nov. 22) Keep an ambition you're striving for to yourself. Nothing protective will come of telling it to one who can't help.

Sagittarius (Nov. 23-Dec. 21) There's a likelihood of making a needless oversight today in an important matter. Double-check all facts and figures.

Capricorn (Dec. 22-Jan. 19) Keep accurate records of transactions you're involved in today. Later you'll need them to correct a mistake.

Aquarius (Jan. 20-Feb. 19) You're apt to unwisely change your mind at the last minute about something to which you've given considerable thought and planning.

Pisces (Feb. 20-March 20) Don't overlook the small details in your tasks today. Treat the little touches with as much importance as the big ones.

SIDE GLANCES

by Gill Fox

"No, sir, I don't have to beg. I do it on a voluntary basis!"

Listings Changed

Daily program listings for the Global TV network will be shown in The Intelligencer as being presented on Channel 3 beginning with the Tuesday, March 5, insertion. These programs are received on Channel 2 by viewers with TV antennas but since 85 percent of TV owners in this area subscribe to Cablevue service and receive the programs on Cable Channel 3, it has been decided that the listing should be shown as it applies to the majority of homes.

To Your Good Health

Drinking No Cure For Cracked Lips

By G. C. THOSTESON, MD

Dear Dr. Thosteson: For several years now I have been bothered with chapped lips, not only in the winter but in summer also. Our family doctor recommended drinking more water but that has not cured the problem. Could you make any recommendation?—Mrs. W.M.

This could be a variety of conditions and should be seen to be evaluated.

However, drying, crusting and cracking the year round suggests there may be an irritant that is continually present.

Constant sweetners are the offenders—lip stick is an obvious possibility. Nail polish or other preparations that touch the lips only secondarily can't be neglected as suspects.

So think back. Have you made any change in your cosmetics dating to about the time the trouble started?

Stopping all cosmetics for a time may be useful. It may not right off the bat, show which cosmetic is guilty, but if the trouble stops it narrows things down a good deal.

Irritation from toothpaste or dental materials sometimes proves to be the cause of the trouble.

Sensitivity to the actinic rays of the sun can be involved.

You also might try one of the lip balms available in the drug store. These are colorless but serve as protection against external irritants.

Dear Dr. Thosteson: Is there any home treatment for a leg ulcer caused by varicose veins?—Mrs. J.

The only effective one is surgical removal of the varicose veins—and that's hardly a "home treatment." Local treatment of the ulcer is also necessary, as prescribed by the doctor.

Dear Dr. Thosteson: I am three months pregnant and was tried sick. At about six weeks I tried taking quinine to try to stop the pregnancy. After one pill I sheared one spot of blood, and took four more but didn't have any more. Then I was having morning sickness and couldn't keep the pills down at all. They just made me sick.

Now I am worried that the quinine hurt my baby. Would it affect the baby's health?—Mrs. R.F.

It is doubtful if a small amount of quinine would have any detrimental effect on the baby, but I suspect it is a good thing that you couldn't keep some of the pills down.

There's a long list of drugs that can harm the baby, and a longer list of drugs about which we don't yet know enough to be sure, so I stick to the advice I've often given before: Don't take any medicine in pregnancy without your doctor's sanction.

By the way, the idea that quinine will terminate a pregnancy is an old and oft-repeated fable, but neither it nor any other medicine will undo an established pregnancy or cause a miscarriage. The cases in which somebody says quinine did so, it was a coincidence, and a miscarriage was going to occur anyway.

Fruit Potential

BEAVERLODGE, Alta. (CP) — A fresh fruit industry potential with millions of dollars could be developed in Alberta, says Dr. Bob Harr, an official with the federal government's northern research station. Dr. Harr, who has spent 17 years studying the varieties of wild fruit in northern Alberta, says some areas could develop commercial picking operations on a large scale of lingonberry picking enterprises in Eastern Canada.

PROVIDES VITAMINS

A two-ounce serving of cooked beef liver provides more than 30,000 international units of vitamin A.

Pass			

Opening lead—♠ 4

By Oswald and James Jacoby

In general the failure of third hand to play high is because he has a chance to play an important spot card which will hurt declarer. In all such cases there would be an honor of some sort in dummy that third hand's high-card and the spot-card will bracket that honor.

East Reviews the bidding and sees that his partner cannot hold more than three high-card points. He hopes that they are all together in the person of the spade king. He asks himself, "How can I beat this contract?" and sees that three spade tricks are necessary.

He notes further that he is sure to get the lead with his king of diamonds so that if he does not hop up with his ace of spades his partner won't be hurt.

Then he plays his eight of spades. South can do no better than win the trick with the queen or ill. He loses the diamond finesse.

East cashes his ace of spades and leads the four spot whereupon West takes two spade tricks. East signals with the ill of hearts and the ace of hearts sets declarer.

Note that if East had taken his ace of spades at trick one declarer would score two spade tricks, game and rubber.

CARD Service

The bidding has been

West	North	East	South
1♦	Pass	Pass	Dou-ble.
Pass	1♠	Pass	2

You, South, hold ♠AK76 ♥AK76 ♦932 ♣K103. What do you do now?

A—Bid two spades.

TODAY'S QUESTION

You do bid two spades and your partner bids three spades. What do you do now?

IN MEMORIAM

DOYLE — In loving memory of our dear friend, Thomas who passed away March 4, 1971.
Not one has passed since that day
When the one I loved was called away.
In a quiet graveyard far away,
Where the flowers bloom and the grass grows green,
Is the spot where my loved one has been.
Sadly missed by his mother, Mrs. Ethel Doyle

LANG — In loving memory of a dear father, S. Stuart Lang, who passed away March 5th, 1949
Memory fills my heart with sorrow
And loving memory I'll always keep
Never remembered by son Eugene.

STOLLER — In loving memory of a dear husband, Jerry Stoller, who passed away March 5, 1973.
Peacefully sleeping, resting at last,
Free from pain what tortured him so fast
In silence she suffered, in patience she bore,
Till God called her home to suffer no more.
Always remembered by husband Walter.

CARD OF THANKS

The family of the late Archibald (Red) Harrison wish to express their sincere thanks for the many kindnesses the Belleville, Lake and neighbors, friends and relatives for their thoughtfulness shown, during our recent loss.

CP News Roundup

Egyptians Won't Cook Monkey

ALEXANDRIA (Reuter) — Egyptian cooks at a hotel here threw up their hands in disgust when the Zaire soccer team, playing in the ninth African soccer championships, wanted monkey for dinner.

The cooks refused to have anything to do with preparing the monkey, a national dish in Zaire. The hotel made the team cook the monkey themselves and eat in a separate dining room.

Oppose Strike

HAMILTON (CP) — Representatives of about 5,000 truckers from across Ontario have sent a telegram to Premier William Davis disassociating themselves from strike action by the Ontario Haulers Association.

Officers from local dump truck associations in Hamilton, Sudbury, Ottawa, Niagara Falls, Essex County, South Peterboro and Timmins met here over the weekend to form their own provincial association.

Floods Occur

TORONTO (CP) — Minor flooding and threats of more serious water damage followed steady rainfall Monday over parts of southern Ontario.

Most seriously affected were roads in the Barrie and nearby Mississauga areas.

Stagger Hours

OTTAWA (CP) — Federal public servants here began a three-month trial with variable working hours Monday but a major objective of the test, reduced traffic problems, was apparently not attained the first day.

About 45,000 employees of 37 departments and agencies are trying out either flexible or staggered working hours. With flexible hours, the employee picks his starting time while with staggered hours different branches of the same department begin work at varied selected times.

Give Warning

ADDIS ABABA (Reuter) — Ethiopia's new government is under notice from members of the armed forces to get moving on political reform or risk further action by the military.

The warning came in pamphlets dropped over Addis Ababa Monday night by a military helicopter. It was signed "units of the armed forces."

FLORA MacDONALD

More Medical Research Urged

OTTAWA (CP) — The government is spending $100 per capita on unemployment insurance this year, but Medical Research Council spending will be only $2 per capita, Flora MacDonald (PC—Kingston and the Islands) complained in the Commons Monday.

But Health Minister Marc Lalonde said the council feels it will be able to maintain an adequate level of research under the existing grants, which were raised by $1 million over last year.

Trial Begins

TORONTO (CP) — The trial of Roy Donald Kulty, 30, charged with capital murder in the shooting death of a Wallaceburg, Ont., man, began Monday before an Ontario Supreme Court jury.

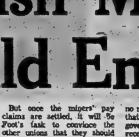
British Mine Strike Could End Tonight

LONDON (CP) — Britain's first week of Labor rule might be the last week of its crippling coal strike, says the leader of the miners' union.

Prime Minister Harold Wilson zeroed in on the miners' strike in his first full day in office Tuesday, appointing leftist Michael Foot as employment secretary. Foot arranged for talks to resume today, and miners' chief Joe Gormley said he hoped an agreement could be reached by tonight.



Political sources said Foot had told the union and the coal board they could ignore the anti-inflation wage ceiling imposed by the former Conservative government.

Gormley responded that on that basis agreement could possibly be reached today. That would mean the miners could be back in the pits by Monday and the end would be in sight for Britain's three-day work week.

The 60-year-old Foot, in his first major government post, was a surprise choice for the touchy employment portfolio, but his friendly meeting with the miners within hours of his appointment led the Guardian to run in its front-page headline:

"Wilson Gets Going—Best Foot Forward."

But once the miners' pay claims are settled, it will be Foot's task to convince the other unions that they should moderate their pay demands to keep from endangering the life of Wilson's minority government.

MICHAEL FOOT

The Financial Times, voice of Britain's business community, reported some disappointment that Wilson had named Denis Healey chancellor of the exchequer rather than Roy Jenkins, who pulled Britain's foreign trade out of the red during Labor's 1964-70 term in office.

But it commented:

"Mr. Healey is still untried in this particular field, but he will no necessarily be the worse for that. The country now has a government which is likely to receive solid support for measures designed to tackle the economic crisis and can look forward to a fair amount of business confidence."

Healey will have to start work almost immediately on a budget and arrange a big loan from the International Monetary Fund to cover Britain's trade deficit.

Belief that a government was in action, after the four-day period of indecision following the election, had a dramatic effect on the pound and the stock market.

Sterling surged up to a gain of nearly five cents, while the Financial Times index of 30 key industrial stocks closed 12 points up.

Wilson's cabinet-making was generally regarded by Conservative commentators as a skilful exercise in balancing the left wing of his party alongside moderate elder statesmen with long experience of government.

In addition to Foot, the Liberals were lured by the appointments of left-wingers Wedgwood Benn as industry minister and Peter Shore as trade secretary.

But to balance these there were moderates such as Healey, Jenkins as home secretary, James Callaghan as foreign minister, Roy Mason in defence and Anthony Crosland in environment. Women hold two major portfolios: Shirley Williams in price control and consumer protection and Barbara Castle in social services.

Benn—69, has the job of getting industry back to a full working week and to full production after months of electricity cuts caused by the coal shortage.

Callaghan, 62, has over-all responsibility for trying to renegotiate the terms of British membership in the Common Market, a major plank in the Labor election campaign.

News Briefs

Aircraft Missing

VICTORIA (CP) — The search for an aircraft with eight persons aboard that disappeared Tuesday on a flight from Prince Rupert, B.C., to Eden Lake on the Queen Charlotte Islands was to resume today.

Boy Stuck in Mud

HAMILTON (CP) — Two Hamilton firefighters waded up to their knees in mud Tuesday to rescue a 10-year-old boy from a steep embankment, softened by unusually mild temperatures. Doug Hintzsche of Hamilton, along with two friends, were climbing the hill and had just about reached the top when the boy became stuck in the mud, a fire department spokesman said. Firemen worked nearly 20 minutes to free him.

Nixon Vetoes Bill

WASHINGTON (AP) — President Nixon today vetoed emergency energy legislation, saying it would result in reduced energy supplies, longer lines at the gasoline pumps, minimal reduction in prices and a loss of jobs of all, serious damage to jobs in America." Anticipating the veto, the Senate scheduled a vote on over-riding it later in the day.

Miners Still Strike

CHARLESTON, W. Va. (AP) Striking coal miners in southern West Virginia have forced the state to exempt them from a plan limiting gasoline purchases, but many of them remained on picket lines today.

Poor to Get Aid

TORONTO (CP) — Cash assistance for the working poor here will begin April 1 if the Ontario government approves the plan, Raymond Tomlinson, Metropolitan Toronto deputy social services commissioner, said Tuesday. Metro's $83-million social services budget is scrutinized by a budget subcommittee, includes $280,000 for cash payments this year, he said.

Spring Preview

Spring is officially 15 days away but with the mild weather the city has been having lately, one would think the season had arrived early. It hasn't been warm enough to bring on the first outside blooms of the year, but a visitor to the market square can catch a glimpse of what his garden will soon be like. Linda Hicks was walking through the market square and upon noticing a delightful burst of color gave in to temptation to sniff the flowers.

Jim Biscaia

Cheaper Housing, Aid for Elderly Promised in Ontario Throne Speech

TORONTO (CP) — Cheaper housing, particularly for low-income groups, and new economic trends for Ontario's northland, emerged as top government priorities Tuesday when Lt.-Gov. W. Ross Macdonald opened the fourth session of the 29th legislature.

The 13-page speech from the throne, outlining the government's program for the session and read by Mr. Macdonald, contained few surprises and only one item of increased government expenditure—$115 million for water-treatment projects.

The speech provided some hope to pensioners caught in the inflationary squeeze by indicating the government intends to provide money for the elderly.

An income support program will be proposed which will assist in achieving a greater measure of security for Ontario's older citizens and for the disabled.

The government also proposed a wide range of programs for housing development, including housing for low-income earners.

The province plans to spend $115 million on sewage and water-treatment facilities for pollution control, drinking water and the servicing of new housing lots.

Also, in instances where land is designated for housing or being held by developers, government hopes to ensure that agriculture production continues until the land is needed for housing.

The speech also indicated government will encourage local and regional governments to increase the supply of serviced lots "and to work toward stabilization of land and housing prices."

Recognition of Northern Ontario needs took up a large portion of the speech as the government unveiled a series of proposals aimed at the northland.

Studies will be made to investigate the possibility of a salt-water port at James Bay to bring in gas, oil and minerals south from the Arctic.

A study also will be made on the possibility of linking James Bay and Moosonee road. Other improved communications links also were promised for the North.

The speech also disclosed government plans to make the use of auto seat belts compulsory, and a new program of co-operative day-care centres in low income areas.

For Other Stories On Throne Speech
See Page 5

Speech Highlights

TORONTO (CP) — Highlights of the speech from the throne read Tuesday to open the fourth session of the 29th Ontario legislature:

As income support program will be launched for the elderly and disabled, and a prescription drug plan for the elderly.

The use of automobile seat belts will become mandatory.

A wide range of programs and approaches to housing development will be started for low-income earners.

The government will spend $115 million on sewage and water-treatment facilities for pollution control, drinking water and servicing new housing lots.

A new office for women civil servants will be created to improve personnel administration and hiring practices.

A review will be made of legislative and common-law rules affecting the family as an institution.

Sweeping improvements and benefits will be forthcoming for northern residents in the form of communications links, and more local government.

Consideration will be given to the establishment of a port facility in the James Bay area to move gas, oil and minerals from the Eastern Arctic.

A major educational and enforcement program will be created, designed to reduce the highway accident toll caused by drunk drivers.

Ontario will seek to obtain control over the non-strategic use of its vast uranium resources.

Nixon's Ex-aides Say Jury Report Illegal

WASHINGTON (AP) — President Nixon informed the House of Representatives judiciary committee today he will give it all the material he has already turned over to the Watergate grand jury. "without limitation."

The president also offered to answer written questions and meet to an oral interview if the committee is not satisfied with the written answers.

Nixon's decision was announced by James St. Clair, the president's chief Watergate lawyer, at a hearing called to hear arguments on the disposition of a sealed grand jury report.

St. Clair told U.S. District Judge John Sirica the White House would offer no recommendation as to what the judge should do with the sealed report which sources have indicated contains grand jury findings on the president's role in Watergate.

Referring to news accounts about the sealed report, St. Clair said, "We consider there has been a serious breach of the grand jury secrecy."

He said also the published reports represented a "gross distortion of its contents."

John J. Wilson, counsel for former presidential aides H. R. Haldeman and John D. Ehrlichman, already has notified Sirica by letter that he would argue that the grand jury had no authority to issue its sealed report.

Nixon to Talk On TV Tonight

WASHINGTON (AP) — President Nixon will hold a nationally-televised and broadcast news conference at 8:30 p.m. CST today, the White House announced.

Ben Wicks

"All we want is peace. A piece of Tel-Aviv, a piece of Haifa, a piece..."

In his letter Wilson said the grand jury "has no power to do other than indict or ignore. It may not make special reports."

Wilson contended the sealed report "prejudices our clients and should be expunged or returned to the grand jury with the court's instructions that their act was wholly illegal and improper."

The House comittee wants the grand jury report for its impeachment investigation. Defence lawyers want the document kept forever secret and would presumably appeal Sirica's ruling from the court on how it could be used.

War Threat Makes Dayan Join With Meir

JERUSALEM (CP) — Israeli Defence Minister Moshe Dayan said today his sudden decision to join a new Israeli government stemmed directly from intelligence reports of a serious military situation on the Golan Heights.

He said that in view of the military developments disclosed at a special cabinet meeting Tuesday night he felt he must do everything in his power to help Israel.

Dayan's change of heart cleared the way for Prime Minister Golda Meir to form a government after more than two months of political uncertainty. Premier Golda Meir was to submit today the names in her new minority cabinet.

Well-informed sources said the Syrians had changed their military dispositions on the heights in the last few days to what could be an offensive deployment.

The Weather

Synopsis: A minor storm moving through Northern Ontario today will cause some rain or wet snow in the south. Colder air behind it will move southward and spill across the entire province. This will bring a return to more seasonable temperatures Thursday.

PCs Join NDP Demand U.S. Control Be Ended

OTTAWA (CP) — Opposition demands that Canadian subsidiaries be freed of American trading constraints increased Tuesday despite government assurances that such restrictions will not stop the sale of Canadian locomotives to Cuba.

Progressive Conservative spokesmen joined the New Democrats in calling on the government to end subjection of Canadian subsidiaries to an American law forbidding United States companies from dealing with certain countries.

Their demands were unmitigated by Prime Minister Trudeau's assurance in the Commons that an $18-million locomotive sale to Cuba will go through despite the U.S. Trading with the Enemy Act.

"The government has the means to make sure the deal goes through and we'll exercise them," he said. Moral suasion and consultation with U.S. officials would be the chief means of dealing with the problem.

His comment came moments after Trade Minister Alastair Gillespie suggested the problem might be solved if American directors resigned from MLW-Worthington, the Montreal company involved in the locomotive deal.

Mr. Gillespie said he told the company's president such resignations would be expected if the directors' positions were preventing the sale. He told reporters later he believes the company is considering the resignations.

Prime Minister Trudeau played down a suggestion that the situation is serious for Canada.

"This is no crisis," he told the Commons. "It's a difficulty being solved by the government in the interests of the Canadian people."

Opposition spokesmen were not satisfied and expanded their arguments from the MLW-Worthington case to the entire problem of the U.S. law applying to Canadian subsidiaries of American companies.

The trading with the Enemy Act prohibits U.S. firms or their subsidiaries abroad from trading directly with Cuba and other specified Communist countries. American directors of any company, even foreign-owned concerns, are barred from deciding on trade deals with the specified countries.

Progressive Conservative Leader Robert Stanfield said "subservience to foreign laws is intolerable," particularly since MLW-Worthington had received government financial assistance.

Ed Broadbent (NDP—Ontario-Whitby) said Argentinian subsidiaries of U.S. companies, operating under Argentinian law, have made their own deals with Cuba. A similar practice should apply to companies operating in Canada.

"Ensuring that companies here trade according to Canadian policy is especially important because other companies are interested in exporting to Cuba, Mr. Broadbent said.

There's Got to Be a Way

Helen Nobles, an employee at Gasow Veterinary hospital, struggles to boost Lord Wellington, a 90-sheepdog, onto a table for grooming. Lord Wellington's touch-up was done for the Detroit Kennel Club's 86th annual show. A well placed shove got the dog seated on the table. (AP Photo)

DEATHS

RAY. Estella A. — At Trenton Memorial Hospital on Tuesday, March 5, 1974, Estella A. Ray, Wife of the late Melvin A. Ray (in her 80th year). Dear Mother of Christine (Mrs. Ernest Hall) of Trenton, Gertrude (Mrs. Lawrence Palmer) of South Porcupine, Gladstone of Point Lake, Yukon, Mrs. Jo of Bloomfield, Patty Sweeney of Belleville, Ray of Picton and Lucille, Rockcliffe. Also survived by 20 grandchildren and 7 great grandchildren.

Friends are invited to call at the Weaver Funeral Home, Trenton from Wednesday evening. Service will be held in the Pinnacle Mens Bible Class Room, 7 Dundas St. E. Trenton at 2. Pastor Reverend A. Parson and Reverend P. Robbs officiating.

Interment Mount Evergreen Cemetery.

Donations to the Ontario Heart Fund will be appreciated by the family. 10-2c

10th Anniversary

Morley Moran, retiring assistant director of the Manpower retraining division at Loyalist College, autographs a Mink produced to commemorate the first decade of the division's operation. John Wilkinson, a former Manpower student, now a sportswriter on a Toronto suburban newspaper, was the inspiration behind the publication and was presented with one of the first copies at a dinner marking the anniversary. Retraining began as Program 5 and was conducted at Quinte Secondary School and later Centennial, before coming under the jurisdiction of Loyalist.

He's the Top

TRENTON — David Humm, a local architect, has been named top of the Toastmasters during a competition in Peterborough.

Mr. Humm won the public speaking contest while representing the Bay of Quinte Toastmasters Club.

Sidewalk Repairs To Cost $56,000

The city of Belleville will spend an estimated $56,000 on its sidewalk replacement program this year.

Council at its Monday meeting approved construction of 2 sections of walk in various parts of the city, in all totalling about two miles.

Longest sections of walk to be rebuilt are on the east side of George Street from Dundas to Bridge for a total distance of 977 feet; on Moira Street, East, from St. Charles to Elm Street, a distance of 702 feet, on Cedar Street from Catherine to Henry for 650 feet and on Lewis Street from Yeomans to Sidney, a distance of 668 feet.

City Engineer Wilbur Purcell, in answer to a question as to how it was determined which walks were to be replaced, said a survey was done to check which walks were in greatest need of rebuilding.

City policy is to build approximately $50,000 worth of replacement sidewalk each year. Payment for replacement walk is from the city's general rates.

The budget for replacement walks in 1973 was $37,200 while in 1972 the budget amount was $30,000.

Bubbles Suggested For Ice

Alderman Stu Meeks feels that winter air bubbles could do much to ease the annual spring ice problem at the mouth of the Moira River.

Monday evening the alderman introduced a notice of motion to council asking that possible use of a bubble system be investigated and that the cost be programed be included in the 1974 city budget.

Later Alderman Meeks noted that bubble systems were used to keep docks at Glenora Ferry, and at Deseronto be free during the winter and suggested that the same procedure might be used at Belleville.

Each winter as a flood prevention measure, city workers cut a channel in the ice at the river mouth. The alderman suggested a bubble system might materially reduce the cost of this work.

New Lights Going In

Those long-ordered and much-talked-about traffic light installations for North Front Street and for two locations on Sidney Street are about to be realized.

City public works department officials said today that the equipment for the four locations has now arrived and that installation is under way.

Poles for the two installations on North Front Street at Valleyview Crescent and at Tracey Street are already in and Teasdale Builders were at work pulling on crossarms and traffic light heads.

The Valleyview Crescent installation is being done first with installers then to move on to the Tracey Street intersection.

Lights are also to be installed at two Sidney Street locations — at Bridge Street and College Street, with these installations to be done when North Front Street is completed.

With mounting traffic volumes, on North Front and Sidney Street, motorists have long been complaining about traffic delays.

Slowness in delivery of the necessary equipment has delayed the installations.

New Member

The Belleville Women's Sales and Ad Club has four new members. Recently joining the club were Beth Howard, Carol Crawford, Carolyn Coyne and Joyce Keller.

Syrup Producers Prepare to Tap

It's maple tapping time again.

There haven't been any significant sap runs but maple syrup producers are beginning to think in terms of the forthcoming syrup season.

One of the local syrup producers who has already tapped is Burton Hubble of Sidney township, who last week ran pipelines to the 650 maples he normally taps each spring.

Mr. Hubble tapped about two week earlier than last year but he says "if you don't tap before the first run you lose some sap."

The Sidney township farmer expected that Sunday's warm weather might have started some sap but the run wasn't enough to do any boiling down.

Permits Total $385,760

Robert Lambert Construction is building five houses on Oakdal Rd., part of the Country Club Village development, a building inspector's report to Sidney township revealed Monday.

The homes, estimated at $28,000 each, are five of 12 single family dwellings for which Hastings County inspector George Caves issued building permits in January. The county took over the inspection service at the beginning of the year.

Total estimated value of 14 permits issued is $385,760.

Gone Fishing?

These men are not about to go fishing, although they would like to. They are inspecting the new 14-foot aluminum rescue boat that the Corbyville volunteer firefighters have purchased to further extend their services as one of the major rescue squads in the Quinte area. The rescue squad in Corbyville works closely with the OPP and area ambulance services. Last night, members of the OPP scuba squad, constables Garney Brown and Don Bowry, joined firefighters Elmer Middleton and Bruce Gelthrope in looking over the new boat. All the firefighters have to worry about now is finding the money to buy a trailer.

Obituaries and Funerals

LAWRENCE AMO

The funeral of Lawrence Amo, formerly of Belles Street, and retired Canadian National Railways employee, was held Monday morning from the Dyment Funeral Residence to St. Michael's Church.

Funeral mass was conducted by Rev. Kenneth Stitt with Rt. Rev. J.P. Sullivan saying graveside prayers in St. James Cemetery.

The bearers — all grandsons — were Harry Fullerton, David Curfetis, Michael Amo, Tommy Amo, Randy Young and David Becker.

Mr. Amo died Saturday in Belleville General Hospital Illness. He was in his 90th year.

Born in Gananoque, he was the son of the late Mr. and Mrs. Nelson Amo and had lived most of his life in Belleville, where he had worked for CN for 43 years. He was a member of the Brotherhood of Railway Trainmen and belonged to St. Michael's Church.

Predeceased by his wife, the former Ivie Compeau, he is survived by a son Stan of this city and daughters, Mrs. Bernard (Rosa) O'Hearn of Gananoque, Mrs. Alan (Lorraine) Curfetis of Canniffton, and Mrs. J.F. (Thelma) MacDonald and Mrs. Alton (Ina) Young, both of Belleville.

There are four brothers, George and Leo of Gananoque, Neehan and James of Kingston, and two sisters, Mrs. Edward (Florence) McMaster of Ganaoque and Mrs. Albert (Violet) Watts of Kingston.

Garney Brown and Don Bowry, joined firefighters Elmer Middleton and Bruce Gelthrope in looking over the new boat. All the firefighters have to worry about now is finding the money to buy a trailer.

WILMOT ARTHUR ROSELTON

Wilmot Arthur Roselton, 38, who died suddenly at his residence, 410 McEwen Drive, was buried in St. John's Cemetery, in Bath, Ont.

He was born in Bath, a son of the late Wilmot Alfred Roselton and his wife, the former Laura Ferguson, who survives.

Mr. Roselton had been a Kingston resident for two years. He attended LaSalle Park Baptist Church.

Surviving are his wife, Joy; a daughter, Charlotte Gay; a son, Shawn; his mother, Laura, of Bellerville and a sister, Mrs. Shirley Nadeau of Bath.

Bearers were: John Woolridge, Richard Coombs, Guy Nadeau, Leo Fritz, George Ferguson, Leo Pitt and William Sharpe.

Virginia O'Rourke Is UCS Chairman

Former United Community Services chairman of the social planning committee, Virginia O'Rourke was elected president of the board of directors of the agency's 1974 inaugural meeting Tuesday.

Mrs. O'Rourke replaces Wayne Wickson, who tendered his resignation to the board by letter recently.

Claiming professional and educational endeavors rendered the available time he had for board work, he requested the board accept his resignation. Directors accepted it yesterday.

Rev. David Murphy and Ted Kelly were elected first and second vice-presidents respectively. Rev. Murphy also assumes duties as chairman of the social planning committee. Mr. Kelly continues in his role as agency review committee chairman.

Harold Mason returns as board treasurer.

Vera Heimbach continues as recording secretary until such time as a paid professional administrator takes over her duties.

16-year-olds May OK Surgery

Belleville General Hospital authorities take this week-hope to have a full details on new provincial legislation lowering the age of consent for medical treatment to 18 from 21 years.

The change became effective Feb. 18 with an amendment to the Public Hospitals Act. It has drawn little attention to date — save from professional medical sources which are concerned the change could create a legal discrepancy involving doctors.

However, the amendment will be published in the government's official Ontario Gazette this Friday at which time it will be studied by BGH officials, said Philip Rickard, hospital executive director.

The amendment creates a disparity between the age of medical consent and the age of legal majority, which is 18 in Ontario.

Consent forms are standard procedure, authorizing a hospital and its medical staff to undertake surgical treatment deemed necessary. Without such consent, doctors and hospitals could be liable for assault. Consent is evidences against assault.

But some medical source has suggested the new legislation may mean a patient under 18 may waive the right to bring an action against the hospital — but not the doctor.

A spokesman for the Canadian Medical Association has been quoted as giving this definition of the apparent discrepancy: "If the hospital said okay to a procedure on a 17-year-old girl, the doctor could find himself whacked with a lawsuit. Legally he have to be the age of majority."

Mr. Rickard said BGH officials will "take a good look" at the amendment's terms and ramifications when they are received. He agreed a person's legal consent for protection, perhaps even more than a hospital, although hospitals are automatically enjoined in such a lawsuit if they are the location from which legal actions arise.

But the amendment does clarify a situation that has always existed — that of the "emancipated minor."

Young people aged 16 and over can support themselves independently of their parents have been always able to sign medical consents, said the BGH official.

For Ontario young people, the amendment means a 16-year-old will be able to obtain medical or surgical treatment — including abortion — without necessarily seeking parental permission.

Family Social Service Cost Shows Big Rise in Trenton

TRENTON — Hastings County Family and Children's Services have told town council that costs of its service to the Trenton taxpayer will increase 67 percent this year.

The agency maintains an office in Trenton's downtown section with one full time and one part-time worker.

David Shoot described the essence of the service as protection to children living at home. "We're enforcing the Child Welfare Act, guarding against the 12 ways a child may be neglected."

These 12 range from physical abuse to adopting school, he said.

Last year the town contributed $21,307. Bruce Kerr, administrator for the agency, told council this price was going up to to $45,857 in 1974.

Mr. Shoots said that the fee does not pay for family counselling "just standard protection."

Council refused to comment on the situation and called for a caucus meeting with Mr. Kerr. Apparently this meeting has been scheduled for next Monday, following the public session of council.

Mr. Shoots said anywhere from 25 to 40 families were benefitting from the Trenton office which serves an area west of Belleville, as far north as Frankford and south to the Hastings County border.

Councillor Ron Price, representative on the county committee that monitors the service and its costs, could not comment on the increases and the lengthy report that accompanied them.

Former Antique Shop Is Damaged by Fire

Thurlow volunteer firefighters spent nearly two hours fighting a fire that caused an estimated $15,000 damage to an unoccupied house at Foxboro Tuesday night.

The two storey frame home at 387 Main Street, was owned by Ken Cassidy, Foxboro, and George Miller, RR3, Belleville.

A former antique shop, the house was undergoing renovations when the fire started.

"Firefighers said that they believed the fire started in a room containing a furnace in the building's northeast corner.

A neighbor is reported to have heard a small explosion around 8 p.m. and notified firefighters of the fire.

Firefighters said most of the fire damage was confined to the room with the furnace. But heat destroyed building materials stored in the building. Small sections of the walls also caught fire and holes had to be cut with a chain saw to reduce the fire hazard.

Arena Reconstruction Offered Wellington

WELLINGTON — All property and assets of Wellington arena will be offered to Wellington village for the sum of one dollar. This decision was made in a unanimous vote among shareholders of the Wellington Arena Company.

Included in the offer are a total of approximately 132 shares valued at $100 each and all contributions to date in a reconstruction for the arena, destroyed by fire last December.

By voiding the arena's assets the shareholders feel the reconstruction project will become eligible for certain provincial grants that would not be available to a private arena company.

Also, the village would be eligible to save the 12 per cent federal and seven per cent provincial sales taxes on materials. All donations toward the rebuilding fund won't become tax deductible if the village accepts the proposal.

Should the shareholders' offer be accepted by village council arena shareholders will continue their fund drive. Proceeds will be donated to the village.

The offer contains certain conditions ensuring completion of a new arena.

Picton Council Gives $100 To Women's Hockey Team

PICTON — Town council has voted to donate $100 to the Picton Ladies Hockey Team toward purchase of crests for a provincial women's tournament to be held here this weekend.

Linda Wiggins, secretary-treasurer of the Picton team, informed council in a letter this week that the three-day tournament has been held here for the past several years.

About 500 persons are expected to visit Picton on the weekend as 24 teams from around Ontario have entered the event. Business for local merchants and publicity for the town were predicted by Miss Wiggins.

In order that the Picton ladies hockey team will be able to enter the other tournaments throughout Ontario in the coming months, it is necessary that we make available any profits from the Picton tournament," she said.

To achieve this, the team requires assistance in purchase of crests for tournament participants this weekend. Total cost of the crests is estimated at $300.

Suggest More Health Control On Development

MARMORA — The Hastings — Prince Edward Health Unit should exercise more control and inspection of a proposed cottage development on Beaver Creek then it has on some other developments on the waterourse, said members of the Pollution Control Advisory Committee of the Crowe Valley Conservation Authority at a recent meeting.

The committee meeting attended by Marmora reeve Jack Reynolds, discussed water quality in the Marmora area. Some concern was expressed about the effect the proposed cottage development might have on the waterourse upstream.

Downstream the water quality should not be adversely affected by the proposed Marmora sewage treatment plant if engineering is carried out on the treatment plan as directed, Peter Gill, the authority's resources manager said. Mr. Gill said once the sewage treatmeni plant is operating, water quality downstream should improve considerably. This will be in the best interests of the village, the township, the authority, cottagers and resort owners downstream.

Garbage Bid Accepted

MARMORA — A tender for garbage pickup in Marmora township was awarded Bob Ray of Campbellford by the Marmora-Lake council.

Mr. Ray's tender was for $4,420. Only other bid was from George Empey, Marmora, for $6,500.25.

Mr. Ray will start immediately and his contract will run until March 1, 1975.

On the waste disposal site itself, agreement has been reached with Marmora village for the townships to assume sole responsibility for the operation of the site and have agreed to pay $3,500, plus 50 per cent of trenching costs.

Superintendent Albert Leonard will be responsible for supervising maintenance.

Sophiasburg To Study Cemeteries

SOPHIASBURG — Sophiasburg township residents have named a steering committee to study suggested cemetery sites and prepare recommendations for presentation to council.

Committee members include Roy Rosebrough, Dick Williams, Mrs. Wayne Lindsay, Jack Sprague and Gordon Way.

David Shoots Talks Costs

Come to the Fair, See Teeth, Taxidermy

PICTON — Everything from teeth to taxidermy will be displayed this weekend at the annual Limmer Science Fair at Prince Edward Collegiate Institute.

William Boultbee, PECI science department head remarked, that "knowledge of science is increasing and the projects presented exhibit our students' understanding or search for this scientific knowledge."

Because of a recent focus on dental hygiene in Prince Edward elementary schools this year, the science fair will feature several projects concerning teeth.

A taxidermy display entered in last year's fair by two Sophiasburgh township boys will be repeated because of its popularity.

A new entry is an experiment by two pupils at the west end of Bloomfield, showing what life would be if their only oxygen available were produced by one large plant.

Energy problems are topics of several displays planned for the fair, and solar energy, oil production and atomic energy will be outlined.

The science fair—will open this Saturday in PECI's junior cafeteria from 1 p.m. until 4 p.m.

Bancroft Students Are Tops

BANCROFT — A group of high school marketing students here have emerged the top team in Ontario-wide competition.

The group topped entries from all other schools in the province to win the Ontario Business Education Association Marketing Award, says Paull Arklander, marketing instructor at North Hastings High School.

The win includes a $100 cheque and the students involved will receive it at presentation ceremonies in Toronto this Saturday.

The five winning students grades 11 -12 were Valerie Bronson, Robin Lapell, Tom Kelley, Doug Peters, all 17, and Kim Hawley, 16.

Disappointed By Conference

PICTON — Mayor James Bird has told council that he attended the recent Good Roads Convention in Toronto and found it disappointing.

He said that the convention seemed to ignore most of the province's municipalities.

Mayor Bird noted that the theme of the conference offered "great promise" but was concerned primarily with Metropolitan Toronto. He said that he agreed with delegates who argueds hat the rest of the province experiences problems too.

Home Doubled

NAPANEE, Ont. (CP) — James Taylor, Progressive Conservative member of the legislatureof for Prince Edward-Lennox, said Tuesday the government has approved an $850,000 expansion plan that will double the Lennox Home for the Aged to 150 beds from 75.

Police Expanded

NAPANEE, Ont. (CP) — Town council decided Tuesday to hire two constables to expand the six-man police force in this community of 5,000.

Council's decision follows recommendations by the Ontario Police Commission which conducted a study of police services here in 1973.

F. Jack Taylor, author of the police commission report, also recommended establishment of a town police commission to replace the present police committee of council.

Napanee is 25 miles west of Kingston.

Restriction Bylaw Ready

MARMORA — A restricted area bylaw for Marmora-Lake townships should be ready for revising by April 1, a consultant has told the municipality's council.

Marcy Moror, of Totten Sims. Hubicki consultants has discussed the draft with council, which in turn was to review it Wednesday night.

Some 3,000 printed copies will be distributed to property owners who may then raise any objections.

Legal Or Not?

Wolf Bounty Brought Back

MARMORA — If more wolves are hunted in this area in the next few months, they shouldn't howl about it.

Their howling already has brought on a Marmora - Lake township council decision to reinstitute a local wolf bounty for a trial three-month period — even though it may not be allowed by Ontario law.

Reeve Graham Bell proposed the move after telling council he had been awakened on three successive nights by wolves.

The number of wolves in the area is a "source of distress" to both farm livestock and wildlife, said Reeve Bell in an interview Tuesday.

"They've been giving what few deer there are left in the area a rough time. And I don't think there's a rabbit left around here," said Reeve Bell.

Council will pay a $25 bounty for each wolf shot by a resident ratepayer during March, April and May.

In late 1972 the provincial government abolished the wolf bounty in Ontario, and replaced it with legislation compensating farmers for livestock killed by wolves.

Reeve Bell admitted he was not certain if the township was acting "within the legality of things" by introducing its own bounty.

"But it might bring some-thing to a head," he said. "Wolves are all over the place. It's a real problem."

A conservation officer at the Ministry of Natural Resources Tweed District office said the number of deer kills attributed to wolves hasn't appeared any greater in the Marmora area than elsewhere. The number of such reports didn't appear greater than usual, He said dogs running at large are believed more responsible than wolves for killing deer.

There have been no claims since December for livestock losses blamed on wolves in the district's 26 townships, said the official.

In the ministry's neighboring Napanee district, an officer said there are rumors two townships "in the area have instituted bounties and he had heard reports similar action had been taken by municipalities in the Ottawa area.

"But, as far as we're concerned, there's no basis in law for a township instituting a wolf bounty of any kind," he said.

Wilful Damage Cases Bring Guilty Pleas

MACOC — Two Marlbank youths yesterday pleaded guilty to 14 charges of break and enter and two charges of wilful damage when they appeared in provincial court here.

Alvin Gary Deshane, 17, and Carl Ralph Amey, 18, were convicted on charges connected with 14 break-ins at cottages on Stoco Lake.

Additional charges involved damage done to the Marlbank Hotel and damaging Hydro insulators by gunfire Feb. 22.

The youths were remanded in custody, for sentencing Tuesday March 12.

Tells of USSR

Monday evening the Picton Kiwanis met at the Prince Edward Yacht Club and learned about Russian education from Russell Williams, special services co-ordinator, Prince Edward County school board.

Mr. Williams toured the USSR with 1,500 educators from around the world seven years ago.

"Education in Russia is based on the society itself," stated Mr. Williams. "The children are the privileged class of Russia." Early education such as kindergarten and nursery school, is emphasized rather than means of higher education due to the competition involved."

Poachers Sought

MILLSBRIDGE — Wildlife conservation officers are seeking poachers in this area 15 miles north of Madoc who shot a wounded deer fleeing and terrorizing bashland.

The poachers first tried to snare the deer, but were unsuccessful. They then shot at it, but only wounded the animal, said a spokesman at Ministry of Natural Resources Tweed district office.

Patrols have been kept up to catch poachers in the area all winter.

Course of Radicalism

Forecasts of growing militancy among U.S. student radicals that were made back in 1970 have not materialized to any great extent — and the ending of Vietnam war helped to defuse such a trend — but this does not mean that disaffection has been erased, or that outbreaks of one kind or another should not be expected.

The kidnapping of Patricia Hearst and demands for a distribution of food among California's poor, is a straw in the revolutionary wind. So too is the kidnapping of an east coast U.S. editor who later was released.

Black militants, including apparently one or more escaped convicts, are believed involved in Miss Hearst's kidnapping and it is logical to assume that more incidents of the kind can be expected and that law enforcement people, in Canada as well as in the United States, will have to be increasingly on their guard. If, too, as seems obvious ,such militancy is in the nature of further action against the establishment, then those in corporate situations such as the Hearsts and the east coast editor, should beware also.

Consider that in recent days a United States black activist was in Toronto telling a dinner meeting in connection with "Black History Week" that blacks in the city "have to do something about oppression by white Canadians." There were 400 in this audience, a figure that is indicative of the growing black population in Toronto and of the potential for a growing polarization between whites and blacks as a result.

In an Associated Press survey of radicalism in the United States published four years ago it was observed that placard-carrying demonstrators might soon be a thing of the past. Radicals, said the survey, had become disappointed at the failure of their protests and were now turning to more violent means to pursue their ends.

The young were represented in the article as believing their society, or anti-society (and including the hippie and the commune set) "one day will and must replace the older . ." and it was pointed out that the radicals were arming themselves in many cities against the expected showdown with the establishment. By way of confirmation, two young men described as radicals were shown at target practice amid brush country in Berkeley, Calif.

Maybe things will turn out all right and the radicals fade away. As Toronto journalist and broadcaster Gordon Sinclair once said in a letter to The Globe and Mail, he had been a practitioner of gloom and doom so often, and in so many places, that the label Pollyanna (An incurable optimist) attributed to him in connection with the stock market forecasts might be accurate. Just the same, let's not bury our heads in the sand.

Inflation a Non-Issue

British Voters Rejected Heath's Warnings on Economy

By, VINCENT EGAN
Business and Consumer Affairs Analyst
Thomson News Service

If the results of the recent British election teach Canadians anything, it is that voters do not see inflation as being an ogre that must be destroyed.

As if anticipating British public opinion and transferring it to the Canadian scene, Prime Minister Trudeau—on the very day that Britons were voting—was railing against that always handy target of opportunity, big business.

In the speech from the Throne, he noticed it is unidentified "big guy, corporate profiteers and gougers" for taking advantage of inflation.

Right on. But why, after nearly six years in office, has the prime minister done next to nothing, to halt the profiteering and gouging?

As if anticipating British public opinion and transferring it to the Canadian scene, Prime Minister Trudeau—on the very day that Britons were voting—was railing against that always handy target of opportunity, big business.

Right on. But why, after nearly six years in office, has the prime minister done next to nothing, to halt the profiteering and gouging?

And why does he believe that voluntary restraint should apply to the pricing of goods, but not to the pricing of labor (wages) or of government services (taxes)?

British voters were given a clear choice.

The Tories promised to hold the line on inflation and thereby help to rebuild the economy—which sustained a record private deficit of about $800 million in January alone.

The Labor party offered to authorize big wage increases for the union rank and file (increases that Canadian standards) and to worry later—or not at all—about runaway inflation, industrial collapse, and the drying up of international credit.

The vote showed that a substantial proportion of the public cares only about higher wages here and now. As for the future, the British always muddle through, don't they?

In the course of muddling through today's problems, however, Britain will probably drift still further away from its Commonwealth trading partners.

Rising unemployment and prices have already cut consumer spending, and this cutback will be felt even in Canada's exports to the United Kingdom, which are primarily of raw materials.

It's clear that Canada's minority government won't take any drastic cuts about higher wages to curb inflation.

Its estimates for the fiscal year beginning April 1 show that it will continue to pump additional billions of dollars out of taxpayers' pockets and back into the economy.

About two-thirds of the additional $2.4-billion to be spent in the coming fiscal year will go in the form of increased family allowances, old-age security payments and other social services—thus "offsetting" inflation on the one hand while adding to it on the other.

More than $8.8-billion, or nearly one-third of the estimated budgetary expenditures of $28-billion, will be spent by the health and welfare department, whose minister, Marc Lalonde, has been burying himself with the vital task of blocking the establishment of a national dental health franchise initiated by a Tory supporter.

The economic and political impulses of Canadians and Britons are not the same, of course, but paycheck and spending preferences—the party that offers any serious, wide-ranging anti-inflationary proposals could be looking for trouble at the polls.

Environmental Needs

One or two matters which Ontario's new environment minister, William Newman, should keep an eye on, is the progress, if any, of the anti-noise legislation which supposedly is under way at government level.

Noise is something we tend to take for granted, in an increasingly industrialized and mechanized society, and without regard for any rights the individual might have in the way of peace and things are toned down to at least comfortable levels.

We are all familiar in this regard with various "nuisance" noises, from modes of transportation and recreation, both in summer and in winter. These, among other noise-creating agents, are the sort of thing the proposed legislation has in mind.

Another thing is the need to put teeth in measures aimed at removing abandoned cars from around the countryside. And, as an extension of this, the location of car dumps — privately-owned or otherwise — in some cases is a matter for concern.

We can think of a number of vehicle dumps or general purpose dumps (a new one appears to be in operation on Highway 14 near the intersection with the Old Picton Road at Rossmore) around Hastings and Prince Edward counties which are located uncomfortably close to communities or highways which, located as they are, do nothing to enhance the immediate environment or the view of members of the public, whether as near-by residents, or as visitors.

"Mother is glad to do all she can to help conserve energy, but do car headlights really use that much?"

Commons' Class of '68 Hold Their Breath As April and Pension Windfall Draw Near

By RICHARD JACKSON

OTTAWA — Parliament is back in business and for some 50 of its members, "Christmas in April" is only about 52 days away.

Those 50 MPs comprise what is known as "The Class of '68."

They were elected almost six years ago, and if Parliament can bang in there until on or about Friday, April 26, they will be good for a pension for the rest of their lives.

It works this way —

Parliament, in its wisdom — New Democratic MP Stanley Knowles, sometimes known as "The Conscience of the House," termed it a greedy ripoff rather than a decision of the wise—decreed that a member qualifies for a life pension after six years in the Commons.

That six years, for "The Class of '68," will be up, or more correctly, in, next June 25.

Then, with a bang, they will all be in for a basic starting lifetime annual $3,780.

That is the pension part of the bi-zoners — the winners can go on for another Parliament, or as many elections as they may survive, adding each time to the annuity until it reaches a current annual maximum of $13,500 which, can always, still likely will, further increase.

But because the actual election itself must be preceded by a national campaign usually running something like 60 days, the 50 MPs with the six years qualifying them for the pension do not have to await it out until June 25.

Instead, they will be home free on the pension on Friday, April 26, which falls the requisite 60 days on the payroll side of the date.

And April 26 is only 52 days away.

What makes it an especially intriguing gamble is that six of those 50 of "The Class of '68" are New Democratic MPs.

The New Democrats have since the Trudeau government proclaimed defeat only two votes by the fast-charging Conservatives, have been dedicated to the proposition that it is the socialist interest to serve as "loyal and effective" Liberal minority.

Three of the six-year New Dems are from Saskatchewan, two from British Columbia and one from Ontario.

NDP Leader David Lewis has sneered "nonsense" in indignant rebuttal of suggestions that the pension has been — and will be until the "last-ditch" of April 26 — a factor in his party's support of the government.

But he has conceded that there has been "some joking," as he put it, about the possible relation of NDP support for the Government, the six-year pension qualification, and the election timing.

There is no joke, though, to, among others, Norval Horner, Conservative MP for the Saskatchewan riding of Battleford-Kindersley, and a member of the political clan founded a generation ago by the late Senator Ralph Horner, father son of the English-speaking enclave in Western Quebec's Pontiac County.

To Norval Horner, it is for real, that attitude of the parliamentary pension to the New Democratic support of the Liberals.

"Why look at them," he has lectured "all sitting down there like so many pregnant women waiting for their time.

"Of course it's influencing their election thinking. It could mean nothing, or tens of thousands of dollars for them."

Nothing if not an election before April 25.

And thousands if the election comes after that — how many thousand depending on how many Parliaments to which they win re-election."

Okay, how about thousand?

On record, in Hansard, is Stanley Knowles with that:

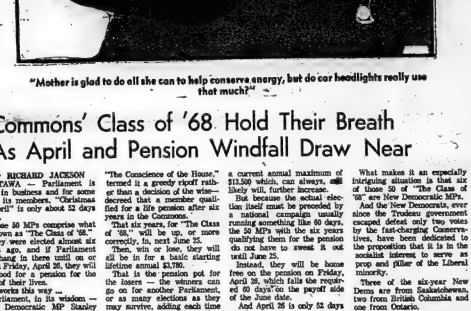
"There are many young men in this House, who given a normal life expectancy of another 35 years would receive about a quarter of a million dollars for serving only six years in the Commons."

He had figured that in those six qualifying years, such a member of "The Class of '68" would contribute only about $10,000 to the Parliamentary Pension Fund.

"Unconscionable," he has termed it, "indefensible."

Legislature Has Fresh Potential

By DON O'HEARN
Queen's Park Bureau
Thomson News Service



TORONTO — In changing the line-up of his government team, Premier Davis at least would seem to have added to his offensive, or batting, strength.

Most of the new men he has added are potentially good hitters.

Leading them all, perhaps, is Frank Miller of Muskoka.

This 47-year-old engineer-businessman, though on the short side and apparently mild at times, has a lot of ginger.

As minister of health he won't

"Mother is glad to do all she can to help conserve energy, but do car headlights really use that much?"

Ostrom's Drug Store which is managed by Charles A. Ostrom, is now celebrating its 7th anniversary and a special sale is now in progress.

Geo. O. Tice conducted a sale for Roy Parliament in Ameliasburg Township. Pure bred cows sold up to $155.; with grade cattle averaging $69 to $70, and horses sold up to $235.

U.S. Foreign Policy: From Dulles to Henry Kissinger

By JOHN D. HARBRON
Foreign Affairs Analyst
Thomson News Service

The radical differences of personality and style of the last two influential U.S. secretaries of state of our time, the late John Foster Dulles and Henry Kissinger, also say how about the different international climate we now live in.

Looking back 20 years it is now unreal to recall the fantastical mission of the fundamentalist Dulles to force the American value system on American allies and enemies alike. His method became a major and abrasive input into his foreign policy-making world.

Whereas Henry Kissinger, the American Jew and miracle-worker who persuaded the fiercely anti-Israeli Syrian government to give him the names of their Israeli prisoners, is the complete antithesis of the arrogant Dulles.

For powerful and influential American secretaries of state who formulated policy largely around their personalities, there could be no two men so opposed in views and methods.

Looking back, it was more than a personal style of the then-U.S. secretary of state which gave support to a tough anti-Communist, even anti-Third World posture, and the state department and the Eisenhower administration.

Dulles functioned and prospered within the intense cold war context of the late 1940s and early 1950s.

At home in the United States, it was the era of Senator Joseph McCarthy and his paranoiac red-baiting of government and the professions. These were the years of the Korean War and the world-wide indoctrination methods of the Soviet-founded and financed World Peace Movement.

Strong American allegiances abroad were made with countries like Franco's Spain, giving him desperately-needed recognition from the free world.

Hearsts' Ordeal

Sympathy From All Sides

Brockville Recorder and Times

There is hope for the human race yet. A great deal of hope.

The outpouring of support for the family of Hearst, and for Mrs. Hearst, Jr., is unprecedented in the sorry history of political blackmail and terrorism in our time.

That support goes beyond mere sympathy for kidnapped Patricia Hearst and her parents — to a flood of cash donations, money from ordinary people, many of them poor, from each man who for all his wealth,

Today In History

By THE CANADIAN PRESS

March 6, 1974

Gee. Santa Ana's forces finally captured the Alamo at San Antonio, Tex., 138 years ago today—in 1836—after 13 days of bitter fighting. No survivors were permitted among the Texans and the victorious attacked the legendary scouts Davy Crockett and Jim Bowie. A month later, Santa Ana was defeated at the battle of San Jacinto and Texas won independence.

1932—The Canadian dollar reached a premium in New York for the first time in 14 years.

1942—Australia ordered men aged up to 60 to enlist for the labor defence corps.

1935—Oliver Wendell Holmes, U.S. jurist and scholar, died, aged 94.

1933—President Roosevelt proclaimed all United States banks closed.

1934—Toronto was incorporated.

still-existing nuclear submarine bases and Strategic Air Command bombers on Spanish soil.

The underlying Dulles' intention was global containment of the U.S.S.R. rather than humanitarian interest in the poor people of Europe or almost anywhere else for that matter.

At their crucial 1954 meeting in Caracas the foreign ministers of the OAS Latin American republics were pushing hard for the kind of basic development bank which they have had since 1960, while Dulles was insisting they first should stop Communist subversion in the hemisphere.

Kissinger's world on the other hand is one where detente, a realistic view of the proximity of the rich and the poor nations through aid and assistance have been a long backdrop to what he is trying to do.

Admittedly the U.S. state department in the Nixon years doesn't seem to look much different than it was under Eisenhower. And yet it is.

Areas of world concern like aid and assistance, augmented by the phenomena in world shortages of food and fuel, the constantly growing population explosion all of which did not concern Americans 20 years ago, all influence Henry Kissinger.

Kissinger has gone abroad to map out ways to talk to warring leaders and peoples, to maintain what might be President Nixon's last chance of history-keeping and widening world peace in his time.

Those who believe a Dulles had to come before a Kissinger and with him the arms build-up to counter the Russians whose present armaments are larger, immensely more sophisticated than they were in 1900, might be right too.

Kissinger might not have been born in his time, at the level of continued detente and closed world in the vast costly and perpetual U.S. military deterrent had not been secured in the first place.

Bible Digest

By H. S. DEAN

"And many other signs truly did Jesus in the presence of his disciples, which are not written in this book: But these are written, that ye might believe that Jesus is the Christ, the Son of God; and that believing ye might have life through his name." John 20:30, 31

All of life and eternity to follow hinges on what we believe and do about Jesus Christ. "He that believeth on the Son hath life, he that believeth not the Son shall not see life but the wrath of God abideth on him."

Doctors Differ On Sudbury Death

SUDBURY (CP) — A Toronto anesthetist said Tuesday there must have been an unknown factor contributing to the oxygen starvation of a three-year-old Sudbury-area boy last Aug. 8.

Dr. David Pelton of the Hospital for Sick Children, Toronto, was testifying before a coroner's jury examining the death of Richard Lagrandeur of nearby Nickel Centre and 22 other patients at Sudbury General Hospital last year.

"There had to be some other reason for anoxia," said Dr. Pelton of the sudden deterioration in the condition of the boy shortly after his arrival at the hospital.

The child apparently fell off the end of a dock at a camp near Noelville, 50 miles southeast of here, into about four feet of water.

Raymond Lagrandeur, 27, testified Monday his son was in Bear Lake for between two and three minutes before he was rescued and mouth-to-mouth resuscitation applied.

Mr. Lagrandeur, an ambulance attendant and a provincial police constable, all said Monday they felt the boy was out of danger.

Dr. Pelton, who gave two hours of testimony, said that in his opinion, the boy's chances of survival at the time he arrived at the hospital's emergency department "were relatively good."

He said the child's symptoms during administration of medical gas from an oxygen wall outlet in the emergency treatment room were consistent with the application of 100 per cent nitrous oxide.

The same outlet was found to be emitting the gas six weeks later on Sept. 19, cartier testimony disclosed.

"I can't explain the sudden abrupt change in this patient's condition" 20 minutes after his arrival in the emergency ward, Dr. Pelton said.

"You just wouldn't expect it (the rapid deterioration) if oxygen was being delivered to the patient. There would be a question mark in my mind."

Dr. Pelton was the 11th and final witness to appear in the investigation of the Lagrandeur death. An inquest into the death last September of 75-year-old Cory St. Pierre begins today.

Dr. Ford Dixon of Sudbury, a specialist in pediatrics, testified earlier Tuesday that it was possible the youngster was given nitrous oxide instead of oxygen, "but not likely."

He said it is not unusual for a drowning victim to display serious effects an hour after an initial improvement in condition.

"One always expects it," he said. "It is probably due to destruction of brain cells due to the previous anoxia."

The coroner in the boy's death, Dr. Marcel Prevost, told the inquiry he did not order an inquest because he concluded the youngster was a drowning victim.

Code of Family Law Objective of Davis

TORONTO (CP) — The Ontario government promulgated a new deal for women in the speech from the throne Tuesday.

"The ultimate objective is a code of family law with special attention to the status of women and for the provision of a legal framework that will strengthen the family unit in our society," the speech said.

In addition,Premier William Davis promised to create a new office for women government employees to improve personnel administration and hiring practices.

A legislative program would be introduced "ensuring that family law in Ontario reflects today's social and economic realities," said the speech.

Attention would also be given to clarifying the legal rights of married persons.

The government proposed a review of "legislative and common-law rules affecting the family as an institution in such matters as occupational and property rights in the home and laws concerning children."

Blakeney Comments

Interim Solution On Oil Possible

OTTAWA (CP) Permanent settlement is nowhere in sight, but Ottawa and the West might work out an interim solution on oil prices before March 31, Saskatchewan Premier Allan Blakeney said Tuesday.

"We had a long discussion," he said after a two-hour private meeting with Prime Minister Trudeau. "We may be able to work out something that would tide us over until a permanent arrangement can be found.

"The prospects are certainly better than they were two months ago."

The meeting, which followed similar talks Monday between Mr. Trudeau and Alberta Premier Peter Lougheed, came with less than a month to go before the March 31 deadline for reaching either an interim or permanent national oil price policy.

After that date, a voluntary national price freeze on petroleum products is lifted and the two western provinces have oil price legislation of their own ready to use.

Mr. Blakeney said before the meeting Tuesday that there is no hope of a permanent price settlement before March 31 because oil is linked too closely with longstanding western economic complaints that will require lengthy negotiation.

Mr. Trudeau and the 10 premiers agreed in January to try to settle on a national one-price policy before the end of the freeze. But Premier Blakeney said Tuesday there was no commitment by the provinces to accept a solution by March 31.

"It comes as a surprise to me for anyone to suggest that there was ever going to be an agreement."

Conservative Motion Defeated

OTTAWA (CP) — Despite universal opposition criticism of its economic-policies, the minority Liberal government Tuesday night fought off the second non-confidence motion since the new parliamentary session began last Wednesday.

The New Democratic Party, true to its promise to support the Liberals at least temporarily, voted against the Progressive Conservative motion, giving the government a 129-to-109 margin of support.

The NDP voting pattern has not had much effect on its criticism of government handling of rising prices of food, petroleum and other commodities.

Before Tuesday's vote, Finance Minister John Turner admitted that inflation is Canada's most economic problem but said it is caused by world-wide commodity price increases.

He boasted that the Canadian economy "is the envy of the world."

A real economic growth rate of 7.1 per cent in 1973 was "the greatest expansion Canada has experienced in 17 years" and helped to create 630,000 new jobs. This had brought the average unemployment rate down to 5.6 per cent from 6.3 per cent in 1973.

FRASER & O'NEILL LIMITED REALTOR

Davis Asks More Say On Candu

TORONTO (CP) — Premier William Davis indicated Tuesday that Ontario wants more to say about the development of provincial uranium resources.

Mr. Davis told a news conference later Ontario has no quarrel with the constitutional right of the federal government to control the "strategic uses" of uranium.

"What we are looking for and what we will be putting before the house is the policy regarding the further development of uranium and its utilization for other than strategic purposes."

Mr. Davis referred to the Candu nuclear reactor—a Canadian-designed system which the province hopes to sell elsewhere.

Mr. Davis said if there is any export potential for the Candu reactor, it should be the responsibility of the province.

"We have the expertise, we have the experience and we think we can do a fairly credible job."

Pages Missed

TORONTO (CP) — Lt.-Gov. W. Ross Macdonald missed three pages when he read the 19-page speech from the throne in the Ontario legislature Tuesday.

An aide to the 82-year-old Mr. Macdonald, performing his last official function as lieutenant-governor, said he inadvertently skipped the pages as he turned over the sheets.

Next month, Pauline McGibbon, chancellor of the University of Toronto, takes over as Ontario's 22nd lieutenant-governor.

Conservative General Leads Guatemala Vote

GUATEMALA CITY (AP) — Retired general Kjell Laugerud Garcia appears certain to be the next president of Guatemala.

With 60 per cent of the returns from Sunday's election in, the electoral commission reported 167,575 votes for Laugerud Garcia, the conservative government candidate; 118,028 for another retired general, Ezequiel Ydigoras Fuentes, and 96,323 for retired colonel Ernesto Pais Morales of the centrist Revolutionary party.

Since Laugerud Garcia did not get a majority, Congress will decide in the next two weeks between him and Rios Montt. Congress is controlled by the two conservative parties that backed Laugerud Garcia.

Ann Landers

Tell Your Friend Her Teeth Slip

Dear Ann Landers: I work with a delightful lady. She's good-natured and attractive-except for one thing. Her dentures.

When she smiles, she exposes about two inches of upper gum. Her dentures often slip when she speaks, and recently I was scared to death they would fall right out at an office party.

I asked my dentist how a person could be unaware of such a thing. He said, "When the tissue shrinks, as it is bound to do with age, the dentures ought to be replaced. Some people don't know this." Should I tell my friend to get new dentures or keep quiet and not risk offending her?—Trading Lightly

Dear T.L.: Do her a favor. Tell her.

Dear Ann Landers: This letter is for the woman who complained because her husband grabbed at her all the time. Made suggestive remarks in front of the children, and so on. She felt such behavior should be kept in the bedroom. My guest sexton, a lonely man who lost his wife and has no children. The job is his whole life.

He hangs around after working hours, won't leave and is a great talker. The fellow is good-hearted and well-liked, but his nose is in everything. When parishioners come to see me to set ts in my office and they won't talk in front of him.

I've asked him to please go home after work and not hang around. He says, "I'm sorry, You're right," pouts for a few days and then it's the same old story.

My secretary has threatened to quit. My wife is fed up, and so am I. But I'm afraid to fire him because he has so many friends. Can you offer some advice before we all quit and leave him to run the place?—Stymied

Dear Reverend S.: Give the lonely guy one more warning. Either he leaves the church at quitting time or he's fired. Then, do it. And, if the congregation would rather have him than you, let him run the place.

Dear Ann Landers: I'm a minister in a southern town. People are supposed to come to me for advice and here I am writing to Ann Landers. Incredible!

I took this job five years ago. With the job came a 60-year-old

Quinte Women

Violet McCrystal, Bowling Supervisor

For the past eight years, the only place to find Violet McCrystal on a Saturday between 10 a.m. and 4 p.m. has been at the Bowlodrome bowling alley.

Bowling? No, although she loves the game and bowls at other times.

She's at the Bowlodrome to supervise the weekly games for the members of the National Youth Bowling Council.

In Belleville there are 168 members between the ages of six and 20 who belong to six leagues, ranging from beginners to bantams, juniors and seniors.

Mrs. McCrystal first got involved in this volunteer work when she began helping her son who was active in the organization. When he left, she took over.

"I just haven't been able to stop since," she says. "I feel now as if the kids are depending on me."

Mrs. McCrystal's work includes Saturday supervision, along with personal instruction and team coaching.

"It is not a trained instructor," she says, "but I help the kids who need help. I treat them all as individuals, and that's one of the reasons we all get along so well.

"Of course, I enjoy working with people of all ages."

Mrs. McCrystal is assisted on Saturdays by interested parents and the Bowlodrome's owner Bill Bateman and Bob Lindo.

During the week, her work consists of organizing the local tournaments that lead to regional, provincial and national championship tournaments. She keeps the score sheets and records, and handles the prize money (ten cents per member per week) that goes to buy trophies.

"Unlike some team sports, bowling costs very little," Mrs. McCrystal says. "Our annual fee is only $1.50. This goes to the YBC national headquarters, to be used for championship scholarships."

Winners never receive cash at tournaments, they are awarded scholarships for further education.

"Besides the fact that bowling is fun this organization is really worthwhile."

Mrs. McCrystal hopes to raise enough money by raffles for an end-of-season banquet for her bowlers.

"They deserve a reward, every one of them," she says.

And what's her reward for the hours and hours of free time she spends on this project?

"Well, I see the teams getting better every year," she says. "We may make the national championship games soon."

Positive Dream

KELOWNA, B.C. (CP) — Salish Indian Mary Thomas dreamt for the day when white people have a better, more positive view of Indians and Indians themselves have a greater pride in their heritage. An expert in beading and basket weaving, Mrs. Thomas at times has as many as 35 Indian and non-Indian youngsters crowded into her home to learn Indian crafts and listen to legends.

PREVENT CURDLING

To prevent curdling when making custards, mix sugar with an egg, add hot liquid a little at a time and cook over hot, but not boiling, water.

Clouds Have Silver Linings For Canadians in Brussels

BRUSSELS (CP) — For Canadian housewives living in Brussels, life is a mixture of novel annoyances and gratifying discoveries.

Against the transparition of houses that lack built-in cupboards or adequate plumbing, there is the delight of sharing Belgium's fanatical devotion to good food.

For every worry about children burdened with schoolwork far heavier than that imposed in Canada, there is the satisfaction of knowing the youngsters will emerge with extra languages and a cosmopolitan, range of knowledge and friendships.

And compensating for the possible loneliness of the first weeks in a strange country and the apparently aloof formality of the natives is the satisfaction of eventually penetrating fresh circles of neighborliness and the stimulating multi-national atmosphere of this cross-roads country of the new Europe.

But all this doesn't retain the interest of housewives on Atlantic shed their Canadianism.

"I feel much more Canadian since I came here," said Mrs. Roch Bélanger of Trois-Rivieres, Que., who has lived in Brussels with her banker husband for more than two years.

And Mrs. George De Mare, who was born in MacGregor, Man., and came here with her then professor husband 7½ years ago, finds that Canadians are especially popular in Europe.

"Wearing a maple leaf does help so terribly much," she told a reporter who interviewed members of the Canadian Women's Club of Belgium.

Once the ice of social formality is broken, Belgians enjoy the casual style of entertainment of Canadian hostesses.

Having guests for dinner in Belgium usually calls for a three-hour invitation rather than the verbal "come on over" approach of North America, said Mrs. Paul Mattsman, whose Swiss-born husband is managing director of an oil company in Belgium.

But she has its advantages since "your guests arrive with flowers or chocolates or cake or occasionally wine."

If the Belgians do come emphasized, they are sure to send flowers to their hostess next day, Mrs. Mattsman added.

Mrs. William Bannerman of Bathurst, N.B., now 10 years in Brussels, described entertaining by Belgians as involving a dinner with all the trimmings rather than a North American barbecue.

Mrs. Mattsman, born in Regina and here since 1958, remarked that children in Belgian schools have to work much harder than in Canada.

And Mrs. St. Jacques said: "Our kids are missing being children here. There's no time for a child to be a child."

The hard work, however, pays dividends, especially with the children of Anglo-phone parents emerging fluent in French and possibly Flemish.

Mrs. De Mare said she was extremely pleased with the progress of her three children in a Belgian private school.

"The children-teacher contact is very close," she said. "We have fewer problems than we'd probably have at home."

Nevertheless it is difficult for an English-speaking Canadian child to adjust if he enters school later than the local equivalent of the kindergarten stage.

Sometimes the Anglophones worry that their youngsters may not be getting enough childhood English instruction, vital for resuming life back in North America.

Consumers' Association Increases Size and Power

TORONTO CP—In a sense, government gave birth to consumerism, left it to paddle bravely around on its own for 35 years, and now is acknowledging its responsibilities by lending a hand.

Mayron Brechin, president of the Consumers' Association of Canada CAC, said it began 37 years ago with the support of 35 women's organizations, as an off-shoot of the women's section of the wartime prices and trade boards.

"When the CAC began our concentration was on food." Some of its most publicized efforts still are concentrated on food.

"We got standards on mixed nuts, a small thing, but we got them in only a year. We've never had results that fast. It took us longer to get the sizing off of bacon packages."

But Mrs. Brechin bristles at any suggestion that the organization is preoccupied with trivia.

"I don't consider credit legislation and invasion of privacy trivial issues, and we have been involved in both." The CAC works in several ways. It values the efforts of its 110,000 volunteer members doing local work or making part of a collective voice.

Small consumer action committees are formed around particular issues. One in Kelowna, B.C., is studying the lack of availability of homegrown produce and working to change things. A Quebec committee got its community's water supply standards and treatment improved.

At the same time, the organization is working with the government and with professionals on more complex problems less easily handled by volunteers.

"We are working with government on how consumers can have a greater say in how health care needs should be met. We'd like a sort of bill of rights in health care.

"These to me are big, basic issues, with areas like agriculture and banking. I think the bills we propose do come out because they're eye-catching, sexy. It's much harder to remember the long, hard slogging that goes into getting an improvement in health service.

"Two of her pet programs at present are advocacy and class action. One of the ways the federal government has helped recently is in giving the CAC a $100,000 grant to begin its advocacy work, to go before courts and regulatory bodies on behalf of the consumer.

"So far we have opposed an Ontario Hydro application to bring in dirty coal, develop power in Ontario and export it to the States. We lost that and are considering an appeal.

"We have presented a submission on proposed Ontario warranties legislation that will "be a piece-setting legislation.

"We've been trying to get into it for years. It's terribly costly. We go after what we can afford and where we think the biggest gains seem possible.

"The legislation is improved. People are beginning to feel the consumer's voice must be heard before regulatory bodies. There are all sorts of laws and regulations that haven't been tested.

"Next year we're hoping to get into class action. That is an action on behalf of a group of people with similar complaints. There is no law in Canada that allows it, but there is one that specifically disallows it.

"There have been two cases in B.C. One protested excessive connection fees by the power company, and everyone who paid the fee got a refund."

The largest was in which the government has acknowledged consumerism, of course, was in the formation of the federal department of consumer and corporate affairs.

She said she believes the government will respond to consumer appeals and that it can force change in the marketplace when changes does not come voluntarily.

Mrs. Brechin said she thinks consumerism has grown for the same reason other kinds of volunteer action activities have increased.

"Citizen groups and consumer groups are all stemming from the same root cause. They represent a revolt against powerlessness."

TEST EGGS

To test for hard-cooked eggs, tap a tiny hole in the shell, insert a toothpick into the centre of the yolk and if wet when withdrawn, cook the eggs longer.

QUINTE MALL — BELLEVILLE — 968-3477

Company Coming? Try Our $1 a Person Gourmet Dinner

In spite of rising food costs you can entertain elegantly at dinner as long as imagination and forethought — and a willingness to misplace labor for cash — are some main ingredients.

Think about, for example, this menu:

Quiche Lorraine
Chicken Boulgiugnon
Asparagus Vinaigrette
Tarbes Torte

You can put it together for eight persons for just under $1 per person.

You can add wine to the dinner for an additional 28 to 64 cents depending on the type and quantity you chose to serve.

For two 3 ounce glasses per person and some for the bon-vivants, buy Paetzold by Calona of British Columbia for $1.50 per 26 ounce bottle. It's a fairly dry red wine that will add 38 cents per person to your total cost.*

For a sweeter wine, though still in the medium class, try Bright's Blue Seibel at $1.75 per bottle.

If you wish to cut costs even further, and think your guests might be satisfied with one four-ounce glass of a dry red wine, buy LCBO No. 1146,B, a Hungarian wine. It costs $2.30 or 28 cents per person.

Besides normal staples, you will need to buy 1½ dozen eggs, ¾ lb. bacon; ¼ lb. swiss cheese; eight large chicken breasts; ½ lb. mushrooms; one lb. tiny onions; lettuce; broad noodles; two bags, frozen asparagus or two lbs. fresh asparagus if available; one lb. sweet butter; one can concentrated consomme.

The first course, quiche lorraine, may be eaten out of hand as tarts for a hot appetizer before guests are seated or may be prepared as a traditional quiche and served in wedges at the table.

QUICHE LORRAINE
five eggs
1½ cups milk
¼ tsp. nutmeg
½ tsp. pepper
½ lb. bacon
one cup shredded swiss cheese

Preheat oven to 400 degrees. Fry bacon crisply; drain. Beat eggs in a large bowl. Beat in milk, nutmeg and pepper until well blended. Crumble bacon and sprinkle in 10 individual tart shells (uncooked) or an uncooked quiche or pie shell. Sprinkle cheese over bacon. Pour in egg mix carefully. Place in oven and reduce heat to 375 degrees immediately. Bake 35 minutes for large quiche, about 15 for small tarts. Remove from oven and allow to cool on wire rack for at least 10 minutes before serving.

Chicken Bourgiugnon, served with buttered broad noodles, is a rich, filling dish and requires only one large chicken breast per person.

CHICKEN BOURGIUGNON
Saute chicken breasts gently in melted clarified butter, browning gradually. Cook for a total of 30 minutes. Meanwhile, saute 16 small onions, 16 large mushroom caps and ¼ lb. bacon which you have cut in large dice.

Add to chicken when the onions are golden but not brown. Cook five additional minutes. Meanwhile, from concentrated consomme, butter and flour, make a rich brown sauce.

Remove chickens and vegetables from skillet to heated platter. Keep warm in oven.

Add ¼ cup red wine and one clove crushed garlic. Boil hard one minute. Remove garlic clove. Add one cup rich brown sauce. Serve over chicken and accompaniments.

Salad: In this case asparagus vinaigrette, should be served after the main course without wine.

ASPARAGUS VINAIGRETTE
slender stalks of asparagus, partially cooked
one clove garlic
½ tsp. salt
¼ tsp. pepper
one tsp. oregano.
½ tsp. mustard
2½ tbsp. cider vinegar
½ cup oil

Lay asparagus in a shallow dish which can be covered. Combine remaining ingredients and pour over. Cover tightly and refrigerate for three hours. Serve on a bed of lettuce.

Gourmet dinner Take 4 indent jon

This classic Hungarian eight-layer torte is not quick or easy and must be made the day before you wish to serve it.

Debosh Torte
four eggs
pinch salt
¼ cup sugar
½ tsp. vanilla
¾ cup sifted cornstarch
½ cup sifted flour

Preheat oven to 350 degrees. Grease two cookie sheets very well. Line with wax paper. Grease very well on four lightly.

Separate eggs. Beat the egg whites until they hold soft peaks. Gradually beat in sugar and beat until the whites are stiff. Add vanilla to egg yolks which you have stirred. Stir in some of whites and pour egg yolk mix back onto stiffly beaten whites. Sprinkle with cornstarch and flour. Set electric mixer on lowest speed and fold all together very briefly, taking great care not to overmix. Spread this batter very evenly in the cookie sheets no more than ¼ inch thick. This will take some time and effort. Bake, watching constantly, about 10 minutes until it begins to brown on bottom. Quickly remove from oven one at a time, turning out of pan and peeling wax paper off carefully. Return to pan to keep warm. Working quickly, cut the sheets into four pieces, four inches by 11 inches each. Let cool on racks. If any break, they may be pieced together.

Butter Cream
six egg yolks
six tbsp sugar
1 ½ tsp vanilla
1 ½ to 2 cups sweet butter
4 tbsp sifted cocoa

Keep half of the butter soft and the rest cold and firm but not hard. Place egg yolks, sugar and vanilla into blender container. Blend for three minutes, adding soft butter gradually. Then add enough firm butter to make a thick cream. Add cocoa. If the butter cream softens after adding the cocoa, simply refrigerate until the desire consistency is reached.

To assemble cake: Using 1 ½ cups of the 2 ½ cups of butter cream, spread each layer with butter cream until you have seven layers of cake and seven of butter cream. Refrigerate, reserving one layer separately.

Using ¼ cup sugar and one tsp. lemon juice, make a caramel by melting the sugar and juice in a heavy skillet over a low heat until it turns golden brown. Be careful not to burn. Place the last cake layer on large sheet of wax paper and working quickly, spread the layer with the caramel. Using a buttered knife, mark the caramel covered layer into eight slices to facilitate cutting later.

Place top layer on cake and frost sides and decorate top with remaining butter cream. Cover lightly and refrigerate at least 24 hours.

She Has Wonderful Spirit

By DORIS CLARK

Dear Doris: Last week I had a letter from your friend Henry Viscardi. He is sending one of his books for me to take to Janice, my granddaughter who lost her hand. It is lovely to find that complete strangers really care and I was touched to hear from him.

Now, about Janice: She is coming along wonderfully well after the accident. Her many broken bones have knitted and she can walk without help. She had a broken hip and badly fractured pelvis. We feel it is nothing but a miracle, the way she has mended.

Right now she has three huge pins in the shoulder of her "little arm" as she fondly calls it; and last week they did a levelling off of the stump. The nerves in her arm were injured. I believe these pins are to help that situation and aid in the functioning of her artificial arm. She will be in hospital another two months and has already been there for three.

Her spirits are amazing and she has a great sense of humor, and loves to imitate. The last time I was there a visitor in the ward said: "It's a switch when the patient entertains visitors."

Gratefully-To You.

Dear Grateful: Henry Viscardi is one of the great people of the world. Never fails to respond to an S.O.S.; and reaches out in love, telling his own story to desperate early years without legs and encouraging others to rise above their handicaps, when disaster has hit them hard.

Your Janice must have a wonderful spirit of her own. Perhaps her job will be to give a lift to others who have lost a limb or a hand, by showing them how she manages, and by her own blessed attitude to life.

Dear Doris: My older daughter (21) has been going steady with a very nice young fellow over a year now. My worry is holidays.

She seems to think it is fine for them to go on holidays together. Last year they went up to Black Cky-alone. I didn't really approve of it, but as she put it to me, her morals are as high as mine.

That is all very well, but I don't know how I would act, for sure, if that opportunity came up when I was dating! She says they took separate motels, and thank God everything did go well.

Holidays will be coming up again soon. They are saving up and would like each other's company. But I sure don't think it is right.

I have my second girl (16) coming along and I really want to have them going in the right direction. Other than this they have given me very little concern.

Worried-Not For Thought.

Dear Thought: This is a tough one, and it is coming up often. I gather your girl is a responsible, helpful person, and you don't want to spoil her fun. Besides, she is now of age and her decisions are her own to live with.

But it is nigh sight for you to let her know, in definite language, that while their travels may be perfectly innocent from their point of view, others are apt to assume the worst. Her reputation is at stake.

How much does her reputation mean to her?

(Longer, fuller replies went privately to those correspondents who enclosed a stamped, self-addressed envelope. Address your letter to Doris in care of this newspaper.)

Jewish Factions at Odds Over Just Who Is a Jew

NEW YORK (AP) — That a Jew?" is crackling again in Israel and among the world's adherents of Judaism.

The issue threatens the stability of Israel's government at a time of critical peace negotiations, and it also rifles the relationships and divides the voice of Jews in America.

"It's a gut issue," said Rabbi Louis Bernstein, president of the Rabbinical Council of America, representing about 1,000 Orthodox rabbis, in challenging the views of the Reform and Conservative wings of Judaism.

"On all else there can be compromise and accommodation, but on this issue there can be no accommodation," he said. "In this, the Orthodox cannot retreat."

However, Reform and Conservative branches, representing a total of 2,200 American and Canadian rabbis, said the Orthodox insistence on a single, unilateral position endangers Jewish unity and is counter to its tradition of variety.

"The real issue is the Jewish principle of diversity," said Rabbi Wolfe Kelman, executive secretary of the Rabbinical Assembly, the Conservative clergy organization.

"In Judaism, there is no hierarchical monopoly, but rather a recognition of the authority of the rabbi accepted in each community. It is unprecedented in Judaism to seek any monolithic domination.

He cited the olden Jewish concept of a rabbi as "mara d'atra" — a "master of the community" he leads.

What aroused the controversy was the current demand by Israel's National Religious party to expand requirements for designating an Immigrant a "Jew" eligible for full citizenship under Israel's law of return.

The present law defines a Jew as a "person who is born of a Jewish mother or who has converted." The Orthodox party wants to specify further that the conversion be according to "halacha"—the ritual code of ancient Jewish scripture.

In effect, this would limit recognition only to conversions under Orthodox auspices and cast aspersions on the legitimacy of conversions under non-Orthodox rabbis, the Reform and Conservative groups say.

They add this would be an "affront" to most of the world's Jews, who are non-Orthodox, and would "endanger Jewish unity at a time when that unity is needed more than ever."

The issue took on sharpened focus as a result of Israel's recent elections which gave the National Religious party pivotal bargaining power in efforts to form a coalition parliamentary majority.

Rabbi Kelman said "what is at stake here is the right of return" for converts outside Israel, since most conversions take place under supervision of Reform or Conservative rabbis.

The ancient halacha provides that converts be circumcised, accept all ritual laws of the Torah (the first five books of the Bible) and undergo a "mikveh," a ritual immersion or form of Jewish baptism.

Rabbi Kelman said conversions under Conservative auspices adhere substantially to the ancient ritual codes, and so do those in some Reform communities, while others vary.

Most Reform and Conservative rabbis also require courses of instruction of six months or longer.

"The real anomaly is that it's not a question of what is done but who does it," Rabbi Kelman said, noting that Orthodox Judaism—the only officially authorized rabbinate in Israel—does not recognize the authority of non-Orthodox rabbis.

"We aren't arguing about the rights of Israel's rabbis in Israel, but we also have rights," he said.

On the other hand, Orthodox Rabbi Bernstein insisted Judaism must "operate in a framework of law"- to preserve its unity. He said Orthodoxy recognizes conversions in other branches if found proper by Orthodox standards, but added:

"It is they who have broken the ancient Jewish tradition with wide deviations from Jewish religious law."

People Robbed

DAWSONCREEK, B.C. (CP) — Dave Leopky is chairman of a secessionist group in this northwestern British Columbia community. "Basically, we're people who feel the B.C. Peace Country is being robbed," said Mr. Leopky, a former gold-keeper in the South Peace Hockey League. He claims that for every $7 in taxes the B.C. government takes out of the region it puts less than $1 back in services.

Church-State Confrontation Develops in South Africa

JOHANNESBURG (Reuter) — South Africa is in the throes of one of its periodic church-state confrontations, and this one appears to be growing steadily more grave.

The most visible manifestation of deteriorating relations has been a government crackdown on dissident priests and their lay associates through banning orders, deportations and passport removals.

And with the important exception of the Dutch Reformed Church, which generally backs the government, the ecclesiastical response has been fierce.

When a five-year banning order was served recently on Dr. Manas Buthelezi, a leading African theologian, the South African Council of Churches—which groups most major denominations apart from the Dutch Reformed—warned that the government was creating hostility and deep resentment among the black people of the country.

When a deportation order was served on Eoin O'Leary, an Irishman on the staff of a church-backed study centre, the council charged the move was "an interference in the right of the church to conduct its affairs in the way it sees fit."

Relations between church and state here have long been tense and the current clash is in some respects only a particularly bitter example of the mutual distrust that has existed since the 19th century.

Clergymen advocating Christian brotherhood without regard to color, have repeatedly come into conflict with the racial views of successive governments—views which have found their ultimate expression in the apartheid ideology, the total separation of the races.

Since apartheid was introduced in 1948 the church has produced some of the system's most vocal critics, but the present state of relations with the government is causing particular concern to clergymen.

The South African Council of Churches plans to make representation to Prime Minister John Vorster. The council says it is worried about "the many disturbing elements emerging in the life of South Africa."

Many of these "disturbing elements" centre on the work of a controversial parliamentary inquiry, the Schlebusch commission, which is probing the Institute of Race Relations and the Christian Institute, an alliance of progressive clergymen totally opposed to apartheid.

The commission, set up to look into state security, hears all its evidence in secret and one of its initial investigations, into the National Union of South African Students (NUSAS), led to the banning of eight leaders of this organization last April.

There is a possibility that similar action—which usually restricts the person banned to his home magisterial district and prevents him from attending gatherings or from being quoted—may follow from the investigations into the race relations institute and the Christian institute.

Already 13 people connected with both organisations have refused to testify before the Schlebusch commission as a protest against its extra-judicial methods and their harsh results.

Four members of the Christian Institute have had their passports removed following their refusal to testify.

But perhaps the greatest blow to the church has been the banning of Dr. Buthelezi, the Christian institute's regional director in Natal and a cousin of Chief Gatsha Buthelezi, outspoken leader of the Kwazulu African homeland.

His banning order, for which no official reason was given, prohibits him from attending social, political or educational gatherings for five years and from instructing or teaching students.

The banning of D. Buthelezi can be seen as part of a government crackdown on proponents of a new black consciousness movement which has emerged over the past two years as one of the more important new developments in South African politics. It is a development which church organizations are actively encouraging.

A research organization called the Study Project on Christianity in an Apartheid Society, set up jointly by the Christian institute and the South African Council of Churches, began producing a series of highly critical analyses of apartheid and now has moved on to a second stage of activity. One of its main achievements has been the establishment of an organization called the Black Communities Progress.

Montreal Man Selected New UCS Administrator

By AL EARAS
Staff Reporter

United Community Services directors gave their stamp of approval Tuesday to hire a Montreal man for the $18,000 administrative post raised post vacant since the resignation of former executive director Isidore Cooperman seven months ago.

Release of his name and qualifications hinges upon his submission of a two-month resignation notice to his present employer.

Due to ethical commitments, he is unable to leave his present post till after April 30, and, possibly, several weeks thereafter.

In a motion carried unanimously by the UCS board of directors Tuesday, the 45-year-old Montreal resident is hired without contract. Directors agreed he should be hired on an ongoing basis with a two-month notice of employment, termination sufficient for both the agency and the administrator.

The agency will pay certain employee benefits, permit a monthly vacation, and pay moving expenses to an upper limit of $750. Mention of an expense account was not made in the motion.

His salary would be reviewed on the anniversary date of his engagement as the only paid professional staff member of the agency. Directors are hopeful he can assume his duties in Belleville by May 1.

Newly elected board president Virginia O'Rourke said his experience over the past 22 years has mainly been as a fund raiser. He also has a background in the "delivery of service in social agencies." He holds a bachelor of arts degree from Sir George Williams University in Montreal.

The president is to officially inform the candidate of his acceptability by telephone today.

The board's action yesterday formally affirmed its own selection of the man in early February. At that time, neither salary, name, nor resignation of the successful candidate of the two interviewed was released. Personnel committee chairman Merlin Hamelink.

Prior to the making of the final selection, the committee had received 26 applications for the position, redefined as one with more responsibility than that of an executive director.

Seven (7) applicants were interviewed. Subsequently, the committee made a final selection of those it considered to be the top three candidates for the job. These people were recommended to the full board.

An interview date was set up in early February at which time one candidate became unavailable. Of the two remaining candidates the board interviewed, one was from Belleville.

The agency has been without paid professional staff since Mr. Cooperman's July resignation amid a storm of controversy. At the same meeting the board accepted his resignation, it acclaimed the personnel committee with instructions to search for a replacement.

Prior to official approval yesterday, returning treasurer Hibrold Mason told the board money has been made available in the 1974 budget for the man's salary. Mr. Mason said the budget projection does not include the $12,000 grant applied for at city council.

Any grant would be applied to the agency's over-all expenses and not be specifically slated for the payment of an administrator's salary.

Mrs. O'Rourke cautioned the board not to expect council to "simply write a cheque." However, she felt a UCS-city hall caucus meeting in early February indicated council's "sincere support and willingness to co-operate."

"Nothing is yet definite and anything can happen."

The agency will know the outcome of its grant application when the city budget is struck later this year, she said.

Cheshire Home Residents Move In

First Three in Cheshire Home

Belleville's Cheshire Home for handicapped young adults has just installed its first three residents in the old Victorian house on John St.

The three, a woman and two men, and the director, Mrs. Irenee Sanson, are sharing the house with workmen who are still renovating and decorating. The elevator has yet to be installed, so the second floor is still unoccupied.

The first three, Cheryl Sullivan from West Lake Nursing Home, Peter Ramsay from Madoc and Jeff York from Picton are the pioneers.

"The first residents need a special spirit to set the mood of the home," says Mrs. Sanson.

After three weeks in residence, they will return to their former homes for a two-week decision-making period. If they still want to become permanent residents, they will return to the Cheshire home for the rest of their lives.

Every future resident will go through the same process, but the permanent residents will have the option of rejecting the newcomer if they think he or she won't be compatible.

The first three residents are settling in nicely.

"For the first time in their lives they have an opportunity, and they're grasping it with both hands," says the director.

The two boys are attending BCI next door, and Miss Sullivan is learning how to take over most of the cooking.

Mrs. Sanson is responsible for administration of the home, but she hopes the residents will assume the basic work when the house is operating at full capacity. She sees her main tasks as one of motivating the residents to become as independent as possible through full use of educational and vocational facilities available in the home and the community.

"The people haven't had the normal experiences of childhood," she says of the three residents. "A person in a wheelchair can't even go in the corner store, the way the curbs are constructed in this city."

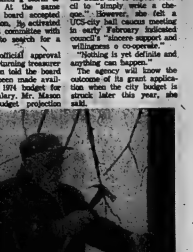
Mrs. Sanson hopes the presence of the home and its residents in the city will create an awareness of the needs of the handicapped and will motivate architects, engineers and institutions to do something about it.

When the home is in full operation it is hoped the residents will be self-sufficient for the most part. Mrs. Sanson will be present during the day and one of two people will be on hand at night in case emergencies arise. A rent-free apartment will be renovated at the rear of the house for the live-in night supervisors who will be selected from present people with regular day-time jobs.

Belleville's Cheshire Home is the second of its kind in Canada. The first is a resident home in Toronto, with five residents.

The concept of home living for the handicapped was developed in England and has since spread to other countries. The Belleville home is supported by government grants and the donations of service clubs, organizations, local citizens, businesses and service clubs. The Yardmen Benefit Fund is donating a van so that residents confined to wheelchairs can go on outings.

Residents' disability pensions will help defray the operating costs of the home, but additional money will have to be found locally every year to keep the home volunteer.



More Students Enjoy Outdoors

Student participation in the Hastings county schools winter outdoor program has increased by almost 100 per cent in one year.

Marilyn Brooks, outdoor education co-ordinator for the Hastings County Board of Education, Tuesday told the Information and Education Advisory Committee of the Moira River Conservation Authority that a total of 4,000 students took part in the school winter program at the Plainfield Conservation Area in 1973.

But this year 1,181 students attended the now concluded winter program at the R. H. Frink Centre.

At the centre students study outdoor life and related subjects and are taken on snowshoe trips through the conservation area.

Tapping Time Again

One-tree Sugarbush Back in Operation

Everett Hubble is back at his city sugarbush for another maple syrup season.

Only this year his production has been cut in half.

The 71-year-old Mr. Hubble produced maple syrup for years on his farm on Sidney township's third concession west of Belleville.

Then he retired and moved into Belleville he discovered his front yard at 67 Howard has two maple trees. Inevitably, he succumbed to temptation.

Mr. Hubble began tapping the trees, which are on the boulevard, in early March when the sap was running.

He started to collect the runoff, taking it over to the family farm — where his son, Burton, still operates a large maple sugarbush.

Mr. Burton Hubble estimated his two trees produced about two gallons of evaporated syrup from 40 gallons of sap.

Tuesday, with mild weather indicating an early sap run, he again began his front yard tapping—but with only one tree.

Mr. Hubble said he has been told the sugar content of maples was deemed unsafe and cut down by the city.

However, Mr. Hubble is undaunted.

He may have found a replacement he says, his eye measuring a maple just down the street outside a neighbor's home.

The first tap yesterday immediately drew sap. He hung a bucket under the spigot driven into his front yard maple.

With concentration betraying much experience, Mr. Hubble dipped his finger in the first drops seeping from the maple's hefty trunk.

Country folk, he explained, can often assess the length of the maple syrup season by the taste of the sap. If it's sweet, it usually means a short season — though "I don't know what that has to do with it."

Mr. Hubble sampled the syrup.

"That was awful sweet," he said.

Authority Picks Sugarbush Dates

With the current unseasonable weather the dates are still uncertain, but the Quinte Conservation Authority has set again this year stiff stage its sugarbush demonstration.

Tentative dates for the demonstration at the farm of Charles Irvine are the last two weekends in March but the weather could conceivably change present plans.

In conjunction with the sugarbush demonstration, the Thomasburg Rebekah Lodge members will stage their maple syrup and pancake festival at the Moira Community Hall.

Tentative dates for the sugarbush demonstration were Tuesday evening by the Quinte Authority Information and Education Advisory Committee at a meeting held at R. H. Frink Centre near Plainfield.

Wayne Brookes, outdoor education co-ordinator for the Hastings County Board of Education, reported that already about 1,300 school children were booked to visit the Irvine bush during the demonstration period.

Visits of school children to the bush will commence following the traditional mid-March break and, in view of Tuesday's uncertainty, authority officials are keeping their fingers crossed hoping that the syrup season will last long enough for all children to make it to the bush.

Last year many children from the Plainfield area's public school were denied visits to the bush because the season ended suddenly only a few days following the Easter break.

In other business, the advisory committee authorized purchase of 25,000 litter bags for distribution by the Belleville area and also the production of a 16-minute color film on outdoor conservation activities.

The annual senior citizens' picnic traditionally held at O'Hara's Hill northwest of Belleville will also be staged this year, while if funds are available, a summer bus trip to authority projects will also be held.

Salvation Army Officer Recounts Exorcism

By JIM SMELLIE
Staff Reporter

A brigadier in the Salvation Army visiting Belleville for a three-day retreat was for the corps officers recounted an exorcism he performed last October.

Brigadier Les Hall of Birmingham, Alabama, said that last fall he was called in to perform an exorcism on a 24-year-old man believed possessed by demons.

The man, a musician, was involved with drugs and took to performing a certain ritual while taking them.

Eventually, his philosophy altered to one centering on witchcraft. "Soon he found himself in a position where he was being harassed by demons," said Brig. Hall.

"The demons expressed themselves to the young man through various sounds as well as being evident in certain witchcraft rituals. He would follow, such as fanning the flames of a fire," said the brigadier.

This is when Brig. Hall was called in by the parents after visits to doctors and psychiatrists proved fruitless.

The Salvation Army has no set ritual for exorcism as do the Catholic and Anglican churches, and involves praying for the release of the demon in possession of a person.

Together the brigadier and the young man prayed for the release of this demon.

The brigadier said that there were no outward physical signs of possession evident, as in the movie and book version of The Exorcist.

"And although I had gone there expecting to experience the cold chills, the nauseous odors and the demon speaking through the possessed, I couldn't find those signs.

"But I realized that the young man was under some sort of supernormal domination."

The rite of exorcism in this case took place in the den of the man's home. Preparations for it involved the man researching his past philosophies and dealings with witchcraft to the brigadier and "getting his faith in God. These preparations took about 10 hours.

The actual rite itself took roughly an hour, said the brigadier. This involved praying and an earnest desire on the man's part to want to be saved.

There were no physical changes when the exorcism proved to work. "There was a release of pressure on the part of the man. His expression changed and the harassing spirit he had before seemed to disappear," he said.

The incident happened in Alabama and the possession of the young man lasted just under a year, said the brigadier.

He is now doing well and has returned to college, said the brigadier.

Brigadier Hall, in the Salvation Army for 28 years, gave his reasons for the sudden surge of popularity in the occult.

"First off you must remember that the interest in the occult is our culture today has been evident in Eastern cultures for centuries.

"But here the weakened position of the church has a lot to do with it. We have departed from the concept of the institutionalized church. We are seeing a deterioration of religion and young people are searching in other sources for answers," he said.

"The basic cardinal doctrines have been weakened by the liberal and internal criticism of the church. We have attacks on the Scriptures, on Jesus Christ and we have a weakened Christ.

"The interest in the occult is a strong one. Just as there is a strong power such as see involved in witchcraft.

"The bars are down. We are living in a permissive society and people are seeking (their kicks) in the supernatural. Power, satisfaction, everything is in the flesh," said Brig. Hall.

"The church, society and psychiatry reject in some way the concept that a person can be possessed. But Jesus is mentioned in the Bible as casting out demons.

"And Jesus is also mentioned as giving his disciples the power to cast out demons."

The rite of exorcism is an established and maintained one," said Brig. Hall.

"Some Christians haven't accepted the idea that there are in fact demons and that there are those with the power and authority to cast out these demons.

"ESP, clairvoyance, the ouija board. These are all opening the way to the demonic forces when young people start experimenting. You make yourself susceptible to it when you start experimenting."

Brig. Hall is one of 46 Salvation Army corps officers from places ranging from Fenelon Falls, to Peterborough to Alabama and Kitchener attending a retreat for officers of the Mid-Ontario section at the Four Seasons Hotel.

Corps Officers Confer

Corps officers of the Salvation Army are having a three-day retreat at the Four Seasons Hotel this week. Participants have come from as far away as Alabama and Fenelon Falls. Taking a break during the first day of sessions are from left to right:, Brigadier and Mrs. Les Hall, of Birmingham, Alabama; Lt.-Col. Harold Sharp, divisional commander of the Mid-Ontario division; Mrs. Lt.-Col. Sharp, and Captain Marg Burt, christian-education consultant at headquarters in Toronto.

Help for Elderly —Strings Attached

Possible provision for an elderly citizens' tax assistance program requested by Belleville and District Branch of Pensioners Concerned (Canada) Inc. will receive due consideration by city council.

The request for property tax relief for pensioners was received at council two weeks ago and was referred to the city manager Albert Elliott for investigation and report.

Monday the city manager set out a possible program of assistance which, if estimated would cost the city $25,000. The program, if implemented, would allow for a tax credit of $100.

To qualify, property owners would have to be 65 or over; be eligible and have made application for provincial assistance under the Municipal Old Pensioners Assistance Act; be in receipt of a monthly guaranteed income supplement provided under the old age security act; occupy the premises on which the taxes are imposed and have been continuously assessed as the owner of the property for not less than five years.

Council referred the report for budget discussion.

The Municipal and School Tax Credit Assistance Act authorizes a credit of one half the municipal taxes to a maximum $100 per year on residential property owned and occupied by a person 65 years old and over.

The purpose of the credit is a lien against the property which becomes due and payable when the property is sold. Repayment is deferred if the property passes to the spouse who is also over 65.

But City Treasurer Frank Morrell says that relatively few senior citizens in Belleville take advantage of the tax credit because it is not an outright grant.

Mr. Morrell added that for 1973 the province allows an additional $190 for persons over 65 and all property owners regardless of age qualify for the Ontario Municipal Tax Credit which is $90 plus 10 per cent of municipal taxes, less one per cent of taxable income.

Mr. Morrell said that only about 30 Belleville senior citizens are taking advantage of the Municipal and School Tax Credit Assistance Act.

Sidney Plans Roadwork

The road department budget, recently set by Sidney council, allots $133,500 for improvement and reconstruction of seven township roads and similar sum for maintenance of the municipality's 157-mile road network. Set late last month, the budget has yet to be approved by the Ministry of Transportation and Communication.

Cost of actual roadwork is estimated at $90,000. Replacing three township trucks — two half-tons and a 4x4 pickup — will also cost another $37,000. Salaries for road superintendent and clerk make up the remainder of the construction allotment.

Four roads are slated for complete reconstruction, from surveying down to surfacing. The following are the roads that will be built from the base up: Glen Ross Rd. (concession 8, lot 16), Johnstown Rd. (conc. 2-3, lots 4-6), Whites Rd. (conc. 1, lots 15-13), and Marshall Rd. (conc. 1 lots 34-35).

Minor ditching operations and the addition of surfacing material will be carried out on the following roads: Glen Ross Rd. (conc. 7 lot 9 and conc. 8 lots 3-4) and the fourth concession road between lots 4 and 6.

Minor improvements will be carried out on the Oak Lake Rd. (conc. 7-8, lots 16-17) and the seventh concession road at lot 28.

Money budgeted for maintenance will be used, in part, for spot gravelling and care of railway crossing safety devices.

Besides the provincial government's annual grant of $100,000, a sum the township must meet yearly, council has requested additional funds for further construction on Glen Ross and Johnstown Rds. Provincial approval of the road budget is expected later this year.

Dundas Street West Belleville — Next to Towers

Starting today, the quality of every cut of meat at Food City is backed by the signature of a Master Butcher.

IT'S ONLY RIGHT THAT THE WOMAN WHO BUYS THE MEAT SHOULD KNOW THE BUTCHER RESPONSIBLE FOR ITS QUALITY AND TRIM.

Behind every great Food City cut of meat there's a great *Master Butcher*. His signature means that the meat is not only up to the high Canada Grade A standards but that it's expertly trimmed to give you less fat, less bone, more good eating per dollar.

AHA! BUT WILL MASTER BUTCHER MEATS COST MORE?

Fair question. At Food City we see food as a necessity . . . not a luxury. So we offer old-fashioned butcher shop quality at special low prices. For example this week you'll find Boneless Round Steaks or Roasts at the Countdown Price of $1.45 lb. On meat that's signed, sealed, and delicious. Every time.

HOW PICKY CAN A MASTER BUTCHER GET?

Pretty picky. Only the choicest Canada Grade A beef meets the strict standards of our *Master Butchers* . . . only the tenderest Canada Grade A poultry . . . the tastiest, leanest, pork and veal. They stake their reputation on it.

WHERE ELSE BUT AT FOOD CITY?

You won't find Master Butcher Meats anywhere else. If you do, call us. And we'll call the cops.

MASTER BUTCHER MEATS®
signed, sealed and delicious

St. John's Is Oldest North American City

ST. JOHN'S, Nfld. (CP) — It takes the ears and nose as well as the eyes to capture the full character of this ancient Newfoundland capital.

All three senses are needed properly to absorb the things that give the seaport city of 100,000 a flavor of its own.

Historians generally agree that St. John's is North America's oldest city, although it was never officially founded as a settlement.

There is a record of the first substantial house being built here 446 years ago, presumably after an improvement over temporary structures erected earlier by Englishmen fishing out of St. John's during the summers.

But it's not just memories of past centuries that make St. John's interesting. For events and attitudes current today have their roots in happenings of olden times.

On downtown Water Street, known as the Lower Path when Sir Humphrey Gilbert took possession of Newfoundland for Queen Elizabeth I in 1583, a working knowledge of Portuguese or Russian is sometimes more useful than an ability to speak both of Canada's two official languages.

And along Water Street, beside the sheltering harbor smuggled amid the protection of 300-500-foot hills, is where an old dispute is being renewed.

Fishing ships of 14 countries use St. John's as a year-round supply and repair base for their operations in the northwest Atlantic.

Newfoundland fishermen, descendants of the 16-century English and Irish mariners who first came to Newfoundland for cod, are maintaining a steady outcry against foreign fishing.

Stocks of cod, flounder and redfish are being depleted. The Canadian government plans to ask this summer's Law of the Sea Conference for a 200-mile fishing limit.

Many fishermen's organizations and industry spokesmen want St. John's closed to foreign trawlers. But the port remains open to all comers and waterfront businessmen happily sell fuel, food and—in the case of the Portuguese—bait to foreign fishing ships.

Visitors to the St. John's waterfront who strike up a conversation with Portuguese fishermen playing soccer on the pier beside their moored ships often are invited aboard for a glass of wine, or gin with real limes and a meal of cod cooked in one of 100 different ways.

City residents are aware of their waterfront. Bits of which is enclosed by fences or gates.

Whenever a disabled ship is being towed in through the Narrows—the harbor entrance—after a particularly dramatic rescue hundreds of residents will drive to Signal Hill to watch the endangered vessel reach the berth.

Signal Hill, standing 500 feet above the Narrows, is the site where Guglielmo Marconi received the first transatlantic wireless transmission in 1901.

Scientific achievements in St. John's didn't end with Marconi. Memorial University of Newfoundland on the city's northern outskirts is the world headquarters for the study of giant squid.

Only in Newfoundland have the giant squid been taken. Dr. Frederick Aldrich, the university's dean of graduate studies, has gained international recognition for his study of the creatures.

Since the early 1800s the university has obtained nine giant squid. The largest was 36 feet long from the end of the body to the lip of the two main tentacles.

The city's downtown area is one of the most vividly colorful in Canada.

Wooden houses, built in long rows after the last great fire in 1892, cling to the steep hills leading up from the waterfront. Most are painted ship's green or dark red. Some are dory-built with a scattering of brown.

Most have carved lintels, bay windows and elaborate wooden decorations around eaves and cornices.

Few buildings pre-date the 1892 fire although the Newfoundland and Labrador Press Club occupies a stone structure finished in 1833.

Down on Duckworth Street, named for a late 18th-century admiral whose last job before being posted to Newfoundland was to sit in judgment of some of the mutineers of the Bounty, it's easy to hear the St. John's dialect.

The speech of St. John's is predominantly Irish with expressions from other parts of Newfoundland grafted on.

Probably the most noticeable to a visitor—including anybody from elsewhere in Newfoundland—is the way many St. John's men say "ye" instead of "you."

It's not unusual to hear one of the city's unarmed policemen—who wear capes—say in a group whose automobile may be parked in the wrong place: "Is that yeer car over there?"

Colorful Downtown

Wooden houses such as these on Gower Street cling to the steep hills leading up from St. John's waterfront. Most have carved lintels, bay windows, and elaborate wooden decorations around eaves and cornices. (CP Photo)

Library Corner

THOREAU MACDONALD: A CATALOGUE OF DESIGN AND ILLUSTRATION ... Margaret E. Edison.

Book collectors, lovers of Canadiana, and people who have a nostalgia for the old-fashioned rural life will enjoy this record of MacDonald's work as a designer and illustrator. Many of the book's plates of reproductions of his pen-and-ink, drawings and linocuts.

CORNELIUS KRIEGHOFF ... Hugues de Jouvancourt.

Also for art-lovers, this book describes, in a very readable style, the life and work of one of Canada's best-known nineteenth-century painters. It is well-illustrated, with many colored plates.

CONSUMERS UNION REVIEWS CLASSICAL RECORDINGS ...

Record collectors of a wide range of tastes in classical music will find this a valuable guide to purchasing. Originally appearing in Consumer Reports Magazine, the reviews are followed by comments, rating the recordings or comparing them with others of the same works.

A HANDBOOK OF CANADIAN FILM—Eleanor Beattie.

This book brings together as much information as possible about films and film-makers in Canada. Bibliographies and filmographies are given for each film maker, and the last third of the book is a directory of additional sources of information, making this a valuable aid to anyone interested in Canadian films.

PAINTERS IN A NEW LAND — Michael Bell.

Of interest to historians as well as to students of Canadian art, this collection of paintings, by amateur or little-known artists, depicts frontier life in Canada during the eighteenth and nineteenth centuries. The illustrations are mostly in color and are accompanied by excerpts from the writings of the same period.

COLLINS ENCYCLOPEDIA OF ANTIQUES ...

Dealing with European, Oriental, and American antiques, this book gives brief, factual definitions and information about a wide range of articles, manufacturers, and names that antique collectors need to know. Hundreds of illustrations, many in color, help to clarify definitions.

Go Ahead Given

OTTAWA (CP) — Construction of the last section of a four-lane freeway, Highway 417, into Ottawa from Montreal, has been given the final go-ahead. The project was stalled for five months after Ontario cancelled contracts for a portion of the job on grounds of high costs. The 4.1-mile segment still will cost about $500,000 more than Ontario wanted to pay.

MOST FROM U.S. ..

Most tourists visiting Bermuda in 1973 came from the United States. A total of 335,044 American visitors were recorded during the year.

ON THE BOTTLE ...

The Aztec Emperor Montezuma II supposedly drank 50 liters of chocolate a day and always drank a golden goblet filled with the frothing liquid before entering his harem.

Indian Artist Gathers Soft Rock for Totems

SKIDEGATE, B.C. (CP) — Every Sunday Rufus Moody hikes over six miles up the rugged Slatechuck Mountain to dig up about 100 pounds of argillite and bring it down on his back.

Mr. Moody is a 56-year-old Indian artist from the Queen Charlotte Islands who makes the weekly backpacking expedition to get the clay slate he carves into totem poles depicting the legends of the Haidas.

The soft black rock comes from a quarry carefully guarded by the Haidas, the only ones who can work with argillite.

"It's rough going," he said. "I cross a creek 30 times. I don't go by the trail, I go by the feel of the forest."

But it's worth it because he gets the price he wants for his carvings.

Recently, he sold a six-foot eight-inch totem pole valued at $15,000 to a West Vancouver collector. It's the biggest argillite totem pole anywhere, weighing 300 pounds. The base alone weighs 110.

"It's pretty heavy, I know. I brought the base down the mountain by backpack."

It took him 3½ months of freehand carving to finish off the raven, the beaver, and other creatures of the Haida mythology.

"I never put a pencil mark on the stone. I carve each figure as I see it take form.

"I do it the old-fashioned way. That's why it's worth something."

He charges $20 an inch for miniature totem poles no more than 10 inches. Anything larger, the price goes right up.

Fourteen years ago, when he first began devoting his life to carving, the price was $10 an inch.

"Some of the young carvers want more than I get for my carvings. Then they do scratch work.

"I'm the only one who gets the price I want."

Mr. Moody said he plans to travel to Switzerland this spring with his Swiss wife and will spend two months carving argillite at a museum in Geneva.

Junkyard Yields Treasure

LONDON (AP) — Two 40-plus-year-old cars long discarded in a junkyard have begun life anew as museum pieces after being driven halfway across the world from New Zealand by two Britons who found and restored them.

The cars—model A Fords of 1928 and 1930 vintage—are the latest acquisitions of the National Motor Museum at Beaulieu.

The relics were discovered by Don Yorke, 28, and Jim Blut, 25, on a visit to New Zealand. One of them actually had trees growing through it.

"We hit on the idea of restoring them and driving them home," said Yorke. "There were bits and pieces of similar cars lying around and we rented an old factory in Tauranga where we set to work."

News of the venture attracted wide interest and before long local enthusiasts joined in the project.

From among the voluntary work force six were recruited, including four girls, and when the job was finished the 10,500-mile trek began.

The cars were shipped to Sri Lanka where, because of the lack of time for trials in New Zealand, the older car developed wheel-bearing trouble which was quickly overcome by a local garage.

Then the cars crossed to India to start the longest part of their trip. But the ferry drew too much water to enter the harbor and they had to be rowed ashore on a pontoon crudely fashioned of planks lashed between two fishing boats.

The next sang came when drought hit central India. Both cars overheated but luckily there was a milk-chilling plant close by, where the travellers were allowed to work on their cars.

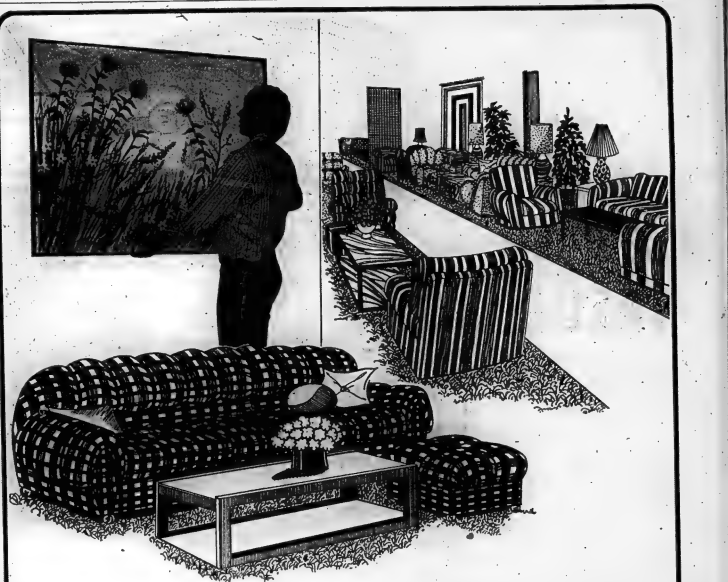
Apart from assistance by several blacksmiths along the route the journey through Pakistan, Afghanistan, Iran, Turkey, Greece, Yugoslavia, Italy, Switzerland, Austria, West Germany, Belgium and France was virtually incident-free.

"We did have a generator problem in Yugoslavia," said Yorke, "but we asked a mechanic in sign language if he could fix it and he rode off on his bicycle, to return later with a brand new one tied to his handlebars."

The journey took four months, but it may not be the end of the road for the two veterans.

"I'd like to drive back to New Zealand—by way of South America," said Yorke.

ECONOMY MAINSTAY



The Alaska king crab is worth almost as much as salmon today. In many parts of Alaska, the king crab is the mainstay of the economy.

DENSE GEM

The dense gem cassiterite or tinstone, a colorless to yellow stone, is found in Australia, New Mexico and Bolivia.

IN THE CLOUDS

The Mauna Kea Observatory, in Hawaii, is situated at an altitude of 14,024 feet. It was opened in 1969.

The Greatest Show In Town

Find impressions count and that's why it's important that your home expresses you...your individuality. Whatever your style ... take a tour through our young world of furniture designs lovingly chosen to appeal to the perceptive and aware individualist. We have lamps...pictures...mirrors, and other accessories from around the world to suit your decor. And to see it all put together... browse through our completely accessorized room settings. All this...plus our low everyday prices on famous make, quality furniture. A show you shouldn't miss.

His Own Customer

Tattoo artist Rick Noddings of Edmonton is probably his own best customer—he has tattoos on 80 per cent of his body, including the inside of his lower lip. He says everyon has a different reason for getting a tattoo, and often the reason isn't clear even to the person getting decorated. (CP Photo)

No Simple Reason For Tattooing

EDMONTON (CP) — Of the questions asked about tattooing, the one with no final answer is why people want it.

At least Rick Noddings, 22, who makes his living putting tattoos on people and has designs covering 80 per cent of his body including his feet and the inside of his lower lip, has never found a common, underlying reason.

Mr. Noddings said everyone has a different reason and often the reason isn't clear even to the person getting decorated.

"(To be a tattooist) you need a basic artistic ability and after that it's just a matter of getting used to drawing on flesh instead of paper. Where you can tack your paper down so it won't run away on you, you've got to hold your customer down."

Mr. Noddings uses a firm grip on his subjects and says the process of tracing a design with an electric needle that pierces to one-sixteenth of an inch is not really painful but is certainly unpleasant. The needle puts chemical pigment between the second and third layers of skin—any color is available—and once it's in, it doesn't come out.

Tattoos cost anywhere from $5 to $5,000 depending on the time it takes to put on and the extent and detail of the design. Most cost $15 and take about 20 minutes.

Mr. Noddings' shop is licensed and inspected by the board of health but he said there are lots of amateur operators around.

"I've never met anyone who got blood poisoning or anything like that but there's a lot of awful messes on people's arms. . . . I've seen things that you couldn't tell what it was supposed to be."

Once it's there, as far as Mr. Noddings knows, skin grafts or laser beams won't take the tattoo off.

"If you're basically no good you're not going to make any money and I suppose the only way you're going to find out if anyone is any good is to sit down and get one put on, which is kind of a bummer."

Among Canadians, as many as 35 per cent of whom may be tattooed although many don't show it, it's an even split between men and women but in the U.S., Mr. Noddings said, 70 per cent of tattoos are inscribed on women.

Tourism Now Largest Item in World Trade

TORONTO (CP) — Tourism has established itself as the largest single item in world trade.

An estimate from the World Tourist Organization says tourist arrivals from all countries have grown to almost 200 million from 75 million in the last 20 years. Foreign exchange earnings from tourism rose to $34 billion from $3.1 billion.

Since the Second World War there has been an increase in Whosoever income. Wider income distribution has formed an expanding middle class able to travel abroad.

Development of the package tour cut costs of both travel and accommodation. Curiosity, stimulated by higher education standards, has increased desire to travel.

In some countries, international tourism ranks first in contributing to foreign exchange earnings.

A commercial letter from the Canadian Imperial Bank of Commerce says governments have begun to play an active role in tourist developments. These include loans, technical assistance ranging from the provision of vocational training courses to direct financial participation in tourism investments and subsidies, selective credits and tax benefits.

Canada is both a leading travel destination and tourist generating country. Receipts from international travel in 1972 amounted to $1.23 billion but payments on the travel account were $1.46 billion.

Canadian visitors in the U.S. spent more than $900 million. More than 86 per cent of Canada's foreign tourists in 1972 were from the U.S., generating more than $1 billion in receipts. Overseas visitors numbered 635,000 and spent about $200 million.

Because of its over-all trade surplus, Canada has not given tourism the priority accorded it in many other countries, says the commercial letter.

Federal and provincial agencies collaborate with the tourist industry to publicize Canada abroad and to provide amenities and facilities to attract visitors.

Banks have also moved toward more involvement in tourism, from the provision of benefits to bank customers through special arrangements with travel operators to the acquisition and control of tour operations.

The Commerce's letter says that in the coming decade the bulk of international travel is likely to continue to be between developed countries. There should be increases in the flow to developing countries in the Mediterranean basin, Mexico and the Caribbean. Growth is also likely in travel from Japan.

We Need Police

TORONTO (CP) — "We need our cops" is to be the motto for this year's police week in Canada, authorities have announced. The annual get-to-know-your-policemen event is scheduled to be held in May. The program, yet to be drawn up, will be more diverse than last year's "Cops are Tops" theme. The police week is aimed at familiarizing the public with the methods and purpose of police and their work.

No Tapes Made

OTTAWA (CP) — The Ottawa police department does not record any conversations in its Waller Street headquarters nor does it have taps on anyone's telephone in the city, Chief Lucien Seguin told city council.

Love Affair Inspired Edward Bear Records

By MICHAEL BENNETT
CP Correspondent

And now, today's episode of As The Record Turns, the continuing story of Edward Bear and how Larry Evoy's ill-fated love turned into a million-selling single.

We find Larry in his hotel room, musing over the vagaries of affairs of the heart. Her name is Chris and Larry has written 10 songs over the last four years about their relationship.

"We've known each other for about seven years and we lived together for, I don't know, eight months, I guess. Went through weird changes. You finally get fed up playing certain kind of game, so I decided I'd just write her a last song, one final thing."

Last Song wasn't the end of the affair, though. Sure, it was the biggest single—1.2 million—a Canadian group has ever had in the States. Publishing and recording royalties were worth $250,000, but the melody lingered on.

"I didn't know really where she was. I think she was in England or maybe she had gone to Spain by that time. She was traveling with a guy who played for a jazz band.

"She'd write to me sometimes, or she'd phone me. It would be going good or it would be going bad. I just thought: 'Forget it!' I'd had enough. So I just wrote that song."

Last Song wasn't the last song.

"I just had a picture of her being away somewhere, and me just sitting here thinking of writing her a song.

"You know, all the songs I've written about her, I used to wait for her to come by sometimes and visit me. That was about six years ago."

The bullets on the Billboard Hot 100 next to Last Song didn't drive away those love-sick blues. Chris was the inspiration for Close Your Eyes the next single Edward Bear recorded.

The string has run out for Chris and Larry, though, and the romance had no bearing on Some Old Feelin'. It probably won't be a factor in Larry's song-writing career again.

Edward Bear—Larry on drums, Roger Ellis on guitar and Bob Kendall at the organ—has been working on stage and in the studio for a

Cutting Losses

OTTAWA (CP) — City council has decided to hire an assessment controller to catch alleged errors by the Ontario finance department. The city has been losing money in property taxes because some properties have been under-assessed or not assessed at all, council was told. Assessment has been in provincial hands since 1970.

year with a new young group from Toronto called New Potatoes.

Randy Gulliver of the Potatoes composed the music and wrote the chorus for Some Old Feelin', Larry did the verses. It's definitely an Edward Bear song, about the whimsies of young love, but has no relation to Larry's private life. At least not yet.

Motion Overruled

OTTAWA (CP) — City council has overruled a board of control recommendation that candidates for the board should be able to spend as much money of election time as those running for mayor. Board candidates will be allowed a maximum of $18,500 compared to a $15,000 ceiling for mayoralty candidates. Aldermanic candidates may spend $2,500.

Seamen and Shipowners Break Off Their Talks

MONTREAL (CP) — Normal shipping operations in the St. Lawrence seaway may be affected this spring by Tuesday's breakdown in conciliation talks between the Seafarers' International Union (SIU) and the Canadian Lake Carriers Association (CLCA), a top union official predicted.

SIU President Ronan Gouzenko said in a statement the CLCA was being "irresponsible" at the talks, and warned that his sailors "won't be coming back to their jobs in time for spring fit-out."

"With inflation rampant," he said, "there is no way these men want to work for wages which, in many cases, are just within the legal minimum wage laws."

A CLCA spokesman said the two sides are only temporary.

The two parties have been holding meetings for two weeks with federal conciliator Roland Doucet in an effort to draft a two-year contract to replace the one which expired last Dec. 31. Mr. Doucet was unavailable for comment.

An SIU spokesman said it wants 15 per cent wage increases in each year of a two-year contract, as well as overtime pay and improved hours of work, working conditions, vacation pay and fringe benefits.

A CLCA spokesman said it has offered a 12 per cruft wage increase in the first year and another six per cent in the second.

The union spokesman said pay scales under the old contract ranged between $496 monthly at the bottom to $930 at the top (for wheelsmen), however, he said, the men work 56 hours a week, 240 hours a month, and do not receive overtime pay.

Constable Eats Himself Into Overtime Credits

VANCOUVER (CP) — A city police constable has earned $71 in overtime because the city prosecutor's office claims he owes the city $5 in expense money.

The argument is over whether a meal Constable Robert Gentile had on a plane trip to Toronto Jan. 26 was breakfast or lunch.

The officer was given $100 cash for expenses on a trip to pick up a prisoner in Toronto and return him to Vancouver the following day.

Constable Gentile submitted a bill for $46.30 and received $39.61. The food bill was $18, $8 for the first day and $10 for the second.

The prosecutor's department claimed the food bill was too much and that the constable owed them another $7.

The prosecutor's office claimed that since Constable Gentile arrived in Toronto at 4:30 p.m. Eastern Standard Time, he had had a free meal on the plane and had to buy only dinner.

Constable Gentile pointed out, however, that he was working on Pacific Standard Time, and said the meal on the plane was breakfast.

He has been called into the prosecutor's office three times to explain his actions. Under union rules, he gets a minimum of 4½ hours' overtime for each conference.

The overtime bill to date is $71 and Constable Gentile believes there will be at least one more conference before the problem is resolved. He will take the overtime in time off, however.

U.S. Beef for Canada May Be Certified DES-free

WASHINGTON (CP) — United States beef headed for Canadian dinner tables soon may be required to carry papers certifying it is free of the controversial compound diethylstilbestrol.

An official of the agriculture department said Tuesday the U.S. is working on a certification plan in lead off any possibility of Canada closing the border to northbound herds that last year were valued at more than $141 million.

The statement followed recent removal of a U.S. ban on diethylstilbestrol (DES), a growth-fattening hormone which has been described as possibly causing cancer in humans.

Dr. Hyman Steinmetz of the meat and poultry inspection division said in an interview that on a recent trip to Ottawa, members of his department were told that livestock sold in Canada must be free of DES.

MEMO FROM HELEN GAGEN, CONSUMER ADVISOR, MIRACLE FOOD MART

FOR THE WEIGHT CONSCIOUS

An important part of weight control is to make sure that every bit of food you eat carries its full nutritional load. For those who decrease calories to lose weight, this is especially important.

For instance — instead of wasting 100 calories on 2 tablespoons of sugar, 140 on 6 bottles of pop, or 115 on tea points chips, you should use your calorie allowance on such nutritious foods as protein rich foods as a glass of skim milk (90 calories); an egg (80 calories); a slice of whole wheat bread (75 calories); a cup of shredded raw cabbage (20 calories); an orange (80 calories); a half chicken breast (155 calories).

Along with other foods that provide calories without high nutrition, avoid rich gravies, noodles, pastries, desserts, rich salad dressings, the fat of meats, and alcohol. Emphasize fruits, vegetables, lean meats and fish, skim milk and skim milk cheese. And at the same time you watch your food intake, increase your activity to ensure attaining and holding your ideal weight.

To help with the very important job of maintaining a good, healthy weight all year 'round, get a free copy of my Guide for Calorie Counters at your Miracle Food Mart information desk, and for additional information, drop me a line: Helen Gagen, Consumer Advisor, Miracle Food Mart, 75 Rendale Blvd., Rendale, Ontario.

Surrealistic Spaghetti

Looking as if they might have been created by a surrealistic artist, these coils on Rollie Harding's workbench in the Cleveland plant of Picker Corporation are actually transformer coils and their leads. They are made for use in medical x-ray equipment manufactured by Picker, a subsidiary of C.I.T. Financial Corporation. (CP Photo)

Bristlecone Pine 4,600 Years Old

BISHOP, Calif. (AP) — The world's oldest tree is on its last limbs.

Methuselah, a 4,600-year-old bristlecone pine, looks more dead than alive. Less than 10 per cent of its surface is clothed with bark and many branches are stripped of pine needles.

But it clings to life and may survive "many centuries, maybe even another millennium," said Dr. C. W. Ferguson of the University of Arizona Laboratory of Tree-Ring Research.

In the chipped rock soil just below the timber line in the White Mountains here, the bristlecone pines—the oldest known living things—eke out a spare existence. The trees are dome xceed 30 feet in height on the bleak, arid slopes and many are twisted grotesquely by centuries of blistering winds.

How do they live so long?

They seem to have struck a deal with death, abandoning small branches, then bigger ones and finally most of the trunk for a few more centuries of life.

"We call it longevity under adversity," Ferguson said. "Figuratively speaking, they learn to live with their environment. They realize their limitations and cut back.

"When the tree dies back it says to its environment, 'You don't have to support this much, but let's continue with what's left.'"

Despite their gaunt appearance, Ferguson said, "all of the living 4,000-year-old trees still produce fertile cones and viable seeds."

He said there are probably 100 bristlecone pines more than 4,000 years old. The more famous giant sequoias are only about 3,000 years at the oldest.

The lack of oxygen and the sparse, ground cover help protect the bristlecones from fire, Ferguson said.

By studying dead bristlecones, Ferguson has put together a chronology dating back 8,200 years. One sidelight of his chronology is the discovery that radiocarbon dating is not completely accurate.

"A radiocarbon year fluctuates slightly compared with our, calendar year," Ferguson said.

He said that discovery has caused historians to revise their story of European prehistory.

Item Is Popular

MIDDLETON, N.S. (CP) — Visitors to this part of Nova Scotia each year purchase thousands of souvenirs which the local people call "mugrumps". The curiosity item is a small figure made of stone and sea shell and has been defined as the characterization of an undecided politician "with his mug on one side of the fence and his rump on the other."

Lifeboats Ordered

ST. JOHN'S, Nfld. (CP) — Newfoundland is to get four lifeboats this year for rescue operations in waters off the province's coasts. Each of the 44-foot steel-hulled craft is being placed by the Canadian Forces Rescue Co-ordination Centre in Halifax and will be manned by local fishermen at St. Anthony, Twillingate, Burin and Burgeo.

ANGLERS' DREAM

Northwest Alaska is rich in game fish and large game like moose.

Human Sewage Claimed Excellent Fish Food

ELSENHEIM, N.Z. (CP) — It may take a bit of salesmanship as well as scientific documentation, but a Wellington scientist is confident that he is on the brink of a discovery that will revolutionize New Zealand's fishing industry.

Dr. E. B. Slack, a reader in applied fisheries, says he has proved that freshwater fish thrive when fed on human excreta. As a result he believes raising fish in sewage treatment ponds may be a viable commercial proposition.

For two years Dr. Slack has been raising rainbow trout, eels, smelt and goldfish in the oxidation pond serving Elsenheim.

He believes his experiments may lead to oxidation plants throughout the country being used for fish farming, with the fish being made available for human consumption.

Dr. Slack has yet to establish how big fish will grow feeding on a diet of sewage.

He knows initial growth is rapid. Rainbow trout show weight gains up to 24-fold in six months and goldfish up to 30-fold in 19 months.

This was in dirty, stagnant water with a temperature varying from 40 to 70 degrees. Initially his fish were placed in a cage in the main 40-acre oxidation pond. Later they were released into a small subsidiary ponds.

Whenever the level of the smaller pond dropped through evaporation or seepage, Dr. Slack topped it up with a load of raw sewage from the inlet to the main pond.

He says none of his fish has died because of its habitat or food.

"I have proved that rainbow trout don't need clear water and that they can live in water above 68 degrees," Dr. Slack said. "The trouble in New Zealand is that there are these preconceptions, so no one experiments."

He says he could be running a viable trout farm on the basis of his findings so far.

But trout farming in New Zealand is illegal, meaning Dr. Slack's experiments are purely academic in nature. One possibility is that his findings may be used for eel farming.

Dr. Slack says to be fit for human consumption the trout need only be put in clear running water for 24 hours to wash the grime and grubs off. Then they can be killed, cleaned and ready for cooking.

The ministry of agriculture and fisheries has shown no interest in Dr. Slack's experiments. In fact overseas scientists are the only ones to display any curiosity.

One reason for the lack of interest may be that New Zealanders are unlikely to accept fish bred in sewage ponds despite assurances that they are completely safe to eat.

LONGEST FLIGHT

The longest distance for a champagne cork to fly from a bottle is 34 feet, recorded at the Mardi Gras at New Orleans, La., in 1962.

CP News Roundup

Elevator Award Opposed

TORONTO (CP) — Jim Hughes of the International Union of Elevator Constructors said Thursday an arbitration award handed down by Judge J. C. Andersonto reconcile four elevator manufacturers and their employees in Ontario "is so bad it won't be adopted by locals in any other part of Canada."

"I would advise those locals to throw it in the nearest garbage bag," said Mr. Hughes, Ontario business manager of the union which was on strike for seven months last year. The Ontario government imposed arbitration.

Mr. Hughes said that Judge Anderson's decision, opposed by union nominee T. E. Armstrong, introduces for theFirst time a seniority clause that cuts across the old system of preferential treatment for union card holders.

Robber Tipsy

TORONTO (CP) — A tipsy bank robber held up a branch of the Bank of Nova Scotia of 4,000 Thursday, then staggered into the arms of a traffic policeman who recovered the money and a toy gun.

Reform Pledged

ADDIS ABABA (Reuter) — Ethiopia's week of unrest has won a promise of constitutional reform from Emperor Haile Selassie.

The 81-year-old emperor said on television Tuesday night he had ordered Prime Minister Endalkatchew Makonnen to convene a conference within six months to work out the reforms.

Two Drown

BUFFALO (AP) — Three brothers fell through the ice on a pond near their suburban home Tuesday and two of them drowned, Erie County sheriff's deputies said.

Nine-year-old twins Kevin and Kenneth Seifert were reported dead on arrival at Mercy Hospital. Their brother, David, 11, was listed in fair condition after being pulled from the pond with the aid of a ladder.

Parents Angry

TORONTO (CP) — More than 800 parents from Thornhill, Ont., just north of here, turned out Tuesday night to protest the closing of York County schools for 4½ weeks by a teachers strike.

In lengthy questions and comments from the floor, the parents made it clear they thought both the York County board of education and the Ontario Secondary School Teachers Federation were to blame for the situation.

Food Hijacked

HILLSBOROUGH, Calif. (AP) — The wailing continued today for the family of kidnapped Patricia Hearst after completion of a third free food giveaway for 30,000 persons was marred by a hijacking.

A truck carrying food for 4,000 persons was only a few minutes away from its distribution ellr in San Francisco when it was stopped Tuesday by gunmen who threatened the driver and left with the rig.

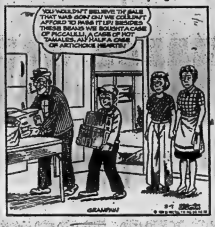
The truck was found later, emptied of between $34,000 and $60,000 of meat, poultry and produce, reports said.

Seats Split

WASHINGTON (AP) — Special congressional elections Tuesday in Ohio and California amounted to a split decision in the latest test of voter sentiment on Watergate and the Nixon administration.

Voters in Cincinnati, Ohio, selected a Democrat to the House of Representatives for only the fourth time this century, but a California Republican scored an impressive victory over seven Democrats for a vacant southern California seat.

Delay Parley



WINNIPEG (CP) — Manitoba Premier Ed Schreyer said Tuesday that a second federal-provincial conference on energy tentatively scheduled for March 25, has been "deferred indefinitely."

Offer Ended

MONTREAL (CP) — Canadian cigarette manufacturers have formally withdrawn their offer of a guaranteed minimum average 1974 price of 80 cents a pound for next season's entire Ontario tobacco crop.

The action follows rejection of the offer in a referendum held last Thursday by the Ontario Flue-Cured Tobacco Growers Marketing Board, which had accepted, 72.3 cents a pound last year. Its 1974 price demands have not been made public.

OUT OUR WAY by Hoy Cochran

Man Asked to Be Jailed; Refused, He Shoots Five

BUFFALO (AP) — A man who a judge said feared for his life shot five persons, killing one, early Tuesday, police reported.

The victims were a woman and her three children and a young taxi driver. One child, Jerry Benton, 9, died in hospital following the shooting.

Police arrested David Benefield, 35, about two hours after the shooting. He is charged with murder, robbery, assault and possession of a dangerous weapon.

Judge H. Burwell Roberts of city court said Benefield appeared before him Sunday and "told me his life was being threatened and asked to be locked up."

"I informed Benefield that I had no authority to imprison him," Roberts said.

Hearing Opens

ORILLIA (CP) The preliminary hearing of three men charged in the seizure of 7,000 pounds of marihuana worth an estimated 1.5 million began in provincial court Tuesday.

Ronald Vitale, 31, his brother, Donald, 28, both of Orillia, and Paul Donnelly, 30, of Toronto are jointly charged with illegal cultivation of marijuana and possession of marijuana for the purposes of trafficking.

The charges were laid after police raided a 65-acre farm near here Sept. 4.

Cats Break Out Heavy Artillery

By MIKE BRADSHAW
Sports Staff

PICKERING — Moe Hunter, Belleville Bobcat coach, commented before his semi-final series began, "it would be nice to win the first game in Pickering."

Well, Hunter's Cats didn't win the first game in Pickering, as a matter of fact they lost it 6-1. Not even close.

The Belleville team then played the second contest of the series on home ice, at Bill Memorial Arena, and edged the Panthers 3-2 in one of the toughest games of the season.

Though, Hunter's prodigies didn't win the opener for him, they certainly satisfied any of his desires to win an away from home game in the series with a decisive 9-3 victory over the Panthers in Tuesday night's match here.

The win gives the Bobcats a 2-1 lead in the Metro Junior B semi-final and at least a psychological edge in the remainder of the seven games.

"There aren't very many teams that have beaten Pickering this year," stated Belleville manager, Hunn Soule. "For that matter I don't think any team in the league has scored nine goals on them this season."

The Panthers finished the regular season with only six losses in the 44 game schedule and had second lowest goals against average in the league.

"We've only lost one game out of 23 at home," said coach Hunter, "we needed a win here (Pickering) to give us an edge in the series if it goes seven games."

Hunter added, "They've got to meet us at home twice in the next three games and with our home record and the way the guys are playing that's going to make us pretty tough to beat."

The Cats actually had a new face in their net last night.

Belleville's goaltending duties were handled by Rob Duncan, while the Peterborough Lion's star netminder in their quarter-final series against the Cats.

Bruce Clark, the locals outstanding netminder, is sidelined indefinitely with a minor concussion suffered in the second game of the series, Sunday night.

Though the Metro League constitution, if a player is removed from a team's lineup, he is ineligible thus to be legitimate injury, that player may be replaced by any minor league player or another player from a team which has already been beaten out of the playoffs.

"It was completely my decision to bring Duncan into the playoffs," said General Manager Matthews. "We've got Bobby Moore playing for us, but this is a business. We needed somebody to replace Clark and if you need somebody you might as well have one of the best. Rob Duncan is just that."

Matthews offered the justification of his goaltending move before the game was played and added, "If we get bombed out there then it's my fault. I made the decision and nobody else. If the goaltending happens to fall through, then I take the blame."

The goaltending didn't fall through, however. It turned out just the opposite. In the Cats 9-3 victory they were outshot 47-42 and Duncan was selected as the first star of the game.

"How many shots did they have on net," queried Duncan after the win, "what ever number it was, I figure, it was about an average night in net for Peterborough."

"This team is great to play for," Rob commented. "in Peterborough I'd have to worry about two or three opposition players in front of me, now I only have to worry about one. Peterborough's defence is the best in the league."

Three times, Duncan was confronted with Pickering breakaways and two of the three times he stopped them. On the third occasion Rob was forced to pull the puck as Panther attacker put in his rebound.

The Belleville defensive corps, Tim Yohn, Dave Fleck, Larry Cowles and Tom Amey were once again key factors in the performance of their Pickering were allowed to take.

The foursome blocked shots, checked attackers off the puck, rode out pushing Panthers away from the net into corners and literally defied the Pickering team to stand in front of the Belleville net.

Belleville's forechecking led by Kevin Joudrey, denied the Panthers any attempts at setting up their plays and at attack, thus forcing the Pickering team to depend on individual efforts rather than a unified one. Without systematic rushes to the ice the Pickering were almost helpless offensively.

With their unified efforts deteriorating, the Panthers found themselves in a state of chaos. They gave the puck away on countless occasions, left the Cats standing freely in front of the net and generally stood in no-man's-land on their own zone.

The three star selection spoke for the way the two teams found their first star, Rob Duncan-Belleville, second — Rod Marr, Cats-Belleville and third star, Kevin Joudrey-Belleville.

The Bobcats jumped in front early in the contest, with John Gordon scoring at the 2:54 mark. Sergeant's goal was the result of an excellent pass play with Joudrey and Mike Watt.

Less than two minutes later Belleville was in front 2-0 on a strong individual effort by Coates.

At the 14:11 point of the first period Jim Richardson, picked up his first of the night, this one also the result of a great passing play by Rob Foster and Dave Fleck.

Pickering made it 2-1 near the end of the frame when Ron Davidson lucked the puck between Duncan and the goalpost on a power play.

Duncan's shone during the first 15 minutes of the second period as Belleville was outshot 21-13.

At 16:21 of the middle frame, Paul King got the Cats back on track with a solo effort.

The Panthers replied a minute later when Kevin Owen tallied, banging in his own rebound.

With less than a minute remaining, the Bobcats went ahead 5-3 as Norm Jones combined with Joudrey and Richardson on another good passing job.

Pickering came out flying in the third period and scored with just over three minutes played. Tim Manley got the one from a scramble in front of the goal.

The Cats regained composure and went right back pressuring the Panthers into mistakes.

At 9:41 Richardson tallied his second of the night to start the Belleville ball rolling again.

Two minutes later, Coates got his second to put the Bobcats in front 7-3 on the best individual effort of the series.

Sergeant got his second of the night, this one also the result of a great passing play by Rob Foster and Dave Fleck.

Pickering made it 8-3 near the end of the frame as Ron Davidson, fucked the puck between Duncan and the goalpost on a power play.

Duncan's shone during the first 15 minutes of the second period as Belleville was outshot 21-13.

Pickering made it 8-4 near the end of the frame when Ron Davidson l

Hot Goalies Killing Bruins

By NEIL CAMPBELL
Canadian Press Staff Writer

Are Boston Bruins beating the late-winter doldrums get them down?

Or is it goaltending—mainly the opposition's—that has kept the team with the best record in the National Hockey League from winning a game in March?

Tuesday night Boston coach Bep Guidolin gave Atlanta goalie Phil Myre the credit for the Flames' 4-1 win over the Bruins.

"Great goaltending. That's what beat us," said Guidolin.

"He (Myre) was fantastic," agreed Atlanta coach Bernie Geoffrion. "But they all were. We were really skating."

But other goalies have given the Bruins trouble this month. Although Boston has outshot the opposition in all three March games, they have salvaged only one tie.

Jim Rutherford kept Detroit Red Wings from being routed in the second period of a 4-4 tie Saturday. Then Doug Favell's acrobatics helped Toronto Maple Leafs beat the Bruins 6-4 Sunday.

In that same three-game stretch, Gilles Gilbert, who has been giving up less than three goals a game, gave up 16.

The Bruins learned Tuesday night, for the first time this season, what it is like to lose two games in a row. And high-scoring Phil Esposito discovered what it was like to go through two consecutive games without scoring a goal.

"We're not in a slump," said Guidolin. "The Flames were playing their best game of the year. All they did was skate."

Goals by Keith McCreary and Bob Leiter midway in the period broke a 1-1 tie and enabled the Flames to hold onto third place in the NHL West, one point ahead of Los Angeles Kings and three ahead of St. Louis Blues.

The Kings edged California Golden Seals 3-2 and Pittsburgh Penguins nudged New York Islanders 2-1 in Tuesday's other games.

Kings 3 Seals 2

Defenceman Bob Murdoch fired his eighth goal of the season past Gary Edwards from 40 feet out to break a 1-1 tie with 2:13 to play.

Mike Corrigan had given the Kings a 1-0 lead in the second period, but California's Walt McKechnie tied the score late in the third period with a power-play goal.

Penguins 2 Islanders 1

The Penguins had a two-man advantage when Syl Apps scored the winner early in the third period. It was his 22nd goal.

New York's Ralph Stewart blew a chance to tie the game with 1:07 to play when he first lost control of the puck and then hit the post in a penalty-shot attempt.

Tonight the Bruins are at St. Louis, Montreal Canadiens visit New York Rangers, Buffalo Sabres are at Minnesota, North Stars and Chicago Black Hawks visit California.

Barons Crush Springfield

JACKSONVILLE, Fla. (AP) — Rich Pumple scored three goals and assisted on two others as Jacksonville Barons defeated Springfield Kings 11-4 in the only American Hockey League game Tuesday night.

Jacksonville took a 1-0 lead on a goal by rookie Jean-Jacques, but Springfield's Norm Dube tied it moments later before Pumple scored his first goal of the night to put Jacksonville ahead 2-1.

In the second period, Jacksonville's Ed Hoekstra and Al Rycroft scored goals 37 seconds apart and Keke Mortson made it 5-1 before the Kings got goals from John Healey and Phil Horne.

Steve Warr started Jacksonville's six-goal third period barrage which saw Pumple score twice and Jacques, Mortson and Sarrazin one each.

The win enabled Jacksonville to take over the fourth and last playoff berth in the South Division with 51 points, one more than Virginia Red Wings. Springfield is fifth in the North Division with 49 points, 19 behind Nova Scotia Voyageurs.

Whalers Produce

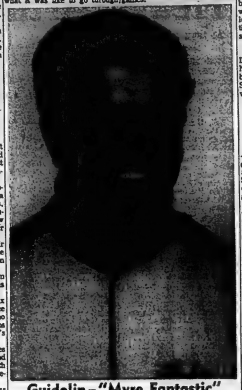
By THE CANADIAN PRESS.

New England Whalers don't intend to let an eight-game road trip knock them out of first place in the World Hockey Association East Division.

The long excursion was supposed to give Toronto Toros a chance to overtake the Whalers, but a 3-2 win over Chicago Cougars Tuesday night gave New England a five-point lead over Toronto.

The Whalers launched their tour with a 6-3 win over last West Division-leading Houston Aeros Sunday night.

Third-period goals by Tom Webster and Tom Williams overcame a 2-1 Chicago lead.



The loss left the Cougars six points behind the fourth-place Cleveland Crusaders, who dropped a 6-3 decision to Los Angeles Sharks in Tuesday's only other game.

Cleveland spoiled Los Angeles a 3-2 lead early in the second period, then took the lead with a four goals in the second period.

Ray Clearwater, Russ Walker, Gerry Pinder and Skip Krake scored the Crusaders' comeback goals.

Tom Edur and Jim Wiste scored the other Cleveland goals, while Gary Veneruzzo, Steve Sutherland and Marc Tardif gave Los Angeles its early lead.

Tonight the Whalers play the Fighting Saints at Minnesota and Edmonton Oilers visit Houston.

Confidence Restored, Two Rinks Post Wins

LONDON, Ont. (CP) — One shot restored the confidence of two faltering rinks Tuesday afternoon in the Canadian men's curling championship.

Larry McGrath of Kindersley, Sask., and Toronto's Paul Savage had little to cheer about until John Clark of Fredericton knocked Alberta from the unbeaten ranks.

"It's 110 per cent better. Now I hope we can put it all together for the rest of the championship, said McGrath after watching Clark knock Alberta's shot rock out with the last stone in the final end to give New Brunswick an 8-6 victory.

McGrath had won his first game of the 11-end round-robin event, 8-4 in 11 ends over Bobby Dillon's Prince Edward Island rink from Charlottetown. He lost both games Monday and had the bye in the early draw Tuesday.

Savage's Ontario representatives—at the championship for the second straight year—dropped both Monday games.

They rebounded with two wins Tuesday, downing previously unbeaten New Brunswick 8-6 in the morning draw and then beating Jim Ursel's strong of Richmond, B.C., 8-3 in the afternoon.

The results left Jim Ursel's Quebec four from Montreal and Don Barr's Glenboro, Man., rink unbeaten in three games. Alberta and New Brunswick have 3-1 with Northern Ontario, B.C. and Ontario at 2-2.

Saskatchewan, at 1-2, moved ahead of P.E.I., 1-2; Nova Scotia, 0-3, and Newfoundland, 0-4.

In other Tuesday afternoon games, Manitoba stopped Fred Wight of St. John's, Nfld., 7-4, and Quebec scored twice in the 12th end to edge Chuckey Ross of Sudbury, Northern Ontario representative, 10-9.

In addition to the Ontario-New Brunswick game, the morning draw saw Quebec trim P.E.I. 9-5, B.C. win 10-3 over Newfoundland, Manitoba check Nova Scotia 6-4 and Alberta down Northern Ontario 14-3.

The 3,171 who took in the afternoon draw boosted to about 12,100 the number who have attended the four draws to date.

"It was getting so I was losing my confidence," McGrath said as he watched the New Brunswick-Alberta match that, had Gervais won, would have left the Saskatchewan four needing a minor miracle to lift them into contention.

Savage credited the keen ice with revitalizing the Ontario rink that appeared somewhat disgruntled Monday and early in the game with New Brunswick.

"We were able to play our fifteen game," he said. "The ice was too heavy Monday and we weren't able to play our game. But you couldn't find better ice anywhere than what we had today. It was really consistent to draw to for the whole game this afternoon."

Skating Championships

Results of Men's Event Bring Disappointment

MUNICH (CP) — Canadian dancers start their quest for medals today as the world figure skating championships go into their second day.

Barry and Louise Soper of West Vancouver and Barbara Berneswski of Toronto and David Porter of Port Perry, Ont., are Canada's representatives in the dance and the best they can realistically hope for is a bronze—with the Sopers given the best chance for that.

Sopers were sixth in the world championships last year while Berneswski and Porter were 10th.

Ludmila Pakhomova and Alexei Gorshkov of the Soviet Union are considered unbeatable this year. Last year's runners-up, Angelika and Erich Buck of East Germany, have quit and their place is expected to be taken by Hilary Green and Glyn Watts of England who finished third in 1973.

In Tuesday's opening events, Canadian officials were disappointed that Canadian men finished seventh and eighth in compulsory figures, Ken Sanders and Val Benic of Toronto were pleased with their fifth-place finish after the compulsory section of the pairs.

Ron Shaver of Cambridge, Ont., was seventh in figures, well back of Jan Hoffmann of East Germany, who won the gold medal.

Canadian champion Toller Cranston of Toronto was eighth after figures and the consensus was that he and Shaver had no chance of overtaking Hoffmann, although both are superior figure skaters.

The Canadians hope to move up today in the men's two-minute program—a section won by Cranston last year at the world championships in Bratislava, Czechoslovakia.

Hoffmann, third in the world last year, won his gold medal by placing first in all three figures with 76.34 points. The silver medal went to Sergei Volkov of the Soviet Union with 75.44 points and the bronze medal to another Russian, Vladimir Kovalev with 72.31 points.

Shaver, second to Cranston in the Canadian championships, had 69.23 points and Cranston 68.96 points.

Generals Spoil Dave's Debut

By THE CANADIAN PRESS.

The coach was new but the result was relatively familiar Tuesday as Hamilton Red Wings dropped their seventh consecutive game and 42nd in 63 starts during the current National Hockey Association Major Junior A schedule.

Ottawa Generals spoiled the debut of Dave Creighton, the third man to hold the coaching post with the last-place Red Wings this season, skating to a 9-3 victory.

Bod Stafanski fired three goals for the Generals who moved into a fifth-place tie with Sudbury Wolves with the win. Line-mate Dean Neuman added a pair with Pat Kibble, Bill Lochead, Tom Newton and Brian Kinsella getting the others.

Dave Norris, Dale McCourt, Mike Hobin, Brian Jones and Mike Cosentino scored for the Red Wings, outshot 41-36.

In other games, Ottawa '67s downed Peterborough Petes 5-2 while first-place Kitchener Rangers defeated Kingston Canadians 6-3.

Comeback For Russ?

OTTAWA (CP) — Russ Jackson says he'll decide in a day or two whether to come out of retirement and play quarterback for Toronto Northmen of the World Football League.

"There'll be no future negotiations," Jackson said Tuesday. "I have their offer and it's up to me.

"I'm not going to drag on though . . . I'll make up my mind in the next day or so and that'll be it."

Jackson, considered one of the finest quarterbacks in Canadian football, retired in 1969 after leading Ottawa Rough Riders to their second consecutive Grey Cup victory.

Bears Up 3-0

By THE CANADIAN PRESS

Smiths Falls Bears appear to have peaked at the right time in the Central Junior Hockey League.

Also-rans most of the season, the Bears broke into first place in the standings in the last two weeks and haven't looked back since.

Tuesday they defeated Gloucester Rangers, who started with first place most of the year, 6-4 to take a 3-0 lead in their best-of-seven semi-final playoffs.

About the same applies to Pembroke Lumber Kings, although they never showed first-place potential during the year. Tuesday, after finishing third behind Nepean Raiders in the league standings, they dumped the Raiders 2-1 to grab a 2-1 lead in their best-of-seven semi-final.

SCUBA DIVING COURSE

A NEW COURSE WILL REGISTER SUNDAY, MARCH, 10, 1974, AT 10 A.M. AT THE QUINTE KIWANIS POOL (BLACK HAWK MOTEL).

'Canada Day' Is Popular

PORT COLBORNE, Ont. (CP) — When English teacher James Foley organized the first Canada Day at Port Colborne high school in 1971, he intended it only as a modest effort to introduce his students to Canadian literature.

But the idea attracted wide attention and this year the event in this Niagara area community has become two days—Thursday and Friday—involving almost 3,000 pupils.

As well as the 1,100 students at the high school, they include Secretary of State Hugh Faulkner, about 200 teachers from across Canada, and about 60 poets, authors and publishers.

"Interest in Canada Day is so great that we're averaging a thousand letters a month inquiring about the program," said Mr. Foley, 33, now a director of the Toronto-based Canada Studies Foundation.

Buys Land

VANCOUVER (CP) — The city of Vancouver has bought 05.13 acres of the Langara golf course from CP Rail for 4.5 million and hopes to recoup the cost by leasing 20 acres for housing. The city plans to retain an 18-hole golf course.

Q.C. Called Empty Honor

HAMILTON (CP) — The treasurer of the 8,000 member Law Society of Upper Canada, himself a Queen's counsel, described the title Tuesday as "an empty honor—a meaningless one."

Sydney Robins told the Hamilton Lawyers Club that "the whole system of awarding QCs is, in my view, misleading to the public and unfair to the legal profession."

Although the annual awards by the provincial government carry little weight with the legal profession as a whole, he said, the public believes that the title QC denotes excellence in the practice of law.

"Even among the most knowledgeable and sophisticated of laymen, the letters QC are viewed as some sort of governmental seal of approval, equivalent at least, I suppose, to the seal of approval of Good Housekeeping Magazine."

Mr. Robins said the traditional reason for appointment of a Queen's counsel—exceptional learning and ability in practice before the courts—has disappeared.

PREPARE EARLY

Hardwood trees in Ontario begin to produce their leaves and flowers for the next season during the preceding summer.

Holiday Proves Costly

KINGSTON (CP) — Prisoners John Martin, 36, and his wife Shirley, 34, were sentenced in provincial court Tuesday to an additional three months for being unlawfully at large.

Court was told they voluntarily returned to their respective institutions Feb. 15 after receiving three-day Christmas passes Dec. 24.

Giant Creation

This is one of more than 80 life-sized prehistoric creatures at Calgary Zoo which were created by John Kneerve. Kneerva, now 91, started creating the dinosaurs in 1934, the first one measuring 103 feet long and 32 feet tall. CP Photo)

Rhodesia's No-go Zone Bigger Than All Ulster

SALISBURY (AP) — In Rhodesia's war against black insurgents, Rhodesia's white-run government is creating a "no-go Northern Ireland" a 5.4 million square miles.

The free-fire zone runs from Rhodesia's borders with Zambia and Mozambique to where the northern Rhodesian escarpments cut through the Mozambique frontier, about 330 miles northeast of Salisbury, the capital.

Government officials say the Mozambique border, source of hit-and-run raiders, is being fenced along those points while bulldozers and flamethrowers are stripping the bush and mopped trees that provide cover for infiltrators on the Rhodesian side.

Some officials say the 300-mile-long buffer will range in width up to 10 miles.

Blacks living in the area are being moved back and the government says 8,000 have already been resettled in hastily built camps.

Other sources say 15,000 or even 20,000 Africans have been shifted and many have not been resettled, which adds to discontent in the area.

The insurgency started in December, 1972, and has claimed the lives of at least 263 black raiders. At least 47 civilians, including white farmers, and 27 members of the security forces also have been killed.

The raiders have demonstrated relatively sophisticated tactics. They are armed with 122mm rockets and mines as well as machine-guns and automatic rifles.

Most unsettling to whites was the admission last year by Prime Minister Ian Smith that some Rhodesian blacks helped the infiltrators either willingly or through coercion.

That admission helped apprehend guerrillas in the early days of Rhodesian independence.

Now the government has had to resettle thousands, create no-go zones and enact tougher laws. The maximum sentence for wilfully helping terrorists was changed last year from 20 years to 30 years or death.

Smith recently warned his countrymen that he sees no quick end to the unrest, although he insisted that security forces have the situation under control.

The government says most of the raiders belong to the Zambia-based Zimbabwe African National Union. Zimbabwe is what black militants promise to name Rhodesia if they take over. The landlocked country has a population of about 250,000 whites and more than five million blacks.

Government controlled media tell Africans in the country the raiders come to rape, kill, burn and loot. The raiders tell them the blacks are in bondage to whites.

The raiders may find 1974 more difficult than last year. Engineers expect to close the gates of the Cabora Bassa Dam near Tete on the Zambezi River and create the world's fifth-largest artificial lake. It will flood back to the Zambian border and—for Rhodesians hope—force the rebels back to the far side.

Like Lake Kariba, the other artificial water body higher up the Zambezi, the army thinks it will form a natural barrier and reduce the length of border that needs to be watched.

Farmhouses in the affected area are sandbagged and surrounded by security fences. Anti-grenade screens block the views from windows. Wives attend first-aid demonstrations and shooting practice instead of tea parties.

The insurgency has hurt the white immigration rate. Since independence Rhodesia as used steady immigration statistics of whites, mostly from Europe, to prove the place did have a future.

Last year the figures seemed to point to a decrease in the total white population. At the end of July the net gain in migrants was 1,590, less than a third of the figure for the same 1971 period. In September the country had a net loss of nearly 800 whites, the first month since independence that a loss was recorded.

Fat People Use Food As Crutch

CALGARY (CP) — Like the woes with his bottle, fat people are using food as a kind of crutch and the crutch can be deadly, says paysgraph Jacques Boulanger.

For many people the only permanent solution to a weight problem is learning to relax and not let the day's tensions lead to overeating.

"You have to get over being an ex-overweight person, that is, a victim of the same causes that got your weight up in the first place and could get your weight up again."

Even when fat people inherit their obesity they are usually eating for primarily psychological reasons, said Mr. Boulanger, a doctoral candidate at University of Calgary.

He suggested that the fat man is not chuckling when he is poked in the ribs because he is jolly but because he is afraid to poke back. So he ends up going home and eating to get over his misery. That means he gets fatter and has to laugh louder when he is poked.

Somewhere between 40 and 80 per cent of the children of fat people are themselves fat whereas only about nine per cent of children whose parents are average weight will become obese, Mr. Boulanger said.

At the other end of the lifespan, the fat person is likely to die years earlier than the slim one and Mr. Boulanger said if a cure could be found for obesity, the average lifespan of Canadians would increase seven years.

More women than men are likely to be fat. Statistics show 65 to 67 per cent of the nation's women over 40 years old are overweight, he said.

He recommends obese people learn "basic life skills", namely not getting tense and turning to food when things go wrong.

"We have to go back to basics," he said.

That means learning, through such devices as breathing exercises, how to keep relaxed. It also means learning how to poke back when ribbed.

Mr. Boulanger maintains that getting people to develop new habits can reduce tension by as much as 30 per cent in two months.

CORRECTIONS: Advertisers are responsible for only one day for FIRST incorrect insertion. Report in the week of an error please call The Intelligencer before 9 a.m. the next morning. Be sure to call "Want Ad Dept."

BIRTHS

ADAMS — Wayne and Valerie (nee Bonnell), are pleased to announce the arrival of a son, Craig Norman, on Tuesday, March 5, 1974 at Belleville General Hospital. Brother for Jason, Stephen, Hopwell and honour on maternal side.

BARKHOUSE — Jack and Joan of 10 Cedarcrest Drive, are pleased to announce the arrival of their daughter Jennifer Dawn, at Quinte Memorial Hospital on Sunday, March 3, 1974. Weight 7 lbs. 14½ ozs. A sister for Tracy and Lisa, grandaughter for Mrs. Jean Allen, Stirling.

IN MEMORIAM

HARLEY — In loving memory of Mr. Minnie Harley, dear mother and grandmother, who passed away March 6, 1973.

Those we love don't go away,
They walk beside us every day,
Unseen, unheard but always near,
Still loved, still missed and very dear.

—Always remembered by her loving family.

CARD OF THANKS

The family of the late Mrs. Lorraine Hogle wish to express their sincere thanks to Drs. Hossin and Green and Nurses of Ward 3 and 4th floor in Belleville General Hospital for their kind attention and care. A special thanks to Rev. Leslie Bates, Sat. Earl and the John B. Rush Funeral Home, and to all our relatives, friends, neighbours and friends of Lorraine, donations and cards received during the illness of our dear mother and grandmother.

HENDERSON — We wish to extend our sincere thanks and appreciation to relatives, friends and neighbours for their kindness and assistance in so many ways and for floral tributes during our time of bereavement in the loss of a loving wife and mother.

Jack Henderson and Jackie.

We wish to express our sincere thanks to Dr. Hossin and the nursing staff of 3rd floor, Belleville General Hospital. Dr. Murray, Major R. A. Bennett and John B. Rush Funeral Home.

The family of the late Francis R. Beckwith.

I would like to thank all my friends and relatives for prayers, cards and flowers I received while a patient in the Kingston General hospital and thanks to Mr. Peterson for visiting me.

Mrs. George Brookman.

We would like to thank all our friends and relatives for their kindness and expressions of sympathy. Also thanks for donations, cards and floral arrangements. Thoughts and prayers of all were appreciated.

Mrs. and Mrs. Bill Brookman.

COMING EVENTS

Builds Birdhouses

EDMONTON (CP) — Horace Ramsell, a victim of multiple sclerosis, is building birdhouses—59 a day. He and two friends have begun a local employment program have been at his store Jan. 8. The houses, for bluebirds, can be nailed to a fencepost or tree and will be given to acreage owners in the Elnocsin area, naturalists near Calgary and to youth groups who will distribute them to farmers. The money for the house comes from a Local Initiatives Projectgrant.

Gas Resources

Although most of Canada's oil and gas reserves are in the western provinces, the country's ultimate resource potential lies in the frontier areas, such as the continental shelves and Arctic areas. A report issued in 1973 under the authority of the federal energy, mines and resources department showed Canada's proven reserves of conventional oil in place totalled 44 billion barrels. However, only about 16 billion barrels is recoverable under present technological and economic conditions. Proven natural gas reserves are estimated at 120 trillion cubic feet, of which 72 trillion cubic feet of pipeline gas is recoverable. Since six billion barrels of oil and 19 trillion cubic feet of gas have already been produced, Canada's proven oil and gas resources remaining are 16 billion barrels and 53 trillion cubic feet, respectively. However, as shown in the inset map, large areas of Canada and offshore areas are being explored for further oil and gas reserves.

Alcoholics' Stomachs Have Drug Sewn In

PONOKA, Alta. (CP) — Sir Alberian have a built-in, or more specifically, a sewn-in inducement to stay sober.

Their stomachs would be inflated by 10 small tablets sewn into the patient's abdomen. Alcohol combining with particles from the tablets which have been absorbed into the system creates a chemical reaction in the body that disrupts a key step in the digestive process.

The highly-socially-chosen male alcoholics were said by the doctors involved to be the first subjects in Canada to undergo such implant operations to new up their drinking problems.

The operations were performed at the Alberta Hospital in Ponoka in order to give Canada its own store of research information on the value of the anti-alcoholism weapon developed in Europe.

The drug used, disulfiram or Antabuse, has been used in Canada for years but not in a way that, said Dr.M. J. Lewis, the Australian-born overseer of the Alberta Hospital project.

But oral usage poses two basic problems.

Dr. Lewis said people, particularly alcoholics, are not always responsible enough to be entrusted with the daily duty of taking a dose of Antabuse, especially when they realize it will prevent them from having the drinks they desire.

In addition, large quantities must be taken for the drug to be effective and there is no way the system can store it. There is no assurance that prolonged use in large quantities will not create undesirable side effects.

The implantation method allows smaller dosages since the chemical is absorbed slowly and steadily.

Whichever way it is used, the drug produces results, said Dr. Lewis.

People who have taken it and broke the mistake of having a drink afterwards echo that belief.

One treated alcoholic who conducted this kind of personal research said later:

"For the first half-hour, I was afraid I was going to die and for the next was afraid I wasn't going to."

In less dramatic language, Dr. Lewis said the effect of the drug, alcohol and alcohol can be "distressing and dangerous."

Dr. Lewis said federal health authorities set high standards for his group before granting them a licence to proceed with the sewn-in experimental implants.

They had to be satisfied that the Canadian team would be able to remove the "wrinkles" which had been reported from some of the European implants.

This required development of a new form of implantation.

In France, doctors used a hollow surgical instrument, like a leather punch, to pierce the body. The tablets were then dropped down the hollow metal tube into the patient's body tissue.

In the Alberta operations, the patient in each case was anesthetized. An incision slightly larger than that used in an appendectomy was made in the left side of the abdomen.

Then the 10 Antabuse tablets of 100-milligram strength were placed in a rosette pattern on a hollow inflatable tissue under the muscle.

The operations all took less than an hour. The patients were fully mobile after a few hours.

Dr. Lewis said the Canadian program was responsive to the French method because it permits more even distribution of tablets and holds the risk of surgical and operative infection to a minimum.

It was too early to assess the over-all results of the operations, however, Dr. Lewis expects the remaining material, when fully assessed, largely to determine whether the use of implanted Antabuse becomes widespread in Canada.

He hopes too that the implantation patients will be able to stay away from alcohol after the implanted drug is completely absorbed in six to eight months.

Sugar-beet Farmers Head for Good Year

LETHBRIDGE, Alta., (CP) — Sugar-beet farmers in southern Alberta are heading for one of their best years as a result of the rising world price for sugar.

Most of the sugar consumed in the Alberta-Ontario market comes from sugar beets grown on 40,000 acres in the Lethbridge area.

One of two remaining sugar-beet operations in Canada, it produces 800,000 tons of beets which yield 120 million pounds of sugar each year.

The other sugar-beet operation, much smaller, is in the Winnipeg area.

"If the present prices continue, you will receive for the 1973 crop the highest return per ton of beets ever received by Alberta growers," Laloven Bast, president of the executive of the Alberta Sugar Beet Growers Association, told the annual meeting here recently.

But Mr. Jensen, also president of the Canadian Sugar Beet - Growers Association, called in an interview for Alberta's sugar-beet farmers deserve higher returns.

Actually, at current prices, sugar beets bring about $50 a ton. Mr. Jensen said, "but we have to keep in mind production should things turn in the other direction."

The floor price has been raised but world prices have been fluctuating so much that the federal government has not decided on a new price.

Inflated Oil Price Opposed By McKeough

TORONTO (CP) Alberta's move to add oil to Canadian$1 at inflated world prices is understandable but not defensible, Treasurer Darcy McKeough of Ontario said Thursday.

It will only create a great Alberta, not a great Canada, he told annual convention of the Ontario Municipal Electric Association.

"In the first instance, that so-called world price is a phoney price. It has been set on the basis of a self-serving cartel—the organization of petroleum producing nations—as to what the market will bear.

"I frankly see little reason why Canadians should pay a world monopoly price for oil that is produced in Canada. What is nationhood all about?"

Notice

Judicial Sale Of Part Lot 2 Concession 4, Township Of Thurlow, County Of Hastings
IN THE SUPREME COURT OF ONTARIO
BETWEEN:
SCOMPLAN REALTY LIMITED
— and —
VENDITRA

Pursuant to the Judgment and Order for sale in this cause and to the Consent of the Mortgagee dated the 19th day of February, 1974, the Property of Part of Lot 2, Concession 4, of the Township of Thurlow, in the County of Hastings, more particularly described in the Abstract Title as the 20th day of March, 1974, at the hour of 11:00 o'clock in the forenoon, at the Court House, Belleville, by the auctioneer of the property here-inafter named.

The lands are known as Part of Lot 2, Concession 4, Thurlow, and are situated on the north side of Highway No. 2 and are improved with a residence and outbuildings.

The property is said to be a building site only but by forty feet. Approximately 200 feet of frontage on Highway No. 2 and 200 feet deep with Forced Air Gas furnace and municipal water supply.

CONDITIONS OF SALE

1. The highest bidder shall be declared the purchaser, subject to the reserve bid, if any, and if there is a dispute between two or more bidders, the property shall be put up again and sold to the highest bidder, unless that time the vendor's solicitor shall have the right to withdraw the property from sale.

2. The purchaser shall pay to the vendor's solicitor at the time of sale a deposit of ten per cent of the purchase price, and in default of such payment the property may be put up again and sold without further notice to the purchaser.

3. The purchaser shall pay the balance of the purchase price within thirty days from the date of sale, time being of the essence.

4. The purchaser shall be responsible for all taxes, rates and assessments from the date of sale.

5. The vendor shall be entitled to vacant possession on closing.

6. The purchaser shall be responsible for the preparation of the deed and for the registration thereof. Upon payment of the purchase price the vendor will execute and deliver to the purchaser a deed in registrable form.

7. The purchaser shall be responsible for the payment of all land transfer taxes and registration fees.

8. The vendor shall not be required to furnish any survey or to define any boundaries or to remove any encroachments.

9. The purchaser shall be responsible for all costs incurred in connection with the sale and in connection with the title search.

10. The vendor reserves the right to amend or withdraw any of the above conditions at the time of sale.

Dated at Belleville, Ontario, this 19th day of February, 1974.

Marty Onrot Plays Big Role In Growth of Music Market

TORONTO (CP) — Several people can be credited with the growth and success of the Canadian music market since the mid-1960s. While this market can never compete with that of the United States or Britain, it has nonetheless reached a point where Canadian musicians can put down roots and develop their talents in Canada, and at the same time taste international success.

Marty Onrot, an independent concert promoter and manager, can be singled out as one of the major influences on the development of Canada's growing musical status.

Single-handed, Onrot began promoting top-rule concerts in Toronto in 1964, presenting fast-rising musicians such as Bob Dylan, Peter, Paul and Mary, Ian and Sylvia and Gordon Lightfoot. He became involved with the Mariposa Folk Festival and dabbled in the group management business.

Here he quickly found himself "knocking my head against a brick wall" when it came to arousing interest in a talented Canadian singer. That singer was Neil Young "who realized, prior to my realization, that the only place to go was Los Angeles," Onrot recalled.

Neil Young went on to achieve phenomenal success through Buffalo Springfield, Crosby, Stills, Nash and Young and as a solo performer. Onrot went back to promoting concerts, recognizing that he hadn't become involved in the U.S. with Young but determined to develop the Canadian market to a point where up-and-coming Canadian talent would stay in Canada.

Onrot quickly established himself as Canada's top man in the field of concert promotion. He pulled in top billings, presented the country's first Los Angeles making vital contacts in the music business and being up British and American acts for Canadian appearances.

But Onrot, a bearded and sharp-eyed 30-year-old, has no illusions as to Canada's potential. The country is essentially "a good training ground, a great place to come back to and live and work in."

But Canada will never ever be able to support a star of any magnitude," he added. "There are not enough people to support you and not enough places to play. We're on the perimeter here.

"With 220 million people to the south of us, it doesn't take a financial wizard to know where we're going to make our money."

Nonetheless, Onrot admits he has made "a great deal of money" through his enterprises in Canada. But the market is limited and he is the first to see that as the careers of the artists he manages and his own career may reach a stage where a move to the United States or Britain would be the only logical progression, having reached ultimate success at home.

Swivelling on a rich leather chair in the comfortable Adelaide office below his home, Onrot reflects that management and promotion "is like a huge game of chess, only with triple the number of players—there are so many variables, you can never be sure you're making the right move."

Probably the key to his success has been his own deep involvement with music itself. Through this he has developed "a level of personal contact with the musicians I work for. They are my trip and I become part of their trip. It's almost like a marriage."

Showbiz Shorts

NEW YORK (AP) — A psychiatrist testified Tuesday that he did not believe the death of rock singer Janis Joplin by a narcotic overdose in 1970 was accidental.

The remark by Dr. Harold Trigg came as a comment on evidence offered earlier by Dr. Edmund Rothschild, a New York specialist who examined Miss Joplin 10 months before her death.

Rothschild had said the singer told him she had overdosed on heroin six times during an 18-month period, turning blue on one occasion.

"Considering six overdoses, one where the individual turned blue, that would not be my conception of what is accidental death," said Dr. Trigg.

Trigg testified in state Supreme Court in a suit brought by Albert Grossman Management Co. seeking payment on a $300,000 accidental-death insurance policy taken out on Miss Joplin. The firm acted as agent for the singer.

The Associated Indemnity Corp. says her death Oct. 4, 1970, was a suicide and contends it had never received her correct medical history.

LOS ANGELES (AP) — Amanda Blake, who for 19 years has played Kitty Russell in James Arness's Matt Dillon on television's longest running series, Gunsmoke, informed CBS Tuesday that she won't be back next season.

Miss Blake said she is tired of commuting to Hollywood from her home in Phoenix, Ariz., and has other activities she wants to pursue, a spokesman for the network said.

Miss Blake plays the owner of Dodge City's Long Branch Saloon and the cool love interest of Matt Dillon.

LOS ANGELES (AP) — The producer of NBC's Sanford and Son, says he does not expect ailing Redd Foxx, the show's star, to be back for the remainder of the season.

Aaron Ruben said Thursday he still completes three remaining shows with Foxx. If so, it will remain in hospital after undergoing tests for a nervous condition. The test results have not been disclosed.

Impresario Hurok Is Dead

NEW YORK (CP) — Sol Hurok, who probably produced more applause than anyone else during a lifetime spent as an impresario, died Tuesday afternoon, aged 85, but the applause went on.

"S. Hurok Presents," a simple phrase in tiny print above the great names of opera, dance and serious music that he presented to United States audiences, appeared for probably the last time above the posters at Carnegie Hall where Maria Callas made a triumphant return to the New York state Tuesday night.

The concert began with a brief announcement. "A great man in the world of music, Sol Hurok, died this afternoon." Those who had not yet heard of the death gasped. Then the master of ceremonies said that the evening was being presented as a tribute to the producer.

After that, it was an evening of ovation after ovation for Miss Callas, making last of a 10-year retirement, and her partner, tenor Giuseppe di Stefano.

Yesterday Jill Tinsley, during a meeting with David Rockefeller, chairman of the Chase Manhattan Bank, he was rushed to Beekman Downtown Hospital, where he was pronounced dead 20 minutes later.

At once lofty and disarming, Hurok brought some of the world's greatest singers, musicians and dance troupes to North America.

Those artists, many unseen on this continent until then, included Russian ballerina Anna Pavlova, the Scots Guard from England and the Bolshoi Ballet from the Soviet Union.

At times, Hurok's sponsorship of Soviet artists stirred controversy, especially amid growing protests over the treatment of Soviet Jews.

He left to a firebombing at his home in Manhattan during 1972, in which a young receptionist died. Hurok was overcome by smoke.

A Jew born in Russia, Hurok later signed better production for Russian artists and diplomats while insisting on his status as Jewish groups.

Hurok was born in Pogar, Russia, the son of a hardware merchant. When he was 16, his family gave him 1,300 rubles and sent him to Kharkov to learn the hardware business.

Canadian Awards Postponed

TORONTO (CP) — The Maple Muzik Awards, popular-music awards intended to showcase Canadian talent on an international television special in April, have been "deferred," Arnold Gowitch, president of the Canadian Recording Industry Association (CRIA), said Tuesday.

He said there was strong criticism of the new CRIA awards from members of the recording industry.

Walter Greatla, publisher of RPM Weekly, the Canadian music industry trade magazine which sponsors the June Awards, said the decision to be for the Maple Music Awards "means the same as withdraw to me."

Mr. Greatla said he has agreed to put the June Awards on television next year as part of the production agreement.

"I have planned to do that anyway," and will add some additional awards categories based on sales figures rather than on preferential ballots, he said.

This year's June Awards, presented for excellence in the recording industry in Canada, will be held March 26.

Feature Times

AT THE PARK — In Color — Two very entertaining, very different films are playing at the Park Theatre, Belleville, this week. Today and Thursday, "Fuzz" starring Burt Reynolds and Yul Brynner. Then Friday, Saturday and Sunday, "Cleopatra Jones" starring Tamara Dobson and Shelley Winters. Times are 7:00 and 9:00 p.m. Matinee performance on Saturday at 2 p.m. Regular prices apply.

Your Horoscope

By BERNICE BEDE OSOL
THURSDAY, MARCH 7

Aries (March 21-April 19) In your work today you tend to overlook the obvious. Your mind will wander. Pay attention or silly mistakes will result.

Taurus (April 20-May 20) Youngsters you deal with will employ clever ruses to cover their misconduct. You'll have to be a Sherlock Holmes to spot them.

Gemini (May 21-June 20) There is something you are reluctant to tell your mate. It's best you do before he learns about it from another.

Cancer (June 21-July 22) You are very susceptible to suggestion today. Another could easily be your thinking for you. Don't let her do so.

Leo (July 23-Aug. 22) Be extra careful with money and material goods. There is a indication you could lose something valuable by deceit or trickery.

Virgo (Aug. 23-Sept. 22) Vague fears and self-doubts hamper your efficiency and are curbing your drive. No one put them there except you.

Libra (Sept. 23-Oct. 22) Tell the truth at all costs even if it hurts. If you cover up something at this time you'll later have to build upon a lie.

Scorpio (Oct. 24-Nov. 22) If you are going to be generous at this time be sure it's to one who needs or appreciates what you do for her.

Sagittarius (Nov. 23-Dec. 21) A goal you have in mind is of questionable value. Take time today to analyze your aims to be sure what you seek is worth it.

Capricorn (Dec. 22-Jan. 19) Your hunches can play tricks on you today. Don't make serious judgments based upon first impressions.

Aquarius (Jan. 20-Feb. 19) Due to unusual circumstances you may find yourself in the uncomfortable position of profiting at the expense of a friend.

Pisces (Feb. 20-March 20) Watch what you agree to do today. You may take it lightly but the other party won't. If you don't deliver, you'll lose their respect.

SIDE GLANCES

by Gill Fox

"We all ought to sacrifice something to ease the energy crisis. For instance, who needs Mondays?"

Listings Changed

Daily program listings for the Global TV network will be shown in The Intelligencer as being presented on Channel 3 beginning with the Tuesday, March 5, insertion. These programs are received on Channel 2 by viewers with TV antennas but since 85 percent of TV owners in this area subscribe to Cablevue service and receive the programs on Cable Channel 3, it has been decided that the listing should be shown as it applies to the majority of homes.

OLD CAR BOOM

LONDON (CP) — A British company manufacturing replica veteran cars announced in order to export 300 of its "horseless carriages" to the United States. Buyers pay more than $5,200 for the two-seater 1908-style cars to recapture the joys of Saturday motoring. Maximum speed of the cars is 45 m.p.h. from the 1,500 c.c Triumph engine which returns 40 miles to the gallon.

Vitamin E Claims Without Support

By G. C. THOSTESON, MD

Dear Dr. Thosteson: Please give me some information on vitamin E. What is it good for? What is it made of? On the market it looks like oil in a capsule. Should it be heard of vitamin E.—Mrs. A.M.

I'll take violent issue with your last statement, I've heard so much about vitamin E, I'm up to here with it. And I've written multiple times in this column about it, but maybe not frequently enough.

Vitamin E—according to various of its boosters—is supposed to clean out the arteries, to increase sex vigor, prevent cancer, remove scars, halt baldness, strengthen muscles and a list of other things as long as your arm.

You'd think, at our present state of medical science, people would be highly suspicious of anything that is touted as being "good for what ails you," but this doesn't seem to apply to vitamin E. People (including many of those who sell it) simply insist that it's "good for you."

This is in the face of the fact that scientific studies do not support these claims, and the rumor reaches such a stage that the National Research Council of the National Academy of Sciences not long ago issued a statement saying so.

Some of the claims, it added, were based on such experiments as depriving laboratory animals of vitamin E totally, and long enough to bring harmful results. In humans, the report pointed out, vitamin E is so widely available in ordinary foods (particularly vegetable oils, cereal grains and animal fats) there is scant chance of anyone's not getting all he needs or can use.

The net result after this statement will have on the tone of vitamin E sold every year remains to be seen. I predict a big surprise in August, at least there is no visible harm—both our important exceptions if anyone tries to cure cancer or baldness with vitamin E to the exclusion of obtaining proved treatment, for the end result can be fatally dangerous or painful diseases of long standing.

But what a lot of hospitals or clinics we could build with the money being spent on vitamin E!

The council did not deny that vitamin E has its uses, but found that it need be taken by mouth only in special cases, such as with premature babies or patients who are unable to absorb fats in their food. There aren't many of them.

Win at Bridge

No Bonus For First Trick

Opening lead—♦8

By Oswald and James Jacoby

Even with inflation and high interest rates it doesn't mean that you should rush to win tricks. There is no bonus for taking the first trick.

If East plays third hand high he can win the first trick and the second trick also but after that he will sit helplessly while South romps off with his contract.

If he analyzes the lead he can be sure that his partner has led a singleton or the top of a doubleton. In the first case failure to win that first trick may mean that East won't take any tricks at all. In the second case he may lead to eventual defeat of the contract.

East shouldn't really play low. He should carefully put his nine of spades on his partner's eight to show strength in the suit he led.

South will win that first trick and probably can set all dummy's diamonds. Then if he tries the club finesse and if West has remembered to hang on to his five of spades, South will be down two.

If South has seen the handwriting on the wall he will lash his ace of clubs and get out for down one.

This last difference is relatively unimportant. The important thing is that East's third hand low play has resulted in defeat of the contract.

V•CARD Series ♣♠

The bidding has been:

West	North	East	South
1♦	?	Pass	Pass

Pass	1♠	Pass	2♦
Pass	2♠	Pass	3♦
Pass	3♠	Pass	7♦

You, South, hold:
♠ A K 7 6 ♥ K 7 6 5 ♦ 2 ♣ 8 6 5 4 3

What do you say?

A—Pass, unless your partner is a decided underbidder, in which case you should bid four spades.

TODAY'S QUESTION

Instead of passing over your two spades, West has bid three diamonds. What action do you take now?

Next: What do you do?

'Let's Make a Deal' Man Got All He Asked For

TORONTO (CP) — When Monty Hall tired of his television program, Let's Make A Deal he asked for what he thought was the impossible in a new contract—double the money, 19 television specials a year and other concessions right down to a new car and chauffeur.

"I wanted out; Marilyn (his wife) wanted out, and this time I asked the network for everything I could think of . . .

He was in Israel last May when his agent called; ABC-TV accepted.

So Monty signed a three-year contract with the network for the show that has made him a millionaire in its 10 years of existence.

The show is aired six times a week on 130 stations to about 15 million viewers. Requests for tickets come in by the thousands and there is about a two-year wait for contestants.

Of all the game shows Let's Make A Deal is the most popular and Monty says it is in the top five tourist attractions in Los Angeles.

Contestants dress up in costumes and make trading deals for unknown objects. Members of the audience jump and scream and urge players on. Perhaps a can of sardines will be traded for a car or a week's holiday for a year's supply of dog food.

"To beat this kind of show you have to think fast because you're ad-libbing all the time," Hall said in an interview in Toronto.

"When things go wrong you have to keep the show going somehow. And the most important thing is you really have to like people."

Monty Hall was born Monte Halparin 50 years ago. He grew up in Winnipeg and in the 40s moved to Toronto where he rose to become station manager at CHUM radio.

He joined the CBC and began doing talk shows, children's programs, wrestling matches and hockey games.

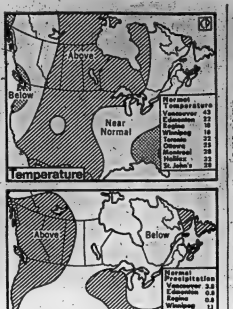
Later, he went to New York and Los Angeles for what he has called "the road to greater earning potential."

He said he spent a couple of years walking the streets.

"I phoned up every one I saw and all kinds of people and you know what happened—absolutely nothing.

"I'd phone a TV producer and say, 'this is Monty Hall,' and he'd say 'Micky Hall? No, I'd tell him, 'It's Monty Hall.' And he'd say, 'Oh, you're from Montreal.' "

After working several game shows, he hit on the idea for Let's Make A Deal with partner Stefan Hatos.



Critics have panned the show as a forum for greedy people to make fools of themselves, but Monty disagrees.

"It's not a greed show. There's an atmosphere of fun, like people going to a party . . . I went to a country club party once where they were giving away raffle prizes worth maybe $50 each. And all these millionaires were clawing at each other to get the prizes. They were just as caught up in the excitement."

The rags-to-riches story of Monty Hall is told in his autobiography Emcee Monty Hall, which will be released next month.

But Hall doesn't like the book. He said publishers Grosset and Dunlap condensed it and took too much of his personality.

"They asked me to do the book and I spent several months talking into a tape recorder. But they edited it down so much it now reads like Reader's Digest, I'm an emotional person and maybe when I get excited I talk too much. But they killed the description and my style."

Cool and Dry

Near-normal and above-normal temperature readings are expected to cover most of the country for the first-half of March, according to the long-range weather out-look of the United States Weather Bureau. Precipitation is expected to be below-normal for most of Canada, with above-normal readings expected for the Maritimes, British Columbia, Alberta and portions of Saskatchewan. This is not a specific forecast and changes may occur. (CP Newsmap)

Khan el Khalili in Cairo Objected to Facelifting

CAIRO (AP) — To some the Khan el Khalili is a tourist trap, to others a charming oriental market with brass trays, stuffed leather poufs, carpets and jewelry. To the residents of artisans and shopkeepers who live and work there, the khan is home.

Under an urban renewal plan, the city's oldest marketplace was supposed to get a modern facelifting. But protests by artisans and shopkeepers forced the Cairo government to shelve the project.

"It's a good thing they did," said Ahmed Abdul Aziz, 72, in his second-storey workshop where he was hunched over a table chiseling a design on a silver urn. "It should be left like this; the old setting is better as a background for what we make."

And sell. The charm of the khan is its narrow, twisting alleyways with canvas roofs that let in shafts of sunlight, its dozens of quiet, dark oriental stores where one bargains over the price of an item while sipping mint tea. There is instant atmosphere.

"Mister, come into my shop, I make you good price," a shopkeeper may call out as a visitor walks by. He can make the same pitch in French, German and, lately, Russian.

The khan was established in 969. Its enclosed courtyards provided shelter and protection for traders and caravans wending their way across the deserts to Fustat, a bustling city on the Nile when Europe was still in the Dark Ages.

Nearby was the Al Azhar mosque, a sort of Islamic St. Peter's.

Sultan Azouaw Ghory ordered the khan destroyed and rebuilt in 1511, banning the slave trade that had flourished within its walls for centuries. When development in this huge city shifted inland to the area that is the presidency Cairo, the Khan el Khalili became a centre for craftsmen.

"It's a good thing they did," said Ahmed Abdul Aziz, 72, in his second-storey workshop where he was hunched over a table chiseling a design on a silver urn. "It should be left like this; the old setting is better as a background for what we make."

And sell. The charm of the khan is its narrow, twisting alleyways with canvas roofs that let in shafts of sunlight, its dozens of quiet, dark oriental stores where one bargains over the price of an item while sipping mint tea. There is instant atmosphere.

"Mister, come into my shop, I make you good price," a shopkeeper may call out as a visitor walks by. He can make the same pitch in French, German and, lately, Russian.

The khan was established in 969. Its enclosed courtyards provided shelter and protection for traders and caravans wending their way across the deserts to Fustat, a bustling

Radwan said that after the 1956 war, a number of Egyptian Jews left the khan to set up shop in Israeli cities, where they quickly won government backing for exhibitions of their work abroad.

"Most of our attempts to do business abroad are on an individual basis," Radwan said.

"But there is new interest in our work by the government because of the possibility of earning foreign currency. Our co-operative is in the process of getting together a catalogue covering all the goods we produce here."

Survey Taken

PRINCE GEORGE, B.C. (CP) — Students, teachers and parents in this central B.C. city have elected school principals, more stress on academic subjects and use of volunteer workers in schools, according to a tabulation of more than 2,000 questionnaires for an investigation of education in the province.

Building Record Set

GRANBY, Que. (CP) — A construction record was reached in this Eastern Townships city of 75,000 last year where the value of building permits jumped 5½ times over 1973. Granby Zinc, a subsidiary of Montreal, issued 636 building permits in 1973, for a value of $14,701,450. Permits issued the previous year valued $5,964,396.

Pay-what-you-can Theatres Flourish

TORONTO (CP) — You some money into the milk bottle, the birdcage, the shoe box, and you can see a play in a former warehouse or a foundry.

Pay-what-you-can theatre has become fashionable among the 23 subsidized drama groups currently operating in Toronto.

Bernard Hopkins, business manager of the Tarragon Theatre, said his group started the vogue three years ago.

"We started it for practical and ideological reasons. Business is usually slow on Sunday afternoon. Also we want to appeal to people who love theatre but are too broke to attend. We get a mix of out-of-work actors, poor people with big families, senior citizens and slum-area kids."

He said people shell out an average of a dollar a head for the Tarragon's popular shows, but it can go as high as $1.40 or as low as a dime.

He said people with the most money are the biggest cheapskates.

"We've had some grand-and mid-size cars pull up and make a big fuss when they throw a quarter into the kitty. If they get too snarky, I've been known to ask them if they want an official receipt for tax purposes."

The kitty varies. At the Factory Theatre Lab it's a plastic chip container. At the Actors Theatre, a former furniture warehouse, it's a cookie jar. At the Backdoor Theatre, it's a birdcage. At the converted stable, A Space for Theatre, patrons sit on pillows on the concrete floor and toss contributions into an ash tray.

The Toronto Free Theatre, in a former gas works, charged nothing for its performances until it lost its Local Initiatives Program grant. Now it charges $2.

A holdout that refuses the pay-what-you-will gambit is Global Village.

Roy Fleming, its director, said "I don't believe in begging, and I don't believe that free performances are really intended by poor people."

He said his group put on a free performance of a children's play on Christmas Day that was attended entirely by well-dressed, middle-class people.

Besides, he said, he knows of another theatre that collected donations in a big piggybank, and some ingrate stole the bank.

Tweed

TWEED — Plans for the proposed Hungerford-Elsevir Senior Citizens' Housing Project to be constructed in Tweed in conjunction with the Tweed housing unit now under construction, are now on display in the office of the village clerk, Garrett Morton.

Preventive Medicine Practised

INDIANAPOLIS, nd. (AP) — Doctors at Methodist Hospital of Indiana are treating people before they get sick in an effort to ensure a longer, more productive life.

It's all a part of what they call prospective, or preventive, medicine.

Traditionally, doctors have been concerned with helping people get well after they are diseased and have treated only the diseased part of the body.

Dr. Lewis C. Robbins, chief of the hospital's health hazard appraisal program, observed in an interview that "for 60 years medicine has been teaching how to fragment."

For about 15 years, Robbins and a colleague, Dr./ Jack H. Hall, the medical centre's director of graduate medical education, have been developing means of predicting what illnesses might befall an individual.

They have published a book to advise physicians how to assess health hazards and help patients prevent or delay illnesses.

Robbins and Hall say: "We are convinced that most medicine practised today is so specialty-oriented that it is virtually impossible to claim that continuous, comprehensive medical care generally is available."

Hall said he expects health hazard appraisal will become common in five or six years.

A doctor knowledgeable about preventive medicine can advise patients how to adjust their life-style in order to stay healthy.

Mackenzie River Closely Studied

WINNIPEG (CP) — If a Mackenzie Valley natural gas pipeline is built, what will be the effect on aquatic life in the river and its tributaries?

Scientists who have been working for nearly three years on the question have come up with a number of tentative findings, coupled with proposals for minimizing ecological damage.

Based at the federal government's Freshwater Institute in Winnipeg, the scientists have been scrutinizing the river literally from top to bottom for clues to its life systems.

The project, launched in May, 1971, has made an intricate study of the spawning, migration and feeding habits of the 36 species of fish found in the Mackenzie system.

The aim is to measure just how seriously the fish would be disturbed by a gas or oil pipeline or a highway, by the heavy machinery, lubricants and other construction materials that would be involved or by an oil spoil.

"It's easy to make major changes without thinking," said John Millen, a fisheries engineer who is working with the scientists.

For example, excavating in stream beds to make pipeline crossings would involve the danger of silting up the fish eries ifnd. Mr. Millen doesn't want rivers "running silty" where they flow now run clear."

The scientists have been doing intensive research studies mounting pressure.

Canadian Arctic Gas Study Ltd., a consortium of 29 firms, hopes to file an application by April with the National Energy Board for permission to build a 48-inch gas pipeline from the Mackenzie. Board hearings will take perhaps a year.

The Freshwater Institute studies and recommendations will be used at the hearings to test Canadian Arctic Gas proposals for protection of the northern environment, one of the points on which the board must be satisfied before any go-ahead is given.

If permits are granted, work on the 48-inch pipeline may begin by 1976 and Alaskan Prudhoe Bay gas might reach markets in California, the U.S. Midwest and Eastern Canada by 1980.

The researchers began almost from scratch, setting up base camps at Arctic Red River, Norman Wells and Fort Simpson in 1971 and at Aklavik and Fort McPherson in 1972. Their first task was compiling a basic fish inventory.

The only previous records of northern fish resources were reports of 19th-century explorers, RCMP records and catches for their sleigh dogs, missionaries' diaries and the memories of local fishermen.

The work involved tagging the larger fish to chart their travels and discovering where the spawning beds lay in the tributaries, so they would not be buried inadvertently by gravel siltation.

On the smaller end of the scale, biologists have had to learn about the tiny animals and plants known as benthos which live in sediment at the bottom of the Mackenzie River system and constitute an important part of the food web.

The fisheries group was first asked to examine the impact of an oil pipeline, a gas line and a highway, but the likelihood of an oil line has faded and work is already proceeding on a gravel highway to link Fort Simpson and Inuvik.

The chief rival to the Canadian Arctic Gas idea is a $4-billion proposal advanced by El Paso Natural Gas Ltd. of Texas to transport the natural gas by pipeline to southern Alaska for liquefaction and shipment by tankers, avoiding Canada altogether.

The Canadian government has indicated sympathy for the objectives of Canadian Arctic Gas, provided there is no lowering of environmental standards or neglect of Indian rights and interests. However the El Paso scheme has been gaining favor in the United States as that country becomes more concerned about self-sufficiency of its energy resources.

Meanwhile the Freshwater Institute, under the direction of the fisheries and marine services of Environment Canada, has produced tentative guidelines to ensure the protection of aquatic life in the Mackenzie system.

The recommendations include the use of oval instead of round culverts because fish can cope better with the slower rush of water, a pinpointing of migration seasons and spawning grounds that should be avoided and a ban on removal of gravel from stream beds.

The researchers' report says actual pipeline crossings of streams should only be made at seasons when the fish are least sensitive to disturbance. Temporary stream crossings should only be permitted if they are made of non-silting material such as trees from which the knobs have been removed.

While a gas pipeline break would pose little danger to the aquatic life, work camps and fuel dumps should be far away from any water body and a limit should perhaps be placed on sport fishing by pipeline personnel. After the pipeline is installed, the riv ers and streams must be checked regularly for siltation.

Record Harvest

QUEBEC (CP) — A record 12 million pounds of blueberries were harvested in the province in 1973. Fine weather increased the crop at a government pilot farm, for example, to 162,000 pounds from 60,000 pounds a year earlier.

The gunwhale of this boat dips dangerously close to the water as a netful of rainbow trout is hauled in from a prairie pothole lake. Fish farming started on the prairies in 1968, with about 3,500 farmers involved, mainly in Manitoba and Saskatchewan. (CP Photo)

Fish Farming

Catherine McKinnon Gets Good Exposure

TORONTO (CP) — Catherine McKinnon isn't much for low necklines, but with 15 hours of air time a week—mostly on the variety show Everything Goes on the new Global TV network—she is undoubtedly Global's most exposed performer.

"I have never worked so hard," Miss McKinnon said in an interview. "I've no idea how many shows I'm doing. All I know is when I have to be there, and hope that I have the right clothes and script."

Miss McKinnon has to rehearse and sing 13 songs a week, which comes to 180 songs in the next three months. She has to reel off crisp details on Canadian history, before doing some comedy acting and interviewing.

It's a mind-boggling load, but Catherine says she is happy with it because she is doing something new that will stretch her range of abilities.

She seems to have been stretching steadily for the last seven years. She made her name 19 years ago at the age of 19 on the Don Messer Show, and then became one of Canada's biggest-selling recording stars, thanks to a beautifully clear, classically trained singing voice.

Many, including her recording company, thought that that should be enough. But Catherine wanted to be a lot more than just the Voice of an Anne Murray album which sold 175,000 copies.

In 1967, she turned down $8K-$10 worth of concerts and joined Spring Thaw, to learn how to work on stage.

Then she accepted club dates to learn how to handle crowds. Before said stint, she starred in three TV series.

Now it's nightly variety on TV, with the opportunity to work her way into interviewing, as well as those 180 songs.

Everything Goes is by far Global's biggest attempt to create a show of international calibre. Catherine says, and she is convinced it will work because it is essentially a variety show rather than a talk show.

Record Harvest

QUEBEC (CP) — A record 12 million pounds of blueberries were harvested in the province in 1973. Fine weather increased the crop at a government pilot farm, for example, to 162,000 pounds from 60,000 pounds a year earlier.

Sadler's Wells Becomes English National Opera

LONDON (Reuter) — One of Britain's most enterprising and popular opera companies has finally settled an identity problem which has plagued it for five years.

When the Sadler's Wells Opera left its old home in bleak north London for a converted movie house several miles away in the capital's theatre district, the company's former home kept the name "Old Sadler's Wells Theatre."

Confusion ensued and devotees of opera would often find their taxis whisking them off to the old theatre in darkest Islington, instead of to the Coliseum, hardly a stone's throw from Trafalgar Square in the city centre.

Now, after having initially refused the company permission to change its name, the British government has agreed to put an end to the situation where the Sadler's Wells Opera was singing at the Coliseum, while various other companies were performing at the still-thriving Old Sadler's Wells Theatre.

From next August, the company becomes the English National Opera, a compromise name that seems to have satisfied the nationalminded Welsh and Scots, who have their own companies and who strongly opposed an original suggestion of British National Opera.

The decision to rename the company was made at the same time as the company's move in 1968, and after a poll among opera-goers, the National Opera was decided on as the most popular name.

But the company's management had not reckoned on a peculiarly British law by which the trade ministry controls the use of the word "national" in company names.

So Sadler's Wells had to put their application before the government—which came back with a firm "no." At one stage the ban was even extended to cover all three words, "British," "English" and "national."

Exasperation at the Wells reached such heights that in 1972 one member rebelliously suggested Peoples Democratic Royal National Opera House.

Many lovers of Sadler's Wells will no doubt mourn the demise of the company's old name, which goes back to 1683 when a London surveyor by the name of Sadler discovered a well said to have possessed powers of miracle healing in the Middle Ages.

Health-conscious Londoners began to frequent Sadler's new wells, but found the waters so unpalatable that their best had to serve wine to wash the taste away.

Music was then added to Sadler's services to pass the time for those taking the cure, and the establishment developed into a "music house." With varying fortunes—it was at one time a pickle factory—the theatre lived on.

Then in the 1830s, a theatrical director named Lilian Baylis, who had devoted most of her life to bringing drama within the reach of all, spearheaded a successful campaign to have the theatre rebuilt.

In the new theatre, she founded the Sadler's Wells popular opera and a ballet company which later transferred to Covent Garden to become the world-famous Royal Ballet.

Appointed Coroner

WHITEHORSE, Y.T. (CP) — Stanley Johnson, cultural director for the Yukon Native Brotherhood, has been appointed a coroner. He is the first native to hold the job. Mr. Johnson has had 15 years experience in the field of pathology.

100 Miles to Gallon in Motor Glider

TORONTO (CP) — Elmer Balint, 54, a design supervisor with the Ontario ministry of transportation and communications, has found a novel means for saving fuel while flying his two-seat plane.

Mr. Balint, co-founder of the Provincial Motor Gliding and Soaring Association, owns Canada's only motorglider—in effect, a glider with an engine.

He said on a 5,000-mile round trip last summer to Baie d'Urfe, his plane consumed only 41 gallons of fuel, an average of more than 115 miles to the gallon.

In his RF-5-B Sperber plane he can travel 100 miles on 35 miles. Mr. Balint said. The plane takes off under its own power, unlike gliders without engines, but once sufficient altitude is gained the engine can be shut off and the plane soars in air currents like a pure glider.

"You can fly truly like a bird in a motor glider," he said. "When conditions are suitable for soaring you don't even need the engine. Even birds don't flap their wings all the time to travel through the air."

"I have often managed to do more than 400 miles on less than four gallons of fuel," Mr. Balint said. "Using the engine alone you get about 35 miles to the gallon and cruise around 100 m.p.h."

Mr. Balint was a fighter pilot with the Royal Hungarian Air Force and now lives at Blackstock, Ont., about 15 miles north of Oshawa. He took up gliding as a sport six years ago.

5-WAY STEREO SYSTEM - GREAT SOUND BY LLOYD'S/GARRARD

Solid state Lloyd's tuner-amplifier with slide controls for bass, treble, balance and volume. AFC prevents station drift on FM. Tuner meter. 8-track tape deck plays automatically or manually with program change button. Garrard automatic changer has cueing lever, dual diamond/sapphire needles. Each speaker contains one 6½" bass woofer and one 2" horn tweeter. Headset for private listening. System includes 7 LP's and one 8-track tape by popular artists. # 28440.

Student Residence in Ottawa Proves Quagmire for CMHC

OTTAWA (CP) — Pestalozzi College opened three years ago as a model student residence, descended from the same concept that produced the notorious Rochdale in Toronto but claiming safeguards to avoid that experience in unfettered - freedom - turned-chaos.

Today, Pestalozzi is part of a $15-million quagmire encountered by Central Mortgage and Housing Corp. (CMHC), the federal housing agency, in putting up 90 per cent of the funds for Rochdale. Pestalozzi and three other Ontario student residences.

Pestalozzi, named after a Swiss educationist, has incurred deficits averaging more than $30,000 for the last seven months, the latest audit says.

It is in receivership awaiting foreclosure proceedings by CMHC—if the federal housing corporation can make its claims stick in court.

In Toronto, Rochdale also is in receivership and a decision handed down by Supreme Court of Ontario—now being appealed—says CMHC is entitled to possession of the mothballed building because payments of principal and interest on the mortgage are in arrears.

Rochdale has been subject to the scrutiny of five coroner's juries which have recommended it be closed because of its links with the illicit drug trade.

Pestalozzi was built as a high-rise residence near Ottawa University with room for about 60 residents. But even from conception, apparently, projected annual costs in mortgage payments, taxes and operation called more than $1 million against only about $650,000 maximum income.

It has had five general managers in four years and a staff turnover twice that brisk rate of change. As of last Jan. 1, none of the annually-elected education committees had lasted a full year.

No mortgage payment had been made and municipal taxes owing totalled more than $400,000.

Maintenance director Bob Kerr listed construction problems ranging from malfunctioning elevators to a faulty fire alarm system, alternating spurts of hot and cold water in the plumbing and heating controls in each room that sometimes heated floors above.

Pestalozzi's flaws were rooted at least in part in another era, the mid-1960s, when student activism was at a peak.

The federal funding through CMHC was supported by the sentiment of the times, plus some sound credentials among the principal organizers.

The concept originated with a Toronto student housing cooperative called Campus Co-op Residences Inc. It formed a separate organization to provide the financing, called Co-op College Residences Inc., and approached the Ontario government for education grants.

A private member's bill in the Ontario legislature came within one vote of getting those grants. When that fell through, the organizers turned to the federal scene, incorporating the proposed residences as non-share, non-profit capital corporations primarily for funds under the National Housing Act.

The applications had credibility because of the reputable firms involved.

Pestalozzi offered a new concept because of its activist jargon of the times as a model for the future.

There were to be five schools as well as a residence—environmental development, communications, academic and policy studies, social action and fine arts.

Collapse of the hopes for Ostario grants scuttled that concept.

Last July 19, in the Commons, Ron Basford as responsible minister of CMHC said a full investigation was being conducted into the whole enterprise.

But David York, CMHC lawyer in charge of the foreclosure, said recently in an interview he has yet to see any financial statement by Pestalozzi.

The last one presented to the board of directors showed total revenues of $422,051 against total expenses of $659,804 and deficits over the last seven months.

Mr. Basford, urban affairs minister, has expressed the hope that Pestalozzi eventually can purchase the building once the CMHC investigation is completed and the court cases decide who has first claim.

It is being contended in the Ontario Supreme Court cases that the CMHC financing was beyond the powers of the Crown corporation.

Ekkon Woollams, Progressive Conservative member for Calgary North, has put on record in the Commons that court evidence to date "strongly suggested that tender bids for the college co-operative projects were cooked and invoices falsified so that labor and supplies charged to the projects . . . were used in some cases for private homes."

The records—and more than half for Pestalozzi appear to have vanished—show that the cafeteria at Pestalozzi lost about $5,000 monthly for seven months in 1972-73.

No official inquiry was conducted. The manager at the time, an American, is among the many no longer on the staff.

Two to Tango Hard to Find

BUENOS AIRES (AP) — You can barely find two to tango down here. Argentina's greatest gift since Eva Peron is hardly a dance any more.

"The modern tango is made for the singer," sighed Juan Carlos Copes, whose tarantula-like postures in his Tango-Ballet have people calling him Argentina's primer tanguero. "It no longer has the rhythm for dancing."

What was once called a danceable sad thought has become a popular song. People are still listening to the music, but that's all.

Young Argentines turn up their noses at the idea of tango lessons and head for the nearest discotheque.

"How can you blame them," asked a white-haired father of four teen-agers. "Music has to keep up with the times and the tango hasn't. It's only grand old men like me that still dance the tango."

Some people blame the change on the record companies, reasoning that it is cheaper to pay a singer with a guitar than a whole tango orchestra. Others point to greedy entrepreneurs eager to fill small places without having to provide a dance floor.

Still others cite glitzy musicians' union codes. And some simply blame the times.

"When I was a boy it was the only way you could get a girl away from her mother," one man remembers. "Now it's different. Today's dances are much more individualistic."

Francesca Braggioli Lodge, an Italian-American dancer who found herself here as wife of the American ambassador, ran a tango clinic for a while just because she loves the dance.

"It's romantic, it's savage, it's coarse, it's chic," she said.

"It all depends on who you are, what you are doing, how you're dressed. But the music is always the same . . .

"And it's a man's dance. He can do anything he wants. A girl has to be led . . . That's the beauty of it."

Originating as a mixture of European and African rhythms, nurtured in the slums of the immigrant city of Buenos Aires and outlawed for its lewdness until 1900, the tango had to cross the Atlantic to become popular.

Rudolph Valentino danced it on the screen—and suddenly people were doing it on the tables of Paris. With world-wide acclaim, tango finally became acceptable in its own country.

But the tango here was never the stylized dance people learned from Arthur Murray. Argentines twirled and contorted and improvised to the music in a subtle sexual duel. During the week boys got together to practise and invent new steps in order to be in top shape for Saturday night.

Tango was danced in cafes, in saloons, in tents, even in the streets.

Until the '50s every neighborhood had its tango club and a kid who couldn't dance it was a wallflower. Then it declined.

Today about the only place left to dance the tango is at one of the three or four folk dances held every weekend, and even there it is given little time.

But tango music is more popular than ever.

Oldsters crowd record bars to buy old favorites, and premier vocalist Carlos Gardel, still outselling modern competition, is more popular now than when he was alive.

Most people's current favorite is Roberto Goyeneche, who croons haunting if undanceable tunes.

There's not likely to be a last tango in Buenos Aires for a long time. Only nobody will remember the steps.

Cases Down

SASKATOON (CP) — The number of active cases of tuberculosis under treatment in Saskatchewan dropped to 323 last year from 349 in 1972. The province's Anti-Tuberculosis League says the number of new cases diagnosed was 171, up from 170 the previous year. The provincial government-funded league spent $705,670 for treatment, compared with $808,763 in 1972.

Questions and Answers On Highway Travel

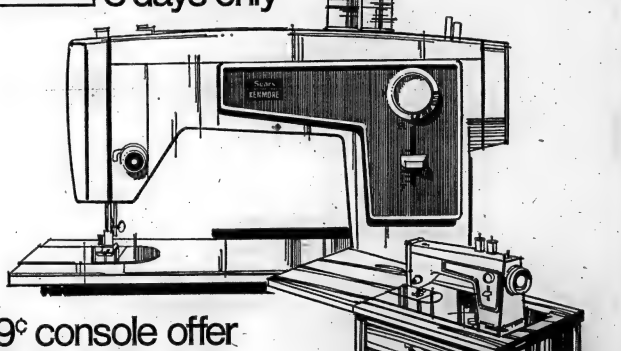
Ontario Motor League
Eastern Ontario Club

QUESTION: Can you supply any information on vacationing by car in Newfoundland?
ANSWER: Although it is Canada's youngest province, Newfoundland and Labrador are among the oldest settled regions in North America. Recent archeological excavations have revealed that the Vikings settled along the rugged coastline about 1000 A.D. The site of the Norse settlement may be viewed at L'Anse-aux Meadows, an isolated stretch of shoreline at the tip of the Great North Peninsula.

Newfoundland Island is a rough triangle of 43,359 square miles. Its greatly indented eastern side provides many sheltered harbors and large bays. Most of the interior is undulating barrens or forest. Along the west coast, the Long Range mountains rise to 2,500 feet. In the valleys of this region are the commercial forests.

Driving in Newfoundland and Labrador requires a few extra precautions. Although the Trans-Canada Highway is paved and well maintained over most of its 547 miles, many provincial roads are unpaved. Motorists should travel with a good spare tire and keep speeds down to 40 miles per hour or less in especially rough spots. To see the countryside properly, tourists should plan to cover no more than 100 mile per day. It is advisable also to carry a picnic lunch, as many of the villages have no restaurants. Visitors may find gasoline prices substantially higher in the northern reaches of the province than in the southern portions of Newfoundland. Wraps are required for cool summer evenings, and warm clothing is necessary in spring, late summer, autumn and, of course, winter.

The Caribou, moose and black bear that inhabit the rugged interior of Newfoundland and Labrador have long challenged big-game hunters. For those who would stalk smaller quarry, geese, ducks, partridge, snipe and rabbits may be found. Fishing is also a popular sport in this maritime province; salmon, trout and bluefin tuna are the favorite catch.



The approximately 35 provincial parks of Newfoundland and Labrador offer a wealth of scenic beauty, ranging from quiet seaside coves to lofty wooded lands. Parks are open May 15 to September 30.

The vehicle entry permit to the parks is honored in all provincial parks and is good for all season. Camping permits must be obtained from the officer on duty, and camping is limited to 18 consecutive days stay.

Licences are required for fresh-water fishing, and no firearms are permitted in the parks. Pets are permitted in the parks unless otherwise indicated; however, they must be kept on a leash.

For camping and parks information, write to the Director of Provincial Parks, Confederation Building, St. John's, Newfoundland.

Bihari Refugees Face Rejection by Pakistan

DACCA (Reuter) — Recent demonstrations in Bangladesh refugee camps have emphasized the explosive situation developing there as many non-Bengalis come to realize they will not be repatriated to Pakistan.

In one recent protest, hundreds of Bihari children spread themselves in the road to prevent a visiting International Red Cross official from leaving the Adamjee camp on the outskirts of Dacca.

Raggedly dressed men and women pounded on his car shouting "Send us to Pakistan" and "You must help us."

A few days later, the lives of Red Cross officials were threatened during an angry demonstration in the northern town of Saidpur where most of the population is Bihari.

Biharis are so called because many of them came to what was formerly East Pakistan from the Indian state of Bihar.

Since the 1971 Indo-Pakistan war which ended with the creation of Bangladesh, they have been restricted to ghettos or relief camps.

Officials of both the International Committee of the Red Cross (ICRC) and the office of the United Nations High Commissioner for Refugees (UNHACR) fear that the trouble in camps which house more than 400,000 non-Bengali refugees is going to become increasingly serious as the massive post-war repatriation program winds down.

Of an estimated 600,000-700,000 Biharis in Bangladesh out of a total population of 75 million—670,000 have sent in applications to go to Pakistan.

Under the repatriation which began last September to exchange some 300,000 people among the three countries of the subcontinent, Pakistan agreed to take about 80,000 having close association with Pakistan plus 25,000 cases of hardship.

A foreign ministry spokesman for repatriation said most people in the camps were still hoping to go to Pakistan. "When they realize they cannot go—when they see the last plane has gone—there will be rioting and bloodshed."

Bangladesh places most of the blame for the mood in the camps on the Pakistan government. Recent protests in the camps have had an anti-Pakistan flavor as the Bihari refugees realize that the country of their choice is not willing to accept them.

The Delhi Agreement, which led to the start of the repatriation process, provides for talks between Pakistan and Bangladesh on the fate of the remainder of refugees when the first stage of repatriation ends.

But with the present impasse in relations between the countries no one expects these talks will be held soon or has any high hopes of their outcome.

ICRC officials say they were surprised at the mood of optimism in the camps during the first four months of the repatriation program.

But this optimism is receding rapidly.

Mohammed Salahuddin, who is in charge of the Section 12 camp in Dacca's outer suburb of Mirpur said only 2,000 of 72,000 people in the camp had been repatriated.

A major problem in the camps is the looting of food grains provided by the government through the Bangladesh Red Cross. ICRC delegates say that gangsters, both Bengali and Bihari, take a takeoff of half the 4,000 tons supplied to the Dacca camps each month.

Foreign ministry officials stress that in any new talks they will press Pakistan to take an "equitable" share of Bihari refugees—about half the total number in the country.

A spokesman said Bangladesh's ability to absorb them was limited, even with international aid.

"How do you rehabilitate a man, anyway, who does not want to stay in your country?" he asked.

Dies in Fire

BEAUFORT, Ont. (CP) — Frank Nihill, 68, died Tuesday when fire swept the small frame home where he lived alone in this community, 27 miles east of Peterborough. Fire officials were investigating the cause of the blaze.

Danish Voters Swing to Left

COPENHAGEN (Reuter) — Disenchanted Danes swung to the left and scattered their votes among a string of minority groups in Tuesday's local elections, dealing a major setback to the country's traditional political parties.

Final unofficial results left the opposition Social Democrats still the largest single group with 33.2 per cent of the vote in 14 shires and 277 municipalities and the twin cities of Copenhagen and Frederiksberg.

But only 28.7 per cent of the 3,500 electorate voted. It was the lowest turnout in any local election since 1917 and reflected the voters' continued dissatisfaction with high taxes and bureaucracy which led to December's inconclusive parliamentary elections, observers said.

Minority groups—seven of them fighting their first local campaign—ranging from the extreme left to the right picked up support across the country. They included the Progress party, which won 15.9 per cent of the vote in December's election on a pledge to abolish income tax and government red tape.

Coast Guard Skipper Thinks Sunken U.S. Warships Located

TORONTO (CP) — Capt. Archie Hodge, skipper of the Canadian Coast Guard research ship Porte Dauphine, has a rendezvous with a wreck beneath the chill waters of Lake Ontario.

If his optimism holds true, historians will salute the triumphant conclusion to a marathon treasure hunt for the last two ships to be recovered from the War of 1812 on the Great Lakes.

Two converted merchant schooners, the 114-ton Scourge and the 112-ton Hamilton, used by the United States in the attacks on York and Fort George, capsized during a sudden storm while being escorted by British warships.

"Judging by all the evidence of our electronic search, I'm confident they will be found in an area six miles north-northwest of Port Weller at the entrance to the Welland Canal," said Capt. Hodge.

"Now we're waiting for just the right weather conditions to go back and lower some underwater television cameras for final confirmation."

The hunt for the ships began in 1971 with a combined operation of the Royal Ontario Museum (ROM), the Great Lakes Institute, the provincial historic sites board and the Canada Centre for Inland Waters at Burlington, to which the Porte Dauphine is currently attached.

Project leader is Dr. Daniel Nelson, a St. Catharines, Ont., dentist and research associate with the ROM. Capt. Hodge credits him with masterly problings.

"Dan Nelson visited the U.S. Navy archives, but his biggest success was with the British Admiralty. He persuaded them to look back nearly 150 years to the log book of HMS Wolfe, flagship of the British flotilla.

"As trained naval observers, their sighting of the Scourge and Hamilton had the greatest chance of accuracy. It was on these bearings that we based our search in an area eight miles by four."

The hunt was maintained whenever the Port Dauphine could be spared from its official duties, but frustration soon set in.

"We had located several wrecks but nothing like those we were after," Capt. Hodge said. "Cursing our luck, we were just about to quit when our side-scan sonar evaluation tests started to give us the results we hoped for.

"The area in question has a flat bottom and there are no rocks or boulders around to confuse us. The underwater cameras should tell us what conditions the wrecks are in, but all my experience suggests wood does not deteriorate that much in fresh water."

Recovery of the Scourge and Hamilton would rank as an outstanding success story in underwater archaeology—linking the gunboats of the War of 1812 with a 58-year-old sea dog from the Second World War.

Capt. Hodge was an articled clerk in a London, England, law office when he was called up for duty in the Royal Naval Volunteer Reserve.

His career took him to the Royal Canadian Navy and he rose to the rank of lieutenant-commander.

When he is not searching out wrecks from the past, Capt. Hodge is engaged in a continuous study of the Great Lakes, testing water temperatures, currents, sedimentation and water pollution.

The ship he has commanded for the last 16 years is a 347-ton vessel named after a gate in the old French fort at Louisburg, N.S.

Senate Debates Cuban Trade

WASHINGTON (CP) — A senior official of the Nixon administration says an American decision on the sale of goods to Cuba by foreign-based U.S. subsidiaries should "accommodate the interests of all concerned."

He said the specific question of selling Argentine-made cars to Cuba is under review.

Commerce Secretary Frederick Dent made the statements Wednesday in a lively exchange with Senator Vance Hartke at a session of the Senate finance committee dealing with a trade-reform bill.

There was no mention of the proposed sale of 20 locomotives to Cuba by MLW-Worthington Ltd. of Montreal, which is controlled by a New Jersey parent firm, but the Canadian locomotives and the Argentine cars have been consistently linked in debate here and abroad about U.S. laws banning trade with Cuba's Communist government.

Hartke, a free-wheeling Indiana Democrat who opposes the trade bill, raised the question of the proposed Argentine-Cuban deal and asked to whom the parent American automakers owe allegiance.

"Dent, 51, a former textile executive, said the question needs to be put into prospective.

"If it were a foreign multinational operating in Virginia, what would our position be in dealing with them?" he asked, adding later: "It seems to me that you have to evaluate all of the circumstances . . . that you have to look at it from both viewpoints and develop policy on that basis . . . accommodating the interests of all concerned."

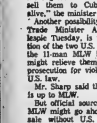
Sharp Says MLW Near Decision

OTTAWA (CP) — External Affairs Minister Mitchell Sharp said Wednesday the directors of MLW-Worthington Ltd. of Montreal are to decide Friday whether to sell locomotives to Cuba in possible violation of the United States Trading with the Enemy Act.

He said the government has not decided what it will do if Washington does not grant an exemption for the $18-million sale from the Trading with the Enemy Act, under which U.S. firms and their subsidiaries are prohibited from trading with Cuba and various other countries without special permission.

MLW is a subsidiary of Studebaker-Worthington Inc. of New Jersey.

The possibility of intervention by the government-owned Canadian Commercial Corp. to buy the engines from MLW and resell them to Cuba is "still alive," the minister said.



Another possibility, raised by Trade Minister Alastair Gillespie Tuesday, is the resignation of the two U.S. directors on the 11-man MLW board. That might relieve them if possible prosecution for violation of the U.S. law.

Mr. Sharp said the next step is up to MLW.

But official sources indicated MLW might go ahead with the sale without U.S. permission, expecting protection from the jet-unpassed competition bill.

Under that bill, still to be introduced in Parliament for the session that started last week, penalties could be imposed on company directors for submitting to foreign laws by dropping an export sale.

"If she hurries we can make it before another fare increase."

Nixon Backs Haldeman View

WASHINGTON (AP) — President Nixon has offered to give sworn testimony, in writing or in a White House interview, to speed the House of Representatives impeachment inquiry. But some congressional Republicans questioned whether he would be open enough.

Nixon told a news conference Wednesday night he will surrender to the House judiciary committee all tapes and documents made available earlier to Watergate special prosecutor Leon Jaworski, besides making himself available for questions.

The president appeared to break some new ground in discussing his taped March 21, 1973, meeting with ousted counsel John Dean and former staff chief H. R. Haldeman.

Dean has testified that Nixon was informed then that it might take $1 million to ensure silence

Senate Backs Nixon's Veto

WASHINGTON (AP) — President Nixon vetoed an oil-price rollback Wednesday, praised Senate acceptance of the veto, and then predicted energy prices will stop rising and maybe start falling back later this year.

The steep rise of food prices also should slow down, Nixon told a news conference, promising once more to avoid an economic recession this year.

But sustaining his veto of emergency energy legislation including the oil-price rollback, Nixon said, the Senate "voted longer gas lines and voted nationwide rationing."

The White House has argued that a price rollback would discourage oil production and make fuel shortages worse.

by those originally convicted of participation in the Watergate break-in, and that Nixon said raising the money would be no problem.

In subsequent testimony, for which he last week was indicted on a perjury charge, Haldeman reported that Nixon said the money could be raised but that it would be "wrong." At an August news conference, Nixon supported Haldeman's recollection.

Asked to explain Haldeman's perjury indictment in light of the taped record available to the grand jury, Nixon said he told Dean payments of hush money would have to be linked to a grant of executive clemency and that extending clemency would be wrong.

"I means that the whole transaction was wrong," Nixon said, acknowledging that others hearing the tape "may reach different interpretations." He added: "I knew what I meant, and I know also what I did."

Despite that belief he could not dictate to refer projects under way to any environmental assessment agency.

Miners in Britain Will Work Monday

LONDON (AP) — Britain's 280,000 coal miners are due back at work Monday following a wage settlement to end their strike. But industry that has been snarled by the walkout is expected to take some time to get back into full production.

Prime Minister Harold Wilson was expected to order a speed-end to the three-day work week which his Conservative predecessor put much of Britain's industry on to conserve coal-supplied electric power. But much of industry will take some time to get back into full production because the shortened work week disrupted the flow of raw materials and components.

Maintenance men began preparing the coal pits today just hours after the leaders of the miners' union reached a $230-million-a-year wage agreement in 13 hours of bargaining with the National Coal Board.

Thesettlement was the first order of business for Wilson's new Labor government, which took office Monday after defeating Edward Heath's Conservatives in the general election last week.

To get the settlement, the government threw out the 4-year-old anti-inflation ceiling on pay raises which the Conservatives tried to defend in the elections.

Even before the voting, however, it was generally conceded that whichever party won would put aside the ceiling to end the strike. And the settlement that was accepted was proposed by a fact-finding pay board appointed by Heath's government.

The miners will get an average increase of 22 per cent, with the lowest-paid of the basic pay increasing to $71.30 a week from $58.17 and the highest to $102.20 from $84.60. Bonuses for shift work and other benefits will mean an additional $18.40 for most of the underground force.

The size of the proposal resulted from the pay board's discovery late in the election campaign that the miners, who traditionally have gotten more money than other manual laborers, had slipped to seventh place because their earnings were being computed on a different basis from that of other workers.

The settlement, $29 million less than the $259-million package the miners demanded, still had to be approved by union local meetings Friday. But the vote will only be a formality because of the 25-to-2 vote for acceptance by the mine union's executive.

"We didn't get the full thing, but we think it's a reasonable settlement," union chief Joe Gormley told reporters.

Unless the government subsidizes the increase in miners' wages, electricity costs may rise and add to Britain's already serious inflation problem. But Derek Ezra, chairman of the National Coal Board, said that even with the increase, coal will remain competitive with imported oil because of the recent big price increases by the oil countries.

Elsewhere on the economic front, cabinet Minister Shirley Williams warned housewives not to expect a drastic cut in food costs as a result of Labor's election victory. But Mrs. Williams, named to head a new department of prices and consumer protection, said she hopes to announce subsidies to reduce the price of basic foods within weeks.

Ehrlichman Indicted Over Ellsberg Case

WASHINGTON (AP) — A federal grand jury today indicted former White House aide John D. Ehrlichman and Charles W. Colson on charges of violating the civil rights of Daniel Ellsberg's psychiatrist.

Also indicted on the same charge were Watergate conspirators G. Gordon Liddy, Bernard L. Barker, Eugenio R. Martinez and Felipe De Diego.

The indictment charged that the defendants engineered the break-in at the Beverly Hills office of Dr. Lewis J. Fielding "with intent to search for confidential information concerning Daniel Ellsberg."

The burglary took place Sept. 3, 1971, when Ellsberg was under indictment in connection with the leak of the Pentagon Papers.

The grand jury also indicted Liddy on two counts of refusing to testify before a House committee.

Ehrlichman also was charged with one count of lying to FBI agents last March 30 and of trying to a grand jury about the activities of the White House special investigative unit known as the "plumbers."

Russian Makes Plea For Rebel

MOSCOW (AP) — Soviet physicist Andrei Sakharov said today the jailing of a young hero given fellow dissident Vladimir Bukovsky was a blot in the Kremlin's "chain of repression."

Bukovsky, 35, was sentenced Wednesday in Orel to four years in a labor camp and two years in Siberian exile for anti-Soviet agitation.

Sakharov said the indictment charged Khaustov transported typewritten copies of books the government will not let be published in Orel. He said it also charged him with helping smuggle abroad for publication the prison diary of Edward Kuznetsov, one of the leading figures in the 1971 Leningrad Jewish trial.

"It was these actions, which in fact were a perfectly normal exchange of information, that served as the basis for the charges against Khaustov," Sakharov said.

" . . . The Khaustov case is yet another link in the long chain of repression of people for their opinions. Do not allow another repression against an honest and brave man."

Sakharov took his position known in a statement signed by five other dissidents and distributed to Western correspondents.

The Weather

Synopsis : The spring-like weather comes to an end today as a mass of cold air moves southeastward. Temperatures which rise about twenty degrees above normal will drop to well below normal, in the north accompanied by some snow and in the south by showers and thunderstorms. Friday will be cold and mainly clear.

Spain May End Vatican Concordat

MADRID (AP) — Authoritative sources said today the government has told the Vatican it is ready to end the 1953 church-state concordat because of the case involving Spanish Bishop Antonio Anoveros. This would remove the protection given him from prosecution.

The bishop is under fire for a sermon urging more freedom for the Basques, and the government has threatened the 64-year-old prelate with indictment or expulsion. Either action, without the approval of the Vatican, would violate the concordat, which regulates relations between church and state.

Police Open Fire

GUATEMALA CITY (Reuter) — Police opened fire Wednesday night on gunmen terrorizing the electoral fraud in last Sunday's presidential elections in the Central American republic of Guatemala. First reports said a girl was wounded by a bullet Wednesday night in one demonstration, and police said that three students allegedly murdered by supporters of Arana Osorio.

Border Fights Continue

BEIRUT, Lebanon (AP) — Iraq said today four Iraqi soldiers were killed and seven wounded in the third straight day of border fighting with Iran. Radio Baghdad said Iranian and Iraqi countries battled at two border points Wednesday, using mainly artillery and mortars.

Government Waits for Food Board Before Further Bread Prices Action

OTTAWA (CP) — The government will await discussions between the food prices review board and the baking industry before making any more efforts to influence bread prices, Consumer Affairs Minister Herb Gray said Wednesday.

But it would be prepared to take appropriate action if a March 20 meeting between the two groups indicated that steps to hold back prices were warranted. He was replying to Commons questions from James McGrath (PC—St. John's East) and Terry Grier (NDP—Toronto-Lakeshore).

Earlier, a number of bakeries announced price increases. Increases in Quebec beginning Tuesday, agreed to hold the increase to three cents.Mr. Gray said, in other provinces, that bakery will hold its increases to two cents a loaf.

Corporate Foods, which already has increased its Quebec price by four cents, also agreed to hold the cent to that province. It plans a two-cents-a-loaf increase in Ontario,

specified future date.

Weston Bakeries Ltd. of Montreal, which earlier announced a four-cents-a-loaf increase in Quebec beginning Tuesday, agreed to hold the increase to three cents.Mr. Gray said, in other provinces, that bakery will hold its increases to two cents a loaf.

Corporate Foods, which already has increased its Quebec price by four cents, also agreed to hold the cent to that province. It plans a two-cents-a-loaf increase in Ontario,

Steinberg Ltd., another bakery that had increased its national bread prices by four cents, also said that the loaf it will roll back the price by two cents. And A. and P. said it would increase bread prices by two cents outside Quebec and three cents within the province.

Safeway Ltd., a major western supermarket chain, did not plan any price increases and Eastern Bakeries, with a number of Metropolitan stores, had said it would hold any increases to two cents a loaf.

News Briefs

Greater Voice Sought

TORONTO (CP) — Ontario's municipal electric utilities decided Wednesday to take legal action in the courts against the provincial government if they do not get sufficient say in the running of the province's electricity system. Delegates to the annual convention of the Ontario Municipal Electric Association approved a resolution on the matter. It results from the government decision to appoint only two association members to the 15-member board of the Ontario Hydro Corp., replacing the Ontario Hydro Electric Power Commission.

Record Award

VANCOUVER (CP) — The largest British Columbia traffic injury damage award ever was made Wednesday when a Vancouver Island man was awarded $250,000 for brain injuries suffered when he was struck by a pickup truck. Mr. Justice T. R. Berger made the award to William White, 23, a forest company cleanup man who was rendered unemployable by the injuries.

Silver Price Drops

TORONTO (CP) — Silver hoarders are lying low because of the continuing decline in the price of the metal, Ernest Keith, head of the silver and gold department at the Bank of Nova Scotia, said Wednesday. He said silver closed Wednesday at a bid-ask price of $4.00 to $5.30 an ounce, down from $7 the week before.

Brandy Beats Drugs

ALBANY, N.Y. (AP) — Residents of the Ann Lee old age home are being encouraged to drink brandy instead of taking expensive and potent tranquilizers, and the manager says the death rate has dropped to 18 per cent from 40 per cent to 1966.

High Waters

Manpower Lack, Highrises: 'Serious Trouble'

Trenton Fire Chief Sounds Alarm

By COLIN BRUCE
Staff Reporter

TRENTON — It doesn't look like council will agree to enlarging Trenton's fire department...staff, and its chief says serious trouble is coming.

For the past five years, following a provincial study, he has asked for additional staff, a request that council has turned down each time. Mayor Bob Patrick believes council's response will remain unchanged for now.

"I've been hollering for five years to get more staff, and when highrises are here we'll be in real serious trouble," says the chief.

The department's 12 full-time firefighters is backed by a support force of 78 volunteers.

At present two to three full-time firefighters work the day shift and one or two firefighters are on nights. When the night man is on a call, the station is left unattended.

"I don't know what's going to happen. It's not too good," says Chief Cecil Ellis.

Council has referred the chief's request to current budget talks where the mayor predicts it will be denied.

Last year the department responded to 475 calls which totalled an estimated $170,00 in fire loss.

Fire Chief Cecil Ellis

Boat Lessens Service

TRENTON — In operating a water supervised craft, Trenton fire department is necessarily jeopardizing its effectiveness and readiness as a fire protection unit, according to a four-year-old Ontario Fire Marshal report submitted by the town.

Despite the provincial urgings, the fire department maintains the service.

According to the Ontario Fire Marshal's Office, "the service reduces the firefighting personnel on duty, every time it is used."

Chief Cecil Ellis in his report of 1970 said the boat was used 20 times for causes including three stranded boaters to fishing out swimmers caught too far from shore.

While such services are generally considered a drain on staff, the fire marshal was doubly concerned since only two firefighters are on daytime duty in Trenton.

Hydro Plan Cancelled

TYENDINAGA — Ontario Hydro has eliminated this Quinte Mohawk reserve as one of its options for supplying more power to Prince Edward County.

The route was one of several originally selected by Hydro engineers seeking to feed power across the Bay of Quinte. But, the reserve Council, worried about the availability of land for its community, said it could grant no right-of-way for a cable across land.

Wednesday night the council received a letter from Robert Murray, engineer who headed the Hydro study team, saying the Mohawks' concern was appreciated and the Tyendinaga route had been withdrawn from the Bay of Quinte study.

JP Sometimes Hard to Find

TYENDINAGA — Each time Quinte Mohawk police officers have to swear out a summons, they must go to Belleville to seek out a justice of the peace.

And, often, it's difficult to locate such an official in the city, Constable Richard Brant told the reserve council Wednesday night.

The problem becomes particularly acute when officers must swear they have served a summons.

The Mohawk force, said the officer, often serves on the reserve for provincial and other local police forces.

Some reserves have a resident JP, he told council.

Enumerators Ask Raise

MARMORA — A delegation of local residents who acted as enumerators for a recent Spour plebescite have protested to Marmora — Lake townships council about the rate of pay which they received.

Headed by Jim "Doc" Thomson, the delegation stated it felt the hours worked and miles covered entitled enumerators to more than the $50 paid, regardless of territory covered.

A number of formulas for arriving at additional amounts were proposed and rejected. But some of the enumerators finally settled for $30 more and others $25.

The delegation consisted of Jim Thomson, Amy Thomson, Marjorie McFall, Jessie Kitcher, Theresa Davidson and Jean Smith.

Contract Let On Stirling Village Office

STIRLING — Village council has scrutinized tenders for interior construction of the new municipal office building.

Four tenders for interior renovations were received and considered and the one from Wesley DeJong, Stirling, for $13,058 was accepted. The work will be dealt with under separate contract.

At the same meeting, council decided that village foreman Douglas Bolte attend the Road School Sessions being held May 5-8 at Guelph.

Kenneth Mumby and Maurice Clancy, representing Stirling Agricultural Society, said the society was being billed for taxes for the main building on the fairground because the building was being rented on a part-time basis. They requested what could be done, since the fairground is used only two days a year for fall fair purposes. Council agreed to study the matter.

Elect Milk Committee

Stirling — Rawdon dairy farmer Percy Reid has been elected Chairman of the Hastings County Milk committee.

The election meeting at Stirling also saw Kenneth Thompson of Roslin named vice-chairman and Joe Thompson of Stirling, secretary.

Other committee members Harry Dauffard, Springbrook, Alec McCurdy, Stirling; Robert Burkitt, Frankford; Ray Donnan, Stirling; George Wood, Madoc; Don Martin, Tweed; Dr. R.B. Murray, Stirling; Grenville Sine, Sotherland, Stirling; Charles Treverton, Plainfield; Jim Hagerman, Stirling, and Raelynn Robertson, Tweed.

Donate $200

MARMORA — Village council has approved a $200 donation to the Marmora Business Association for promotion of the community.

Public Less Urgent On Fire Protection

TRENTON — Trenton has acted on less than half the recommendations of the Ontario Fire Marshal concerning updating of fire protection here — a situation that brings restrained response from the Ontario Fire Marshal.

"That's fine," said M. S. Hurst from his Toronto office.

"That might seem a peculiar attitude but it is my job to advise and council's job to act," he said.

Ontario, as elsewhere in much of North America, makes a strong distinction between the availability of police and fire protection, he indicates.

Fire Marshal Hurst says "police protection — when not available — brings a public outcry and the politicians have made adequate police protection mandatory.

"There has been no public outcry over fire protection and resulting legislation confines me to making only recommendations that are left to the discretion of council," he said.

"As a public servant, certainly I would like to see them accept and act on my recommendations," he said.

Mr. Hurst's department, in its report, termed Trenton fire department as "chronically short staffed," but to this time no adjustments have been made.

Mr. Hurst believes the province's municipalities aren't getting their money's worth when it comes to fire protection.

He believes larger units or regional fire departments would do away with administrative duplication and provide standardization of procedures and, in the end, result in a large force that one municipality couldn't afford alone.

"No community should put itself in a financial strait jacket," he said.

On the other hand, "regional anything isn't the most popular thing to talk about lately," he added.

In 1972, municipalities across the province collectively paid more than $30 million in fire department operating budgets.

"It is — in my opinion — the birthright of a person in Ontario to have good fire protection and the province has taken the initiative in subsidizing and setting standards," said Hurst.

"As for the municipality is going along fine, there's little evidence of that. Fire and fire strike people just seem to accept it," said Mr. Hurst.

For the politician, responsibility is legislating standards and subsidies, "if there's public outcry, okay," he said.

They Get Gun Safety Early

TYENDINAGA — Since Indians need no licences to hunt on their reserves, it doesn't mean they miss the gun safety courses available elsewhere.

Quinte Mohawk police on this reserve recently came up with a novel method for infiltrating safety consciousness at an early age.

Since many youngsters have pellet guns, Department of Ministry of Natural Resources officers — who run hunting safety courses regularly in the Quinte district — to organize a clinic based around pellet gun. Response was enthusiastic.

The result: Now 45 youngsters want to join a pellet gun club on the reserve, Constable Richard Brant told the reserve council last night.

Police suggest installing a shooting range in the bush on the reserve airfield, aimed at heightening safety through recreation.

MP Comes Calling

Jack Ellis, MP Hastings, this Saturday starts meetings from his mobile office with constituents in their communities.

The itinerary: March 9 — Deseronto, 9 a.m.-1 p.m.; Marlbank, 2 p.m.-4 p.m.; Melrose Hall, 7 pm.-10 p.m.; March 23 — Madoc, 9 a.m.-1 pm.; Queensboro, 2 p.m.-4 p.m.; April 6 — Tweed, 9 am.-12 noon; Thomasburg, 2 p.m.-3 p.m.; Plainfield, 330 p.m.-5.30 p.m.; April 4 — Marmora, 9 a.m.-12 noon; Deloro, 1 p.m.-4 p.m.; May 4 — Bancroft, 9 a.m.-1 p.m.; Coe Hill, 3 pm.-4 pm.

Asks for Annexation

MARMORA — Village council will seek legal advice on a request from a Marmora Lake township developer to annex his land.

Reason for his request, Robert Drummond wrote council, is his expectation of obtaining municipal services for several building lots. Annalgamation would mean provision of municipal services on which approval of the subdivision is conditional.

Village council already has discussed annexation with provincial government officials. They suggested other land adjacent to the proposed development should also be annexed to maintain orderly development.

Seek Signals At Crossroads

MARMORA — The Catholic Women's League here have petitioned village council for a stop light at the intersection of highways 7 and 14, the community's most dangerous roads.

The CWL, noting steady increase in highway traffic, expressed concern for children and older people using the crossing.

Council decided to write provincial government traffic officials to discover the steps necessary for traffic-light installation.

A Touch of Spring for Strike

Strikers at Trenton's Canadian General Electric plant doffed jackets Wednesday as mild weather made for a touch of spring on picket patrol. Some 250 workers are involved in walkout and union sources say there has been no progress in negotiations.

Bogus Bills Bring Jail

TRENTON — Wayne Paquette of Toronto, was convicted in provincial court here yesterday of uttering and possession of counterfeit money.

Paquette of Toronto, was concurrent two-year sentences for a number of charges and a further three months for breaking bail.

The accused had pleaded guilty to the charges before Judge R. C. Jackson.

Madoc Helps Handicapped With Big Community Project

By CAROL PARANUIK
Staff Correspondent

MADOC — Project COPE (Constructive Opportunity for Progressive Employment) has its own office and work area and applications from disabled people are being processed.

Project manager is Bill Gordon, himself disabled since a car accident not long ago.

COPE's organizers hope to hire people disabled for various reasons — whether the handicap is physical, mental or social — and present them opportunity to lead a normally productive lives.

Pottery will be the first craft in which participants will receive instruction.

Plans for other activities in-

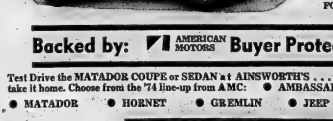
His Too

MARMORA —Recent heavy rains and melting snow have flooded basements in this village.

To deal with one problem, Deputy Reeve Grant Aitchison and public works superintendent Les McKeown were called from a council meeting this week.

After they could return, Mrs. McKeown called for her husband to report their basement was also flooding.

clude restoration of furniture and period pieces.



Recreation facilities for all age groups may also become available at the village's elementary and secondary schools.

Conditions of the federal grant indicate as many as 13 people may be hired by COPE in its first year, in the following two years.

Over-all supervision is the responsibility of a board drawn from various local community sources. Chairman John Murphy heads an eight-member group that includes Reeve T. C. Barton, and representatives from the area's secondary and public schools, Chamber of Commerce, Kiwanis Club, Ministerial Association and senior citizens' club.

Life-Savers

At least one Eastern Ontario newspaper has declared itself opposed to any attempt to make the wearing of seat belts mandatory.

It says governments have no such right, on a "well-save-them-in-spite-of-themselves basis."

To this we say, why not? Where it is proven that a measure saves lives (as in the reduction of speed limits in the United States at least) the public is usually quite amenable to it.

Furthermore, is there anything of greater moment than the saving of lives, and in this case saving people from their own excesses?

In the case of speed, it is one thing to put your foot to the floor, in pursuit of some shadowy basic "right," but what about all the other people who may immediately be endangered?

As for seat belts, Australia for one has proven that making them mandatory for everyone has resulted in a sharp reduction of fatalities and injuries.

The newspaper concerned is even critical of the Ontario Medical Association for expressing support for the wearing of seat belts, ignoring the fact that any reduction of accidents and consequent hospitalization would also ease the strain on medical and hospital facilities.

If a Government cannot give a lead in such matters then who can? In the event that it does become compulsory to wear them, there is no reason why an intensive breaking-in campaign, and some friendly police persuasion, should not ensure public co-operation.

Parole

The workings of the parole system in Canada continue to give further cause for alarm. A 27-year-old man has just been sentenced in a Cobourg court for the rape of a 13-year-old girl — an assault carried out only 35 days after his release on parole.

The man had served just over two years of a three-year sentence for indecent assault on a 28-year-old Kingston woman. In this 1971 case the court was told the young woman eventually could lose her sight from a karate blow to her face during the incident.

Now there is this second case, while the man was on parole, and it reminds us of another case in British Columbia recently when a man of similar propensities murdered the small daughter of a prison guard while out on a three-day pass. The conviction of a Trenton man in the death of a schoolgirl in the Brighton area recently is yet another case in point.

The sentence against the man in the Cobourg assault is now 15 years. In the circumstances, and bearing in mind these other cases, the authorities should make it stick.

Friendship

Polgnant sometimes are the ways of international relations. Involving as they do people — and, not infrequently, such fourlegged friends as dogs and cats.

A Benjamin Street couple, Mr. and Mrs. Tony Hadenby, have received a letter from friends in Fort Worth, Mr. and Mrs. Edward Shore, whom they met when the latter were camping in the Picton area in 1961.

While in Belleville Mr. Hadenby took a fancy to a border collie pup in a pet shop and the pup went home to Texas with the American couple.

"H.J." as he was named, became a treasured pet and a great friend especially of the Shore children whom he would defend through thick and thin, family spats and all.

On Valentine's Day H.J. died of a stroke. There are Texan bluebonnet seeds on his grave and hopefully some maple leaves are going from The Shore's Bellerdell Park, in his wife Bluebonnet seeds — in H.J.'s memory and as a symbol of a warm Canadian-U.S. friendship that began in Quinte country.

Spring in the Air

It was cool enough but the sun shone brightly last night and thoughts of Spring were in the air, as they are increasingly these days. And there on the Market Square was one of Quinte's marked, gardening stalwarts with a handsome display of flowers for sale. The color of it matched the brilliance of the day, chill temperatures and all. Next thing the robins will be around again.

Britain in Extremity

Crash Dead Victims Indirectly of UK Airline Strike

By JOHN D. HARRISON
Foreign Affairs Analyst
Thomson News Service

The death of 200 British tourists in a Turkish jumbo jet which they took at the last minute because of a strike in British Airways is the bleakest item in the wider picture of a Britain in deep economic and political crisis.

Few may relate their deaths to the stalemate of the British election but clearly to the fact they died in the worst air tragedy in history.

And yet if Britain had been anywhere near balance and organization the British Airways strike would not have occurred and the hapless flight of charters would not have died. They were, in a manner of speaking, the first dead from Britain's national slump.

The wider scene of Parliament now in chaos along with the rest of the nation, shouldn't surprise us too much. The British voted on Feb. 28 as they have been thinking and reacting to their country's deep economic and social problems — down the middle.

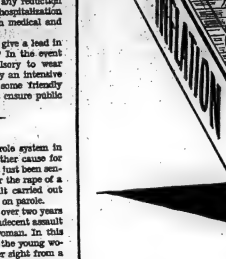
The split was almost half and half for Labor and the Tories. The down-the-middle vote also went where it has not gone in any number since the early 1920s, to the Liberal party. They won 14 seats, about what their leader Jeremy Thorpe expected.

Both Prime Minister Heath and Opposition Leader Harold Wilson displayed new kinds of personal arrogance. Heath positive the nation would give him a larger mandate than the 30-seat majority he now has. Wilson just as sure socialist answers were all the British wanted . . . again.

Yet both leaders each one as prime minister, made promises they could not keep. Wilson between 1966 and 1970 to boost exports, keep down the cost of living and prevent union strife.

He was frustrated in all of these as was Ted Heath in a more massive way between 1970 and 1974. His ill-guided encounters with wage restraints took place while the cost-of-living soared nearly 20% and during his years in office during the early 70s.

Both leaders, therefore, overestimated the electorate's value of them as viable leaders who could get things done, given another chance, hence the classic stalemate after the election.



Now the British, long-term problems loom larger than ever. Coal stocks are plentiful so they at almost nothing for late March. Britain is broke and must go to the International Monetary Fund for perhaps $3 billions in world money.

January's trade deficit of $880 millions was the worst in British history, an increase of almost of the three-day work week, work stoppages and power cuts. Even the pound, which fell early into Europe of Jan. 1, 1973, the guru of Heath's come-new Tory policy, will have to be reinvestigated as more and more European goods flood Britain while British goods remain untouched as a result of the economic crisis.

Cherchie the social and economic factors with the new political one and it is hard to see anything but more dwindling away of Britain as any kind of European power throughout the rest of the 1970s.

The professional British-haters, or "Brit baiters" as they in Britain themselves call them, are soothsaying again. They now see in the British loss a sort of Portuguese of the mid-, victim of its own political self-social system, dwindling to servant or 20th place in Europe.

To prevent otherwise will require an even greater effort of unity than observers have prophesied earlier for Britain.

Non-Precious Metals Could Be In Line to Rock Economic Boat

By VINCENT EGAN
Business and Consumer Affairs Analyst
Thomson News Service

After the energy crisis, what? The next supply shortage (complete with soaring prices) could well be in metals, it appears.

Already, gold and silver have had headline-making price rises. They could even go higher, although the risk of a decline can no longer be ignored.

But the time for non-precious metals to make news could be near, according to those who study the mining industry and metals markets. These are the materials that play a major role in house-building, car and appliance manufacturing, and a host of other day-to-day activities.

The reasons are familiar: Big increases in demand, underscored by expansion of production capacity—combined with political strife, declining labor productivity, environmental restrictions. The world-wide trend toward economic nationalism, the rising capital cost of new development, and high interest rates.

Countervailing forces? The fact that 1974 seems likely to see little economic growth and a good deal of industrial retrenchment might tend to keep a lid on the price of metals used extensively in industry.

But this is not an ordinary business cycle. Industrial demand for copper, nickel, aluminum and so on will probably remain high simply because industry's base-metal inventories are generally low.

Copper could remain in relatively short supply for a long time. The early resumption of Chilean production can be expected (it's much easier and faster to start a mine already set to put it back into production), a strike of U.S. copper miners is a distinct possibility, and African production is still beset by political troubles.

Nickel demand is out-running supply and production capacity—even though as recently as 1971 it was widely believed that output of Canada's expanded nickel mines would exceed sales until at least 1976.

Aluminum's price appears to be stable, and some modest additions to world production capacity (all outside North America) will come on stream this year and next. The producing nations hope to boost the price of the raw material, bauxite, by forming a cartel patterned after the Organization of Petroleum Exporting Countries—although the bauxite producers totally lack such Arab advantages as geographical proximity, and similarity of language, race and religion.

Gold markets are harder to forecast, after the doubling of bullion prices since last September. The world's major producers, South Africa, is expected to mine about five per cent less gold year by year until the 1980s, when new mines can be activated.

Industrial demand for the yellow metal is increasing steadily because of rising affluence and the ever-increasing number of people all over the world to buy gold jewellery, coins and the like as hedges against inflation.

But that doesn't mean that bullion prices will necessarily continue to advance. The big uncertainty hanging over the gold market is the Soviet Union, the world's second biggest producer, which could flood the market with bullion at any time.

Silver is expected to follow in the wake of gold. Its price has doubled in recent months and could go higher still—unless industrial demand should slow to a load and take their profits.

The Canadian mining markets, then, the outlook for seasoned mining companies producing base metals and precious metals appears relatively bright.

Earnings are rising, as are price-earnings multiples, and the recent removal of the 15-year-old U.S. interest-equalization tax has rekindled American interest in Canadian mining stocks.

Looking Backward

GLEANINGS FROM OUR FILES OF BYGONE YEARS

20 YEARS AGO

March 7, 1954

A number of personnel of the reserve army units of the city were successful in examinations in the junior non-commissioned officers' course held in the Bridge Street Armouries this week.

A number of important contacts were made by members of the Industrial Commission at Montreal. Those making the trip were Ald. William Argue, chairman of the Commission; Ald. Claude D. Tice, Robert A. Pringle, City Solicitor and Freeman Burrows, chairman of the Chamber of Commerce. A Section film was interviewed and other contacts that the Commission had been working on were called upon.

30 YEARS AGO

March 7, 1944

Inspectors of the Prices' Board made their rounds of Belleville market Saturday instructing farmers offering fowl that the regulations called for the sale of fowl, chickens, ducks, geese and turkeys being removed if they wished to charge the maximum price. All farmers had been aware of the regulations but that the fowl "looked better with the feet on". With regulations regarding the feet of fowl being removed being enforced, however, price seemed a bit fowl with farmers asking 40 cents per pound for best grade.

40 YEARS AGO

March 7, 1934

Mrs. Robert Bicken and son Bobby are visiting her parents, Mr. and Mrs. D. Edwards, in Toronto.

Considerable improvement in the demand for farm help is noted at the office of the Employment Service of Canada according to Mr. Lorne F. Green, the local superintendent.

Traffic in the city were reported by the water bureau Saturday without water today as a result of frozen pipes, contrasting with a peak number of complaints Wednesday and five hundred out of action two weeks or more ago.

50 YEARS AGO

March 7, 1924

J. M. Scott, ex-M.L.A. of Saskatchewan and at present secretary of Unity, Sask., is in the city for home accompanied by his wife, after visiting Mr. and Mrs. W. H. Faulkner, Cedar St.

Mrs. Stewart Macleod, Charles St. is visiting friends in Toronto.

The new X-ray machine at the local hospital has proven to be of great service.

The Daily Telegraph of Lake-field was a recent guest of Mr. and Mrs. George Thompson, Catherine St.

That Locomotive Deal with Cuba

By PETER BUCKLEY

WASHINGTON (CP) — The question of whether the Canadian government of Cuba will be allowed to buy locomotives from a Canadian firm and cars from Argentina is touched some raw nerves of foreign policy in every country concerned, not least in the United States.

The U.S. state department says it has under consideration an application by a New Jersey firm for permission to allow its Montreal subsidiary, MLW-Worthington Ltd., to sell some 35 locomotives to Cuba.

Similarly, the Big Three Detroit automakers, under threat seeing pressure from the Peronist government of Argentina, want cars from their Argentine subsidiaries to start moving to Cuba.

State Secretary Henry Kissinger and the White House are both said to be involved in the clear indication that, as one American official elaborated it, "a pretty sensitive object is involved."

In fact, the 12-year U.S. embargo on trade with Cuba remains in effect through the American policy, apparently at the insistence of President Nixon.

The challenge to the embargo is based, therefore, on two principles that are as deeply felt in Ottawa and Buenos Aires—that Americans should not apply in a foreign country where they contradict that country's official policy.

The Canadian government is reported by reliable informants here to have made very strong representations on behalf of the Montreal firm. Finance Minister John Turner is said to have raised the question with Treasury Secretary George Shultz at the time of an international oil conference here Feb. 13-14.

It was probably no coincidence, one source said, that the New Jersey parent firm filed its application with the treasury department's Office of Foreign Assets Control on April of U.S. laws, and that Canada wants the deal to go through.

The law involved is the Trading with the Enemy Act, which its regulations governing Cuba. It provides for 10-year jail terms and fines of up to $10,000 for American citizens who trade with Fidel Castro's government without a licence. That also applies to U.S. directors of subsidiary companies.

Only 12 Cuban export licences have been granted to such subsidiaries, a treasury official said "and most of those were to accommodate Canadian companies," though the official nor Canadian sources would say what Canadian exports were involved, although all were believed to have been small.

The locomotive deal, for the proposed huge sale of Argentine cars, is big enough to represent a real challenge to the embargo. If either licence were granted, the U.S. could face a deluge of similar applications on behalf of other foreign subsidiaries.

State department officials acknowledge the embargo has been the establishment which the U.S. embargo law, plus the U.S. also feels that if it decides on a policy that applies to firms based in the American Republics the country should not have free rein to work around the law through foreign subsidiaries.

The whole question of Cuban-American relations has been in state of flux for several months. With a series of delicate public overtures, the two countries have indicated a desire for change in their mutual hostility.

But if there are to be negotiations with Cuba, the United States is likely to want the trade embargo intact as a bargaining chip.

Cuba may well be trying to counter that ploy by offering lucrative trade deals to two different countries at opposite ends of the scale, trusting that national sentiment and pride would work to undermine the embargo.

Davis Takes on Army Man As P.R.

By DON O'HEARN
Queen's Park Bureau
Thomson News Service

TORONTO — Half a league, half a league.

Hist a league onward.

There has been mention here in the past of the gradual infiltration of the army into the government service.

Of retired service officers who have been landing up in cushy jobs with the province.

The infiltration has now reached new depths.

It has worked its way into the premier's office itself.

The announcement has been made that Col. James A. McPhee is joining the personal staff of Premier Bill Davis.

With the apparent capacity of staff officer in charge of the press.

Just what Col. McPhee is to do has been a matter of considerable curiosity, including, one can suspect, by the colonel himself.

There has been no definitive word on the matter.

There already is one press officer in the premier's office in the person of Jim Coutts and that position is remaining, with the specific assignment of "relations with the media."

So Col. McPhee presumably comes in somewhere above this.

He will handle relations with higher eminences? Say when Davis feels the urge to speak to God he will line this up?

McPhee, who is 53 and retired as a major general, will look after relations for the services in the Toronto area, is known as a man of good parts.

As such he probably deserves sympathy.

For while Davis and the cabal around him from the start have had their knives out for some few of super PR in their ranks they have managed to survive as certain as to why. Initially G.C. (Cam) McDonald was seconded from the Ministry of Industry and Tourism (at $23,000 a year) to try and run his job.

Cam tended to find it was a non-job, and has now moved back to the Ministry of Trade and tourism

Mr. McPhee takes his wheck at it.

His perhaps yet to reason why?

But just to do and die?

The Rural Scene and Recreation

Editor,
The Intelligencer:

I am one of those Thurlow citizens who attended the Recreation Committee in principle at the meeting of Jan. 31. First, in his letter of Feb. 26, includes me in his generalization of the Recreation Committee's failure to fulfill its purpose. Regrettably, I cannot agree.

I don't feel guilty, Mr. Hurd! I do agree that if I ever weaken to allow my children to become part of an organized and competitive rat-race I should consider this my failure in judgment in which they are involved. But I also reserve the right to use the moral energy as I wish without being accused of being unconcerned about them.

A fraction of Thurlow township is highly populated with a "city" atmosphere but a larger part is rural with "rural problems." There are many of us who choose to be countryoriented and who want our children to enjoy the freedom of exploration, of creating their own entertainment and of being able to live life a little more leisurely than their city friends.

In my opinion the fundamental question is "Do we want everything organized for our children?"

Perhaps this is one of the chief problems in our society today because children are so highly organized that they attend "school" functions to call their own and parents who become involved in these school functions have even less time. They become so busy running for everybody else's children that they have little or no time left for their own families.

A son wants and needs to relate to his father on a one-to-one basis. It is not possible to do this if his father associates with several children at all the growing-up years you had little chance to know because the time you were so busy being community-minded!

The members of the Committee wish to contribute their ideas and energies to recreation — that is their right, just as it is the right of other parents to choose to encourage their children to be responsible for entertaining themselves, to explore the natural resources of a rural setting, to reach out and help their rural neighbors and to find joy in shared activities with their family and close friends — without the benefit of an organized group to tell them how to do it.

A THURLOW PARENT

Today in History

BY THE CANADIAN PRESS

March 7, 1974

Alexander Graham Bell was granted the first basic patent on the telephone 98 years ago today—in 1876. Fifty years later the first successful radio-telephone conversation was conducted between New York and London.

1951—Oscar Colleton, a Liberia diplomat, nationalist, was convicted of an assassinating attempt on United States president Harry Truman.

1962—The Second Canada Victory loan raised $658,900,000 in three days.

1917—Irish nationalist MPs in London proposed immediate home rule for Ireland.

1880—Hull, Que., was founded.

1837—The sale of liquor to Canadian Indians was prohibited.

Cheap U.S. Beef Brings Protests

OTTAWA (CP) — Farmland MP's and the cattle industry have joined in an assault on falling beef prices that likely will end in government action in March, a low-priced imports from the United States.

Agriculture Minister Eugene Whelan indicated in the Commons Wednesday that the cabinet is considering seriously a number of moves aimed at protecting the domestic cattle industry against imports.

Among the options are: Deficiency payments to cattlemen that would make up the difference between selling prices and production costs with tax money; restrictions against U.S. cattle fattened with the growth hormone diethylstilbestrol (DES) or reinstitution of the product for domestic use; an import formula based on cattle populations in each country; high surtaxes on imports.

In the past, the government has relied on surtaxes to protect the domestic cattle market. In February, 1973, however, all tariff charges were eliminated in an effort to lower consumer prices.

But the tax—1.5 cents a pound on live cattle, three cents a pound for beef—was reinstituted when the U.S. did not take similar tariff-cutting action.

Last fall, the tariff was doubled when the domestic market was threatened with a flood of low-priced U.S. imports brought on by the end of an American beef-price freeze. U.S. cattlemen had held their animals off the market while the freeze lasted, then sold heavily when it was lifted.

The Canadian Cattlemen's Association, pressure group for the industry, recently has been arguing for a new system that would restrict imports to a percentage of exports to the U.S.

Currently, about 400,000 cattle are shipped to the U.S. each year and the cattlemen say that only one-tenth, or 40,000 cattle, should be allowed back in as imports. The ratio is about in line with the population ratio.

Mr. Whelan indicated outside the Commons that deficiency payments to cattlemen are unlikely. He said that most farmers do not want that type of subsidy.

Instead, "past history has shown that I've leaned heavily on surcharges."

Unusual Signs

Oil Is Surplus

OTTAWA (CP) — Remember the one million barrels of high-priced heating oil the government bought last fall, to head off winter oil shortages?

Nobody needed it all and now Ottawa is faced with selling it at a loss.

"Things just turned out that way," Supply Minister Jean-Pierre Goyer said Wednesday after the subject was raised in the Commons.

Bill to Allow Denturists' Work Proposed

TORONTO (CP) — Bud Germa (NDP-Sudbury) introduced a private member's bill in the legislature Wednesday that would allow denturists to deal directly with the public.

The bill provides for fees to be regulated by government and would require that a certificate of oral health be signed by a doctor or dentist before a denturist could begin work.

Mr. Germa said the bill "could have an impact in demonstrating that the cost of health delivery systems can be controlled in an orderly manner."

Private meber's bills generally die on the order paper,

Beaufort Sea Drilling Banned

OTTAWA (CP) — Northern Affairs Minister Jean Chretien broke governments' silence over offshore drilling plans in the Arctic Wednesday when he announced that no drilling for oil or gas will be allowed in the Beaufort Sea before the summer of 1976.

"This will allow over two years in which to undertake the environmental studies required," the minister said in a news release.

Photographer passing old town of Coalmont, B.C. couldn't resist shooting signal he discovered in the valley of the Tulameen River, about 10 miles from Princeton, B.C.

Packaging Defended At Food Conference

EDMONTON (CP) — A food industry spokesman took advantage of the Alberta government-sponsored conference on food marketing Wednesday to lash out at criticism of packaging voiced by consumers.

At the same time, the conference was told that the industry is responsible for producing junk foods that result in poor nutrition for Canadians.

Allan Chadsey of Toronto, packaging and design service director for George Weston Ltd., rejected statements by some consumers that packaging pollutes, depletes resources and misleads the public while adding unnecessary expense to products.

Without packaging, he said, the populations of major cities would starve within weeks.

But he said the packaging industry has failed to explain to the public trade practices necessary to get products to market over vast distances and under extremes of weather conditions.

Dr. J. D. Campbell of Winnipeg said convenience foods being eaten by Canadians look and taste delicious but are "lousy" nutritionally.

He suggested a ban on advertising of foods of poor nutritional value.

W. H. Hoffman of Toronto, research and development director for Maple Leaf Mills Ltd., said federal regulations that bar the addition of minerals and vitamins to food snacks are a "formidable block to the production of nutritionally-balanced snacks."

C. J. Ross of Burlington, Ont., of Canadian Canners Ltd. scientific research manager, said automation is needed if the canning industry is to survive.

He said one plant in southern Ontario needs 900 workers to process tomatoes during the season and that they are paid the minimum wage.

"But where do we get them? We are housing some in from 50 miles away."

College Teachers Object To Arbitration by Anderson

TORONTO (CP) — Community college teachers plan to block for the second day today compulsory arbitration hearings on a new contract between the provincial government and representatives of 2,500 teachers, a spokesman said Wednesday.

Peter Churchill, head of the Humber College Faculty Association, said in an interview a picket line will be set up each day the board is scheduled to meet until there is a change in the composition of the board.

He said the three-man board favors the government because its board chairman, Judge J. C. Anderson of Belleville is a provincial appointee.

The teachers' action goes against the wishes of their negotiators, the Civil Service Association of Ontario (CSAO).

In a statement Wednesday, the 32,000-member CSAO said that "to refuse to appear before the arbitration board would allow the government to impose its own version of a collective agreement without teacher participation."

It may also leave the union open to a charge of refusing to bargain in good faith and a $5,000-a-day fine, the CSAO said.

The teachers blocked Wednesday's hearing when their negotiators refused to cross picket lines.

The teachers have been bargaining for a new contract to replace the one that expired last August.

Housing Plans Centre On Low-vacancy Cities

OTTAWA (CP) — Federal housing programs will focus this year on cities with low vacancy rates, Urban Affairs Minister Ron Basford said Wednesday.

He told the Commons during the throne speech debate that Vancouver, Montreal, faces an acute housing shortage and is one city that will benefit.

Outside the House, he added Toronto is the list and said land assembly and senior citizens' housing projects will get priority in federal cities.

Rural and native housing needs will also be given special attention in 1974-75 spending, he said.

A Central Mortgage and Housing Corp. (CMHC) survey in December showed the national apartment vacancy rate down to 2.1 per cent, the lowest in six years.

Figures varied from a low of .3 per cent in Vancouver, Victoria, St. John's, Nfld., and Saskatoon to a high of 10.7 per cent in Sudbury, Ont. It was 1.4 per cent in Toronto, 2.1 per cent in Halifax and 3.3 per cent in Winnipeg.

Vacancy rates below three or four per cent work against tenants by making it easier for landlords to raise rents, government officials say.

On rural and native housing, Mr. Basford said a meeting was scheduled today with native leaders to discuss and clarify details of new and existing programs.

CP News Roundup

Canadian Must Head Institute

TORONTO (CP) — Education Minister Thomas Wells has told the Ontario Institute for Studies in Education (OISE) in Toronto that its next director must be a Canadian.

OISE recently placed advertisements in publications in the United States and Britain inviting applications for the post of director.

"I trust that the primary intent of these advertisements was to communicate with Canadians in the United States and other countries," the education minister said Wednesday in a letter addressed to OISE Director Dr. R. W. B. Jackson.

In the letter, which he made public, Mr. Wells said:

"We believe that the institute can best continue to serve Ontario under the direction of a person who knows and understands education in this province and in this country."

Sugar Cheaper

MONTREAL (CP) — St. Lawrence Sugar Co. Wednesday announced a reduction of $4.55 per 100 pounds in the list price of refined sugar, effective March 4.

A spokesman for the company said the decrease to $29.35 per 100 pounds from $33.90 results from a weakening of the world price of raw sugar.

Staff Cleared

TORONTO (CP) — An investigation into the mental retardation educational unit of the Whitby Psychiatric Hospital has cleared staff and management of any involvement in maltreatment of residents, the ministry of health said Wednesday.

The six-member committee, which included three senior officials of the health ministry, reported there was no evidence "to substantiate the allegation that staff, in any way, mishandled or ill-treated residents."

Caution Given

OTTAWA (CP) — It would be "very undesirable to raise the expectations" of Turks and Caicos Islands residents who favor union with Canada, External Affairs Minister Mitchell Sharp said Wednesday.

Mr. Sharp said he is aware some islanders have petitioned Britain, asking for union with Canada. But the petition was "not transmitted officially by the British government," he told the Commons.

The islands now are a British territory.

OUR BOARDING HOUSE with Major Hoople

Mayor Takes Leave When Son Charged

ORILLIA (CP) — Mayor Jack V. Andre of Orillia said Wednesday he will take a leave of absence from his civic duties because his son has been charged with contravening a city bylaw.

"I intend to commence immediately to actively support the defence of the charge and any action against the city," he said in a letter to council.

Last week, his son Jack R. Andre was issued a summons alleging he owns a trailer in violation of a city zoning law.

"To avoid direct conflict with my duties and responsibilities as mayor," the mayor's letter said, "I have decided to take a leave of absence until this matter is completely resolved.

Protest Made

TORONTO (CP) — Stephen Lewis, Ontario leader of the New Democratic Party, say an American firm is holding "a union-busting seminar" in Toronto next month.

Mr. Lewis told the Ontario legislature Wednesday that K. B. Dixon, director of personnel at Hamilton Civic Hospital and president of the Hospital Personnel Relations Bureau is one of the seminar leaders.

He asked Labor Minister Fern Guindon to check out the "propriety" of Mr. Dixon's participation.

"Perhaps that makes it a little clearer to you why there is so much discrimination and difficulty in the hospital worker sector in this province," the NDP leader said.

He said topics included making unions unnecessary and preventing the formation of unions.

Stage Strike

LORDSTOWN, Ohio (AP) — United Auto Workers were on picketing duty in the big General Motors group of factories at Lordstown Wednesday night after talks on local issues broke down.

Saccharin Safe

OTTAWA (CP) — The artificial sweetener saccharin—challenged as a possible cause of cancer—appears safe for human consumption, the federal health protection branch has concluded following a two-year study.

Few Teachers

SUDBURY, (CP) — While there is an over-supply of English-speaking teachers in Ontario, the demand for French-speaking instructors cannot be met, Rev. Jacques Marineau, director of the Sudbury Teachers' College said Wednesday.

Group Opposes Sex Education

HAMILTON (CP) — The Church of Jesus Christ of Latter-day Saints (Mormons) has urged in a brief that sex education be dropped from the curriculum of Hamilton schools.

The authors of the brief, who include public school principal Kenneth Shoesmith, a bishop of the church, and parents should teach children the facts of life.

At an education management committee meeting Tuesday, to trustees decided the brief should remain on file. They said the course would be reviewed this summer and saw no reason to make a motion before then.

In the meantime, education director Dr. Gordon Smith said a student may be withdrawn from the classes at the parents' request, and added that parents were welcome to examine the books used in the course.

Customs Probing Warship Canteens

HALIFAX (CP) — Canadian customs and excise inspectors are continuing an investigation into the possibility that duty was not paid on goods imported into Canada after being purchased through canteens on Canadian warships, a Canadian Forces spokesman said Wednesday.

The investigation had been going on since November and a final report was not expected for some time, the spokesman said.

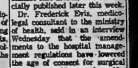
Admiral D. S., Boyle, commander of Maritime Command, said, "The problem involved some individuals who made purchases through ships' canteens and some of them have been asked to confirm that they declared and paid duty on items when they were purchased."

The customs people were investigating the importation of several items including watches, radios, stereo sets, cameras and television sets following customs audits for the last three years, he said.

"There is no question of disciplinary action on the part of the forces because it was anticipated that the individuals would be able to show that they had made the necessary declarations," Admiral Boyle said.

Any action taken by the government in the case would be through the customs division and did not directly involve the forces, the spokesman said.

Customs officials were not available for comment.



Abortions OK

TORONTO (CP) — New provincial regulations have made it legal for 18-year-old girls to have abortions without parental consent.

The regulations, approved by cabinet last month, will be officially published later this week.

Dr. Frederick Fyfe, medico-legal consultant to the ministry of health, said in an interview Wednesday that the amendments to the hospital management regulations have lowered the age of consent for surgical operations to 18 years from 18.

Choreographer Comments

Men Make Best Strippers

PARIS (Reuter) — Men make much better strip-tease artists than women, says a man who ought to know.

He is Vic Upshaw, a Blue young American Negro who in eight years as choreographer for the girls at the Crazy Horse Saloon has helped turn it into the temple of Paris strip-tease. Now Upshaw is putting on his own show, Uomo, with 12 boys that he found in bars or on the streets.

Curling clouds of incense filled the air in his sumptuous Paris apartment as he said: "It's a show on man's body, highlighting the sexy parts of it. Nothing vulgar. They have lovely costumes but mostly end up nude with some very nice lighting.

He added: "My boys have to be attractive and have beautiful bodies. It doesn't matter if they haven't been on stage before."

The cast is made up of French, Cuban, German, Argentinian and Danish boys.

Comparing the boys in his own show to such lovelies as Bertha von Parsaun and Viola Vibrato at the Crazy Horse, he said: "Men you can control much easier than women. Men will listen to men. It's harder to get order with women.

"But men make such a fuss about their costumes. Any man spends as much time in front of the mirror as a woman. Men are better strippers because they are able to do a caricature of the opposite sex, something women call never do very well.

"Men is more adroit at stripping though I must admit the woman is more athletic when naked. A man's sex is a bit vulgar but that's where the subtle lighting comes in."

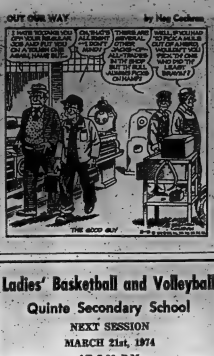
Upshaw, who this year has also staged nightclub shows in Beirut and Pakma, Majorca, is proud of his stint at the Crazy Horse. "It really is a very famous place now. Gradually it's become the most respected strip joint in Paris."

At the Crazy Horse, described by its owner, Alain Bernardin, as "a place of sophisticated debauchery," Upshaw is given complete freedom.

"There are so many beautiful girls at the Crazy Horse that competition is pretty stiff. Each wants to do well with her own number.

"Now we have a new opening number there with the girls appearing in corsets for the first time ever."

Looking back on the day when he was picked out by a talent scout outside a drug store in a Los Angeles suburb and ended up a dancer at the famous Lido nightclub in Paris, he is well pleased with the results.



After five records in France, two film appearances as a dancer, countless television shows and a stint training the Bluebell dancers at the Lido he said: "Now as a choreographer I should have the liberty to create the way I want to. I get that at the Crazy."

Summing up the whole attraction of strip-tease he said: "Both sexes want to see a nice body. But with my shows I like to give the impression it's a dream on stage that you can't quite touch."

Antiques' Get Second Wind

"New for old! New for old!"

Remember the magic peddler in the fairy tale Aladdin's Lamp? He'd take old worn-out things and give you back brand new.

It was all a trick of course. But there's no trickery in the painstaking work of Clifford Ray, whose hobby is changing old things to new.

Proprietor with his wife Jenny of Dyble's Leather Goods Store, Mr. Ray is preparing now for his eventual retirement by perfecting his craft and building up a supply of saleable items.

In the store at the moment are some examples of his handiwork: tables, ashtray stands, mirrors and candle holders.

The two tables are the real showstoppers of the lot. The bases are the restored bottoms of treadle sewing machines, and the tops are heavy metal grates or floor grills.

One other table features a glass top over an old spring wheel of a buggy, wagon, fastened to base made of metal horse hames in such a way that it can move.

"That old wheel had been buried in the Massanaga marsh for at least 30 years," Mr. Ray says.

"It was thick with rust. It took me a long, long time to get it cleaned up. But I sure was worth it."

Mr. Ray's patience and effort is rewarded by his feeling of achievement when he sees "useless old things" becoming useful again.

He is quite proud of his ashtray stands, made from old horse hames, many of them finished with knobs of brass. Discarded by farmers who no longer use horses as work animals, the hames are considered "good for nothing" by people with less discerning eyes than Mr. Ray.

He sees the potential use and beauty in all sorts of old farm equipment.

"Well, I spent most of my life on the farm," he explains, "and I like these old things. I enjoy seeing them being used again.

"Many people who've had horses, like to buy things made from their old equipment."

Mr. Ray has fitted mirrors into old leather horse collars, and has fashioned a candle holder from a horseshoe and a cockeye off the tractor.

"This is stuff that just gets thrown away," he says, although he points out that the current trend to antiques of all sorts has raised prices at auctions and with the dealers from whom he gets some of his supplies.

"Not long ago, an old treadle sewing machine fetched maybe $10, whereas now a price like $25 is not unusual.

"It's getting harder and harder to find material at a reasonable price, the way to do it is to trade - I have an exchange worked out with a man in Brighton, for example. He wants the heads off old sewing machines, and I want the base, so we work out a trade if one of us gets a machine.

"Other than that, I just have to keep my eyes open all the time. I need to find some more grates to make tables from.

Since cleaning the wrought iron is a "long and dirty job", Mr. Ray does this part of his hobby mainly in the summer in his backyard. The painting he does when he has free time in the early mornings at the store before customers arrive.

"I always did like to puter with things like this," he says. "I did my own horseshoeing on the farm and I worked with farm machinery at Alton Hadley. The biggest repair work I do in the store is related as well. I just naturally fell into this hobby."

Admittedly sentimental about life on the farm - "you can take the boy off the farm but you can't take the farm out of the boy," he laughs), Mr. Ray has yet another project - restoring milk cans, and making them function "like new".

"One lady I know uses hers to keep dogfood in, another uses it as a telephone stool," he says.

He points out how well-made old objects are, so that they can last "forever", after he has stepped in to increase their life span.

"These sewing machines are still in good shape when we take them apart," he says. "Why, the one I"use here for careful stitching on leather is a Singer that's 70 years old.

"But if people aren't going to use these old machines for sewing, they might as well be used for something else."

Clifford and Jenny Ray stand among some of the items Mr. Ray has transformed from old, useless things to objects of beauty and value. The painted milk can sits to the left of a table made from a metal grating and the base of an old "New William" sewing machine. At the right are ashtray stands fashioned from horse hames with brass knobs on the ends.

Recycled

Ronald Kelly

Consumerism Topic At Sales, Ad Club

The consumer is to blame herself for the high costs of food.

This is what members of the Belleville Women Sales and Ad Club were told this week by Ronald J. Kelly, first vice-president of the Kingson Sales and Ad Club and instructor of a business course at St. Lawrence College.

He pointed out examples where consumers by their actions allow food prices to soar.

For one thing, he pointed out the increasing popularity of instant foods instead of those you make yourself.

"We've gotten too far in instants and should go back to basics," he told his audience of about 40, women and guests meeting at the Hotel Quinte.

"Everybody now just opens packages or throws food out. We should be more like mother and open cans and make the meal ourselves."

He pointed out the difference in prices between ready-made food items and those that have to be made from scratch. He said that in an item such as peanut butter ready mixed with jam in a jar, "the consumer is paying about 10 cents more just for an extra spoonful of jam.

In a item such as a macaroni packaged mix that it used with hamburg he said that for the price of one box of the mix that includes nothing more than macaroni and a few spices, the shopper can buy two pounds of macaroni and make the same thing herself.

"And instant tea. How can tea be made more instant than it is already?" he told the group.

Another area that Mr. Kelly said the consumer is permitting food costs to rise is in taking shopping carts from the store.

"In one case I noticed a man backing out of a parking lot and hitting a cart while doing so. He got mad and knocked the cart down causing damage to it.

And just walking around I have noticed a lot of discarded shopping buggies lying around. These cost money," said Mr. Kelly.

"Other examples? Well there are ways in which people cheat in the stores. They buy vegetables in a paper bag, have it priced and then go back and add more vegetables to it. And sometimes they even put their own price on the bag."

"And there are those who switch price tags and take advantage of the satisfaction guaranteed scheme, using an article for a few days for a special occasion and then asking for a refund when they have finished with it," said Mr. Kelly.

"And of course there are those who squeeze tomatoes, who think bananas in stores are there to keep kids quiet, and who nibble on grapes. Make chauvinism aside, men are the greatest nibblers of grapes."

"Today the consumer spends more on dog food than it does on baby food. In North America, enough protein is thrown out as garbage in one household to feed an Asian baby for a day.

"The consumer is at fault. I am losing confidence in them. If the consumer wants something and is willing to pay for it, business will give it to them," Mr. Kelly claimed.

food and cheating and taking advantage of businessmen.

People and Events

Quinte Medical Secretaries toured LoyaXat College for their February meeting.

Elizabeth MacLeod, who teaches medical secretarial skills to some 20 students, outlined the course offered while Gena Hughes, R.N. who teaches the nursing aspect of the course (biology, terminology, routine lab tests, etc.) showed the group her friends of test tubes, dictionaries and plastic teaching models.

Registrar Jim Hemsley, conducted the tour which went on to include Physics, Architectural Drafting, Hotel Management with its Club 213", Environmental Science, Pollution Control, and the stunning 60,000-volume carpeted library.

President Jackie Vivian who chaired the meeting welcomed guest Liz Black, OMSA Representative Mae Calbcart reported some of the topics to be covered at the OMSA Convention in Toronto in May (Acupuncture, Ocular Emergencies, Urology, among others).

A tour of the MDS Laboratories with a wine and cheese party is being arranged by Program Chairman Bernice Murphy for the March meeting.

Engagement

Mr. and Mrs. Ronald M. Cronkright of Belleville are pleased to announce the forthcoming marriage of their youngest daughter Sheilla Jane to Stephen Charles Hine, eldest son of Mr. and Mrs. Ernest G. Hine, Rossmore. The ceremony will take place Saturday, April 6 at 7 p.m. at Tabernacle United Church.

Spring Shoes Begin Trend to Low Heels

MONTREAL (CP) — Women, planning to add a new pair of shoes to their wardrobe should put their money in leather and take time to get a good fit, says Seymour Lubin, president of French Shoe Ltd.

Mr. Lubin said in an interview that leather is a better buy than plastic, which is becoming expensive because of the current short supply of oil derivatives.

"Leather is supple and flexible and will bend with the foot. Plastics will not do this."

When buying a shoe, one should ask what it is made of—leather or plastic—and take it in your hand to feel the weight, said Mr. Lubin.

"If it is heavy and cumbersome, remember your foot has to drag that around all day."

He said one can tell a good leather by looking at a pair of fine leather shoes.

"If the color is an even, orange tinge, then it is a cheap leather but has been sprayed one color. If the grain of the leather does up in the toe then it is a good one."

Mr. Lubin also said the last or model of the shoe is important because each one is different.

"A woman should not stick to the 'I'm a 7B and even if it's too tight, that's my size and I'll stretch' way of thinking."

He has a good shoe salesman, interested in giving her a good fit, and he recommends a slightly larger or smaller size if a specialty shoe model, then she should try it. He could be right.

"And above all, don't hurry. There is nothing worse than dashing in and buying shoes in a hurry only to find out later they fit only one foot.

"If you don't have enough time, come back another day."

Mr. Lubin said style is important today because of the great variety demanded by the public.

"It used to be that we made whatever was in fashion and that was all you could buy.

"Today the public is asking for and getting shoes that fit their lifestyles."

Spring and summer styles for 1974 will stress a move away from the high platforms of last season towards a thinner platform.

However, the wedge heel will remain, dressed up in such new looks as mules—backless shoes—and closed-toe styles—and espadrilles with cork detail for casual wear.

Light shoes, lively colors, versatile styles—these that can be worn from work directly to casual or formal events—are what the women are demanding and what the industry now is supplying, he said.

Smaller Heels in Style

Seymour Lubin, president of French Shoe, Ltd., shows one of the new styles in shoes for 1974. The trend in spring and summer will be away from the high platforms to lower heels. (CP Photo) WP RAY

Egyptian Girls Sacrifice Jobs For Marriage

CAIRO (AP) — A growing number of Egyptian women are quitting their jobs to get married, a sociological study shows. Feminists are displeased.

The study by the Social Research Institute said 115,000 women of a female working force of half a million left jobs in offices and factories in the last four years once they were certain they were getting married.

"The most serious thing is that the women do this freely despite the long and difficult struggle they have waged to win equality with men in the working force," said Abdel Hakim El Kadi, head of the institute.

Some feminists said the survey was upsetting.

"Perhaps some girls who clamor for equality only do it to make the chase hotter or to improve their chances of booking a husband," said one advocate of women's rights.

El Kadi said the oriental notion of marriage, which emphasizes submission to the husband in all things, was a factor in women leaving their jobs.

"The importance of marriage is repeatedly stressed as girls grow up in Egypt," he said. "Some become obsessed with it and are prepared to sacrifice a job to get termination pay and thereby become a complete husband fanatic and stay home."

The institute suggested one remedy was to have the government establish a fund from which women workers could draw marriage loans to help furnish their homes so they can continue their jobs.

It also recommended that the difference in wages paid to women and men doing basically the same job be eliminated, and that day-care centres for children be established.

But the report conceded that the greatest obstacle is resistance by many Egyptian men that their wives quit their jobs upon marriage because not doing so implies the husband is not a good provider.

Feminist Dr. Nawal El Sadawy, whose provocative book, Women and Sex, caused her to lose a government job, said the real importance of work for women is not understood by Egyptian men.

"They reluctantly accept the working wife so she can help raise the economic standards of the family, but men don't understand that women need a job to feel independent and useful," she said. "Women want to contribute to society as employed workers, not only as wives and mothers in the home."

The cause of the working wife was not helped by another government study, written by a man, which labelled women "employment hazards," because they are often absent, have headaches and react emotionally to daily office problems.

Magda Ibrahim is a 30-year-old former clerk who quit her job when she married but is looking for another since the couple has discovered the husband's income is not enough for their needs.

"When we decided to marry, my husband and I did not have enough to furnish a flat and pay key money at the same time," Mrs. Ibrahim said. "So I resigned to get termination pay to help my husband get us set up. But we still can't make ends meet. So he has swallowed his pride and reluctantly said I can work again."

When they leave their jobs Egyptian employees under government law receive half a month's pay for every year for the first five years of their employment and a month's salary for every additional year.

Slinky Shapery

Lovely things are bound to happen when you appear in this supple, slinky, body shaping! Sew it long or short in a nylon print or metallic knit.

Printed Pattern 4878: Misses' Sizes 8, 10, 12, 14, 16, 18, 20. Size 12 (bust 34) takes 4¼ yards 54-inch fabric.

$1.00 for each pattern — cash, cheque or money order. Add 15c each pattern for first-class mail and special handling. Ontario residents add 7 cents sales tax. Print plainly Size, Name, Address, Style Number. Send to Anne Adams, The Intelligencer Pattern Dept., 60 Progress Ave., Scarborough, Ontario, M1P 2E7.

Successful Living Is Long Hair Wicked?

By DORIS CLARK

Tell me — is there anything really wicked about long hair? Ensnar mind's eye picture scene of our forefathers of about 50 years ago. They had long hair back and front — if you count luxurious beards!

One youth worker complains that white and young people are wanting to find out about sex — from their parents—their parents would rather not talk to them about hair. And those same parents seem to touch sex relationships with a ten-foot pole.

So what does the teen-ager do? He turns to his peers for information and tries to do what they do. Comfortable conversation of any kind between parent and child is sadly lacking. But far worse is the failure of Mother and Dad to help their young people to see that there should be a connection between physical expression of affection and the love that is for keeps.

Dear Doris: Your reply to "Mother-In-Law" was so true. I think the world "In-Law" should be outlawed and a new name coined for all. So very often we humans allow even small words to immediately distort and discolor our normal thinking.

Because of this, a wonderful stepmother very often is unjustly condemned before being given a chance to prove she is a mother-in-law in the butt of many unkind and damaging comments and so-called jokes. There are many other in-laws, too. How about the sister-in-law, brother-in-law, son-in-law and daughter-in-law, let that person stop and ask himself or herself if they are completely faultless. Maybe then each one, then, would the stigma of the "in-law" be erased from our minds.

An In-Law Too.

Dear In-Law Too: I couldn't agree more. (It is a difficult thing for a young bride and her husband's mother to develop a warm friendship and it calls for plenty of patience and maturity.

We usually hear more about the ones who just don't make it.

I know some in-law relationships which are so good that natural sons and daughters couldn't do better; natural mothers be naive loving. But these we are not as likely to hear about, since they go their merry and serene way without even writing letters to people like me.

(Doris cannot begin to answer all your questions in the column. To make sure of your reply, remember to enclose a stamped, self-addressed envelope, sending your letter in care of this newspaper.)

Ann Landers

He Must Have Known Better — Now Her Son's Being Sued

writing. I hope you and your mother-in-law laugh together for another 48 years.

Dear Ann Landers: We have been married less than two years and I need to know if I am right or wrong. At first I was sure of my position. Now my younger sister has asked me to be a bridesmaid at her wedding. I said I'd be delighted. She was in my wedding party. When I told my husband, he became upset. Why? Because he said he can't afford the expense. Every time I suggest something low when shoppers. I had the best reputation. I realize a blood test can determine that cancer individually could not have been the father, but what would occur if my son's blood type should not happen to match the baby's? Wouldn't it be her word against his?

I need information and moral support.—Mother of Innocent Man

Dear Mother: If your son is being sued he must hire a lawyer to defend him. His lawyer can answer all the questions you have asked, and then some.

As for "moral support," sorry, I'm fresh out concocting words for a 22-year-old man who fools around with a woman of bad reputation and yells "foul" when she announces he's the father of her child. A 25-year-old guy should know as much about birth control as a 38-year-old woman.

Dear Ann Landers: Regarding the letter from the mother who signed herself Swinging Door: It seems her daughter came home whenever she and her husband had a fight—kids, luggage and all. Let me tell you about my mother-in-law.

She lived in a unit that sat on her mother, too. But it didn't work. Her mother would telephone me—collect—and say, "Come over her and pick up your wife and child. You married this girl and now she belongs with you, not me."

So he'd drive over and get them and they'd settle their arguments under their own roof. My wonderful mother-in-law laughs about it now, after 40 years of marriage. And I laugh with her.—Long-Time Reader

Dear Reader: Thanks for

Dear N.N.: Thanks for the tip. I'll bring them this. Please pass it on.—M.M.

Amateur Songwriters Invited to Compete

TORONTO (CP)—A move to encourage amateur songwriters to submit their music in international competition has been made in North America with exciting prospects in store for winners and glib for writers who have penned potential hits.

The American Song Festival has been launched this year. The first annual international competition of this type to be held in North America, the festival also is the first anywhere to be open to amateurs. Professional songwriters will also enter, but are judged in a separate category.

"This festival really is a public service for amateur songwriters," said Malcolm Klein, chief organizer of the event. "And I bet the finest song to emerge from it all will have been written by an amateur."

The top amateur and professional each receives $50,000 while winners of the music divisions—rock, country, jazz, pop, folk and gospel win $5,000 each. The 36 finalists are awarded $500 and an expenses-paid trip to Saratoga Springs, N.Y., where the finals are held during the Labor Day weekend.

Organizers expect to receive 100,000 songs in all and stress that any songwriter who submits potential hit material, although he may not win a prize, will be advised how and where to publish his songs. But at all times, the material submitted remains the sole property of the songwriter Klein said.

"One of the aims of the festival is to kill off the publisher shark," he said. "Many young songwriters are put off by the business side of it all, some of which can be very shady. I hope that through the festival, both amateur and professional songwriters will be able to find honest and productive outlets for their talents."

Initial judging of all songs will be done by 200 experts in the music field. A panel of 12 top performers will judge the final 36 songs. Already Duke Ellington has agreed to accept the jazz section, and in other categories, Bob Dylan, Paul McCartney and Canada's Gordon Lightfoot have been invited as judges.

Songs are currently pouring in from as far afield as Poland although the bulk of entries is expected from the United States.

"There's some fine song-writing talent up here," Klein said. "Just look at the songwriters this country has produced so far."

Entry fee is 10.35 for each song, with no limit to the number of songs submitted by one writer. The applicant receives a blank cassette to record his songs and a booklet outlining the festival and copyrighting tips. Klein said strict security will be enforced throughout the judging, with each song coded in a computer.

"No method of security is foolproof," he added, "But the chances of anyone stealing a song from the festival are very slim. Our whole purpose is to encourage writers and to do this we are prepared to go to great lengths to protect their material."

The concept of the American Song Festival was dreamed up by Lawrence Goldblatt, manager of Canadian singer David Clayton-Thomas. Initial attempts to launch the event were made in 1973 but it ground to a halt when funds ran dry.

Since then, Sterling Recreation Organization, a U.S. broadcasting and entertainment company, has stepped in to get the festival off the ground. Already $200,000 has been pressed and Sterling expects to recover most of this from entry fees and admission charges to the finals when top singers and groups perform the best selected songs. Prize money alone stands at $120,000.

"Financially, the festival will be a break-even affair for the first couple of years," said Klein, general executive of Sterling. "I think that a certain number of songwriters will hold back for the first year at least to see how things work out and then enter maybe next year or the year after."

CHEAP TIMBER

Hemlock timber has many unfavorable commercial qualities but its cheapness makes it useful as coarse lumber and rough dimension stock.

Shivering Protester

Rare facts are all reporter wants from nude man who joined protest Tuesday at Wreck Beach near University of B.C. The man is ... and others in background, say bullhorn of rocks at bottom of cliff to prevent erosion won't work and will spoil the beach favorite haunt of sunbathers. (CP Photo)

Prize-winning Yacht Has Never Been to Sea

LONDON (CP) — A luxury cruising yacht which has never put to sea won this year's Boat of the Show award at the London International Boat Show.

The southern England boatbuilders Camper and Nicholson of Gosport battled against the clock to get the sleek new craft completed and at the show on time. Their effort was rewarded. In addition to the top award they got export orders for seven craft worth more than $2,000,000 ($500,000).

An international panel of judges chose the craft, a roomy six-berther, from more than 700 boats from 20 countries at the show. It is based on the successful earlier model of which nearly 100 have been sold in three years of production.

British yacht and boatbuilders reported that at least half their orders at the show were from overseas customers. The industry's total export sales in the coming year may be worth as much as £20 million.

VALUABLE AS PULP

Spruce trees are less valuable as saw-timber than pines in Ontario but they are valuable to the pulp and paper industry.

"DRIVE A LITTLE FURTHER AND SAVE A LOT MORE"

Most Draft Evaders Lack Immigrant Status

EDMONTON (CP) — It has been five years since the flood of American war objectors to Canada began, and a year since United States involvement in the Vietnam war ended, but for many young Americans self-exiled in Canada a war of another kind continues.

Up to 70 per cent of the draft evaders and deserters never obtained landed immigrant status, says an Edmonton minister who has worked extensively with them.

Rev. R. W. Brownlie of the Edmonton Unitarian Church said the war resisters face a continuing threat of discovery, deportation and arrest in the U.S., and "live subsistence lives while suffering from a degree of paranoia."

War objectors who obtain landed immigrant status and have found careers in Canada probably would not return to the U.S., even if a general amnesty was declared, said Mr. Brownlie.

Mr. Brownlie, who left Minneapolis five years ago after working in an "underground railway" to get draft evaders out of the U.S., said he does not expect an amnesty until after the 1976 presidential election.

Draft evaders and deserters who lack landed immigrant status "have pretty well put the future out of their minds," he said.

The Unitarian Church organized a counselling program last fall to try to persuade objectors to apply for legal status under relaxed immigration department regulations. Mr. Brownlie said the program "wasn't very successful."

"I just don't think they trust anybody. Many of them thought the whole thing was a trap to deport them."

"I think they would be better coming out, even if they had to turn themselves in and hope for the best."

"I'm afraid that they'll get paranoid and stay in the woods, even if there is a general amnesty."

Mr. Brownlie said most draft evaders and deserters were broke when they reached Edmonton. More than half brought girls with them.

He said he would ask them whether they had stopped smoking. Many said it could be offered in Edmonton, they would stay.

They could stay for a week at a church-sponsored drop-in centre. After that, housing was found with members of the church or at University of Alberta, where students took them in as roommates.

"I would call people in the church and ask if they could use anybody. One of the people was galvanizing steel and needed quite a few laborers. Another needed, or made a need for, delivery boys for a dental laboratory."

He said he does not think objectors, particularly those without legal status, are taking jobs away from Canadians.

"They are in the background of them, or they're hippie-help organization that pays less than the minimum wage. They are just getting by."

Most objectors helped by the Unitarian Church have found jobs and carved their lives for themselves, said Mr. Brownlie.

Estimates of the number of objectors in Canada vary from 10,000 to 100,000. Mr. Brownlie said he would place the number in northern Alberta at "under 100" but other sources indicate the number may be four times that.

For many, self-inflicted exile has meant estrangement from their families in the U.S. Some, said Mr. Brownlie, must back for visits, even though they risk up to five years in prison if arrested.

Those who came to Canada legally in 1968 and early 1969 now are deciding whether to take out Canadian citizenship. A landed immigrant is eligible to apply after five years.

Citizenship court Judge Orval W. Allen of Edmonton said war objectors are treated "as individuals."

"An applicant for citizenship must prove to our satisfaction that he was landed by the immigration department and meet three criteria," he said.

First, he must be of good character. He must have an adequate knowledge of English or French and he must appreciate his responsibilities as a Canadian citizen.

"It doesn't matter to the court whether he escaped from Hungary in 1956, from Czechoslovakia in 1968, or is evading the draft in the U.S.

"We care more about what the man will be in the future and what he is today than what he was yesterday."

Chinese Ships Challenge India

BOMBAY (CP) — The Indian government is preparing to meet what is described in the press as "a major challenge" from Communist China to its shipping industry.

Press reports quote government shipping experts as voicing the fear that unless emergency measures are taken to build India's maritime fleet China may monopolize Indian Ocean trade routes in the foreseable future.

It is argued in Indian political circles that control over Indian Ocean trade routes has acquired new importance in the light of the international competition to gain naval supremacy in the ocean region.

"The more merchant ships a nation has in the Indian Ocean, the more advantageous it will be if a conflict between the superpowers breaks out," said an observer, pointing to the latest United States-Soviet naval rivalry in the Indian Ocean.

One fear being expressed in India is that "hostile" nations operating merchant ships in the Indian Ocean may be able to transform them quickly into war vessels.

However, Indian officials say their main concern at the moment is only to ensure that their shipping is not left behind in the competition for the ocean's trade routes.

New Delhi has embarked on an ambitious program to become the leading maritime country in the region by acquiring more shipping tonnage.

The position today is that Indian ships carry less than half of the load volume of Rs import-export trade as against 30 per cent in the case of China.

The Indian government is to spend nearly $200 million this year in acquiring more bulk carriers. The hope is being expressed that in another five years or so the country's shipping tonnage will near 10 million gross registered tons.

The Chinese advantage in the Indian Ocean trade routes that spurred New Delhi to construct two more shipbuilding yards. Collaboration with the Soviet Union, Yugoslavia and the U.S. is expected in these projects.

Meanwhile, the giant shipyard at Vishakapatnam on the east coast is being modernized and expanded to make possible the building of bigger ships. Work on the shipyard at Cochin on the west coast is also being expedited and the keel of the first 85,000-ton ship is expected to be laid within a year.

Britain already is helping India in building more ships and a batch of Indian trainees is currently in Glasgow.

The port of Madras on the east coast will shortly be in a position to berth ships of 130,000 tons, while Goa on the west will be ready to handle vessels up to 100,000 tons.

The shore terminal at Salpeta near Kandla, on the west coast, is being prepared to receive 220,000-ton oil tankers carrying crude oil for the Madura refinery in central India. The refinery, one of India's proud projects, is being set up with Russian help.

Trenton Fire Call Could Go Unanswered for Twenty Minutes

By COLIN BRUCE
Staff Reporter

TRENTON — If your house is burning in the middle of the night, it might be 20 minutes before any one will answer the fire department's telephone.

Trenton provides fire protection to Murray Township and while a skeleton night force responds to a night call there, Trenton is left unattended, says Fire Chief Cecil Ellis.

Since four years ago, when the provincial government diagnosed Trenton's fire department as a "chronically short staffed," Chief Cecil Ellis has been requesting more men — a request repeatedly denied by town council.

Again this year the chief has included in his annual report a request for additional manpower. During the first council discussion of the report, a specific reference was made concerning staff and the question has been referred to the current budget for consideration, says deputy clerk Arlen Rorco.

The Ontario Fire Marshal's office made 12 recommendations to the town, two of which dealt directly with staff enlargements. Since 1970, neither recommendation has been acted upon.

During a telephone interview, Trenton Mayor Bob Patrick commented on the situation, saying it was doubtful whether more manpower was coming this year.

Mayor Patrick was one member of council who in 1970 requested the fire marshal's report on Trenton fire protection.

"It's a regular request the chief makes," he said, "I've been nothing lately that would change council's past attitude and I wouldn't put a bet on the chief getting more men."

According to the chief, during the daytime hours two or three firefighters are on duty to handle the department's trucks. The chief says he acknowledges the fire department is the only town service that sends a man out alone on a vehicle.

When an alarm is received one man responds and calls for help once the situation is assessed.

During the night shift, only one or two men are on duty, says the chief.

The lack of manpower diagnosed as chronic four years ago by the provincial caused Chief Ellis to say recently, "I'm afraid for the men because I don't want to be left holding the bag if fires break out" during the day, Murray Township and in Trenton.

Conceivably, during the evening if a man is called to the township through a $13,000-a-year municipal aid agreement, Trenton could be left with an empty fire hall.

The province has urged additional staff be obtained to "move adequately man the vehicles," to "operate the communications (telephone) on a continual basis." The chief says neither of these recommendations have been fulfilled.

The staff member has remained constant since 1970 with the bulk of the strength coming from the 16-man volunteer brigade. A brigade — according to the fire marshal — that takes about 20 minutes before four members even get to the hall of the fire.

While local action has failed to "follow the recommendations," the recommendations are becoming obsolete.

The fire staff that four years ago was considered chronically small is now protecting at least 1,000 more residents, 500 more acres and an additional bundle of homes and businesses assessed at more than $2 million — the results of town expansion over the four-year period.

Contacted with his report, the chief repeated Wednesday, three men on a shift is the lowest we can go to maintain efficiency."

But, if Mayor Patrick has ignored council accordingly, the chief won't be getting the one extra man.

"I don't know what's going to happen. It's not too good, said the chief.

Chocolate Rabbits Penned

Hastings-Prince Edward counties health inspectors Wednesday concluded a five-day unbroken round of all outlets that may have stocked a brand of chocolate being called off the market.

Lloyd Ellenton, chief health inspector for the two counties said he and his five-man staff visited more than 400 retail outlets and wholesalers since the search began last Thursday.

The official could give no exact estimate of the amount of chocolate found, since the bulk of it was still in the shipping cartons either in stores or wholesale premises.

The recall was announced Feb. 28 in Canada and the U.S. after federal health authorities claimed positive identification of a contaminant — salmonella enteritidis — in chocolate rabbits made for the easter season by Regent Chocolate of Quebec.

Local health inspectors were assigned the task of alerting all businesses stocking the chocolate to remove it from sale.

Location and estimates of stock were relayed to the provincial health ministry.

Mr. Ellenton said the job was eased in the Quinte counties when it was discovered one of the major distributors for a wholesaler who still had much of the chocolate in stock. Wholesale representatives also, understandably are picking up stocks from their retail customers.

"Wholesale distributors in this area were very, very cooperative," he said.

It was also discovered that few, if any restaurants, carried the chocolate.

Councillors Increase Pay

PICTON — Town councillors have voted to increase their honorariums to $1,500 or $28 per meeting.

The raise was moved at this week's council session by councillor Jack Evans and seconded by councillor Russell Alexander.

Picton deputy-reeve Larry Richardson did not vote in support of the increase.

Now It's Going Back In

Just weeks ago, they were hauling ice by the ton from the Moira River as winter weather posed a flood threat. Now the big frozen stockpiles in Victoria Park are being returned to the river. Sudden warm spell has started thaw speedup and melting ice threatens to inundate park lawns.

City's Suggestion Rejected

From The Toronto Bureau of The Intelligencer

TORONTO — The Ontario Good Roads Association has rejected a recommendation by the city of Belleville that speed limits within municipalities be lowered from 30 to 25 miles per hour.

The association's legislation and roadsides committees took no action on the city's proposal at its two-day convention held here recently. The city urged the association, the Ontario Traffic Conference and the Association of Municipalities of Ontario to request the province amend the Highway Traffic Act to lower maximum speeds in all built-up areas.

Among the resolutions endorsed by the committees was an appeal by North Tilbury township in Kent county to restrict school bus colors to buses carrying students only. It would eliminate the confusion of some children which resulted in the death of a township girl crossing Highway 2 last year.

The committee also supported a resolution submitted by the city of Timmins requesting the Transportation and Communications ministry deem municipal street and highway intersection lighting eligible for government subsidies.

It also decided to ask Bell Canada to provide more accurate underground cable location and eliminate road damage by burying them further below ground.

Seniors' Housing Gets Go-ahead

City council, at its Monday meeting, gave approval in principle to working drawings for the proposed 81-unit senior citizen apartments to be constructed on Wellington Crescent.

Ontario Housing Corporation development officer J.L. Kaye said the approval was necessary to allow a tender call for the structure.

He said the accommodation needs study decided as there were more than 300 names on the waiting list for senior citizens accommodation.

Plans call for construction of the 81-unit, S-shaped, two-storey structure on the Albert College Manor property at the end of Wellington Crescent which has been for many years as a city play ground.

Indonesians Prayer Guests

Special guests to a recent world day of prayer meeting held in Carrying Place, were Mr. and Mrs. Christian Gel and sons Ricky and Roger. The Gels, who live on the Asbury Church, Services were conducted by Mrs. Neil Peck.

The Gel family emigrated to Canada from Indonesia in order to escape the Communist yoke. Upon arrival in this country they took up residence in Belleville.

During the service they were interviewed by Mrs. James Stavely. They became better acquainted with others during a fellowship hour, held afterwards.

Health Care Study Near Reporting Stage

An impartial, expert view of health care needs and services in Hastings County may be ready for provincial government study in two months.

The expert is Dr. Peter C. Gordon, head of preventive medicine at Dalhousie University, Halifax.

Dr. Gordon today ended the second of tours of the Belleville-Trenton area where he has been viewing medical facilities, interviewing key people in health and related services, gathering statistics and opinions.

He first arrived in Belleville late last month after the study was commissioned by the health ministry shortly before Dr. Richard Potter, MPP for Quinte, changed his portfolio as health minister.

Dr. Gordon, who has conducted studies for the Nova Scotia government, said his appointment to the Ontario assignment likely was due the ministry wanting "somebody from out of the province to look at the area in an objective way."

His task is still evolving as he evaluates area health care services and wants, "... finding out what people perceive are the major needs.

"The problem is to discover the best way to meet the needs — and sometimes there are alternative we probably don't think of," said Dr. Gordon. "I'm really trying to pull all this together and come up with something that will meet these needs in the most appropriate way."

Gathering baseline data for his findings he has been scrutinizing hospitals in Belleville and Trenton, nursing homes, homes for the elderly, the Quinte Sanatorium, a pilot project, and Belleville General's home care program.

One "major area" is the care of the ill and persons requiring extended care," he says.

Need for more nursing home beds in the area was already a fact of direct discussion between Belleville General's administration and Dr. Potter some months before the Gordon study was announced.

However, as yet, Dr. Gordon could not be specific on any opinion he might have formed. At any rate, such findings will be a direct consultation between Belleville General's administration and Dr. Potter some months before the Gordon study was announced.

However, as yet, Dr. Gordon could not be specific on any opinion he might have formed. At any rate, such findings will be a direct consultation between Belleville General's administration and Dr. Potter some months before the Gordon study was announced.

Dr. Gordon: Health Needs Study

Citizens Bureau Funds Frozen Under Audit

Citizens Bureau doors have closed for the second time within a year, as money to cover operating costs for a Belleville office has been cut off, pending a city hall audit of Quinte Help Fund lottery returns.

The audit, a normal course of action once a lottery ends, is being carried out by the city. Belleville issued the licence for the 50-50 lottery, reactivated in December 1973 to provide funds for a bureau's operation here.

As of the end of February, the bureau, located in the United Community Services building at 34 William St., is without telephone or volunteers.

Exact amounts of money to be made available once the audit is complete is not known. Estimates vary according to the person questioned.

At the end of January, fund president Albert Leavitt pledged approximately $2,000 to run an office in Belleville. His personal commitments forced him to close down the lottery after a short two-month operation.

Staff for the Belleville bureau would be voluntary, he said. But responsibility for funding such volunteers he left to Citizens Bureau personnel now working with a Local Initiatives Program grant in Trenton.

Gerry Hall, city bylaw enforcement officer, said Wednesday city officials were still processing the January return received Friday, March 1.

"It is up to us to go over the forms," he said.

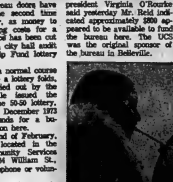
According to provincial lottery legislation, the municipality is responsible for auditing the lottery's books at the end of each month's operation.

Once the audit is complete, monies raised from the first month duration of the lottery will go toward operating costs of a Belleville office.

Bert Gerling, Trenton bureau chairman and former former member of the Belleville bureau, said yesterday that the funds are essentially frozen until the time the audit is complete.

However, he said he is unsure how much money will eventually become available.

"I don't know what it actually is," he said, "I gather it is around $1,200. But that's just a guess."



Mr. Gerling, along with William Hockley, the Belleville bureau's former project director, organized a local organization in this city under LIP funding over a year ago. The bureau ran out of funds September 1973, they ran the bureau without funding, voluntarily, until Mr. Leotini's Help Fund came to their assistance by providing operating costs.

Both men are concerned that the bureau — acting as a consumer education advocate — has been unable to function properly.

Consequently, during the evening Virginia O'Rourke said yesterday Mr. Reid indicated approximately $800 was geared to be available to fund the bureau here. The UCS was the original sponsor of the bureau in Belleville.

However, she said Mr. Reid said it will be several weeks before that figure is a firm one.

Yesterday, Mr. Reid would not release the amount of money available.

Carol blows Horn For Concerts

Concert Series Members Sought

Community lifestyles may come and go, but Belleville Community Concert Association heads hopefully into yet another season soon.

The BCCA begins selling annual memberships once more this month for its next series of fall concerts.

The goal will be to not only renew current membership — estimated at around 700 — but to increase the participation in a group that has been sponsoring live music presentations in the Belleville area for almost four decades.

It's a program that has touched several generations and forced the organization to the challenge of inevitable changes, changes in styles of community cultural entertainment — and tastes — have evolved or broadened.

So far the BCCA has managed to weather the winds of change — rallying even as recently as last year when there were forecasts it might foundder if response declined further.

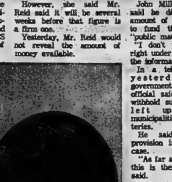
Its staying power is perhaps founded in the malleability of its oversational core. Now preparing to broach the public with 1974-75 ticket sales, it includes Bellevillians of all ages, convinced the BCCA still has a valid identity in community culture.

There is:

Jane Hickey, who helped launch BCCA in the 1930s, now assigned the task of immediately ensuring that cash inflow crucial to survival equals outgoing cash.

Carol Thicke, 18, who works to animate the interest of fellow high school students in BCCA membership.

Mrs. Hickey says the association still makes an "outstanding contribution" to the city's musical life and "there's nothing to equal it in Belleville."



She can recall when it once had 1,000 members, and a waiting list of 600.

Time brings changes and those days are gone, and we have to accept that."

Nonetheless the city's oldest major culture group still helps maintain a certain standard and to those who are true music lovers it's an oasis.'

Carol Thicke, whose family has believed to BCCA for the past eight years, sees the association as "definitely a sound musical influence in the community."

Missionary To Speak

For many years a missionary in mainland China and later serving in the Philippines and in Indonesia, Rev. Stephen D. Kuhrts will be the speaker at the March 10 morning worship service at Victoria Avenue Baptist church.

Mr. and Mrs. Knights are "on loan" to the Ambassadors for Christ where he is Canadian director. Mr. Knight will show slides at the Victoria Avenue Church Sunday School at 9:45 a.m. and will speak at the 11 a.m. worship service.

The former missionary served in mainland China from 1930 until 19551 and then in The Philippins, and Indonesia until 1966 under the Overseas Missionary Fellowship (formerly the China Inland Mission). The AFC is active among Chinese students and aquits in North American.

Gideons Mark Bible Milestone

Canadian Gideons have reached another milestone in their program of Bible presentation.

Dr. Edward Dow, president of the Belleville-Quinte Gideon Camp, called on Mayor Bob Candido Gideons on March 1 in Moncton, N.B., presented his 10 millionth Bible, the recipients of the special copies bound in red leather being The Hon. J. Robichaud, Lieutenant Governor of New Brunswick and Madame Robichaud.

They were given copies of the new bilingual Testaments that Gideons since last fall have been distributing in Quebec and New Brunswick locals red leather. The presentation was by Winston A. Steeves of Moncton, Gideon National President.

Organized in 1911, the Canadian Gideons began their work to distribute their first million Bibles. The second million required five years and the third million three years.

The seven millionth copy was presented in 1969 to The Hon. Roland Michener, then Governor General of Canada.

Dr. Dow said the Gideons are now distributing a million Bibles every 28 days in 96 countries.

New Face in Court

Hastings County's new assistant Crown Attorney moved into Belleville during the weekend and started work Monday. John Woods, formerly of Renfrew, will fill the post vacated by Glenn Deline, who moved up to become the Crown Attorney late last year. Mr. Woods is a graduate of the Faculty of Law at the University of Ottawa. He was called to the bar in 1973 and worked with the Public Trustee section of the Attorney General's office before moving to Belleville.

Rangers Give Francis No. 300

By AL COLLETTI
The Canadian Press

Emile Francis didn't remember but his players did and they gave him the best present so far this season.

The Rangers swamped Montreal Canadiens 9-2 Wednesday night and moved into a tie with Montreal for second place in the East Division of the National Hockey League.

It was Francis' 300th win as coach of the New York team, going back to 1965.

"I can't remember that far back," Francis said. His first win in the NHL as a coach came against the Canadiens, 3-3 Dec. 19, 1965.

Billy Reay of Chicago Black Hawks is the only active coach in the NHL with more wins. In 13 seasons with the Black Hawks and two with Toronto, he has 483 wins.

Rod Gilbert led the Rangers with two goals and two assists to raise his season point total to 63.

The Rangers now have an eight-game winning streak, and have lost only two of their last 22 games since Francis resumed coaching after firing Larry Popein.

In other games, Boston Bruins blanked St. Louis Blues 4-0, California Golden Seals and Chicago Black Hawks battled to a 3-3 draw, and Buffalo Sabres tied Minnesota North Stars 4-4.

Rangers 9 Canadiens 2

It was anyone's game until Billy Fairbairn and Gilbert put it out of Montreal's reach with a pair of second-period goals that made the score 5-2.

Both Francis and Montreal coach Scotty Bowman thought the turning point came in the fourth minute of the second period when Ranger goalie Gilles Villemure stopped Chuck Lefley on a breakaway with New York ahead 3-2.

Bruins 3 Blues 0

Left-winger Wayne Cashman scored three goals, one with his team shorthanded, to lead the Bruins to victory after two straight defeats.

Centre Phil Esposito got two goals—his 55th and 56th of the season—and picked up two assists to raise his points total to 126.

Johnny Bucyk scored his 40th goal for Boston and his 676th in regular-season play. Goalie Gilles Gilbert stopped 18 shots for his fourth shutout of the season.

Hawks 3 Seals 3

Veteran Stan Mikita scored twice in the third period to give Chicago its tie. That moved the Black Hawks to within two points of Philadelphia Flyers of the Western Division leaders.

Wayne Cashman — Leads Bruins

It was Mikita's 25th goal of the season.

The Golden Seals led three times on goals by Morris Mott, Gary Croteau and Joey Johnston. Jim Pappin and Dale Tallon scored for Chicago before Mikita got the equalizer.

Buffalo 4 at Minnesota 4

The Sabres had a 3-0 lead but the North Stars countered with four consecutive goals. A goal by Rick Dudley midway through the final period to earn a point for Buffalo. Bill Goldsworthy registered his 35th goal of the season during Minnesota's rally.

Rod Gilbert — Two and Two

Nowak Dulls Swords

By THE CANADIAN PRESS

Cincinnati Swords would have been content with a tie. But Hank Nowak took care of that situation and his Hershey Bears into first place in the South Division of the American Hockey League.

The Bears and Swords were tied 4-4 late in the third period before Nowak struck. He scored his second goal of the night at 16:18 and added No. 3 with 46 seconds remaining to give Hershey a 6-4 triumph.

The victory gave the Bears 78 points, one more than the Swords and two ahead of Baltimore Clippers.

In other games, Providence Reds defeated New Haven Nighthawks 5-3 and Jacksonville Barons downed Springfield Kings 7-5.

Bears 6 Swords 4

The Bears took a 3-1 lead into the third period before the Swords narrowed the deficit on a goal by Frank Richardson. Nowak's first goal of the game at 4:45 made it 4-3 until Cincinnati rallied with goals by Randy Wyrozub and Robert Titanic.

Steve Andrascik scored two goals for the Bears, both in the second period, and Hugh Harper got one. Jack Egers scored the other Cincinnati goal before 6,806 fans in Hershey.

Reds 5 Nighthawks 3

Rick Middleton scored two goals to lead the Reds to their 35th win, which moved them to within four points of leading Rochester Americans in the North Division.

The Nighthawks, winless in their last 11 games, are third in the division with 72 points, six behind the Reds, and four ahead of Nova Scotia Voyageurs.

Brian Lavender, Doug Horbul and Lawrence Sacharuk scored the other Providence goals. Jerry Byers got two for New Haven and Steve West one.

SOCCER PLAYER DIES ...

BELFAST (AP) — Roy Stewart, half-back of the Glentoran soccer team, died early Wednesday from a heart attack, a few hours after playing against Borussia Moenchengladbach of West Germany in the European Cup Winners Cup. Stewart, 25, complained of feeling ill after the game. He died in hospital later.

Belvedere Hotel Upset By Reid's Dairy Team

Call it revenge, or what have you, but Reid's Dairy's 4-0 win over Belvedere Hotel last night in the Quinte Hockey League semi-finals must feel good to the team, today. Reid's finished in the basement of the four-team league this season, with only 14 points, and were beaten out in last year's league finals by the same Belvedere team. The championship last year was the fourth consecutive title for the Hotelmen.

Last night's whitewash by the Dairymen gave them a four games to two victory in the best of seven series, and the right to advance to the league final against either Stinson Construction or Cornerstone Engineering.

Mike Caine of the Reid's net got a two-goal effort from Ted Waite, and one each from. Reid Mallory and Bob Woodike to support his shutout.

Mallory got in on both of Waite's goals to pick up helpers, while Woodike, John Chalmers, and Rob Reid each added one assist.

Meanwhile, in the other series, Cornerstone moved one game closer to upsetting pennant winning Stinson Construction in that semi-final by taking a 4-2 decision. Cornerstone now leads the series 3-2.

Deadline For Entries

Tuesday, March 12, is the deadline for entries in the Belleville Industrial Softball League.

A meeting is scheduled for 7:30 p.m. Tuesday, at the Quinte Skating and Tennis Club. Entries will be accepted at that time.

Persons unable to attend the meeting should notify league registrar Bill Cooney of their intentions, if they are interested in entering teams. Bill's address is 134 Victoria Avenue, Belleville.

Trenton Two Up

TRENTON (Special) Two overtime goals boosted Trenton Peewee Raiders into a 3-2 lead in their Ontario Minor Hockey Association major AA quarter-final series with Cobourg, here Wednesday night.

Brad Hobson fired the winner in the extra session with Brent Hockin potting the insurance goal. The teams were tied 2-2 at the completion of regulation time.

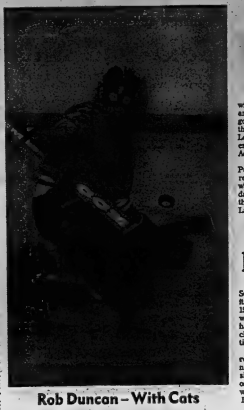
Steve Alexander, Tom Koppman and Ben Leavey were the other Trenton marksmen.

Third game in the best of five set is scheduled for the Community Gardens here, Saturday, at 8:45 p.m.

In OMHA Peewee minor AA playoff developments, Trenton's Loyalist Coach Lines squad got worst in quarter-final series with Bay Ridges will open here Sunday, at 4:30 p.m. The second game in the best of five set will by played in Bay Ridges but no date has been confirmed as yet.

Quinte Ice Products Midgets also begin quarter-final playoffs this weekend. The team plays host to Whitby-Brooklin at the Gardens, Sunday night at 9:15.

Monday at 9 p.m., the teams book up in Brooklin with the third game scheduled for Thursday. Who gets home ice for Game 3 will be decided by a flip of the coin.



MacKenzie to take a 2-1 lead.

Dwight Baldwell evened the count at two each with a goal at 15:22 of the second frame, but that was the best they could do the rest of the way.

Bruce Rasicot fired the winning goal for the Builders at 4:2 of the final stanza, with Al Mott holding his second marker of the game for an insurance goal at 19:26.

Mott also drew two assists with Rasicot also adding a pair of helpers.

The seventh and possibly deciding game of the series will be played either next Wednesday or Thursday night, depending on the Belleville Bobcats' fortunes in their Metro Junior B playoffs.

Rob Duncan – With Cats

The Original Knight SOLUNAR TABLES Whom To Fish & Hunt Or How!

By Mrs. Richard Alden Knight

Sports Calendar

The schedule of Solunar Periods, as printed below, has been taken from Mrs. Richard Alden Knight's Solunar Tables. Plan your days so that you will be fishing in good territory or hunting in good cover during these times, if you wish to find the best sport that each day has to offer.

The Major Periods are shown in boldface type. These begin at the times shown and last for an hour and a half or two hours thereafter. The minor periods, shown in regular type, are of somewhat shorter duration.

Use Eastern Standard Time.

March 9 - 17.

Day	Minor	Major	Minor	Major
	A.M.	A.M.	P.M.	P.M.
Saturday	1.45	—	8.15	12.30
Sunday	2.40	12.55	7.10	1.25
Monday	3.40	1.55	8.05	2.20
Tuesday	4.35	2.50	9.00	3.15
Wednesday	5.30	3.45	9.50	4.15
Thursday	10.35	4.45	10.50	5.10
Friday	11.25	5.40	11.50	6.00
Saturday	—	6.25	12.15	6.50
Sunday	12.35	7.10	1.05	7.40

Going for a slide during game at Memorial Arena, Wednesday night Quinte Hockey League playoff John Chalmers (left) of Reid's Dairy and Wayne Woods of the Belvedere Hotel team, appear in a hurry to get back into the action. Reid's won the game 4-0 to take the semi-final series 4-2. They'll meet the winner of the Cornerstone-Stinson set, in the final.

Juvenile Playoff Dates Set

TRENTON — Dates for the first for games in the Trenton Bisga Handy Standard Lindsay Juvenile AA playoff series have been released.

The eight-point (best of seven) set will open in Lindsay Friday night with the teams booking up in Game 2 at the Community Gardens, Sunday night.

Game time in Lindsay, Friday, is 9 p.m. and a bus has been laid on for fans. Those wishing to take the trip by bus should call Birt's Handy Stand with their requests for tickets.

The game here Sunday is scheduled for a 2 p.m. start.

Third game in the series goes Tuesday, March 12 in Lindsay at 8:30 p.m. and the fourth match will be played in Trenton, Thursday, March 14, at 8 p.m.

Bobcats and Panthers In Game 4 Tonight

Rob Duncan will remain with the Belleville Bobcats and is expected to start in goal for the fourth game of the Metro Junior B Hockey League semi-finals with Pickering Panthers at Memorial Arena tonight.

Duncan has picked up from Peterborough Lions as a replacement for Steve Clark who was injured during Sunday night's second game of the series. Cats sidelined Lions in first round action.

The Peterborough goalie chalked up a 4.66 goals against average in 27 and one-third games with the team this place Lions. He came up with a top performances in Pickering Tuesday night, when the Cats won 3-2 to take a 2-1 lead in the playoff set.

According to Snipe Matthews, general manager, of the Belleville team, Clark is suffering from a mild concussion and will be out of the lineup indefinitely.

Bob Moore is the other goalie with the Bobcats.

Matthews said this morning that consumers Vern Amey and Brian Collins will both be on deck for tonight's game. Amey's job commitments makes it tough for the defenceman to make all the games. He works in Napanee.

Cousins is attending Queen's University in Kingston. A forward, Brian has scored 3 goals since returning to the lineup after recovering from a shoulder injury.

In the other half of the group semi-finals, Markham Royals hold a 1-0 lead over Brampton Blues as the result of a 3-1 win in the Monday opener.

Game time tonight at Memorial Arena is 8:30.

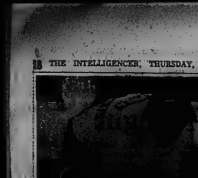
All Six Teams Expected Back

The Belleville Commercial Softball League has not held its election of officers for the 1974 season but affiendy, it would appear the loop will have all of last year's six clubs back for another go this time around.

Five of 1973's starters were represented at a Wednesday night meeting chaired by president George Rutledge. The only representative missing was Trenton Auger's Wayne Drake.

However, Drake said this morning that the Trenton club will definitely be returning.

Attending the Wednesday meeting were Bob Ebbler (Howard and Robert Printing), Ralph Hanna (Hollins Construction), Bill Shaw and Jim Lloyd (Dunnin Motors), Bill Dewey (Bardon Supplies) and Don Wood (Ellis Juniors).



Other members of the 1973 executive in attendance were vice-president Harold Bawden, secretary Vern Whalen and treasurer, Paul Goodfellow.

League officials have scheduled another meeting for Tuesday, March 26, at the Quinte Skating and Tennis Club, at 8 p.m.

Cranston and Shaver Move Up

Gold and Silver for Russian Pairs

By GORDON GRANT
CP Sports Editor

MUNICH (CP) — While Russians prevailed in pairs, the feuding Wednesday at the World Figure Skating Championships was that the Canadians are moving up.

Russian pairs won the gold and silver medals, the first of their to be decided, while Canadians Cranston and Ken Shaver finished first and second in the men's singles competition, free skating and moved into medal contention.

Irina Rodnina and Alex Zaitsev won their second consecutive pairs title and teammates Ludmila Smirnova and Alexei Ulanov took the silver. The bronze went to East Germany's Romy Kermer and Rolf Oesterreich.

Canada and Val Bezic of Toronto finished fifth, one place ahead of their 1973 showing.

It was Rodnina's sixth world title and fifth with Zaitsev. Smirnova won four of her titles as the partner of Ulanov, but this was the first world gold she has seized.

The champions received a perfect mark of six from one judge and eight for the second best mark. They received nine 5.9s for artistic impression.

The Beatles said they were happy with the way they skated, and "with our fifth-place finish."

"We're just bursting with ideas," said Sandra. "We have so many plans we can't wait to get back (to Toronto) and start working on them."

In the men's compulsory free skate, Cranston of Toronto jumped to fourth place from eighth with his first-place finish while Shaver of Cambridge, Ont., jumped to fifth from seventh.

It will be tough for either of them to catch leader Jan Hoffmann of East Germany or second-placed Sergei Volkov, but experts agree it is possible.

The over-all men's title will be decided tonight. Hoffman has 186.84 points and 14 ordinals and Volkov has the same number of points and 16 ordinals.

Vladimir Kovalev of Russia is third with 123.71 points, followed by Cranston with 121.86 points and 44.5 ordinals. Shaver has 121.13 points and 45 ordinals.

"What I have to do in the free skating is skate like I've never done before and pull out all the stops," Shaver said.

Robert Rubens of Toronto, the third Canadian skater, moved to 12th from 20th by finishing fourth in the compulsory program. There are 25 men in the competition.

In the compulsory free skate, the competitors must complete six elements and the marks gained count 20 per cent toward the over-all total. The figure were worth 40 per cent and the free-minute free skating is worth 40 per cent.

In the dance, Ludmila Pakhomova and Alex Gorshkov, four-time champions, took the lead after two compulsory dances. They received first-place votes from all nine judges.

Hilary Green and Glyn Watts of England were second and Natalya Linichuk and Gennadi Karponosov of the Soviet Union were third.

Louise and Barry Soper of West Vancouver were ninth while Barbara Berezwick of Toronto and David Porter of Perry, Ont., were 18th.

The Sopers said they were upset about their placing. Louise said they would have to create vidoer refreshment if they didn't improve on last year's showing. They were ninth in the world the last two years.

Kathy Hutchinson and Jamie McGrigor of Cambridge, Ont., finished 18th and last in the pairs.

Today, the women's compulsory free skate, another compulsory dance and a set-pattern dance and the men's final skate will be held.

Canada's best hope for a medal is Lynn Nightingale of Ottawa who is considered one of the finest free skaters in the world. Barbara Turpenning of West Vancouver is the other Canadian and aims to make the top 16.

Windsor Spitfires Move to Semi-final

BY THE CANADIAN PRESS

Windsor Spitfires handed Detroit Junior Red Wings their fourth loss in as many games to sweep their eight-point Southern Ontario Junior Hockey League semi-final playoffs with a 7-5 victory Wednesday.

In the first game of another semi-final series, Chatham Maroons downed Welland Sabres 5-1 to take a 3-0 point lead in their eight-point playoffs.

Windsor will meet the winner of the Chatham-Welland series for the league championship.

At Detroit, the Spitfires led 4-2 early in the second period, but Detroit straight Red Wings quickly narrowed the score to 6-5 early in the third.

The Spitfires scored an insurance goal into an empty Detroit net after teammate Herb Laverton had been pulled for an extra attacker.

The Maroons was tied 2-2 at the end of the first period.

Hugh Mitchell led the Spitfires with two goals.

Ken Campbell, Bill McCreary, Mark Hickey, Rick Nelson, and John Riley scored the other Windsor goals.

Jerry McLean, Gary Dorosh, Jude Cummings, Ed Dobbs and Hamilton club.

Gary Cardowski scored for Detroit.

Windsor outshot Detroit 38-31.

At Welland, Chatham netminder Rick Heinz stopped 17 shots in the first period and 33 in the game to lead the Maroons to victory.

Dave Easton scored the first Chatham goal then assisted on the eventual winning goal by Rick Stickney in the second period.

Easton also assisted on the insurance goal by Scott McKenzie into an empty net with 38 seconds remaining in the game.

The win was Chatham's first Welland this season after dropping four regular-season games.

Jim McCabe scored for Welland on a behind-the-net power play.

Welland outshot Chatham 38-32 and took 11 of 20 penalties.

The next game in the series is set for tonight in Chatham.

JOINS DIRECTORS ...

TILLSONBURG, Ont. (CP) — Hamilton Tiger-Cats of the Canadian Football League announced Wednesday the appointment of George Trottier, a Tillsonburg businessman, to the club's board of directors. He succeeds Ralph Wilson, owner of the common stock in the

Title Hopes Dashed As Rock Goes Astray

LONDON, Ont. (CP) — Paul Savage had his title hopes dashed in the Canadian men's curling championships Wednesday night by a rock that went astray.

The Toronto skip's last rock, an open-takeout shot in an extra-end, went around halfway up the sheet and Nova Scotia's Barry Shearer won 7-6.

The rock must have picked up some dirt, Savage said.

The loss left the rink, representing Ontario for the second consecutive year, midway down the standings at the halfway mark of the 11-rink round-robin championship that ended Saturday.

Alberta's Rec Gervais rink was on top with a 5-1 record after defeating Manitoba's Don Barr 10-6. John Clark of Fredericton, who had shared the lead with Gervais' Sil Albert four, lost 7-4 to Larry McGrath of Kindersley, Sask.

In other north-round games, Jim Armstrong of Richmond, B.C., downed Jim Ursell's Quebec rink from Montreal 8-4, and Northern Ontario's Chucker Ross of Sudbury edged Bobby Dillon's Prince Edward Island foursome from Charlottetown 7-6.

"I figured it (the Nova Scotia shot rock in the house) was gone," said Shearer of Halifax. "He didn't miss it, either. I caught a piece of straw or something and just took off."

Although Nova Scotia team had won its first game of the championships earlier in the day by beating Newfoundland, Shearer said he didn't expect to win over Ontario.

Savage's rink grabbed a 5-0 lead after four ends and Nova Scotia picked up singles in the fifth, sixth and ninth. Ontario picked up one in the 10th, but Shearer got two in the 11th and one in the 12th to send the match to an extra end.

Gervais, whose only loss in this championship was Tuesday to New Brunswick in a last-rock cliffhanger, said he was more attuned to Manitoba's threat.

"You always figure Manitoba's going to be tough," he said. "Fortunately Donny (Barr) missed a couple of shots tonight and we were able to take advantage of it."

In fifth-round games, New Brunswick whipped Quebec 11-5, Saskatchewan handed Northern Ontario 12-5, Alberta edged B.C. 9-7, Ontario beat Manitoba 10-5 and Nova Scotia won its first, 13-5, over winless Newfoundland.

"They're awfully cute when they're little, but before you know it they turn into consumers!"

Russian Spacecraft Is Believed Crude

LONDON (REUTER) Latest technical information leaking out from the Soviet Union is confirming what the many experts had long suspected—that Russia's Soyuz manned spacecraft is in many respects a comparatively crude and unsophisticated vehicle.

Welch, from the American point of view, could be alarming since Soyuz is due to perform a joint, crew-swapping mission with a U.S. Apollo craft in summer next year.

The very fact that authentic details are at last beginning to emerge about Soyuz—the first since its space debut in 1967—reflects American concern.

From the moment that the joint—Soyuz-Apollo mission was agreed as part of a new spirit of détente and co-operation between the two superpowers, technical experts of the U.S. space agency have been anxiously pressing for more and more information about the Soviet hardware.

One of their big concerns was its safety and reliability, since the joint flight agreement followed close on the disaster in June, 1971, when a Soyuz batch failure during re-entry to earth's atmosphere claimed the lives of three cosmonauts.

It was more than two years before cosmonauts ventured into space again with the two-day mission of Soyuz 12 last September.

Its prime objective, Soviet spokesmen confirmed, included "comprehensive checking and testing of improved flight systems" and "further testing of the process of manual and automatic control in various flight conditions."

Then in December came the eight-day orbital flight of Soyuz 13, which had been fitted out for an expanded scientific program. Afterwards, mission commander Pyotr Klimuk, a Soviet air force major, announced that "the spacecraft is reliable, responds well to control and is convenient for work by cosmonauts and researchers."

Engineers from the National Aeronautics and Space Administration (NASA) had, meanwhile, spent long hours with their Soviet counterparts, both in Moscow and Houston, Tex., on "nuts and bolts" discussions.

Their aim: to glean as much data as possible about Soyuz to determine how it can be made compatible with Apollo for the link-up mission.

For diplomatic reasons, NASA experts are not publicly airing their findings. But details are emerging nonetheless.

And, in the words of the most respected American magazine Aviation Week and Space Technology they "show the vehicle (Soyuz) to be little more than a man-rated unmanned satellite in which cosmonauts have minimal command, control and trouble shooting capacity."

The problem with the hatch has apparently been fixed by the addition of "fail-safe" equipment.

But in general, according to Aviation Week, Soyuz systems are only about on the level of the Mercury and Gemini spacecraft which were the forerunners of Apollo.

THE COUNTY OF HASTINGS
REQUIRES A
PERSONNEL - PURCHASING OFFICER - SECURITY CLERK
DUTIES: As Personnel Officer the successful applicant will be expected to maintain complete and comprehensive personnel records and to carry out extensive research on collective agreements in other municipal jurisdictions.
As Purchasing Agent the duties will entail the preparation of purchasing documents, carrying out normal purchasing practices for several County Departments and to negotiate land acquisitions.
As Deputy Clerk the applicant will carry out the statutory duties of the County Clerk in his absence or as assigned from time to time.
QUALIFICATIONS: Reporting directly to the County Clerk-Treasurer and Administrator, applicant should have experience in a large number of these functions and must have the ability to prepare comprehensive reports for presentation to Council or Committee.
SALARY: Will be commensurate with qualifications and experience.
EXCELLENT FRINGE BENEFITS
Applications will be received by the undersigned until March 15, 1974, and should clearly indicate age, previous qualifications, and salary desired, application forms may be obtained from my office.
Carl E. Bateman, A.M.C.T., Clerk-Treasurer & Administrator, County of Hastings, County Administration Bldgs., Belleville, Ontario.
KIN 3A9.

ELECTRICIANS AND INSTRUMENT MECHANICS
Ontario Hydro has a number of openings at a new fossil fueled thermal generating station in the Kingston area for qualified electricians and instrument mechanics.
QUALIFICATIONS
Grade 12 or equivalent education. Candidates must have completed a recognized apprenticeship as an electrical or instrument mechanic. Two years additional experience is required in a large process industry such as a generating station, pulp and paper mill, chemical plant, cement plant or refinery. Journeyman trade tickets would be a definite asset. Successful candidates must be prepared to work shift as required and to participate in training programs to broaden their skills in both trades.
STARTING WAGE
$6.09 per hour plus excellent employee benefits.
Refer to File : S-A-73
Qualified persons should write quoting file number and giving complete details as to education and any experience including job duties to :
E & I Superintendent
Lennox G.S.
Box 1966
BATH, Ontario.
Ontario Hydro
Junior Programmer
QUALIFICATIONS :
Experience or post secondary training in COBOL & RPG. A knowledge of accounting would be an asset.
DUTIES :
To maintain and code computer programs as well as some operation of a computer.
Salary will be in accordance with the applicant's education and experience with generous employee benefits including Cost of Living Allowance, health insurance, pension plan, group insurance, etc.
Send complete resume of education and experience together with business references, salary requirements and telephone number to :
TREASURER
CORBY DISTILLERIES LIMITED
P. O. BOX 10
CORBYVILLE, ONTARIO
Replies will be held in confidence.

Your Horoscope

By BERNICE BEDE OSOL

Friday, March 8

Aries (March 21-April 19) You are apt to put off something important you should do till the last minute, then later worry if you did it properly.

Taurus (April 20-May 20) If you allow your fear of being properly rewarded govern the quality of your efforts you'll disappoint another as well as yourself.

Gemini (May 21-June 20) Outside interests will take precedence over your family responsibilities today. Someone at home is not going to like it.

Cancer (June 21-July 22) Some helpful information you've dug up won't be of much value if you don't put it to proper use. Act on your findings.

Leo (July 23-Aug. 22) Before you put hard-earned cash in someone else's ideas, get a clear understanding of how you fit into the picture.

Virgo (Aug. 23-Sept. 22) Someone you've done something for will compensate you properly. Don't be disappointed if they don't lavish praise as well.

Libra (Sept. 23-Oct. 22) Things will go smoothly for you today if you don't divide your interests. Home-in on what's important now.

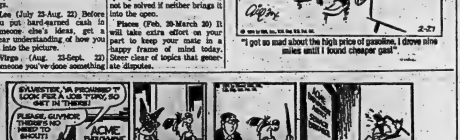
Scorpio (Oct. 24-Nov. 22) You are likely to be slighted by one of your friends. This will arouse a desire to get even. Don't try it.

Sagittarius (Nov. 23-Dec. 21) If you are looking for an ally to rally to your cause today be sure you don't hold back any pertinent information.

Capricorn (Dec. 22-Jan. 19) An unexpected situation will pop up outside of your normal channels of earning. It holds promise if you act promptly.

Aquarius (Jan. 20-Feb. 18) A condition with a negative effect upon you and one you love will not be solved if neither brings it into the open.

Pisces (Feb. 19-March 20) It will take extra effort on your part to keep your mate in a happy frame of mind today. Steer clear of topics that generate disputes.



SIDE GLANCES

Listings Changed

Daily program listings for the Global TV network will be shown in The Intelligencer as being presented on Channel 3 begining with the Tuesday, March 5, insertion. These programs are received on Channel 2 by viewers with TV antennas but since 85 percent of TV owners in this area subscribe to Cablevue service and reshive the programs on Cable Channel 3, it has been decided that the listing should be shown as it applies to the majority of homes.

TV ENTERTAINMENT

THURSDAY

● **ABC Theatre Special** — Hal Holbrook stars in this real-life drama about the USS Pueblo the intelligence ship which was seized by four North Korean gunboats. — Channel 13 — 8:00 p.m.

FRIDAY

● **Glen Campbell Presents the Musical West** — John Wayne, Burl Ives and Rock Hudson Lee are guests for the musical tour of the American West. — Channel 5 — 9:00 p.m.

To Your Good Health

Duodenal Ulcer Is Peptic Ulcer

By G. C. THIETESON, MD

Dear Dr. Thieteson: Are duodenal ulcers the same as peptic ulcers? My brother had two of three serious attacks of duodenal ulcers.

Will you explain:

1—Why can one have chicken soup but not chicken broth?

2—Can onion salt be used safely on food?

3—May oranges and grapefruit be eaten often?—M.M.

Peptic ulcers can include ulcers in either the stomach (gastric ulcer) or in the duodenum (duodenal ulcer). The latter is more common.

For your other questions:

1—Either type of chicken soup should be tolerated well, but if the soup has milk or cream added, that is more in line with ulcer diet. More protective and soothing.

2—There should be no harm in moderate use of onion salt, provided the patient does not have an intolerance for onions.

3—Oranges and other citrus fruits usually can be eaten without trouble by a peptic ulcer patient. In fact, they can be important because a strict ulcer diet can be low in vitamin C and it is even possible for marginal cases of scurvy to develop in such patients unless they pay attention to getting enough vitamin C. The citrus fruits and juices, of course, are prime sources of that necessary vitamin.

Dear Dr. **Thieteson:** I am a girl, 18, and never had serious acne trouble, but I do have four enlarged, ugly pores on my cheeks. Can they be surgically removed? Can you brief me on dermabrasion, cost, time, etc?—C.H.

Such pores may be corrected. But the method to be used (and details of time, cost, etc.) would depend on the depth and extent of the skin defect. The only sensible advice I can give you is to consult a dermatologist or plastic surgeon.

Dear Dr. **Thieteson:** I was told by someone whom I respect that asparagus is taboo if one wants to avoid prostate trouble. Should asparagus creamed soup also be banned?—M.J.M.

I know of no objection to asparagus in either form. It certainly does not cause prostate trouble. The fact of the juries after eating asparagus is due to a chemical in the asparagus, and probably is responsible for the notion that asparagus is harmful. It is not, however.

Win at Bridge

Lancelot wins with stout heart

North was an overtrick to a man who could take on nine kings at the same time. Lancelot wanted to defeat the contract and played his nine of hearts.

South won the trick and led his seven of diamonds. If he had guessed to lead a club he would have made five notrump, but he guessed wrong and led a diamond.

Diandam went right up with his ace. Then he dutifully led a second heart to establish the rest of the hearts for his partner.

Now the best South could do was to cash the good spades and diamonds and concede the last four tricks to Lancelot.

Opening lead—♥5

The bidding has been:

West	North	East	South
	1♦	Pass	Double
Pass	1♠	Pass	2♣
Pass	2♦	Pass	3♣
Pass	3NT	Pass	Pass

You, South, hold:
♠ K 7 4 ♥ A K 7 6 4 2 ♦ 9 8 ♣ 6 3

What do you do next?

A—Pass. This looks like money in the bank.

TODAY'S QUESTION
Instead of bidding one diamond West had bid one spade over your one club. North and Northeast both pass. What do you now?

Q Gawain and James Jacoby Sir Diandam, the worst player among the knights of the Round Table, had one saving grace. He could be depended on to lead his partner's suit.

Thus, he slapped his five of hearts on the table as soon as the bidding ended. The 10 was played from dummy.

Lancelot, the peerless knight and bridge player, was sitting East. He saw that he could take his king of hearts and knock out dummy's ace, but there would be no way for him to score tricks with any low hearts. Thus, the contract would surely make if he played his king.

He also saw that he might

Games Symbol Proves Popular

AUCKLAND (CP) — Seldom has a symbol made such an impact as that used for the Commonwealth Games in Christchurch, New Zealand.

Not only was it an apt and successful motif for the games held in January and February, but it has appealed to New Zealanders and others so strongly that its use is being considered for other purposes.

The symbol has been acquired by the newly-formed government-owned New Zealand Shipping Corp. and will be used on the bows of all its ships.

Some enthusiasts are even urging that it be used to replace the Union Jack in the New Zealand flag. At present the flag has a Union Jack in the top left corner, with four stars on a blue ground on the rest of the flag.

Suggestions have been made in recent years for a more distinctive national flag—and the games symbol has been seized upon as an example of an attractive motif with all the qualities needed.

For the games themselves, the symbol was particularly appropriate and ingenious. Read from any angle, upright, left, right or upside down, it formed the letters CC. Equally it showed in stylized form the figures 74—the year of the games. At the same time the design formed an X, symbolizing the 10th Commonwealth Games.

The symbol is usually reproduced in red, white and blue, giving it an effect somewhat reminiscent of the Union Jack, original flag of New Zealand before independence. This is an additional reason why many people believe the motif would be acceptable in a new national flag.

However the designer, Colin Simon of Wellington, has reservations about the symbol being used for other purposes.

Art director for an advertising agency in Wellington, he designed the symbol specifically for the games and incorporated aspects applicable only to them. He has designed symbols for numerous industrial companies and other organizations.

However, the public has taken such a liking to the motif that it would be no surprise to find it being used increasingly as a national motif for an increasingly wide range of purposes.

Subway Grows

A 2.7-mile extension of the Toronto Transit Commission's Yonge Street line opens March 30, the 20th anniversary of the opening of the original subway. Map shows the existing 26.2 miles of subway line (including the new extension), and the routes of proposed and possible future subway extensions. (CP Newsmap)

Queen Was Bearded

FORT MITCHELL, Ky. (AP) — An alumni group cancelled homecoming queen ceremonies at Thomas More College when they discovered the winner was a bearded soccer player. Harold (Buddy) Rogers, 19, of Louisville, Ky., was to be crowned a halftime of the Thomas More-Findlay basketball game. The school's alumni association called it off, citing a "substantial misunderstanding of student involvement."

Tweed Personals

Dalton Lindsay, manager for six years of the Tweed branch of the Canadian Imperial Bank of Commerce, has been transferred to the Fergus branch, and Garry Mitchell will be taking over the managerial duties in Tweed.

* * *

The Royal Canadian Legion Branch 428, Tweed, entered a team which came second in the recent bowling tournament held at the East Flats Bowling Alley, Belleville. The Tweed team competes in a tournament in Oshawa, Saturday March 23.

* * *

Constable John McGrath of the Ontario Provincial Police, Napanee, recently spent four days at the North Addington Education Centre in Coyne, talking to students about safety and the law.

* * *

Women in Lennox and Addington county will be able to receive instruction in pioneer crafts at the historic Allan MacPherson house in Napanee when weekly group instruction in macramé, tatting and quilting classes (both beginners and advanced) begins March 6 at 1.30 p.m. for six consecutive weeks. The free classes are being sponsored by the crafts committee of the Friends of the Laird Auxiliary of the MacPherson house.

PM Gives His Views

Canada Has Resources to Cope with Inflation

TORONTO (CP) — In what sounded like an election campaign speech, Prime Minister Trudeau outlined his minority government's anti-inflation program and took a few swipes at his Progressive Conservative and New Democratic Party critics Wednesday night.

There was nothing new, however, for the 1,200 Liberal party faithful who paid $100 each to attend a fund-raising dinner which coincided with Toronto's 140th birthday.

Mr. Trudeau restated the case he put before the Commons last week: inflation has no simple solution but Canada can solve it.

He said Canada, unlike most other countries, has the resources necessary to cope with the cost of living, which increased by 9.1 per cent in 1973, its biggest jump in 23 years.

"There is more than enough food on our land and in our seas to meet our needs; almost alone among the industrialized nations, we possess adequate energy supplies. . . .

"So the question is not whether we have the resources or the will necessary to deal with inflation—we do. The question is, rather, is how we go about it."

Mr. Trudeau said his government has protected Canadians with flexible and selective intervention in some commodities—such as milk, bread and fuel—rather than impose strict wage-price controls as Robert Stanfield's Conservatives have proposed.

He said such controls, if imposed, would hurt most the ordinary worker.

"Wage and price controls can become Robert Stanfield's albatross, rather, is how we go about albatross and simple melody that will lead you onto the rocks."

Tax Tip
Expenses Of Moving Deductible

For further information, call the District Taxation Office. If you live in a toll area, ask your long-distance operator for ZENITH-6-4000 and your call will be placed without charge.

Q. I understand that a person who moved in 1973 to a new locality is now entitled to deduct the cost of moving from his income for income tax purposes. Is this correct?

A. Yes. If you moved to a new location you may be eligible under certain circumstances to deduct your moving expenses from income earned at the new location.

Q. I graduated from university in 1973 and moved my wife and family to another province, where I began working. What moving expenses, if any, may I claim as a deduction on my 1973 income tax return?

A. Moving expenses are an allowable deduction from the salary or business income earned in the new work location. Any moving expenses in excess of the income earned at the new work location in the year of the move can be claimed against the salary and business income earned in the following year.

The moving expense claim would include any of the following costs incurred:

1. Travelling expenses, including meals and lodging, in the course of moving from the old residence to the new residence.

2. The cost of transporting and storing household effects.

3. The cost of temporary accommodation (not exceeding 15 days) near the old or new residence.

4. The cost of cancelling the lease on the old residence.

5. The selling costs pertaining to the old residence.

The above moving costs include those of the taxpayer and the members of his household.

Q. May every person who moves in 1973 or later deduct the cost from his income or is the deduction restricted in anyway?

A. No, not everybody is able to claim a deduction for moving expenses. The deduction is limited to salary or wage earners, self-employed persons and, in some cases, students attending post-secondary educational institutions.

Q. If a wage earner, for example, moves in 1973, how can he determine if he qualifies for the moving expense deduction? Can you tell us briefly what the rules are?

A. The most important rule to keep in mind is that moving expenses may be deducted from income if you move to a new residence to earn wages in a new location in Canada, and your new residence is at least 25 miles closer to your new place of work than your former residence was. You should also remember that moving expenses may be deducted only from income earned at a new place of work or business.

Q. Can I claim as moving expenses the cost of transportation, food and lodgings spent trying to establish a new residence before I actually terminate my present employment?

A. No. You must have ceased your employment at the former location.

Laborites Act

Seek Accounting Of Food Profits

LONDON (CP) — The new Labor government summoned food retailers today to defend record profits of more than 18 per cent.

The watchdog Price Commission already has warned it may ask food retailers to cut their profits by 10 per cent.

But prices of basic foodstuffs such as eggs, cheese and butter are expected to increase next week because of higher wholesale prices.

The meeting between the commission and representatives of leading food firms came as the state-owned coal, steel and electricity industries were reported planning price increases of up to 60 per cent in the wake of the 16-week coal miners' dispute.

The steel and electricity industries buy 70 per cent of Britain's coal. Coal prices are expected to increase by up to 30 per cent in the near future unless Prime Minister Harold Wilson's government intervenes with heavy subsidies.

A report by the National Institute of Economic Research predicted a $7.4-billion trade deficit and 600,000 jobless by the end of the year, but was not its "optimistic" forecast.

Its "pessimistic" forecast indicated one million unemployed and a trade deficit of $19.9 billion.

Britain now has about 500,000 hard-core unemployed — not counting those who were temporarily laid off during the three-day work week that ends at midnight tonight.

There is also fear of inflationary wage demands following the miners' settlement.

Within hours of the miners' leaders accepting a $20-a-million pay package Wednesday night the leaders of Britain's bank workers and London subway train drivers indicated they also want wage increases that would exceed statutory limits.

One commentator estimated that a total of 3.25 million British workers will push for big pay increases following the miners' victory.

There were indications that the new minority Labor government's post-election honeymoon period is over with attacks coming from former ministers in the Conservative government which lost the Feb. 28 national election.

Peter Emery, a former industry minister, said the minority settlement will be the most inflationary in the history of trade unions.

"The use of brute force by strong unions has again proved that they can win at the expense of the moderates and of the country," he said.

Anticipating the approval of the pay deal by Britain's 270,000 miners, Energy Secretary Eric Varley announced Thursday that Britain will return to five-day work week from midnight tonight.

He said there is no justification for continuing the three-day work week imposed on non-essential industry by Edward Heath's Conservative government to save fuel.

The settlement of the coal dispute comes in the 12th week of three-day work week. But Britain has been under a state of emergency and power supplies have been in doubt for 11 weeks. The miners began a ban on overtime working in November and started their strike Feb. 10.

The return to a full work week delighted the Confederation of British Industry but there was a decline in business confidence on the London stock exchange because of the fear of other inflationary wage demands.

This is despite an offer by the Trades Union Congress to exercise wage restraint in return for voluntary bargaining.

Lots of Supervision

As last night's Junior B playoff game in the Belleville Arena drew to a close, some tempers flared, with this fight between Belleville Bobcat Kevin Joudwa and Pickering Panther Rocci Pagnotto, one of the results. Joudwa appeared to get the better of the fight, under the watchful eyes of three officials. The Cats also got the better of the Panthers, coming out on the long end of a 7-4 win to take a 3-1 lead in the best-of-seven semi-final series. For story, see Page 11.

Mike Bradshaw

Much Yet Unrevealed --Colson

WASHINGTON (Reuter) — The fingerknotted knot tightened around President Nixon today while an indicted former White House lawyer hinted the public has not been told the full truth about the three-year old Pentagon papers case.

While Nixon fought against Congress to preserve his presidency in face of Watergate and other scandals, two former aides were charged with allegedly sending burglars into a psychiatrist's office and then lying about it to investigators.

One of them, Charles Colson, told reporters a great deal more is still to be revealed about White House efforts to bring national security cloaks that had led to publication of the Pentagon papers in the summer of 1971.

Colson and former domestic affairs adviser John Ehrlichman were among six men charged Thursday in connection with the burglary in September, 1971, of the office of a psychiatrist treating Daniel Ellsberg, who admitted leaking to the press the Pentagon's secret analysis of United States involvement in Vietnam.

The indictments, handed down by Watergate special prosecutor Leon Jaworski, were the second in a week to name the two men.

Last week they were accused of complicity in efforts to cover up the break-in at the Democratic party's Watergate headquarters in June, 1972.

CHARLES COLSON

The Weather

Argentina Buys Candu Reactor

BUENOS AIRES (AP) — Argentina has approved contracts signed by the Atomic Energy Commission with a Canadian Crown corporation and Italimpianti, the Italian firm, for construction of the country's second nuclear reactor.

The plant will be located in Rio Tercero, 400 miles west of Buenos Aires, and will involve Canadian investment of some $88 million and Italian capital of $121 million.

Argentina's first atomic plant, at Atucha 120 miles from here, began test use of natural uranium in Canada earlier this year. They were the first such tests in South America.

The contracts call to build four nuclear power stations by 1987 to reduce its consumption of fossil fuels.

The Italian-Canadian consortium has been negotiating the contracts for more than nine months.

Both Italimpianti, a large investment group with private and public capital, and Atomic Energy of Canada Ltd., a Crown corporation, have had experts working on the details of the plant since last August.

The Canadians would build the reactor and the heat creation systems of the nuclear facility. It would provide Argentine uranium in Canada and provide heavy water for the Canadian prototype of the heavy water natural uranium reactor.

Italimpianti would build the turbine portions of the reactor.

Today's Chuckle

A bargain is something that would cost a lot more if you had any use for it.

News Briefs

'Miss World' Fired

LONDON (AP) — Marjorie Wallace, the 20-year-old Indianapolis model who last November became the first American to win the Miss World title, was fired by the contest's British organizers Thursday and flew off to New York. Miss Wallace's dismissal was unprecedented in the 22-year history of the competition.

Two Ports Closed

ADDIS ABABA (Reuter) — Ethiopia's general strike appeared to be gaining momentum today. Both the country's Red Sea ports were closed as a result of the industrial action, now in its second day. The Assamara port, Massawa, near the northern city of Asmara, closed as dockers joined the walkout.

Compressed Air Car

MOSCOW (AP) — Plagued by air pollution in its cities, the Soviet government is going into mass production of cars driven by compressed gas. "The advantages are self-evident," said Tass, the official news agency. "Compressed gas is cheaper and creates practically no air pollution."

Amnesty Hearings Start

WASHINGTON (AP) — Thirteen months after the Vietnam War ceasefire, the United States Congress is beginning its first full-scale hearing on legislating amnesty for at least one-quarter million deserters and draft evaders. Nixon administration officials are among lead-off witnesses today at a House of Representatives committee hearing, along with spokesmen for national organizations campaigning for amnesty.

More Food Distributed

HILLSBOROUGH, Calif. (AP) — Another distribution of free food to San Francisco Bay area poor takes place today, the fourth financed by newspaper magnate Randolph Hearst in an effort to free his daughter, Patricia, from kidnapers. But since the giveaways began Feb. 22, there has been no move by the 20-year-old woman's captors.

Liberal Expelled

VICTORIA (CP) — Expelled from the British Columbia legislature again Thursday, Liberal leader David Anderson accused Premier Dave Barrett and an MLA of influence-peddling. Egg producer Dave Kovachich of Tabor Lake, B.C., got "a special deal" on a $21,300 fine he owed to the egg marketing board, Mr. Anderson charged, because the premier ordered a reduction and Mr. Kovachich was a supporter of Al Nunweiler (NDP —Fort George).

Five Burned to Death

TORONTO (CP) — Four men and a woman were burned to death early today in a fire downtown rooming house.

Eight persons—including two firemen—were injured as flames swept through the three-storey house occupied mainly by welfare recipients.

Police and firemen said all 15 persons in the building when the fire broke out shortly after 3 a.m. EST were accounted for. Several were rescued by firemen and some had been overcome by smoke.

The victims all were burned beyond recognition.

Syria Threatens Renewed Fighting

By THE ASSOCIATED PRESS

Israelis and Syrians clashed with tanks, cannons and missiles today on the tense Golan Heights front amid Israeli reports that Damascus is preparing for a new round of fighting.

A Syrian military communique said the hostilities began with a 90-minute tank and artillery duel in the central sector of the front.

The Israeli military command said the Syrians fired a number of anti-tank missiles at an Israeli patrol in the Tel Marsi central sector and Israeli forces returned the fire.

Neither side reported casualties.

The Israeli newspaper Maariv says that the United States has warned Tel Aviv of a possible Syrian attack to retake Israeli-held areas of the Golan front. The Syrian army is in a "high state of readiness" and armed with many ground-to-ground missiles, the paper says.

The first Israeli reports of a Syrian buildup were treated with some skepticism in Israel. Some observers felt the government used the scare as a device to settle a government crisis. But reports from the front Thursday indicated Israeli troops on the line were taking the fears seriously.

His Tips Paid Off

DETROIT (AP) — A locker room attendant at a posh club here is stunned at least $400,000 by getting in on some good stock tips from his wealthy clientele.

Louie Boldrini, 57, who has attended to the needs of the rich at the exclusive Detroit Athletic Club since 1927, had been tight-lipped about his wealth until last week, when robbers got to a safe in his stock-split home in suburban Sterling Heights.

Boldrini at first said the 600-pound safe was empty. Later, he admitted the safe contained $400,000 in bonds and securities and $10,000 in cash.

"I happened to get in on some good stocks," he told police when they questioned how he accumulated the fortune.

He Lets Employees Set Own Salaries

OAKLAND, Calif. (AP) — Appliance store owner Arthur Friedman thinks what's good for his employees is good for him. So he lets them set their own salaries, days off, holidays, vacations, and just about everything else.

Friedman's Appliances has been operating that way for about five years.

Friedman, 51, says he allows his 12 workers to choose the customers they wait on, borrow company trucks and take any kind of leave they think they ought to have.

"I've never been ripped off," said Friedman. "If you lay yourself open to people, you find what you're looking for."

Referee Faces Loss of Year After Assault

HAMILTON (CP) — Joseph Paul Sicinelli needed plastic surgery to save his eye after he was punched by an angry player when he refereed a Catholic Youth Organization (CYO) basketball game last month.

Now doctors have told Sicinelli, 18, an above-average student at Cathedral High School, full recovery will be impeded if he attempts to study for his final semester exams.

His principal, Rev. Alex Cavner said Thursday he will have no chance of passing his year under those circumstances.

The injury occurred during a game Feb. 16 in which Sicinelli called five personal fouls, then disallowed a final basket. He was hit in the eye.

Dennis William Hall, 18, a Grade 12 student was later charged with assault. He is to appear in provincial court March 27.

CYO spokesman Tom Gallagher said Thursday Hall has been suspended indefinitely from league play.

U.S. Citizen Said Named to Head School Study

ST. CATHARINES (CP) — A United States citizen has been appointed head of a $50,000 Ontario government study of the Canadian content in the province's school curriculum, the national chairman of the Committee for an Independent Canada charged Thursday.

Mel Hurtig told the committee's Niagara chapter that Mel Robbins, whom he identified only as an American citizen educated in the U.S., was chosen over 100 Canadian applicants.

In Toronto, an assistant to Education Minister Thomas Wells expressed surprise at the announcement and said he knew nothing about it. He said the decision might have been made at "a lower level."

Mr. Hurtig said he learned of the appointment Wednesday after the government had "quietly announced it."

He would not identify the source of his information, but quoted the person as saying the appointee knows very little about Canada and there were at least 100 choicer, all Canadian, who would have done a much better job."

Mr. Hurtig said the $50,000 is an initial allotment for the study, with more to follow, and it will be used "specifically to examine what Ontario's schools do related to Canadian content in their curriculum."

He termed the appointment "startling, preposterous and absurd."

Bending for Gold

Tommy Smith of Northwest Territories stretches for a gold award in the back bend, one of the native sports for which awards are given for the first time in the third biennial Arctic Winter Games.

DEATHS

ANDREW, William — On Carrington Manor, Belleville General Hospital, on Wednesday, March 6, 1974, in his 86th year, son of the late Robert and Mary Andrew, husband of Susanna Andrew, father of Mrs. Thomas (Mary) Bonnell of Toronto and Mrs. Ernest (Ida) Bonnell of Toronto and stepfather of Mrs. Ethel Andrew of Belleville. The funeral service will be held at the Thompson Funeral Chapel, 35 Everett Street, Belleville, on Saturday, March 9, at 2 p.m. Interment Mount Pleasant Cemetery. Visitors to Christ Church would be welcome.

CHAMBERS, John — Passed away at Kew Memorial, Belleville, on Tuesday, March 5, 1974, John Chambers, aged 74 years, beloved husband of Belleville, 74 Mill Street, dear father of Mrs. Ruth Bonnell of Belleville, Mrs. Jean Hutchinson, Belleville, Marion Chambers, Belleville, Mrs. Norma Chambers, Scarboro, and Mrs. Helen (Mac) Chambers, Belleville. Resting at Christ Church from 1 p.m. on Saturday, March 9, until the funeral service at 2 p.m. Interment in St. Andrew's Cemetery.

COURNOYER, Francis Antoine — At Salvation Army Grace Hospital on Thursday, March 7th, 1974, Francis Antoine Cournoyer, aged 74 years, beloved husband of Mabel Cournoyer, dear father of Mrs. Gerald (Rose) Hamilton, Ont. and John, Detroit, Michigan. Funeral Mass will be held at the Bush Funeral Home, Belleville, on Monday, March 11th at 10 a.m. Interment St. Thomas Cemetery, Tyendinaga Township.

PRESTON, Herbert (Della) — Of Quinte Manor, Belleville, on March 7, 1974 at the Home of Professional Nursing, Belleville, Herbert Preston, aged 74 years, dear father of Mrs. Michael (Eleanor) Cecil, Bowmanville and Mrs. Gordon (Gertrude) Bonnell of Bloomfield, brother of Mrs. Ethel Bonnell of Toronto, Mrs. Mary Magdalene (Margaret) Bonnell of Belleville. Resting at the Bush Funeral Home, Belleville, Monday, March 11 from 2 to 4 and 7 to 9 p.m. Funeral service will be held in the Chapel on Tuesday, March 12 at 2 p.m. Interment in St. Simon's Cemetery.

PROVOST — At the Trenton Memorial Hospital on Thursday, March 7, 1974, Ernest E. Provost of 132 Dundas St. East, Trenton, aged 77 years. Beloved husband of Mary (Stewart). Dear brother of Marion Provost, Trenton, Mrs. Ethel Hall (Mrs. Wm. Sharp), Bowmanville and Mrs. Ruth Hall (Mrs. Wm. Sharp), Bowmanville. Resting at the Hogle Funeral Home, Stirling, Sunday, March 10 from 2 to 4 and 7 to 9 p.m. Funeral service will be held in the Chapel, Reverend Gerald Hall officiating. Interment Rednersville Cemetery.

PETTERICK, Grace — Suddenly at Belleville General Hospital on Thursday, March 7, 1974, Grace Petterick, aged 74 years, beloved wife of Clarence Petterick, R.R. 3, Marmora, dear mother of Mrs. Reginald (Jean) Bonnell, Belleville. Funeral service will be held in the Chapel, Reverend Gerald Hall officiating. Interment Rednersville Cemetery.

HART, Mrs. Allison — Of 32 Mitchell Road, Belleville, at the Belleville General Hospital on Friday, March 1, 1974, in her 81st year, Daughter of the late Mr. and Mrs. Robert Allison, beloved wife of Orton Hart, Belleville, mother of Mrs. Ralph (Mildred) Jane Bullerton, all of Toronto. Resting at the Bush Funeral Home, Belleville, Sunday, March 3, 2 to 4 and 7 to 9 p.m. Funeral service in the Chapel on Monday, March 4 at 2 p.m. Interment in Belleville Cemetery.

Dental Lab Comments On Denturist Controversy

Following are excerpts from an address that outlined the aims of the Dentalcraft Committee of Dental Technicians who have joined the battle between the dental profession and denturists.

The speech was submitted to The Intelligencer by the Belleville Dental Lab as comment on the current controversy.

The denturists in no way represent the views of the great majority of dental technicians.

They are selling illegally in their efforts to gain publicity and are intentionally misleading the public on the facts of the denture issue — and also on the fact of their qualifications.

We dental technicians, as a craft, must also bear part of the blame. We have been silent for the last three years while denturism has ranged between dentist and denturist.

The denturists do not intend to obey the law. They admit this. While all of us welcome progressive changes in legislation, we cannot stand by and allow the denturists to succeed—in their efforts to defy legislation.

Their prime objective is money — at the expense of the public's oral health.

They are a renegade band — trying to gain public support with "bargain basement" advertising and deceit, totally ignoring the truth about their lack of qualifications to treat patients.

They are totally unqualified to treat patients without the supervision of a dentist. No dental technician is qualified to treat patients without the supervision of a dentist.

The responsible dental technicians are a vital part of the dental health service. They are the trained experts in the fabrication of dentures, indeed all dental appliances, but the renegade group of so-called denturists, have used their past associations with dental technicians as a clever propaganda technique. They confuse, divide and mislead the public. Its elected representatives and the news media.

Recognized dental technicians and therapist experts under the law, which requires prescription and supervision by dentists — so protecting the public.

The public if further endangered as it has no assurance that these denturists — have not or will not — reach out beyond even their present illegal activities.

Without going into technical details, one of the most common problems of persons taking treatment from denturists,

Mr. Angus Yorke, Sec.-Treasurer, Rte 10, Hamilton, Ont.

results from the fitting of dentures on unhealthy gums.

The dentist is trained for preventive care and can detect oral cancer. We understand periodontal have crudely attempted to perform orthodontic treatment in cases where even a dentist would refer the patient to a specialist.

The dentricists claim they are qualified — yet they have repeatedly refused to sit for denture therapist examinations. Even if they refuse to recognize the authority of what they consider the "Establishment", they can at least prove to the public that they can qualify.

The Ministry of Health has been ever backwards to give the denturists three separate opportunities within the last nine months to sit for these exams.

If the denturists wish to continue breaking the law, our committee will oppose them. But we challenge them to take the therapist exams to show that they can at least qualify.

The denturists keep making headlines. They invite police raids to gain publicity and self-styled martyrdom. We have been advised that in the new legislation session, the denturists will mount an even stronger lobbying effort. They are looking for underdog sympathy — and appear to be getting it from some politicians, some newspaper columnists and from the public sectors.

Their basic message is that the dentists are robbing but middlemen. Otherwise, denturists can offer to do their job at bargain prices.

We are getting back to the pioneer era of store-bought teeth!

Our committee has not been formed to support the dental profession in all circumstances. We would welcome specific charges in the area of governing dental health care.

The dentists put all low cost denture work through the qualified laboratories, so enabling recognized and legitimate technicians to work on them. To the dentist, denture work generally represents a small portion of his income. However, it is the work the bread and butter of a dental technician.

When the laboratories lose this work to bootlegging denturists, the supply of crowns, bridges, orthodontic devices and partial dentures is adversely affected. And as we all know, shortages invariably lead to higher prices.

The rise of the denturist has also upset the supply and demand of the dental technical personnel in Ontario.

The Department of Ontario paid $200,000 to set up a dental technician course at George Brown College, Toronto, and it costs about $60,000 to train each class to keep it going. Until the denturist broke their stride the supply and demand situation of skilled technical people was balanced.

George Brown College also has a night course so technicians can upgrade their knowledge and skills and enter into specialty work.

These courses cover all aspects of dental technology, yet these skilled graduates never were taught intra-oral treatment.

We have now become the third world in what has been a duel between the dental profession and the renegade denturists. Our craft did not wish to confront the denturists — but because of their ridiculous claims, we have been forced to.

In summary, I make the following main points:

1. That dental technicians — be they assigned duties, or registered to own labs, or the new denture therapists — are the only qualified and legitimate craftsmen to fabricate dentures.

2. That the Ontario Committee of Dental Technicians represents about 1,200 or 85 per cent of the province's practising technicians who completely discipline themselves from the denturists.

3. That all dental technicians — and especially the denturists — are not qualified to treat a patient.

Instead of continuing the battle, we extend a sincere invitation to the denturists to join our committee operations. Also, if they wish to take the therapist exams, they should take the therapist examinations to prove their qualifications.

Funerals

MRS. ERIC ROLFE

The funeral of Mrs. Kathleen Rolfe was held on March 4, 1974, at 3:30 p.m. in John R. Bush Funeral Home. Interment was in Belleville vault, with interment in Elmwood Cemetery. Bearers were Sylvester Gilroy, Jack Nickason, Dennis Saulnier, John Cameron, Tom Bronson and Gledge Hillis.

DAVID ROBERT JONES

The funeral for David Robert Jones was held in the Bush Funeral Home Chapel with Canon R.B.D. Wright officiating at 2:30 p.m. March 6. Cremation followed at St. James Crematorium in Toronto.

Quadruplet Calves Born

POINT PETRE — A Holstein cow owned by Walter Simpson of Point Petre may have recorded a "first" in the dairy industry on the week when she gave birth to quadruplets.

The cow of the quads survived. One heifer calf and a bull calf were identical. Another heifer calf died shortly after birth. The remaining quadruplet was a bull.

The calves were sired through artificial insemination by the purebred Charolais bull Sir Simon Bacchus 216 from the Quinte unit of Eastern Breeders.

Mrs. Simpson, a farmer all his life, said that he considers the birth of the quadruplets extremely unusual. Possibly it is the first time a cow owned in Prince Edward has given birth to four offspring at once.

Family Skeletons Ken Hill's Hobby

By PETER GOODSPEED
Staff Reporter

Ken Hill, a retired 62-year-old Belleville high school teacher has a hobby that could be tags for skeletons in other peoples closets.

No, he doesn't work for the Belleville police department or a firm of undertakers.

Mr. Hill is a part-time genealogist who spends a good portion of his spare time thumbing through marriage, birth and death records at the Hastings County Museum.

In the past two years he researched the ancestry of many families, both here in Canada and in the United States. Now at one time or another, had descendants who lived in good Quinte area.

A lifelong resident of Hastings and the surrounding counties, Mr. Hill is well acquainted with the history of the Quinte area.

Born in 1892, he lived in the Madoc area until he was 11 years old and then moved to Tyendinaga where his father had a small farm. He also taught science and agriculture at Belleville Collegiate Institute from 1926 until he retired in 1957.

After 10 years of retirement he decided to expand his activities and became an active member of the Hastings County Historical Society.

While working at the old museum, at 240 Church St., on a regular basis for seven months of the year, Mr. Hill became familiar with the county's genealogical records and research materials. Families in the United States, curious about their past history, continually sent requests for genealogical information to the museum and Mr. Hill found himself doing a good deal of the research.

He wouldn't be pleased to find that they had a great-great grandfather who was convicted murderer, a railway robber or a fur trader.

It's all possible if you go back far enough into your family tree, Hastings says Mr. Hill. Every family has a skeleton hidden somewhere.

As yet Mr. Hill hasn't found a skeleton or a black sheep anywhere in his family's past. But, if he keeps working at it he may.

The great-grandfather on his mother's side of the family lived in Madoc for 100 years while his great-grandfather on his father's side lived to be 97. Working at that level, Mr. Hill expects to spend a great many more years tracking into the past discoveries those little bits of history that have sometimes been conveniently forgotten.

Sea Cadet Executive Elected

The election of branch officers was held at the recent annual meeting of the Navy League of Canada, Belleville branch.

Re-elected president for the coming year was Reg Morry with George Wegmark also returned to office as vice-president. Robert Burke will serve as secretary-treasurer and Ernest Hine will be this year's chairman of the Sea Cadet Committee.

House and properties will be attended to by James McKenna and William Rae. Daniel Gosgnach will be the Navy League's Liaison Officer with United Communities Services and will also serve as branch public relations officer.

A fund-raising committee was organized comprised of Tony Tyrell, William Sinclair and Robert McGall.

The Belleville branch decided that its main goal for this year would be the erection of new training quarters near the foot of Front Street, at the present Sea Cadet training building has been condemned by the Belleville branch since 1968 when Colonel P.H. Wills arranged for the purchase for youth training by the Navy League. And, after 32 years it is evident a new building is needed.

Also contemplated is an expansion of the on-the-water facilities of the city's sea cadet training.

Calvary Temple Deacons Named

A new board of deacons for Calvary Temple was named at the annual congregational meeting held on Feb. 27.

New members for 1974 are Joe Cox, Robert Derry, Charles Fair, Paul LaRue, Clifford Noyes, Robert Noyes, Ronald Redner, Harry Smith and Frank Sutton.

At the meeting Rev. C.K. Been reported on the successful year achieved by the church in 1973 and commended the congregation for its faithfulness.

He stated that "the work of the Lord can be accomplished only through the untiring efforts of each believer, uniting together and working with God."

Mr. Been said these efforts were put forth in 1973 with the annual report bearing out the successful achievement of the congregation.

Missionary giving for the year increased to $37,731.96 or $9,000 over that of the previous year. Total receipts of all departments amounted to $138,000, or an increase of $17,000 over 1972.

Outreach ministries receiving support last year included The Gideons, Child Evangelism and the Gaspe Outreach Program.

Church accountant Jack Carson, in his report to the congregations and trustees, added it was the best year he had examined in the history of the church.

Third Planning Consultant Gone

As of today, Belleville's draft official plan will be placed in hands other than those of Jean Wells Monteith — Totten, Sims, Hubaci Associates Ltd. planning consultant who has worked on the document for just over two years.

A letter from the Toronto-based firm's planning director, William Dolan, informed members of the Quinte Planning Board Thursday that the company's senior planner has left her position with the firm.

In commenting on the letter, board director Ben Rosner said Mrs. Monteith has taken a job with Municipal Planning Consultants Co. Ltd., in Toronto.

Mr. Dolan's letter, dated Feb. 25, assured the board that Mrs. Monteith "will be working closely with other staff members to facilitate a smooth transition of assignments."

Deseronto Man Pleads Guilty

A Deseronto man, Joseph Glen Allison, 21, was Wednesday convicted in provincial court here, of a charge of break, enter and theft.

Allison was arrested by Deseronto police January 19 after they had been called out to investigate a break-in at a home at 283 Edmund Street in Deseronto.

When the police went to the home, they found that someone had smashed a window on the second floor. Upon investigation of the home no one inside the house. The owners were away on vacation.

A neighbor told the police that he had seen Allison running away from the building shortly before police arrived.

Allison confessed to participating in the break-in after he was arrested and told police where they could find 26 eight-track tapes that he had taken from the house. The tapes were valued at approximately $180.

Allison pleaded guilty to the charge when he appeared in court yesterday morning. He remanded in custody by Judge J.J. Clendenning until March 26 pending the preparation of a pre-sentence report.

BE HONEST WITH YOUR HEALTH

Too often, people will try to convince themselves that very evident symptoms of an illness do not really exist or will disappear if they will just forget about them. This type of attitude can only lead to more serious problems in the long run. A disease in its earliest stages is usually much easier to treat and cure.

Never be afraid to find out about something that is bothering you. Most often your doctor will be able to diagnose your problem quickly. Then, not only will you be feeling better physically but you will have great mental relief as well.

Hastings MP Continues UIC Inquiry Pressure

Hastings MP Jack Ellis told the House of Commons Thursday, the average union employee is being "ripped off" by the Unemployment Insurance Commission.

The comment was included in a lengthy reply to the absence of the UIC issue in last week's speech from the throne.

Wrong Gas Not Important

SUDBURY (CP) — A Toronto neurosurgeon testified Thursday that Cora St. Pierre, 72, of Sudbury, would have died even if she had not been given lethal nitrous oxide at Sudbury General Hospital.

Dr. Edward Hendrick of the Toronto Hospital for Sick Children told an inquest into 23 deaths last year at the Sudbury hospital that Mrs. St. Pierre's condition was such that the inhalation of nitrous oxide would not have changed the outcome.

"The dangerous tool was fear," Dr. Hendrick said: "In my opinion, whether it was nitrous oxide or oxygen it would not have made a difference. It might have changed her survival time but not the eventual outcome."

Mrs. St. Pierre died Sept. 12 six days after surgery to remove a massive blood clot on the brain. She had been brought to the emergency department Sept. 7 with a fractured skull.

Sentence Suspended

TORONTO (CP) — A Keswick, Ont., man charged with three counts of attempted murder was given a suspended sentence and three years probation Thursday after he pleaded his plea in Ontario Supreme Court.

Robert John Miller, 31, pleaded guilty to a charge of wounding in a shooting incident last May 27. The Crown accepted the plea.

Miller, father of five, was originally charged in the shooting of Nelson Gilroy, his wife Pearl and Leonard Cable after an argument.

Not Enough Oil

OTTAWA (CP) — There is little chance Canada will be self-sufficient in oil by 1980, a senior vice-president of Imperial Oil Ltd. said Thursday.

L. W. Flanagan of Toronto told the annual meeting of the Canadian Fertilizer Institute that there will not be enough oil to supply all domestic needs by the end of the decade "even if we were to cut off all exports tomorrow."

Mr. Ellis, in a bid to unsettle the harmony of Canada's Liberal - NDP coalition, told New Democrats that because of the functioning of the commission, the average union workers is ripped off four times more than the average Canadian.

In his reiterated comments made over the past 15 months that the government — through the commission — has "improperly distributed one billion dollars," and that an inquiry was necessary to clear up the situation.

"If doubt that there has ever been such a wastage of funds collected from the taxpayers in modern times," he said.

"The average union employee, though he pays 48 per cent more for premiums since 1971, per contribution legislation, is less in need of the program than any other," the member said.

Students In Safety Finals

PICTON — A four-member team of students from Prince Edward Collegiate Institute heads for Toronto April 8 for the provincial finals of the School Safety Awareness competition.

The competition is sponsored by the Industrial Accident Prevention Association and involves students' knowledge of safety practices.

The PECI group defeated a team from Thunder Bay last week in Oshawa to enter the provincial contest.

The four — Eric Graham, Leo Foster, Herb Fleischkers Jr., and Don Leslie — meet a team from Scott Park Secondary School, Hamilton. Coach of the Picton team is Roy Goostrey.

The provincial finals were won by a team from PEC last year.

Hunter Safety Course for Trenton Area

TRENTON — The police department here is sponsoring a hunter safety course again this month.

A safety course is a requirement for a certificate and licence and students must be at least 15 years of age.

Two three-hour classes will be held March 20-21 beginning at 6.30 p.m. Sessions will take place in the police department board room. Both classes must be attended.

For further information contact Constable Gary Davis.

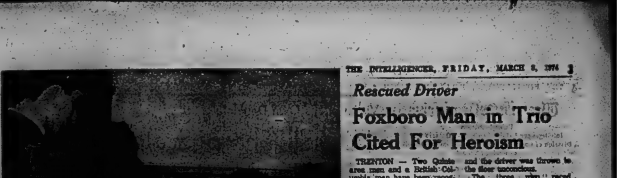
Mr. Ellis attacked the UIC fund as a non-self-supporting body and said the most "ludicrous" outcome of his battle against the commission was the RCMP investigation into industrial he was keeping an ammunition.

"I have far too much respect for the RCMP . . . to ever believe they would have started such a ridiculous and asinine project on their own," he said.

Mr. Ellis denied any of the papers reportedly in his possession were marked confidential and said had there been any threat of security, he would not have used the information.

These first papers caused a national stir and Mr. Ellis took the opportunity to put more kindling in the coals with the announcement of another document.

He said most copies of the document had been destroyed but declined to mention where his copy came from — only that it outlined a multi-million-dollar mistake in calculations for premium legislation affecting the commission.



Mr. Ellis suggested the former minister responsible for the UIC either knew of the mistake and was "dishonest" in not bringing it to the government's attention or that the former minister join with the Hastings member in calling for an inquiry.

Bancroft Downtown Facelift Planned

BANCROFT — Bancroft's downtown section will be redeveloped if businessmen working in conjunction with the village council.

The decision was made at a meeting Wednesday night when merchants, threatened by the $4-million shopping mall proposed for the north end of the village, met with council. The council and merchants will seek the assistance of Hastings county planning board for the proposed redevelopment.

The shopping plaza, announced last week, will have 45 to 50 stores. Its developers anticipate serving people in a 45-mile radius of Bancroft. They estimate a shopping population of 23,000 people in the area, each of whom spends $2,300 a year for groceries and merchandise. Bancroft has a permanent population of 2,460.

Rescued Driver

Foxboro Man in Trio Cited For Heroism

TRENTON — Two Quinte area men and a British Columbia man have been recognized by the Ontario Provincial Police for heroic action.

Maurice Bolman RR 7, Brighton, his brother William of Pembroke, B.C. and Frank Day, Foxboro, have each received citations for rescuing a motorist from his burning pickup truck last fall.

The three men, travelling on a Brighton township concession road, came on the overturned vehicle with its driver Cobourg resident Harold Potts trapped inside.

The truck burst into flames, which ignited grass and underbrush in the immediate area.

The vehicle had crashed down a 15-foot embankment and the driver was thrown to the floor unconscious.

The three men raced through flames engulfing the wreck and dragged Potts to safety.

Certificates for heroic action were presented to the men by OPP Superintendent L.H. Erskine during a dinner here. The three are credited for saving Mr. Potts's life.

Mr. Potts was treated for burns and shock at Trenton Hospital.

'What's the Problem?'

Lillian Sinclair and Rhoda Wambolt help service personnel who find themselves stranded in transit at CFB Trenton. They are among volunteers who staff travellers' aid service at air base.

CFB Volunteers Provide For Stranded Travellers

By STEVE CAMPBELL
Staff Correspondent

TRENTON — Base Commanding Officer Col. Ian Bell has an answer for travelling service personnel faced with the propulsion of being stranded in a strange town.

Travellers' Aid, a volunteer group that is part of that organization, provides travellers on regularly scheduled flights with assistance and support during unexpected stays in Trenton.

Servicemen on leave, are often bumped from flights for personnel travelling on official business. They are faced with a problem of finding different transportation or temporary accommodation in a centre strange to them. The volunteer service personnel attempt people of local lodging and advise them of future outgoing flights or alternate transportation.

Travellers' Aid keeps an organized listing of times and fares for buses, trains and taxis to help the grounded traveller.

Travellers' Aid consists of 20 volunteers backed by 20 relief members on call. They are all service volunteers who answer a distinct need in the constantly-fluctuating situations of incoming and outgoing flights.

Lloyd Anderson, head of Travellers' Aid, said volunteers are available for "dispensing information and moral support," a job they do well. However, even more service volunteer help is needed.

All types of personnel and many nationalities turn to the group for help. Some of the volunteers are bilingual in either French, or German, a benefit in communicating with exchange personnel from overseas.

A nursery to aid families with young children during stopovers is stocked with cribs, high chairs, bottle warmers, a supply of diapers, baby powder and safety pins.

The volunteers are trained to handle virtually every type of situation that might arise, whether it be a quick change of diapers or finding accomodation for servicemen.

Bandaids, light medical supplies and loving care are supplied for minor injuries. More serious medical problems are referred to Trenton Memorial Hospital or base hospital.

Rhoda Wambolt, one of the volunteer workers, said the service was not meant only for servicemen on leave. "We are here to aid any service personnel with a problem."

Travellers' Aid has been in operation for two years, one of the first Canadian bases to offer the service as part of a CFB community services. Other sections of the service include Crisis Centre, for local emergency situations, an information centre to coordinate information here and with other bases, and a thrift shop selling used clothing.

Harbor Sights

Debris in Picton harbor extends along the Bay of Quinte shore properties and has evoked discussion in town council. Councillors have agreed removal of such flotsam is responsibility of property owners. Decision followed letter from ratepayer requesting town remove litter.

PUBLIC MEETING REGARDING FRONTENAC PROVINCIAL PARK

The Ministry of Natural Resources is pleased to announce the proposal for a new provincial park — Frontenac — of about 12,200 acres situated in Longhborough and Bedford Townships, Frontenac County.

You are cordially invited to attend a public meeting to be held on March 19th, 1974 at 7:30 p.m. in Room 2245, St. Lawrence College of Applied Arts and Technology, Kingston.

The Ministry encourages your participation in the planning for Frontenac Provincial Park by attending the public meeting where the development alternatives prepared by the consulting firm of Hough, Stansbury and Associates will be presented. Written briefs are welcome up to March 29th, 1974.

For further information, contact the Ministry of Natural Resources, Napanee District Office, Napanee, Ontario (phone (613) 354-3955).

Ministry of Natural Resources
Hon. Leo Bernier Minister
W. G. Macnee Deputy Minister

Colbourne, Ontario.

Dear Mrs. Langar,

We want to say Thank You for your part in making Lorraine and Ted's wedding so wonderful. You couldn't have welcomed us more warmly, treated us more graciously, or served a more delicious meal had it been your own daughter.

We feel, and many of our friends remarked that it was as if we were at home among friends. Guests who stayed with you were ecstatic over the wonderful way they were received and your beautiful home. They suggested that Bill and I should spend a weekend with you at the Inn, just to try out the King's bed!

From both of us a most sincere thank you.

Sincerely

Bill and Jean Troop.

Nurses and 'Libbers'

We don't know if the dedicated staff of the Victorian Order of Nurses have much time to think of the women's lib movement, or to worry — as some feminists have been doing — that Dr. Spock's books are couched in the language of male chauvinism.

Or whether they have time to dwell on the cruelties of parents of an earlier generation. Nowadays it is the child beater we hear about. But when Abel, 81, 74 yrs. carded at America's greatest portraitist, was a little girl, her mother used to say to her, "I don't know what you expect to do in the world, you're only a girl. . ."

As Miss Abel said in a recent interview, "now that's a hard thing for a little girl to take. . ." And speaking of the prejudices which women artists and others faced then, more than in modern times, and of the enviousness of men in this context, she added, "I felt that in the world as it then was, that attitude made . . . my life so difficult."

Well it took Florence Nightingale to put nursing onto the path of greater professionalism and distinction.

Today nursing is recognized for the indispensable profession it is, and including such hard-working units as the Victorian Order of Nurses whose increasing services in the Quinte area have been in the news again in recent days.

The Quinte branch of the VON, with eight full-time and ten relief nurses, made no fewer than 21,251 visits during the past year, representing an increase of 27 per-cent over 1972.

The nurses' work takes them far and wide in Hastings and Prince Edward counties and it is work that is as necessary as it is appreciated.

It does not leave much time for concern over personal "rights," important though that may be, for it is a service to humanity as a whole.

However, it might be mentioned in passing that a repentant Dr. Spock has bowed to those complaints and is revising the text of his books. Which still leaves a wide field for the 'Women's Libbers' — for instance there has been a report on the status of women at Queen's University which contends that women employees, be they academic administrators or not, generally come out on the low end of the salary scale compared with their male counterparts.

But that is another story.

Prophecy of Doom

The careful reader of world events is well aware of the weakness of some commentators for gloom and doom. Equally he is aware that such prognostications seldom, if ever, come true.

Some examples: during the height of the still-simmering trouble in Ulster reports talked about the growing fears of civil war." True there have been countless incidents involving warring religious factions, but civil war, say Spanish-style, as we have known it in this century, has prospered. Again, take food "shortages." with prospects of them growing worse because of a dearth of fertilizer. Well admittedly it is wise to think of such possibilities, but is anybody really going hungry? Of course not. Will anybody go hungry in future? Probably no more than in the case now, and no one in the western world need die on the streets of starvation.

Now we have best-selling author (Ultimatum) Richard Rohmer telling a Toronto audience that Canada should be ready to handle the influx of immigrants from Britain in case the British economy collapses.

This, we contend, is preposterous. More immigrants there may be, but with the sterling' strike afoot to end Britain should pull through. Only recently we cited thousands of dollars worth of British orders for Ontario goods. And we learn from the January issue of Ulster Commentary that a trade mission comprising eight English firms and no fewer than 17 from Ulster are currently on a six-week export drive in Australia and New Zealand, Hong Kong and Japan. Industrial production in Ulster, incidentally, has risen by 20 per cent in the past four years.

Britain, under a Labor government balanced by a strong Opposition, has nowhere to go but up. Once the country is on full production again we see no prospect of economic collapse. Author Rohmer — he is a Toronto lawyer — can come up with a red herring of the kind that has been swimming so liberally in the shadowy depths of public opinion.

Victim of His Own Doubletalk

Mitchell Sharp Scotches Senate Appointment Rumor

BY RICHARD JACKSON

OTTAWA — A funny thing happened the other day to External Affairs Minister Mitchell Sharp on his way back to Ottawa from a quick excursion along what is all likelihood will turn out to be the pre-election campaign trail.

He had been heating the hustings in Winnipeg, Edmonton and Kamloops, trailed by a few members of the national press from Ottawa and beset by the local news media at each of the three stops.

Earlier, just before he made his dash out West, one of the television networks had run a little news clip, speculating that a cabinet shuffle might be in the works.

It had been a "dead news day," as it is called in the newspaper, radio and TV business — nothing much, if anything, happening.

So the network speculated — Mitchell Sharp, for instance — that in the possible shuffle, veteran Liberal cabinet minister Mitchell Sharp just might be discarded by Prime Minister Trudeau for the Senate.

The very day Mitchell Sharp lifted back in the Capital, he met everyone else who was blaming — heard himself being quoted on national radio as saying that a major cabinet reorganization was about to shake up the Liberal establishment on Parliament Hill.

And that further, he, the Minister of External Affairs for these last six years, then might find himself "elevated," as such appointments are called, to the Senate.

Word from the staff around Mitchell Sharp was that he was "horrified," by the report — very probably horrified to think that the Prime Minister had heard it too — and so, shocked, foul, fell against the western news media.

Well aware that prime ministers traditionally are extremely touchy about cabinet matters — they like to make announcements of changes and not hear of them from their ministerial underlings — Mitchell Sharp explained that he had been "taken out of context."

And so, it seems, he had.

But it was his own fault in an odd sort of ways.

After seven years as a public service mandarin, Deputy Minister of Trade and Commerce, and 11 years in the cabinet with six of them as External Affairs Minister, he became to converse in an odd mixture of bureaucratese words and diplomatic doubletalk.

So, to understand him, you have got to know this, and realize that after all this time he seldom makes a firm statement. Where a fudge one will do.

So there he was, out in Winnipeg, Edmonton and Kamloops, the local press hounding him with hard questions about the speculative TV report of a cabinet shuffle and the possibility of him being dealt into the Senate.

And to these hard questions he gave soft, fuzzy answers.

Why yes, he supposed, there could be a cabinet shuffle of sometime but he doubted he had no idea when.

And yes, he agreed, if and when it might be one of many possibilities. After all, it had been quite a time, he conceded, since the Prime Minister had played around with cabinet chairs.

Was there any possibility of him going to the Senate, they pressed him?

Well, such decisions were the prerogative of the Prime Minister, weren't they, he countered, and if the PM thought cabinet changes were due, then they would be coming, wouldn't they?

But what about his going to the Senate, they pursued him.

Ah, he sighed, if that is what the Prime Minister had in mind for him, naturally he would be delighted to accept the appointment, for he had been Minister of External Affairs for a good many years, and could scarcely object to a change.

But what about nasty phrases all of them, but going through an industrial, or labor, newsmill, they came out hard and first.

Wonder what the PM said to Mitch?

French Experiment with Solar Heat

This is the second of three articles on solar energy from an interview conducted by UNESCO Features writer Pierrette Pesnewski with Professor Félix Trombe, head of research at the French National Centre of Scientific Research.

* * *

Q. Another spectacular application of solar energy is the solar furnace. Is it economically viable?

TROMBE: I have a great belief in the future of solar heaters. The more so as the industrialized countries domestic uses account for up to 30 per cent of fuel consumption.

We have been experimenting for some years at Odeillo, and the houses we have built there are an economic proposition. The calory Rhône-hour they produce is much cheaper than the kilowatt produced by conventional means. CNRS has taken out several patents for these houses. Some more are at present being built at Odeillo, and 21 are to be built in the next few years. They mostly have vertical solar energy accumulators on the south wall, sometimes also on the east and west walls, so as to trap the sun's heat without using electricity. Of course, we have provided for an auxiliary power supply in the form of electricity or gas or oil, for the few days when the sun is obscured. Q. And what happens at night?

TROMBE: Energy is stored in the house's concrete walls which accumulate the sun's heat during the day through glass panels through the same principle as a green house. The glass lets in the red and the violet rays of the sun, but also sun light diffused by cloud and dust, and reflected from the earth's surface, especially after snowfall — a phenomenon known to experts as albedo. This simple method of collecting the heat of the sun's house means that there is only a slight drop in temperature during the night.

The CRNS have other patents for houses with several storeys. Here, the heat is stored in a pool of water on the roof and this water circulates through a system of pipes and heats the rooms.

Q. Is the water also used for domestic purposes?

TROMBE: So far, the two uses have been kept separate. Solar water-heaters have yet to be fitted in the houses, but several architects are looking at the idea and the problem is likely to be solved soon. In temperate countries, however, water-heating by the sun will have to be supplemented by energy from other sources, because the sun does not always shine when hot water is needed. And, as it seems, the best is not always the most easy.

And so, it seems, the bad.

But it was his own fault in an odd sort of ways.

After seven years as a public service mandarin, Deputy Minister of Trade and Commerce, and 11 years in the cabinet with six of them as External Affairs Minister, he became to converse in an odd mixture of bureaucratese words and diplomatic doubletalk.

So, to understand him, you have got to know this, and realize that after all this time he seldom makes a firm statement. Where a fudge one will do.

So there he was, out in Winnipeg, Edmonton and Kamloops, the local press hounding him with hard questions

Q. Still on the subject of water, could you tell us briefly what Israel's ways to distill brackish water is?

TROMBE: I can give you figures from Chile, where I've had some experience in this matter. Solar distillation is 30 to 40 per cent cheaper there than systems that have to be built. And because of the recent rises in fuel prices, this is probably true of many other countries.

But I'd like to tell you about another, quite extraordinary application of solar energy which is the result of experiments carried out by the CNRS at Odeillo, and subsequently expanded and perfected by a young research worker in Chile — Jacques Fournier, who was then lecturing at the University of Santiago under the French Co-operation scheme.

The desert areas of north Chile have a particularly pure and transparent atmosphere which makes it possible to concentrate solar heat-exchange to take place through radiation between earth and space. Fournier has applied Mr. Fournier to produce large quantities of water simply by radiation and cooling; and he has used this process, together with evaporation, to operate brackish water. This is of particular interest in the areas where one of the crucial problems is to produce good, cheap water for both domestic purposes and agricultural use.

The principle of the process is as follows: water is put into the ground so that it sinks down into the earth so as to avoid heating (the mean night temperature in the area is between 0 and 5 degrees centigrade); radiation towards the sky results in the formation of thick layers of ice - upwards of 50 kilograms per square metre in a single night at the village of Chic-chic.

As a result, the water is purified of certain dissolved salts, such as boron and arsenic. Mr. Fournier's figures are impressive: water which contained 40 milligrams of boron per litre, contains no more than 4 mg after being treated: in the case of arsenic, the contents of 0.7 mg (a high amount which can cause, among other things, loss of hair and teeth) falls to 0.1 or 0.15 mg.

Because of the low cost of the materials used, water obtained by freezing is much less expensive than water obtained by solar distillation. In Chile, 10 U.S. cents a cubic metre, as against 50 cents. That opens up important prospects for agriculture in the desert areas. In the course of his experiment, Mr. Fournier has also succeeded in growing some 800 kilograms (1,325 lbs) of tomatoes and several hundred kilograms of watermelons, thus providing workers in the mines of north Chile with fresh vegetables.

Q. Can the sun's energy be used for pumping up water from underground.

TROMBE: Solar pumps that function on low power are already very expensive. Nevertheless, several have been installed in various West African countries — Niger, Upper Volta, Senegal, and most recently, Mauritania - where they play a truly civilizing role. I have seen the Mauson pump built by Jean-Pierre Lecarpentier-Lasbordes in Niger, and it is very impressive to see how, despite its low power-rating, it has turned a stretch of desert into a living place supporting men and animals.

In the most recent version of the Mauson pump, installed in Mauritania, the solar collectors perform a dual function, serving not only as a source of energy for the pump's power unit but also as a shade for the pump.

It is by economies of this kind that the future is being shaped.

In any case, I think serious research should be given a better chance of going on to the exploitation stage. Too often, when they want to experiment seems far-out and not immediately viable, it is difficult to find someone's role to help in the production of prototypes.

Cuban Locomotive Sale Hangs Fire

BY JOHN D. HARRISON ...

The continued difficulties of Canadian subsidiaries of U.S. companies in selling their output to Castro's Cuba could soon be over, though there are no signs so far from Washington this is about to take place.

The U.S. Trading With the Enemy Act and parallel legislation affecting only U.S. sales to Cuba are still strongly in force. Where Canada is concerned a concession was given to Prime Minister John Diefenbaker from the late president Eisenhower in 1958 apparently confines U.S. branch plants here which are Canadian companies from the U.S. acts.

However this has made little difference in the past since resident U.S. executives of these firms in Canada have still been barred their company's sales to Cuba or even efforts to develop them for fear of personal prosecution as U.S. citizens.

And so it goes, the continued merry-go-round of the still non-existent U.S.-Cuba trade, but not with U.S. subsidiaries outside the continental United States willing to try.

The biggest such effort to date is coming from the visit of 200 Argentine government officials and business executives to Havana. Their major purpose is to sell Castro about 14,000 cars and trucks made in the Argentine branch plants of General Motors and Ford of Argentina.

The sale would represent earnings of about $160 millions, very nice for the hard-pressed South American nation with a surfeit of cars and very nice for Argentina with the constant balance of payments problem.

Still to be heard from with a final go ahead is the U.S. state department without whose permission the U.S. subsidiaries cannot go ahead.

After all why should they have? They are not directors but Argentine citizens, the same as Canadian citizens of U.S. branch plants here are Canadians and not beholden to the American state department.

Nevertheless the big Argentine trade mission to Cuba suggests much more than meets the eye is quietly under way in Latin America and perhaps even in Washington. This could be the same kind of manoeuvring which first went on between America's allies and finally between the U.S. and Communist China to renew the old ties.

These manoeuvrings have not resulted in full diplomatic ties between Washington and Beijing, but the vexsome trade restrictions of 20 years are gone. For example, the last of 10 U.S.-built Boeing 707s for China's airline should be delivered by this June.

The sale of this kind of U.S. high technology product with all its implications for military equipment was unheard of less than five years ago.

That a long and outwardly disjointed preliminary to the Nixon China visit of February, 1972 and so end to the long Sino-American thaw were activities of the U.S. allies, is all the closer to China.

Today's troubled Canada's slow but inevitable course to recognition of China in October, 1970, and the nature U.S. ties with that way much easier.

Today in the Caribbean we see the same kinds of moves. These include Venezuela's suggestion last year she might recognize the same Fidel Castro who tried hard to overthrow that country's struggling new democracy through guerrilla warfare in the mid-1960s and the recognition of Cuba by all the Commonwealth Caribbean countries in existence in October, 1971.

Cuba's return to the hemispheric fold though it will be a long process, does look as though it will be an inevitable one for the U.S. state department compelled to change the rules.

No Longer Room at the Top

BY DON O'HEARN
Queen's Park Bureau
Thomson News Service

TORONTO — There is something very lonely about men who have retired from big jobs in government and yet have stayed on in the legislature.

It was most incongruous, for example, to see John Robarts sitting on an aisle seat in a private member after he had left his house.

In the present house, of course, there are a number of former greats who suddenly have slipped in stature, including former policy secretary Bert Lawrence, attorney-general Dalton Bales and solicitor general John Yaremko.

Nobody, however, appears more lonely and remains more of a mystery than former transportation minister Gordon Carton.

Mr. Carton remains the great enigma hanging over from the recent major cabinet shuffle.

His fate is a question which quite frankly has most people puzzled.

In downtown Toronto or in the lobbies of the buildings here there is no more common question than "What happened to Carton?"

One day this 53-year-old Toronto lawyer was very much a star of the government.

He was in complete charge of transportation, and transportation is the showpiece politically of the Davis administration.

Then a day later he was out.

What has made the situation really frustrating is that no real explanation has even been given for the Carton retirement.

Some people said he was still young and wanted to make money while he still could.

Others said that riding work was getting to be too much of a burden, and he had no private time.

One has to hold the conviction, however, that there was more to it than this.

Carton was too bright. Too much of the rising star.

In fact the only logical explanation for what has to be a political split developed between Carton and the premier.

Perhaps it was over the decision to drop the Spadina expressway — a decision which still has Toronto badly bothered.

Perhaps it was over the multi-million dollar toy railway the government is building for the GNE.

Whatever it might have been it seems certain there probably was some difference, and as a result of it Mr. Carton is sitting lonely on the sidelines.

Bible Digest

BY H. B. DEAN

"O that thou hadst hearkened to my commandments! then had thy peace been as a river, and thy righteousness as the waves of the sea." Isaiah 48:18

All of life's problems can be solved by our dispensing the prescription for it. God loves you and has a plan for your life. Details are found in His Book, the Bible. Read and obey. "Be ye doers of the word and not hearers only."

Housing Costly But Boom Continues

BY VINCENT EGAN
Business and Consumer Affairs Editor

Thomson News Service

Householders are preparing for another record construction year, now that the annual lowering of mortgage rates is behind and the big spring buying season is just ahead.

Prices of new houses in Canada have been going through the roof, and there is still no sign that there is little prospect of relief.

"Real estate has suddenly become the most attractive investment money," says President Glen Chambers of the Ontario Real Estate Association, commenting upon what he terms "dramatic escalation in prices over the past 18 months."

He sees a paradox in today's housing market:

"From a practical sense I have is screaming that this rate of increase cannot continue and that a softening, if not a real price recession, must be just around the corner.

"On the other hand, a new set of influences now prevail and we are dealing with a totally effective demand which we have never experienced before."

Perhaps this demand will be sufficient to overcome the normal cyclical effects which always would look for after this type of price escalation.

In the past, housing activity has been a leader in what economists call the business cycle.

When business activity is booming, interest rates inevitably go high that they become a deterrent to investment money, and then builders tend to divert their funds into securities markets rather than into banks and insurance companies rather than lend themselves forced to cut back their mortgage commitments.

When the cycle reverses itself and business slows down, savers switch their funds into the savings institutions—which are then glad to put that money into house-building and get the economy moving up again.

But today, as Mr. Chambers indicated, the cycle may no longer be at work.

Prominent among the new set of influences are the demographic attitude toward interest rates now prevailing among young people.

Instead of being deterred by unprecedented high mortgage interest rates in the range of 10 to 14 per cent, mortgage brokers say, "absolutely no one" the anticipated inflation rate over the term of their loans and deciding that today's real interest rates, as measured by the much higher than in the good old days of stable prices.

Apart from a worldwide in the demand for second homes and a healthy high priced luggage—the inevitable result of the past few months' rapid inflation—the other the market for housing remains strong.

The population of marriageable age is at a cyclical high point. Record numbers are the list buying priorities for couples newly or recently married.

The second-car family all across Canada is undergoing its market for vacation-related houses in general, and for well insulated houses in particular.

As far the longer future, veteran real-estate developer Eilee N. Mooney has series of theses this prediction:

"The present darker and colder slight may well start another baby boom which could spark record housing starts 25 or 30 years from now."

Looking Backward

GLEANINGS FROM OUR FILES OF BYGONE YEARS

20 YEARS AGO

March 8, 1954

Dr. J. F. Mackie, medical officer of health, announced that immunization programs for school children for 1954 has been completed. He said that 18 clinics were held in the schools and the total attendance was 1,307.

10 YEARS AGO

March 8, 1944

S. L. Joss left for Quebec City on Monday to attend the annual meetings of the Dairy Farmers of Canada and the Canadian Federation of Agriculture which will be held in the Chateau Frontenac.

CP News Roundup

Nickels Scattered

TORONTO (CP) — The Globe and Mail says thousand of dollars' worth of nickel coins are missing in the snow along an 88-mile stretch of railway track near Longlac, 190 miles northeast of Thunder Bay.

In an Ottawa dispatch, the newspaper says the coins were part of huge shipments the Royal Canadian Mint decided for Winnipeg and were carried in a container by Canadian National Railways.

The Globe and Mail says the container somehow broke open Feb. 22 and a sizable amount spilled out into the snow along the tracks.

The railway has had its staff out along the track to recover some of the lost nickels, the newspaper says, but "tens of thousands" of dollars worth are still missing, according to one source and $77,000 according to another.

Want School

TORONTO (CP) — Thousands of York region parents and high school students plan to converge on Queen's Park today to protest the plight of 14,000 students who have been without regular classes for 38 days because of a teachers' strike.

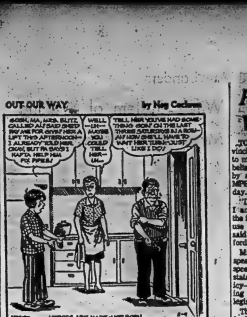
Their protest would be an extension of a demonstration Thursday in which students from the area just north of Toronto marched to the legislature grounds and discussed the strike with Education Minister Thomas Wells.

Won't Move

LONDON (Reuter) — Prime Minister Harold Wilson has decided not to live at 10 Downing Street, the traditional London home of British heads of government.

He and his wife, Mary, will continue to live a half-mile from Downing Street in a house they acquired few months after Wilson lost the 1970 general election.

Study Lead



TORONTO (CP) — Ontario Health Minister Matthews has announced a three-man committee Thursday to study the effects lead in the environment have on people.

Still Picket

TORONTO (CP) — Ontario community college teachers formed picket lines for the second consecutive day Thursday in front of a downtown hotel here and balked scheduled hearings before a three-man arbitration board chaired by Judge J. C. Anderson.

The teachers are seeking a three-week postponement in the compulsory arbitration of their contract.

OUT OUR WAY — by Neg Cochrane

Streaking Spreads Across Continent

By THE CANADIAN PRESS

A 28-year-old stock broker, noticing that the market was bearish, made it politicsweet, bearish himself Thursday and "streaked" through Wall Street during the rush hour.

A radio disc jockey, Buddy Carr, streaked across the ice during the evening news broadcast at a television station in Augusta, Ga., Thursday.

In Poughkeepsie, N.Y., five co-eds at Vassar College quickly ended a streak when they discovered a group of males close on their heels.

The latest college fad has extended even to the U.S. military academies. Cadets at the U.S. Military Academy at West Point, N.Y., attested to the cheers of classmates. A coterie of officers was running just behind the pursuit.

Midshipmen at the Merchant Marine Academy in Kings Point, N.Y., shed their bellbottoms for barebottoms in a streak Thursday night.

Eight were arrested and four policemen were hurt when a "streak-in" at the University of Delaware drew about 1,000 spectators and turned into free-for-all. Those arrested were charged with resisting arrest, disorderly conduct and lack of respect for the peace.

There were fewer streakers in the cold climates of Minnesota and North Dakota.

In Breckenridge, Minn., police said they received reports of a lone streaker caught in 26-degree weather. And at Jamestown, N.D., eight men dashed into a women's college dormitory as the temperature hovered at 15 above.

In Orange County, Calif., three high school students performed what might be called a "blue" streak. The three lads dashed around campus and back in a chilly rain before realizing that they'd locked their car — where they'd left their clothes — with the keys inside.

man estimated that there were probably more than 50,000 spectators.

The Georgia claim, however, will certainly be contested in Colorado. About 1,200 naked students dashed around a quadrangle at the University of Colorado campus, police said. The sprint was witnessed by an estimated 10,000 students and Boulder residents.

Hundreds of students at Stephen F. Austin University, in the heart of East Texas' Piney Woods, stripped to their birthday suits and joined a crowd of about 1,000 in a "streak dance" to the accompaniment of a rock concert.

Four "bare-a-chistas" bolted out over the University of Illinois campus in the early hours, shedding clothes, blankets and shoes. After landing, the naked men scrambled 300 feet to a waiting car and were whisked away.

Auditor's Report

Post-secondary Education Expert's Tastes Expensive

TORONTO (CP) — The sleuths in the provincial auditor's department uncovered a tangle of mistaken identities and unobtained claims while checking costs of a dissertation on post-secondary education.

The report revealed that members of the royal commission turned in expense claim for trips to Montreal, Mexico, Europe and the Orient.

One commissioner — unnamed in the auditor's report — was paid $37,980 in per-diem allowances from mid-1968 to March, 1973. The same commissioner turned in expenses totalling $3,370, which included duplicate charges for meals and taxis as well as charges for Saturdays, Sundays and public holidays.

That commissioner was paid 27 per cent of the total per-diem rate for the entire commission and 47 per cent of the commission's total expense claims.

The auditors found that the total cost of the commission was about $1.2 million.

"The report of this commission, titled the Learning Society, was published in England and Wales," the report estimated that more than 25,000 copies of the report were printed at a cost of more than $30,000.

The records of the ministry showed that most of the copies were printed in March, 1973, and that 17,296 were sent to a bonded as of July 13, 1973, the auditors said.

Elsewhere in the 125-page report, auditors reported on other government financial blunders or inadequacies.

These included:

—An estimated $20.9 million was paid in error to Ontario Hospital Insurance Plan claims without checking whether the recipients were insured.

—The Ministry of Natural Resources made grants to municipalities under the Parks Assistance Act with funds voted for conservation authorities and the auditors said this was "illegal."

—The same ministry paid $99,576 to a consultant firm for public relations without formal authorization or tenders. A agreement provided for another $74,000 additional calculations approval.

—When the industry and tourism ministry recalled their agent general, Allan Rowntree, from London in 1972, it paid out $7,000 in moving expenses and $35,000 in severance pay.

—The ministry of treasury, economics and intergovernmental affairs paid a $70,078 advertising bill without recovering of the overpayment cause only after the auditors caught the mistake.

—The same ministry mailed out numerous checks to persons who had died.

—The ministry of health paid $4,000 twice and did not know it until the auditor caught the double payment.

—The ministry of community and social services overpaid benefit recipients by $81,400.

—An office was rented by the ministry of government services for $223,920. The building was never fully occupied.

—Students at the Registered Nursing Assistants Schools were charged for books that the auditors could not find any statutory authority for and allowed the government to do this. The government collected $36,000.

—The files are incomplete for 39 persons who received $97,750 in bursaries for post-graduate study in psychiatry in 1966-67.

—Records of the servant in the ministry of treasury, economics and intergovernmental affairs was paid $41,000 in relocation costs.

—Deserting fathers and husbands owe the ministry of community and social services about $7 million in support payments for their families.

—Accident-prone drivers owe the Motor Vehicle Claims Fund about $26 million and repayments to the fund are running about 16 per cent.

—At March 31, 1973, government loans to Ontario Place totalled $2,183,000 and it is not likely the loans will be repaid.

—Persons who issue fishing licences owe the province $141,503 and letters requesting the funds "have not had the desired effect."

—Because of accounting practices the ministry of health underestimated its expenditures by $8,339,506 and its spending by $5,152,415 in the 1972-73 fiscal year.

—Some groups associated with the ministry of colleges and universities make frequent and expensive use of hotels for meetings despite good provision at Queen's Park. In four months 19 meetings cost taxpayers $11,000.

—The teachers' superannuation fund had a $283-million deficit at the end of 1969, and the public service superannuation fund showed an unfunded liability of $117,241,000 at the end on 1970. The legislative assembly retirement allowances account had an unfunded liability of $1,223,000 at March 31, 1970.

—A publication called Ontario Elementary Society cost $156,953 to publish and revenue from sales to the end of last March totalled $12,999.

—Two ministries paid from public funds all or part of the cost of functions honoring former officials on their retirement or transfer. The practice has since been stopped.

—The ministry of agriculture loaned a co-operative $218,138 in 1969-70 and has yet to recover the loan.

Sugar Cheaper

TORONTO (CP) — Wholesale sugar prices have been reduced by two cents a pound, or $4.50 per 100 pounds and spokesmen for Redpath Industries Ltd. in Toronto said Thursday the saving will be passed on to consumers.

PC Member Unhappy With Safety Belt Law

TORONTO (CP) — The provincial government's proposals to make use of automobile seat belts mandatory was criticized by a Progressive Conservative MPP in the legislature Thursday.

"I would like to indicate that I am not happy with some of the implications of a mandatory use of automobile seat belts," said Dick Beckett (PC-Brockville).

Mr. Beckett was lead-off speaker on the debate of the speech from the throne—a statement of government policy—which highlighted the opening of the new session of the legislature Tuesday.

The former mayor of Brantford generally applauded the government's proposals but expressed reservations about the seat belt recommendation.

"I am not happy with a law that apparently would be so difficult to enforce and so easy to evade," Mr. Beckett said.

"Also I have been told of several incidents where survival of an automobile driver or passenger has been possible because the seat belts were not being used. People have been trapped, I have been informed, by seat belts in automobile accidents."

He would not comit himself to voting against the legislation, but "will await further evidence before casting my vote."

Big Fee Paid to Firm Without Any Contract

TORONTO (CP) — An advertising firm headed by one of Premier William Davis's top advisers received a $1.3-million fee from the province without signing a contract, the provincial auditor revealed Thursday.

The auditor's report, tabled in the legislature by Government Services Minister James Snow, indicated that Camp Associates Advertising Ltd. took over tourism advertising in April, 1972.

The firm, headed by Norman Atkins, who engineered Premier Davis's 1971 election advertising campaign, had not signed a contract or written agreement at the time of the audit.

Ontario to Intervene On Behalf of Farmers

TORONTO (CP) — The Ontario government will intervene on behalf of farmers at the National Energy Board hearings to make their concerns are being met.

The statement broke three weeks of government silence on the subject, after three provincial cabinet ministers spoke out against the route, designed to carry western oil to the eastern provinces.

Treasurer John White, Agriculture Minister William Stewart and Resources Minister Leo Bernier said they would not agree to a route through Northern Ontario.

All say the southern route will disrupt thousands of acres of prime farm land while the northern route would be an unwanted spur to the north.

A southern route also would flow through the 1,875-70 hectare, the provincial government said.

He said the provincial government's analysis "tends to falsify the decision of the federal government.

"I might add here that we would support the federal government in its ultimate national need of an all-Canadian pipeline," Mr. Grantman said.

CONTEST WINNERS EVERY WEEK! HIT THE JACKPOT YOU COULD WIN!

CONTEST

WIN $200. IN CASH... ENTER CONTEST TODAY

(At the termination of contest which will appear 16 weeks)

CONTEST RULES

Look for your name in the ads, each ad contains one name. Clip the ad out where your name appears and bring or mail it to "Hit the Jackpot" Contest, c/o "The Intelligencer" at 257 Pinnacle St., East, Belleville, Ontario.

Entries will be deposited in the "Contest Box" each week and at the end of 16 weeks, a name will be drawn for the Grand Prize of $200. in cash. Winner of the Grand Prize will have to answer a skill testing question. Names will be drawn each week for other prizes listed and the name will then be re-deposited in the "Contest Box" for a chance to win the Grand Prize of $200. in cash or other prizes. Winner of the case of "Pepsi-Cola" can pick it up at "The Intelligencer" office. Winners of the Theatre Tickets will receive the Redee Tickets and may pick up the tickets at the box office on the theatre — ticket will be mailed to your home.

Deadline for entries — each Tuesday following appearance of contest. Attention: To be eligible for these prizes — and win your name must be clipped out and sent to "The Intelligencer"

Employees of "The Intelligencer" or their families are not eligible.

You Can Also Win These Prizes!

ONE CASE OF PEPSI-COLA (24 - 10 oz. cans)
Given away each week during contest. Pick your case of Pepsi-Cola up at "Intelligencer" office.

3 Double Theatre Tickets to the BELLE THEATRE
Given away free each week during contest. These tickets will be mailed to your home.

2 Single Tickets for open-RED BARN "BARNBUSTER"
Given away free each week during contest. These tickets will be mailed to your home.

One Hour "SNOOKER" at CUE & CUSHION
Mixed Billiards for a Lady and Gentleman. Given away free each week during contest.

One Case of HAWKINS CHEEZIES
One of the nation's favorite food snacks. Given away free each week during contest.

Eminently Suitable

NEW YORK (CP) — Suits and two-piece dresses are back in the fashion news this spring after being largely replaced in recent years by the costume of dress with jacket or coat.

Pantsuits still are in most manufacturers' lines. But more and more shirts are to be seen on city streets. The shirted suit

can be elegant or casual. Pleats are almost compulsory, and wrapped and bias skirts are also popular.

However, the eye can be deceived. "What seems like a suit is more often a dress with jacket," reported fashion authority Eleanore Lambert in her forecast at the American De-

signer Showings for the press.

Eager has a number of these two-call suits in his collection for Joan Leslie. He describes them as "pared down, uncocoonished with roomy jackets, tiny tank tops and fluid shirting." They include a slouch jacket concoble with deep-sleeved cardigan over a skimmer dress and a straight-and-sensial weave knit dress with a patterned cardigan.

Adele Simpson presents a spring-and-after suit in jacquard cotton. She also likes shaped jackets over swingy bias skirts.

Jerry Silverman also offers suits that travel well. One is a pin dot on black woven cotton, worn with a white blouse and red tie.

Some suit components have multiple functions, like Oscar de la Renta's long jacket with open neckline, which looks right either with his straight-legged full skirts or his straight-legged pants.

Colors for daytime may be pale and neutral or vivid and clean as new paint. Said Miss Lambert: Bright red seems the dominant color among the vivids and carries such descriptive names as red furry, poppy, Chinese lacquer red and flannel.

Blues are called cornflower, Bristol blue, electronic and carbon blue. Then there's Bali of celery and Kelly green and some lemon or sun, pimento, marigold and orange.

The pale shades include pure white, cream and ivory as well as platinum, raw sugar beige, sand and oatmeal. Taupe and duoel likes the combination of ecru with navy or black and charcoals with wine and olive green.

And, of course, for spring there's always navy. One designer calls the season's shade midnight hour navy.

'Every Child's Right'

HALIFAX (CP) — "Every child, no matter how old, has the right to a good home and family life."

That's how Elizabeth Bissett, co-ordinator of the adoption clearance service of the Nova Scotia department of social services, views the current philosophical direction of adoption.

Mrs. Bissett said "social workers, government agencies and child-family welfare units are becoming more concerned with persuading prospective parents to adopt older children.

"The focus of adoption is on "finding" homes for children, not children for adopting parents."

Older children have become the bulk of the waiting list, said Mrs. Bissett, probably because there are fewer children available for adopting parents. Many unwed mothers now keep their children and become single parents.

"And since all we really have to offer are older children, the trend in adoption is leaning that way," she explained in an interview.

quires a period of months.

Adoptive parents had always been reluctant to consider an older child, mostly because older children needed longer periods of time to accept the new parents and perhaps might not accept them at all.

Mrs. Bissett said this attitude has changed in the thinking of prospective adopting parents despite isolated instances to the contrary.

"Research has shown that an older child can be as loving and considerate as any child who grows from infancy in the same environment.

"All he needs is time to adjust. Then the parents are in for a wonderful experience as a man.

So they often do preventive work with unwed mothers and people; patrol dance halls; parks; and frequent lower class rooming houses. Find themselves handling juvenile delinquency or truancy solved in the schools.

Usually they need grade 10; then they get special training. Requirements differ with municipalities. Karate would help, because training includes self-defence. But teaching or social work? Just indirectly, and simply because all jobs with people need some coaching in psychology.

Visit your own police department to find out about training and employment set-ups.

Dear Doris: There was an article in your column a few years ago about people who wished to be spanked or horseshipped. That feeling comes to me sometime, and that I want someone to horseship me.

I asked some people some years ago in a town in Nova Scotia to whip me. Most of them refused. Some children one day did whip me.

The wish does keep coming to me. If you could answer through your column I would be obliged.

— Should Be Whipped.

Dear Should Be: I'll be sending a few cases, or I'll have to do a bit of educated guessing.

For some reason you want to suffer pain and humiliation. Could it be because that is growing up you developed very little confidence in yourself. Somehow, too, normal sex impulses may have gotten mixed up so you feel you will be gratified by being pained or hurt. But you won't be!

Seek out more normal avenues for sexual expression. You simply must talk to your doctor or counsellor in all honesty and without embarrassment. Talk out some of the things that may be bothering or upsetting you and about the puzzling urges. You have written to me: now talk to a trained counsellor.

(Don't just muddle along. Do something about what's troubling you. A letter to Doris, the care of this newspaper can put you on the way to more Successful Living.)

Successful Living

Ring Shows Welcome

By DORIS CLARK

Dear Doris: About the letter from Family Affair and the family ring for her Mom. Two years ago my mother remarried to a widow with two grown kids.

After 14 years of raising three kids of his own and being very lonely we were home from work to find we'd be had found someone else! So the families got together and we got a family ring for my stepmother.

She was very happy and surprised as she knows she's accepted and belongs in our family. She's a wonderful person and my own kids adore Grandma. The family ring was a way of showing her how much we like her.

— A Happy Family.

Dear Family: Good for you. Your new mother will prize that ring -- and your love -- all her life. All too often we take for granted the best people in our lives.

Dear Doris: My daughter wants to be a policewoman.

What qualifications are necessary to be accepted for training? Is it an advantage if an applicant has experience in either nursing or teaching? Does a woman officer have to be a certain height?

My daughter is taking karate. Would this be of help to police work?

She does not want office work. She would prefer to work with the public.

— Policewomans Career.

Dear Policewoman: Young police can gain confidence and keep the peace in very effective ways. They don't overreact (represent the threat of physical intimidation -- at least, not in the same way

the ones who have to be convinced that they can walk until he is ready to return their love."

But parents now were beginning to have more concern for the older child available for adoption.

"They have finally realized that every child, no matter how old, has the right to a good home and family life."

The traditional adoptable child has practically disappeared, said Mrs. Bissett. Few white, healthy, mentally stable children under three years of age have been available in recent years and this has gradually reduced areas of prejudice against older children.

It was not unusual any more for prospective parents to seek adoption of children with physical or mental disabilities or children of another race.

Mrs. Bissett sees a change in the fundamental concept of adoption.

"It is different than actual childbirth and senseless to try to convince a child that he was not adopted. So now, people will take a child, marry or not, whether he or she doesn't like them."

A foster home is generally the first step on the road to adoption.

A child who, for some reason, cannot live with his natural family is usually made a ward of the welfare court and placed in the foster home.

Here, various social agencies attempt to find the means eventually to return him to his own parents. Sometimes one try is found.

"We have no intention of just apprehending a child and having him adopted. The best place for any child is naturally with his own parents.

Ann Landers

Wife's System of Waking Might Break Marriage

Dear Ann Landers: My wife has to get up first. She claims it's easier for her if she sets the alarm for 6:30 a.m., lets it ring and then resets it for seven so she can enjoy an extra half hour's sleep.

I resent this. When the alarm rings at 6:30 it wakes me up, too, and I can't go back to sleep until after it rings the second time. This robs me of an extra half hour's slumber.

I maintain that my wife is selfish for imposing her alleged right to "wake up easy" over my alleged right to sleep till 8 a.m. time for me to get up. Who do you see as the more selfish one?—Annoyed In The Morning

Dear Annoyed: No matter what I say, one of you will be mad and the problem will not be resolved.

You don't say whether you sleep in one bed or twin beds. This would make a difference. If it's twin beds, your wife could put the alarm on low, place it under her pillow and not disturb you. This system might still work in a single bed. If you're a sound sleeper.

If it won't work, sleep in another room—even if it means a cot in the kitchen. A continuing problem like this can strain the seams of a marriage to the breaking point. Better another room now than another address in two years.

Dear Ann Landers: My sister was married to a very nice man for six years. He didn't work out. Her ex then married a much older woman and their marriage was a disaster. They were divorced within the year.

I learned by accident that my sister send her ex a get-well card when he was in the hospital. Twenty-two weeks ago, I thought this was an terrible taste and told her so. If he had connected her. It would have been another matter, but this very ill looks as if she is intruder after him. What do you say, Ann Landers? — Concerned

Dear C.: She didn't ask me, but I'm saying nothing. Since you wrote, however, I do have some advice for you, dear. WYOH.

Dear Ann Landers: You let the families of "work-aholics" down when you said hard work never killed anybody, that it's man enjoys what he's doing, let alone others. Then you prattled on about overweight, booze, and nervous tension.

My husband works 10 or 12 hours a day six days a week. On Sunday, he always around the clock. He gets up only to eat. There is no time or energy left for his family. My children are growing up without a father. One has developed a bad boy his work is no excuse to give his responsibilities to the job and ignore his wife and children. I am burned up that you would take the side of these selfish, driven males.

Certainly we enjoy the fruits of his labors, but we'd settle for a lot less if he'd pay some attention to us.—Another Victim Of The Money Bag

Dear Vic: It's not the money bag that bit your husband. The problem is that he is a compulsive worker, a severe neurotic, and I can tell you, lady, you won't change him.

Counselling might help, but these types rarely go. The wife who wrote was concerned about her husband's health. Your complaint is totally different. A woman who is married to workaholic had better learn to keep herself busy or trade him in for another model.

Residents Benefit

OTTAWA (CP) — Saskatchewan residents have the benefit of legislation providing hearing aids at cost, fitted by the directors of health audiological clinics. Consumers' Association of Canada reports that there are permanent clinics in Regina and Saskatoon.

Rabbi Changes Traditions

NEW YORK (AP) — Sally Priesand, 27 and the United States' first woman rabbi, has changed centuries of Jewish tradition in a matter of months. She'd like to see still more changes to give women greater recognition.

Rabbi Priesand, assistant rabbi at Stephen Wise Free Synagogue, puts it this way:

"Women ought to be able to take full and complete roles within the synagogue as far as the requirements of Jewish law and leadership are concerned.

"I have pretty much redone the wedding service in order to emphasize the equality or individuality of each partner and the necessity for respecting the uniqueness of each partner.

"When I come to words like father, men and mankind, I change them."

She also has followed the trend in many reform temples and eliminated such words as "obey" from marriage ceremonies.

A rabbi for 1½ years, she recently reflected on her work in an interview.

Rabbi Priesand, whose long brown hair hangs full length below her shoulders, said she did not want to dramatize as a platform for women's liberation.

"My decision was based on a belief in God, a belief in the worth of the individual and a belief that Judaism is worth preserving," she said.

Suits Are Back

Suits are back in favor this Spring after being largely replaced in recent years. Among those being offered is this short-sleeved outfit in mid-check fabric by Peter Fox for Miss' Sun Valley of Toronto. (CP Photo)

Once Queen of All Vietnam, She Now Cares for Tombs

HUE, South Vietnam (AP) — She is almost bald and wizened but her eyes still sparkle and one forgets she is 85 when she draws up her frail frame to its full four feet 10 inches.

The woman once queen of all of Vietnam. That memory has helped her face the sorrows that have descended upon her and her country in the nearly 50 years since her husband left her a widow and she began to cope on a changing world that eventually forced him into exile.

Today Vietnam's Queen Mother Hoang Thi Cuc lives in a remarkable old French villa on a Hue side street. Her days are spent in prayer. Perhaps it is a blessing that her failing hearing permits only occasional motorbike backfires and distant artillery bursts to intrude upon her solitude.

But from the moment the queen mother enters the room, she is in command. She walks slowly but erect. Her speech is whisper-soft but firm. Her tone is unmistakably royal.

She was the wife of Emperor Khai Dinh. One child was born of the marriage, a son, Bao Dai. She lived in The Citadel, the official residence of the royal family located on the east bank of the Perfume River and modelled after the Forbidden City in Peking.

When Khai Dinh died in 1925, Bao Dai assumed the throne, but by then the young emperor was a figurehead under the domination of the French.

Still, the royal family kept up its mandarin traditions and the Vietnamese people paid them homage.

When the Japanese invaded Indochina in 1940, the royal family remained. After the Japanese defeat in August, 1945, the Communist Viet Minh forces proclaimed the Democratic Republic of Vietnam and ordered Bao Dai to abdicate.

But the French, who returned to Vietnam in early 1946, regained control of most of the population centres. When negotiations with the Viet Minh broke down, the first Indochina war erupted. It lasted eight years and resulted in the division of North and South Vietnam.

After the July, 1954, Geneva Conference, the South became the state of Vietnam with Bao Dai as its titular head. But in October, 1955, South Vietnam became a republic. President Ngo Dinh Diem seized the reins and Bao Dai took his wife, two sons and three daughters to Paris.

Now alone, the queen mother surrounds herself with blurred old photographs of the loved ones from her past.

The South Vietnamese government gives her about 140 monthly to live on and relatives say this keeps her in food for about 10 days. The blood relations, whose shabby conduct also reflect their income, refused to divulge other income sources but it is believed scattered royalists contribute small amounts.

She is a vegetarian and eats sparingly. She has seven servants but their presence is not reflected in the upkeep of her house or small weedshaded garden.

An American-built sedan is at her disposal, but she says she travels only to her former home at the crumbling citadel and to the tombs on numerous religious holidays.

I am very sad, exceedingly sad," said the old woman, speaking through an interpreter. "When I was young, Hue was so nice. Then it was ruined. I'm very glad it is being reconstructed and I wish for it to be beautiful again.

"I read the Bible and pray to Buddha and have no other activities except to wish for peace."

Throughout both Vietnam wars, the queen mother refused to abandon Hue despite its almost total destruction during the January, 1968, Communist Tet offensive.

She would not go, saying she had to stay here to care for the tombs and the shrines and that it was her duty even if she died," said the translator. "So, children and grandchildren, we concluded the normal ceremonies and observed them conversantly as usual. Her Majesty still believes that she will one day come again to Vietnam."

MAGIC LADY
By Cassie
Many of you quilt out there have got times on a way in your life as you have no idea of what the future holds. Some of you may be in such trouble that you feel the end is beaten, none of the married, and usually time is the greatest healer. The result was disastrous. The hair was dyed a horrible green, wrong shade of red, the eyebrows are non-existent, skin too, caprese creases that are in no way necessary. No longer are you struck with the desire to look like Elizabeth Taylor or Raquel Welch. Your only thought must have in mind is the fact that with success comes success just like anything else. You wouldn't dream of going to a party without a hat because your hair is a mess. Well, hats are a fashion accessory and at today's prices, a necessity. Hats are pretty inexpensive, and there are some beautiful ones that last years and years, or maybe you can make one yourself of new ones? The same holds true for wigs. Wigs are wonderful. Why, I myself—NO! NO! I WON'T LET YOU SHOW YOU. So come on in and let's talk about it. Thanks.
Pictured above is our lovely Magic Lady. She's wearing a Dark Brown or Auburn Human Hair Blend of curved model, side part centre part or no part at all. Available in your choice of one Colour will match in the Fall. Price $99.95 now ON SALE for 29.95. So hurry, you can't lose!

STELLA CULHANE

Film Ratings And Your Kids

If you're planning to dump your eight-year-old and your 14-year-old at the theatre to be "baby-sat" while you and your husband or wife dine out, forget it.

The Ontario Theatres Act has all kinds of strict rules much akin to Liquor Control Board regulations - about who can see what with whom at the theatre.

Stella Culhane, manager of the Quinte Cinemas, said recently that when children are turned back from evening performances, parents often professionals, a local and arbitrary rule. Actually the theatre is just conforming to the law.

For example, it's common knowledge that no person under 16 can be admitted to a theatre to see a restricted film. The Ontario Censor Board categorizes every film that is shown in Ontario in one of three ratings: general entertainment, adult entertainment and Restricted. But did you know that even a parent cannot bypass that regulation by taking his 17-year-old along to see a restricted film?

And no child under 12 is permitted to attend a theatre with a child under 16 unless it is before 6 p.m. and there is a matron in attendance. Special or not, one 14-year-old then, could accompany a whole bunch of nine-year-olds. But your 15-year-old can't take your 11-year-old.

Don't complain if you're shocked by a film either.

All advertising, from newspaper to billboard, must include the rating of the film if it is "restricted", or "adult entertainment".

When you see "adult entertainment" in advertising, by the way, it's the censor board's way of letting you know you might not want your kids to see it.

If you don't like the kind of films you're being offered, Stella Culhane says you can blame yourself. The theatres' lowest grosser last year were generally what could call "family" entertainment. Big violence and big sex brought big money.

"The reason family pictures aren't made is that no one goes to see them," Mrs. Culhane says. "There are more restricted and adult films being made every year."

People and Events

Tickets are available for the Shakespearean Festival in Stratford on July 6. Arranged by the Perth County group, the Festival Day includes a matinee performance of Tartuffe with dinner and dancing afterwards at the Shakespearean Festival Theatre.

Models for the Fashion Show scheduled for October have been selected. Members were reminded to keep saving their supermarket tapes which to purchase items of hospital equipment.

Vivian Green and her daughter Sandra Carter were hostesses for the February meeting of the Rednersville Women's Institute, Flossie Pulver, past president, opened the meeting. Two minutes of silence were observed in memory of the late Isabel Corderoda, a long-time member.

Faye Wetherall was delegated to attend the Officers' Conference.

The group received invitations to attend the Junior Farmers' Tea in Wellington March 16, and the 50th Anniversary Tea of the Cherry Valley W.I. on April 6. Also on April 6 is the W.I. Girls' Achievement Day. The group is also invited to the March 27 Food Forum at St. Mary Magdalene Hall, Picton.

A thank-you letter was received for a donation sent to the Wellington arena fund.

Volunteers offered their services to box and transport books to a second hand store in Belleville.

Brenda Townsend reported on the result of her letter regarding the installation of soft drink machines in Ketcs school. Milk has been made available at the school as well so that the children have an alternative to the soft drinks.

The day's program concerning citizenship, was led by Flossie Pulver and three assistants. Mrs. Pulver outlined the qualities that are necessary to maintain a democratic society, and pointed out that women have a real influence upon the course of events when they work together.

"Men of the world build houses, but women build homes," she said.

The meeting closed with a lunch and social hour.

Instant Sewing Book teaches you how to sew it today so you can wear it tomorrow. Quick, professional techniques. $1.00.

MR. AND MRS. GARY KIRKHAM

Kirkham — Eves

The midwinter wedding of Bonnie Suzanne Eves and Gary Roger Kirkham took place in Bridge Street United Church in a service conducted by Rev. George Ward.

The bride is the daughter of Mr. and Mrs. Donald Eves and the groom is the son of Mr. and Mrs. Elwood Kirkham of Kingston.

Given in marriage by her father, the bride wore an empire A-line gown of white velvet trimmed with seed pearls and silk braid around the neck, waist and hem of the skirt and train. Her juliette cap of imported lace held a full-length veil and she carried a cascade bouquet of red roses and baby's breath and white carnations.

The bride's sister Christine Eves was maid of honor in a red velvet A-line gown trimmed with buttons down the front and with a fur-trimmed hood.

The bridesmaids, Karen Devolin, Carol Scott and Pauline Kirkham, the groom's sister-in-law, were attired identically to the maid of honor. All the attendants carried fur muffs.

Andrea Brohm was flower girl in a similar gown to the other attendants, and Ronald Smith was ring bearer.

Soloist for the ceremony was Joyce Reynolds.

Harry Smith was the groom's best man and ushers were Ted Eves, David Kirkham and Boyd Kirkham.

After a dinner and dance reception at the four Seasons Hotel, the newly-married couple travelled to the Maritimes for their honeymoon. They now live at 15 Adelaide Street, Kingston.

MR. AND MRS. LANCE VADER

Vader — Woodcock

Ruth Yvonne Woodcock and Lance Arthur Vader exchanged wedding vows February 22 at Calvary Temple.

Ruth is the daughter of Mr. and Mrs. Don Woodcock, Belleville. Lance is the son of Mr. and Mrs. Laverne Vader, Belleville.

Rev. C. Benn officiated. Soloist was the bride's brother-in-law Jack Rose.

Given in marriage by her father, the bride wore a floor length crepe gown covered in sheer decorated by pearls. Her cathedral veil was trimmed with lace and fell from a petal headpiece. The gown was made by the groom's mother. She carried a bouquet of red roses.

Carol Rose, maid of honor, wore a blue gown of satin with bead trim. The seven bridesmaids were pink and blue gowns matching the maid of honor. They were the bride's sisters, Mrs. Darlene Rose, Anne, Cathy, Pauline and Dianne Woodcock and the groom's sisters Rita and Melanie Vader. Flower girl was Tammy Rose in a gown and train identical to the bride.

Best man was David Dent, the groom's cousin. The bride's brothers Glen and Jim Woodcock and the groom's brother Fairley Vader were ushers as were John Chisolm, Ricky Seely, and Dave Jamieson, as well as the groom's cousin Paul Dent. Ring bearer was Arthur Hodgson, cousin of the bride.

After a reception at Foxboro United Church, the couple left for a wedding trip to Quebec City and return.

The couple resides at 4 Glen Arden Crescent, Agincourt.

HARD-COOK EGGS

To hard-cook yolks, slip them into hot water and cook below boiling point for about six minutes or until set.

Marmora IODE Reports Activities

The annual report of Marmora Chapter IODE 1974 activities indicate that the 28 members have contributed both time and effort to a number of worthwhile projects.

With the proceeds from a variety of money raising contributions were made to: National Funds $21, Lucy Morrison Fund $15, Services at home and abroad $10, Delcro Library $20, Marmora Library $25, Bus trip to Science Centre for Grade 6 Marmora students $120, Marmora Agricultural Society $5, Christmas parcel for adopted family, Bursaries $20, Legion wreath $12.50, donations to Legion Christmas baskets $50, and a Christmas gift to Bridgewater School at Belleville $5.

Tow large boxes containing a layette and children's clothing were sent to headquarters during the year.

Four students have been assisted with loans by Marmora Chapter to further their education.

It was decided that a resolution protesting the increase in provincial fees should be sent to the provincial counsellor for this area before the 1975 provincial-annual meeting to be held in Hamilton on April 17-18. The members also wished to go on record as being in favor of giving them a choice of taking the IODE magazine "Echoes".

An invitation was received to attend the annual meeting of Municipal Chapter at the Rock Haven Motel in Peterborough on March 7.

Ann Walters, Helen Mehlkopf, Bernice Young, Eileen Demorest, Marietta Kotulski and Hetel Jones indicated they were willing to let their names stand as candidates with the Emergency Measures Organization to assist with welfare operations in the event of an emergency. Mrs. Walters represents the Lions Club EMO meeting in Marmora.

Alice Ayler was returned to office as Regent of Marmora Chapter IODE for a fourth term at the Annual Meeting held at the home of Eleanor Bicknell in Deseronto on Feb. 26.

The slate of officers as presented by nominating committee chairman Eleanor Bicknell is: 1st. vice-regent, Eleanor Bicknell; 2nd vice-regent, Marietta Kotulski; secretary, Dorothy Gower; treasurer, Eileen Demorest; Education Secretary, Stella Bennett, standard bearer, Audrey Wentworth; services, Vi Park; membership, Helen Mehlkopf, and Echoes, Muriel Regan.

Eggs Unearthed

AIX-EN-PROVENCE, France (AP) — Workmen grading the earth near here have uncovered dinosaur eggs. The director of science museum of natural history said the eggs weigh about 13 pounds each and are 10 inches in diameter.

Eye Care Covered

OTTAWA (CP) — In all provinces except New Brunswick, Prince Edward Island and Newfoundland, eye examinations are covered under provincial health schemes, reminds Consumers' Association of Canada.

Engagement

Mr. and Mrs. Raymond Lundberg of Belleville are pleased to announce the engagement of their eldest daughter Gail Rae to Georgo McDonald, son of Mr. and Mrs. Francis McDonald of R.R. 1 Napanee. The marriage will take place April 5 at 8 p.m. in the Bethany Street United Church.

* * *

Mr. and Mrs. J.J. Sheridan, Belleville, announce the engagement of their daughter Janice Marie to Stanley Joseph Muldoon, son of Mr. and Mrs. Vincent Muldoon. The wedding will take place April 5 at 2.30 p.m. at St. Michael's Church, Belleville.

Wedding

Mr. and Mrs. Walter Wardaugh, Belleville, are pleased to announce the marriage, March 1, of their eldest daughter Heather Lynne to Douglas Wilfrid Thompson, youngest son of Mr. and Mrs. Beaucourt Thompson, of Belleville. Mr. and Mrs. Thompson are residing at 14 Wallbridge Crescent.

Runs Farm

SURREY, B.C. (CP) — A man who says secretary Ruth Lund quit her secretarial job in Vancouver and bought herself a farm. He didn't even know how to milk a cow when she packed up her furniture and moved to the farm, which now has hens, horses, cows and "a garden the size of a football field." Mrs. Lund, who is writing a book about her farm experiences, says her accomplishments aren't really that remarkable. "There are 60 divorced women running their own farms in British Columbia."

"A United Way Agency"

Canadian Mime Theatre Plans European Tour

Raymond Wickens, general manager, has announced that the Canadian Mime Theatre will make its first European tour in the fall of 1974, visiting five countries in five weeks.

The tour, which immediately follows the company's sixth season at Niagara-on-the-Lake, is being made possible by a grant from the Department of External Affairs. A submission has been made to the Ontario education ministry to assist in funding the tour.

The company's first stop will be England where they will perform Sept. 25-27 at the Curtain Theatre for the Inner London County Council Schools. On September 28, the company will perform in Bromley, Little Theatre in Bromley.

Sept. 30, the company travels to East Gearmany where it performs in Frankfurt-Oder Oct. 1,2 and then on to the Berlin Music Festival, perform in East Berlin Oct. 4-6. This will be the first time a Canadian company has performed in East Germany.

Copenhagen will be the Mime Company's next stop, where it will perform from Oct. 7-12.

From Oct. 14 through 20 to the company tour Bulgaria under sponsorship of the Committee for Friendship and Cultural Relations with Foreign Countries. This is a return visit to Bulgaria. In 1972 the Canadian Mime Theatre represented Canada at the Second International Youth Theatre Festival in Sofia. The response to this visit was so overwhelming (19 curtain calls) that a second invitation was immediately issued.

The final stop on the company's itinerary is Romania where the Government Cultural Agency will sponsor a tour of that country Oct. 21-28.

The touring company of Adrian Pecknold, Herve Maskow, Robin Patterson, Ian McKay and Paulette Haupfear will present Mime On Five, a series of favorite mime skits and sketches, collected over the six-year history of the company.

Immediately on its return to Canada Oct. 28, the Canadian Mime Theatre will embark on a six-week tour of Ontario schools under the auspices of the Prologue to the Performing Arts.

Art Collection Now on Display

In 1970 the Agnes Etherington Art Centre received 60 works from the important collection of Douglas Duncan, patron of the arts. A selection from this gift will be shown for the first time at the Art Centre during February and March.

Douglas Duncan's considerable collection of Canadian paintings, drawings and prints collected during the years he ran the Picture Loan Society in Toronto, covers an extensive cross-section of Canadian art of the mid-twentieth century. Following his death, in 1968, this collection was divided among various public galleries in Canada. Although he described himself as a casual collector, his collection included such important Canadian artists as Jack Nichols, Lemoine Fitzgerald and David Milne.

In a letter to his collecting Douglas Duncan said in an interview in 1960, "I have no mission, no spectacular aim in collecting; I have merely assembled a large number of oils, water colours, drawings and prints that I have liked and that I continue to enjoy."

Most of the Douglas Duncan Collection given to the Agnes Etherington Art Centre will be open between February 9 and March 31. The paintings and drawings by David Milne, Lemoine Fitzgerald and Jack Nichols are among the most important additions to the Canadian Collection of the Art Centre.

Juke Box Company Giving Business Up

NEW YORK (AP) — Urban renewal, fast food restaurants, television and portable tape players have sounded the death knell for a musical institution, the Wurlitzer jukebox.

The Wurlitzer Co., which also makes organs and pianos, said Wednesday it is getting out of the jukebox business, although it will continue to make replacement parts for six years.

A company spokesman said the firm foresees an increasingly declining market abroad as North America turns toward suburbia and farther away from small-town and city life, where the jukebox was a mainstay.

While not the largest maker of jukeboxes today, Wurlitzer possibly is the most famous.

Its advertisements: "Gee dad, its a Wurlitzer," were attached to piano and organ sales, but the phrase also helped to make the term "jukebox" almost synonymous with Wurlitzer.

From the time it made its first machine in 1934 until now, Wurlitzer has manufactured more than 750,000 "coin-operated phonographs."

Group Settles with Manager

NEW YORK (AP) — The Grand Funk Railroad rock group agreed Wednesday to give its former manager $1.05 million in oil and gas exploration interests and $24,278 in cash as part of a settlement that ended a two-year legal battle.

In return, the manager, Terry Knight, gave up $355,191 in payments for all recording and publishing royalties owed the Grand Funk Railroad.

The agreement severed Knight-management association with the rock group, cancelled eight Knight-Grand Funk contracts and dismissed 36 lawsuits.

The petroleum exploration portion of the settlement represents the group's interest in White Shield Gas and Oil Corp. The cash was for commissions and fees, including interest.

Grand Funk also agreed to compensate Terry Knight Enterprises for any sale of movie footage shot during the group's 1971 Shea Stadium concert. Knight in return relinquished copyright and publishing rights to one Grand Funk album and one single record.

OUR BOARDING HOUSE with Major Hoopla

Two-week Tribute Planned

The National Film Theatre in London will pay tribute to Canada's National Film Board through a two-week retrospective opening March 11.

Sydney Newman, government film commissioner and chairman of the NFB will represent the board during the program which will open with a reception hosted by the Canadian High Commissioner in London.

Throughout the two weeks, NFB productions will be presented daily at the NFT. Special film programs will cover such aspects of the Board as the animated film, the experimental film, the work of Norman McLaren, the French Canadian film, films for social change and the role of the NFB in the Canadian scene.

Mr. Newman and two NFB filmmakers will take part in an open panel discussion on March 19 and its aims on the second day of the festival.

British television will take the opportunity of the tribute to feature the work of the National Film Board. The British Broadcasting Corporation will telecast the NFB film "Time Of The Hunt" (Le temps d'une chasse) across the British while Independent Television has scheduled special programming to honour the Board.

Collects Rockers

SWIFT CURRENT, Sask. (CP) — John Gliesler has 23 rocking chairs. He started collecting them when he retired last year. Mr. Glieder refinishes the chairs by stripping off the accumulated paint, applying a coat of oil to bring out the grain and then putting on finish. His wife takes care of the upholstering, needle point or weaving. Some of the chairs are more than 100 years old.

Showbiz Shorts

MEXICO CITY (Reuter) — Richard Burton and Elizabeth Taylor are with 200 Mexican peasants before President Luis Echeverria for three hours here to get a deed for land they own.

The session Tuesday night legalized land tenure in Puerto Vallarta, about 770 miles northwest of Mexico City where the couple built a home 6 years ago.

They received a 30-year title to the land on which their house stands.

Puerto Vallarta, now a beach resort, was a little-known fishing village before the Burtons arrived to film The Night of the Iguana more than a decade ago.

The Burtons arrived in Puerto Vallarta last week for a holiday and were invited by Echeverria to his palace in Mexico City for the land-tenure ceremony.

Under the Mexican constitution, foreigners are barred from permanently owning land along the coasts and borders.

LONDON (Reuter) — Christopher Lee, star of eight Dracula movies, is to hang up his fangs as the Transylvanian count.

Feature Times

AT THE PARK — In Color — You very understanding — Sensuous — Sexy — Erotic — Love experiment. Come and see the Swedish Beautiful girls caught in a web of sexploitation. Intimate. Revealing. Titillating. Some scenes may shock. Today 2:00, 4:00, 6:00, 8:00, 10:00. Starts Sun. 2:30, last show 8:30. Admission $2.50. Persons restricted to persons 18 years of age and over.

Since his first horror film, The Curse of Frankenstein, in 1957, Lee has made eight Dracula movies. But with the latest, Count Dracula Rises of Dracula, he has pierced his last jugular. In his next movie he will puncture people with a sword in The Three Musketeers.

LAS VEGAS, Nev. (AP) — Comedian Redd Foxx says recent illness forced him to drop out of the Sanford and Son television show were "a lie."

Foxx said in a taping for the Mike Douglas Show that he wanted a better salary, was disenchanted with working conditions and didn't want to revert to what he called "Amos 'n' Andy."

He complained that he was treated "like I was a boy and not a man," and that the atmosphere on the set was similar to the army.

"You have to salute, almost," he said.

The 51-year-old entertainer's television comedy and is expected to be off the network for the season. "Nobody misses it like I do, but I want it right for me — Foxx said in an interview.

The Douglas show will be aired March 28.

BELLEVILLE, ONTARIO, FRIDAY, MARCH 8, 1974

Coach Wins, Too

Bobcats Midge Junior B Hockey team, Murray (Mac) Hunter, was granted an absolute discharge Thursday after he was found guilty, in provincial court, of a common assault charge that arose from a fight he had with a member of the Wexford Warriors during a game in Belleville Nov. 20.

Hunter decided not guilty to the charge, but admitted in court that he had punched David Watts, a player with Wexford, in the mouth during a late last period brawl.

Watts, who had been sidelined with an injury prior to the game, was standing behind the Belleville bench encouraging a teammate who was fighting on the ice, when Hunter hit him. He received a cut to his lip and jaw that required 18 stitches at a result of the blow.

Hunter's lawyer, Robert Temple argued that Hunter had been provoked into the attack by Watts. Watts had been yelling obscenities at the players on the ice and failed to leave the area of the Bobcats bench when asked, he said.

Judge J. L. Clendenning noted that prosecution had a major part in the incident and granted Hunter absolute discharge on that ground.

The Bobcats beat Wexford 7-4 score of 9 to 1. Nov. 20.

Screams Save Grabbed Girl

A 13-year-old girl walking alone down Sidney Street was forcibly seized by a youth who picked her up in a car.

However, his efforts were thwarted when her screams attracted a passing female motorist and she was able to get away.

The incident occurred about 5 p.m. yesterday afternoon on Sidney Street north of College Street.

The passing woman motorist took the girl to the OPP office. Subsequently, the provincial police found the car they were seeking at the rear of the Quinte Mall and Gerald David Charlton, 19, of Dobbs Street in Trenton was arrested.

He is charged with confining and forcibly seizing another person against their will.

Historian Honored

Gerald Boyce, president of the Hastings County Historical Society was awarded a certificate of merit for "outstanding contributions to local history in Canada" at a recent meeting of the Canadian Local Association, in Kingston.

The award was made on the basis of Mr. Boyce's work in establishing the Hastings County Historical Society in 1957, in opening the Hastings County Museum in 1961, in writing Historic Hastings for County Council in 1967 and for assisting with the planning for the new Hastings County Museum, Glanmore House.

The certificate of merit was awarded on behalf of the Canadian Historical Association by Dr. Margaret Angus of Kingston, the chairman of the associations local awards committee.

Mr. Boyce was the only Ontario resident to recieve the award, which is made annually by the CHA.

Christmas Robber Gets Two Years

An 18-year-old Deseronto man, who robbed a grocery store of approximately $300 on Christmas Eve because he wanted the money to buy groceries and presents for his wife and six-month old child, was yesterday sentenced to two years in prison by Provincial Court Judge J.L. Clendenning.

Steven Robert Vallere pleaded guilty to the robbery charge Feb. 21 and was remanded in custody for sentencing pending the preparation of a pre-sentence report.

When he appeared in court for sentencing yesterday, Vallere told the judge that at the time he had committed the robbery he was unemployed and living on welfare. His rent was $100 a month but his welfare revenue amounted to only $114 a month. His six-month-old child had not been eating properly and was sick, he said.

Using a pair of his wife's panty hose as a mask and his finger in his jacket pocket in imitation of a gun Vallere held up a 48-year-old grocery store clerk as she was preparing to close the store.

Judge Clendenning said that he sympathized with Vallere's position but could not in any way condone his actions. He noted that small corner grocery stores often were becoming the targets of hold-up artists and said he was taking into account the effect the robbery could have had upon the elderly clerk.

By imposing the prison term, he could recommend that Vallere be transferred to a federal penitentiary in Saskatchewan where Vallere's family is now living, the judge said. The parole board could then consider granting Vallere an early parole.

Dutch Treat

Holland is traditionally the land of wooden shoes and colorful spring flowers such as tulips. Such a combination was evident at the market square this week as John Van Gemeren of Bayside Greenhouses brought flowers to sell to downtown shoppers. By doing so he becomes the first business to open on the market this year as his tulips, crocuses and hyacinths add a touch of color and a hint of spring to Belleville.

Authority Considering New Reservoir Project

A manmade lake with an area roughly equivalent to that of Moira Lake south of Madoc could some day become a reality if plans of the Moira River Conservation Authority are carried through.

The authority's water control advisory board at its last meeting recommended that arrangements be made for a feasibility and cost benefit study of the reservoir project.

Site of the proposed reservoir would be in what is known as the Bend Bay area of the Moira River a few miles upstream from Moira Lake.

The dams would back the river up for several miles, extending almost to the Hunt-ington — Rawdon ownship boundary.

The project would entail construction of two large earth fill dams — one across the main river channel and the other across an adjacent low lying area — and would see flooding of approximately 1,000 acres.

Creation of the Bend Bay reservoir was proposed by provincial engineers following the original survey and report done on the Moira watershed by the Conservation Branch about 25 years ago.

Cost of the proposed works will now be left to provincial authority officials from seriously considering the proposal.

But authority chairman Guy Hughes of Tweed is enthusiastic and feels that the feasibility and cost benefit sudy should be abbied.

"Maybe some day . . ." he says.

In other business at the weekly advisory meeting, committee members recommended that construction of the proposed Deer Creek weir dam in Madoc be postponed until a complete channel improvement study has been done in the Village and vicinity...

Also a committee of advisory board chairman Ray Burnis, Guy Hughes and Harold Varty was named to investigate and make recommendation concerning the removal of rock from the Moira river downstream from Stoco Lake.

Business Boom for Achievers

By LENNY WILLIAMSON
Staff Reporter

Capitalism and free enterprise are alive and well among the junior segments of the Belleville community.

About 45 high school students are up to their ears in capital investment, share valuing, production, accounting and all the other procedures of big business.

They are members of Junior Achievement of Belleville, the city's newest youth movement devoted exclusively to giving young people practical experience in what capitalism is all about. The students are now operating five companies on a no-nonsense basis in a rented Front St. building.

Local businessmen and industrialists sponsor the organization and several are spending their Thursday evenings as consultants. The objective is to involve young people from grades 10 to 13 in selling shares in a company, putting the capital to work in buying equipment and supplies, manufacturing and selling the product and keeping the books — from attendance records to production flow charts to accounting. The first step in this year's activities is liquidation in May, when the company pays off its shareholders and divides up the profits, if any.

Executive director Garth Stephenson expects the companies to operate at a loss this year. Too short a production period is the reason. Instead of the usual September start, the local organization didn't get under way until January.

"All the achievers are thinking in terms of next years," says Mr. Stephenson.

Enthusiasm is high. Some of the grade 13 students who will not be eligible to participate next year want to return as counsellors.

Challengers Distributors is a typical company. Its counsellors come from Corby's and its product is beer goblets made from beer bottles. They sell for $1.75 a pair.

The company sold 118 shares at $1 a share (limited to one share per person). Buyers were family, friends and members of the sponsoring group. With the initial capital, Challengers paid the parent organization rent for the premises and for a glass grinder, purchased the necessary record books, raw materials and safety glasses. So far, sales have been limited to family and friends, but the company's sales manager hopes soon to mount a selling campaign.

The equipment required by each of the five companies is owned by Junior Achievement of Belleville and rented to the students, usually for $1. a month.

Jul-Mar, whose counsellors come from AOCO, makes leather coasters selling at six for $1.25.

Wood slab bird feeders with glass enclosed hoppers are manufactured by Birdaid. They sell for $3 each, and are available at downtown hardware and feed stores.

Counsellors are from Stewart-Warner and Dekro Stellite.

Production hasn't caught up with demand for the wooden signs put out by Carwood. They produce six a night and have received orders for 30. The signs are price from $4. to $6. Dekro Stellite provides the counsellors.

Constellation Carpet counsellors suggested the products manufactured by Quinte Crafts. They are wall hangings with inlaid designs, selling for $2. to $15. Hottest item is a brightly colored Snoopy Carton-in thick p6c.

The junior achievers spend every Thursday night on the job, and a teller from the Royal Bank is on hand to collect share money and help with banking. Because of the late start, some companies are catching up an production by working Saturday mornings.

Junior Achievement is a Canada-wide movement with 12,000 young people enrolled. Representatives of top companies attend an annual conference to be held in Thunder Bay this year, where the champion achievers are chosen and ideas exchanged.

Goblet Maker

Tom Lumbers grinds the lip of a beer-bottle goblet on a machine donated to Junior Achievement of Belleville by AOCO. The parent organization in turn rents the equipment to the Junior Achievers company, Challenger Distributors' members are re-cycling beer bottles into goblets, complete with labels.

Loyalist's Bancroft Operation Reduced

By LENNY WILLIAMSON
Staff Reporter

Loyalist College's Northern Council in Bancroft is to be discontinued and its office staff reduced. But night school interest courses and Manpower retraining now offered in the village will go on under "continuing review".

No reason for the move was given at the board of governors meeting Thursday night or in a hastily prepared press release issued by the college after the meeting.

The board of governors' decision ended weeks of rumors that the college's northern operation was to be phased out.

Northern area supervisor Ivor MacLeod, now stationed in Bancroft, will be asked to operate out of Belleville starting in May or June. He will take up duties as one of three extension supervisors, and will be responsible for a large territory in the northern part of Hastings and Lennox and Addington counties.

Mrs. Janet Fransky, secretary and general assistant in the Northern Council's Bancroft office, will be asked to remain in the office in a "somewhat altered" role. Her position will be under continuing review during 1974.

Information regarding the changes in Loyalist's northern operation was released following the board meeting in a statement prepared for the spokesmen college president Herbert Young and board chairman Wilfred Wilkinson.

It was based on two documents; the report of committee study of northern operation under the chairmanship of former board chairman John Donelan and a commentary on the report by Northern Council chairman, M. J. McAlpine of Bancroft.

Copies of the two documents were refused to the press and the prepared statement issued verbally, following the meeting. The recommendations of the committee were not read at the public meeting. The board merely voted to accept the report.

However, Rev. H. J. Mabooy, a former board chairman and governor represented Bancroft since the founding of Loyalist College, gave a lengthy commentary on the McAlpine report.

He said the Northern Council and McAlpine report agreed with the first recommendation of the committee: that the council be discontinued and be replaced by an extension committee similar to those now being set up in other parts of the four counties served by the college area.

But Father Mabooy and the McAlpine report parted company with the official view from that point on. Father Mabooy said the official feeling is that night education in the Bancroft area has "hit a plateau."

"Because we lack numbers, the tendency is to think, 'let's cut them off completely, don't let the tail wag the dog,' he said.

"I would like to see a more aggressive policy in seeking out students," he added later.

"The policy has been to put an ad in the paper and let them come to us."

Father Mabooy ended his defense of the northern operation with a tribute to northern area supervisor Ivor MacLeod and secretary Janet Fransky.

"Mr. MacLeod has done everything he was asked to do and has given the college a good image," said the priest. "We are behind him 100 per cent for all he has done for the people of the area."

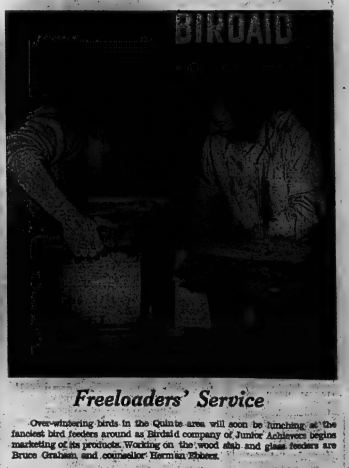
Later, Father Mabooy confessed to uneasiness about Mrs. Fransky's position and the future of the Bancroft information office of the college.

"What guarantee has she?" he asked.

Mr. Donelan replied that college president Herbert Young "has given me the assurance that these people will be treated equitably and fairly like all members of the staff."

Father Mabooy closed his remarks with an enigmatic quotation from the Scriptures that, "The anger of man does not serve the justice of God."

Loyalist College began its northern operation July 1, 1970. It operates 26 night school interest courses for about 300 people and has 18 women and three men taking Manpower Retraining courses in the village. Manpower retraining is geared to a maximum enrolement of 60 in Bancroft. Father Mabooy says he has verbal assurances that the Manpower program will continue.



Rumors that interest and Manpower courses would be phased out "at the end of February," or "in March" has lowered morale among the adult students in the village, said Father Mabooy.

Loyalist's northern programs are the only threads that link north Hastings with the southern area, he intimated.

"We tend to gravitate toward Peterborough for medical services, recreation, shopping and cultural activities," he warned.

Carpet Patchwork

Scraps of carpet from Constellation Carpet are purchased by Quinte Crafts at waste material prices and converted to colorful wall hangings. The most popular design is the Snoopy hanging being turned out by Cecile Crisseon, one of the members of the Quinte Crafts company. The company also makes a maple leaf hanging.

Freeloaders' Service

Over-wintering birds in the Quinte area will soon be flocking at the fanciest bird feeders around as Birdaid company of Junction begins marketing of its products. Working on the wood slab and glass feeders are Bruce Graham, and counsellor Herman Ebbers.

Jan Hoffmann Strikes Gold

MUNICH (CP) — Jan Hoffmann of East Germany won the men's world figure skating championship Thursday night, but it was a tight fit.

Hoffmann, favored because of his brilliance in school figures, had to come up with a near flawless free skating performance for the school and did challenges from silver medallist Sergei Volkov of Russia, and Toller Cranston of Toronto.

He finished with 221.44 points with Volkov at 221.34 and Cranston at 227.26.

Hoffmann was technically brilliant in his five-minute free skating program, landing a triple lutz, only the fourth in world figure skating championship history, and two other triple jumps. However, his program lacked color or showmanship.

And while his marks weren't as good as Cranston's they were sufficient to hold the lead he had built in the figures.

Volkov almost lost his second place to Cranston—again he'd built a significant lead in figures to manage it—with a mediocre free-skating performance.

Cranston then gave one of the most brilliant free-skating displays ever seen at a world championship and moved into the bronze medal position from fourth. He also earned a gold medal from free skating.

He was first in the compulsory free skating Wednesday and first again Thursday, solidifying his position as a great free skater.

Ron Shaver of Cambridge, Ont., despite two falls in his final free skating program, won a silver medal for free skating by placing second in the short program and third in the free. Shaver finished fifth overall.

Hoffmann won the bronze medal for free-skating—he was second to Cranston Thursday and fifth in the school program.

Four place over-all went to Vladimir Kowlev of Russia. He was third in school figures, fourth in the short program and fourth in the free skating.

Cranston, a 26-year-old artist, had been virtually eliminated from medal contention by the experts after finishing eighth in figures. He didn't expect a medal, but said at the time, "the best has yet to come."

At a news conference he said he had forgotten "A tiny bit of my program and did a step I'd never done before."

"I just forgot for a second what was to do next so put a step in. But then any performance is subject to a certain spontaneity."

He hoped to be higher than eighth because he had doubled his training in figures this year in preparation for the championships.

But became tense and nervous before starting . . . and the figures weren't 10 per cent of what I can do. They just weren't comparable to my ability."

Meanwhile, Canadians didn't fare as well in other competitions.

In women's singles, Karin Iten of Switzerland won the gold medal for compulsory free skating, being placed first on all three figures.

Christine Errath of East Germany, one of the favorites for the world title, placed second and Maria McLean of Scotland 3-2.

Lynn Nightingale of Ottawa was 12th and Barbara Terpenning of North Vancouver, B.C., was 16th.

Miss Nightingale, disappointed at being 12th after figures, admitted she messed up a couple. The first was a disaster, "because my brain wasn't working."

Today the two Canadian girls take part in the two-minute compulsory program.

In dancing Thursday—the final is tonight—Ludmila Pakhomova and Alex Gorshkov of the Soviet Union cemented their lead.

The Russians, four-time world champions, were almost flawless and got one perfect mark.

Hilary Green and Glyn Watts of England remained second while Natalya Linichuk and Gennadi Krymouov of the Soviet Union were third.

Linichuk and Barry Soper of West Vancouver, B.C., held onto fourth place and Barbara Underwood and David Porter of Port Perry, Ont., moved to 15th from 18th.

Big League Leaders

Eight place over-all went to Vladimir Kowlev of Russia. He was third in school figures, fourth in the short program and fourth in the free skating.

Kings Vault to Third Place

By THE CANADIAN PRESS

For a team that was in last place in the West on Dec. 1 and suffered from a ten-game losing skid, Los Angeles Kings have suddenly become one of the hottest teams in the National Hockey League.

Under coach Bob Pulford, a 16-year veteran of the league, the Kings have vaulted into third place in their division, one point ahead of Atlanta Flames.

In December, the Kings took over sole action by making the first of a series of trades that have benefited the team considerably.

"We aren't doing anything different now and I haven't changed my style," Pulford said Thursday after Los Angeles upset Chicago Black Hawks 4-2.

"The breaks are coming our way and when we play well we'll keep our opponents under 30 shots a game."

The Kings limited the second-place Black Hawks to a mere 18 shots on Goalie Vachon Thursday, while Tony Esposito in the Chicago net's was called upon to block 29 drives.

In other games Thursday, Toronto Maple Leafs rallied twice to gain a 2-2 tie with Pittsburgh Penguins and Philadelphia Flyers whipped Detroit Red Wings 6-1.

Bob Berry scored his 18th and 19th goals of the season, his second coe the game winner, to pace Kings to their fourth consecutive victory.

It was the first win this season over the Black Hawks after three defeats and two ties.

Berry's second goal came on a Los Angeles power play at 17:37 of the second period as his shot from close range fell across bar and dropped into the goal behind Esposito.

Detroit 1 at Philadelphia 6 . . .

The Flyers don't have the Red Wings to kick around anymore.

"We sure hate to see them go," said the Flyers' Bobby Clarke. "I wish they would come in here three or four times than maybe it would be easier for us to win the division title."

The Flyers, holding a four-point lead over the second-place Hawks, swept the five-game season series against Detroit.

"I guess they're sorry to see us go," said Detroit coach Alex Delvecchio. "They certainly handled us over the season. I can't remember a series that was so lopsided."

The Flyers outscored the Wings 30-7 this season.

Pittsburgh 2 at Toronto 2

Second-period goals by Ron Ellis and Garry Monahan rallied the Leafs from behind twice and offset Jean Pronovost's 30th and 31st goals of the season for the Penguins.

Pittsburgh goalie Andy Brown was outstanding for the Penguins, especially in the third period.

Injury List Growing

MONTREAL (CP) — Injuries continue to plague Montreal Canadiens, with rookie goaltender Michel Larocque the latest victim.

A spokesman for the National Hockey League club said Thursday that Larocque will be lost to the team for an indefinite period because of a broken finger on his right hand.

Larocque suffered the injury during the pre-game warmup prior to Wednesday night's 3-2 loss to the Rangers in New York. He played the entire game despite the injury.

The Canadiens were without defencemen Jacques Laperriere, Guy Lapointe and Pierre Bouchard for their New York loss. Bouchard is expected to return for a return match between the two clubs here Saturday night, but Lapointe remains doubtful for the game.

Laperriere has been out of action because of a knee injury suffered in Detroit Dec. 17. There was no indication whether he would be fit for service before the end of the regular season.

The loss of Larocque leaves the Canadiens with two rookie defenders—Wayne Thomas and Michel Plasse. The club has carried three goalies all season.

The Original Knight
SOLUNAR TABLES
When To Fish
Or Hunt
By Mrs. Richard Alden Knight

The schedule of Solunar Periods, as printed below, has been taken from Mrs. Richard Alden Knight's Solunar Tables. Plan your days so that you will be fishing in good territory or hunting in good cover during these times, if you wish to find the best sport that each day has to offer.

"The Major Periods are shown in boldface type. These begin at the moon and last for an hour and a half or two hours thereafter. The Minor Periods, shown in regular type, are of somewhat shorter duration.

"The Eastern Standard Time, March 9 - 17.

Newton Sharp For Cougars

By CHERY GOYENS
The Canadian Press

Controversial rookie Connie Forey left behind the attention when Chicago Cougars began their World Hockey Association game with Quebec Nordiques Thursday night.

But when the contest was over, it was goaltender Carol Newton who found himself in the thunder with a sparking display of rebounding in a 3-2 Chicago win.

Newton kicked out 31 shots in the third period as his mates built a 2-0 lead and by the time the game finished, drifted towards the host Nordiques on 47 shots on goal.

In the only other WHA game scheduled, Ron Ward of Cleveland came back to haunt his former Vancouver team-mates with two goals, pacing the Crusaders to a 4-2 win over the Blazers.

Rangers 3 Northstars 2

The pre-game attention was on Forey — a 22-year-old St. Lambert, Que., native who surprised many hockey observers by signing with Chicago in earlier Thursday.

Two weeks ago, Forey was the receipient of a $10,000 fine and a suspension until the end of the 1975-76 season after he slugged referee Malcolm Ashley during a game in which he was a Western Hockey League game.

The incident occurred Feb. 20 when Forey, a player with Dec-Spurs, was playing in a road game against Seattle Totems.

The fine and suspension was levied by WHL president Bill MacFarland who, on hearing that Forey played for Quebec said he was "not the guardian for the whole industry."

"I feel I've omitted by responsibility . . . I'm surprised the World Hockey Association would approve the contract.

"I can't believe they would allow the kid to play under the circumstances."

Bobby Sicbald opened the scoring with his ninth goal of the year, Jan Popiel's tip-in of a Dwight Foster shot at 16:09 was the only other score in the first, it was Popiel's 12th of the season.

Andre Gaudette's 30th goal of the year, the only second-period marker, put Chicago's lead to one goal before Rosaire Paiement put the Cougars up by two again at 7:42 of the third period with his 38th goal.

However Jeannot Gilbert tallied his 17th at 14:20 and the Nordiques peppered Newton until the final siren in an unsuccessful attempt to tie the game.

Crusaders 4 Blazers 2

Ward's two goals provided the margin of victory in a listless game before 9,193 fans.

He started the season with the Blazers, moved to Los Angeles Sharks in a trade and on to Cleveland in another deal.

Ward's goals, his 20th and 21st of the season, both resulted from scrambles in front of Vancouver goaltender Peter Donelly. Cleveland's other scorers were Grant Erickson and Skip Krake.

Mike Walton and Don O'Donoghue scored for the Blazers.

The win kept Cleveland in fourth place in the East Division, six points ahead of Chicago.

In tonight's action, the Crusaders continue their western road trip with a game against the Jets at Winnipeg while Los Angeles Sharks play host to Edmonton Oilers.

First Win for Petes In Eight Attempts

PETERBOROUGH (CP) — A goal by captain Doug Jarvis with 56 seconds remaining in the final period gave Peterborough Petes a 4-3 victory over Hamilton Red Wings in the only Ontario Hockey Association Major Junior game scheduled Thursday.

Jarvis won snapped a seven-game winless streak for the Petes and moved them to within one point of second-place St. Catharines Black Hawks.

Paul Evans, Jim Turkiewicz and Gord Duncan scored Peterborough's other goals.

Greg Hickey, Kevin Cornforth and Mike Cosentino replied for the visitors.

Jarvis' winner came from a deflection on a shot from the blueline by Turkiewicz. It spoiled a comeback by the Red Wings who trailed 3-2 going into the final period. Cornforth tied the game at 12:41 into the period for the Red Wings.

Hamilton goaltender Mike Clarke was outstanding, facing 34 shots, including 20 in the first period when the Red Wings took a 1-0 edge.

Peterborough goaltender Mike Kazmeta was pulled after allowing a shot from centre ice to elude him with one second remaining in the second period. The Red Wings managed 32 shots on Kazmeta and Frank Salive.

In tonight's play, the two teams play a return match in Hamilton. Kingston Canadians play the Rangers in Kitchener, London Knights meet the Wolves in Sudbury and Toronto Marlboros play host to St. Catharines Black Hawks.

Americans Whip Voyageurs

HALIFAX (CP) — Rochester Americans scored two goals during the third period to beat Nova Scotia Voyageurs 3-1 in American Hockey League action Thursday night.

Art Stratton, Barry Merrill and Larry McKillop scored for the Americans, who strengthened their hold on first place in the AHL's Northern Division.

Ron Andruff got the lone goal for Nova Scotia, which remains in fourth place in the division, four points behind New Haven Nighthawks.

One to Go for Bobcats

By MIKE BRADSHAW
Sports Staff

The Belleville Bobcats have taken a 3-1 lead in their best of seven Metro Junior B League semi - final series against the Pickering Panthers and can claim a phenomenal home ice record of 24 wins against one loss in as this season, by right of their 6-3 victory over the Panthers Thursday night.

"We know realistically what they're doing to us," said Pickering coach Sherry Bassin, "but our problem is forcing out just what we can do to counteract it."

"Essentially," commented Bassin, "all they're doing is controlling the neutral zone, red line and dumping the puck into our zone. Then they send two of their forwards in to forecheck and keep the third hovering around our blue line until the first two have created of the play goals. One.

"If we come up with the puck," added Sherry, "then the third forward is right on top of our puck carrier at centre ice and that two on forecorps can concentrate on one other two defencemen. Just can't get three men in the clear in their end and that's what we're used to doing.

The Panthers finished the regular season with a mere six losses out of 44 games in the schedule. Out of those six losses none of them was by more than three goals and they never lost two in a row.

"We had a pretty respectable average of around 3.50," stated Rasslo, "and in the last two games alone the Cats have scored on us 16 times."

"Our boys just seem to like coming to Belleville," added Bassin, "they've had more than seven goals scored against us in a game and Tuesday they got nine.

"They've just plain got us psychologically. Our boys are so far down from taking three losses in a row that we can't get them up to thinking about winning one," observed Sherry.

"I really think it's their defence that's doing it to us," added Bassin. "Tim Yohn has to be the best in the league the way he's playing in this series and his partner (Vern Arney) always picks up what little slack Tim leaves."

Those other two defencemen (Dave Fisher and Wayne Taylor) are about the best blue line pair Jack Costen, Mark and Pat Stapelton. If Taylor takes out our right winger then Flesch is there to pick up the loose puck and if Flesch can't get Taylor's winger then Taylor takes the loose puck.

"What's more, their forwards can skate out to centre ice and set up a positional attack because their defencemen are carrying the puck out of their own end," added Bassin.

The defensive corps of the Bobcats once again played a vital role in dampening down the Panthers' attack. All four — Tim Yohn, Flesch and Taylor — met Pickering rushes with heavy body checks and keen poke checks. They made no mistakes about taking out their man in front of the Belleville goal and if the Panthers were to mount a scoring threat, none of the four hesitated to freeze the puck against the boards. In addition, the foursome blocked shots from further outside man so as not to allow any longdistance goals.

Mark offered his observations on the play of the Cats.

"We didn't really play as well as we have been. We didn't play a bad game, but we didn't play like we have a really sharp game either. I think they've just about had it with this series. We played tough and we played well and they couldn't crack us."

Added Costen, "I think it will be all over Friday."

Mark opened the scoring for the Cats in the first period when Bobcats Jim Richardson and Grant Gosgan combined on a power play at 1:25.

Pickering made 8 1-4 five minutes later when Gary Murphy scored.

Costen potted his second goal at 16:51 with assists going to Mike Watt and Flesch.

Duncan was kept busy in the Belleville goal throughout the first as the Panthers outshot the Bobcats 14-8.

The Bobcats scored three times in the middle period while the Panthers only managed one.

Tim Yohn fired a point blast past Pickering goalie, Dave Hulme, on a power play to open the period and period scoring at 4:34 John Sergeant and Grant Gosgan set the goal up with a smooth passing.

Richardson put the Cats in front 4-1 half way through the period with Gosgan and Costen drawing assists.

The Panthers retaliated a minute later with an unassisted marker from Tim Lindsay.

At 13:19 Watt made it 5-3 Belleville when he combined with Brian Costen and Flesch.

The teams traded goals in the final period with Belleville's Norm Jones and Sergeant accounting for the markers and Pickering's Manley and Bernie Saunders replying for the visitors.

Nine penalties were assessed in the game, five went to the Bobcats. The Cats infractions included a 10 minute misconduct to Dave Taylor and a five minute fighting penalty to Kevin Jones. Norm Paradise, of the Panthers, was also accessed a min ior for fighting.

Pickering outshot Belleville 38-33.

The fifth game of the series is tonight at 7:30 in the Don Beer Arena. Anyone wishing to travel in the game may acquire bus tickets through the Bobcats Booster Club at McKnight's Variety, Front Street.

The Booster Club is also sponsoring a Stanley Cup Draw worth $500 to the winner. Proceeds from the draw will go to Al Garrison, a member of the 1973-74 Bobcat hockey team who suffered a serious eye injury earlier in the season.

Anyone wishing to purchase Draw tickets may do so from any members of the Junior B Club or the Booster Club.

He Shoots-and Scores

Scoring goals is one of Pickering's Gary Murphy's many talents, and here in last night's Metro Jr. B game he proved he could do it. This time he fires the puck past Belleville Bobcat goaltender Ron Duncan for Pickering's first goal. Pickering put four past Duncan, but it wasn't enough, as the Cats took a 3-1 edge in the best of seven series with a 7-4 win.

Time Out for Tournaments

With the exception of minor and major hockey action, Belleville Minor Hockey Association all-star squads competing in Metro Minor Hockey Association Triple A playoffs have come to the end of the trail.

The Quinte - aires minors and the Towers-Food City majors are scheduled to begin group play-offs this weekend. Quintes meet Peterborough in the first round while Towers hooks up with Kingston.

Major store first round play opens in Kingston Saturday. Both Belleville squads are in action at Memorial Arena here. Lions, Quintes play their first game with Peterborough while Towers and Kingston clash in Game 2 of their set.

Most of the other Belleville "travelling" teams are putting the emphasis on preparations for tournaments, these days.

Thirs Lee minor peewees are in Kingston, Saturday, and on March 21, the team is in Whitehorse for tournament games.

Rollins Construction peewee majors have three tournament dates. Naturally, they're determined to make good showing in the Belleville Shrine Tournament, March 29-30-31.

Before the big Shrine event, Rollins visits Orillia, March 16-17. The team winds up its season with a trip to Burlington for games April 11-12-13.

At the bantam level, the McLeroy-Maines minors will compete in the Toronto Toyota Tournament, March 23 and then go to Richmond, March 30-31.

Kinsmen majors have tournament commitment in Georgetown, March 29, and Burlington, April 5.

Belleville Yardmen minors and the Lions Club majors will both be part of the 22-team Golden Boy Midget Tournament at Trenton, March 17-23.

Lions will help the host Tregton Quinte Ice Products club open the event on Sunday, March 17, at 9 p.m., it's the only game scheduled Sunday and is part of official opening ceremonies.

The Yardmen get their first taste of tournament action, Sunday, March 10 when they meet Greenwood, Nova Scotia, in a 10:50 a.m. match.

Belleville's major midgets are in Cornwall for tournament play, this weekend.

Which brings us back full circle to the start.

The Quintes expect to be taking part in a Kingston Township tournament but no dates have been announced.

Towers-Food City has no problem where tournament dates are concerned. They have no fewer than seven games schedule and they're all part of one event.

The local major store team is one of 60 squads from across Canada participating in the 15th annual Brampton Lions International Tournament, March 15-23. At least one United States team is also entered.

This ambitious event, billed by the largest atom tournament in the world, has 224 games, involving 1,500 plucky hockey players.

Towers makes its first start March 16 against Brampton Tri-County. And the Belleville skaters wind up their seven-game stint, March 21, when they meet Woodstock. In between, Towers faces Brantford, Owen Sound, Brockville, Bowmanville, and Riverside.

While the Belleville team is listing in the B grouping for tournament purposes, Wellington will be competing in the D class. Other teams in Wellington's group are Bolton, Delhi, Glencoe, Kincardine and Uxbridge.

The weather the past few days may change our thoughts turn to baseball but for many Belleville and area youngsters, the hockey season is far from over.

City Sending Nine Teams to COSSA B-Ball

The Belleville part of the Quinte district in Cossa Boys' Basketball in three locations this Saturday.

Included in the total are three teams from Nicholson Catholic College, two from Quinte Secondary School, and one each from BCI, Trenton, Moira, and OSD.

Nicholson, who lead the parade with three teams, one in each of the senior, junior, and midget divisions, are competing in a division of the Central Ontario championships, in Belleville, Saturday.

No fewer than nine Belleville teams will represent the Bay of Quinte district in Cossa Boys' Basketball in three locations this Saturday.

Included in the total are three teams from Nicholson Catholic College, two from Quinte Secondary School, and one each from BCI, Trenton, Moira, and OSD.

Nicholson, who lead the parade with three teams, one in each of the senior, junior, and midget divisions, are competing in a division of the Central Ontario championships, in Belleville, Saturday.

In the senior division, Nicholson will join OSD seniors as the best teams from the Bay of Quinte. The two areas are allowed two representatives to fill in the free team tournament, along with one team from both the Lakeshore and Kawartha divisions.

Other schools which fill in the senior tournament in the A competition are Henry Street High School of Whitby, and Peterboro Falls High School.

In the junior and midget divisions, the four teams competing are the same in both. Nicholson once again is the city school involved, while North Addington (Gore) is the other Bay of Quinte representative. Whitby Henry Street and Fenelon Falls are the other teams entered.

OSD is the school sponsoring the tournament, however two of the games in the tourney will be played at Centennial Secondary School.

The junior semi-final games will be at the Palmer Road location, while all other games will take place at OSD gym. Finals for all three levels will start at 4.00 with the midget final, while the Juniors take to the court at 5.30 and the seniors at 7 p.m.

Quinte has two representatives, in the senior and junior divisions of the AAA tournament, being held at Trenton through Adam Scott Secondary School.

In senior competition, Quinte faces Peterborough Collegiate in their first game of the single elimination tournament. Adam Scott is the second senior representative from Kawartha, while Oshawa Catholic High School is the Lakeshore representative.

In the junior division, Norner and Peterborough Collegiates meet up the Lakeshore division, to join Quinte and Eastdale Collegiate from Oshawa in the playoff.

Bowmanville High School is the host school for the midget championships. BCI is the senior representative from the Bay of Quinte area in that tournament, joining Bowmanville and Dunbarton Collegiate (Oshawa) from Lakeshore, and St. Peter's (Kawartha).

Trenton High School has replaced BCI as the junior representative from Bay of Quinte.

BCI had won the right to go to the COSSA finals, but dropped out when many of its team members took part in a Mediterranean cruise.

Trenton was the runner-up in the Bay of Quinte Cossa eliminations, held at Loyalist College.

Joining Trenton in the quest for the AA Junior championship are Cobourg West (Kawartha), and Centennial and Courtice High Schools, from Lakeshore.

Moira Midgets represent Bay of Quinte in the midget finals. They join Bobcaygeon Collegiate from Oshawa, as well as the host Bowmanville school, and Thomas A. Stewart from Kawartha.

Sports Calendar

JR. B PLAYOFFS
TONIGHT — Bobcats at Pickering, Parliament, 7:30. No game in city on account of MacDonald.

Final Going To Wire

LONDON, Ont. (CP) — The 85th Canadian men's curling championship will probably go down to the wire Saturday and nobody's discounting the possibility of an evening playoff.

With Alberta topping the standings followed Thursday night's eighth draw, Ilve Cervais' 7-1 record puts him in the favored role despite a last-draw matchup with Quebec, currently tied for second place with Saskatchewan.

But Quebec's Jim Ursel and his Montreal rink aren't looking beyond this afternoon's game.

"Newfoundland could be the big stumbling block for us," said Jim Ursel, whose Montreal rink has a 5-3 mark posting Quebec in a tie with Manitoba behind Alberta.

While some might scoff at Fred Wight's St. John's, Nfld., rink becoming a "stumbling block" for Ursel's aspirations when they meet today at 2 p.m. EST, Alberta's Cervais is a believer.

Cervais was hard-pressed in handing his record to 7-4 while posting a 7-5 victory over Wight Thursday night and only after the rinks had gone to skip rocks in the last end.

In other eighth-round games, Larry McGrath of Kindersley, Sask., posted his fifth straight win 8-5, over Don Barr of Glenboro, Man.; Jim Armstrong of Richmond, B.C., edged Bob Mc-Jen's Prince Edward Island four from Charlottetown, 7-6; and Quacker Rent of Sudbury, representing Northern Ontario, downed John Clark of Fredericton, N.B., 7-4.

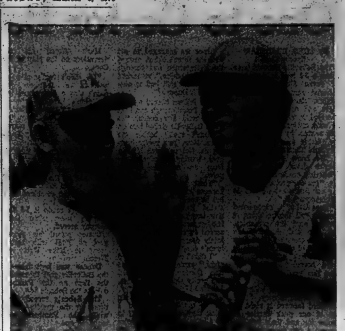
Ontario's representative, Paul Savage of Toronto, had the evening bye.

Wight started to make his presence known in the afternoon draw, stopping Ontario 11-10 in an extra end after five consecutive losses.

Other scorers were New Brunswick 8, P.E.I. 7; Quebec 9, Manitoba 8; Alberta 7, Nova Scotia 5 and Saskatchewan 11, B.C. 8.

In addition to the Quebec-Newfoundland game this afternoon, Northern Ontario plays B.C.; Saskatchewan meets Nova Scotia; Ontario goes against Alberta; Manitoba faces P.E.I. and New Brunswick drew the bye.

Alberta finally got a rest in the evening draw, starting at 7:30, when the two key games should be Ontario against Quebec and Saskatchewan against Newfoundland. Other games are Nova Scotia-P.E.I., Manitoba-Northern Ontario and New Brunswick-British Columbia.



Quebec, with a 5-2 mark, isn't taking the unbeaten Newfoundland four lightly—especially after their surprising win over Ontario and the struggle Gervais had.

Ursel, whose rink had its problems losing both games Wednesday, said the back-to-back wins Thursday "really helps our confidence."

"That particular game (11-4 over Nova Scotia) is as well as we've curled here this week. We're going to get better."

Earlier in the day, McGrath said his rink's confidence had been restored with their win string stretched to five games.

However, five straight goals

Mauch With Talented Willie Davis

Expos Counting On Walker

DAYTONA BEACH, Fla. (CP) — The off-season move that saw ace reliever Mike Marshall o Los Angeles Dodgers in exchange for centre fielder Willie Davis leaves Montreal Expos with a gaping hole in their bullpen for the coming season.

As a result of the Marshall-Davis trades the Montreal club is counting on relievers such as Tom Walker to take up the slack.

Walker was our best reliever next to Marshall last year," manager Gene Mauch said following a training camp drill.

Walker, a 25-year-old right hander, has pitched six seasons as a professional without recording a losing year.

This winter, Walker, who had a 7-5 won-lost record last year, pitched well in the Puerto Rican winter league and finished with a 10-4 record as a starter for the San Juan club. He chalked up a 3.95 earned-run average.

And Walker says he feels his winter ball experience will help him through the coming National League season.

"I was able to develop a change-up during winter ball," Walker said. "I'm anxious to see what I can do with it this year.

"I started down there (San Juan), but I'm not going to become a starting pitcher.

"By working as a starter in winter ball you are just proving that you can pitch nine innings like everyone else," he added. "It also breaks the monotony of always pitching in relief.

"And it helps you keep your arm in good condition and to get valuable experience."

Mauch claims Walker will get ample opportunity to show his wares, as will veteran Chuck Taylor. The latter pitched well for the Expos during the final month of last season.

"Tom is young and he really hasn't had a chance to prove himself in a league," Mauch said. "Don't forget we didn't use him in the ninth inning too much in the past because Marshall was always there."

Walker says he thinks he can help the Expos win this year.

"I don't want to replace Marshall that's too much to ask," he said. "But I think I can be the team's No. 1 reliever.

"I know I'll get my chance and I'm ready."

Remparts Outlast Cornwall Royals

BY THE CANADIAN PRESS

Real Cloutier scored five goals Thursday night as Quebec Remparts outlasted Cornwall Royals to take a 10-7 victory in Quebec Major Junior Hockey League action.

In other games, Shawinigan Dynamos beat Montreal Junfors 10-8 and Drummondville Rangers outscored Trois-Rivières Draveurs 9-4.

Both Quebec and Shawinigan took big leads into the third period and both teams ended up scoring empty-net goals.

Quebec led 5-4 after two periods but the Royals narrowed the gap to 8-7 before the last period was half over.

Cloutier's fifth goal of the game at 18:40 sealed the issue. Other Quebec marksmen were Richard Nantais, Guy Chouinard, Richard Perron, Daniel Beaulieu and Jacques Lozon.

Kevin Treacy and John Nazar tallied twice each for the Royals while Bob Ferguson, Bob Murray and Gary McGregor added single goals.

In Shawinigan, the Dynamos held an 8-2 margin after 40 minutes of play.

Shawinigan goals by Montreal brought the score to 8-7, before Richard Polston netted his third goal of the contest to give Shawinigan a 9-7 lead at 17:22.

Montreal pulled its goalie and Richard Bowness scored his fourth goal of the game at 19:32 to again cut the difference to one goal.

Gaby Jourdain's second goal of the game eight seconds later put the game out of reach.

In Drummondville, the Rangers ran up a 5-1 first-period lead and coasted to their win.

Claude Larose had three goals for the winners with Gaetan Legault, Jacques Chiasson, Gaetan Paradis and Daniel St. Cyr adding one each. Mario Houdberd, Yves Lapointe, Beaulieu and Mario Levesque replied for the Draveurs.

In tonight's play, Sherbrooke plays host to Chicoutimi, Shawinigan travels to Montreal, Quebec is at home to Laval and Hull visits Sorel.

Sport Briefs

END AGREEMENT

PORT HURON, Mich. (AP) — Detroit Red Wings have terminated their franchise agreement with Port Huron Wings of the International Hockey League, the IHL team's general manager said Thursday. Morris Stoller said the National Hockey League club's decision places the IHL team's future in jeopardy.

DERBY SCHEDULED

LOUISVILLE, Ky. (AP) — Churchill Downs announced Thursday that the 1974 Kentucky Derby will be run May 4.

Marchand Asserts Transportation Policy Too Weak

OTTAWA (CP) — The national dream a century ago may have been a transcontinental railway, but maintaining it and other transportation systems can be a nightmare.

Transport Minister Jean Marchand gave this impression during the House speech debate Thursday as he outlined the problems facing his department.

Mr. Marchand, transport minister for about 15 months, admitted that major changes in transport policy six years ago have not worked and he hoped a more far-reaching policy would be brought forward soon.

Geography and demography precludes a self-supporting transportation system, he said.

"If you look at the size of this country and the distribution of its population, you will see that you cannot have a network of transportation unless there is economic everywhere."

Mr. Marchand's speech, in which he explained government inability to keep boxcars moving throughout the winter, followed announcement of $41 million in railway subsidies as compensation for an 18-month voluntary freight rate freeze requested by the minister last July.

The speech also came just after the opposition had hounded the government about not providing enough boxcars to move prairie grain.

Mr. Marchand recalled 1967 when competition between companies and modes of transport were introduced as a transportation tenet. He was transport minister at the time.

"I can tell you now, in all honesty from my experience, that this fundamental principle is wrong in Canada.

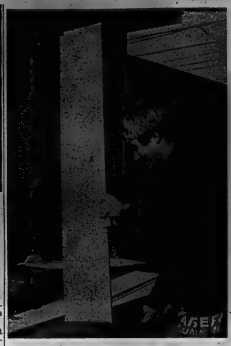
"... You cannot have an economic system of transportation to service the North, for example, or to serve those regions where the population is very thin." Another problem seemed to be a lack of competition.

"I am sure the CNR does not have competition in certain regions," he said. "The same applies to the CPR; sometimes they agree not to have any competition."

These geographic and demographic difficulties also applied to airlines, he said.

Part of the answer may lie in a five-year, $40-million policy to provide improved air transport facilities in the North. Announced Thursday by Mr. Marchand, this will provide minimum standards for airport facilities in the North.

On the grain boxcar supply situation, Mr. Marchand said one answer may be to have an over-supply instead of having shortages during peak periods.



Earlier, Otto Lang, minister responsible for the wheat board, blamed unusually heavy snowfalls on the Prairies for the shortage. The response brought jeers from the opposition, including a cry of "snow job" from Alf Gleave (NDP—Saskatoon-Biggar).

Mr. Gleave said Canada's grain export dependability will be questioned because the system is 17,000 cars short of its objective.

Mr. Marchand said later that one possible answer is to stockpile railway cars.

"I am sure of one thing, however, I do not think we can go very far in this country without a policy . . . which is much more far-reaching than the one we have followed nationally until now. . . .

"Something we do not have is a real policy and I hope that sooner, rather than later, it will be possible to have such a policy."

Siding Goes On

Contract laborer Dennis Asselstine prepares aluminum siding Thursday for one Preston Park subdivision home he expects will be completed before the week's end. The split-level on Robertson Ave. will need about 500 square feet of siding at an approximate cost of $500. Generally, said Mr. Asselstine a workman with Trend-Quote Home Improvement, completion of work takes one to 1½ days, depending on the house and the speed of the crew.

McKeough Balks At Dam Studies

TORONTO (CP) — Energy Minister Darcy McKeough made it plain Thursday he doesn't intend to help opposition members elect dams the Mississauga River project with chief Cassidy (NDP—Ottawa Centre).

"As far as I'm concerned you the government's own studies. have got all you're going to get," he shouted across the floor of the legislature at Mr. Cassidy asked for engineering studies done by Ontario Hydro to justify construction of the proposed hydro-electric facility on the Mississauga River near Arnprior in northeastern Ontario.

The remarks opened a minor uproar with Mr. Cassidy and the two opposition leaders claiming the minister had denied members the right to legitimate information.

The incident occurred after Mr. Cassidy asked for engineering studies done by Ontario Hydro to justify construction of the proposed hydro-electric facility on the Mississauga River near Arnprior in northeastern Ontario.

PCs Suggest Transportation Joint Study

OTTAWA (CP) — The Progressive Conservative party has proposed a joint study group with the provinces to reform the national transportation system.

A party background paper, released Thursday, said the study group would recommend improvements to the National Transportation Act to achieve a "modern, efficient and low-cost system of transportation."

Other party proposals include a joint commission on transportation with the United States, greater competition on domestic air routes, a new roads-to-resources program and modernization of railways.

The paper will be discussed at the Conservative party annual meeting in Ottawa March 29-31.

Buzzing Away at the Job

Framework carpenter Ron Hayes cuts roofing slats among piles of wood and the mud of spring thaw Thursday at one of several homes going up on McFee St., in Belleville's north end. Along with two other workers, Hayes expected the roof to be up yesterday and the remainder of the frame completed by the end of the week. General contractor for the McFee St. subdivision is J.L. Farrell Construction, a city firm. The three-man crew began work this week with the framing of the split-level home.

50,000 Housing Target

OTTAWA (CP) The federal government will attempt to buy or build about 50,000 housing units in the next five years for rural and native families, Urban Affairs Minister Ron Basford said today.

He told native leaders that the housing would be supplied to "people in rural areas and small communities who cannot afford decent accommodation."

One of the main thrusts of the new housing effort will be to provide dwellings for purchase with payments based on income, he said.

Other housing programs would be adapted to rural needs. These included existing measures such as assisted home-ownership, co-operative housing assistance and residential rehabilitation.

The urban affairs minister was meeting with the Native Council of Canada and presidents of provincial Metis associations to outline the new policy. Text of his remarks was released as he met with the native leaders.

The new policy announcement follows about three years of talks with the Native Council, provincial metis associations and provincial governments.

The Native Council last September deshanded construction or acquisition of at least 30,000 to 40,000 new housing units over five years for native people. The council also asked for trained Central Mortgage and Housing Corp. employees to be provided to native groups to help them manage housing projects.

Mr. Basford said that while the goal is 50,000 dwellings in five years for natives and other rural residents "it may not be possible to provide as many units as this."

"Much will depend on the ability of native people and others to help in the delivery of the programs and on the co-operation of the provinces, but the federal government is ready to play its part in achieving the objectives," he said.

The government would provide 75 per cent of the capital cost of housing projects while provincial governments would assume the remaining 25 per cent. They would also share operating losses.

Units built under this program will be available for purchase with monthly payments based upon the schedule of rental fees approved for public housing.

The minister said the payment according to income plan has been applied mainly to subsidized rental housing in large cities "in rural and small community situations, we do not believe that rental housing offers the best solution in most cases."

Touch of Class

TORONTO (CP) — Commuters packed on a subway into the downtown area "were stunned during a delay on the line. The motorman switched on the intercom and, before explaining the cause of the delay, said: "Ladies and gentlemen, this is your captain speaking."

Just a Touch or Two

All that is needed to complete this Dunnet Blvd. home is a few finishing touches — some brickwork and painting. Thursday, Blake Carvel (left) and contractor Hodges Tedford of RR 4 Stirling huddle for a short scheduling talk before carpenter's helper Blake went on to prepare the basement window for final brick work. The Fenton Park subdivision home will be finished soon, said Mr. Tedford, noting most homes are completed within three months if no delays are experienced in getting materials.

Better Balance Urged Between Ads, Education

TORONTO (CP) — Broadcasters must do more to educate the consumer if they want to avoid government intrusion in their industry, John Clement warned Thursday.

Mr. Clement, provincial minister of consumer and commercial relations, called for a better balance between commercials that sell products and programs that educate the consumer.

Much of television's consumer education programming is under-financed, under-manned and inadequately informed, the minister said in a speech to the Broadcast Executives Society.

"The boost given to uncritical or unconscious consuming by the commercials is certainly not offset by hard information on how to buy, or what to do when things go wrong."

If the industry is serious about avoking government con-

trols, "then you should consider sooner in an interesting and doing more to educate the con-creative way."

BIRTHS

HOWE — George and Arlene (nee Burchill) are pleased to announce the birth of their daughter Angela Marie, 2 lbs., 4 ozs., March 1, 1976 in the Belleville General Hospital.

IN MEMORIAM

DUTTON — In loving memory of our dear grandmother, Hannah Dutton, Sidney, who passed away March 5, 1972.
Those we love most still come o'er us,
Fresh in memory ever new.
For memory keeps you ever near us,
Though you died two years ago,
Sadly remembered by grandson Ken and granddaughter Sharon, great grandchildren Kathryn, Jill and Michelle.

BETTS — In loving memory of a dear father, Ray Betts who passed away March 5, 1968.
Today recalls the memory
Of a dear father we loved so well,
And those who think of him today,
Are those who loved him best.
His forever we'll keep his place,
Well wither and decay,
Like flowers that grow when he has gone,
We will never fade away.
Sadly missed and remembered by son Ken and Sharon.

TWO YEARS OLD

This Keller built side-split with walk-out from laundry room has all that back-breaking tree planting and grass sowing done. Three bedrooms, eating space in kitchen, panelled playroom.

VILLAGE LIFE

is very desirable to some. If you hanker to live in a small community, a 3-storey home, 3 bedrooms and study which can be yours for less than $20,000.00 you'd better let those fingers do the walking tonight.

BETTER BUSINESS BUY

Car Body Shop with increasing trade and excellent future for industrious buyer. The dented fenders and scratched doors of the Quinte area are eagerly awaiting you. $48,500.00.

TRIPLEX PLUS

Three 2-bedroom apartments and corner store return the owner a very reasonable net income. Some modernization and decorating have been done and the store location is convenient.

COLONIAL ROAD

(1) Brick and aluminum bungalow, fireplace and garage. $36,548.00, 1,300 sq. ft., by Swan.
(2) Timber style hi-ranch bungalow with garage. $37,500.00. 1,130 sq. ft., by Rollins.
(3) Split level with finished family room, fireplace and garage. $38,800.00. 1,300 sq. ft., by Lambert.

These and other models will soon be taking shape... If you wish choice of colors and other details, don't delay.

DUPLEX

Two 2-bedroom units, 2-car garage, paved drive, near bus stop, school and variety store. $28,900.00.

OPEN UNTIL 9 P.M. — 962-9154

JJ LEWIS REALTY INC.
REAL ESTATE BROKER

A LITTLE BIT OF HEAVEN

In a lovely treed setting 45 acres of gently sloping land by a pleasant, quiet road. Ideally suited to the spring builder who intends to hobby farm and run a few horses. The large older barn can be re-modelled to suit your needs. Carrying Place area. $15,000.00.

THE LUCK OF THE IRISH

is with you if you've smart enough to inspect this 4-year-old bungalow in the Barry Heights area of Trenton. You won't hesitate to hatch your nest egg and invest in the 100 x 176 ft. lot that meets VLA minimums and the 3-bedroom home has 4-pc. bath, separate dining room, full basement, carport, PAO heating. Priced to sell.

WATCH THE SUN SET

From your own private cedar deck that presents a panoramic view of the countryside. 35 acres with spring, small pony barn, brick bungalow. Two years young! Features include sugarbeam fireplace, sliding patio doors, picture frame windows, plus wall-to-wall and cushion flooring that add beautiful, long-lasting luxury. A bit of country, commuter-convenient to Belleville, just 13 miles north.

7 LOTS — VACANT LAND
IN PRINCE EDWARD COUNTY

Some are lightly wooded and all have good soil to grow your own vegetables and flowers and help reduce the cost of living — real estate prices may be higher in the spring — buy now — a good hedge against inflation.

4 acres with well and old barn	$5,000.00		
6 acres	$ 6,000.00	6 acres	$ 6,000.00
7 acres	$ 8,000.00	10 acres	$10,000.00
15 acres	$11,000.00	20 acres	$16,000.00

SOLID BRICK SCHOOL HOUSE

This school house is about 2,630 square feet on 2 acres with a right-of-way to Adolphus Beach. Septic tank for 300; good water supply, forced air oil heating and is in excellent condition. It is about 3 years old. Firm price of $35,000, and cost $65,000. to build. Just 2 miles to Glenora Ferry. Taxes $212.

Long Established
AUTO BODY SHOP IN PICTON

You won't get rich working for wages — you have to speculate to accumulate. This is an excellent chance for 2 or 3 good men to get together and combine mechanical repairs and body work. Forced air heating. Lot 72' x 181', 10 amp. service. Block building 22' x 96' and 16' x 24'. Owner is anxious to sell, so is not selling as a business. Asking only $42,000. Try your own down payment.

Your Horoscope

Saturday, Mar. 9

By BERNICE BEDE OSOL

Aries (March 21-April 19) This is an excellent day to work out agreements. Advantages will be gained through partnership arrangements.

Taurus (April 20-May 20) Conditions having an effect upon your career and earning power are shifting favorably in your direction.

Gemini (May 21-June 20) You will find yourself more in demand socially than usual this weekend. Much attention is likely to be focused upon you.

Cancer (June 21-July 22) Is several areas where there was discord or confusion, harmony will prevail. You'll feel more sure of yourself and able to act more competently.

Leo (July 23-Aug. 22) Your judgment is exceptionally keen and farseeing now. Act in a positive fashion on ideas that come to mind.

Virgo (Aug. 23-Sept. 22) Over the next few days you'll be able to gain advantages from business or commercial dealings. Be alert.

Libra (Sept. 23-Oct. 23) Others will now rely upon you more heavily in partnership matters. They should. You excel in these situations.

Scorpio (Oct. 24-Nov. 22) Pull the strings from behind-the-scenes. It's how you will be better able to advance your interests and those of a loved one.

Sagittarius (Nov. 23-Dec. 21) At this time you'll find your friends and contacts are valuable to you in the social arena and humanitarian as well.

Capricorn (Dec. 22-Jan. 19) This is a favorable period to devote full attention to situations contributing to your status or reputation. Important achievements can be realized.

Aquarius (Jan. 20-Feb. 19) You are likely to be thinking in bolder terms at this time. You should be. Don't be foolhardy or overly impulsive.

Pisces (Feb. 20-March 20) Give as much time as possible to a major interest you're involved with another. This situation is promising.

CHANGE FLAVOR

Change the flavor of hard sauce to be served with pudding by adding grated lemon rind instead of vanilla to the butter and confectioners' sugar mixture.

SIDE GLANCES

by Gill Fox

"Did you read this office memo? Henceforth, the boss's nervous breakdown is to be referred to as a 'mental hernia'!"

Listings Changed

Daily program listings for the Global TV network will be shown in The Intelligencer as being presented on Channel 3 beginning with the Tuesday, March 5, insertion. These programs are received on Channel 2 by viewers with TV antennas but since 85 percent of TV owners in this area subscribe to Cablevue service and receive the programs on Cable Channel 3, it has been decided that the listing should be shown as it applies to the majority of homes.

Muscle Spasm Due Lactic Acid

By G. C. THOSTESON, MD

Dear Dr. Thosteson: What causes muscle spasm? — G.S.M.

Muscle spasm is the direct result of a complex chemical process that takes place when the muscles are used. Normally the body is able to complete the process without any problem or we would be nothing but a mass of aches and pains all of our lives.
